FAMILY LETTERS

Brooklyn Jan<sup>y</sup> 2<sup>nd</sup> 1865

Dear Son.

I thought proper  
to congratulate you on the new  
year which we have been per-  
mitted to live <sup>to see</sup> through the  
goodness of the almighty &  
hope for some wise purpose  
through very few estimate the  
privilege as they should do  
I have but little to communi-  
cate, as I wrote last week. I  
have not received a letter from  
in some time, but you know  
full well I cannot receive unless  
you write. I have the pleasure  
to inform you that we are all  
pretty well including our  
friends in general.

I hope your little ones are all enjoying the blessing of health. I had to have children sick. I think you are healthy. I presume you enjoy your holiday presents. I set a sometimes table for your friends. I did not unpack but not doubt had giving them to you. I had a cold so far. In respect to him. I therefore send maud in my room to avoid his me word. I think it is time I had my sick as he is the most desirable as you will decide. I intend to send in a package by a box that is to be sent to Mr. Partridge & Bentley to be a big bag. He looks fine. I think says it will be just as you is request if it is in the ship. I think you by is request if it is in the ship. I think you you made when 7 years of age. I think you health is improving. I think you your Patchwork something for you to expect to your friends. I think you I children take great care of them as I have done in respect to your horse progress and all your stocks I hope prosperously. I think their the War does better than the papers that I see by the papers that I see.

has sent a peace commissioner  
to the south I was a creation of  
killing of the men they have tried  
long enough I should think of  
what a shame to destroy such a  
country but it grieves me to write  
now my dear child I hope to  
hear from <sup>you</sup> before long. Given love  
for you and family.

Your Mother  
M. Whaley.

How did the law suit ter-  
minate?

The date of your last letter was  
Sept 22 - 1841 is that writing  
once a month near 4 months  
ago only 8 days, I guess you you  
do not think much of my offer.  
you may see the time you will

Dear Son Thomas

I was almost resolved not to write in 3 months the time which has elapsed since I heard from you to 3 months since Mrs Day left N.Y. during which time I have not had a line to say that you received my letter by her, or has Mr Desmoyburg or daughter acknowledged the present sent by Mrs Day - this is rather strange. Mons. must be quite offended I do not know what to do, he knows he transacted the business with J. he must write to him if he has not attended to the agreement he made with J. why don't you write to John, the man ought to have his pay, the last time I spoke to J. he said I will write next steamer tell J. to write to me then I would give it to J. to read I am vexed that I have any trouble of mind about it, too mean. it may all be settled by this time, hope it is. I hope all your children have recovered from the Ho-Cough I am quite anxious to hear. Thomas you must have heard of death of your Aunt Priscilla, for which we are all sorrowing, as it was so sudden. I am much bereaved as I have no one to confide in as I could in my eldest sister only 3 of us left you would be much surprised to hear of her demise. I believe she was ready & willing to meet her Redeemer which is a great comfort to us all she had a very nice funeral nothing wanting buried in Newark Father left a beautiful jewel

...mount Pleasant ... where any of his children could bury if they pleased. I cannot realize that my dear sister is gone to rest. Little rest in this world of sorrow. How does Mrs Day feel about Ann? I should fret myself to death to trust she will be permitted to return to the arms of her good parents, Mrs Day, is a woman of strong nerves. July 18, 1866 - no letter yet what what can be the cause, I hope you are not ill. I must wish you all a happy N. Year notwithstanding my despairing feelings for the loss of my valuable sister. Happy am I that I have not to reflect on any neglect towards her I shall ever celebrate her worth. Her work on earth was done, and Jesus called her home. I think she lived happy and had very comfort peace to her memory, thus far I have not heard from Mrs Thompson I hope she has not returned to Cal. Ma. letters from Kate since the date of Oct 3<sup>rd</sup> 66. I hope she has not given up writing to me, I send her on 11<sup>th</sup> inst which is the 6<sup>th</sup> letter I have written received one, strange I directed as she said I must. I may get one the next day if a steamer leaves on the 21<sup>st</sup> inst - I want to hear how all the little ones are of their cough my poor little George, I hope he will get well that I may see him. I know he is a fine fellow give him ten kisses off with the rest of the children. I listen for a knock at the door as post are in. I hope to hear good news from you this time have you heard from Henry since you wrote.

My dear Mrs. Whalen:

Sarah handed me your  
letter immediately upon her  
arrival here, and you must  
receive my warm thanks  
for the comfortable pretty clips-  
pers you sent to me, articles  
in which I have been a long  
day dipping for months.  
My husband took Karsing  
where to procure the kind I  
described to him. You must  
also receive my thanks for the  
kind care you have taken  
of Public separated as she is  
from all female relatives she  
needs a kind - kind friend  
and that place you have done

is being taken. It pains me to  
hear of your suffering State  
of health, but I'll hope I've long  
you will be as robust and  
strong as I feel at present.  
I did think only not a little to  
know that there is any differ-  
ence between Mr. Whalley  
and my husband. About  
that independent lot of Am-  
erican conduct, know that Comman-  
dant Cameron is not benefit-  
ing the nation, and but acts  
in this in his line of action  
is allowed you will find a  
Statement which I long since  
he made to me as the result  
of my private, and also that  
I long since said them to you.  
I sincerely hope, this important  
made his views many of them  
his difference in the general

by relation which has always  
existed between us.  
I expect to visit Jan  
Francisco next week. I hope  
I beg you will not mention  
this to Peattie, or among  
be obliged to people or any  
other course. Hoping to find  
you feeling somewhat better,  
with much regard to  
you. I am, dear  
friend, ever your  
Obedient servant

Brooklyn Feb<sup>y</sup> 1855

Dear Son Thomas.

I can scarce comprehend the meaning of your silence, as you are well aware of my great desire to hear of your health and well doing, but children appear to estimate parents requests but low at times. 'tis now past four months since I heard from you, though you may have written but, I inform you that I have not received any since the time I mention. I would not deprive you of the pleasure of perusing a letter <sup>from me</sup> if I knew it. I hope you have had the pleasure of welcoming Mr Col<sup>l</sup> Charles S. Bulkley. I have sent you a package containing some things the shirt you made when a boy likewise the patchwork you made a red cloak for baby: what is ~~the~~ the little ones names this package is favoured by being put with Mr Bulkley's so John said.

The day I writing for Anna Amelia, & Mary  
the couple, you will prize highly for your  
pains. Patience asks. I think you will  
do so, I wish you to improve me in mine -  
duly on receiving them, do not neglect -  
to do so, we have had a severe cold -  
winter, I tell you; I expect you have forgotten  
how cold it is now. it is almost to cold  
to write. Why do you not say that Gracie  
writes his grandpa an answer to the letter she  
wrote to him. My kind regards to all  
who may inquire after me. I presume Mr  
Doy has now completed his course, I hope  
you call on them occasionally. They are  
poorly people. I wish the 2<sup>d</sup> I have to  
inform you that your sister is dead  
with a fine healthy complexion, in the  
17th of July, all are well and comfortable  
hope yours are in the same condi-  
tion & that you still continue  
to surmount all difficulties & obstaining  
to your complaint.

I begin to feel a letter should now  
that the severity of the winter is over  
dusting, that we shall have a pleasant  
spring. You are keeping us waiting  
a long while for a letter; I see by the  
papers that Col<sup>l</sup> Bulfinch has arrived in  
San F. I hope he has called on you before  
any, & you will see him as he will get  
his supplies from your department &  
I have not little to communicate as  
as your release gives me a small  
opportunity for conversation, but I had  
not written since I gave the package  
to John. Therefore I wish you to be  
aware of its coming so that you might  
inform me of it sooner.  
I trust you are proceeding in all your  
undertakings. I shall look forward to  
May month with great pleasure if you  
would return as you promised when  
you wrote that it was your intention to  
do so but if you find that it is not

in your power I must bear the disap-  
pointment the best I can as I endeavor  
vain to surmount all deprivations may  
my loss be your gain - though I hear  
little regret from you, possibly you  
have forgotten all you wrote, with  
many other remarks, no doubt they were  
gratefull to me to peruse. at the time  
may you reap the great reward.

A filial return of gratitude from your  
children should you live to my age  
then you will be a competent judge if you  
are capable. I you will receive my  
love to you and family. kiss the bible  
for me, tell them, Grand ma wants to see  
them all very much. does George sing any  
more I hope he does and will improve.

Your Obedient Mother  
R. Whaley.

Brooklyn Nov 16 - 1860

Dear Son Thomas,

Yours of the 15 of Oct has come to hand. happy to hear that you have recd. the enclosed letter I thought it would bring past recurrences to mind though so many years ago. I hope my boy will be able to read one of these days. I have the letters safe. I am glad the little ones are all restored to health. You must have had had rainy season. but cleared of fine. I am pleased to hear that you are prospering. I had a letter from Kate a few days ago saying her husband had given up business gone to the pit, he had not gone before. I have had a letter from Henry answered it, waiting for direct terms to send his \$500 - with its increase, I fear that he is doing but little, who would not feel delighted, to return to her <sup>Mrs Day</sup> ~~own~~ home, few would have left it for the purpose she did, least she might never return, she must have known, the loss of her only daughter would have been great, a strong need woman, I trust she will be compensated for all her deprivations, she is as economical now as she was then, she has more to spend. I have answered Leopold letter John has had considerable trouble with his affairs. I presume he has overlooked the necessity he will attend to it soon to give employment I am sorry for

I thought you could not refrain from condoling  
 with me for my sisters loss, I thought you was fond  
 of her, I have only one left Ann Angelina I feel her  
 loss sadly, you have no idea how beautiful she looked,  
 as she lay in her coffin, Sylvester was here he said  
 had he not seen her he could not have thought it  
 it possible, not a wrinkle, calm and pleasant face,  
 she did not look over 40 though she was 77, the Sunday  
 before she departed. (I think I must be a fine woman, I am  
 glad Wm has such a nice wife, my regards to him  
 you know he was a favourite of mine, I shall  
 be pleased to hear all about your family. you  
 appear to think I do not know how to appreciate  
 friend Warner, I have not thought of the poor  
 for a long time, until you write of him, this time  
 I thank him for any kindness he bestowed on you or  
 family. I am glad you think of coming to see us  
 time you did, or you may sadly regret it, I should  
 indeed be pleased to see your little family, my sing-  
 ing bird I thank for his looks, of heart I hope he will  
 continue to sing, until I see him I have made up my  
 mind he is the flower of the flock, as people was wont to say  
 of me, Do send me a lock of your hair gray or not  
 how is mining stock going now, I hear by a friend  
 whose friend has a daughter at the Nabzar College  
 that it is more like a Hotel, than a place for instance  
 she says they dress so grandly - I expect the most  
 wealthy attend, though I heard it would not exceed  
 \$350 a year had extras is the Cost Now my dear son  
 receive my blessing for you and family your affec-  
 tionate Mother R. W. Wiley

Do ask him to come to see you

I wish you to put I love you

My Dear Cousin Anna Amelia,

I was much pleased to receive your kind present by your Father's friend Mr. D. I read the book through and think it very pretty, it compares with my Sunday-School books. They say that I saw your Papa when I was a little baby of five months old, ask him if he remembers me at that time? I would like to see all my Cal.<sup>a</sup> Cousins, my Uncle John has five children two of which are nice playmates for me, one is 13 the other 10 years, which is the most lively of us I am at a loss to say, I have three brothers and a little sister of a month old. Do you take music lessons? I have taken them nearly two

years, and hope when we meet we shall  
be able to play a duette together.

Remember me kindly to all my Cousins  
Uncle and Aunt. hope to see you all

soon I would like an answer to this,

Recive it from your

Affectionate Cousin.

Dear Son Thomas

Brooklyn March 10<sup>th</sup> - 1866

I have had the pleasure and satisfaction of welcoming our friend Monsieur Desoreulhrouges and hearing once more from you which we were all anxious to do. I was fearful to weary him with my many inquiries, but, you know he is very polite and gentle in his manner. I was much interested with his detail of his little girl. John has given him a cordial invitation to stay at his house on his return from Paris. I am happy that John was so kind and hospitable to your friend. I think his appearance is changed though he is looking very well, he spoke highly of you and family my little George in particular, I was sorry he did not see sister. She was still in her room, as she had been confined. on his return she will if he comes this way he saw J and all his family except Mary. he gave me his wife's <sup>visit</sup> card to look at, she appears as a mild looking lady, I hope and pray her husband and child, will be restored to her safe, what a happy meeting it will be, to once more behold her husband and child, that she has not seen for so many years, how assiduous the parents will be to gain her affection. O, May their offspring be fully aware of her parents fondness, and repay them with full gratitude, my kind regards to Madame D. with my best wishes. I hear that Mrs G. Thompson is not well, my respects to her. You were named in your letter that Col. L. Kingold, was deceased I was surprised I heard it from Mon<sup>r</sup>. I commence to write again on the

Warranted by certificate as being made to every expression. May you all be well.

we did not get them until <sup>when</sup> return home from Washington  
this letter will be mailed on the 23<sup>d</sup> inst. I acknowledge the  
receipt of Mr Kingold Poems which, I am much pleased with  
he must have been blessed with a fertile imagination, then if  
he only treated his Mother with the love and affection, she deserves  
he will undoubtedly have great happiness of Mind, as a man  
of sense and feeling, I presume he <sup>did</sup> ~~did~~. I was happy to receive  
your Photograph though you look much changed, I think your  
bante <sup>de</sup> Visette is more natural looking to me, you must be quite  
corpulent, and stout, we are glad you sent them. I hope you  
are this received your papers - Shirt - Patchwork - with

some other articles <sup>haby</sup> a cloak I do not know her name

strange you directed Monsieur - to Mr office when they  
& John were keeping house in B, he had great trouble to find  
John, <sup>sent a child with him to me</sup> from the direction he had from his informant at the office  
I was sorry indeed, he called but <sup>busy</sup> ~~one~~ appeared, I wished him to  
come to tea, he said he had to prepare as he sailed on Saturday <sup>more</sup>  
he would return this way I was anxious to treat him kindly  
sorry I did not request him to write I expect he write in english or  
french would do as I could get it translated I may write soon

I am sorry it is so you appear to have had a great trouble with the property you and Kingold bought together I am sorry to hear it you are always in law or some difficulty. I hope you inquire off Ben send a verbal message to <sup>him</sup> ask if his daughter is married. I should be happy to hear of him, as you may suppose. Now my dear love I write close hoping to see you very soon it might so happen I wish to be remembered to you & family. Your Affec Mother

Thos Whaley Esq  
Dear Sir

I received your letter of 10<sup>th</sup> inst by steamer yesterday, but as the steamer arrived so late - the Express reached town at two o'clock & left again at four o'clock - I was unable to write you by return steamer.

I must apologize for not having written you previously, but since my return from Lower California I have been exceedingly busy - mostly however outside of my regular business.

In regard to the value of the late Col Brinkolds property here, I will state that I do not think it would bring at Auction one hundred dollars perhaps not over twenty five, but should business from any cause improve this property would immediately become valuable.

(You know the situation of the property - the Hays estate - & know that its value depends wholly upon the prospective importance of San Diego.)

(In the event of a foreign war I have no doubt San Diego would be fortified and our splendid harbor would be put to some use, in which case there would be some value to lands fronting on the bay. There is no value to

property, such as lands & houses, here now for instance the house where I lived & kept store, opposite the General Store, is now Ensworths & he has offered it for \$300<sup>00</sup> without finding a purchaser, and it is in good order. He rented it a short time for five dollars per month.)

Ensworth is still in Los Angeles I presume he will be down in the course of a month or so; He is slowly improving.

I will attend to your request about having your property properly insured. I think it was that pile of bricks & the brick making machine that was insured to you as

personal property.

( It is thought by some well informed parties that the Headquarters of the Southern division will be removed to San Diego.

A Gentleman the other day stated that in conversation with Genl McDouell he stated that it had been reported to him that it would cost \$25000 - to \$30000 dollars to build a road from San Diego to Warners Ranch.

Now there is a good road & the County road tax will keep it in order forever from San Diego to Warners Ranch. And it would not take over five thousand dollars to build the road via Jacumba straight across the mountains to the desert.

( The San Pedro & Los Angeles folks are very much afraid of San Diego and let no opportunity pass to injure us.)

Banning has plenty of money to use when it will benefit him to loan it without notes & without interest or security. When Wilmington was first started Army officers it is said spent more money every month than their salary for a year.

(Our Copper mine does not yet pay any dividends - in fact I have serious doubts whether I will ever live to see that happy time - though the ore improves as we go down on it.

How does it happen that there was an announcement on the Napoleon stock?)

I think the mines in Lower California will soon be worked, which will help San Diego a little.

I have no funds in my hands belonging to you that I am aware of - as I understood Mr Ensworth he thinks you are now indebted to him somewhat on merchandise of -

with one hundred and twenty dollars

Dear Lewis

I have written you that Monday  
I was gone, yesterday after a weeks absence,  
we were all surprised, he <sup>came</sup> says he has been  
sick, we were all extremely sorry to hear  
it. I think he was very foolish that he  
did not bring his child to Johns as he was  
duly invited, and saved his money  
as he wants me to bond him \$100  
as the price on the ball steamers are  
double, will give me his sister Mrs  
Dunard, for payment. I do not like to  
see a fellow being, at such a great loss  
I is willing to lend \$50 to him as your  
friend, I wish sister, to lend \$50 - but she  
would not consent, I do not think she  
will perhaps she will, never be placed  
in such a situation in a strange  
land, or her children. I told her to ask  
her husband if she had not the power \*

Thomas remembers \$100 is the sum he told it is  
I misunderstand Mrs D - have promised

\*you will no doubt wonder Woods did not require more  
 from his sister when he was in G. the ticket a double  
 the price as when he came from Cal. going is more  
 than coming to Cal. Thomas, yours of the 25<sup>th</sup> April  
 has been received we are happy to hear that you  
 and family are well, I am sorry your strength  
 is failing. Glad you have seen Bully no your  
 package did not go with his, too late, too well you  
 have acknowledged your papers quite time. Why did  
 you <sup>not</sup> retain the situation, until you was in a  
business, But Mr Warner said you had begun a  
 new business do you give that up too. Strange you  
 have so many debts, as you receive a good salary  
 and make something besides, or how could you  
 buy so much stock, I told you to invest your  
 your money in something better, now you  
 begin to look around, pity you was so blind  
 do not blame the loss of your situation could  
 you return home and keep that likewise, at  
 all events, you might have more home in this cost  
 only \$200, little, yourself alone, I mean. Now you  
 have too Moan over your Chapman Copper mining  
stocks. It's too sad, I do not know what to advise  
 Mr Warner said was you to sell out, all, your field  
 wherever with, to begin a small business he is a smart

Thomas I did think after I gave you the offer of a lot  
to build on, with  $\frac{1}{2}$  for a garden spot that you ~~would~~<sup>would</sup>  
would certainly ~~would~~ come home. Now again you <sup>talk</sup>  
but as you did not, I must try to be satisfied.  
As you say all depends on the sale of your stocks  
you have a lot in B<sub>2</sub> of your own, all helps to  
make a pile. I trust your fears will not be  
realised to lose every thing. No I should <sup>think</sup> your  
prospects are not so bad as you anticipate, be  
carefull and Economical. You will get home yet. I  
should <sup>like</sup> better was you here, in case you sick  
or of any as being taken away. This you will  
consider is a matter of course. You say lads  
is country to make money in, if you have not  
done so, I beat the use of your staying now  
for you will not be young again, you say you prefer  
coming home, to remaining in Cal who is to guide  
you, you talk of one way and do another so  
that will not help you to come home, time  
you did the bear is over, so they say that  
will help you to live at less expence here  
I have waited patiently for this spring but  
you ar not bit nearer than last as I see so  
will trot along I suppose I think as Mr <sup>Success</sup>  
Warner does if all yoke was in gold you might

but what is the use of my talking, you think I have  
but a small share of knowledge, compared to  
yourself. But, we will talk of the little one!

I would like to see Walter, Carte, Widdell and George  
as he must be a big boy, tell them I want to see  
them, I may when people sell his stocks. They  
are in City. you had better come to them  
and hurry up the sale. I think you are not  
so disgusted with John as you will be ere long  
if you <sup>feel</sup> as you write. Well John &  
child situated at John until the Steamer sails

I do indeed feel very bad for him he is  
a well disposed man as a loss with his  
child. I presume John & I will have to lend  
it to him I think you would, was you here.

He says the man is nothing to see <sup>9.500</sup> only as  
your brothers friend, if any thing was to be  
reieved they would both belong to him  
I can tell you. John has shown him <sup>self</sup> to be

kind hearted, man, then in respect to you  
I expect Edward, are well off, therefore  
when we receive a return from them all  
will right, and I shall feel that I, and J  
have helped a deserving fellow man.

As it is a great doubt if you will help in the

Handwritten text on the left margin, mostly illegible due to bleed-through and fading. Some legible words include "John", "Edward", "Walter", "Carte", "Widdell", "George", "City", "Steamer", "John", "Edward", "Walter", "Carte", "Widdell", "George".

I guess H & W<sup>m</sup> will think not much to be made  
by letters of interduction, at this rate, from stock-  
not that I want, any of their Money, I can tell you  
How, sad to be so selfish, no use to talk to  
such people, but remember, remember.

I have written to you in this in which I ex-  
press our surprise that he had left so abruptly  
but you will get full particulars when you see  
<sup>Dorchester</sup> him, and his child, she is quite a nice child  
her <sup>name</sup> ~~name~~ will be glad to see her safe & sound  
what a fuss it makes, but we are all  
subject, to dis appointments in this life -  
Miss D is playing at this time, on of Stians  
her papa appears to think very much of her  
I am glad to see it; for my part hope she will  
do well in the world, to Day is the first day they  
have been <sup>here</sup> came last night May 25<sup>th</sup> sail on  
the 2<sup>nd</sup> of June, had he come here on his arrival  
from France, he no doubt would have been on  
his way to Cal<sup>if</sup> but, all will be right when  
he is safe home, he appears much fatigued  
no wonder. I presume the child has had  
a good education she appears affable, I am sorry  
I cannot talk with her my stock of french  
soon exhausts. she smiles when I speak

I told her to tell you, I spoke very bad french  
she plays her music very nicely, I will tell  
Oliver, to write me a long letter if french no matter  
I can get it read, she writes finely. I see  
Sister, will sell her house she lives in I was in  
hopes she would long ere this, as I would  
like to have hired or rented near to her,  
I do not desire to live with them again  
though, I go there often, I have near written  
all I have to communicate, you <sup>will</sup> at least be able to  
conceive my intentions on all particulars.

I have not been very well this last week feel  
better - All others quite well. Mr L, and John  
gone to buy the tickets, L is not well a pain in  
bowels, I hope it will be no worse. you have written  
to W<sup>m</sup> and Warner, L and I are to call on Warner  
to day he told W<sup>m</sup> he wished to see L - he has  
just told John he can do with \$120 - all well

I presume all will be correctly attend to by Monday  
L I have not given any one any of the spouses father  
left. I cannot, tell the place I have put the knives.

John will ask W<sup>m</sup> to day if he is willing to lend of the  
\$130 - as my funds and I are low ~~at this~~ I think  
he, may I hope he may, if not me and John will  
I should be sorry - W<sup>m</sup> L, should know what to do  
there has been -

By a word of what I have written about.

It is as long as you has let him have  
the money, as me said I was low in  
funds. your letter of may 2nd came  
to hand yesterday so I do not write  
these of your wants as they are very  
conveniently off and would feel bad to  
hear what you write, I do not expect  
you to give them a cent, only you  
propose to send them a hundred.  
As I reminded you of your promise  
do not suppose they are from us no  
you will receive my love to you  
and family

Your Mother  
H. M. M. M.

Thomas, I am extremely <sup>very</sup> glad the  
letters are so high, George 150, Sam  
thinking it will be very warm at that  
only see \$300. but what can the more  
do, every thing considered the cost  
will be near \$1000 with loss of  
time, hope she will repay her kind  
parent. Mr. D. begins to prepare to sail  
I shall be thankful when Sam of their safe  
arrival is for St. John what you if he  
would send \$440 as I was willing  
to find \$500. John \$440 which makes  
\$130 the the sum required of your  
friend I have given them I rather  
widge clean it up, and be very careful  
of it as I have been I think going a  
voyage is great trouble Thomas do not

Brooklyn May 20<sup>th</sup> - 1863

Dear Son Thomas

I cannot ~~at~~ this opportunity  
skip unless I improve it by writing to you  
I <sup>have</sup> little to communicate <sup>in</sup> handwritten recently  
your friend D, has returned from France  
he did not accept of brother E's invitation  
to remain, at his house until the <sup>last</sup> ~~last~~  
steamer sailed, he called on Wednesday forenoon  
used, to bring his daughter. to see us next  
day, which was yesterday he did not come  
he may come, tomorrow, he sails. I think  
it strange, he was at Wm office, he had  
gone to Washington, he looks well.  
it rains to day. We are all pretty well  
thank mercy, hope you and family enjoy  
the great blessing, I am glad his daughter  
consented to come, with him. Just as  
Mrs D. was about to leave ~~the~~ <sup>the</sup> ~~city~~ he asked  
me if I could <sup>let</sup> ~~him~~ have some money I was  
rather surprised and ~~said how much~~

What sum I asked, he said he could not  
tell as he had not bought his ticket, perhaps  
he would not require any, I told I would ask  
my son, as I had been pay<sup>ing</sup> out considerable  
of late, then I would inform him next day  
but he may be offended if so, I cannot help it  
if he was short of cash, why not accept of  
the invitation, they would have been comfortable  
and saved that expense, which is considerable  
at this time, he may give you his reason  
but I cannot comprehend, why he did not  
should, he not call again you will not  
get the package, which I have endeavoured  
to send you this to you. I must say I did  
not fear M<sup>r</sup> D, then I could not promise to  
do so immediately without the, least consideration  
I believe, when he first spoke he said Madame  
could you let me have 300, I said I will  
ask J<sup>r</sup> as I had, but, little on hand I did  
not see what that. He never alluded to  
the payment, in the interim he must  
have intended to reimburse <sup>me</sup> of course.  
I presume he will do without my loan. he  
might have been welcome to the use of it  
for a time, he, must have received money

in France, as he said his cash was in francs  
gold. He never names you in the request.  
Then John told him he had better change it  
soon, as gold was going down every day, they  
left in company. I am sorry if L. thought  
me unkind towards him. I said, never spoke  
to him on the subject. Write and inform me  
what was the reason. but unless he names <sup>it</sup> you can  
not, should he not come again, I shall decide  
the reason. Mr. Warner informed me  
that you was about to do much better than  
being in the commissary department, I hope  
so at least, unless you sell out, and return home  
I trust Edmond will be able to resume his  
situation, as he will no doubt, want employ-  
ment, he is a man of great muscular strength.  
& How is all the little ones & My George?  
The war appears to be, at an end, or the fighting  
I may have many obstacles to contend with in  
this troublesome world. Now my dear child  
I will bid you and family adieu write soon.

W may think you will, he is a stealing  
fellow, your request I grant but I do not see  
the use, as long as you can tell pretty well  
the value your own lot, as mine was to build  
on plenty of vacant lots in Ind. I would not  
sacrifice my property was I you, wait awhile  
and it will not always be so dull in Ind.  
you must take time, to do all things  
if you come you no doubt will have to

As you must know she had not offered to even take a I always liked Mrs D pretty well. But she & F were not good friends when she left for Cal - about the rest of the house I can't tell I trust she will have a safe voyage home she is an excellent wife & mother. I thought she looked badly all the while she was here she complained of the heat though she traveled around I prefer health to sickness, it is the effect of the cold I had when I last saw Mrs Dey. but let me render thanks, to my heavenly father for his many blessings & mercies received. you writes that Mrs Thompson has come over to visit her dear Mother I could not refrain exclaiming: what a good child, how I love so good. May 20<sup>th</sup> Thomas, I just received your letter of May 21<sup>st</sup> - Wend has not been  
again. I and all of us think very strange of him, we suppose  
it is not sickness; I shall not be able to find your packages  
or even a letter. So Mrs Day is coming to  
place her daughter at school, she must be old for that I  
should say, but she is the judge; I wish them well &  
will see her. Mr Warner told me you had invested money  
and gone in business, has that fell through also. You appear  
to conduct things different to others who do so much better.  
Mr W. has made money in bal<sup>y</sup>, and so have you, if you can  
not keep it, your own fault; if you live extravagant that  
is the reason not any of us do so here therefore I have but  
little to say as I must not direct. Should you come  
home you would have to do with less expense than you  
speak of according to what you say you can realize I should  
say you ought to have from \$30 - to 40 thousand, but you  
know best John said you have had better let that stick alone.

as I wrote you tis perfect nonsense, to attempt to advise  
you I have always endeavored to give you my most  
wholesome advice sorry that you did not profit  
by it if you have not but you was in Gal and  
ought to know its ins and outs glad you have  
seen Mr Bulky, a great gent I should be happy to  
receive you home and much disappointed this way  
that you did not come home will write soon  
to answer your letter

Do not write of this in answer

Brooklyn June 20th 1865.

My Dear Son Thomas -

Your letter, of June 2<sup>nd</sup> - Mr D's sailing day  
I had on Monday. Mr Warner intelligence was pleasing, he said  
he had received many kind favours from you and your wife  
I then said a cousin of <sup>your wife</sup> ~~your wife~~ he appeared confused and said a  
distant relation, I believe. I said no more, I understood his  
wife was dead (but, your account, till the late, I would not  
say a word for the world to make him feel bad, he is very high  
toned man, no doubt he has had great trouble. I hope his chil-  
dren will be good to him, it is a strange concern he may  
think his wife, will take to him again, if Mr D, has become  
crazy. Yes, he said he had been put down in San Fran, I must  
say I feel rather surprised at your detail. He lives with his  
daughter <sup>she</sup> often calls on <sup>her</sup> ~~her~~, his girl must be very rich, they would  
not wish to see any of us, he spoke to me off to the America  
I might have told him I had a nephew there. Bless my  
little boy George, he shall have another letter, I do not wonder  
he loves to get a letter from me, he has it in his nature, he  
is the flower, of the flock, as they used to say of me. You  
May well say. "The little faults are growing up fast" and  
you don't mind they will bring you up, therefore attend  
to them wisely, and systematically: but all say I am  
too particular

I conceive Mr D. is taking, all the comfort in the world, resting from his labours, I sincerely hope he will get his old job, or a better one I consider him a deserving man, if I never get any money I wont fret a worse person might desire, but all will be right with him Indeed I wish it was possible that you could have remained in the position you held for six <sup>more</sup> years. All this you ought to have been aware off. Thomas, you have indeed lost two very good kind friends, you must cherish their memory. I hope you may succeed beyond your expectations though I feel bad about your going in business, as then I suppose, I must give up all hopes of your coming home at present, then again I fear that you will be obliged to exercise more in mind and body, than your strength will allow, always something. I will give John the lot, let him spill down the ones, as the War, is over, we build a house to live in, I may build on another as there is five. I am very much disappointed, in waiting for you so long, should it be the fault of stocks, I wish you had let Stocks, alone, as John said you would, when you was bit, ted, a week full to think off. to be in bad so long and <sup>not</sup> be able to return, to live in a very comfortable manner, after doing the business, and making the money, you have something must be wrong, is it Stocks. to bad, I have lived in hope that you was laying up money safely to bring home to build a nice house away with my castle building, you bought Stocks, no one would prevailed on me to have purchased mining Stocks I hope you have stock enough at all events I think of you when I see the

Mr. Worne, <sup>says</sup> you are to help willed, I said I believed it must be so I, <sup>hope</sup>  
you will not have reason to say, I wish I had sold up all and return  
home, one day W said to M, he should not be surprised to  
see you next Steamer, but I did not put great much confidence  
in his sayings, I hope you are carefull of your ~~health~~ <sup>the</sup>  
greatest importance, of all that is one thing I desire your  
return home you will be the judge. I shall write you by the  
Steamer, 1<sup>th</sup> of July which is mailed ere I receive this last one  
yes I recollect the Old General Store, you did make money but  
you know best, what has gone with it. You had better put your  
money out on good interest, than lose it in those Stocks Mr  
D said he had a little but sold it I told him he was  
wise. I ~~hope~~ Olivia will be happy, I think she will, one cannot  
think to look at her, she is only 14, her age made me feel more  
interested for <sup>her</sup> at times I would say - Gracie write more, she  
look at me, then I would say <sup>no</sup> write more down to Sarah &  
and laugh. I presume she is well taught which is a price indeed  
why do you not give your children a french lesson daily, they would  
learn first rates, now they are young, make provide your general  
conversation, the little ones, curiosity, would induce them to learn  
I know Flattie Gliss would. I wish I had such a good opportunity  
I would profit by it I went to French schools when I was a girl  
only one or two english except us the language became familiar  
to me after which I went to a Fr. lady to take lessons, Mr D.  
said he did not think I understood as much as I did at my age  
I always liked the french the girls at school were kind and  
polite to me then the teacher would take me to their homes with her

all left pleasant reflections this is some of the paper you brought  
from France tell Frank about your many curiosities I have of it  
I will send them a chance offers you will get your shirt & Patchwork  
by D a bag worked by Sister for me a long time ago present of  
Anna, ~~Anna~~, from Grandpa to keep safe you will get the  
Comb you gave to your Grandfather so many years ago a clock  
for one of them, a ball & jump up jack for my George I could  
not look up any more did not feel well I am sorry ~~Thomas~~

San Francisco July 25. 1865

I am not sure. My Dear Mr<sup>s</sup> Whalley, I call'd to bid you a "special good by," before I left San Francisco. - If I did not I hope you will forgive me as I am sure you will not ascribe it to any thing but utter inability. In the first place, I was utterly broken down mind & body. & in the next, petty affairs crowded on me to such an over whelming amount that I lost all my old landmarks, & well nigh all my energy. Oh! you never can know, how long & how dismal that last month of my life was in San Francisco. But there was no escape from it, untill the happy 10<sup>th</sup> of July arrived & freed me from my troubles. - No wonder my dear little friend I forgot to call at home - But it did end. that long month & we arrived all safe in San Jose to a sweet pretty home. - For three day after my arrival I was so weary I did nothing but sleep - I am now all right, & enjoying a country life vastly. - Nothing can be

kinder than my darling grand child  
 & her husband, N. Spiel. sometimes as if I  
 should waken up from a dream & come back  
 again to the old trouble - But I am now  
 well & content. - How are you & getting  
 on by this time. I am very anxious to hear  
 of you, with a little note about the Art, think  
 perhaps, that Whalley has not seen it otherwise  
 need in his papers - The weather is intensely  
 hot here - but I am so well I don't mind it.  
 Ever since our arrival, we have been surround-  
 ed by workmen which is not pleasant at any  
 time, but during this hot weather is particu-  
 larly annoying. We are however beginning to  
 get things very elegant, & the little cottage  
 is quite a star inside, with the aid of Van  
 Mearnses upholstery, such as splendids car-  
 tains, carpet, pictures, & every thing that  
 money can get, to say nothing of a splendid  
 French Bitch who will very soon spoil me  
 of your. - We have also a pleasant carriage  
 always at our command. -

Dear Mrs Whalley will you be so kind  
 as to go to Mrs Nelson Esq's and enquire  
 for Sarah Stansby's sister, name, &  
 tell her Sarah is well & send much  
 love to her & Mrs Store. Also ask Anna if  
 her eye is getting better. She will enquire  
 a great favor on Sarah if you will  
 do so, & if you will tell the Dr he will  
 write me word how the poor girl is. I  
 hope you will excuse this scrawl as my  
 quill thumb & fingers give out very soon  
 after writing a few lines, but I cannot  
 persuade myself, that you will there-  
 aside my letter without feeling pleased  
 to hear again of my old friend & etc.  
 used to have some "old talks" together  
 - Give my kind regards  
 to Mr Good - abundant of affection me  
 no ever yr sincere friend

Brooklyn Aug 16 1866

Dear Son Thomas.

I have written you many letters since Mr D, first came to N.Y. I have not received answers to them all, I am sitting by Aunt Sally's cottage window, writing to you & the family are all tolerable as respects health I have been here near four weeks, I make ample compensation or would I stay, unless I did. They all wish to be remembered to you and family I was in hopes to have been informed more particularly of Mademoiselle's voyage. I hope she will be happy in her new home, I am sorry you think her position will be so transformed, by being placed under her parents supervision, though we shall see I trust, you are in better spirits than when you wrote last July 22. I would not like you to sacrifice your property, therefore you must look ere you dispose, and <sup>not</sup> lose any more as you have <sup>lost</sup> sufficient, any way. I presume Mr Warner would <sup>like</sup> to have, all you have, to put him in action

I hope you have a good lesson of ~~the~~ dealing I am  
sorry you are so, deterr'd from doing many things  
that you desire. I wish you would answer my  
as I do yours, I mean in a certain degree  
If you was to come, to D<sup>y</sup>, you might get  
something to do, but you're having us your  
disturb'd, I do not compare hands, if you'd pay  
your own I think that is pretty well. I  
am glad, I am not dependant on you, or  
any one else, I have not heard from  
home in a week they are all well no doubt  
I hope your children have all been this sum-  
mery report that I did not bring Mademoiselle  
Adele up here, to see Grand I say, there she  
could have told you how nicely she is plac'd  
I may see Adele again, if she returns to G<sup>re</sup>  
your paper told her she might if she was not pleas'd  
with G<sup>re</sup> St. in 18 months but I must all with  
will be well. I shall write to your daughter  
if I live to do so I wish you would tell your  
agent to inform Henry that there is 500 dollars  
for him I wish to pay to him by the way of  
don't - then let me know what he says as  
soon as I can hear the better it will be  
for him from now

I cannot think he has forgotten me or his friends  
I hope to know the cause of his silence ere I die  
I hope your husband may insist on to write, I  
cannot think but some of them write to  
their friends in Washington, as it is not natur'd  
to suppose they do not, hear from some of the  
family, they may not write. I am feeling  
better since I came here to G<sup>re</sup> I should stay  
longer but sickness is expected in the family, I  
hope, my letter will not be useless to  
read If I was certain it was the case  
I should be mighty swift, but you make so  
little account on my communications, indeed  
you do write thus, I am always pleas'd  
to acknowledge all friendly attentions of the  
kind. the day August 11<sup>th</sup> the vessel got to day  
I presume she day will not leave G<sup>re</sup> until  
Oct I must care on her friend who have  
been and inquire concerning their health, I  
thinkings suppose this day, was to give  
up feeling inclined to return with Madame  
I presume, she has the privilege, to do so  
the year please direct it to your name one of G<sup>re</sup>

She ought to try the Colledge for young  
ladies at least for a while. Thomas, I hope  
you are in error with respect to the age of  
Kate's husband 35 to great a disparity, she  
being so young but I must say but little pro-  
bably it was the sanction of her parents  
I was fond of. It when a child then she is  
my ~~youngest~~ <sup>dearest</sup> granddaughter I trust she will  
answer my letter to her, do not fail to send  
it directed to her or husband I will give them  
my address I often think off Harry W, he  
was a fine looking boy I was much pleased  
with him often wished I could see him I  
took him out about with me during his  
stay at his Uncle's but he has forgotten me  
and all my requests, sorry he has not written  
you must remember me to all your little  
poulties Frank must answer his & sister's letter  
tell Obed no letter yet from her or father  
my love to them all. I am ignorant if  
he has heard from Madame Deward at with no  
doubt he correct. I trust she has employment  
my love to you and family, yours & Mother's

Dear Thomas,

I have just returned from  
boarding a while with Aunt Sally, Grand  
daughter I had a wondrous time, quite  
entirely Sally quite smart delights to  
cook once in a while a first rate cook  
I tell you, you would be glad to see her  
step around, I often say father was  
taken so early in life she spared to such  
an old age all of one family I tell her  
you are coming home she says it is time  
you did she has seven great grand chil  
sends love to you and family.

I thought you would have written last  
week as I have been so faithful to  
write of late not a letter from Blida  
or her papa I am rather disappointed  
as they both promised so truly but they  
are the best judges my regards to them  
I hope they are well and happy

I hope you do not think Mr Warner has  
paid for two millions and ~~more~~ business  
agentially could not that, find any advice  
to them, all nonsense, Albee is near to  
them ask him, if you think I am prejudiced  
against the man, I hope and trust you have  
decided what to do in this, and that has put  
how we better to dispose of real estate and stocks  
Al those are full mining stocks. It is  
truly a great pity to think you spent  
your good gold for trash, I wish you would  
only have taken my whistlers advice  
to keep your cash on interest. Before  
I said of my words save all this, I sold his in  
times, surely you will never lose any more  
as long as you live, I understand that you  
had given Warner 15,000, besides 3000  
you lost in June 24 - Why quit a living for  
some months. Well I wish he must ~~leave~~  
leave it, I was better, however, you have  
not one chest, one chair, one watch, one  
one watch, one grand watch, Warner ~~has~~  
My letter by this Mail, to that I have a mind  
not to send mine if I cannot get one not for  
change.

I hope the night news is better, I have  
not real estate has gone up in 15 -  
but you must not sacrifice your profit  
why tell me how what you decided to do  
by our knots I pay for you to come home  
abroad, something to do if one looks around  
but great times in city, in all respects  
As accidents, 13 and 14, murder, and  
all other horrible, I would not live any  
more to the Cities those I do. I feel  
much better than I did when I was  
here were they here now, I could enjoy their  
company just as they do they not, with  
I want to hear if Deida, is happy. I hope she  
do all that his in your power for them  
I certainly respect them, very very much  
I am sure have known him a long time  
tell him I trust he is doing well, how and you  
pleased with Madame. I must go to your  
quite fine. We are pleased with the splendid  
weather at this time. I must call to inquire  
of Mrs Day & daughter, she will return in  
a month or so I guess, she will be  
with to hand with Anna, to keep

I think, I should retract, and conclude  
to take her home; rather than run the  
risk, to see her so much more learned:  
it will be attended with many <sup>changes</sup> ~~various~~  
I wrote to Frates, sent it enclosed to you  
hope you will attend to it without delay  
I think they may write to me, do all  
you can in the case: give my love to the  
little ones, and say to them, Grandma wants  
to see you all, my dear little George. how  
nice he would look at me, with his fine dark  
eyes. You do wrong to stop writing longer  
than a month I hope your health is as  
good as when you wrote last. They all join  
me, in love to you and family. I hope the  
agent will send you more information  
of Hen & family, I hope he will come home soon  
I wish some one would take a letter from me  
and put it his hand then wait the result I  
should then be certain he had heard from  
me, I hope to get a word, or I will try, Frates  
husband & my love to you all your

My Dear Uncle,

Grandma received  
your kind letter of Oct. 5<sup>th</sup> Inst.  
which informed us that my dear  
little Cousins, even the poor baby had  
the whooping cough - Grandma was  
happy to hear, that they had recovered  
from the disease, and hope they  
will have strength, to endure with  
the cough. The climate being  
mild in Oct - may favor them.  
We hope, the other members of the  
family are well, including their  
friend, Mr D. and his daughter.  
I still live in hopes one day to see my  
little Cousins but now Grandma  
says you are so engaged in business  
she does not know when you will  
come if you ever do. O. uncle they  
don't you come and bring our  
little Cousins to see us. Grandma  
gave me Cousins Frank's letter

the pay he will have to come to see us all  
as it is bad to keep us waiting so long

I think no more day to give to King and dance  
if we are evening that the two letter girls says will

Mean, my dear I have answered your letter with  
do not want your accounts so near to each other's you  
do pretty well, give my love to Papa mamma and

all the family, good night sleep good night you are  
next to Henry thaty for ages. He never write of Henry  
your loving & wonderful & affectionate

Thomas, I must now write to you but do not  
feel like as you may think, I feel quite lonely to do  
sudden they had have a cold for 3 week not about

one day she took a shell coughed worse in a few  
the kind of inflammation of the lungs, poor Sister  
quite sudden, Henry or Henry, or any thought she was

so near her end; only a few days, I feel very bad.  
Oh I gave the poor letter to read I hope he will not  
think to it, that had to keep Henry waiting. I will write

to him I am ready surprised that he was not in such  
a manner I am free from all Thomas. Thomas I hope  
like attention to what you say about coming home

why do you not come home for a while that would be  
no great thing to do. What I could have for September

and think if you intended to return why convert  
My your wish into real state and state but

to, as you state that you will do, I wish you see  
that I am not dull of comprehending if you can  
commence business there you will have, and had

your own felt as a student as you should, you would  
have manifested it to my different conduct.

I should my own government is the same for you to  
conflict: thought. I want your judgment of it  
later a few days ago I should not have written

again do some only to mention Thomas letter. As I fear  
to be troublesome I shall expect a word from Dearest  
the money to, there I am fearful he is not doing

Much I think he had better active home. Perhaps  
he is saving up his money to do so, perhaps he says  
it is cash ready. only think if Henry has not a good

education about a petty I have my fears I wish he  
could come on that his father could not spare him  
I hope to learn more particulars by the next letter

We doubt your dwelling is great being the one the Day  
surprised when he is home, we this so strongly I think his light  
carriage they are all to go travelling when we see get

thought that the way to go to that keep your money  
do as they have done, he is an expense for my end.

I consider him an english gentleman, my respects to them  
I t<sup>h</sup> a long time ago I informed you of Miss D<sup>s</sup> death I would  
be extremely happy to have had my letter answered by

she will do, we will see, but while Piscilla was living  
she felt bound to remain near to her. I spoke of the  
children speaking french in the family, H takes lessons.
