

JAN

1874

New York, January 2nd 1874.

Dear Mama,

I have enclosed a letter to the children giving an account of the holidays. It was my intention to have written them more but when I had done them would perhaps be a delay of a day or so - therefore I have determined to enclose my notes, which you may have some difficulty in deciphering and perhaps in some instances find it impossible to make head or tail of them. What the children will find interesting is a book that was New Year's - the Church, Christmas Tree and so forth - if I had had time to have written it out at length it would be more readable and perhaps more interesting. The notes commence some when in the middle of a day the 20th of Dec and end with the day as far as they were written - they contain besides what is for the children some other things

which of course being private you
will keep to yourself. I presume
by this time (Mr. Moore must have
arrived and that you have seen him
and got considerable information
from him about my suit &c.
Do not be discouraged - all will
be right I think with us - only
have patience - You will think
that I have a great deal to read
looking over my diary - and so I
have - but I keep a ~~strong~~ ^{strong} upper lip
and am always on the go as
you will perceive to prevent from
getting the blues - I have gone through
so much, that if necessity requires,
I am prepared to go through a great
deal more. I will write to you
again soon and immediately upon
having a decision in my case - and if
favorable will try to let you know by
telegram. With love and kisses from
Your dear husband
Thos. Whaley

I am feeling well and trust that you are much better.

New York, December 31 - 1893.

To My Dear Children:-

Mamie, Violet & Lillie.

I received a letter from mamma a few days ago enclosing one from Mamie & another one from Lillie - Oh I don't know since I heard from George & Violet any more than a month since I heard from Frank. I am very glad to hear from Mamie & Lillie and would be glad to hear from the other children when disposed to write. I got a letter from your uncle Henry a few days ago which informed me of Cecie's arrival at home accompanied by George - I hope he will have a good time of it and enjoy his visit. You are all expecting me home on New Year's day, but will be disappointed, but not more so than myself - I would very much have liked to have been with you at that time but it was impossible. I am still waiting for a decision in my case before determining what I shall do.

It may be some time before I can see
your home. The father thought our visit
of late came to be my little girls as
soon as I can see hope to bring them
down being, however in the way of parents.
But perhaps they will be rather late for
meadows parents. - I am glad to
hear that you have had as much success
and that the grass looks so green - and
hope that everything will grow and that
we shall have a more prosperous growth than
we have had for some time past. I hope
that Society will, which pursues her
from writing to me) both were done
for children. - I will see you
a little about the many things I have seen
during the hot days which will interest
you. Perhaps more than anything else
I can write about. The other angles
with many beautiful grass and tops
are covered from running the evening
with warm and shaded either ad-
miring them or purchasing them. The

churches are been fully furnished with
evergreens and are looking very prettily
and many children are made glad by
the parents they receive. I was at Milton
of a friend (Mr. Dyer) about five miles west
from you Aunt Maria's the evening of the 26th
December when she was a good many of young
people. At 9 o'clock there was an exhibition
of the magic lantern which had given Mr.
den Newman, a boy about George's age and
age. - How what a sweet pumping one it was
all sorts of water considered to our remark
I must explain how this is done - the object
is taken in the way of the sliding door for
the exhibition of the magic lantern consists
of a box to remain. For the door to reflect
the images upon a ^{glass} boarder was placed
upon the floor at a foot ten or twelve feet
from the beam - then some one - a
girl or a boy - or perhaps both women
place themselves near the beam between
I and the light and called - sometimes
performing antics - such as placing their

figures to their nose. Pretending to fight
and cutting up stunts generally - and
of which would be reflected upon the
screen to the amusement of the audience
on the other side - and perfectly dis-
cernable, there being no other light in
the room than that afforded by the
single candle - as an occasional
figure to the performers from time to
time one of the parties would act, feel-
ing towards the candle and just as he
or she got near it jump over it - followed
perhaps by his or her companion in quick suc-
cession - the effect of the shadows produced
being most ludicrous - the nearer the
person was to the curtain the smaller he
would appear to be and in retiring back
was passed the candle the larger he would
appear though to the audience, when the
jump was given, it would appear that
he was coming towards them. Another
effect produced would be to let a grown person stand near the screen

Sugar Mountain - French mother going
off with a sister, and having in the winter
of 1862, a very fine article of weaving
apparatus, a set of instruments of gutta serena
shape made of tanned paper - our friends
Miss Hugo the two contained many other
articles and was beautifully furnished with
a provision of paper, pens, ink, and things
and you can see of different colored sandstone
papers, boxes of handkerchiefs - A fine sport
box, several boxes containing a fine silver and
a silver mirror of high quality, forming an
interesting view. The two boxes in
a day visitors - at our side of the table
and furnished a most beautiful spectacle,
could be enjoyed (as the windows were open
to give air for the preservation of the two
the next year) by scores of boys and
girls in the street outside as well as
by the windows of the house. The presents
by Santa Claus and the presence of the old
ladies had been arranged around the table
in the day visitors and were all distributed

early Christmas morning. One more
the little girls with their little dolls and
the little boys with what they would give
you dancing around the illuminated tree,
making a good time generally - to the de-
light of themselves, their parents and their
friends. It was taken altogether a most
social hour gathering and reminding me of
my own in past times when we were from
the Atlantic. I received from the house
about 10 o'clock sending my way
back. How thoughtful the clerk - and how
to her to dream of her I had seen
I am very glad to see you in the
house, my dear children, to have families
and have made a little on the way to
the summer, but during the winter
you I could not do so. I am very glad
to think you a great deal more, and I
will be as a great many young girls
twisted, others I understand of, I am
quite willing. I will be as a great
many. Well, I am very glad to see you.

notes, to read to you the portions that
 may interest you most, though per-
 haps it will be a difficult, perhaps an
 impossible matter in some instances
 to do so, I have not the time to
 copy them and put them in intelligible
 language so ask mamma to do this
 as she reads them along. I put
 to day a small box containing several things
 taken from Mr. Rogers' Christmas Tree, the
 gift of his little girls Minnie and
 Elsie. They are not much to be sure
 but you will doubtless appreciate them
 coming so far and from my dear young
 children. Two very nice little girls.
 Minnie is about 8 years old and
 reminds me so much of my own
 dear Lillie and Elsie is about
 4 years old. The flags enclosed
 might have gone in the box and
 so ought a dozen greenbacks,
 but I thought it would take the
 flags out and enclose in hand

9.

The bill I had to get changed to
pay the freight - Next week I ex-
pect to get a little money and
then I will send the bill enclosed
to you - It would be nice if you
you to acknowledge the box by enclosing
a letter to me for the little girls, and
if you do so consider the flap
and the money which you will
refer to as "Stamps" as having come
in the box and as having been re-
ceived. I have borrowed a few
you and will return it soon but
even if I had not been compelled to
have borrowed it I would not have
sent it in the box as I should not
have considered it safe. I hope
you have had a good time Christmas
and got some presents. I must
close my dear children with many kisses
and much love to your mama Frank
and George, with you, goodbye
From your dear papa M. Whalley

New York, January 8th 1844.

My Dear Wife,

I have just completed a long letter to Mr. E. S. Morse, which I enclose to you, and, as I still have some time to spare before going over to Brooklyn, I will devote it to addressing a few lines to you, notwithstanding the length of the letter I sent you the day before yesterday. You certainly cannot complain, but that, at least, lately, I have written very frequently, though, perhaps, you may complain of what I sometimes write. We are all creatures of impulse, and we do things very much as we feel, depending upon the mood we are in at the time. Sometimes we are led to do and to say things which we think are perfectly right, which at other times, when feeling differently, we regret having done or said, as I do with me, and as I presume, do

with the rest of men and women find
of things you tell of yesterday, or
or any of them. I understand it, and cannot
conceive what gave you the least
doubt, may I have leave to certify
the inadvisability of Mr. Williams
of my acquaintance not to imagine
that I was done with the delivery of
regarding you the least pain in
remember that I have a great
love and respectability, nothing
after my mind which engages
more the whole of my strength
and activity, and which I am
pleas'd to see that the delivery
of the message is regard to the
independence of my father's will,
of our mutual affection and respect
of attending his duty to your
kind of assistance. I thought it
I have said every thing we
may tell of a long & week or
more you are always in the same

you I was quite understand you
my pain and I trust that
you will forgive me for it.
All is yours love, I am, in con-
ditions and circumstances, the
same as of old, that I desire
to have, and which I desire
and entertain you for the same,
without yet being able to attend.
You have already been willing to give
it to me with your own hand, at
least than to, and ready to give
him to withdraw upon the instant
if possible. I am sure by your
kind that I am and hope to be
soon. I am for unconditional
love, independent of any conditions
may possibly arise. Every day
towards you. I am sure
from the language and words you
have used to be the great thing
which you want. I am sure of
and from you and hope to be

tain. It will show the same confidence
on your part which I have ever shown
towards you, and have at this very
time. Confidence engenders and
strengthens love - when, without it,
you can ever expect it. It is this
feeling of confidence which I
desire to kindle in your breast
and if I succeed, or you will but
acknowledge that you possess it,
you will no longer refuse to give
me your unconditional love with-
out a single "if" or a single "and" to
mar the sympathy of feeling ex-
isting and continuing to exist and
to grow between us which will
become stronger and firmer with
time. Only see my man that I
have your unconditional love and
you will render me perfectly hap-
py and I shall bear all my
troubles as light burdens, and
when I said do so, was returned

how a delighted man and wis-
 ing to devote the balance of my
 life to your service - and needs
 do I think you will ever have
 cause to repent your act.
 But we are not immaculate,
 certainly I am not, and will
 atch for it. I might doubtless
 be out of humor, I speak cross to
 you - but would that be a suf-
 ficient cause for you to resent
 the action, thereby only adding
 fuel to the flame, increasing me the
 more - would it be sufficient cause
 to withdraw your love - perhaps de-
 test and hatred - when by a
 gentle word or a kind smile, you might
 dissipate my feelings and win me
 back to good humor. You know
 me well enough, that I never con-
 tinue angry any very great length
 of time - but when provoked and
 irritated further as was your want

It was said and did things which my
father would appreciate. I am also
wrong and my name has appeared

I am indeed glad to hear that
you were more to be seen - that

full of your work of judgment,
and confidence in me - when
the time is, now, it was that

May 9. 74. There is now on exhibition
the Colosseum of this City a panorama of
London by day light and of Paul by
moon light. I saw the former many
years ago in London when there
in 1843-4. I send the descrip-
tion as given by the N. Y. Sun.
If I have the opportunity I intend going
to the Colosseum to see these panoramas.
In regard to the back cover paper, which
can be of very little account, you
might burn it for kindling wood if you
wish. I know of no one's luggage.
I do not suppose it is of much use
when it is. But if you think it better
allow it to remain.

I have written you so much lately

of my letters?

~~Dear~~ dear Husband.

I am in re-
ceipt of two letters from you,
received the day after Christmas
and day after New Years, both
of which we were very glad
to receive. Mr Care did not
call to see me till New Years
day, and Mr Morse about
ten days after he arrived here.
Mr Morse handed me the
four spools. I hope you had
a pleasant time through the
holidays. I have not written
to you for sometime, having
felt sick more or less and
finally was taken down
sick for several days with
Biliary fever, vomiting, dyspepsia

and many other things to make
one very thick, I was taken
in the night, so had to call
suddenly in, I am well enough
now to write to you: The
head is very dull Christmas
and New Year! You are
greatly mis-judging of your
wants, we secured our presents
the children got from my
deals is very small but, with
nothing inside such as they
have been with, and they
is all they got, they were do
disappointed, oh not getting
at least five cents worth of
candy in them (for they is
all they would have had)
Had I gone home this morn-
ing I might have got a little
and ran off to get some
candy, they is all they
got for Christmas, and nothing

for New Year. My Trussard
sent me a check and a check
for Christmas, this is the
extent of all the presents. He
are his poor for people to
wants of us now. I have any
one with the children if they
got any Christmas presents,
they have no, but my papa
is going to bring us only presents
only when he comes home.
I was sorry for them, but it
could not be helped. I had
to get them each a thing
before the holidays, for they
were really needed, could
not get any more cheap goods
from Schullery or Walcotts, but
I have and I thank let me
know to the amount of four-
teen dollars and a half. I am
afraid he will send you his
money over, say, the better
they look, I guess, place in

tonon, has asked me twice
for money as he is going away
the bill is about \$36.00. I told
I had no money but would
give him some when you sent
me some, he said Gassen
would not buy the account
from him as he asked him
to. He went off not pleased
and said he would see
what could be done. Now
the present butches some-
thing too but intend after
this week to pay for the
meat I get, if I can possibly
do so. It takes all the money
that I rent gets to pay for
washing, wood, water, bread
and the few vegetables we
buy. I get a little wood at
a time as it is scarce, and
pay a couple of dollars a
week until paid. So with
the water, the washing I pay
regularly. They are continually
making changes in the Union

Office ^{17/18} that we cannot
depend upon how much
Frank will bring home later
days. They pay him by the
thousand now, forty five
cents, and take him away
from that and put him to
the job pay at two bits an
hour, he ought to have the
same for one hour as another.
He was sick half a day and
they took off four bits - and
so it goes. Christmas week
he only got nine dollars
and five of that had to
go for board, so he had but
four dollars for the holidays.
No presents to Frank. It is
old Dr. Gunn the mean man,
he has cut them all down,
Frank with the rest. I will
try and pay for the meat
as I want it, but Groceries
I cannot, if Schilley has not

What I want then I get I
from backpack, & there are
two grocery accounts on hand.
and I go, I suppose
it will all come right in the
end. Schultz probably the price
of things on to us I am left
you. He has moved to New
Haven with his store, and
the family will move next
week, they all come to see
me while I was so sick.
Mrs. Hallack has been
kind to me there by one
she lent me nice things
to eat while I was so sick
and came here often to see
me. Do not forget to pay for
their presents, and bring me
a present to your her too.
Mrs. Hallack probably your
bringing the presents from
his folks when you come
home yourself. Dr. Hoffman
called to see me yesterday
having heard I was sick.
A great many have called
while I was sick. There is
nothing going on here. Mr
Cullen dropped down and
here he'll be up with everybody.
Dr. Davidson has not the
hospital this year, Dr. Stern
the second time at forty five
dollar a month. I hope you
will not be detained much
longer with that bronchitis.
I suppose by this time you
have been to, and hope you
nothing will not be so foolish
to eat while I was so sick
and to spread it. She ought
to be down on her knees
praying every day now saying
her prayers, instead of fighting
every morning. A queer
kind of a Mother's Day. I
am glad to see you have
so much patience, and

that all these troubles do
not affect your health. You
seem to be in good health
So Pick up Poppie and
come home as soon as you
can. You have been away
from us nearly eight months
and it looks like it may
be a year before you come
back all right. There is nothing
doing here, but Dad is D.D.
and all our work is discouraged
I wish Corinne would write
to me I would like to hear
from her and much if only
a few lines. Give them my
love and all. Mrs.
I'll see it done so the
children say so I will stop
a few moments. I am feeling
a little better, I will not
write much more.
I must close, we all
send our best love to you

I don't blame me for being happy for

New York. Jan 14 1894.

My Dear Wife,

I wrote you only a few days ago,
the 9th, if I remember rightly. I went over
to Jersey City Saturday. Saw Clara. He
let me have two dollars and a half which
enables me to send the dollars to the
Children which ought to have been
sent with the Christmas tree box, such
the 2nd of January. Oh belongs to
the Children - and they have to thank
me Puffin little one for being a
portion of the present coming from
them. I have neither the time or
the inclination to write you much
at the time. I have been waiting you
today and to day at my lawyer's
office expecting to hear of a decision in
my case. I must stay. I feel
discouraged, almost disheartened
at being compelled to wait so long

January 14th 1874.

P.S. I have lost or misplaced the lock
& hair which you sent to me. I have
found that it was in my pocket book
from which, having a hole in it, it may
have dropped out. Least that I should
find it please send me another sample
of this portion of yourself. I forgot to men-
tion having seen Maria yesterday, which
I had not done before since coming in the
beginning of November. He has been up here
for some time past. He asked if I had seen
Emma lately. I told him no. He
said he had from you that she had
had another baby. This then accounts
for his being unwell and why I could
not see her lately whenever I have been
at the house. I will go to see her again soon.
I suppose you write to her again, say nothing
however about Emma or the new baby.
I think if it about here I heard from
you, but you may have done so as
you were expecting, from what I have
written that I would have been at

have by Christmas or New Year. Let
me say to you not to aban-
doned writing hereafter for any
cause, but to continue to do so
regularly about the 1st and 15th
of each month, and forgetting to
give me the date of your previous
letters that I may know about when
to expect and to hear from you
and if any of your communica-
tions have miscarried. I will
telegraph to you whenever I am
about leaving so that at least
could there be more than one letter
on the way - and should you
confine yourself strictly to write
on the 1st and 15th of each month
and I should telegraph just pre-
vious to either of those dates, I
would have received the letter within
less than immediately before and you
would have no further occasion
to write. By this arrangement!

b.
I would have gotten all your letters and
then would be now on the way to
order to be returned. If I kept
on writing the Postscript, will be
longer than the letter itself. So
a dios mea Josa. (P.S.)

P.P.S. (P.S.)
One thing more, I had nearly forgotten.
Mary's read the notes I sent you ^{concerning}
about the holidays, I have to re-
quest you to return the same to me
having occasion to refer to some-
thing therein contained. (P.S.)

Another P.P.S. I don't expect you
now to write me any occasional
letters as I know you have so much
taken up. Besides you may not al-
ways feel like it. But you might
regard to their length only please
write the 1st & 16th of November.

Certainly if I had any kind of an
venture to do I could not write so
much, which was I do more to post me.

New York, January 15 1874.

My Dear Wife,

Not wishing to commit myself to making any more postscripts to my letter of yesterday, I prefer to commence another under date of today. It rained quite hard Tuesday night and nearly all day yesterday covering the ground to the depth of nearly one foot. Last night it was tolerable cool and when I started out this morning I felt the severity of the weather for the first time this winter. The sun has been shining clear and beautifully since it rose this morning - causing the snow to melt on the sidewalks when it has not been cleared off. The merry jingling of sleigh bells is occasionally heard, more frequent, however in Brooklyn - and the boys are having a good run of it snowballing and riding up.

The eldest daughter was on the balcony
at one time, but returned to the
room when they were suffocated and
killed to death, leading on the balcony
the youngest daughter who was saved
by a neighbor in the adjoining
house - In the same manner had
they retained their rooms those
who perished might probably have
been saved. (A son also escaped
so did a servant girl and a
man servant.) The funeral took
place to day and such a gloom
cast upon the Connecticut population
and citizens generally as is seldom
ever felt. It was caused by a de-
fect in the flues - or rather from over-
heating the furnace and owing to
the thinness of the partition wall
the heat in the flues striking through
and setting fire to the interior
woodwork. A part of the
Cortly Brown House fronts an Union

lately constructed to that of the house
 of the late Amherst, quite a com-
 mon is being produced among the up-
 per ten thousand - many of them feeling
 the insecurity of their residences and
 the liability of experiencing a like sad
 fate. An inquest has been held and
 a commission is appointed to enquire
 into and report upon the careless
 construction of dwellings in general.
 The fate of the Steiner family was a sad
 one indeed, and having made quite an
 impression upon my mind in reading of
 the details, has led me to expatiate
 more freely upon the chances of life and
 death than perhaps otherwise I would
 have done. Intending yet to
 write a few lines to Mr. Balthus, I
 must now close, leaving you to
 reflect upon what I have written.
 Nothing that love and happiness will unite
 us soon, I remain, your affectionate hus-
 band.

Yours of 6th inst. is at hand.

I have paid your taxes but have not yet
got your County tax receipt - I paid them on
the last day & they make out the receipts at the
leisure you Saturday they had not received the
W's. Your city tax is \$1.3³⁵ on a valuation
of \$1780. of which you are assessed for personal \$75
and improvements \$500. Real estate the balance.
The State & County levy was \$2⁰² and the total val-
-uation I presume was the same as it was made
by the same assessor, Shaffer.

I wish we could sell the San
Ysidro lands. It seems that there are a
good many sheep men hunting for
sheep lands below the line this year and
their number must increase every year
as upper Cal^a gets filled up. I offered
to rent it for \$300 per annum & the party
may possibly take it, "hien sabe".
It is the general opinion among the Mexicans

Governor & the Custom house officer, that our
title is really worthless. I think I will
write to Revell about it; he ought to know
something about it. I don't think the
reasons as set forth in the deed can make
it any more valid so far as the law is con-
-cerned, though it would make out claim against

the "Horton House" is at least filled up for the
winter this winter, with visitors, but the
year is dull. It is very rare to hear of a sale of
real estate. Parties are offering lots of our half
lot they cost two years ago, though 5th & 6th do
not hold its own freely well. There is nothing
about outside property, it could not be
given away. A good many of our people
have gone to "Panamint" there is a great rush
San Francisco capitalists have bought up
most of the mines. T. W. Park says that Panamint
at the present time could furnish 1000 tons per day
of silver ore for shipment to England.
It seems the ore is of such a character that it will
be cheaper to ship it to England than to smelt it on
ground. Some very rich mines have lately been
discovered near the Colorado river in the N. Eastern
part of this county and the Defervias have sent out
viewers preparatory to opening a road from Banner
(near Julian) to intersect the San Bernadino & La Paz
road, which will bring these mines and also La Paz
Cherberg & northern Arizona nearer to San Diego than
to San Bernadino, so it is said & so Hyman Mannam
told me 6 or 8 years ago for he had often travelled over it.
I send you the Sac. Record - has an excellent article on San
Diego written by Haight the printer. I will also send you a
Chamber of Commerce pamphlet.

Yours truly

Dear Wife,

I write you a few lines very hurriedly, enclosing receipt of \$4.00 payment of premium on insurance, continuing policy to April 30, 1874. Haskell promised me the money on Saturday, but owing to sickness he was not at the office, he wrote to his clerk however to let me have \$30.00 in the event of a certain man making a payment, but he did not do so. I borrowed \$25.00 from G. D. Puffer this morning for the purpose of paying insurance. It is a great relief to my mind, having paid it. I expect still to get the money from Haskell which was owing and to make me in some respects

from the Surgeon's office with
Mr. Ridgway - no decision -
it is promised however before
the end of the week - but not

hardly know what to write
to you upon it - With

Friend Morse,

Your favor of the 9th
inst informs me that the interest
on City Bonds has been paid for
January. I am pleased to hear
of this though I do not approve
of the means resorted to for raising
the money, if they are to be a prece-
dent of the future action of the
Board of Trustees, understanding the
matter as I do. I gather my impres-
sions entirely from a statement of
of taxes due by the Ringgold estate
upon the Hayes Ranch property, recent-
ly furnished me by Mr. Bataille. If
I am wrong in them, then all that
write in regard to the subject goes
for nothing. But if I am right in
them, I may be wrong in my con-
clusions as to the propriety of the
means resorted to for raising the
money, it is then all that I write
upon the subject you will please

need any undertakes of your atten-
tion, but if on the contrary I
am correct I hope you will

I believe you will, to effect

owing to a different valuation having
been placed upon the City property, (higher
than assessed for County & State tax)
in consequence of raising finance sufficient
to pay interest upon City Bonds.
This different valuation of City property
must have been at least double what
it was for State and County. On these
words, in order that the tax of 1/2 of 1%,
(which by their charter the Board of Trustees
could levy upon the assessed val-
ue of City property for the payment of
interest upon their bonds,) might be
raised the assessed value of City prop-
erty for County and State purposes,
has been doubled! I anticipated
that the Board might resort to some
such action, which they have taken;
and in my interview with the Henry Law
Co., when endeavoring to negotiate a
sale of Bonds through them, pointed
out to them the authority given

I have increased the value of the
assessed value even fifty percent
the people, the tax payers of the City
of San Diego would have as much
cause to complain as they have
now of the great injustices done.
I contend that the Board of Trustees
had no right to do what
they have done, that it is a perversion
of law and an outrageous wrong
upon the people, tax paying citizens.
Had they confined their action within
in reasonable bounds, no very
great harm would have been done
and the matter might be overlooked
but to have resorted to the measure
which they have, I think would
be submitted to if generally in

deducted, as undoubtably they ought
to be. What have they done?
Virtually, levied a tax of 3% upon
our good citizens; when by
right of their charter, they had
levied only 1 1/2%. Is it not a
provision of the law to have doub-
led the assessed value in order to
accomplish this end? Would the
Courts, would the Legislature of
this State uphold them in their ac-
tion? I think not. and I be-
lieve it impossible for them to
execute the tax imposed upon us
and of proper genuineness pay.
It will be because they are ignor-
ant of the great wrong which has
been done. If they are permit-
ted to impose this outrageous tax
upon us, (more than equal to that
raised for State and County pur-
poses) this year, they will wish
to do so next year and the

directly and the amount to
give them in authority & instructions.
That we are not to be our power upon
any set about and stopping the a book
the letter of vice de for our case and
the propriety of our acts. Care
has to be taken we are not to be
one half of our per cent (5/2 of)
upon the general value of our prop-
erty. It is not that enough to draw
away our half of the property from
our town and pursue it any more
from coming there to settle?
I believe that by the ~~provision~~
of the act, in ~~the~~ ^{the} ~~case~~ ^{case}
of San Diego, that we must preserve
the property and not after else in the
act as they give the power to ~~the~~
for a certificate in case of the ~~property~~

and in doing what they have, they
may identify a person who is ~~not~~

Referring to the 22nd section de-
fining the duties of the Auditor, you
will perceive: - "The object of making out such

clearly showing that the ~~the~~ ^{the} ~~same~~ ^{same}

Friend Whaley

I have been here just one month today and I have found a thousand things to attend to. I have been in my office every day and every evening but this since I have returned. We had a very pleasant trip and a reasonably short one.

The season here promises to be a fine one - large quantities of wheat are sown and we shall raise considerable I think for exportation. Of course you see the papers & your people also with the news.

A Committee of the Chamber of Commerce is getting up a pamphlet on the beauty of San Diego to be circulated abroad. How can we get the names of Hotels in all parts of the United States? Doesn't Appleton's Guide book contain the names of some hotels in every town nearly? We also want to know the names of Reading Rooms, Libraries &c. The Union published some statistics on Climate, I send you half a dozen numbers.

Chalmers Scott says they don't pretend to

disturb the sale of the Gray lots to us, our
rate being different from the others, and with
the consent of Mrs Gray also.

The people of San Diego felt very blue when
I first arrived over their R.R. prospects, but
now they are more hopeful. The Texas Pacific
paid the taxes on their lands to day amounting
to \$3500 00 - this looks encouraging.

How is your case getting on? If you
don't hurry up I shall be on there before
you get away. You need a large stock
of patience, but "keep a stiff upper lip"
you must come out all right in the end I
think.

I saw Mrs Whaley down
here yesterday and I thought she looked
~~very~~ well indeed. A few days previous I
was up there and found her sick abed, and
was glad to see her looking so well.

I think Howard will soon be in N.Y.
on his way to London. He is now at
Eufaula Alabama.

It is said Taggart is about to resign
his agency of the P.M. S. Co and go to La Paz for
his health. He has offered his residence for sale.
If you could only drop into that berth it would
be a nice thing. I wish you could.

It is a great pity that you did not have some of that yellow ointment. But then if you had had a plenty of it you would not have commenced this case.

There has been no meeting of the Chamber of Commerce since my return. I tried to get them together but couldn't.

There certainly has been a rupture between the N.M. Co. & The Pacific roads and Boyd (Taggart's brother in law) told me that the opposition on the route between here and San Francisco was supposed to be put on by the Central Pacific R.R. Co. It is helping San Diego

put their money in it, their
very name gives it credit.

They will undoubtedly make
millions out of it, and yet
they are mean and ungenerous
enough to squeeze the very
life blood out of poor
San Diego.

Thank God
we'll get some of it back
in taxes, though I suppose
they will soon buy up the
amuseur & let them off at
half price - this year they
pay it is said about \$3500 -

To be sure their money don't
 build the road, but their
credit does, which they would
 not have unless they had money.
 When the Construction Co suspended,
 the Texas & Pacific owed them
 over seven millions, which
 could have been collected from
 the stockholders by law in
 proportion to the amount of
 stock they had subscribed.

Now you and I and the Gila
 Co, probably, could not have
 made a contract with a
 Construction Co to build the
 road and advance some
 ten millions on our promises
 to pay even if secured by
 all lands & donations of the road.

Bye the bye it is said that
 it was this Construction Co,
 (which of course is the "Credit
 Mobilier" of the Texas Pacific)
 which induced the builders

of the road around by the
San "Gonzaga pass"
and this is some color for
the statement when it is
known that the Texas &
Pacific contracted with
the Construction Co to build
the road for \$35,000 per
mile. Of course then if
they could put in 100 miles
more on the level desert
probably clearing net profit
some \$3,000,000. While if they
had gone directly east, it
would have shortened the road
enough to be built, very greatly
while the balance would have
cost more than the \$35,000 per
mile. And as you will
see by comparing names, there
were enough members of the
Construction Co. in the Texas
Pacific to control its action
in adopting the former route

over the ⁴ latter,

I confess I have lost a good deal of my faith in Tom Scott. After his talk to us in the Committee room about "this road would be built upon true railroad principles without regarding any man's private interest" &c. what are we to think of its "Credit Mobilier" the California & Texas Construction Co. and what expect, except to be swindled at every turn.

Major Evans has just returned from the East and he says "their people are very confident that Scott will get from Congress all he asks. Evans is in remarkably good spirits, says the future of San Diego looks brighter than ever. They told him in the office at Philadelphia that they were

of
going right along with
the road whether the bonds
were guaranteed by Congress
or not.

When I arrived
here the Trustees had held
meetings night after night for
nearly 3 weeks preparing a
charter. The meetings were public
and all through the papers were
continually requested to meet
with them and discuss it, and
prominent citizens by formal
appeals from the Trustees.

I was in at the closing up
and found they had not
provided any sinking fund
whatever, nor sufficiently for
the interest, but after considerable
discussion they put in I think
sufficient provisions to cover
both. Some d-d fools
strongly opposed it, on the

ground^d that it would increase
taxation &c. I told the idiots
I knew from our experience in
W.V. that they couldn't sell a
Bond for over 50% unless these
provisions were made new
by law.

The new Charter makes
6 Trustees & 1 Mayor, instead
of 8 Trustees as now but with
no more expenses, and it
places the whole city under
one school system.

Capt. Sherman objects to these
provisions, fearing his property
may be taxed to build a
good school house (he cut
his addition off once before
to escape being taxed) and
he thinks the 7 men will
be too cumbersome.

It will be too cumbersome to
form into a ring; Had our
old boards of Trustees conspired

10.
of seven instead of three
we would have had no such
swindling of the City as was
perpetrated by the three
Mass. Such shameful,
wholesale stealing could
not have happened in a
board of seven, for even
had they all been thieves
they could not have agreed
in the distribution of the
plunder.

Sherman is taking round
a petition to remonstrate against
its fawage. He was not
present at a single meeting
though personally requested.

It may not pass y in that
case we will be no better off
as regards the Bonds.

Sherman who is selfishness
itself, thinks that we take
an interest in this matter only
because we have some of the

19
bonds the City Co. swindled
out of the City, and we want
to levy taxes for interest and
a sinking fund to swindle
some more money out of the
city. And he is actually
getting signatures to his petition.
Ain't there a lot of d-d
fooles in this world?

The January interest was
paid about the 7th or 8th.
I think, the taxes not having
been paid in until the 6th
- one day after the last day
required by law. The Collector
had thousands of dollars on
hand which he might have
paid in a week or ten days
sooner, but no he must
keep every dollar till the
very last moment, no matter
how much our credit might
suffer. For just such
cases as this we need a

New York, February 4th 1894.

My Dear Wife,

A letter received from Mr. Moran
on the 20th day of the date of the 9th day,
informs me that he had seen my books a
few days previous thereto and that all were
well except Mrs. Whaley who has been suf-
fering from a bilious attack. This informa-
tion accounted to me the reason why you
had not written for so long a time, your last
letter being of the date of the 9th day -
I had attributed it however to the supposition
that you were expecting me home about the
holidays, therefore it would be useless to
write any more. I should have written
immediately on receipt of Mr. Moran's letter
but was expecting one from you - at least
it came - yours of the 10th day January re-
ceived the 20th - I was sorry indeed
to hear that you had been so very ill and
perhaps suffered in consequence of coughs

and Altho, but glad that you have a
 received as to be able to write to me -
 You have had an immense dear strokes
 from the accounts containing in your letter
 that has come & be situated & situated as you
 are impossible for me to read you the best
 attended, I am glad however that you are
 not entirely without friends, and therefore
 share them your attention I can not forget
 when in my power to be glad to see them, I
 will not forget to see the best of them
 easily and get the presents - I can see
 that you are more as well as you
 but I do not because we are just as you sleep
 they have been very busy since then and I
 do not wish to see you here. But
 I wish that you might permit to see you
 but certainly not them, they are certainly
 as to the need for that -
 I have not the time for the
 to be sure of you you all of the
 18th January - better I have also
 receive yours of the 15th I am sure

coming out from Leeds to see me and
 from Leeds and Leeds to the
 little girl thinking them for the present
 from the Christmas tree - which I
 to have of the year and I am sure
 to them the same evening, and they seem
 much pleased with it and wish me to thank
 my little girl for the letter as they certainly
 not be able to answer it -
 Also remarkable I was going to say
 that the reading of your letter has given
 me much pain particularly as I do not
 in my power get to receive you about
 but depend upon it that as soon as I do
 my power to do anything for you I
 certainly do so -
 The decision yet in my ear
 and I have been quite all together
 with the friends made me from them
 I time by the Vaugate and have
 advice as the Ridge way and to go
 to see him very soon, at least find
 Johnson him to come. I hope

Mr Young to bring influence to bear upon the
Surrogate to take up the case at once and
decide it upon the merit, and I believe
that I am in a fair way to procure the
influence - Mr Young having found among
his acquaintances some one who is intimate
with the Surrogate who has promised to speak to
him. I am to see him again about the mat-
ter next Sunday. As soon as the decision
is rendered, no matter which way, I am ready
to commence a suit in the Supreme Court of
King County, for to contest neither right to the
Brooklyn Avenue lot standing in her name.
The papers in the case are made out and
made to show in favor of the decision to be
against me in the Surrogate's Court an
appeal will be taken to the Supreme Court.
My lawyer is very confident indeed of
winning if not in the present court at
least on appeal of the case - John
thinks that in case of the case going
against neither that she will not
appeal, and he would then be against

the day so - I enclose you a
letter to Mr. Morse which you can
read and then send to him -
You will see that I tried hard for
the agency of the P. M. S. Company
at San Diego - and had I known of
the vacancy before I did, I might
have secured it through the influence
of parties here - But I was too late &
so there is no use of regretting - Had
I gotten it I was thinking of Mr. Wells
and I had in connection with it as
probably they might have been for
sitings for them. I intend to use
the influence which I have in pro-
curing the appointment at some
future time whenever a vacancy
occurs. - I have not the time
to write you now any very lengthy
letter, but will do so soon and am
sure to you letters when more
at leisure and in reply to the
children that do you know

by a heavy weather weighing down
 Journal. I suppose do you suppose every-
 ing that Captaincy will on top of your
 head? You know of those that
 turned to mean the regular night
 I will get you out as you say en-
 cas - give our money after that
 beside - the great quantity of money.
 My old friend to send me a sample of your

 long since - she was clear three weeks
 afterwards and has been out of mind
 she has had a little set back. I expect
 to go to the bridge next Sunday and
 hope to see her there - they received
 word - Cornelia was having some

with. From above - she is coming
 very nicely - I do see occasionally
 she was kind to give me a letter from
 Inquisition to the State of the B. M.
 of J. Company, and to place B. M. in
 and my letter to Mary to the letter from

me with a dollar regularly - Things go on
about as usual at Hauick's - He and Chaud
and Spoken and Hauit and he children and
speak to me unless I speak to them, and
I don't wish to be the forever one always
The consequence is I rarely exchange words with
any of them. I suppose she thinks I am giving
her a benefit in remaining at her house so long,
she says she has no other she thought I had been
long enough that she ought to take me

that as it would create so much talk. She
has doubtless done everything to make it as un-
comfortable for me as possible, thinking that I
would become disgusted and leave of my own
accord - I have put up with her treatment so
long, I can stand it longer and I am determined
that I will not go word to her or to her
me to go - For heaven's sake I would not
remain in her house a day longer. It is any
thing but pleasant to me - and I shall be
very glad when she goes. I am kind

as little as I possibly can help, about only
to sleep and get breakfast - Not more
than one half the time for supper - and if
I have the money, to spend or can get it
any where else - I am sorry to
learn that Frank is troubled with fits
of dizziness - but he must with the
rest of us and I think it best he can
tell things and better with us - I have
written the whole of this letter in Mr
Haskell's office, expecting to see him down
to day, the weather being so very pleas-
ant - He has recently purchased a fine
house & lot Corner Madison Avenue and
Fifty Seventh Street which cost our husband
and thirty thousand dollars - I was up there
a few evenings ago to see him (Saturday)
and he showed me through a portion of
it and wished me to stop and to talk
with him - but as I had all had
done so with John in Jersey City.
He promised to be at his office more
day or the next pleasant day.

10.

Do you know he has never yet given me
the thirty dollars to pay premiums on
my policy - and I had to borrow
from Peggy - I am after this money
and expect to get it to day and if
so I will send you a portion of it
and retain the balance for myself as
I require some few things very much.
I can but hope that the times will
improve and that we will be no
longer dependent upon others.
Mr. of good cheer dear man assured

So love in hope - I think we were
not did in despair - any of us.
Mr. Halsey has made his appear-
ance - I am still waiting for him
and will enclose you something
en-cas-gue - all things are so un-
certain now a days I place no in-
terest upon any business -
With love regards to your
husband. H. H. Halsey.

San Diego Feb 14th
Old Town. 1874

My dear Husband.

Am in receipt of your letter of the 19th May, containing, receipts for Life Insurance. I hope you are well and getting along better than you have done, you need not have been so alarmed concerning the matter of life & death, I do not think if you had not paid your insurance that you would die any sooner than when your time comes, but as you have paid it so long, I

think you might as well
continue doing so. We are all
well at present. The decision
is yours and seems to hang
along very slowly, I think
your mother must have paid a
large sum, the day with you
the surrogate considerable to
keep it back, you may see
assumed that she had got
her lawyer to fix that for
her, could not the surrogate
be compelled to under the
decision, that is what the
is there for, your lawyer may
not be sharp enough to
carry you through, he may
say he is as sharp as he
might be, do keep your eyes
opened wide. You must
keep patient, they are his
ing to live you must, finally
you will get the conveyed
leave. You ought to
to get it done. Do not
when you get your money
to Corick, do not give
a single cent, the day with
you know that we have
more bills here and need
all the money to
our accounts. You lawyer
are delinquent, and the
school tax will be do on
the 15th of this month \$20.00
I suppose the property will
be sold for the taxes, but
nobody has bought one
for money so far, except the
what's that took the
after garden, he wanted
as he was going away

\$ 36.00 of it. I have not heard
from him since. I gave Mr
Morse storing note for \$ 80.00,
as T. J. Moore a lawyer in
New Town said he thought
he could get it, by putting
it in his account, commencing
suit against him, and attach-
ing some property that he knew
him to be interested in. It
will of course take time, but
Morse thought the same as
I did about it, better to do
that, than have the note lay
in the safe idle. The note
was within three months of
being outlawed. Everything is
very dull yet, The adobe part
of the back Corral wall has
crumbled in, so we have taken
all the lumber in to ~~be~~

I think if we have another
such rain and storm that
most of the rest of it will
go to. I had the roof put on
and painted as far as the
pans would reach leaving a
little square in the middle
of the roof unpainted. During
the last rain everything was
all right. We have had beautiful
weather now, just like
summer, and New Town is
filled with strangers, but none
of the care to live in Old Town.
Old Town is really almost de-
serted. The Horton house is
full. Mrs Lane is now propo-
sitor. Solomon has charge of the
eating arrangements. I went
to the wedding of Clara Twitch,
the pretty girl Mrs Seely had

to work for her, spiritiveness
has her; she married a young
man from Nevada, he came
after her, he is conducting on
the Central R.R. he was there
for ten years and has quite a
train of young ladies. My sister
brood married them, he had
a splendid shipper, and if
I had not let my baggage
break and been killed, it
would have been a fine
like a general store a week, we
went to Nevada game me down
and stays about my affairs
my, but every one said she
was very feebly of me, then
My children took me down
to supper, and that hurt her
heart, she thinks because she
is better off than I am and
she ought to be noticed the
most, Mrs C. - noticed her
brood me. she has not called
to see me since you left. They
all stand my health for having
withstand them so well. Mrs
David I had better leave the
talking for young folks to do.
I will send I, as you are one of
them, you may take the lead.
she let me alone the rest of the
evening she thinks you surely
take me out here often in her
company is company
about my sleep, my sleep with
the sleep "always
the sleep "always
you would get down
is always very
to me, and always speaks
the children to
me. The children to

are kind and polite come
to see me often. Only Mrs Schie-
ler said the other day when
I went for a few groceries, that
"I was very lucky to be able
to get my groceries there". I sup-
pose it is all meant kindly, but
it does not sound right to me.
Capt Dubois is here, his fam-
ily will come down on a box
soon, the fare is only \$4.00 on
the opposition line, \$6.00 on
the other line, low fares being
the cause of so many stragglers
in New London. George is not
home yet, the floods being
the cause of his detention.
The river is still running, but
the flood has disappeared.
I will be glad when warm
weather comes, as we have not

been able to have much ³
fire this winter in the par-
lor. Mrs. Hinch is the only one
that I can get wood from, she
is willy to take a dollar or
so ^{a week} until she is paid. I am
burning the back fence now, she
has promised me some wood
next week. I am sorry you lost
my lock of hair, as my hair
is getting so thin I can hardly
spare any more, but I will
send you one in this letter.
I would like two switches, heavy
ones, and long, with no stem
down the middle as those
are not good ones. two nice
long curly natural ones, and
some frizettes for the front of my
head. If you can possibly get
me the Astrachan Sack you
may leave out the fur collar,

as they will be very accepting
of me for a long time. I hope
you will be successful and
come home soon, we all long
to see you very much, and wish
you got all the hard living you
have had away from home.
I feel all right, broadly you and
hope no conducting upon you
that if you are short and ugly
to me, it is my effect upon
me and I cannot feel right, the
is no necessity for it, for like
you left we get along quietly
enough, I get up, get the
breakfast, and then is as

and making a great general,
there is no reason for it, so
that it is all right. We all
want to see you and all us
to examine the conference

go down, I think it is

I will have to make him come
to get his board moving for
bread, and to pray, I wish you
lastly, I am here long months.
He has only been bringing home
from you to find out as
back for some time. I pray
for my meat, and my clothes,
and the baptism, and that
is all I can do. I am

him, they are perfectly fitting
and I really say he is steady
to go to the church Sunday
mornings, He comes up Saturday

and when he likes it, I make
it. He needs a great deal of

February 8th 1894.

Lily, my baby Child,

Your welcome letter of the 15th January, came enclosed in one from your dear mama the 2nd of this month, also the one written by you on behalf of your self & Violet to Mr Puffer's letter girls thanking them for the presents from their Christmas tree. I delivered this letter to them the same evening I received it - I had father read it to them - they were much pleased with what you had written and wished me to thank you and Violet for them and to tell you that they were answered it when they learn to write. I saw the youngest one - Ollie - the oldest Mimi was 12 yrs. have taken a seven year. I am glad to hear that you are all well - and hope you will take good care of yourself.

inquire the death price at Dartmouth
house. I am feeling very weak &
sick. He ever wears a special cap
with me much better than did the women
washed. I can talk long on the most
partial getting over the, the other after-
noon I was at the Court in the other
day found our father a partner of the
company then sitting at the paper table.
There were very many girls & boys -
they did seem to enjoy the show very
much. Some think they were afraid
to see upon the way but never went
in the least. There were not a few
arrived: thousands of clothing or even hats
along in chairs upon insurance. When
they got over they saw in the
house some, which is a large number
sitting under the roof of the
steps, to some thousands and of
more. At the same time I sat
at the table that was the

and what to say anything - the
society, could many things and
consequently arranged in every re-
spect for the convenience of the
and gentlemen. There is a great
show some are had and that
them for 250 of the house and
they were well paid them in the
house & for gentlemen a description
where they can procure for or
church - but nothing through the
large on the other side - there
is a large hall or restaurant, where
at the other end you can procure
milk, canned, fruit, eggs
other way, or you may go out
the table for the table when
you may be dinner with anything
you could buy for the table
the first way to enter and to be
expensive for each, but there are
as many gentlemen there as
ladies - all at a large

and lighter with gas the lamps are in the
other rooms in the buildings - There
are many tables when you may
sit and rest yourself look out
upon the pond upon the groups
of skaters. I spent considerable
time up there amusing myself at
the windows observing the caparisons
of those outside as they passed
wending their way from one portion
of the pond to the other, passing un-
der the bridge and along the line
of red lights defining the park of
the pond that was safe. These lights
are about 100 feet apart and the way
danger is marked in large letters upon
the stands which bear the lights and
there is a barricade formed of ladders
planted - snow-poles, saw-poles
from one light to the other. Men
are placed here & there and the
bank police patrol to use their
power of danger - Along the

of the pond are gas lights with
large reflectors casting the light
upon the pond - so that even
the darkest night the skaters
may move along quite rapidly
without danger of running against
one another - Every precaution
is taken for the prevention of an
accident and rarely anything
occurs to mar the pleasure of any
one of the many thousand people
who go there, men, women, boys &
girls - The pond is open for skating
till 11 O'Clock generally. Very many
people go there to enjoy themselves
but it is not quite so fashionable
for the ladies as formerly. - As I
sat there looking upon the groups
of children or mingled with
them upon the pond I was
wondering what you and the other
children were there to enjoy
the sport. You would as well

was going to speak about - I never told
you when I was a boy - and thought
I'd find delightful our common experience.
I've kept some of those deep green
and the rest of the children will
have an opportunity to try how
you like it - It is much better than
paler shadings - I know very many
of them that make for a beautiful
mess that will be used again. I hope you
will take great care of this - you
should have several well kept boxes and
very beautiful ones - but necessarily
when paper is used - how you shall
get very many beautiful products
I have very few when many people
things in the shops and our only
was very far the necessity to come to
buy them. When others in buying
must have got required very slowly
after the a few hours - I never will
make out the name - I never will
know and see and what further

figure to you how my mind about
them - I should think that you
would not be very far from
to be such a good little person, and
knowing I have around to make
find, my mind is -
The ground is covered with
turns - and the stepping to every
in or have been the day of
way at Central Park, I stand very
many fine trees out - the weather
to take the eye - because the many
them if you have been - this I do not
give any in our experience from W. D.
am not a great deal - I do not
night - I have a more complete
the shape than I have, I have done
one - I have I guess - what I do
had from my own when I have done
to a very nice and inside, I am
glad to hear that you have had
enough now - that will make the
grass and flowers grow

When the Spring time comes you and
Mama & George will be here
The hills and down through the
valley and gather very many pretty
flowers - when you will bring
mama and me.
The good child will be
all you can be sure to bring
and to your brother in all the
good things see my love and
them from me I shall much like
to see you all and hope to see
soon but make I can I wish you
to write to me and let me hear
of you all the time I don't want
to hear of them all - but more
of our kind of air -
I have written this to the
House New York - On Sunday I was
Picking up the message - I am
to see Mary (well) the other day
I want to give the money

N. Y. Liberty 9. 1894.

I saw Mr Young last evening. He thinks
he will be able to bring through some of
his friends strong positive influence
to induce Hufschings to take up the
paper in the case and under his
decision according to the merits of
and hopes in the course of a few days to be
ready to inform me something to my
advantage. They were at dinner when
I called with several friends and I was
puzzled for how to get home - and then
I did not see his wife or children.
I saw you a handsome vacutium, something
entirely unique in that line, in the form of
an earring. by touching the pebble which
answers for a button, it falls open revealing
the interior of it within - You can show
it upon the market place in a number
of ways - and let each of the chil-
dren have a share in it - I was unable
to see them - The other vacutium are
the ones of man and child who gave

them to me to send to the children's
law now at my lawyer's - he heard of
nothing and in my case - we are
waiting further patiently - The case
of a decree in my favor it will be
so arranged that none of the other will
derive any benefit from it - and if they
want their money they will have to com-
mence proceedings in their own name
and I will cost them probably more
much as I will not - Henry I think
would have done better to have given
me a power of attorney and have al-
lowed me to have made the same ar-
rangement for him as I did for myself.
I hope you and the children are
well - Continue to write the 1st &
15th of each month or as near as you
can to those dates till I telegraph to
you that I am about to leave, which I
hope will not be long now.
Yours ever affectionate husband
Wm. Westlake

New York, February 13th 1874.

My dear wife,

I have not time to write you fully
therefore enclose you my notes to read what
you can of them - it will require strong glass
and some determination on your part to be
able to do so. They were not written with
the idea of sending them to you their roughness
excuse their roughness - after reading please return
to me as I may have occasion to refer to them -
The most important item is what relates to
my hope and intention of being able to leave Har-
riss house soon and of getting into some kind
of employment. Better address letters hereaf-
ter to care Mrs. S. H. Gibbs, 449 Nassau
Avenue, Brooklyn, New York and tell
Morse and others to do the same. I shall go
there probably Sunday or can have them
forwarded home from there.

There is nothing new in regard to
my suit - my notes will inform
you all up to date.

Do not think that I am disheartened,
though I have had enough to bother me to drive
me almost to desperation. Things will be
all right with me, and I hope with all of us
soon - a mere question of time - therefore do
not give up we do have it here at the present time
I promise you - get the better good fortune.
Why, indeed, the time will give us to enjoy.
My health is greatly improved. I must say
I stand it much better than I supposed I would
be able to. I have cured myself
to the cold and the change from heat to cold
and I believe myself capable of enduring ex-
posure. I will be as careful as I possibly can.
Mr Alden has loaned me an iron coat which
is more convenient than the shawl to be
around in it - It will serve me for sundays -
I hope to get settled soon - I have to write to
Mrs. Carter and others and will as soon as
I am settled. I sent Valentine to this day.
I will send you a portion of what I can pick
the greater portion, as that I can convenient
With love to you and may God bless and protect
you all -
Your true friend

I see by the papers for
that the Bill of Legislation
the Bonds have the intent
and provide for their redemption
has passed the senate.

I don't know what the
bill is - can't find out
that anyone here does
know but presume it is
all right.

Now as
soon as that passes ^{the legislature} can't
you sell them in New
York at a good figure.

I could get a certified copy
of the law as soon as it
passes the assembly as I
presume it will, through the

- 2 -

anti-railroad men fight
against it.

They certainly must be a
good investment, when
confirmed and the interest
made secure by act of the
legislature, a special act.
Money is plenty in N.Y. now
but very scarce here.

What are you going to do
about your taxes? - I wish
I had the money I would
pay them for you, but I
am paying now two per
cent per month for money
and on a large amount.
I wish I could sell something
even at a very low figure
but there is no sale for
lands now.

Howard starts for
Europe soon, he writes me.
He wants to take a lot

of the Bonds to London, but I don't think favorably of the plan after our experience in New York. It is too far from home and too little known about us there.

I think you can do better in New York.

How are your matters progressing?

It has been raining hard all day and will be a stormy night, plenty of rain so far, this year.

Arnold, Choate, Gunn & Tilsenheld have formed a "ring" to steal a portion of the Park, and they have gained a very important point through Hortou's stupidity or baseness for he has decided to them 166 acres of the Park - on the south

4

line. His deed to them
recites the lie that he
deceives title through a sale
to him by Moore & Bank
Trustees of the City.

Horton gave them also a
deed of Carruths land.

What do you think of
this? nice little arrangement
isn't it?

These are facts, and
they have created great
excitement here, but you
won't see a word about it
in the "Union" oh no,

The World however of course
has something to say, if only
to spite Gen. W.

Yours in haste

Moore

I would send you the
World if I could get a copy.

the names of the loaded boats and where
they lay in order to be able to tell the Captains

My Dear Father.

As it is a long time since I have written to you I thought I would write to-day. We are all well and hope you are the same. We shall all be very glad when the day come that you can return home. We have had plenty of rain and San Diego is green all over the river is down and has been running for a long time. There is no school to-day as Washington's Birth-day came on Sunday they are keeping it to-day. This is the last week for school. Mrs Burk is going to New Town to live

any and she says she dont think we
will have any more school in (Old Town)
School like that much, but I intend
to study at home. There is Mrs Young
and all the children? Give time anyone if it had not been for Bernard it would not
many times. There is Bernard & hope
she is well. Remember me to her, the
children all well and ^{love} their love to you
Thank you for the Valentine it is the
first I received this year. Bernard
intends to have Frank and myself
conferred when Bishop Peppie comes.
Frank come up every Sunday. When they
returned home from San Bernardino.
Bernard sent me a very pretty pair of blue
mass and told a pretty handkerchief
with a pretty little clock with a glass
cover for her playroom since you left
have been to two meetings Miss & family

to Mrs Donahue she was married in
the church and had a nice ball. There
visit to Mrs Case & ^{young miss} they were married by
Mr. Peterson it was a very quiet wedding
have been pleasant at all. Mrs (Bernard)
has gone away with her mother. There is
hardly any one in Old Town they are all
meeting to New Town, I would like to see
Dr. J. again but I would rather go to Boarding
school. Mr. Schiller has moved his family
to New Town. Mr. Denton has gone to work
there. Mr. Peppie. I will now close my
letter as I can not think of any thing more
to write my love and many kisses believe

I received your letter yesterday and I was very glad too to hear from you. I am glad too to see that the cold weather agrees with you so well. We received valentines which you sent in the letter I received yesterday. The one that mama got was a very handsome one. The others were very pretty too. George has returned from San Bernardino. Eunice's name is Mrs Schenhall. The River came down booming a few weeks ago. It has washed away some of Mrs Smith's largest fig trees. Give my love to all my cousins and

tell them too write to me as soon
as I can. After this week there is going
to be no more school. I am very
sorry about it but I will study at
home. I cannot think of any thing
more to write.

My Dear Wife & Children,

I have on account of being almost constantly employed been deprived of the pleasure of writing to you lately. I had sent you portions of my journal twice but as they were very rudely written at odd hours in care, on ferry boats, or wherever I happened to be having a few minutes to spare, with no intention of sending to you - I fear you will have difficulty in making out all that I have written - There is nothing of any great importance, therefore take no particular trouble in deciphering it - Read what you can readily and guess at the balance - I send you these cards because I have not felt like writing lately and having no comfortable leisure to do so in - I cannot say that I like my lot, it is rather

 that an elevated night would bring

 you at present, I would have

Think it is about time. It is a long time
that has past. I have been so very
busy or so very tired I have had no
time or inclination to write or attend
to anything. I have been continually
in the boat night and day sailing
by - no gallery slave can work harder
or was more constantly driven. I am
now becoming more settled and shall
have more time and inclination of
evenings to write and attend to what
I can. I have neglected everything
been confident to do as much
now as I could get done. Today
I feel more quiet and sure like
myself than I have felt for three
weeks or more. I am in receipt
of your letters of the 10th, 15th, 20th, 25th &

I cannot write you anything very
lengthy or entertaining at the present
time - I refer you to my notes for
anything of general interest - I
wish to go to see Mr Young this
evening if I can possibly, to as-
certain if he is likely to accomplish
anything through his friends in de-
termining the Curragh to take up
my case - I wish he often gave the
matter more attention than I had
been able to do for some weeks past -
then it is my intention to write
to the Curragh - but I scarcely
felt like doing anything. You will
excuse my writing more or less
and your letter particularly. I
hope to have some good news
for you soon. With remembrance to
friends and love to you all.

And so right in the middle of the 4th
century AD, the Roman Emperor Theodosius
issued the Edict of Thessalonica, which
declared Christianity the official state
religion of the Roman Empire. This
act effectively ended the persecution of
Christians and established the Roman
Catholic Church as the dominant
religion in the Western world.
Theodosius's decision was a result of
political and social pressures, as well
as the influence of the Church's
leaders, who had been working to
convert the Roman Empire to
Christianity for centuries.
The Edict of Thessalonica was a
turning point in the history of

Dear R. C. Huntington,
New York,

Dear Sir, -

In the matter of the accounting of Packer Whaley,
executor of the estate of Thomas Whaley, deceased.

This is the title to a case argued in your court,
some time during the month of November last.
Since then, I have been expecting almost daily, to
hear of a decision, and might still wait as patiently
as I have hitherto done, were I alone con-
cerned, but there are those having claims upon
me, who are suffering in consequence of the de-
lay, in whose behalf I should make some effort.
I refer to my wife and children, at home in
California, from whom I have been absent long.
My natural sympathy for them is the only
ground I can offer for the liberty taken in re-
questing that you will examine the points
in the case referred to, and expressing the

with that a decision thereon may be rendered
at the earliest possible convenience - and that
you may fully appreciate the motives which prompt
me in addressing you upon this subject. I
enclose a letter received recently from my
wife for your perusal, which please return.

Very Respectfully,

Yours Obedtly

 have of the longest procedure in London,
 which I am endeavoring to do at the
 present time. There is no reason,
 as I understand to be the case, the great
 many of the whole being shown by the
 people, which can be put in effect
 by them as one has the right to complain
 as long as he commits no gross fault
 and as the other having business with
 him show just interest to consider
 him than to question the propriety
 of any of his actions, as the rea-
 son that may be obtaining a decision
 in their favor. Generally those who
 use the most money and willing to
 spend it are the ones most likely
 to be much with the favor.
 The my case before the others

4
are perfectly equal - for though my
mother has the money I do not be-
lieve she could be made to bestow the
property of parking with a thousand
dollars to give the Duke in order
to get a dividend in his favor. The prob-
ability is that when his honor becomes
thoroughly convinced of this he will
on account of his manners and upon
general principles decide the case
against her, but how long I must
wait his coming to this conclusion it
is impossible for me to say.

I shall wait a few days more to see
if Mr Young will be able to effect any-
thing through the personal influence
of any one of his friends. He is
connected he tells me with Hatch-
ings wife the daughter of Cunliffe,
but does not care to seek his no-
bivate acquaintance on that account
as he is no admirer of the man.
He speaks to him when he meets him

5
but would not go to him to ask of
him a favor. He has however friends
who are very intimate with him
who dwell at Champanud and Chudky
Chrie. Haavannay together - and through
some one of them he hopes to be
able to expedite the decision in my

letter which I have prepared to
send the Surgeons Throuce and

I saw them. They were just ris-

and hoped to be able to accomplish
something in my favor.

Suppose you write to Cornelia again. I am
sure she would be pleased to hear from
you and she may then write to you.
The last time I saw her previous to the
last she was not only going to write to
him but was going to write a letter
dictated by Cory to Frank and en-
close to him a galathea from her.
I told her if her object was to reduce
expenses and if Mr Young was go-

not think she would like to live in
California and that our object she had
in going to France was the education of
her children - Mr Young said that
the climate of San Francisco was delight-
ful. I told him that that of San Diego
was more so and of his wife's visit
there and remained six months I said
she would like it. That there were nice
houses there, she could live and keep
her horses and carriage for much less
than in New York that a friend of ours
did so for less than our half of what
it was costing them. I had referred

take good care of myself as in case
of sickness I don't know what I should

I were home again. I don't see anything
very serious occur to me I know
that I would suffer for the want of
your kind attention, and if there is any
thing that I do like it is to be taken good
care of when I am sick. I don't
now certainly expect much or any
thing of this kind during as I am at

The words are written in a fluid, continuous hand, with many letters connected together. The overall appearance is that of a personal or official communication from the late 19th or early 20th century.

Handwritten text, likely a letter or document, written in cursive. The text is dense and covers most of the page. It appears to be a personal communication, possibly a letter to a family member or friend, discussing various matters. The handwriting is somewhat slanted and difficult to decipher in many places due to the cursive style and overlapping lines.

PAID TO Q.M.M.

Dear Papa

We received a letter from you on the 15th and we were very glad to hear from you. I am glad to hear that the climate agrees so ^{well} with you. There is no more school. The school is closed forever. Annie sends her love to you. She has a little class of girls. She teaches them. George is the only boy in Annie's school. He sends his love to you. There has been a great many cases of the scarlet fever in Old Town. Anna and Violet send their love to you and hope you

too see you at home soon. I
send you my love and a great
many kisses with it. I hope you
are enjoying yourself in New
York. I close my letter now as I
cannot think of any thing more
to write. Excuse this writing as
I was in a hurry to write it
so long bye.

New York March 18th 1844.

My Dear Wife,

I write you at the present time, though I have nothing in particular to communicate - as you will see by the enclosed notes - more that you may hear from me on the anniversary of your birth day the 21st of March, as I calculate that this will reach you in thirteen days from hence. I am sorry indeed not to be able to be with you at that time and to celebrate the day in some appropriate way, and to your benefit. I have nothing to send you, but to let you know that I have not forgotten the occasion, & send you what letter which is all that I can do at the present time. It was in the first to have been home with you, or at least to have been in a position to have been

you some fitting memorial of my
regard, but unless I gain my end I
can not do this and many other things
It is my wish and intention to go soon
Let us hope that before the new year
If an other anniversary (and may you
live to enjoy many of them) our situation
will be very different from what it is
at the present time and that we may
be united and surrounded by our children
loving and blessing us. Do not think
that I have in the least forgotten either
you or them or that my love is in any way
diminished by distance or time. My heart
beats only for you and for them and
the result of all my efforts will be
for you and their happiness. You want
that I may succeed and return in
time more to my home and family
and that the future may be one of
uninterrupted happiness for us all. Be
with many kisses from
your dear old father - I do not know of

My Dear Sister,

Your long and welcome letter of the 14thth has come to hand last evening - I might have gotten it two days earlier had I known it was at the Gibbs for me - I feel pretty tired to day having written considerable in the past few days. I have just completed my notes and as they are full they contain all that I might otherwise write. You will leave with regret that I have no decision yet but the chances are that I will have soon as I have some friends who are interesting themselves in my behalf with the Surgeon. Do not think that I have any foe for a lawyer he is a very learned man & stands high in his profession.

and had we a few such in San Diego we should have more justice than we have - Galweedy says would not go down him and I doubt if he would have any standing here as a member of the bar. I am perfectly satisfied with all my lawyer has done and if I do not win my suit it would not be because I have not justice on my side or because he has not attended to it thoroughly - I may be defeated in the Chancery but I would not bet upon his decision one way or the other. I do not think my mother has paid anything to keep the decision back neither do I think she would to have it rendered in her favor. She thinks too much of money to see the importance of paying out a little for the purpose. The

I am very busy, can say but a word or two.

You are mistaken in your premise. The Board of Trustees made no change in the assessment roll. The Assessor valued the property higher - says it was really higher in the market than when he made the assessment for State & local taxes, about one or two months earlier. The difference he made is about 20% not more. There must be some mistake in the Hays Ringold property. The Supreme Court has decided that the State Board of Equalization can not raise or lower the valuation in a lump, in one county.

You can not confine the voting to resident property owners - such a charter would be unconstitutional in every State in the Union.

The assessor has a sworn duty to perform and a charter could not say that he "should assess the property at same rate as assessed for State & County purposes". The assessment is made by ^{two different districts of different taxes} two different men ^{how then} can the assessment be alike? The Assessor & Collector must be two

different persons according to the Constitution.
The Treasurer & Collector may be the same. A bill
passed the Legislature making quite a number of
changes, amongst others, giving the Treasurer no
salary or commission, and the Collector but 3
but the bill was forgotten by the Governor.
of Dorren good men ^{see} would take the Treasurer's
office without any fees. In Massachusetts
the usual fee paid to a Treasurer & Collector
the same person is $1\frac{1}{4}$ to $1\frac{3}{4}$ per cent for
collecting & disbursing and here we pay 8%
your Old Town Trustee Estabrook is Treasurer
and gets his 3% but has not attended
a single meeting of the board for the past
4 months.

I like many of your
suggestions very well. A new charter was
carefully drawn up in public and read at
several meetings of the board of trustees but
the "Ring" opposed it and Mr. Cuy positively said
it should not pass, so Bowers to whom it was
sent did not introduce it.

I have not been able to get a
certified copy yet of the Bill to legalize the Bank.
Will send it when it arrives.

Mr. Clews was certainly very
gentlemanly and I have always liked him
very much, but our Bank had committed
themselves so far to Drexel Morgan & Co that
they could not draw back. Clews did not
pay in full however.

I presume when Marston and

so, it has looked very dull. Everybody feels exceedingly blue. I think no work will be done on the railroad this year. It is rumored that Evans & Woods have attached all the railroad property here - may be so may be not - things look bad.

If we could fence in our lots at New Town our title would be all right, but I have no money to do it with and must risk it. They are not worth much now.

Mammam had an inquiry for Ranch lands and I offered her San Ysidro for 65¢ per acre and to pay her commissions out of that if he sold. Hartman said refer them to me for title I have examined it and it is perfect. He said the title had failed & it was not now in his hands.

I am sorry you did not make the grain business stick longer. I hope you will get a decision in your favor soon - I am terribly in want of money, am in debt & can't get out. That mortgage will be cuttated soon what about that? I hope Mammam will sell that San Ysidro property.

Harry wants to know if there is any prospect of doing anything with the Stonewall mine.

He says: write D Whaley that - The miners all say that some day this mine will be worth a million of dollars.

The mine is 40 feet wide where they are at work now.

They have all the water they want from the Laguna

There is no blasting required in the mine & therefore costs to work it immensely less than when blasting

A. E. HORTON, PROPRIETOR.

San Diego, Cal. April 27th 1874.

Dear Father:

As I have not written to you for so long a time I feel almost ashamed to do so. But, nevertheless, better late than never, I will try to inform you as briefly as I can of what is going on here. In the first place our railroad prospects look rather gloomy. The first ten miles have been graded but no signs of track are at present to be seen.

People are leaving, but there are a great many who have decided to stay and see it out. We will, this season, have very large crops, and as it is, our farmers feel that they will not starve this season. Turn aside from railroad to improvements not much is being done. The new buildings which were commenced some time ago are being finished up, and well ornament this place a great deal. As for Old town, not much can be said, people are leaving and stores are closing, which makes it at present rather dull. There is a rumor on the streets to-day that the San Diego "World" will suspend.

to-morrow, I have it from good authority, that is
Mr. Gamm, says, yesterday there was an election on
the purpose of seeing whether there would be a special tax
voted for school purposes, which was voted, "Yes" by a vote of
over 850- to 20. It was one of the greatest successes put
upon this community, headed by the managers of the
"Wald" gang. They made some \$700 out of the Old
Town Special school tax, but could not make the
\$1500 they aimed for this time. I think it is about time
that they should shut up shop after trying to swindle the
poor people in this manner. I am still working away
in the office, not at night, but in day. I am working by
the piece a thousand, and do not make as much as I
did by the week, but have more time to myself, and
average twelve dollars a week. My mother and I have an
idea in our heads to save money in the following manner:

I pay Mr. Solomon five dollars and a half a week,
twenty cents for room rent, and the rest for board. Now I
we have an idea that will save at least three of this
for family purposes. It is one I wanted to do some time
ago, but my mother would not let me exercise. It is to get me
a horse and let me ride down in the morning and ride
up at night. I can probably board the horse at Feely's
for about \$2.50 a week. We spoke to Carthwaite Sunday

a week or ten days. Dr. Stockton said that riding ex-
ercise would be good for me. I have at times what is
called a rush of blood to the head, and also chills. But
they have not troubled me now for about a month.

In regard to the printing press it is a very good idea; but I
think it would not pay at present. Besides the stock and ma-
terial I should want would be more than you think for.

I could run a job office alone very well, and would like to.
But it costs so much to get everything. The canvas you sent me
is a nice specimen, and stock is cheap, and money can be made
at it. Farms are dull now and I don't think it would pay
to invest. But you write me further on the subject and I can
give a more decided opinion. I addressed to you day before
yesterday ^{in a post card} in fancying you that I had sent to you the pat-
tern of the horse, and a piece of printing of my own design
and presswork for my cousin Cora. which is the first piece of
the kind ever done in San Diego. I stated some time back
on I intended to send it them! Look out for it, if it has not
come. I feel in this I have seen that I have improved in
my writing. This letter does not like it. I am the next
one to running the press for improvement, and I thought
that was wonderful. But never the less this was written in
a hurry and must be at once, the next will be better.

and you can read a great deal plainier. I have not had much time to practice but I intend to do so as soon as I can get home. The picture you must excuse as it is the first one I tried. I left out the adobe wall so as to show full length of house. There is one fault, and that is the perspective. It is very good considering that I never studied that kind of drawing. I know it around.

The children are all well and so are my kins and much love. Mamma's well and over her accident. Hope to see you with us soon; as you have just been away from us one year on the 25th of this month. But you are in good health. Hope you will run your errand and get the agency of the Pacific Mail Company in San Francisco as the agent there has resigned, and as Mr. Taylor is there as acting agent. Mr. Moore would be telegraphing you the fact. He will be with you soon as he leaves here in a week or so.

Darling Papa

Having received no
letter from you for a long time we
would be very glad to hear from you.
I hope you are in good health. I
send you my love. Annie still
teaches school. I also send my love
to Mrs Puffers little girls and to
Mrs Youngs little girls also. Tell
them I would be very glad to get
a nice little letter from them
and from Mrs Puffers little girls.

I hope you are enjoying yourself very
much. We are all very anxious to see
you home again. San Diego is very
dull. I will now close my letter by
sending you many a hearty kiss.
from your affectionate daughter

My dear Papa

We have received two letters from you which gave us much pleasure. We are all well and hope you are the same. I would like to see you very much indeed and hope it will be soon. We all think Mrs Young has been very kind to you. I hope she will have a pleasant trip to Paris. Papa you can not imagine how dull San Diego is. I think you will find it so after living in New York. Papa will you when you return please send me to Boarding School? I am very anxious to go. I will never learn any thing in this old place. Remember me to all your kind friends. I would like very

wish to live in New York. Frank and myself ~~also~~
went yesterday to the Jewish picnic and had a very
nice time. Today there is going to be another picnic
and we all going I ^{wish} you were here to go with us.
I am sure you would enjoy yourself very much &
will tell you how the picnic passes of. Papa will
you bring me a nice set of drawing cards? When
Abama reads about the trunk you ought to see
the children they make Abama read it four or five
time before they are satisfied they ^{wish} for the trunk
every day. I am sure Aba Young has been very kind
to us all. The twenty seventh of June is my birth-day
and then I shall be fifteen. I would like very much
to have a party but don't think I can. I don't think
there ^{is} any thing more to write about so I will ^{close} my
letter by say Abama and the children you their
love and many kisses and please accept the same
from your loving and affectionate daughters

Mama received
a letter from you yesterday.
We were all very glad too here
from you. we are all well at
present. I hope you are having
a pleasant time in New York.
I send my love too you and
also too the Youngs. Give my
love to Mr & Mrs little girls
and tell them that I will
write too them both. Mr Wallack
and his family are going
away from Old Town. Annie
and Frank went to a Picnic
yesterday. The picnic was at
Roses Canyon. The picnic of

of our church is going too be
on Friday. We are all going to
it. I wish you were here too
go with us. I hope Mrs Young

My Dear Wife,
I sent you a long
letter the day before yesterday,
enclosing a few lines written by
Cousin Preston to the depart-
ure for France, and informing you
how pleasantly I had passed my
time at his house for a month

Dear Father:-

It has been very near three weeks since we have received a line from you. But last week we did. We have all been very anxious about you; thinking at times you were sick and also that you were on your road home to surprise us. But according to your letter we were mistaken in everything. I am over-delighted to hear that you are in the house of Mr. Young and so comfortably fixed. I hope it will be your pleasure to remain in their house as long as you intend to remain East. God through his kindness, has granted you good health ever since you left us, being so sick then, which is more to you than a thousand fortunes can make East, and I hope he will spare your health until

you can reach your happy family here in San Diego. Mr. Morse told us that he telegraphed to you regarding the resignation of the agent of the Pacific Mail Company in San Francisco, and for you to look out, as there may possibly be a show for you. I hope you will try either for here or there; as there is only an Acting Agent there ^(S.F.) at present.

I hear through your letter that Mrs. Young and Corinna will sail on the twenty-seventh of this month for Europe. I hope their trip will be a pleasant one. Remember me to them, and say that I would like to see them again, and hope too at some time not far distant. The same to Mr. Young. Tell cousin Cora that I am waiting anxious for their letter from her. Mamma sends her love and expresses the wishes I have above written. Our Railroad prospects at present are in about the state as when you left here. Business is not quite as quiet at present as it has been; and we look for quite lively times soon.

Mr Morse intends starting east soon on the Mon-
tana, which is due here soon.

Did you receive a package which I sent, and
if so what do you think of them.

Do you see any improvement in my writing
I am going to try and improve it.

The folks are all well, and send much
love and many kisses and wish you were home.

I send you the same and will always remain

I cannot positively perceive why the Surrogate will not render a decision in your case. I hope soon you may be able get the decision, and in your favor, as it justly belongs to you.

As regards printing I do not yet deem it advisable to invest in printing material, as we cannot tell yet how the "cat is going to jump." I should well like to have a press, and type, but the amount; styles, etc, would come to so much, that it would not pay at present to invest.

As regards my getting along here, as it is, it is sometimes pretty hard for me to make a decent weeks wages. But I will not complain, as the "good time is coming," and we all will be happy again.

The key will unlock the highest trunk,
the one containing toys, but do not insert
it all the way - leave a portion of the bit
of the key to turn around on the outside of the
lock. I have mislaid or forgotten which
is the key of the other trunks. Any com-
mon key will fit it. Do not burst the trunk,
open - remove carefully the bagging around
the trunk, taking out the packs, and take
off the ropes without cutting. George will
find use for them. He has been to get

I have a pleasant room looking out
upon Madison Park - one of the
finest and nicest places in the
city. I have been writing nearly
all day. I am going to take
a drive and attend to some bu-
siness. Mr. Young and I get
breakfast indeed most mornings
together. He goes down town
to attend to his business and leaves
me to attend to mine. I shall
not be so hurried after a few days
and will write to you more
frequently. Do not think that
I have forgotten you and never

too much for that. My thoughts
are ever of thee and I am with
thee in spirit though not in

that the children are too. I must

my Papa - with all of which I am very pleased
I hope you saw the memoranda to Corinne at Paris, I have
sent to Mr. Young - He was pleased with it - I am
still very busy - will have more time I hope
soon when I will write more fully - You and
the children must excuse me and not think too
of me for not writing - more - No need to argue
to my Aunt - I have done all I can do through
the influence of James - If no decision this
month must wait some months longer - as the
Court take vacation and the Supreme Court will
not meet till Oct. again - Let us hope for the
best and that all will be well - I am still
with Mr. Young at the Albemarle House and will
probably remain with him as long as I can here or
until he goes to France - He is very kind
to me. I should not wonder if being with
him resulted in permanent good to us.

New York, March 29th 1844.
(Correct date the 19th.)

My Dear Wife,

I mailed you a short letter yesterday containing some additional notes calculating that in thirteen days it would reach you upon the anniversary of your birth day the 31st day of March, and being tired of any present I am unable to send you at the present time.

In the evening I crossed over to Brooklyn and went to see Frank Libb. They found two letters from home both postmarked the 4th of Feb. One from you enclosing my notes from the 2nd day to the 14th of Feb. and the other enclosed letters from the children & one from Mr. Felt's. Yours and his were of the 1st of March and those of the children of various dates in Feb. In the children's envelope I found a ten cent piece and a small pearl. One of the children having sent the pearl but no one mentions the money. It was my intention to have sent you word not to return the

notes. I remember having told you that
there had been no answer to the letter I sent
you December 20th to William ^{Wagon} and at length
you told me that day - when we were
I don't they have never come to hand. I had
told you that I had written to the bank for
the notes sent out for the 3rd day of 14th
of January. Perhaps you were not returning
notes sent within a fortnight & you did not
last letter discussed business to the one dated
today was dated February 11th. You also
did not receive my letter of the 2nd day of Jan-
January the notes and in addition from the same
American Express - or you have forgotten to
return them, or if you have returned them
they have perished by some fatal disaster -
then if you can find the bill in a city
on the 15th January I will give the bill
to the American Express by the next day
to the children who were at night I have
sent at the same time as the day before
last - Also in a letter on the 4th day
I enclosed a five dollar bill.

back - neither of which in any letter re-
ceived from you you were told the receipt
of the bill was changed for you though you were
I received the letter on having the money
as I spoke of having sent the money on the
day in my notes - I wonder you have had
nothing about it. I also sent you a
two dollar bill I hope you were never out
back either of the money amount - or
that you did not have the amount - or
that you had not yet attended to the
thing of money between us - the dollar bill
which you speak of having sent me I have
not though I got it in the bank yesterday
I probably had it in - it pleased me to
getting it back in January during your
visit to as I thought very carefully and
if I had not sent it I would have been
sent. I was surprised to find that I had
appeared some money and had nothing that
I had, only my money - the day before
had sent the money to you but that the
did not see any money - if I return

San Diego, May 7th 74

Dear Frank - We have just received your
last letter to us, and am glad to hear
that you have changed your quarters. Have
had some pretty good railroad news. My horse
is on his way up. We are all well, and hope
you are the same. Mr. Mure leaves here soon
for the east. Remains be sure to call. P. J. Whaley.
Did you get the money I sent.

New York, May 22nd 1874.

My Dear Lou Frank,

I received your P. O. of April
25th the 4th May regarding me of your
intention to send pictures of houses &
some printings. Your long letter of the
27th came to hand the 13th May, also
the drawing of the ~~house~~ and the print-
ing for Com~~mission~~ Union of
the 20th of April & P. O. of the 4th
May were received the 19th inst.
I believe there are all the acknow-
ledgments which I have to do to
I am anxious to hear what that good
rail road ~~is~~ but you speak
of in your P. O. of the 4th inst.
How all accounts things are ex-
tremely dull in San Diego - worse
than ever, because the people, hav-
ing been disappointed so often

Just a moment - I know in silence -
much for you to return this
at present - I would not like to
to make any more than I should
am making you wish to attend
short of my own - if my wish
was decided on or I had the money
which I expect to receive I would
not wish to add to it in its state
there at New Orleans. My only re-
quest is for a conference or to remain
away from home as long as I should
love you upon other things - the
absence of them are my wishes -
My anxiety I may explain to you
the better over again, as it is to be
great about, if not in New Orleans,
then some of the ~~most~~ ^{of the} most
ambitious the worst but rather ex-
pect that the same may be subject
very to myself for New Orleans
that we shall realize all we have
as long as you for. I would not

rather rather to New Orleans than
remain here for a day or two
to do to my advantage - I shall
be sure at the present time the
best chance. I would not like to
have you down here to come in -
but a decision to be made in
my own wish a few days in New
Orleans and that is for the thing
the influence of friends to get the
arrangement to make a decision in my
own mind as to how long I will
stay in New Orleans to conference to all
the great men to be with my own
wishes in its regard - I am not
the present. It is very unfortu-
nate for me that I have not had
the same advice or help that I
of anything it can within a few
days - the Court will be in
today and nothing can be done in
the way of an appeal to the
New Orleans before the Court.

were see the unpleasant fit I am in -
without means, almost - and impor-
tance to get into anything - You'd
not for the kindness of Mr & Mrs
Young who have been very good
friends, some indeed, I scarcely
know what I should have done if I
am I'll with him at the Alber-
marle Hotel and I make myself
as useful to him as I can, and in
return he supplies me with all my
wants. I have no reason to com-
plain, except for the want of a
little money which I would much
like to send to mama occasionally.
It grieves me when I think of the
deprivation which you have all
undergone - but I know the good
time can not be far away when
I hope to have it in my power to
supply you all with everything you
will have a good time generally
and I shall not be in need of

full of my dear Son who has
 been so good a boy and taken
 such good care of his mother
 Sister and younger brother. I
 will reward you my dear boy
 for it all, if ever in my power.
 So continue in your efforts
 for the welfare of all these I
 love so much and Heaven will
 recompense you. The time will not
 be long I hope when we shall all be
 reunited once more. I am weary
 of being so long away from home,
 just one year to day since
 I left home in old India. I did
 not expect to be so long away,
 and when I saw Maria and
 the children, after parting with
 me on the steamer, wending their
 way along the wharf little did
 I think them a year and more
 must elapse before I should
 see them again! I have, however

I hope she will succeed. Her letter of the
5th May containing the lockit
and letter from Mr. Miles came to
hand the 19th inst. Clarie answer
it in the course of a few days and
I think exceed to him the great cross
which Corinne gave her belonging
to his mother Mrs. Appleton. I am
carrying it around in my pocket
and fear that I may lose it.
I sent the top of the trunk ship-
ped by the steamer which left the
9th on the 27th inst. I hope
in due course of time that they were
and are safely. They contain very
many things useful and ornamen-
tal that will please you and them.
I sent parts of three bottles of essences,
one which be very useful of a
few drops in a small bottle of
alcohol will make fine perfume
my for handkerchiefs &c.
I have also very many pins

beautiful tickets which will make
 new scarfs and make ties for
 you and me too if not a whole
 parcel of them my return from
 the lamp (Gas or Oil) probably
 Coal oil. ^{I don't know which} the one with a chimney
 to it is the one for the magic lan-
 tern which is a very good one.
 You will put it in perfect order if
 not so. The bottom of the lantern
 has been broken for some reason
 or other perhaps to put a candle
 in, but not to injure it. You
 must give an extra bottom of the
 magic lantern which will put
 a key around some of the other
 ones in S. D. No. who has never
 seen anything of the kind before.
 Tell mama to be very careful
 of these things - there are very
 many very handsome things
 enough for all - I am glad
 to hear that you have a horse

to write our paper that your health
will be better than by - after that
we're gone & to you, and it's gone
for anything. Just consider it in ex-
change for the same before you go to

when his health was very good
much for the many things that have
taken for my school - I don't know
anything by the world I wish to have

who have checked us our health
of our student's health and death
with us. I am glad however that
you have the horse as it was bought
you and made you to go to
man a quite better horse of your
country. I think by the time
the horse is better and get to be
better by you than they are all
before. I but admire the service
good that is being done for a country
if the person making our things
in the village are known to the
law. I am glad the work is being
done as a debt in it and you
deserve it very much. I think with
your popularity you will soon
know more of all the work of
the world. The time they get
even with them for their manners
in educating the world and for
the time you are about of the
you are about to be in it.

work yourself to please such few
ple as you will get from them
from them, do by them, hindered
what is right and fair so long
as you receive their money, and
learn all you can, to enable
you the better to run in opposition
to them whenever you shall so de-
cide. The Union offered one of
of Dodge's old store to consider

I can make up the loss for
your benefit I shall be satisfied
What do you think of George for
leaving in your footsteps - if he
became a partner he might be of
service to you and when he be-
comes a man go into a part-
nership with you - Tell me Frank
what you think of this - Please
look after George and if I can
enable to send him to school
I think it would be as well

probably for him to follow in your
 tracks, besides you might then
 look after him and find him good
 advice. We will not think of any
 more of the old printing office, at least
 about commencing operations at
 present, in San Diego. Perhaps
 when I get my money the times
 will improve and then we will
 show regardless of cost providing
 it pays a reasonable amount on
 the investment, of which you certainly
 must be able to judge. I
 must do something for you Frank
 if I may provide in return for what
 you have done. You have been
 my representative to a certain ex-
 tent and done all in your power
 for the support of the books and I
 have been away - and I must not
 forget it. Besides I have always
 wished to have afforded you and
 opportunities in the way of education

and should compensate you for my
inactivity & also do if my presence
can please with the specimens
of ironing and and hope you
will like also much better, than
more all you can, and only in
writing but every thing else -
It is but a difficult matter for
you to learn any thing of yourself
but determine to do so - and the
more you acquire, the greater will
be your power to be satisfied
as you gain of experience - that
is the true for you to learn and
that you can find key - I think
of it writing had all stay you
will not like much to sit down
to study or to read - I believe
you are apt to do so - and
be no harder than to you -
may, you will even find
it a pleasure - and you
will be surprised at the

infinite wisdom & of wisdom
that I believe you will find
it in experience or a great
wisdom only are for each
day knowledge - I am of the
best opinion men I have known
use self taught, whose attainments
seem better than those of the

this account you ought to try

association which you are form-
ing under the initials of "B. C. M. S."
"Boy's Own Mutual Fund", as I inter-
pret it, which among other things
is for the purpose of debating, will
enlarge your mind and be of ad-

with good boys think and do
all things that are bad if your
desire is to succeed in life.

My Dear Little Wife,

This being the anniversary
of my departure from home, and as there
I hold you and dear, it affords me on
this occasion a sad pleasure to com-
morate the event by writing to
you that you may feel that I am
not unmindful of you. Little
did I imagine on our leave taking
that we were to be separated for
so long a time. A few months of
work was all that I should be
away - but now a whole year
has past and I am still unable
to say when it will be our hap-
piness to meet again - but let's
hope that it will not be for any
great length of time - a few weeks

on months at work - begin to show
the need of you to participate
of that happiness which you find
in of being me as of late, how
I should like the dear man.

It is what I have thought and
wishes of you to long without
wondering that I can see you
also that you may see it.

It was ever done a woman man
how I love you - I think this
more than a time since I first
knew you that I did not want
some change from the first

my life for you as I know
him to be right in every thing
I am how dear than you have not
fully understood my self too -

Then or you were never how
traced me quite as I did -
I am the dear Stephen that
I am how dear and mistakes
I am how dear and mistakes
I am how dear and mistakes

I never saw the wish you and
I am how dear and mistakes
I am how dear and mistakes
I am how dear and mistakes

that I have many things to
do for me and what with the
fact that you are the wife of
Stephen and my dear wife

and I am how dear and mistakes
I am how dear and mistakes
I am how dear and mistakes

and I am how dear and mistakes
I am how dear and mistakes
I am how dear and mistakes

and I am how dear and mistakes
I am how dear and mistakes

found it - but at last losing
all patience I did once
said things that my own
good sense & common sense

Do you think it was right
for you to try my patience
to such an extent and would
you not be ashamed in the
future? It was not your
want to do so when we were
first married and so long
as you really loved me
but when you used to come
to me, rejoice in my success
and had the fullest confidence
in me - I was really happy
very happy then - and so
I believe were you - but
jealousy and hate took

can but assure you that I
have told you the truth
and if you still persist
in not believing ^{me} and
I cannot help it - and the
responsibility must remain
entirely with you be the con-
sequences what they may -
It was jealousy and hate that
made you what you became -
changing you whose nature
and which was the cause of
all the trouble. It was
when you ceased to love and
respect me that our unhappiness

must begin - Then feelings de-
cidedly unamiable - began a

For all good doing I wrote
yesterday to Frank rather dis-
paragingly in regard to my suit,
but have since seen my lawyer,
Mr. Redwood and he gives me
every encouragement that the suit
will be decided before the end of
the month and in my favor.
He has made some arrangements with
the Clerk of the Supreme Court
that would be not
much of a sacrifice on my part
though it may keep me out of a
portion of my money for a year
or two. I think it better to do
this than to be kept long in suspense
in regard to the matter. There is no
doubt that the case can only be deci-
ded in my favor - and the only rea-
son for keeping back the decision is
that somebody may be allowed to
make a little money out of it, and
in such a roundabout way too

encouraging. He received a letter
from Corina this evening. She
was on board the Calabria in
sight of land and expected to arrive
in Liverpool the next morning, Sunday
the 10th May. The Spahr of the ship
did hardly seem to think that this
had received a great deal of attention
particularly from the Captain.
She was seemingly in good spirits
then. But how sadly distressed she
must have felt on her arrival at Liverpool
upon learning that Mr Reynolds
(then found upon whom she relied for
an escort from Liverpool to Paris
and to place her in comfortable
quarters there) who had preceded
her by Steam with his two sons,
had met on the voyage over with
a very serious accident breaking
his leg in two places. It must
have been a terrible blow to her
when she heard of this, as she

depended so much upon the
 kindness of Mr Reynolds for
 assistance until she got fairly
 and comfortable being located in the
 Parisian house - He is an old
 and intimate friend and had
 it not been for the accident
 which she placed in him for justice
 how she would not have consented
 to have gone - with the woman her
 husband had consented to her
 going - She said to me on some
 thing before her departure that Mr
 Thayer should do in case anything
 happened to Mr Reynolds and he
 should not be in Europe with
 me and my children? She thought
 probably the Thayer might be lost
 as there had been so many accidents
 to the Europe, America and India.

 it probable there could be any
 more losses of the line - that

The first thing I noticed when I stepped
 out of the car was the cool breeze
 that greeted me. It felt like a
 warm blanket after a long journey.
 I had been driving for hours, and
 my eyes were starting to feel heavy.
 The road ahead was straight and
 clear, leading me towards the horizon.
 I took a deep breath and smiled.
 It was a relief to be here, in this
 quiet town. I had heard so much
 about it, and now I was finally
 seeing it with my own eyes.
 The buildings were simple and
 charming, with a mix of old and
 new architecture. The streets were
 clean and well-maintained. I
 walked down the main street, taking
 in the sights and sounds. There was
 a small cafe on the corner, and I
 decided to stop for a coffee. The
 owner was a friendly man who
 greeted me with a smile. He asked
 how my trip was going, and I
 told him about the journey. He
 listened intently and offered me
 some advice. I thanked him and
 went back to the car. I had a
 great first experience here, and I
 was looking forward to staying
 for a few days. The town had a
 special charm that I had never
 experienced before. I was going
 to love it here.

Dear Mother
I received your letter of the 15th and was
glad to hear from you. I hope you are
well and happy. I am well and
hope these few lines will find you
the same. I have not much news
to write at present. I am still
in the same place and doing
the same work. I hope you
will be able to visit me soon.
I love you very much and
am always your affectionate
son.

New York, May 29th 1874.

Papa's Dear Children, } Mamma & George,
 } Violet & Willie.

I have received from each of you many and various interesting letters, all of which have given me great pleasure to read, and make me desire the more to see you.

I would much like to write to each of you separately, but as this would occupy considerable time & be to a certain extent a repetition of what I might have to say, I have determined to address you en masse. So let this single letter answer for one and all.

I have just finished writing these pages to you dear

brother Frank, from whom I
recently received a nicely writ-
ten letter, probably the best pen-
ned by him, and as it is getting
late and I feel rather tired I
must say what I have to do
briefly as possible. I have
given in Frank's letter some por-
tions which more appropriately
I should have written him - that
about having read your letters
to Mr. Puff's children for instance.

I want to tell you some-
thing about the Sunday school
Anniversary which took place
in Brooklyn the day before yes-
terday the 21st inst, but as I was
occupied nearly the whole of the day
I did not get over in time to see
all that I wished to see. In-
deed I did not get there
after the grand procession.

dear Husband.
Am in receipt
of two letters from you, one
containing salt spoon and
lace bid, and the other May
23rd containing gold cross, this
latter letter I did not receive
for several days after the one
containing salt spoon, never
theless I am obliged to you
for them. The children also
received your "en masse" to them
and were pleased to hear from
you. We are all pretty well.
I settled with Nash, as best
I could, he would have nothing

to do with your note, and
said that you were depositing
him and seemed very well -
minded about a settlement, so
I changed the note to one day
after date - instead of one year
after date, and he indicated
upon leaving his receipt for me -
I used upon it, but he cut it
down to one per cent per month,
instead of one and a half.
Per cent, so I arranged it
all being entirely, so as to
prevent other from seeing too.
Heck told me he would leave
the note in the hands of his
agent - and certainly would
not show you, but leave it
for you to pay when you
can, He showed me quite

a number of notes, all out
day after date for collection,
He said it did not please
because the note read one
day after date, that he would
cut it, it was merely the way
his notes all read. I asked
as you signed in the matter,
and signed myself as such,
I understood Schultz also speaks -
to the "One Year after date -"
he says one day or two days
after date, would do as well,
as he would not think of
showing you, so I told him I
would change it to one or
two days after date, he said
if you got any money within
the one year, you need not
bring him till the year was up

the way your notes read. So
to keep them all quiet, I arran-
ged things as best I could.
I am afraid people are
getting suspicious of your
long stay, and torment me
over much asking when you
are coming home. I try to
avoid people as much as
I can on that account. You
had better write to Manasse
and Schully yourself, I told
them I thought you would.
It will keep them quiet.
I do not want them to shut
down on us, for we would
be poorly off indeed,

Hamilton & Marston say
you need not trouble your-
self about their account

To My Dear Wife & Loving Children -
- One and All -

It is a long time since I
wrote to you. I hardly remember when
some time about the 20th of last month
I have been very busy indeed - I have de-
scribed almost constantly night and
day in getting your Cousin Corinne
and Children off to France. There
was a great deal to do and I de-
voted almost entirely up to you and
it would be impossible for me to tell you
everything. They left the 29th May
by Steamer "Catalina" - Mr. Spring will
remain here a month or two longer
to attend to business, and may not
go at all. He has a great deal to at-
tend to and has engaged me to
his private Secretary and will
probably find enough for me to

attend to the next time as he may
to leave for France or I may
go back to Rochester. I remain
arranged as this for me and my
family I may meet in some
partments and that I may find
if I may attend to the

her I was glad that she was
pleased with it but that I did not
think it worthy of the praise which
she bestowed upon it - she kissed
me and thanked me for the letter
It was then she promised to send
my the photograph from Paris.
She said that she had arranged
things so that when she was gone
I should be with Mr Young -
that she wished me to remain
with her for company - saying
he would have a great deal for

me to do to keep me busy
 till such time as I left for
 France or I was ready to
 turn to California, and that
 perhaps it might result in my
 becoming permanent in his
 employ or have some interest

this to any one and when
you open them do not let
any one except our selves and
our dear children know what
you have got, there are some
things I fear are almost too
nice to wear at Iria Conna
unless we were better off
besides I have other things
than a nice astrachan
cloak, black which cost
\$100 in Paris - It required some

repairs and alterations then
 for I have retained a D-I

Mr Whaley

Dear Sir,

I received your letter of May 26th yesterday (sent to me from Manchester) I returned here last Saturday. Mr. Morse sailed from San Diego at 5 o'clock ^{P.M.} on the 12th of May instead of the 11th there being some delay in getting off. He wrote me that as they stop at six ports on the Pacific and one on the Atlantic, the trip must necessarily be longer than usual. Perhaps 28 or 30 days. Consequently he will not probably reach N.Y. by the 5th as you expected. I shall send a letter to the N.Y. post office for him in a few days, & after a few days more, a postal card. I hope you will be able to see him. Mr & Mrs

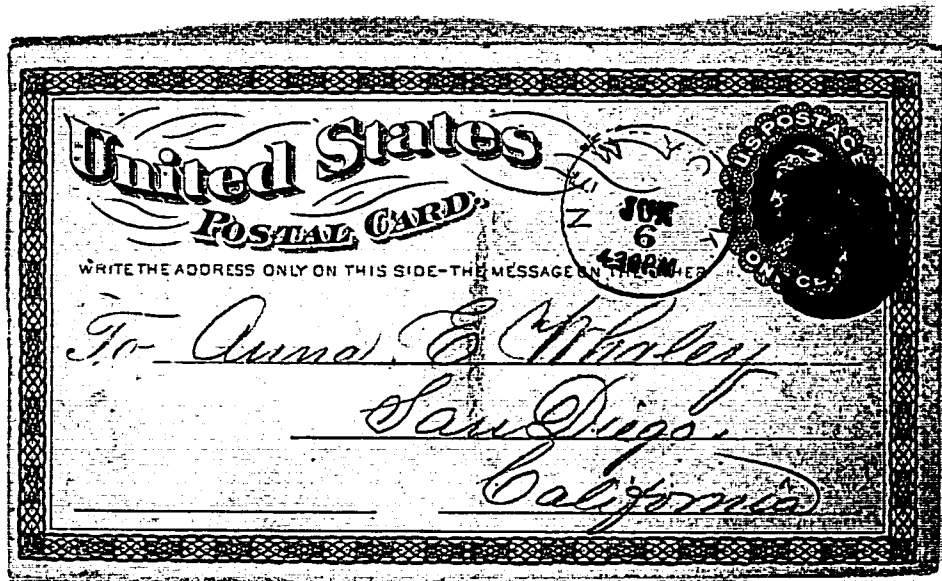

Howard are here, & sail for Europe from
N. Y. on the 13th. They intend to be there
to see Mr. Morse on his arrival. Their
Stopping place will be Greenpoint L. I.
It seems a long time since Mr. M.
left - but if he arrives safe & well I
shall have no reason to complain.
Please don't keep him long in N. Y.

Excuse haste

Very truly Yours

The first thing I noticed when I stepped
 out of the boat was the heat. It was
 not just hot, it was oppressive. The sun
 beat down on my face, and the air
 was thick with humidity. I had heard
 that the weather in the south was
 terrible, but I didn't realize how
 bad it would be. I had come here
 for a vacation, and now I felt like
 I was in a prison. I had to get
 out of there as fast as I could.
 I took a taxi to the hotel and
 checked into a room on the top floor.
 The room was small and hot, but it
 was better than the boat. I had
 to get some rest, but I couldn't
 sleep. The noise from the street
 was too loud, and the heat was too
 unbearable. I had to get up
 every two hours to turn on the
 fan. It was a miserable experience.
 I had to leave the hotel and find
 a way out of the city. I had heard
 that the beaches were beautiful, but
 I didn't want to go. I had to
 find a way to escape the heat and
 the humidity. I had to get out
 of there as fast as I could. I had
 to find a way to escape the heat
 and the humidity. I had to get
 out of there as fast as I could.

The second thing I noticed was the
 smell. It was a mix of fresh air
 and a hint of something else. I
 had heard that the food was
 delicious, but I didn't realize how
 strong the smell would be. I had
 to get used to it, but it was
 not as bad as I thought it would
 be. I had to get used to the
 heat and the humidity, but the
 food was worth it. I had to
 find a way to escape the heat
 and the humidity. I had to get
 out of there as fast as I could.

Aster House, N. Y.
June 10 - 1844.

To My Dear Wife,

I wrote you last the 26th
May, enclosing notes to Mark and Schilla
also Silver Salt Spoon, set of Silver Soap,
Silver which now I have written to Frank,
^{May 29th} acknowledging his long and well written let-
ter of the 9th May, enclosing an enamelled
lid watch key a present to him from Mrs
Mc Young, and also to the children,
May 31st, enclosing a piece of ribbon &
in answer to their letters previously re-
ceived. I have also received since
last writing to you your letters of the
18th & 20th May, the former enclosing
letters from the dear children Anne
and Lewis & Lizzie which are al-
ways welcome to me. I will now
answer yours, and then the kids

being at home getting news; I wrote
to Corinne the 23rd and May evening
a portion of yours of May 5th the contain-
ing the report for her and informing her
that I would send of the the young when
he left. I have written to the two sons
Dec 30th on business and Dec 6th at
the time his handwriting left. I always
wonder how you do this, that as my ill-
ness is the with the expectation of the last
year sent to Ward, I was to send him before
the arrival there. I hope you have writ-
ten to her, if not you should do so.
You can send them to my care I will en-
close them to her or you can write direct
to the care of Mrs. David Rogers
31 Parkers Row, Newmarket, East Angles;
should you do so enquire at the shop for
the amount of postage necessary to
perfectly order you in time and
not go. I have a great deal to
write to you, but must defer it for
now so say all that I would wish to

if it is not sent to you, and if I do
not write to you I shall not write to
you because to do so. I have been
grieved when you had you
proposed, a friend of the young, who
wrote to Worcester by the Wednesday
evening to Corinne and who was I think
lost after the upon his arrival, so wrote
her to send and to take her the news
in haste keeping, was to inform me at
to break had try to go on, as I did
the. I have many dear friends, they are
in London, I wish of the more out of
the position to that he has not come
on them or a letter. When Corinne
arrived at Newmarket she learned of
the accident and in the goodness
of her heart will writing to find a man
of the same name and to know about the
disposition to remain there, his the
15th of June when it was thought
that he would be you have received

with her to Paris. When Mr Young
learned this he determined if possi-
ble to arrange his business to go, or
otherwise send me. He accordingly
purchased his ticket for the steamer
of the 6th but it was not till the eve-
ning of the 5th that he determined to
go himself. When he telegraphed to
his wife to await his coming - that
day he arranged his business so as
to be able to go. It was a very un-
certain thing till then whether he or
I would go - and as the trunk ~~was~~
could not be packed, not knowing
whether his or mine were to be - we
were busy all night in getting things
ready writing letters making ar-
rangements &c. It was quite
unnatural to me whether I went
or not as I could not return to
California to you. Perhaps I would
have preferred having gone to Paris
than remain here during the hot

Summer months though willing to do
either which ever he thought best
for his interest. His affairs are in
a very unsettled state indeed, he
has a great many interests of his
- Justice to look after, and I am of
the opinion that perhaps it would
have been better for him to have re-
mained. He has left a power of at-
torney to ~~looker~~ sign papers but
I have to look after and manage
everything for him to the best ad-
vantage just as though it was for
myself. He would have left the power
with me but for the uncertainty of
the train of his abode and my re-
turning to California. He thinks
to return in about five weeks but
do not expect him before Sept 1. I
have promised to remain here two
months at least as I could not leave
before that time even if any case
should be decided at once. I
have besides looking after many

thinks for him thinking business will
understand them so, he desires to the
law of his property at Springfield.
He has an agent to see within an
hour limits. But no one can be more
wonderful my occurrence, and that
she to see for at that time. That
absolutely proper to see for a
less time which as I may think to
but for his interest to ~~his~~ ^{the} occurrence,
he so much more to ~~express~~ ^{express},
him from the efforts - and when
any one is disappointed (I repeat)
designs that his capacity and abili-
ties will make one expect to the
papers necessarily. I have to the
exercise of all rights and inter-
est necessary and many other things
to attend to but in case the execution
of design (that) the success of
might do for him if he were thus

applicants desire to go out. I do
the property. I have to accompany
them or give them a law to sign
at Morrisville. I have the manager
with of the other things - He
refers great confidence and me and
appreciate my ability - and with
love of Cornum over the firm and
I have him for all past times to
my I shall not only but we will
where for the promotion of his in-
terest. He has provided enough
lately for an account to the agree-
ment we have, he live at a great
place like Dedham and once will
be ready in the event of making
deeds also and a future amount
also. He says that he is very poor
my wishes that he is as attached

I at present not to allow me more
liberally, but that out of the
first money received, he will give
me a check for \$100 so that I
may send it to you. My pres-
ent allowance is \$70 for 6 weeks
being at the rate of \$10 per week and
I have a check for this amount in my
pocket besides \$50 for a down payment
but in case said bridge money will be
more liberally provided, I have
determined to live economically
as possible and have things go
back to my old quarters the End
House, having however a more com-
table room for which I pay \$2.00 per
week, and live at a cheap but in-
famous restaurant near the Wash-
ington Market, where I formerly
used to get my meals. This is
rather a come down indeed from
my elegant quarters at the Wil-
more Hotel and Delmonico
Restaurant. But happy I

9
can conform myself to circumstances
as occasion or necessity requires.
By this arrangement, I shall be able
to send you at least on an average
for the next few weeks at least five
dollars and as soon as I can send
you more depend upon my doing
so. The little I send will be of some
perhaps considerable help to you.
Wish it were in my power to do more.
When I read of poor George going with
out shoes and stockings picking up
old tin cans to melt the soles off
it touched me more to the heart than
anything you had written. I imagine
things were very bad indeed with you
but did not fully realize them till
you wrote what you did concerning
George and the others as well as your
self must be in nearly as bad a plight
It is indeed to be feared - but what is to
be done what can I do under all
the circumstances and so than I am obliged
Let us hope that it need not be long before

a general decision to anticipate in my
case and then to a certificate of my
being able to do as you wish in re-
spect to him. I thought it necessary to
make you see in every way my
confidence - Do not be afraid my
deal with our estate and pay
over also see that I had the power
of the future court and capital -
The decision then was along with
the Ridgway yesterday - He is very
helpful indeed - He was with me
Mr. Moore, who I had to see him
that he might give me a letter
from him the position of my affairs,
that I should not have to wait long
or then less days at most before
the decision was rendered in my
favor. I am in a position to receive
evidence, that it is true to be in my favor
more than the present confidence that
I have in my case. He has been
very kind to me - I had my letter
given to him in my case and the
same is being made a copy to -

Mr Howard and wife, who are at
Mrs Morse's at West Amesbury,
not expecting Mr Morse to arrive
here before the 9th or 10th, having
written that they would probably be
here about the 11th, their intention be-
ing to take the steamer of the 10th for
England, and wishing to see him be-
fore they left America, to detain
Mr Morse here if possible till they
arrive. Mr Morse telegraphed
to Mr Howard his arrival here and
as he had not yet left Amesbury to
come on had wished him to join
the party then before he and his wife
left. So Morse left yesterday after-
noon (Tuesday the 9th) for London

not see him again probably before he
is ready to return to California,
which will be in about two months
from now, when I hope to be
ready to accompany him. It pleases

16 Tell the children, I will write to them soon
again - I enclose the decalcification paper
used last time. The large one on every part,
let them practice on the sinuous ones first
by pulling a little gum arabic on the girth
side, when this has adhered to the paper,
let them wet the whole side up - it becomes
saturated in less than a minute wet with
the least possible quantity of water from
a small sponge. When wet the paper
will slide off with a gentle pressure or
it may be raised - peeling off as it were.
I enclose a little pretense for Mamma
and of the money enclosed perhaps
you can spare some so that she may
have a little party or something on her
birth day - I send a five, two and a
one dollar bill in all - \$8.00 - I wish
it was \$20. Write again soon
we will have more letters - Be of good
cheer dear wife, I am with your
heart and thoughts. Kiss the child-
ren for me and believe that I love
only you - from your dear father

"The Texas & Pacific Railway Co., after consultation with those immediately interested, did not present their proposition asking the Government to guarantee the interest on their bonds for constructing the road from Fort Worth to San Diego. They thought this would be a better prospect for success next winter than during the present Session. It is said the road from Fort Worth will be completed during the coming fall."

Darling Papa.

We received a letter from you and we were very glad to hear from you. I hope you are in good health and enjoying yourself. We are all very well at home. We received the trunk containing the toys. A great many of them were broken. But when we got them in the play-room they looked very pretty. It amuses me very much to look at them. The doll and the trunk is very pretty. It would be so nice to have you home again. I send my love to Corey Jessie and the others and would like to see them very much. I hope they are having a good time in ^{Fr}rance. I send you my love, I will now close my letter as I cannot think of any thing more. from your loving child
Violet E. Whaley.

P. S. Dear Papa when your suit is
won please get me a doll as I send you
a picture of. It will be my best doll
and when you come home I will pay you
same amount as you payed for it there
I cost but very little indeed, only \$2.50
you may read what it says there I will
it to you and in your next letter please
tell me what you think about it.

P. E. P.

Will send measures next letter.
Will all be delighted to get a good
lot of clothes. Pippety love me little
love me long; Now the good for nothing

To My Dear Wife & Children

I wrote you last the
11th inst enclosing \$5.00 currency.
I was expecting before this to have
written to you again in answer to
yours and the children's of the
18th & 20th May, received the
4th, but I have been prevented
from doing so - I have not the
leisure to write much at the
present time but hope soon to
have. I am about going to
see Mr. Ridgway my lawyer
in regard to getting out an
injunction restraining Mr. H.
Lee from running over money
books & papers to me.
I saw him right before last

he informed me that she had written
 all the business out of her hands and
 he had no concern. By account he
 had for some and had hands about
 1800. and was over all debts &
 papers - He said that ^{in the account} ~~the~~ ^{of} great clerical ^{is the account} ~~is~~
 concerned in getting out an in-
 come 1200. He said that he was
 in possession of goods and was
 expected to give the amount of ^{part}
 of the estate - that she had ^{part}
 among things wrong - that he had
 been the do at the time but at the

agree to the same and on that
 account she had ^{several} ~~several~~ ^{to do}

 that the amount to be paid~~

five dollar bills.
 I can give it - as does not know the amount

all upon the papers and the
 care and that the decision would
 be rendered in a few days &
 from what he had understood
 then was no doubt but that it
 would be in my favor -
 at that time Chicago was all over
 my right and that in the case
 there was no cause for great
 I am on long separate -
 I have not been to my
 office since - while with a gain
 down. Can you then be so
 kind as to appreciate to us - ?

Friend Whaley

Thought I would drop you a line
just for old acquaintance sake. I found
Howard here but he left the next day for N.Y.
Did you see him? I suppose he got off all
right. I send you the daily World of June
4th in which see an article on insurance - I
think perhaps the new California law will force
the Company to issue you a paid up policy
for some amount without further payments
on your part - look into it.

They expect to ship ten thousand tons of wheat
from San Diego this season.

Why can't you look into the Honey business
in New York City? at what price could
you contract it by the ton, in the comb,
in two lb. tins, or in the original boxes in
which it is made (of 12 lbs). They make
so much honey out of poor sugar and dregs
that strained honey would not sell for much
I suppose in N.Y. Strained honey in San

Diego is now selling at 80¢ and in the comb
 at 16¢. I would like to have you look
 into the matter and perhaps we can get
 up a nice little business, who knows?
 Especially if you stop long in N.Y. I could
 buy in the San Diego market and you
 could sell in the East. Steiner & Maclure
 sent some in two lb tins to the Chiapp market
 last year (in the comb) which retailed in
 that market at \$1.00 a can currency.
 I think there must be a large profit in it even
 at 40¢ per lb or less. I don't suppose it could
 be shipped via the isthmus on account of the
 heat, but the Railroad freights are low now
 and if we could hire a half car it would
 not be $\frac{2}{3}$ the ordinary rate. The honey is nicer
 in flavor and in looks than anything the
 New Yorkers ever saw. Look into this, Wally
 and whether you stop in N.Y. long or not
 it might be a good business to go into either
 as buyers or sellers. Some of our San Diego
sober people estimate the yield within 5 years
 at one million dollars for San Diego County
 alone. You can get all the data in N.Y. sufficient

To make a correct estimate. ^{Received} ^{December 25/74}
The business would not require a large capital
for, if need be, we could hire money in San
Diego & make our first purchases from the farmers
or the merchants (and many of the latter would
prefer to sell to us for cash, rather than ship and
wait for returns) and the very day we made our
shipment, we could forward our bill of lading
and policy of insurance and draw against it
paying our indebtedness to the bank by the draft
long before we make a sale even.

Col. Hite of Louisville Ky. a large stock-
holder in the Texas & Pacific R.R. has been in
San Diego. He told them that no bill would be
presented to Congress this session, but next Dec.
~~he thought they would have a better show.~~ Meanwhile
the company will go on with its work as fast as the
resources at its command will permit. "The road
he says will be built, and San Diego will be
its Pacific terminus as surely as it is built"
"Every promise made concerning this matter will
be fulfilled" Col. Hite says the resolutions of
the Boards of trade & chambers of Commerce of the South
& Southwest have already had a powerful effect, but it is

believed better to wait for the next Congress, but whether aided by Congress or not sooner or later the road will be built, sooner if relief is granted and the Govt. will thus effect a great saving in military and mail transportation."

The Company of course is after the subsidy (which would amount to several millions) and as long as they think there is a chance to get it they will wait. Col Hite goes to Los Angeles and then over the country to San Francisco. The Los Angeles papers think "to take a look at the Southern Pacific that negotiations are pending for the purchase of this road by Scott" that some important developments in the R.R. line may be looked for at an early day." The demand for the completion of the P. & N. is increasing daily and if the present managers of that road do not push it through it must be done by other hands, Scott is aware of this, which is perhaps the cause of Col Hite's visit at this time."

Steiner & Klauber have rented Higgins new brick building on 5th st and will move there soon.

Seleval's brick building on cor 5th & 11th st is going up.

The City has negotiated all the bonds they desired at eighty cents (80¢) good - in San Francisco

How does your case get on?

and say - "what a woman Father Swift
 had! how chief he, with his profuseness
 ing and diction he will become a very
 talented man." These were the words
 of your worthy namesake, and he was
 certainly a highly educated and 'well
 informed man, and, I have great faith
 in what he said. You have said
 not remember his predictions concerning
 you, but I do say, probably to some
 me too. Charles Kingsley that his
 dictum may be fulfilled - you were
 strictly hard, than all you can do
 as well as at home. You are naturally
 when to provide more serious habits and
 ought with very little study to be at
 the head of all your studies. But you
 much study in private to do this.
 go to school regularly, and inserting
 of grammar, also of your lessons. I
 should be very sorry indeed should
 that, this was the case. I hope you
 or that you ever played tennis, was

of any kind when you ought to be at

 without the permission of mama I very
 be very sorry and I object against that
 of it. I wish to that you are a very

 led, my son, that you do mamma
 is morally and a great deal, that
 should be away from home, and that
 if it is for you to remain at home to be
 led in and you do visit, and it
 leave in and how all the else. You
 are willing to be a big boy and can do
 this - I had been always have a father

of education, I hope that my
dear boy, that you will strive to learn
all you can and be most obedient
to mama, and that she may never
have occasion to correct you, or even
to reprimand you. For any mischief
it would indeed be a great sin and a
shame for a big boy like you to do
anything that should ^{cause} the least
troubling or sorrow on your part -
and you would certainly incur my
great displeasure. From all I can
understand, from enquiries made
that Frank is very good, attentive
and obedient to his mama, and
will be a lasting credit to him, some-
thing he can revert to in after years
with pleasurable satisfaction. He is
a young man ^{or nearly so} - and indeed, I think
what is right and proper. I hope that
you shall be guided by his
example and listen to his teachings.

Hartman has moved his case
vs. The S. C. & G. S. P. & A. R. R. Co. to Los Angeles
Co. They have sent a commission to a
J. H. here to take my testimony -
some twenty questions, and I wish
you were here to refresh my memory
in regard to some of them, for of course
if I had somebody to talk it over with
I would think of many things that would
otherwise escape me. How would you
answer such a question as this.

Were you during the year 1872

at other times acquainted with the fact
that proceedings had been instituted in
the name of defendant to condemn
certain ^{lands} property in the City of San Diego
and its vicinity for the purpose of devoting
the same to use as a depot grounds?
If so state all that you may know
relative to the institution of such proceedings

State particularly for whose real benefit such condemnation was sought, why the name of defendant was used in the petition and proceedings; by whom the same instituted and under whose direction they were conducted, and who were the attorneys engaged to conduct them.

State particularly what connection A. E. Horton had with the institution and prosecution of such proceedings.

7. State whether the city of San Diego had any interest in procuring the condemnation of Defot and other ~~land~~ road building ground and what was the origin nature and character of such interest?

State particularly whether the city had not undertaken to procure the condemnation referred to, and state further the means which it resorted to, to give effect to its undertaking. State particularly all the facts within your knowledge in connection with this matter. (this is a Rosen)

another question is this.

State whether you ever conversed with Isaac Hartman relative to such proceedings and particularly did he (Hartman) ever tell you upon whose account and at whose expense the same were instituted? If yes, then state all your conversation with him. (I never had any conversation with Hartman on the subject that I remember)

10- State ^{frantically} what occurred between you and Isaac Hartman in consequence of such notice. (meaning my notice to him to dismiss the suit) (I don't know what they mean by this question for nothing occurred between us that I know of.)

12. If you know of any fact or thing which may be or conduce to the benefit of the defendant and which is not embraced in your answers to the foregoing questions, then state the

same as fully and particularly as if you
had been especially interrogated in
reference thereto.

If you have leisure find Whaley
will you scribble off on receipt of this
some ideas of yours regarding their
questions - it will help me very
much. I can not delay long
however to return my definition.
Yours in haste

Dear Father.

Your letter dated the 22nd of June arrived here on the Fourth. You don't know Dear Father how much pleasure it gave me to receive such, dear, long, and interesting letter from you. I read it twice. For my Birth-day Maama was not able to spare enough for a party but instead of a party Maama gave me a nice large cake and a nice wash. Frank gave me a pretty set visiting cards. I must tell you Papa what kind of celebration I had on my Birth-day. I went to the funeral Agnes Johnson was not that a nice celebration? One of the trunk arrived here on the Fourth and you don't know how disappointed Maama and myself were when we found it was the trunk containing the toys. The children were much pleased indeed with the toys some of them were pretty well smashed. We expect the

- you sister were not invited. It was not a party for children if not for young girls and young men. There were a great many from New Town. We danced till one o'clock and then I went to bed. Please tell our father and mother we are very sorry. Please tell our father you spend the winter in New York. I suppose you had a grand time. I like the idea of going to boarding school very much and I hope it will be some time. I hope they would hurry and decide your case. I hope you are well and I am very glad to hear of you. We all miss you very much and hope you will see the day when you can return. The stage has stopped running between Old and New Town. Some remember me. Darling Papa

It is some time since I have written to you that I will write a few lines today. The month of July passed off pleasantly with us. We received the trunk containing the tops on that day. The trunk containing the clothing has not yet come. The tops I think were very pretty. A good many of them were broken. The larger tops were very pretty. George fixed up the Polichinelle. Frank got the Abagin lantern and after we had got through dancing at the Party he showed it to us. We all send our love to you and hope you are in good health. I am very well at present. We play with the games of checkers every night now. We had the party in the front room. I cannot think of any thing more to write as it is a very foolish one.

He received yours
of the 22^d June containing five
dollars, and your previous one
containing Ten dollars, for all
of which I am very thankful,
as it helped us so much. Instead
of giving the children some of the
money, I bought them some sto-
cks and myself some, as
we were really without them,
and then I contributed a little
towards the fourth of July fes-
ty, which the boys of Old
Town, (Frank at the head
of it, of course) wished to have

in our little brick building, it is the room with the yellow green
that got mostly a success, as Grand never waltzing, only
to certain ones, boys and girls of his and Mamma's age
instead of the usual starbuck feet
in the room, so that the
party was quite thin. Some
came from New Town with
out being invited what
made the old town folks
quite small, so that we
folks, besides the New-
town Grand left and then
the, all here pitched in
and had a good time till
we got out in the morning.
I made two large plain
cakes, Mrs. Lecky sent three
dressed one, and some cooking.
The boys collected 48¢ to buy
it for parties, with baskets
mice, Remembrance, hats, &c
a few of boys. We purchased
the room with the yellow green
dressed in with honey, some
of's bread, and Mrs. Lecky's
dressed. I made what I
the boys, I made a
thing of it, there would have
been a large crowd, but study
waltzing, to our number of
a Spanish family, made our
dressed feeding, but I take
it all in all the whole
were present (after the evening
Grand left and then
Hemlock, very much. What
has all the folks of it, which
has made me feel very hot
and back since, to-day I
am trying to wash, but I sold
all over and packing like
anything but waltzing, but it
is something divine. I made
you, and I thought it would

not to put it off any longer. The children are all well at present. Frank has been coming home now two weeks, Mr. Manchester lent him a horse for the Reaping, Sulu Reaps the horse in his stable for \$2.00 a week which is cheaper than we could, Frank does not work hard at all now, he averages about \$10.00 a week, working from 8 o'clock in the morning till 4 1/2 o'clock in the afternoon, he says he does not feel like working any longer, so I say nothing. He pays Sulu \$2.00, washing \$2.50, Mrs. Fenick, 1.00, he bought a saddle and bridle for ten dollars and pays a couple of dollars a week till paid, and I get what is left of his wages, so that's that, the money you send us helps a great deal. I am sorry on your account,

Dear Papa

We received a letter from you a few days ago. It gave us all great pleasure to hear from you. Fourth of July passed off pleasantly. We received the trunk containing the toys on that day. A great many of them were broken. But when we got them all fixed in our playroom they looked very pretty. It amuses me a great deal to look at them. I hope you are well and enjoying yourself in New York. We all are in very good health at home. I think the school will commence very soon. I wish you would win your suit so that you could come home. intention to treat me with the coldness
and indifference which you have shown
to the world. You must have your

man who has never longed to do, but,
wherever I have seen the spirit to
do so, and that spirit is in you,
and that is the reason why I have
contempt - which I feel during all these
long years past, I have succeeded to
know you as a man who has any man,
under the circumstances, would have
left his wife and brought in the price of
her other woman, the love which had
been refused him. I have not done
so. I have remained content and
happy, always putting what
I have or what I want my wife's share
of a home that we did so, and made
me appear as if I had ever a woman
returning to me again and have
a wife who is the same woman,
and I am a man who has never
been a man who has never again.

Dear Maria,

I sent you a long letter
the 23^d also on the 19th by post
I promised to send you some cases
and see it is - You may not think
it of much account - but I thought
I would send it for you to do with what
you think best. The black case I sent
in my last letter. I treated my-
self to going to *Barium Nitrate*
might be for last. I was a little
50¢ for the purpose but as it is advertised
to go to Boston soon I thought I
would not lose the opportunity of seeing
it - The building is grand - seeing it
up particularly but beyond the con-
gress of nations the performance does
not amount to much - no much
raving about it. I have nothing
in addition to communicate to
you & what I have recently written

to turn up - I wish you that
my decision was given before
the 1st of August so on Monday
I shall commence going down to
the Curragh of Kildare with Mr. Mag-
way to argue about the matter
if any decision has been reached.
I have not received any money from
Mr. Magway - but expect too soon -
and will send you all I can
possibly spare - Mr. Magway
was returned to me - I wish I
shall have to get a little more from
Mr. White but it is not
so - Oh how very dear I find
everything - I am weary of the life
I am leading and long for a change
I had go to Central Park this afternoon
to see the manager - it will at least
be a change though I find no

Dear Father:-

It is a long while since I have written a line to you, but to-day being home and having an opportunity to write, I do so in a few brief words.

I was taken sick last evening with an attack of "cholera morbus," and having not recovered from the effects, I was obliged to stay home and away from work to-day.

Printing is going pretty hard with me at present, nothing but work with me all the time, hardly finding time for recreation at all except in the evening and then after working all day do not feel in the best of humor for fun. Thus it goes from morning until night.

The trunks have at last come to hand and in them many useful and valuable things were found.

Times here, are very dull, in spite of

the good prospects for crops this year, which are large and good. Real estate is at a standstill, and building, there is none at all. Railroad affairs in a good condition but very slow in going to work. Climate and harbor good and still here, with the exception that we failed to get the appropriation for turning the river, and it has damaged the harbor a little.

We had quite an excitement here over the recent Custom House Robbery. Mr. Cornick was arrested and examined before United States Commissioner T. B. Hoffman, and was discharged. It is thought Mr. Cornick will lose his position. Mr. Cornick says that he was bound and gagged by three men, robbed of what he had, and ^{the men} took the keys and robbed the Custom House. One man was arrested before Mr. Cornick and discharged.

My love to you and all the folks. Hope you are well. Lillie and I are on the sick list, rest all pretty well. excuse writing as I do not feel well. all send love and many kisses and wish you a speedy return home. Your affectionate Son,

Francis M. Whaley.

New York, July 30th 1874.

My Dear Wife,

I have but recently written to you - the 23^d a long letter and the 25th a short one enclosing some which had but having received yours of the 24th must enclosing ~~me~~ from Violet & Ellen, the day before yesterday which gave me infinite deal of pleasure to peruse containing as it does some degree more of love and consolation than any received from you for some time previous thanks, I am induced to write to you soon perhaps than I should otherwise do - besides I have nothing in particular to occupy my mind, and I wish to while away the time to prevent having the leisure to which for some time past I have been subjected to. I have little or nothing

went through the rain, and the

two states, New York & Maryland
and as this is the first Southern regiment
that has visited New York since the war,
there was an unusual expression of
welcome greeting by the thousands of
people throughout the line of march
withstanding the rain - I went
off to the City Hall Park -
bought an evening paper and sat there
reading and smoking till near 1/2
12 - I felt weary & tired, knew no where
to go - I thought first of returning to
my clerical quarters at the Court House,
but after refreshing myself with a glass
of Colton at the fountain, and the
weather presenting the appearance of
clearing up, - I considered that that
would be the worst thing for me to do,
so I decided to take a walk up
N. St. - By the time I got to uptown -

The Metropolitan Theatre, attracted
by the show bills - I invested 25¢
in a gallery ticket, and passed in
with the undisciplined crowd to laugh
at the ludicrousness of the scenes pre-
sented, amongst which, as a con-
clusion, was the favorite Con-
dance - when the ladies round
thud danced a little higher than
presented by common decency - but
it made the boys laugh and I re-
joice it as much as any of them. It
had the effect of relieving my mind of
the blues, at least for the time being
and I am feeling as the better for it
today. I wish I could find
where to see something - even thought
may have to go without a meal occasion-
ally to be able to afford to do so. I
identify with breakfast satisfied
on this morning. I met Alden
yesterday on the way to Niagara's
it has been some time since I saw him

the resort of the poor class - but
the roughness of the public parks
is Longfellow's Square - I was
there once to hear the Central
Parks Band play - and never
wish to go again - You see there
now but the working classes -
women bareheaded - children
without shoes & stockings and
men in their shirt sleeves smok-
ing their pipes - all seemingly
enjoying themselves in their free &
easy sort of way - The fine large
trees which were once there have
been cut down and the square
turned into a parade ground -
Trees have been planted forming
a walk around the grounds
but as they are still very young
they afford no protection from
the heat of the sun - and the
poor people who go there Wed-
nesday to listen to the

could play have anything but
 a comfortable time of it - sitting
 standing or walking - the
 afternoon I was thus very
 busy indeed and I remained
 there only long enough to glance
 over an evening paper and indulge
 in a pipe or two of tobacco.
 Sometimes I go up more frequent-
 ly to Madison Square that being
 a pleasant and long enough walk
 for seeing the city and back be-
 lieve it is in the vicinity of the
 "5th Avenue," "Albany" Hoffman
 House - when I like to stroll and
 read the papers - occasionally too,
 meeting some body that I am acquainted
 with - You see some nice young
 people here but the majority and
 more girls in the day time attend-
 ing to little children and in the
 evening working girls come to have
 a talk with their fellows - but those

who remain after the day - seemingly
the longer they remain the nearer they
get - and the more affectionate they be-
come towards one another - occasionally
I surprise them with their arms
around their necks and wrists and
pursue my walk along the winding
canal and come rather suddenly
upon them. - But Central Park
the place for the courting of the young
foes, especially of a moonlight night.
They enjoy themselves so much in going
out on the lakes in boats or in
littles of what is known as the "kay",
when uninterrupted they can enjoy
have all the bliss they desire. There
is more love making going on this
place anywhere else and I think that
it must have been designed especially
for it by the Park Commissioners.
Well why shouldn't the young folks
have their share of it and have a
good time of it so long as they

the "End House" - I think Mr. M. has intended
 giving me some position in his office,
 from what he intimated yesterday - when
 sitting at the desk of one of his clerks
 whose place I had taken during his
 absence - Seeing me there - he said, I
 intend to give you the charge of this
 office next week - and this in connection
 with what he told me today, that he
 would leave for the country this week
 and wishes me to take charge of his
 house concerns in thinking to do
 it with it may be the case though I
 do not suppose it will be anything very
 lucrative.

John came from this morning and
 were conversing over night with me - His
 people are all well - He came by the
 way of Palermo. Mary and the baby
 are doing fine - He is now over

 something from her when I see him
 this evening - I gave John your

Co the thing goes - delayed from London
 time. I hardly expect to get it of
 I do I shall be very much surprised,
 but the probability is that I shall have
 to wait till after the vacation begins.
 It is a long time ago since that has
 been the case. I am pursuing some
 intention of going. I was however that
 out to the latter end as long as I can
 possibly remain here. I had reason
 to expect Mr. Young here before now, or
 at least that he might be on his way.
 Yesterday Judge White got a message
 from him dated the 29th. He was
 still at Paris. I expect him however
 in the course of a few days - and
 then trust that things will be pleasant
 for me. Judge White was to leave for
 the country the 5th taking a month's
 vacation and he desired me to take
 charge of his residence during his
 absence which will be pleasant
 than my present quarters at

for his final decision - which will be quite probable, from the report made to him by his Chief Clerk, Van Schaack, will be in my favor - therefore in the memorandum coming from him - to make the Surrogate appear to say that his present impressions are favorable to the Mr. Ridgway's client - the Surrogate is no lawyer - he refuses to take sides who are in general, may say always decides according to their opinion of a case after examination and according to their recommendation - there is nothing to compel him to do so - he had thought to decide differently - Suppose he should do so in my case - and I should go to him and say - how is this? I expected a decision in my favor, and you have given it against me? He would say when that memorandum was written - you even give only what were my impressions at the time present time upon examination into the case -

16

Causehaick left for Europe yesterday morning - On the afternoon we went again at the Surrogate's office, and found to our surprise that the minutes - minutes had been left. It was written by Causehaick, ~~being~~ to one of the clerks, though purporting to come from the Surrogate. It was to this effect - that all papers referring to the case were in his hands and would receive his attention soon - that the decision might be expected in about two weeks, perhaps sooner - but to tell Mr Ridgway, that at the present time his impressions of the case are favorable to his client.

This shows Causehaick's impressions, after carefully examining the papers referred to him by the Surrogate - he arrived at the conclusion that a decision should be given in my favor - he does not say so however he merely avers his impressions do come not from him but from the Surrogate to whom he returns the papers

John spent last night with Mr. Ford -
but returned home early this morning.
I have not told him all that I have written
to you - merely that the decision was still
delayed ~~that~~ ^{there} was a probability of
getting it some time this month - that I
was almost certain to have it - I then
expressed my confidence that it would be
in my favor as I have frequently argued
before that it would be - He hopes that it will
be - wants money as much as I do - who
else has influence and do all he can to
persuade her by every argument in his power
and he is willing to become a party to
the suit at the proper time - and have
the decision entered in his favor as well as
mine - and I have no doubt but that
Henry and Harriet will ~~do~~ ^{otherwise}
John and I will get ^{money} out ~~and~~ ^{and} they
~~will~~ Henry & Harriet, would have to
institute proceedings for the recovery
of theirs, and might be as long about it

 that she refunded to the estate the money
 she has defrauded of every dollar of
 it possible for her to restore, in her hands
 or the hands of parties who can be made
 to restore it - I would be willing
 to invest a sum at interest that
 would produce \$100 per annum for
 her support - but I did not believe in
 allowing her any considerable sum
 for this and permit her to retain the
 many thousands of dollars which she
 has squandered in some way - or given to
 unknown parties - but that without
 according to the estate for it I
 begin to understand things fully and
 I think will in time be quite as interested
 in having things done justly as I
 am - There is no reason that Nat-
 tie should be the favorite grandchild
 or rather that she should receive from
 mother her ill gotten gains from

earnings, but having been forced to do
 so my determination was to get out
 of the estate every dollar coming to me
 and I believed that I would succeed
 that the payment of \$5,000 to me would

 her "thirds" in the court of the Court going
 against her mother means her right of dower
 which would be 1/3 of the proceeds of the
~~Mill Street house~~ in the property of the
 estate. She may think she will get 1/3
 of the proceeds of all the estate stock - but
 probably it would be only 1/3 of the Mill
 Street house - Some \$1,000 or \$1,500
 at interest for her as long as she lives.
 Now says I must not be quite so hard
 on her as that - I tell him I am sure
 to see how much legally she is entitled
 to, that she will give me only what I
 can get in this way - and why should
 I do any better by her than she is
 willing to do by me - I want her to
 see how wrongfully she has acted to

To Papa's Dear Children,
Anna, Violet & Lillie.

I received Anna's & Violet's of
the 5th, on the 19th, and Violet and Lillie's
of the 14th, on the 20th of this month. For all
of which favors my dear children, I thank you
very much, as it gives me great pleasure to
hear from, relieving my mind as it does, for
the time being at least, from the many cares
that oppress it. I am glad my dear little
ones that you are, notwithstanding the present
distraction in which you are placed, enjoy-
ing excellent health and hope that this
great blessing may be yours for during life.
It pleases me that you have received the
trunk containing the toys and that you find
so much amusement with them now that
you have them arranged in your play-room.
I regret that the other trunk containing so
many nice things in the way of clothing &c.

that mama and all of you had been
with me and then I might have en-
joyed what I was thus a great deal more
I enclose the programme which I for-
got to do in mentioning it to mama and
my last letter. I go to a great many
places - see a great deal but take
particular pleasure because I am so
concerned about you all - my mind is
very uneasy since awaiting a decision
in my suit. I wish to inform your
dear children that the matter was fa-
vorably settled since that I might re-
duce your condition more comfortable
than it is. I have great hopes, however,
that it soon will be, and I wish that
you be good to mama, assist her and
you can do as to lighten her toil and
lessen her care. Papa hopes to be cured
soon and find happiness in being with
his family - With many kisses and
much love - from your dear father,

August 5th 1844.

My Dear Wife,
I have been reading your last letter, July 27th, over, but cannot see that there is anything in particular requiring an answer besides what I answered in my last letter to you the day before yesterday. I promised to write to you again soon however, and to send you some money, in case I got what I was expecting from Mr. Rodgway. I have not succeeded in getting anything in that quarter, but have from another. Judge Wade leaves for the country to day, and during his absence I am to take charge of his house No 33 W 35th St. near 5th Av. I moved my trunk there yesterday and left this last night - so that you could send some I shall have comfortable lodgings at least. Judge has given me some more

and you because I liked you - and if
you were the same I would, and as you
were formerly I should have no cause of
regret - I have not withstood always
loved you - and my great aim for years
back has been to win you back to me.
in which I should I succeed I should
not be happy - did I not love you as
much as I do I need would have taken
the trouble which I have to do this.
You say you are feeling as right
towards me and I hope that it is so
and continue, notwithstanding the
trouble which you speak of on any
thing else coming in the way.

I am Tom W. Surge of the office
of the Custom House, but can hardly
believe that Mr Cornish was impli-
cated in it from the smallness of the amount
not much more than his salary for
a single year.

I wonder that you for the sake
of old acquaintance, does not come

to see you sometimes instead
of desiring quite so much for
my to-day our lady, from
the manner in which Jesse has
been in his attentions to my Patrick
during the absence of her husband, you
can form some idea of how you must
have been talked about in this part when
you received so much and constant
attention from different persons. People
will talk and it can't be helped -
In regard to calling Lillie
by her first name Corinna or
Corina, I must say I would
prefer her as I think it would
sue you - The name Lillie does very
well when she is a little girl
but when she grows to be a bigger
or becomes a young lady she will
prefer being addressed as Corina,
besides it is her first name -
I admit that calling her Corina
will bring back many pleasant

never told some and such manner
and of your own course at your
request will be pleased to receive
of you one of the papers as each
letter, from the same person,
concerning the case of the
case in the title of the
subject by the title of the
if ever what you had said - and though
in way have thought it would be
much rather to let you know
how peculiarly yours and the
of the same kind of the
to know a great man but no more
to quote with to not get - but
also may show also what I am
but not quote and of course I
by which the thought of it is not
naturally he can not but be
by knowing the name of the
to great your things to learn
that the name of the
of case to be in my power to

but of your mind whose mind
of the body again I do not know
the fact that you are the
day who in all cases of the
very thing I am of the same
the name of the name of the
any name of the name of the
disregard of the name of the
the way to be in the name of the
with or less than or less
I am glad to hear you speak so
highly of the name of the
you, that you appear to be
property, but I do not understand
what you mean when you say
of the name of the name of the
of the name of the name of the
all the other things of the name
you all together as the name
entirely of the name of the
case of the name of the name
the name of the name of the
name of the name of the name

The remark may be extended entirely
for me - and if so you do me
very great injustice - For I never
a man thought anything of his
wife, has felt proud of her capabilities,
I believe I have done - but
without confidence in me, I believe
what I say or do is of the promotion
of your interest and happiness,
I cannot expect you to believe
anything - I hope to hear from
you again soon - and I shall
have occasion to write to you again
soon to enclose you some more money
or give you some more interesting news.
My dear man, my darling little
wife, who I appreciate so highly
continues to love me, gives me your
fullest confidence in all things.

San Diego August ¹⁴ 1874

My Dear Papa

Mama received two long letters from you yesterday. We were all very glad to hear from you. The School has begun again. Miss Carroll is the Teacher. I have not been feeling very well. My head troubles me. Mama and the other children are feeling pretty well at present. I hope you will win your suit, so that you can come home. It will be so nice to have you here. The Camp stool is pretty and cunning. Mama has put a new piece of carpet on it. But it is too small for Violet or me. But we are going to keep it in the parlor, it looks so cunning. Mary Smith gave us a small basket of fresh figs. They were very nice. We got the lace and also

the sprig of evergreen from your Fathers
grave. It is very pretty, and Mamma will
take good care of it. The least Steamers
only come in once a week now. Mamma
sends her love to you and says she will
write to you tomorrow. We are delighted with
our boys and take a great deal of comfort
with them. The other trunk came to hand
all right. and Mamma was much pleased
with some of the things. Take it all together
we have had a good time with both of
the trunks. Frank is thinking about send-
ing you another picture of the house,
which is better than the one he sent you.
I think the other will write today or tomor-
row. We all send our love to you, and hope
you will return home in good health. We
like our checker-boards very much and
we play checkers every evening. Mamma has
just taken up her tobacco box and is going
to take a smoke. I must close my letter
for fear of a head-ache. So Good bye.

Dear Father

Mamma received the letter containing the boxes a few days ago we were very glad to hear from you. We are all well at home and hope dear Father you are the same. Lillie was not well a few days ago but now she is better. School has commenced again we have a very nice teacher her name is Miss Carroll. San Diego is as dull as ever. The trunk containing the clothing arrived safely there were some very nice things in it. Remember me to Mrs Young when you write to her. I would like instead of a blue-plaid and red sash a pink, blue, and red plaid sashes. I would like to write you a nice long letter but there is nothing to write about. Tell cousin Mary that I congratulate her on having a little son. Remember me to Uncle John and his family. We all want to see

you very much. The children all send their love
and many kisses to you and Mrs Puffer's little
girls and they promise to write soon. I have just
got done studying my lesson for to-morrow I stud-
-y them every evening. This is a very short letter dear
Father and I hope you will excuse it. My love
to you and many kiss

From your affectionate
Daughter

Anna A. Whaley.

(Good-bye Dear Father)
Write soon.

...the benefit of the security - I have
written to him and I can well understand
that Mr. H. has the orders drawn - You
need not inform them of anything
write as I intend writing myself as
as I have from Morse - Prohibit them 20
Shares - Morse has given in his order name
for Shares of Stock - but say nothing about
that to anybody - I have written to Morse re-
questing him to draw the dividend and to
good you the full benefit of the dividend
the 100 Shares - \$200 - this may be in money
or in City Bonds - if in money should
be no trouble - if in Bonds, I request him
to have paid to you by his agent the required
amount in money - the Bonds are worth for
75 to 80 @ I suppose - Thus I have from
Morse will write further concerning the matter
I received last night yours of the 27th Aug. con-
taining our paper to read and the great
worry of the children - I am glad to hear that
the trunk containing has arrived as you will
find many things better than - I will bring
out back the 10th - has great deal to do
with Judge White - will return and say
his family as all well - he wishes to get back
to them as soon as he can - he will do all
property at Youghborough for the next time
get pay his debt and have enough to live
comfortably - Continue having a good
health - I will write more regarding your
condition - I am out in haste - I think this

My dear Anna

I hope that you
will excuse me for not answer-
ing you very kind letter before
this but I have been so sad
and heart-sick that I cannot
felt much like writing since
for mother died I wish that
I could see you our dear self
and have a long talk with
you I am sure that it would
do me good I console myself
by talking to brother (what)
your dear good husband I
only wish he was my brother
you dont know how he
speaks of you all it does

me good to hear from
and does love you all so
much & make himself
more you ever saw

The children
are all well and so is
my poor little baby I wish
to know for George's (Wednesday)
But off to school hope some day
I can come to see you in
Paris you must keep up
a good heart every thing I
am sure will turn out all
right - your kind love is
yours.

I hope that you
will visit me when I am
in Paris and be sure that
I will remember all of you
about when as I shall have
time to do so and if I
at all can do much for you

been from my friends
when I am far from home
Paris all the children
in for me and I was just
writing to my friends
yours to me from
Paris me to the good day
yours

New York, August 25th 1874.

My Dear Wife,

Yours of the 8th inst, postmarked
the 12th, enclosing letters from Anna and
Corinna, was received the 23^d of inst.
I am very glad to hear that you are all
well and enjoying yourselves as much
as circumstances will permit. Your
letter gave me great pleasure to read more
than any I have yet received from you
since I left home, and I trust you
will continue to write in the same
strain always, and then I shall be-
lieve that you are indeed feeling all
right, God sends me,

When I last wrote, the 14th, I informed
you that I had been promised a de-
cision in my case the 25th but as
that was Saturday I did not expect
it, if it came at all before Tuesday the 27th
when I knew the Courtgate would be in town.

On that day Mr. Ragsdale came upon Mr. DeWitt -
gale - who informed him that of the ~~deed~~
case he has determined to decide upon
during his recesses that of mine and Mr. De-
Witt's remaining undecided that the
Constitution of the State has been
violated by the State. That it is not one of the
most difficult and perplexing cases he has
had for some time - Mr. Ragsdale thought
he had no the case you were exhibiting as
one at least your opinion in regard to
Parsons is his only object - He was a high
power so - that by giving his decision
at the present time nothing would be
gained as Mr. DeWitt's case is not
to be decided. That he might speak
the decision as to the bill of Rights -
as the State is again in session - I am
with you, however, that I am disappointed
and in need of getting the decision, and if
it is given upon Mr. DeWitt's case
then to see the State. I am and will
be of opinion that the bill of Rights is not

not in the case and not expected from
Texas before the 1st of next month.
However, after I have received the return
of DeWitt's case for a decision, I feel con-
fident that Mr. DeWitt and I shall be
able to decide the case in my mind
that is a matter of the State. The
has in the State and by having written
to the Legislature and our spirit in calling
was to let it be so as to again - which
the Government is to report on the
my position and the report is
H. my opinion of the case is a
decision. (You may see the
had a great deal of trouble, see the
my opinion has been decided, and
times of the case, which, indeed, is the
long time ago. But I am
that if you are interested in the
to my self as a my case in
but upon the State, and the
in the decision, which would be
longer delay - and of the

any time before the end of the year I shall
thank myself very far indeed in dea-
ding and not feel this to any one
I think the influence I have brought
to bear upon my case has done something
I feel almost confident that these
actions will be in my favor, therefore
am waiting more patiently than ever.

On the 5th of the month I sent you
a registered letter enclosing \$10.00. I
expected to have sent you some more, but I
have not been able to collect from Mr R. The
\$10.00 which he owes me, though I have
asked him for it several times, and I have
not been able to get from Mr Spring more
than enough to pay for my board & country
meals, fifty cents per day - Not but what
he would give me more, but really he has not
got it - having himself to live very economically
(for him) he can make as he can realize some-
thing from sales of his produce. I am still
in charge of Luiza White's house 32.30th
St near 5th ave, and shall be here this day

of the month, when I expect to
room with Mr Young - I shall
have charge of the office of the
Attorney for the collection of arrears of
personal taxes - besides attending to
business for Mr Young - I cannot
say that I have much to do however
and am but poorly paid for it. Still
it gives me some occupation
prevents me from getting the blues.
Judge White discharged the two remaining
clerks he had the first of the month, and
said that during his absence I might attend to
Mr Young's business as well - that
there would not probably be much
to do - but he never said a word about
paying me anything - and whether it
is intention to do so, it is impossible
for me to say - That money he
gave me before going away was in
aid of Mr Young - perhaps he will
make it all right on his return.

Shall make a claim upon him for something
It is not to be expected that I will

 will stick to you now - there is
 little reliance to be placed on
 women - even the best of them self
 interest is their governing nature.
 I have always thought more of you
 than of any other of your sex and
 I have found you reliable in
 more ways than one - I com-
 plain only of your coldness and
 indifference towards me during

I should never see you again, and

age rather precocious and the
letter she writes are more credit-
able to her than any those to Maunie
I do not deny this, however, dis-
paragingly to Maunie, consid-
ring her limited advantages. I
hope the time may soon come
when I may do the fullest jus-
tice to all our children — I have
a letter from Frank unanswered,
also from Lillie and Anna. To-
day I will answer these either
en masse or separately. You
will give my love to them, also
to George and Fred. I desire to
see them all certainly as much
as they do me, and hope that
none of them will allow me to
outgrow their remembrance
as I fear they may in case
I remain much longer away
from home — They must write

to me more frequently than
 they do - I desire that they
 should do so, even though
 they may not answer them quite
 so promptly as they desire, or let-
 ter for letter. It will be of no dis-
 advantage to them, but be a
 source of improvement as to the
 of pleasure, enabling them better
 to control me in their hearts.
 I love all my children the same,
 and wish them to so conduct them-
 selves that I may never have any
 occasion to make any difference
 their welfare and good being
 is my happiness and the source
 from which I expect to derive
 much future pleasure - I hope
 that they are all diligent and
 thoughtful, conducting themselves
 with propriety upon all occasions.

CHAMBER OF COMMERCE,

San Diego, Cal. August 26th 1874.

Dear Father:-

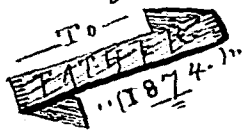

Having not written to you for a very long time, I now take this opportunity to do so. As nothing of any consequence has been stirring here, I will not waste time in writing on that subject.

Before I go any further I want to ask your opinion of the above head, "Chamber of Commerce." The design is Mr. Plaisted's, and the "presswork" mine. It was run through the press three times, each color separately. First the gold, then the red, and last of all the black, observe how carefully it had to be done, that is to make the two different rules fit so snug to one another. I think it is about as good as can be done in any "Eastern Office." Show it to Mr. Young. I am still hobbling along at this dull and get nothing business. But

what is the use of complaining, I will work all I can until you come home and then I shall ask for a nice long rest. But the pay I get for the amount and kind of work I do, does not pay hardly for the trouble. But it cannot be helped.

You say in your last letter of a few lines to us that I have not acknowledged the receipt of the pretty watch key sent me by Mrs. Young, which I thought I had done, I will do so now. Ask Mrs. Young to excuse me for my neglect, and say that I thank him very much for it, and through it I shall always remember him. I wear it occasionally, as it fits the watch that you gave me, which is at present at a standstill. Remember me to Corinna and Mrs. Young, hope they are well.

Mamma has been sick in bed for at least three days, the particulars of which I think she has written you. George needs a slight touching up. Hope you are well, and the "decision" will be in your favor. All others are well. As I have nothing more at present to write,

Remain your affectionate Son,

My Dear Father

As I did not write last time I thought I would write this time. Mama has been quite sick for ten days and I have been taking care of her. She is feeling better tonight. The rest of the family are all well and I sincerely hope you are the same. We received a letter from you to day. I wish they would hurry and decide you case and you can

—la come home you have been away a long time and we all miss
you very much. I have not been to school this week on account of
Mama being so sick I will go to morrow if she is better. The children
are all going to write to you soon. They send their love to you and
—any kisses. San Diego is getting so dull there is nothing going on. I
do wish we lived in a better place. Remember me to your kind friends
please. I hope you will excuse such a short letter dear Father the next time
I will try and write a longer one. As I can find nothing more to write
about I will close my letter by sending you my love and many kisses
from your loving daughter

(Good bye dear Father)
please write soon

New York, August 29 1874.

My Dear Giff,

I despatched a long letter to you only yesterday. I have since been considering the probability of the office of the Collector of Customs at San Diego becoming vacant by the removal or resignation of McCormick, and in that event the possibility of my obtaining the appointment.

I have no particular information respecting the robbery of the Custom House at San Diego. I hear that McC was supposed to have been implicated in the matter, - that an investigation was made before a U.S. Commissioner, and that he had been honorably acquitted from complicity.

You write that "he is clear on circumstantial evidence, but a great many think that he is the man" and from another source I learn that others are looking for the man effecting a removal even now.

I am honored that you should be a presence
in advised me, under the circumstances, to
try to get the appointment. He wishes to
introduce me to parties who are in contact
with the President through whom influence
might possibly get it. I do not expect to have
placards or made by the President myself
the nomination of Richard Denton or
any other name, to obtain which requires great
political influence. Mr. Tappan, however,
presents the President from making such
appointments as he deems it wise to make
nominations and to present them to
him or to some other person. It is his duty
to get the appointments, in case of a vacancy,
upon the petition of some of his members
and then in New York, Ohio, Massachusetts
and can nominate me for the position
of Mr. Tappan. I wish to be nominated, either
by the President or by the President
of the President and all other persons in
the State of New York with the
actual or expected nomination or nomination

to the position or from any other
reason. He might name some one
to whom he wishes to refer the matter or
perhaps you will know of some one to
whom to refer it.
New York Sept. 7, 1874. The foregoing
was written some days ago as you were
present from the date in which you were
sent to the President. I have been
very much interested in what you are doing
and hope they do to some extent. It will
but be placed committee to the President
which is a fair hearing the matter that
the Committee has been sent out of it -
It is to be said to some in trying
but I fear that my chance are not
just as, as there are no money for
clears before to me. I am just
discouraged at all and probably
have a little to do away from
of some of the most distinguished
to my position - I hope that some
one may be able to very good to

I must have been surprised to a friend was
in advised me, under the circumstances, to
try to get the appointment. He advised to
introduce me to Justice who are intimate
with the President though when informed I
might possibly get it. I was surprised
generally as made by the President upon
the recommendation of the State Senator or
representative, to obtain such appointment
without influence. Nothing, however,
prevents the President from making such
appointments as he thinks and upon the
recommendation and to give some points
upon or purchase from. I prefer to do
best the appointments, in case he were,
upon the pretence of some of the most
usual men in New York. I was surprised
and can recommend me for the position.
I have been drawn upon for testimonials
which give evidence. I have been in
of the New York and at a distance in
has been no objection either from the
action or otherwise. I have been in

of the Law, to place evidence it with
as little delay as possible, obtaining all
the signatures necessary, among which is that
of the most prominent citizens, and when
proposals or offers are made, and when
done it is clear the same to give you
handwritten. I would have you can
them if necessary. To allow the position
in whole or in part, he is at liberty to
do so. Only your thing I want you to
not trust upon him, and that is the neces-
sity of allowing to it at once - so there
will be no great delay or expense for
the position. I may name as most likely
to take care, the Doan, Coburn, Engle,
Amos & Clark. I wish to give an array
of testimonials for me to see how many of
will be given and hope I shall be able
fully qualified. I can send my friends
letters, through I can send my friends
and acquaintance. As they refer to
of themselves, there is no objection
in your to accept me for the position.

Through Mr. Morse, to whom I have written,
I expect the support of the Bank of San
Diego, and I have no doubt that through
Captain Incey, to obtain the aid of the
Commercial Bank. You can undoubtedly
bring them about, and can work for me
in other influential quarters to great
advantage. My object is to get to
the petition as many names as
possible, but chiefly of those of the
most influential citizens.

I have found two who were present
the petition to the President, or ob-
tain for me an interview with him.
Possibly it may succeed. But in the
event of failure no great harm would
be done. I recommend a private
conference with Mr. Carr. If he thinks
the time a proper one, advise to him
the petition. Should he think it
wise, he will of course suppress the
nature of the interview. Should Mr.
Carr decline to act from being obliged

expect to accomplish more here through
personal friends of the President, whose
influence perhaps may be even great-
er than the combined political in-
fluence of the County of San Diego.
I am determined to try and ex-
pect you to aid me all you can in
obtaining the aid of Mr. Carr or someone
else. I make this particularly
a business letter - but will enclose
an other - Believe me

Yours affectionately
Wm. H. Halliday

to other parties or from any third
person. he might name some one
to whom to entrust the petition or
perhaps you will know of some one to
whom to give it.

New York Sept. 7. 1874. The foregoing

My Dear Husband

I wrote you
five or six days ago, how sick
I had been and was still I
wrote that letter in bed, to-day
I am all alone, but up, and
have been up two days, I feel
better in strength, but its seems
a hard matter to get my head
right, since that rush of blood
to the head, I can get along in
the morning, but towards three
or four o'clock the pain in
my head is very bad, I have
not been able to see very well
since. Dr. Stockton came to see
me again, and says he is willing
to see me through, and says
if I get over this spell all
rights I will feel very well for

San Francisco Sept. 1st 1904.

Dear Anna,

Having been
very sick with the Rheumatism
I was unable to write, your
kind letters were received, but
the envelope torn & the picture
of your house was lost. I think
the envelope was too small
for all it contained.

Why have you not written since?
We are so anxious to hear
from you all dear Anna.

I hope Whaley is back &
that all is right & that you
are all in good health.
We are not getting along
at all. your proposition
is very kind but you know
the obstacle we are always

hope ^{to} seeing you & Frank
& then we will decide what
to do with the old Grandmère.

Amelia is not very well & is
very anxious ^{about} ~~for~~ ^{always} ~~nothing~~ ^{to do}

I give our love to the children
tell them I thank them for
their kind interest & hope
we shall all meet one day to
part no more.

I can't write. Much love
from your Mother

My news is better than any news - and so I thought at this time - in the afternoon went over to Brooklyn - believing that you

Subject of the advertisement was a piece of poetry - that I'm doing quite - I read the

believing as I do in your restoration that I have espied here and read about
Pelham Township, Westchester County.

Seven miles from New York centre; 63 minutes from business centres; commutation less than stage fare; 16 Daily Trains to and fro on the Harlem River-branch of the New York and New Haven Railroad. Water-Fronts on PELHAM BAY; highlands overlooking the Sound, and magnificent landscape.

AT UNRESERVED AUCTION,

to the children ON THE PREMISES. *They are most*

It is unnecessary to remind the public that New York City has already extended over a portion of GRAND OLD WESTCHESTER, and the great want of quick transit from business centres has been accomplished in the region traversed by the Harlem River branch of the N. Y. & N. H. R. R. *Harlem River*

Express Boats run from Fulton Slip to Harlem in thirty minutes; hence by connecting R. R. *to Pelham* in twenty-three minutes; and fifteen trains to and fro daily, make sharp connection with boats. Note *the route and will improve their views on*

BUSINESS REASONS:

- 1st.—The property has been in the Bartow family for half a century, and has for some *years been in the hands of the Bartow family*
- 2d.—It is accessible by Railroad, prices have not advanced with property of same character on thoroughfare.
- 3d.—Therefore, lots bought now will be literally from the first hands at almost farm prices.
- 4th.—Only seven miles from Central Park, within one hour of the New Post-Office.
- 5th.—No suburb of the great metropolis offers so many advantages of accessibility by sea and land, with health and beauty of scenery and surroundings.
- 6th.—Quick transit is an accomplished fact, and will never be any quicker.
- 7th.—The site is a new one, and on one of the best appointed, modern railroads.
- 8th.—On Pelham Bay, with facilities for excellent dockage, and affording the finest FISHING, BATHING, and *DRIVING along the Sound.*
- 9th.—Lines of daily stages already connect with Yonkers, Mount Vernon, and City Island.
- 10th.—The ground rises gently from the Bay, and the highlands command fine views of the Sound, Mount Vernon, and an extensive landscape.
- 11th.—The Town Hall of Pelham Township is adjacent, and the proximity of Mount Vernon and New Rochelle affords present conveniences of schools, stores, shops, churches, &c.
- 12th.—And above all, the lots surround the depot, and will be sold to the highest bidder, without regard to value.

REMEMBER. THE TIME TO BUY is when property is low, before speculators get hold of it; THE PLACE TO BUY is on the line of improvement; and HOW TO BUY, is at a fair, square, auction sale, at your own price. THE ORDER TO SELL THIS PROPERTY IS PEREMPTORY. No village site equalling it is found on the coast, and the pioneer settlers ARE BOUND TO MAKE FORTUNES, for unless New York City should stop growing, nothing short of a miracle can prevent the establishment of a charming suburban settlement at this point, and doubling values every year.

IT WILL COST NOTHING TO COME AND SEE. A FREE EXCURSION by Boat and Railroad GRABFOLLA's celebrated 7th Regt. Band and the renowned Professor HARRISON'S family-musica, with a banquet under the forest trees will insure a pleasant day, and PRUDENT MEN AND WOMEN should look to it that they also make it profitable.

SALE ABSOLUTE, TITLES PERFECT, TERMS EASY.

Special Boat and Train will leave Fulton Slip, Pier 22, E. R., at 10:15 A. M.; Grand and 23d Streets, at 10:50, and Harlem River R. R. Depot at 11:15. Harlem passengers will cross bridge and take cars at Railroad Station.

Friend Whaley

Yours of Sept 3rd is at hand. On the same day that I sent you the P/C I wrote to A. J. Chase to pay into Mrs Whaley's own hand \$100 ^{immediately} and to pay to her another hundred at such time as she should request him so to do.

I am very busy just now getting a saw mill into our Woodland - Mrs M. wishes to leave here about the first of October but I do not expect we shall be able to get off till the last - wish you could go with us, it would

be so much pleasanter — do
try to arrange it somehow
so that you can —

About the Collectorship
I do think Mr. Cornish
will have to vacate, but
don't know. I do very
ardently desire that you
may obtain the position
and there is nothing that
I can honorably do to assist
you, that I will not do,
but you will remember
the fight between Mr. Cornish
& Hitchcock in which I
favored the latter. I wrote
to Senator A. T. Sargent
and others with whom I
thought I might have any
influence in his favor.
Hitchcock is still a Candidate
and I recommitted myself

in ^{his} favor upon the news
reaching here that the Corvins
had been arrested.

Hitchcock has the influence of
Senator Boutwell, Judge
Richardson, B. F. Butler and
some others, unknown to me.

Of course I would rather
ten times over see you
than Hitchcock
and if I could see
Senator Sargent I could
speak to him in your
favor without compromising
H.

However these
senators are such politicians
that I fear no one except
a partisan can get such
an appointment. It appears
that no appointments are
now made of any one unless
he is a strong partisan or
can wield a strong partisan
influence. I believe

1
senator Cassedy resigned his
position as U.S. Senator last year.

There is no harm in
trying but from what little
I have seen of political
appointments I fear your
chances are not first rate.
There ~~are~~ ^{will be} too many politicians
opposed to you. Geo. Stone
& C. H. Taggart himself, Mr
Asher the present Secretary
S. W. Craigue & others are after
it. Choate & Arnold (one or
both) are after it also.

I do sincerely wish you could get
it nothing would please me more.

I have two letters from
Howard unanswered - haven't had
time -

Do you get San Diego
papers?
J. J. Higgins wants to get a Texas Pacific
map can you get one for him.

Yours in haste

A. Morse

To his Excellency,
U. S. Grant,
President of the United States,
Washington,
D. C.

The undersigned citizens of the City of San Diego, State of California, urgently recommend to your favorable consideration, for the position of Collector of Customs at this Port, Mr Thomas Whaley, an old Pioneer of this State, residing for many years with his family at this place, where he owns large interests.

Mr Whaley is a gentleman of the strictest integrity, and has, heretofore, faithfully discharged various offices of trust as employe of the Government of the United States. His general business knowledge, and experience as a merchant, eminently qualify him to discharge the duties of the office of

Collector of Customs. We trust
that he may receive the appoint-
ment which we select for him.
We subscribe ourselves,
Yours Very Respectfully,

This of course will want to be copied on suitable
paper - legal cap - which you or bank
can do.

New York, Sept 18/74.

My Dear Wife,

I have enclosed the draft
of a petition to the President for the
Collectorship of San Diego - and
my letter of instructions concerning
the same - You will I know do see
you can get me therefrom I need
not urge on you the importance
of anything -

I received a letter from
my mother today - It writes - "On
the same day I sent you the P.C.,
(about 26th or 27th August.) I wrote to
A. J. Chase to pay into Mrs. Whi-
te's own hands \$100 - immediately,
and to pay to her another hundred
at such time as she should re-
quest him to do."

This enclosure is self-
evident and to the point, I think

then will be no doubt a great amount
being this money - which you should
use a propriety and the children -
to do what Providence will do for you
them to do with it you must be ready
- one of you can make the ar-
rangement I spoke of above & with the
Masters I should like you to do so.
I believe you will be an exact
Secretary of the N. B. Company what
you will get and pay over to Mr
J. S. Primmer. No. the account of
what we owe them, they having a
good account now to do so. They
I would much prefer having some of
the little children & young people
good to them that you can take to
as do - thought the 1/2 year would be
pay if you to them. The account
let them pay or any thing else that
that I hear any kind of news
thank you for the news. or say that
you have received or about to receive

any money. There is no thing
will be regard to my Aunt's
I cannot say that I love for any
thing important to begin this is the
month when Providence will be
to return, and perhaps not before
the 10th of October when the bank
will again return -
Charles W. H. G. Primmer re-
turns the 1st of the next and
am the spring at a better price
has a good deal more than at
can find suitable, about when the
spring in a I will be together again.
I got the receipt of your
from the of the receipt of the
ing 100.00. I have been expecting
your answer in regard to it, which
then receive. I will write a long
and more than ever.

From your Cousins

J. S. Primmer

Morse writes that his wife is anxious
to leave about the first of Oct
but he does not expect to get off
till the last of Oct. He hopes
that I will be able to go with him.
There is no probability of my being
able to do so even though he should
remain till the end of Oct. I shall
be content to get home anywhere
before the end of the year.

a few of the most notable and
in fact have many of them being, as
a result of war & expense - I have
written to Mr. E. Boyce to obtain for
me the resumption of action of Eugene's
estate and I hope also to obtain
that of Senator Sargent. If you
can do anything to procure for me
titles of resumption of action of Eugene's
estate or procure my interests in any
way in aiding Mr. Case in executing
the will, I will be very glad
and I shall esteem it as a favor.

Regarding my will, a slight
mistake was made the first of August
but it was a favorable one - and though
the objection is the objection, I have always
positive assurance that it will be in my
favor - and that it will be rendered about
the 15th of October. - You can also procure
Eugene's a portion of that as written to
himself. I wish you to see that

New York, September 9th 1874

My Dear Wife,

Darling Mamma

Your heart wrenching letter, giving a detailed account of your present suffering was received last evening. I cannot express to you in words the sorrow I feel for you. You know my heart towards you, and if in my power, I would now be on my way home to afford you, by my earliest presence, such consolation and care as in my power I might be able to administer to you. It does really seem as though the fates were against us, and that all circumstances combine to make us more and more miserable. This cursed suit, prosecuted to obtain what is legally mine, which if decided would give us that which would not only place us beyond want but make us in every respect comfortable, is being protracted far beyond any possible time I had

any expectation of its commencement
and could I have known before hand, I
never would have undertaken it.
Sincerely I must beguise every thing
to you, not only my own comfort and
happiness. but also that of all those whose
most dear, wife and children - I have
done thus through I would answer the
whole proceeding. In what is the equi-
ty of a good citizens comparison to the
sacrifice of our lives & power as we have
been so long of each other society and
corruption avoided so much suffer-
ing and all this which has attended
us and our families of little more!
Wells would it have been for me to have
remained in the ships, or returned
thru after a short voyage had, a new
sail found than to have experienced
what we all have been experienced
As to in proceeding as respectfully,
as I said to the President & friends, my case
was however commenced for the

best, as the world very of a turning
out fortune. It could not have that it
would require to long a time to accomplish
it. But having resided so long, I would
be fully willing to give it up, and when
the probability is that it will be shortly
decided and that we in my opinion
I have done had between the 15th of that
month and the 15th of next we were ac-
cordingly high for a decision, and you may
be assured that as soon as I can get
a portion of the money owing to me I
shall return home to you immediately
to give you all the comfort and comfort
thru, which at the present time you
shall do much in view of it. I can
I feel kindly affectionate to you and
wish, and nothing in the world but
would not going to you at 10 o'clock, but
I hope to give you a letter so. On the
subject of your letter I am very glad to hear of your
return to the place you were before on
out of danger and that you

4.

again to attend to my suit. I know full well you would like to have me with you and that you would feel better and probably recover sooner.

Your present condition is something you have been expecting might take place soon. I was in hopes, however that it might be deferred till my return home and we were in more comfortable circumstances. But as it has made its appearance sooner than was expected we must make the best of it and do all we can to make your condition as comfortable as possible.

You need have no fear or apprehension of ill. It is an ordeal through which all women to reach a mature old age must pass. Something which your mother and thousands of women have passed through. You have shown yourself in times past possessed of a strong healthy constitution and have gone through considerable - and I have no doubt but that you will show yourself

to be as much of a woman as ever.
 The main thing is for you to keep
 your mind and body perfectly
 quiet - not to allow yourself to
 become excited in any way and
 to abstain entirely from any and
all kind of work. To do nothing
 but what is most agreeable and
 pleasant to you. To abstain from
 certain kinds of food, and to
 have an abundance of such other
 kinds as the doctor shall prescribe.
 And if you live strictly in accordance
 with all this I hardly believe
 that you will require the attention
 of a doctor. It will not be long before
 you are able to get around again and
 more feeling better and looking better
 than ever. It is a perfectly natural
 transition you are passing through
 and the less you have to do with
 doctors and medicines the better
 it will be for you and the sooner.

you will be around on your visit some more.
I hope you needn't thank to me and
all those, some are with you as the
time to work upon your affairs.
I allow you to expect you receive
the book. It will not do for you
to be left with a load - say if you
cannot get some one who can stay
with you, you must keep Mamma's
hand from Deborah - I wish I were
at home. I must let you see from
as yet. I have done before - what
darning is that is not to be - I wish
very well last night as I do not
my room thus being the separate
you must not expect to find, but
my one Mamma's care even when I am
inward. It will this morning, but
I have been speaking on this matter
further and giving much advice you
my mind - I wish the Baronet
that you will have ample money
to make yourself comfortable.

The Baronet advised from Mamma at the
time coming as it does, is a complete
Baronet to us - It will be the
you to see our doctor, medicine,
mum, what does you want to
eat, decide, in your every
thing you require for your edu-
cation and happiness. What are
you that you will not be want of a
single thing that money can procure.
I wish you the 17th instant with
my own that a bank the 17th August
will Mamma with his account of J. Char-
les Tracy will see Mamma's own hands
I will immediately, and Tracy then under
Mamma at such time as she chooses a-
good time as to do. Don't let
that time you have received a letter
of the money. I was on the 17th was
sent you an order to draw from the
Bank of England the amount due on 28
th of March. What you had your
might do with the Baronet what you

thought best, so long as you and the children get the benefit of it - ~~But~~ but I suggested that in case you were so disposed and could make any favorable arrangement with ^{Mr} Miller by taking up the note I owe him for \$25 - the \$25 I desired to be paid to C. S. Mannisto Red or to little Schiller provided Mr Red consented -

Now in consequence of your illness, which may be protracted for an indefinite time, impossible for us to say how long - and least you should be in want of any comfort -

I desire that you retain the whole of the \$25 for your own particular use - do not think of paying Miller beyond what at least need for the present and in case you have been him from indebtedness, tell him word on account of your sickness you may not be able to do so - Some few things you may be compelled to buy for yourself and the

childhood, in the way of clothing &
 amon, but until you are perfectly
 restored in health, be very careful of
 your money, do not buy it entirely and
 exclusively to yourself for your wardrobe
 and as long as it lasts do not deny
 yourself the least comfort that will in
 any way conduce to your happiness
 in any respect - and in case of your
 having to expend it all in this way, and
 still be still its requiring more I doubt
 not I shall in some way be able to pro-
 vide you with more - But I hope you
 will not remain ill so long but need
 to have the good of some of the money when
 you are well.

Now in regard to the \$50. which I
 have instructed you to pay to the
 Trustees in circumstances I would rather
 not pay this to them. Fortunately I have
 not written to them that I would
 pay it - they expect me to do so -
 and therefore I wrote in my letter of the

Why for you to draw the money and
pay it to them? Can I have another
to send them yesterday a little after
your own self, but it is impossible I could
not able to send it. The little I have
the Pitt left from yesterday - You may
cut out if more than 10 - I have written
another to day dated the 9th which
if you will to return the money, as I
think under the circumstances you have
better do what I wish for I shall be very
very obliged to you along - I present
the little Pitt and I have no doubt
from what I have written they will con-
sent to your carrying - I wish to
see you to have the value of Pitt 1000
I will pay it to be necessary what you
are to do - Or without a further delay
the little Pitt you might purchase the
money - and you may say that I shall
not to pay it to them but to contribute
to the little you cannot make a better
do - I thought it necessary to mention

It may perhaps in your judgment
to be better to do it in the
in case you do not require it all to day
the little on our property - I shall
mean, I can see in your argument
not being paid when I do not
\$100 or \$150 more than I want to
have cost -
You can do for my advice in regard
to a doctor - I shall be obliged to

Your affectionate husband
Wm. W. Kelley

September 11th - 1874.

My dear Husband.

Am in receipt
of your long letter of Aug 25th -
for which I am very thankful
for receiving letters from you
as I told you before is about
all the amusement we have
in this dull hole. I am pleased
to think you like my letter of
the 23rd last. I would, and in-
tended to always write you
nice letters but you were con-
tinually throwing out something
against me in some of your
letters, which if any one else
but myself read them would
certainly think that I was an
awful woman, and no good

in me. You might go farther
and fare worse I think. Am
glad you have found me "belic",
the one in many ways, and
will take me for your "quicking"
that in the "subtle" "garime"
ought would be have written
to give order at least after you
wishing so often to her, she is a
bit of a "quicking" and "stupid"
you must take all that
passed between you as a
passing "philanthropy", but I
have no doubt that she
appears to all you did for
at the time. Let each see -
hardly says till she answers
some of your letters. I will
sometimes when my head is
more than it would be her,
always give her my love.
Remember me always to
Mr Young. Tom etc.

How Cole is an ever -

Protecting Charles's child, but
from today your words, your
words are now good, and
they cannot "belic" in any
other way than favorable to you.
You have a great deal of "pa"
thence to be done, but it will
not do for you now, after go -
ing to you to let it all go -
have "stupid" to me, for "stupid"
or for "stupid". All will be well
down. Write you that I have
been very "stupid", and that I
will "stupid" stays, it is the "stupid"
see of "stupid". Am "stupid" now
my "stupid" words appear to be
my "stupid" "stupid", as it will
be my "stupid". Am to take
something about that time
is to make me "stupid" very
fickle as to believe my
words of all the "stupid" that
is still there, and is making

me feel so badly, so I got
no peace or rest for me its
seem, but the Dr says if I
get over it safely, my health
will be better than it has
ever been, and no more trou-
ble with my wounds. I should
hope not. After this month
if I come out right, I may
go three or four months feel-
ing pretty well, then come an-
other time, but I think by
the time you come home I
will be feeling pretty well and
am not sick all the time.
I think Mrs Morse was very
kind to let you have the
\$200 dividend and to send
it to me, but Chate sent
me word I could have the
money if I would come
down and get it, but as
I cannot ride on the Stage
yet, I wrote him a note

telling him to give the money
to Frank, so he handed
Frank \$100 and told him
that would do for the pres-
ent - I did not like it, and
wrote him another note re-
questing him to give me his
reason for not sending the
other \$100 (as he had not
given Frank any reason
at all) and requesting him
to send me the rest of the
money now, as I had to
dispose of the most of
it right away, so he showed
Frank Mrs Morse's letter
telling Chase to give me
\$100 down and the other
\$100 whenever I wanted it.
I chose to want it all to-
gether, as a bird in hand
is worth two in the bush,
and besides I wanted to pay
all my little bills amounting
to \$35,00 or \$40,00 and send

you what bill amount to (wading boots) for yourself. These
\$75.00 in present cash in my wading boots bill, arrive here
then look to have the tin put in the rainy season and
and Athabasca Cloak price will be very useful to them,
and if you can get the children boots so little, and I think you ought to be able
to have each a wading boot to buy them for \$5.00 apiece.
I have long ones with laces as if it is only a Cape and
Dinner and boots - lined should. I do not think I can
with red flannel, and Pa. I think this time as I
Athabasca lined with dark I have rechecked up close,
the flannel, the hood I must now let a grant have
attached to the Cape to his own money for at least
put over this ready in two months to be fine cloth
lined, I do not think you as he is dark in heart of
will have much more to make clothing boots that look
opened in the bag of knots - under suit - look shiny, and
clothes, if you have got him a good suit do I suppose
so little of chemise made better by (after paying the
up, three per cream, made little stuff enough of the
up, and me too or three more to pay me how or
might strong, but I shall not feel month, and pay for
expect the knots clothing at some word I see, and
you can appropriate the bag in a load or two of
balance after buying this good word, I can arrange

with better by any time when
you can send me more I can
then pay him the \$50.00 with
out interest, I am not afraid
of that, He told me some
time ago, he could wait, he
was not in need of it. I must
get me some undershirts, muslin
for chemises, one or two night
dresses, enough for two pair, dra-
wes, some stockings. I have
got a little Calico as muslin
from Schiller from time to
time, but only five yards
of muslin, and one Calico
dress at a time, for fear
of his shutting down on me,
but you know there are six
of us and five yards of mus-
lin or Calico is my little
wheed to work upon. I have
not a dress to go down any
time to New Town in, there-
fore, catch I have stand

at home more than I ought I
to have done, so the Dr says,
he does not wish me to be on
my feet much, riding in an
easy conveyance, but my convey-
ance you know is the stage.
Mrs Seely took Mrs Estudillo
and myself out riding, day
before yesterday, but she does
not like to have her carriage
out more than an hour
and a half she says, as it
cracks, the varnish on top,
the sun shining on it. I should
want a carriage to ~~use~~,
so that I should not be
worried about it, as she is
about hers. They all say in this
town that Mrs Seely has been
more kind to me than any
one in town, if that is so
she must be very close indeed,
Seely is very generous to people
and scolded her for doing as
she did, I like her nevertheless.

She made me a present of a
Hank velvet hat last winter -
it was too small for me, so I
gave it to Mamma, I offered
her yesterday that little grey
stock coat lined with seal skin. He little dressy there
I'mixed with velvet buttons, is not one of them worth
that - cause in the winter you more than \$10.00, they make
\$15.00, but she learned to think a 'great show, but the little
it was too much, so I said it's not heavy, I tried to sell
\$1.00, that this not doing, so some of them but there are
Hundred near to keep it, perhaps the offer I got \$2.50 and
I never get a chance to sell \$8.00 or more and no one
it). Mrs. Vester wants to buy the seemed to care for them under
left of white ones, but she I gave them to them. \$3.75
wants to close that I am paid some left with 3 of
I said she will not offer me them, I would borrow for
much, it is true. They did would too bad \$12.00, then
just cost me 'nothing' and as the name of buying, that
one indeed too small for as the name of buying, that
any children, and the look I would receive some money
is very thin, and the fur from you, and Mrs. Conroy
is worn off of the hands long for a little sewing when I was
sunder, I will see what she did \$23.00. Conroy did not
with offer. What a pity every about to take the three made

dresses, there was too small for
any body, but the two little blue
ones fit Fattie coming nicely,
but Mrs Estudillo got Mrs
Comes to take them for the
money I owed them, and a
lot of Flour, besides, and
Milk for two months, every-
one thanks I got too much
for them I do not, but still
it was better than selling
them for two and a half pice
was it, not as I should now
have to pay them \$15.00 in
cash. The two largest ones
I have kept thinking I might
fit them for Avel and
Lillie, but cannot without
spoiling them, our children
are growing so fast. Mrs Man-
asser called to see me the
other day, and I showed her
the two remaining little dresses
she wanted the blue one very
much, but she said Mrs Man-
asser was so cramped for
money, people owing in the
store and no money coming
in all going out, but that day
she said she would give up

in good, means satisfactory concerning. has
been a great relief to my mind a letter being the
language of joy which has expressed me for
that days past, since I was first informed of
your illness. I am indeed surprised to hear
that you are so much improved in health as
to be permitted to be up and around on your
side of all design, at least for the present. I
have suffered with you again in consequence of
the information of your sickness, realizing
that whatsoever from your improvement at
nation you must have been in want of
many necessary comforts. I also thinking
of you my darling all the time, and thought
it to be to console to you by sending by my

change would incur its way to costs
over you. I am sure you must understand
nothing on your account. I do not think
to be so far away from home, from relations
been much near and dear. I never, till
now have I been made to realize the deari-
ness of our former connections. I have
the time and pleasure which he has not,
presenting as it does a time of solitude
about the usual exchange of conversation
and the administration of courtship to
be then attending it. I have not been, under
the last apprehension, reproaching you entirely
necessity, since you were able to write to me
informing me of your well-being. I had
that you might be suffering. For the world
would be sure to suffer. I had not
our presence. The knowledge however that you
wrote soon to me gave to get whatever you must
not has ever seen me. I do not think
with you any more about you, and ex-
pressing a great desire to see you
again soon, how you ever progress.

Saturday a telegram was brought to the office
addressed to me. My heart was in my throat.
I thought it might be from home. I was

I was more anxious. I had the telegram in my
hands for some moments ready to give it back

great relief found that it was a message from

My Dearest Dear Children,

Our dear All -

You have all been very kind in writing to me at various times. I have not the leisure to write to you individually, therefore let these few lines suffice from Frank down to Lillie - I have been writing to you as a picnic. I hope you are all going to see what you can to make the comfortable. I enclose some very beautiful lines for Mamma to read to you. They are hidden "Shut the door softly" and as Mamma is recovering from her sickness I think their appropriateness most fitting. Mamma will read them to the children so that Mamma may hear them too. Why does not my little Violet write to me often and George

too why does he not write to me
often - I used to delight in reading
his quaint descriptions of his wander-
ings and the many things he found.
If mama is well ~~she~~ does not require
all the money she was receive to make
her so, no doubt she will buy you
all very many useful things. I
believe you would all rather do with-
out anything than have mama to
spend the money for you unless
she is perfectly restored to health
or regained the money to do it. I
am glad you enjoy your trip so
much - Be good children -
Mama & Papa hope to
return home soon - Write to
me often - let me know about
everything - I shall be glad to
hear from you - I shall be glad to
hear about - My dear children
Give this from your darling papa -

West Chesley Mass Sept 23^d - 1874
Friend Whaley

I profan now to answer in full
the portion of your letter emanuum - but first I
will say that two days ago I wrote to A. J. Chase
to see that suit for foreclosure was commenced
two or three days before the note matured Oct 28th,
but not earlier than the 21st & to do nothing
more than just enough to save the statute.

I have sent quite a number of San Diego
hops to you at 449 Clason Avenue, thought
perhaps you would get them more cheaply.

Is the sale of Real Estate any more rapid now
than in the summer? How have you made it in
selling Mr Youngs property?

Have you seen that other Honey River yet
It seems to me there is money in their business
- there are tons upon tons of it now in San Diego
seeking an outlet, and Chase writes me that it
is often offered for cash as low as 5² per lb. for
good strained honey. The freight from San Diego
to New York via Panama is only 2^c per lb, and
if honey can be brought safely through the hot
climate of Panama what is to prevent realizing a
handsome figure from an invoice of it. Peddlers carts
are carrying around here and selling it in our
and two lb tins at 50^c per lb and miserable
stuff it is, too, as different from our San Diego
honey as the wild grapes here are from our
delicious San Diego grapes. Harbison the great bee
raiser of San Diego County has in town 3000 tins
of 60 lbs each which he intends it is said to ship to
Chicago. He ships the most of his in the Comb, but every
bee raiser has a great deal of strained honey. This latter
is just as good of course but it can be so closely im-
itated that the price is kept down - the Comb honey

of course can not be imitated and therefore brings a higher price. The wild sage flowers make the finest honey in the world far ahead of orange blossoms but I suppose it will sell better and perhaps eat better if they think it is made from orange flowers and you know now we have several extensive orange orchards - two anyhow Higgins' & Stones.

Chicago is undoubtedly the best market, by rail but the cost is too high for the strained honey.

What is strained honey worth in N.Y.

There is an advertisement in the S.D. Union of a Chicago firm wanting to buy Honey. I don't know what it means it is so indefinite. Chase writes me that Harbison will clear this year on his honey over \$20,000.

Mitchie (Magpies brother in law) I think you know him has sold in town this year several tons of honey of his own raising and yet two years ago he had only 12 hives of bees. One time increased from 3 to 10 every year by swarming and makes from 50 to 150 lbs of honey to each hive new swarms and all. The most worthless portion of the county is most valuable for bee raising. San Diego expects to raise next year \$500,000 worth and it is so superior to any other honey that it will always rule the market.

I hope you will see Quincy 34 1/2 Greenwich st. and see if something can't be done to help our San Diego people get rid of their honey - especially strained honey.

Honey is imported from Cuba in barrels I think, and I don't see why the hot weather should affect strained honey. What is Cuba honey worth in the market, what is the cheapest honey in the market.

I don't believe it would do to make a contract on the basis of 5¢ in San Diego for it seems to me that is too low a price for it, remains long at. But Chase says that is the price now. He says I can have no idea of the quantities flowing into town.

I think it is the heat that ² causes the comb to fall to pieces by steamer and if that is the case your plan of filling in solid with strained honey would not answer. Still your suggestion may be a good one. It will do no harm for you to study up the question thoroughly, now that you have the opportunity, for on your return to San Diego you may then be in a situation, from your knowledge to make something out of the business before everyone else has learned the ropes. "Knowledge is power" & money too, and now is your time in the very center of mercantile knowledge to get hold of all you can I think.

Will you be able to get anything from those insurance people, I hope so, for it looks to me a good deal like swindling.

There are several people in San Diego who claim to know that Wash is a Jew by descent if not in religion, but none & the other Jews don't claim him I believe - he is sharp enough to be one, any how.

Immediately on hearing of the \$2 = dividend by the S. D. & Gila Co I wrote to inquire about it, but have received no satisfaction. I learned that Carr had paid over to Chase \$ on account of a dividend, which is less than half of what is due me personally and upon orders of other persons filed with the Secretary I don't understand it and probably shan't till I return. I have never had a letter mischieved, written to Chase, and I presume he has paid over the money to Mrs. Whaley before this. I repeated it, ^{the order} however in a subsequent letter.

Scott was President of the Atlantic & Pacific R. R. Co & I believe he was required to resign, and he has done so. Maj Evans saw the I & P people in Phil^a & he says they are very sanguine of Congressional aid this winter.

The San Francisco Bulletin, it is said, sent hundreds of copies of a number of its paper containing the statement or rather what purported to be a statement of Scott that they had given up the idea of building the I & P Road through to the Pacific ocean - abandoned it entirely -

The Texas Newspapers were abundantly supplied with their papers, and many of them come out and denounce it as a trick of the Central Pacific Railroad, that no such statement has ever been made by Scott or any of the Texas Pacific managers, but always directly to the contrary. How persistently San

Francisco is fighting against San Diego, and when it fights against the T & P road it fights against its own interests, for a rival road would benefit San Francisco greatly, although it should reduce Stanford's profits. But San Francisco is owned body & soul by Stanford's.

The T & P people have not been idle this summer and there will be a strong influence brought to bear on Congress for aid. They ask so little of Congress that they ought to be shamed into granting them so slight a favor. It is like asking you to endorse my note & giving you, (into your own possession) twice the value for which you endorse.

They do not ask one gift of one dollar in money or lands, but a simple guarantee of interest, with abundant security. The Texas lands never belonged to the United States, and these lands now are very valuable, for Texas set apart a wide tract running through the whole state some 16 years ago, and settlement along the line has made the eastern portion of this tract very valuable. And there alone is good security for the interest.

And then the claim of justice for the south, after giving millions in money on bonds to the northern railroads Congress can hardly refuse the small boon asked by the south, more especially as the Texas Grangers and it is hoped the western Grangers also have asked it.

On the whole I think the chances look rather favorable, but by no means certain. San Diego will be in great suspense all this winter again I fear hoping, hoping, hoping ever as usual.

I hear nothing about the Collectorship from San Diego and suppose Mr McCormick still remains there, and as the most strenuous efforts of the "Quinn" ring will be made to keep him there, they may succeed; for if he should be removed it would be a virtual condemnation of their course and reflect also strongly on Houghton especially and also on Sargent. If there had not been such a fight made over his appointment and in which Houghton & Sargent took such active part I think he would have been removed before now.

You have always entertained a high opinion of Mr McCormick, so have many others who never saw him in liquor or gambling. Many think he lost the U.S. money at gambling and saw no other way to make it up.

Some little time ago there was a very severe article in the "Union" hinting at parties who were trying to get signatures for a petition for the Collectorship, - the editor had heard of jashaks & dead mens clothes, but this was an insult to the whole people of San Diego & should be remembered so for they all had the most unbounded confidence in Mr McCormick, his ability & integrity &c

This was published I think in a July paper of course before they could have heard of you. You know that

the President nominated Geo. N. Hitchcock as Collector and yet Houghton & Sargent opposed his nomination & compelled him to be rejected & compelled the President to nominate Mr McCormick.

So you see, ones influence with the President amounts to nothing - it is Houghton & Sargent and the political influence of San Diego moves them, so that in fact (in this particular case) the political influence of San Diego County is greater than that of the President himself.

Sargent has been expected in Newburyport during the summer and I have been on the lookout for him, as I have wanted very much to frost him on political matters in San Diego County especially on the corrupt rings, and

at the same time I should have talked confidentially about you, and you can understand that I could say a great deal confidentially, that would be very unsafe for me to put on record. But unfortunately he did not visit Newberfort this summer.

You have my heartiest wishes that you may succeed & I do not desire to throw cold water on your exertions, but as I know some of the difficulties in the way & which you in your ignorance may think are slight, I thought I ought to mention some of them. I fear that you will not be able to get one prominent man in San Diego

to sign your petition - they have already convinced themselves, and then again the "Union" though such an unscrupulous sheet - is a great power in San Diego, lashes bitterly any one who offends openly the ring. See how it has killed off Mr. Coffey & Gordon, or at least defeated them at the last election and the Union alone did it, in spite of the wishes of the most respectable portion of the community.

So don't be disappointed at not being the Collector of San Diego. Mr. Coy - "Jim Mr. Coy" is more likely to get it than any man who is not a politician even if Jim is a democrat, for he belongs to the Union ring and was one of the bondsmen for Mr. Cornish.

As to your account - I haven't sufficient data to make out such a statement as I can understand myself, though perhaps you could. But really I don't see that it is important for we can settle better when we are together, in San Diego which I trust now will not be postponed by long. Of course, I shall charge you no such interest as you paid the Bank, you need pay me only just such interest as you consider right, and any and all payments through your P. & S. stock or otherwise shall be credited at the time received to the credit of any particular note or account you choose.

I saw a paragraph in some paper this summer that some chemist had discovered that shell by using certain other compounds or ingredients would make Coral Ivory and such like articles or rather imitations of such articles. I have since seen in a San Diego paper that some New York party has sent to San Diego for some of the shell to experiment upon. I have since seen that Julius Trautenberg of New York City has taken out a patent for making artificial Coral Ivory or from Cassin's - now he may be the man. Suffice you hunt him up and talk shell to him, there may be money in it, who knows, we have you know. Lots of shell and the business of gathering and reducing it, even if it is not entirely manufactured in San Diego, would be something to the place. I do not know the man's address any nearer. - the Directory may give it, or otherwise a letter might reach him.

I hope you have had time to study up thoroughly the Honey business. There are also several other kinds of business that might pay perhaps and it would be well for you to look into. There may be some profitable business - who knows - but would allow you as one of the partners or as agent to line in New York. Flour is often shipped from California to New York, (and it is now being shipped by the way from San Diego to Los Angeles regularly) and freights now via the isthmus are quite low.

A wholesale store will soon do well in San Diego - in fact Lowenstein & Co are trying to do a wholesale business now they have a very large stock on hand, two floors, in the Commercial Bank Building. Our mines are attracting a good deal of interest now and they are creating a large amount of business.

Have you tried the "Stonewall" again? I have no doubt it is a good mine and Dray will get make a big thing out of it if he can only hold on to it. If you have time it might pay you to look into it, but if you havent time, why not turn it over to the broker who is in the business and will be willing to work hard for the prospect of a big thing.

Dray says they may send as many experts as they please and agents, and if everything is not just exactly as he represents it, he will pay all their expenses. These mines are rich and will build San Diego up if nothing else does.

Judge Hanna, who has been spending the winter for the last few years in San Diego has a son a partner in a rolling mill at Chicago, which let the I & O. Construction Co have the Iron for their road in Texas, writes to his father to hold on to all his real estate there even if he has to hire money at 2% per month to do it - pretty strong that -

Beef is shipped from N.Y. to Liverpool every week now why cant San Diego ship it at a great profit for fresh beef is not more than half as high, and the freight is not much more. Cant you find out what the N.Y. shippers pay for beef & what they get for it there in England what the cost of handling it, freight &c is?

There is considerable business now being done at San Diego and it is steadily increasing; the people call it dull because they expected a great deal more business, but if they were not looking for great things, they would be satisfied with what is before them in the reality.

You wrote me that the fare overland had
been reduced to \$100.00 — I have heard nothing
more about, was it not a mistake?

I saw a statement that a "Judge of
Primera Instancia" had been appointed for
San Rafael, in Lower Cal^a obviating the necessity
of sending any papers to La Paz for record or
I also saw a statement in a letter from San Rafael
giving the laws affecting Americans &c, that no
American could hold land within 20 leagues of the
line. I am afraid that is the law in spite of
what Matias Moreno & Judge Hays told us.

The suit of Lena Gray vs Winder has
decided in Winder's favor and those sales of lots
declared valid & confirmed and there is no appeal I
believe.

Will you please inquire at a large whole-
-sale house, the price at wholesale of canned green
corn (sweet corn of course) and if they ever ship any
to England — I want to know on Howards &c.

Will you please buy me one of those
Pencil Holders, that you spoke about.

I shall write to Chase again next week
about the foreclosure suit — I requested him to keep
the matter quiet of course.

I am very glad to hear that Mrs Whaly is
better — I assure you I have sympathized much with
you in your troubles and wished many times I had
been situated so that I could have rendered you some
material assistance, but I knew not where I stood
myself and I dared not do as I wished, but I trust that
the worst is now over, and it does seem as though it
was near daylight in your case. Mrs Moore and I
have often spoken of your affairs and she felt quite elated
when I read your last letter to her. I trust this time

our hopes will not be disappointed.
I think Dr. Stobhton acted shamefully
but it will not mend matters for you to write to him.
Patrick thinks he is, perhaps the very best Physician
in San Diego. You have shown extraordinary
pluck in sticking to your suit and I think
your mother will desire to compromise, unless
she is getting childish, in which case it may need
more efforts to bring her to reason. I suppose she
can use your own money to fight you with unless you
cramp her sufficiently by injunctions and orders for
accounting &c so that she will be glad to ~~abandon~~
and settle. I suppose this decision however will put
you in a way to raise money even if it does not
put your own money in your hands.

Of course in the foreclosure suit, you
must not be known in any way or shape, but I shall
do as you wish, nevertheless. I don't think it will be
necessary to issue a summons, even, only to file a
complaint - I thought it outlawed on the 28th not the 25th
and so wrote Chase, but will call his attention to date.

I want you to let us know when you
get your decision. Mrs. Moore says I hope Mr. Whaley
will write to us the moment he gets a decision.

I think we shall start for San Diego
overland about the last of October, sooner if I can get
away. It will cost us about \$200 - of which I
suppose. I hear that the N.M.S. Co are to put on a st
to San Diego direct from San Francisco to make the trip
in 2 days - good.

I have wrote a long letter, will
send some papers to 449 Clam Avenue for news.
I have no news that I think of - my letters all are full
of the immense wheat & Honey crop - all the stone
houses are full - we find use for the Central market
now as a stone house for wheat & flour.
Hoping to get the good news from you in a day or two
of a favorable decision. I am - E.W. Moore

Friend Whaley

Your interesting letter
of Oct 1st came to hand yesterday.
In regard to that honey, I
think I expressed some doubt
as to the correctness of Mr
Chase's statement, that he has
made some mistake for I can
not conceive how it is possible
that good strained honey should
have fallen so low, even if it
comes in by the ton or the hundred
tons. On the receipt of Mr Chase's
letter I immediately wrote to him
for further information. Of course
there is money in it at any such
price (Coin though it is). Good
strained honey about here retails
at 35 to 40 & even 50¢ per lb, coming
around by pedlers in one or two lb
cans. I could dispose of several
tons in the neighborhood at 20 to 25¢

Mr. Higgen's proposal is a good business arrangement and could be carried out easily if I was in San Diego, I have no doubt, but it would be more difficult with us all here. Mr. Chase says "a Case of Honey in the Comb weighs about seventy (70) lbs. a Case of strained Honey contains two 5 gal (coal oil) Cans and weighs 130 lbs per case."

I will write you as soon as I get any further news about the honey business. But if Mr. R. or others wish to go into the business at once the telegraph is open and a few dollars would give it once. The necessary information in regard to price and I have no doubt the other arrangements could be made through our bank and its New York correspondent (Crescent Morgan & Co.). I should rather not go into it till I have returned to San Diego.

The Bill of Lading together with the draft for further money would be sent through the bank and security would have to be given to the City Bank for the payment of the draft before they deliver the Bill of Lading.

Don't forget to look into all these mercantile matters, the

information may be very
useful to you in business some
day.

I see the San Diego
mill is shipping 300 bbls flour to
New York - I hope they will reap
it up at a profit and show the
P.M.S. Co. that we San Diegos
are worth having some attention
to.

I would like to know if it
can compete with western flour.
This is worth looking into
for if there is money in it
why should not we take
hold of it as well as honey?

I am glad Mrs.
Whaley was feeling so
much better; I hope your
troubles are nearly over
they certainly seem to
be at an end almost so far
as the suit is concerned.

I received three pamphlets
and map & air map of the

with the success and fortune for you to
have it - I have not time to write a very
lengthy letter wishing to inform you of the
good news - that decision in my case was
announced to day in my favor - I have
telegraphed you the proceeds to day -
decided in my favor - I will let the boys
get my share - Will Henry send an imme-

The executor removed - a decision is appointed
to wind up the affairs of the estate and
make distribution. I may try to get the
appointment - there is money in it \$2000
or more - which would compensate me for
my time & trouble. I cannot write you
all the details of what will have to be
done - indeed I hardly got beyond what is
necessary - The main point is the present
decision is in my favor and we must abide
the results of it with patience. As for your
Cher dear wife & children - Papa hopes
now to be able to return home soon -

I want the law passed at last Session by

allowed them to remain there. I am willing
that Wash should have the entire ^{of} the
stacks free & paid, giving it as time of
to the party attending them - better over May
or his agent. Tell him this - If they must
be removed then you must make the best
terms you can with some one, but when

It is late. I have not time

October 9th 1848

My Dear Wife,

I sent you a letter and a letter
^{yesterday} informing you that the interminable
suit had been at last decided in my favor.
But that it might be several weeks yet before
I got my share, depending upon the opposi-
tion made by any mother in the court of her
appearing so - I will not repeat here the
many difficulties that may be in the way
knowing that you must understand them all.
My hope and belief is, by moral persuasion
and influence of Peter and the others, to be
able to overcome any and all obstacles which
she may interpose to a speedy settlement.
Mr Young says that if I think it will be
of any use he will go to see my mother and
make a clear representation of the case to her,
so that she might perceive the advantage

which she will decide by coming around
to town. She is a very good to the place
you are now and I am a much better
that feel uncertain whether you are
in good. ^{John's answer is, however, that he}
^{returns to the City and the stock market}
John has exhausted his persuasive powers
upon her - I wrote to John yesterday and
to-day feel coming together. The first part
of next week. The Redgrave, as to matters
that he should, takes before my to the point
having pronounced the decision at that point,
I am perfectly willing that he should, if
being a matter about which I am not
not so long as I have got a general decision
I think however that I am greatly indebted
to them & I shall not be in your power
if and possibly give it being in my power.
The lady is hearing me go to the place
then, with which I have heard somewhat
in which you have made the program
of I feel to be the point.

She has written to her mother or her friends,
expressing the position of my family and
myself. It is very true and rather than to
give the matter of my family attention the
great power which he exercises upon her
that she hopes I might see it as I should
most desiring man and my wife and
accustomed to have everything - and as we
were all ~~not~~ in such a comfortable
and I would be not only an act of justice
but exactly so - I have by now
what she did say but I think it is

leave even "tell me that they to come to
my office tomorrow at 12 O'Clock and
he will get the decision in his favor."
At 12 the next day, ^{the 8th} Mr. Young & I went
to the Surrogate Court - we had hardly
got seated before a clerk handed him
a note written by the Surrogate, bearing
in pencil: "The order is signed - tell
Mr. Ridgway to call for it." T.C.H.
There was no necessity of remaining long
- I went immediately to Ridgway's
office - He had not come to the office yet -
I waited for him - When he came he knew
of the decision, having learned it another
way to the office and said he expected
it that day having arranged the day
before with the Surrogate. But as arrangements had
been made so often before, promises made for the
decision - I might have still waited several
months yet without getting it, but for my young
having seen him the night previously. Mr. J.
says that he would not wish to attract attention
any of the credit which Mr. P. takes to himself.

The certainty deserves considerable as it has been
most industrious in his efforts having de-
voted much time and trouble to the cause.
At 4 1/2 on the 8th the Sunday the decision was
announced. I telegraphed to you which must have
been received in San Diego in time for Frank to
take to you with the rest of the evening -
The Young and I were thinking of going about the time
(allowing for the difference of time 3 1/2 hours) when you
may have received the telegram and the commu-
tion. The reading of it must have produced your
happiness and the joy of the children themselves.
I have read the hint to picture all of our imagination
as to the effect produced - I would have
given considerable to have been a better than justice
through a small error to witness the amusement
of all. I must tell you that the extra-
char Salt and fire are being made good and

New York, Dec 15th 1854

My Dear Wife,

I enclose you the order in my care signed by Juno at the time of the fitting.

You will see that it is very full and explicit in every particular - the amount of the expense and the order of distribution of the estate which I have had taken place on the arrival of the youngest child at full age 20 years ago.

I heard from Mr. Moore the previous week. He looks well and very sick - said it would delay their returning as soon as expected. I was thinking of sending Mr. Moore to him - that would probably send them by steam or over land - will inform you - the first letter under the 11th.

Mr. Moore writes to

The first communication is from Henry Moore to Henry Moore as from him

Will please to communicate friends -
See list against Co. the same
and myself - I have intended
to remove from our names before
the 25th or 28th of this month -
Let Frank see Mr. Chase give
him my compliments and
ask him if he has attended to
this - and then you will inform
me - I have resumed, nothing
in particular to write about.
Saw Mary Gibbs and the Puf-
fers yesterday, Sunday, they
are well and delighted at my
having obtained a favorable de-
cision - They will again soon -
My mother still out of town - ex-
pected to return this week when
she will come to her the fact

be able to go home.
I have not seen any of
my friends here. I hope
you are all well. I
love you all very much.

Dear Papa

I now sit down to write you a few lines hoping it will meet you in good health. Mama received a letter from you today. She has been expecting a letter. She was delighted to hear from you today. Frank brought the telegram in the evening of the day that it was sent. We were at dinner when he brought it. Dannie was so glad when it came that it took all her appetite away. She was thinking of going to Boarding-School there. Today is ~~going~~ Violet's birthday. She is twelve years old. Mama gave her 50 cents to put in her Bank. We are ^{saving} up for Christmas in case we do not have anything. We do not want to be like we were last year without anything at all. George has made a

Fiddle. And mama calls it a Fiddle
decididdle. ^{she} She plays on it all the spare
time he has. While I am writing to
you, Mama is making a new dress for
me. I have not been going ^{to school} very lately.
I think that I have written a pretty long
letter to you today. I cannot think of any
thing else. No more at present.

go on with us. - Mrs Moses
mother is better. I shall
go to Manchester tomorrow
to be gone four or five days.
Mrs Morse writes "I am so
glad Mr Whaley has gained his
suit."

I have heard of no roughs
on the Central Pacific, it could
not be anything very serious or
I should have seen it in the
papers.

Mr Howard has asked me
to get a list of prices of paper
and envelopes in N. Y. or Mass.
to compare with English prices

I have tried to get them from
the manufacturers but have
not succeeded. The "Carson"
thoughts to request me to get
a sample of it. I who was then
only agent in N.Y. & so San Diego
was the man N.Y. he could
accommodate me, or,
Mr. Harwood will send me
English samples and prices
to San Diego and I trust
you see to compare.
The large dealers have samples
of papers & envelopes all put up
and marked. I have had
news from Harwood etc of it
I am well you had get me
what I want from your house
in N.Y. that would like to
open a trade with San Diego.
Even if I don't open a station
I am sure, I will open
to show them to telegraph etc

and large them to deal with
your works.

Had I better write
to share to which you a lot
of money at once, or will
let for a sample?

Have you ever seen
a little packet of paper, made
for weighing letters? a lot
the size of a pencil case.

I see that is not
English paper in San Diego
last night for Liverpool.

control the whole business.
I think we should go with the
business with diligence on

perhaps a little different plan
from what he proposed.

We must think of this matter
seriously. San Diego ship this
year 400,000 lbs, 200 tons of honey
and next year it will be double.

Darling Papa

Mama received a letter
from you a few days ago. We were
all very glad to hear from you.
We are all very well at present and
hope you are the same. I have not
been to School for a couple of weeks
as I have not been feeling very
well. Mama is going to send you
a picture of this house. Yesterday I
had my ears pierced. Mama has written
a letter to you today. I send you my
love and a great many kisses. Mr
Soley has lent Frank a nice
horse. He has returned the other one
to Mr. Manss. No more at present.

New York, Feb 23^d 1874.

My Dear Wife,

I received yours of the 5th (written on the anniversary of my birth day) enclosing one from Orest and Corina. The 20th - as it was post marked the 8th. I thought, before opening it, that it might be in answer to my telegram sent the 5th - I was much disappointed when on opening it, I found that it was not - though glad to hear from you all - I have since the 20th been over to Brooklyn, every day and will go this evening again - I desire to read the effect that the good news telegraphed will have on you - also to hear from Henry respecting the Power of Attorney. Nothing in particular has been done as yet except commencing proceedings for the recovery of the Brooklyn property. The accounting has not yet been commenced owing to the absence of Mr. Hall - all our main witnesses from the City.

He has been deceived in the course of his enquiries
of his own trustees & others his leg. I think it would
be more proper when we shall commence - When
I am down the 14th. Said Mr. Miller, notwithstanding
Cavoyte - He said he showed across the road to Cape
June. When down north - He said very little
towards me, words, of justice, than ever. He said
she has been badly treated by her children, &
wishes of change, she should be delivered with
after having everything her own way to bring -
She said the matter was more of the property,
that if the woman from of as long as she lived,
that the children put her by does have being
brought with the money savings from the
children, and that she had nothing to do
for having spent every thing - She said she
wants by all her own way - She said she
that the woman of her things should be - She said
I was D. S. 1857 - She said that ever and ever
that she must have more than that that she
could not have anything out of that -
She said that she didn't know she had that
should appear - That Thomas cannot have

down the 14th. Said Mr. Miller - He said
wrote for her to come to see him. He said
ing day he would be on a. When I was
for her, but she refused said she was feeling
well that the lawyer would have to come to see
her - She got a quantity of her - Said she
would not go to court to account that
wonderfully she would husband the court's
of his physician, stating that she was for
fully attended in which case a com-
missioner would be in the office he has taken
in the matter - She said she would
at in the Commission of 1857 of the estate, she
nothing to do with the account for any thing -
According to the decision the whole thing
have been decided 28 years ago and at that
time she was entitled to 1/3 of the estate
to the small account for the estate property
she have not that time and part of the woman
died - And whether she will be able to do
do the difference of I suppose the court
will order to be delivered from his estate
which is a very bad thing, because he

4

he little or nothing to receive at the present
time - She could have the whole of the
income for all the time as she claims her
right of dower too - If you will
little without great trouble and expense,
give up every dollar she has secured, which
I believe to be not less than \$20,000 to \$25,000,
I am disposed to allow her a very liberal income
say from the land to twelve hundred dollars a
year - If however she continues the matter further
obliging me to continue the suit and absent
myself from home for an indefinite time,
I shall not feel so liberally disposed towards
her and she will have to take up with just
what the Court may give her, besides the
things from the land on which be drawn
very tight so that she will have no control
of the property or income of the estate.
She will be removed from the administra-
tion and Othello will be appointed
administrator - John & Henry being her
exors have the preference over me - Othello
will not oppose my application, Henry

is too far away, and Harriet's right to
subvert the mind - I must of course
give the necessary bonds and thank you
have no difficulty about it -

I hope Mother will not make any
further opposition but do what is
right - restore to her children the
property withheld from them so many
years - but there is no telling what course
she will take - Prudence will see
I like to day and then I may receive
something definite - this will suffice
for the present about my suit -

The fur is made up - a handsome
attaché case, thoroughly repaired, which
taken with my new fur in sable and
silk lining, quilted with pockets - one in each
two out - in every respect as good as
new - The muff and bag are very
new - I think you will like them -

There are five pieces over from the muff and bag -
which will make a good collar
the two joined together for the back - and one on each
side for the front, and the fifth, or heavy piece,

would go on the entire of the book say Miss
Catherine - she has the best and the best
the appearance and then together, then
the night that for one of the children
and then quite a piece of bread or biscuits
and best of the best, gathering with a lot
Tom's best in front. Then are probably ten
yards of the square tanning - which you can
use for tanning or make ready with the
a portion of it for the children - there is a
little of the things the same on the deck
I wish that it might be something in
place and the same goes out that to understand
upstairs a picture house - you will have
at all times to be careful to keep the
in summer. The same as occurs on right
you will be - I purchase the
water proof coats etc to yesterday - ordered
ing 38. 40 3 46 inches from the north to
killing of the things you can eat them, or perhaps
they were thinking or do for the girls to
local even when 2 or 3 great others - they
are dark blue - with cap and 8 corners, etc

spend some with being - It's not the garden
to wear gloves or give the cap - the
caps may be taken off - they are fine
and excellent made by washer busy -
in good - it has great value to get them
and at all times thought I would have to
beaten purchasing - I had many things
own - party making - for 1000 - a piece -
A new one of pleasure, to suit the
dolls bound, \$13. and for your \$15. 1000
now - I have for the school - I have
an and a party with I wish to know

they cost \$1. 50 - \$1. 25 and \$1. 50
two make - \$1. 25. I have one \$1. 25
two buy very good. The things you
require - I wish to see what you
today - I have to get the things very
in a trunk which are the best of any
other things I have had purchased. I
you a list of them - I wish to get
I have got the more money so as to
don't you many other things, but

cannot at present. I think I had better
 get off what I have now as you will
 want the things, and if I should see
 end in getting any money hereafter I
 can send you another trunk or box.
 I will write again when I return here
 I will send the box through to send
 it overland as it will reach you sooner
 than by steam. I have to make expla-
 ns - I am glad you had the roof
 fixed. It would be well I suppose to
 have the weather side of the house painted
 if so something I have advised to do for
 a long time. If you can arrange with the
 Frenchman to go first to remove the
 soft brick - put in the new ones - then stop
 up the cracks when the mortar is missing.
 Then give a coating of glue with ~~some~~
 dry red paint (which is very cheap)
 mixed in with it - and then two coats
 of boiled linseed oil into the dry red
 paint mixed in it - This coat of
 glue & oil prevents the bricks

9
from absorbing too much of the oil -
it was in this manner ^{Chambers did it} the front
of the house was done and shabbas
stood well - If you can make a
favorable arrangement with the
frenchman or buy one elsey you can
at liberty to do so -

I wrote you fully in regard
to the half shares in a previous
letter - I am glad you have made
arrangement with Stewart about
weighting - Mr. Beecher says who
agrees that he can have ~~the~~ ^{the}
receipts after according Stewart for
his trouble - otherwise he may
with the dealer succeed or change
something for the right of being in front
of his property - I think I would not
sell them now that you have made
arrangement with Stewart unless
you can get \$250 for them, the
party filling up the hole on re-
moving - W. C. M. Red Bank

Now for \$2000 as of Spring School
They can have them - they can have
property - almost price down to them
and being the brief our end \$2000
under - price more or less every
year -

New York, October 29th 1874

My Dear Wife

Yours of the 14th inst anniversary of
Violet's ^{12th} birth day came to hand the 26th inst, commu-
nicating the exceeding great joy you all felt on
the receipt of my telegram giving the good news.
I was sure you would all feel much related
and that you did not consider the expense which
it necessarily incurred. My letters sent the 8th
and 9th must have since reached you giving the
particulars - I have since written the 24th - You
make no reference in your letter having written
to Henry about the Power of Attorney to send
his share as I requested you to do in the tele-
gram, and as I have not yet heard from him
I presume you must have misunderstood
me, or have forgotten in the excitement of things
to have done so - I am sorry for this as it
has been the cause of some delay, but having
a letter from him written last December
wherein he expresses his willing-
ness to join me in the event of my winning
the case, Mr Ridgway has concluded that an

4
secreted by his friends children - I am fully
satisfied that there must be a large amount of
money concealed and I hope to be able to un-
earth it soon. But let this suffice. I have
informed you enough to let you know that things
are progressing and that neither they lawyer
or myself are idle.

October 10th 1874. I resume writing. The trunk is packed
ready to send. I might get in a few more things and
will in case I get any money from Ridgway as prom-
ised, next week. I am undecided for about sett-
ling the trunk as I may get my money soon and ac-
cure how taking it with me. Or in case of a great
delay in getting my money, Curtis is returning home
provided I can make arrangements with Morse to
do so. I am waiting to hear what he says about it.
So you see the dilemma am in all around. I
think it will be better to send the trunk by
Steamer if possible to have it go forward with-
out detention, as fast freight. You will get
it then in 25 days certain. Could not to
San Francisco freight is 14 days and down
the coast 3 days making 17 days, provid-
ed it is forwarded without detention, but

5
Should it arrive immediately after the sailing
of the steamer for San Diego, or be detained from
any cause along the line of the route or at San
Francisco it might be longer reaching you over-
land than by steamer via Panama - besides
I think the cost of sending it by steamer would
be less and if possible I wish to pay the freight
on it when I send it - I will have it shipped
as fast freight to insure its speedy delivery.
I enclose you a list of the things contained in
the trunk so far as packages and should I put
in other articles inform you - There are many things
useful and otherwise which will be secured
for you.

I shall be compelled to close now. This write
again soon in answer to your letter. I have
seen Capt. Wiley - he invites me to see his wife
at the St. James. Have also seen Capt. Hartshorn &
much much to my surprise. Harriett & her wife are com-
ing - they are now about Capt. Wiley's house & the boys
are over. his little girls send love to ours - I have written

Friend Whaley?

Yours of 24th came to hand
I have instructed Mr. Chase
to ship, Thos. Whaley, New York
City two cases of honey, each
case containing two tins of
about 65 or 70 lbs each.
It will perhaps be all strained
honey, though one can (as I
suggested to him) will be
Comb honey if he can put
it into the can in any way.
He will send B/L and
invoice to Thos. Whaley, Care of
Bushe & White 237 Broadway, N.Y.
Chase writes that most of this
year's crop has been filaced but
that Daulton & Co & Hamilton & Martin
have between them some 12 or 15

honey which can be bought at
from C. G. & S. Co. 9 c.
Haley's honey with pure wild
"and our in a shipment. I show
"the profits on nett here at a
"fair price say 9 c."
The lightest color is always
we favored in the south.
Harrison has gone out with a
shipment of some 800 lbs = worth
The honey is made in little glass
boxes on frames and their frames
are packed in cases of 65 lbs each.
While at Alexandria the
other day walking with my wife
I saw some honey exposed for sale
in a window - I inquired if it was
as San Diego honey from its beauty
color, and on going in we found it
had been received the day before from
Chicago. Picked up by P. O. Herman
(who advertises in San Diego paper for
honey) as Chicago honey on at least

the best I think that he gets it any
where else. It was very neatly put up
in little glass pans about 4 1/2 inches high
and weighing when filled, gross weight
two lbs. Each pan contained 5 slices
of comb. The honey was as beautiful
light colored as to be almost
invisible. He also had in
the shop everything from one lb
this is the kind honey & a little
darker. The price at our place
was 75 c for the pan & 50 c for the
tumbler, at another it was
80 c for the pan & 42 c for the tumbler.
I inquired about. had been there
a few days previous to get orders.
I don't like his color of wax going
San Diego credit. This honey would
be a splendid advertisement for San
Diego for its beautiful it takes
everywhere. I have seen
none anywhere else but have heard
that the same honey is for sale

in all the large places.

Nation's honey in the comb
sells in Lawrence at 60¢ per lb

" Newburg at 40¢

" Manchester: 35 to 50¢

In Newburg strained honey
in tumblers holding only a little more
than half a pound sells at 30¢ a
tumbler.

I see by the tariff which
you sent me that the freight on
honey from Boston or New York
to San Francisco would be only
\$1.80 per hundred. If the charge
is no more from San Francisco
this way then it would be about
as cheap overland as by steamer
and come in better order.

Chase says the str. will not take
honey in barrels because it becomes
so thin at Panama as to leak.
If this is the case the comb
won't stand much show.

Chase says Harbison has sold out
for \$12,000 and is going into the
business of buying honey at San Diego.

I should like very much to have
you go on with us but even if
you are compelled to remain in
N.Y. this winter, I think the prospect
is very much brighter than it was
last fall - you have certainly your
the fruit and most important steps towards
receiving your profits, and the balance
I think will be plain sailing even
if the old lady throws all the imped-
iments she can in your way.
We shall probably stay 4 or 5 days in
Wisconsin visiting a friend living there
if we come to N.Y. we shall stop at
the Remond's house as you recommend
I will send you a P.O. case today
56 Broadway, Room 40 a day or two before
we start. I have tickets
above to send you to the latter if
in case he has already sent it to notify
you by P.O. of the last extension.
P.O. Mexico today is selling in
Haverhill Mass at \$1.25 per fan of
two fans - somebody makes a big profit -
I am going to that City today & shall
make some inquiries about it.
Chas writes you that Hamilton's Mountain
works to a friend in Chicago about having
the amount that the market was over-
stocked, that Russia a large dealer had
been offered some honey at 72c, and that

He was further up California and
"Doctoring" it. Chas. Hamilton
he was offered honey in the end of 11c unless it
was very dark & from quality.
Chas says that town is selling
it again with the same price, that
H. W. Gale etc are cleaning up business
handling last all their capital in last
debts. ^{Hamilton's Mountain} Honey & wax are 6 1/2% for
Honey 70 days.
"The str. against refuses to receive Combs"
"Honey - it can't be stopped now the
"Sellers if it could then honey deals
"would lose shipful that they long ago
"Traders charges 12c for his Combs
"Honey here, but outside brands have
"been selling as low as 12.00 15c
"No returns honey is put into
"Coal oil times & times for the consumption
"of that article is added to the demand for
"time. The dealers pay the boys 20c
"a price for the cans & half that to the
"men for 25c. If the outside coal oil
"cans should not prove strong enough
"for buying then new ones would cost
"60c apiece, the worst case I know.
"What the tea case would cost I do not
"know but those things would not
"carry to the cost of the honey. The
"honey to N.Y. is now 2c less & there

"I find on enquiring at several
places that the price of Beerwaf
is about 40¢ per pound at retail.

Did you see Trauenburger
the chemist about "kelp"?

When you come on to San
Diego why not bring with you
a commission as agent for some
good Marine Insurance Co.

I have been trying to get an
agency in connection with my
fire insurance but haven't secured
yet. I think you or I had
better have it; it will pay something
H. H. Doughty is the only agent in San
Diego. There will soon be considerable
business if West risks are continued.

Can you not learn what the
expense of that car load of honey
was to W. J. I think Harbin
brought it on but do not know
if Comb Honey can be got in San Diego
at 15¢ I should think it could be
delivered in W. J. overlaid at 20¢
and if it could be sold at even 25¢
it would pay.

I will send Howard the information
you give me, tomorrow.

I think the turtle business
might pay if turtles can be had
conveniently & I presume small
vessels would bring them up.

outside assistance much
longer and I wish I was able
to do all you desire.

I send you a Rail
Road article - I wish some
one would ask the P & N
managers what they think
of Stanford's cutting them
off in this style. There may
be something in it, and if
there is I am inclined to
think Railroad work will
go on with a rush before long
we may see a fight for our
harbor by these two great
corporations yet. I would
like to have the T & N folks
see the article.

Yours in hope of
better times soon

Sorry for Henry Clews, hope
he will weather the storm yet.

Thanks for getting the samples of papers, please try another route if we to get a variety than as well as thick writing paper. Most of the English papers are quite thin.

I think the best thing you can do is to get appointed ~~executive~~ ^{or} administrator if the Court will appoint you (an objection that you are not a citizen of N.Y. may be made) and straighten things out completely, otherwise you gain but a portion of what you have been fighting for.

We expect now to start somewhere about the tenth of June to borrow money enough to take us through - our expenses here on the farm have been very heavy - one item alone covering lumber is nearly \$3000⁰⁰ and no income - & you see how I

Nov

1874

New York, Nov 10 - 1874

My Dear Wife,

Your last 13th Oct. calling card
from Wroble & Anson, received the 26th ult. I
received it partially the 27th. Since which time
I have been expecting to send the trunk of
clothing, a list of the contents of which I have
sent you - It has troubled me considerably
not to have been able to send it, but I have
not had the money to do so. I might have
done so some time ago but was expecting
to get some money from Mr. Ridgway to
purchase a few more things. He has dis-
appointed me and in the meantime while
waiting I have spent the little I had so
that it is impossible for me to send it at
present as I am owing three weeks room
rent and utility, paid I cannot remove
the trunk from the hotel. - Mr. Ridgway
promised me the money last Saturday
which would have removed me from the
dilemma I am in about the trunk.

I desire to Dr. G. Peters, giving me a list of the contents of the trunk, and to send it to him but am unable to do so at present as I am owing three weeks room rent and utility, paid I cannot remove the trunk from the hotel. - Mr. Ridgway promised me the money last Saturday which would have removed me from the dilemma I am in about the trunk.

Use as was at length provided. Better from such and that the trustee, but he is also
used and as soon as he pays me or I change voluntarily from putting for money I do
if from any other source. I will pay what I will do when I have provided
the table and send the two to, through
As not also expect to send anything
additional requiring the money for
any other putting additional - The Board
what I want the money for and he inquires
that the account pay me - Money & exp -
humbly desirous to get from any source -
every body to do better etc - (Mr. Young will
requiring my services particularly and
being pushed for money, I take every other
he gives me from time to time interest &
very little money. I have been very poor - and yet I
by making for the part the more over the
since the withdrawal of any regular exp -
pay from the exp. At the present time I
am not so badly off - having received
certain sums of money and also from
little change, a dozen or so - I suppose
I do not do any thing for the money and
the money necessary to pay day expenses

putting himself in a way on his, also the
trouble and I shall not hesitate to
either of them for a little money - I am aware
likely to get it from the friends of the
worth any that he will have up for money
could not easily be to return home, and might
have to borrow to enable him to return to the
As you see how it is - every body to have
I am very sorry about not being able
to send the trustee as the trustee is
to send me near the things, but what can
do? I should think you for and I
might get a share due we must create
if that is all we can - then will be our
to all the trustee soon I hope -
Matters are progressing very slowly in
my debt. I do not think you will
any town that my matter will appear
through and endeavor to get it done

except as found to. She is restrained from
 collecting rents &c - and the order to
 make it perpetual was to have been made
 yesterday - but owing to her lawyer hav-
 ing a cause to argue in court the Court
 was postponed till Thursday when I hope
 it will be determined - also the application
 for Counsel fees, granting Henry and me
 \$5,000 each - removing her from the ad-
 ministration of the Estate and appointing
 a collector &c &c - The accounting will
 go on as soon as Mr. Harsell returns to
 the City. The suit in Kings County is
 pending for the Bricklayers property and
 suit will be commenced here for my share
 of the Mulls & House &c &c - As you see
 there is considerable work to be done, but the
 main thing is to get possession of the \$5,000
 to have some ready money and then if there
 is delay in settling the matters I shall re-
 mind it as much - My mother will not
 yield a single point and what ever
 I get from her must be forced by every

legal means putting the estate to an expense
of several thousands of dollars for legal fees -
I am determined however that she shall do
what is right though it will cost time and money.

It was her wish to have an interpretation of
the will, but as it is so different from what
she believed it would be she has said she
will not part with a dollar without being freed.

It is impossible, under these circumstances for
me to say when I shall be able to return home.

Mr Ridgway gives me all the encouragement
I can, says that it will not be long - I know
he is as anxious about the matter as I am
myself as he cannot get his money before I get
mine, and he is very much in need of it.

I am very much tired and disgusted, &
feel more impatient since the decision than
I did before - Knowing that the property is mine
and feeling the injustice of it being longer with-
held from me - but having played for a grand
won a big stake, it will not do for me
to abandon the field - it being now only

a question of time - but certain in the end
to get all that is coming to me - My
mother is one of the most obstinate and de-
termined women that ever lived and cares
nothing whatever for her children - She thinks
only of herself - She has disposed to
settle immediately - to give up all the
property of the estate - I would act very lib-
erally towards her and be disposed to make
her a comfortable allowance of \$1000 or \$1200
per annum, but should not prolong the pro-
ceedings indefinitely and force her by legal
means to extract from her what belongs to me
by a sacrifice of time and money I shall not
feel so liberally disposed and she will in
the end be compelled to take what the
Courts may decide she is entitled to, which
probably will be little or nothing as she has had
during the past 28 years the whole income of the
estate - I put enough of this I am tired
of thinking and writing about it. I have not
yet seen Mr Morse - he was to have been here.

7.
by this time - I am expecting to hear from him in
forming you when he will be here - I have grown
up all idea of returning when he does - which
will be a great disappointment to you as
well as to me - I still hope to leave
some time this month, or in a few days - but
if I am not able to do so by Dec. 1st
~~and~~ prefer returning via the Atlantic
as the journey overland would be not
only uncomfortable but uncertain - Let
us still hope for the best - things so far
have prospered and will doubtless do
to the end - I am glad to hear that the
children are well and that your own
health though not restored, has improved
so much - I hope you will have no
serious difficulty and I feel confident
that you will not, provided you only take
good care of yourself - not to do any-
thing to fatigue yourself, and to avoid
the changes of location and to keep your
mind easy free from excitement - the
children, and particularly Anna, must

I am glad to hear that Mr Clayton has succeeded in finding his long lost daughter and that it becomes unnecessary for me to institute any further enquiries.

My friends doubtless are glad to hear of my success in having gained my suit. You will remember me to them, Mrs. Masson, Schellu, Rose Mitchell, Battelle, Whiskey, McCoy, Sam Dan Clark &c &c. I will not forget to get word of his relatives, and to write to the same concerning his brother.

I am glad to hear that Mr will keep the seals. Better under the circumstances, to see them whaton they receive for deciding I wish to go on afe of Wash's bill - otherwise he may make some objection about the seals being in front of his people - perhaps would be charge suit for them. Whaton you

He is very rich worth a million or more and can do it - He was to have gone to day to look at the property, but the weather was hardly favorable enough - There is a possibility that he will purchase the property, and if he does I will make two or three thousand dollars as my commission, which

may do respecting the dealer will be all right except to dispose of them for less than \$250 and the filling up of the tide -

Mr G has determined to send for his family finding it imprudent to support them abroad in the extravagance they are living in - They will have to live here more economically till such time he can arrange his affairs - They will arrive here before the 15th December, and as I hope to have left before that time, I do not expect to have the pleasure of seeing your Cousin. I think you ought to be obliged to thank him for the kindness to you and mine.

I am now trying to dispose of a portion of his property to a Dr Watson who married a Cousin of mine, for a hundred thousand dollars.

New York, Nov 12 - 1874.

My dear Wife,

I wrote you last the 10th inst., at which time I did not know when I should be able to send the trunk on account of not having the money. That same afternoon I received five dollars from Mr. Ridgway which enabled me to pay two weeks room rent and to get the trunk ready to ship. Yesterday I shipped it by the California Fast Freight Line to San Francisco, O. Agent there for shipment to San Diego per steamer. I enclose you the B.P. The trunk will get to San Francisco in about twenty or days - say about the 2nd of December. About which time let Frank hand the ^{copy of} B.P. to the Pursu or Agent of the San Diego Steamer, filling up the order, which I have left blank, as he may direct, requesting him, if the trunk has not been shipped by the Agent, R. W. Montague, San Francisco.

to present the BPL & get the trunk, paying
the overland freight, which at the rate
charged, \$6.50 per 100 pounds - will be \$4.50.
There may also be charges for cartage say
50 cents and perhaps storage, say 50¢
more, which amount you will pay
the steamer, together with their freight
which may be \$1.00 more, on receipt
of the trunk at San Diego - I think
there will be no difficulty about it and
hope it will come safely to hand. It is a
Japanese trunk covered with hog skin. It is
locked and the key attached. It is strongly
boarded, and then covered with toe cloth, sew-
ed on. It is marked in ink on top, and
at either end on a card tacked on. The
trunk is about 2 ft 2 in long, 1 ft 6 in wide,
1 ft 1 in high, perfectly square-bottomed.
I will send you a duplicate BPL in another
letter, enclosed in blank paper as the original
sent to be used in case the trunk should be
shipped by steamer before you send for it, or
while sending for it. I have the original BPL
and will retain it in case of loss of the steamer
the trunk - Yours, re
W. B. Stealy

to do, do that I am not to blame if things have been relaxed on that account. I am sorry you must go to Woburn, and hope Mr. Howell will come forward and help you all he can, he certainly must have valuable information to impart, concerning the colony, I hope he will do what is right to help you. I think you might say something in his demand, but you can all bring his up with a round. When I think, to say you have won, and I think you will still come out winner, I hope it may be all settled before Christmas so that you can spend

The holidays with us, we want to see you very much, and enjoy the holidays together. I find it is over two weeks since I wrote last, but have not been pretty sick in that time, must be my excuse for not writing, I have suffered very much with my chest, kind of spasms in the chest, to get along with my mental powers, rather prostrate, and trouble in my head, and Dyspepsia's state of my stomach makes me avoid beginning to feel a little better, so I write you. We are all on the top of our expectations thinking possibly you may return with Mrs. Mrs. Morse, which if they come on the 10th of this

month would bring them here
on Thanksgiving Day. It would
be a glorious Thanksgiving Day
for us, if you came then too.
Mrs Chase says they intend lea-
ving on the 10th Nov. "now being."
I know I shall be pleased with
the sack and I am, they will
come in good time, and
the children will be delight-
ed with their blue waterproofs,
a piece of which you sent
in your last letter, it is very
pretty, and they will look quite
nice in them. We will find
things very useful in the trunk
you are about sending, and
put everything to good account,
as we have tried to do with
the other two trunks you sent.
Many things very useful in-
deed. Will try and make the

children some few sets of the
squirrel trimming, and pieces
from my box. It will all
come in good, you bet, poppie.
I cannot do much in the way
of sewing now, as I weaken
very fast, and feel faint so
often, so I only take a few
stitches here and there, now
we does all her own sewing,
and that seems to leave her
no time to help me sew, but
she & Lil, do most all
the house work, so that is
the way we get along, I am
afraid dear poppie, you will
think I am getting helpless,
but once in a while I start
in and work a little, but
I generally pay up for it. In
my last to you I also sent
you Hamilton & Marston's

settlement of the 23rd date, the some paper job. I think
that was ~~done~~ or his book as you are thinking of coming
not paid for yet, and matter home this week, and it is
wondering me to see them, I threatening a storm now, I
suffered upon his being not shall not do any thing about
me as he said he was about it, it will be quite a job,
and at the time of writing, the way you wish it done,
whether he would get paid, and will cost considerable
as he handed me \$300, and I should think, when I get
the scale books, he was not in, so that I can go in the
closed to settle up with any wages to New Town, perhaps
one, & I was obliged to go I will do something in the
know myself. Nothing more not matters. I think can hardly
paid yet, but have paid - attend to our side business
merely against him. When as it takes him away from
with he paid the \$300, ~~and~~ but work in the office, and
~~but~~ you left ^{in his hands,} business is very slack in
my month, he told me that need more in the job office,
with he was trying to sell so that I think for the party
the account, he has not done three weeks has made any
so job. I have not attended little, stopping me to write
to having the weather, scale of the little money I had paid

by for the ~~total~~ ^{day} says \$40.00.
But I have positively made
up my mind to keep \$20.00
come what will, I have that
much to-day, and want very
much to keep it for Christ-
mas, in case you cannot
send us more, but we all
hope to have you with us,
but I think it will be a
very bad move on your part
to come to San Diego at
this time without means to
pay what we owe, as every
one expects to be paid, and
they will trouble you very
much I can assure you,
as they will in a while trou-

Darling Papa

Mama received a letter from you a few days ago. She also received a letter previous to the last containing the Magic Needle Threader for which she thanks you. I think the sample of waterproof is very pretty. The club had a ~~little~~ Surprise Party at the School Teachers last week. We had a very nice time. I hope you will return home soon. As I cannot think of anything more to write I must now close

From your loving Child
Corinna L. Whaley

San Diego. Nov. 15th. 1874.

Dear Papa.

I now take up my pen to write you these few lines. I hope you are in good health. If the piece of blue that you sent in the letter is the kind ^{our} your cloaks are made out of. I think it is very pretty. I wish you could get home before Christmas, it would be very nice to have you home. I hope the Youngs are well and I send my love to them. I send my love to the Puffers. I would like to see the Youngs and the Puffers and Papa very much. I must now close my letter. from your affectionate daughter

Violet Whaley.

to feel that really you are my own -

Assure our children that they are very
precious to me and that they, as well
as yourself occupy my most constant

more than to see them. I hope they
are good to you - obedient and
 strive to lighten their poor case as
much as they possibly can, that
you may never come from other

the usual friends - and a pleasant

but being 5 o'clock and the boy
wishing to shut the office must
now say an affectionate farewell
to you and the children -

letter from you on the 10th and
I wish to induce that they might have

remained for a few days - or at least one
or two, but as the 10th is a good reason
and every day increases the sim-
ple of the blockade of the sea
lower ranks of society and course than
to do so but as an answer for the
parties on the account as they can find
seems. I hope they will consider
by how and when they can be
the same thing and have the same
parties and persons to be present
an account of me. I am very sorry
not to have been able to return with them
as I expected to do - but it was necessary
to be in the city to do so with out
to our interests here. I must remain
to speak of things or else nothing
would ever be done. I do not
think that I may be able to do
of me & my other and am very

in time to partake of Christmas or
New Year dinner with you - In the
evening of the 25th I was at Libby's got
your last letter of the 15th - I am sorry
for the disappointment in not being at
home to partake of Thanksgiving dinner -
It would certainly have pleased us
doubtless we should all have enjoyed our-
selves - But to make up for the disappoint-
ment and that which may come if I am
not with you Christmas or New Year - we
will have such a glorious dinner whenever
I do return be it sooner or later, that shall
equal a Thanksgiving, Christmas and
New Year dinner combined - So do not
despair of this grand affair which is
to come off & postponed for a while -
I certainly shall be with you without
the least delay on my part and prom-
ise you and the children and any
all including friends a hearty greeting
with wishes of good heart and blood
no fear for me - I love only you
my dear little wife and Gborg

More will tell you all about it as
she gave us considerable of an in-
terest and to me a persuasion to visit
Countess and her husband. - Then
we met Mr Young on 11th to whom I
introduced Mr Webb - had time to exchange
only a few words - Then we were at the ac-
counting when I introduced him to Mrs
Haskell and Mr Ridgway - The latter of
whom he had seen before - with both these gentle-
men he had a long talk and as there was
nothing doing before the Auditor, but to wait
got fully posted in regard to my affairs.
I also pointed out to him Willie Steadman
his father who came to hear the accounting
but left no word than when they came - He
went next at several newspaper offices to
get papers having articles upon Henry &
in reference to Texas & Pacific R. R. -
Then saw Webster - then at the office
of the Texas & Pacific R. R. Company where
we got maps pamphlets, and consid-
erable information. We wound up
by purchasing for Howard the Rev-

even David & the Rev. Mr. North - and
proceeding from hence, I had them
the expected time - and the very same

Mr. Worth arrived here Wednesday morn-
ing and as he had no business to attend
to whatever, he left the same day in the
afternoon by the O. & C. train from New
City. He will be back by the way of
N.Y. only to see me. I was very glad
to see him and Mrs. Worth. They appeared
that morning and on the way when
the steamer from Providence arrived at 11, he
having notified me of his coming. Mrs. M.
is looking extremely well having gained consid-
erably in flesh. After getting his comfortable
located in the Providence Ferry Office and the bag-
gage checked - Mr. & I set out to see
and explore all we possibly could in a short
time. We went up Broadway as far as
Madison to the Restaurant where I got my
meal - saw Mrs. of the municipal home
dealer, one of whom during the longest sea-

Ma dear Anna,

Joe has just told us
of a young Lady who is going to
San Diego tomorrow. So I will
write you a few lines to let you know
that we received your kind letter
and are glad that you are all well
& that To. has rose as last.
We both are pretty well; Amelia has
two or three Scholary more & I have
none. I have not heard from
Peter lately but I am going to
write & will tell you in my next.
The young Lady is an acquaintance
of Joe. She will have to introduce
herself to you for I have forgotten
her name. Kiss all the children
for us & much love from your
affectionate Mother

Dear Lady

Allow me to introduce to you Miss Eugenia Jones; a most estimable young Lady, who goes to San Diego on account of ill health - to spend this winter. As she is a stranger in S. D., and knowing your hospitality and kindness, I have taken the liberty of sending these few lines; feeling confident you will make her feel at home, for Old Lang Syne. I called on your Mother and Sister yesterday, they were both well. Your Mother gave me a letter for you with Miss Jones has kindly taken charge

if I could still believe to you in person.
I have no need of importance to give
you. I am dead in a larger blank.
and nothing is knowing, and that is
what I'll I can say for myself.
I give my kind regards to your family
who if you see Mrs. Fisher remember
me to her.

New York, Dec 21st 1874

Mr. Sec. Wife & Children.

Your Cousin Corinne has returned from Paris and is stopping at the New York Hotel with Mr. Young and the children for a while, till they can find suitable furnished apartments. They are all well and your cousin is looking extremely well considering the many troubles she has had. I am now sitting in their parlor with Corinne & the children. They have gone to bed - while Mr. & Mrs. Young have gone to look at a furnished house. I am as welcome as ever by them, and in case they go to house keeping, they wish and to come and live with them, that is provided I am detained here longer when I shall be much more comfortable than I am at present in my miserable quarters at the Erie House - I hope I shall not be detained here much longer as I wish to return

know to you. I am very much obliged especially
not to be on the way now able to reach you
the first the holidays, as I thought I would be
able to do - Parting has been during my
ear since you return left the Kensington
yet having no other job offered upon either
part which always the accounting from go-
ing on, and I am this winter the
which I expect to receive. It may be I
will not get the same will have to wait
till after the accounting, before I get anything,
the 4th or 5th have included. I thought I'd go to
London if what is coming to me I might re-
turn home, may I be in need of something else,
make you all comfortable and assist you
till the time to get the same. What in-
formation to say what will be the result of
things. I am truly making up the accounts
as far as I can to add it my lawyer in
the accounting whenever of them go on. Do
not expect that anything will be seen till
after Michaelmas. I know you will expect
very much about yourself and not having any

know before the holidays, but not more so
than I can - I give the rest of your money
very much and shall not be able to
grant my mother the least penny or coin
either for the money which she is willing
has come in and my family. She will
now get very short of money in due time
of all the remuneration of the said the
not as large an income for the support of
the expenses it will be in some part of
those and give the old opinion of returning
how before Michaelmas so much of I had
a few more of my money, and then about
out you down of it to have access now
take and have a letter the children's
have a great fund. I hope however with the
little money you have on hand you will be
able to do something more for the same
last year and notwithstanding the short-
coming in and having on with and to
have a **credit** position. As for my
self I am very badly off in debt for
my own and working and with less

Than a dollar in my pocket. Mr. Moore let
me have some money \$21.00 before he left
which I thought would be enough to last
me till I got some of my own. Yesterday
I asked Mr. Hurrell to loan me some money
and he has promised to do so tomorrow &
in case I get it will send you some, though
it will not likely reach you before New Year
I would delay writing this letter till tomorrow
but I wish you to receive it before New Year
and then there is no certainty that I will
get the money from Mr. H. tomorrow. It may
be several days before I get it. I will how-
ever send you some money as soon as I
get it as I know you must require many
things. I hope the trunk sent this 17th
November arrived safely about the 5 or 6
of the month and that you have your furs
and the children their cloaks which
will probably with the other things be all
the presents that you will get. I am sorry
that I could not send your old hairdresser
and something to Frank, but it is now

possible for me to do as for lack of means. But
as soon as I get money will do so -

I am anxious for the payment of taxes.
I spoke to Mr. Moore about paying them in cash
I did not get money in hand - I hope that he
will pay them before the 1st of January before
the 5th is put on - Mr. Ballou wrote that

The County & State tax is \$49.91

City

13.35

payable from Nov-1. to Jan 1. 75 \$63.26
The 5th of Jan's days accounts on that day
and so on after 20 days notice -

I must pay before the 1st of Jan 75 to
save the 5th I hope Mr. Moore will pay
before the 1st of February, and save the
expense of advertising, in case I am
not able to avoid before then - as last
year I had to pay for my or fifty dollars
more in consequence of not paying in
time. I will enclose a line or two for
Mr. Moore which let Frank know him
as well -

I am sorry I cannot write you down
thing during for megras. but it is impossible
for me to do so. I have not heard
from you since the 25th Nov. you

I have not heard from you for a long time and
 I have been without hearing from you several
 at Mary Gibb's last evening - no letter from home
 I know not how to account for it except that you
 are so sick as not to be able to write. I am very
 anxious indeed to hear from you and feel each
 time as I do I shall feel very uneasy - It
 is a long time to find I write you - The last
 being the 3d not enclosed in one to Mr. Clark
 and I expect by the time you get this you
 will be as anxious to hear from me as I now
 am to hear from you - I have delayed writing
 expecting to hear from you and hoping to have had
 good news to communicate - I write now only
 because I know you would expect to hear from me by
 New Year and being much disappointed should
 you not - The Profess are well - I dined this Sun-
 day before last - then chided me and love to brot
 Helen - I read their last letters to them - Linda's baby
 grows nicely - It is a cunning little baby - Mr. Young
 says he loves to you and hopes that you will make
 her a visit one of these days - He writes you
 to write to her - With love and regards from
 me and all our children, and for being your happy
 Mother Martha and that we may soon meet
 - and you and your affectionate husband.

why need you to run to the doctor - let him drink to you good health

Friend Whaley

I have just been talking

with Capt. Geo. B. Myerson about our San
Ysidro Land. He says a Land Commission
to settle land titles in the "Provincias"
here from Mexico in a few days - the
Mexican Congress appointed three men and
appropriated \$6,000. = to defray expenses. All
ranches he thinks will be surveyed and
cut down to ~~the~~ exact number of acres
or leagues to which they are entitled.
He thinks also that San Ysidro will be cut
down to six leagues ^{of course} and that the lines will
be a long distance inside of the boundary
now claimed by Lopez and that if Lopez
is willing to act honestly by us he will
locate the center of his ranch so as to
include our tract, but if he is a
rascal he will locate it so as to throw
us out. He says further that it is
generally thought that a foreigner can
not hold land within 20 leagues of the
line, and he offers "if we have confidence
in him, to take deeds from us and
when the Land Commissioners are locating
the lines of the ranches, he can counsel Lopez

good it will do San Diego.

The Central Pacific people say that some day they intend to build from Oriskany down the coast to San Diego, but first they will have a line from Los Angeles to through San Bernardino to the Colorado river.

Well to change the subject, everybody is talking of going into the bee business. It certainly was very profitable last year to those who had entered it and to everyone, in fact, for I have heard of no failure. A Mr Watson brought down from upper Cal a last March 7th swarms of bees which were in very bad order when he arrived here, he took them out in the neighborhood of Clayton & Witherby's old places, and during the season they made & he sold over six (6) tons of honey for \$2500.

This is not an isolated case but there are many very many just such cases. The question arises. Can we sell all we make? It will have the advantage in quality and appearance over all other honey. Judging from the honey I see here, pure honey, Perren does doctor his, badly - I should think it was half "Glucose".

Your folks were well a couple days ago; Frank appears to be doing well, every one speaks well of him. There are a great many mistakes in the tax receipts this year. I will pay yours if they wholly do not.

Your truly E. W. Moore

 of the way. I don't know

can do. You at your leisure. If you wish to see
out end of the lines out in the night garden
for you want you can do so. I am perfectly
sure the two legs for hands? The least amount
each of a heavy fund our area as good
as need - cost \$100 - I suppose nothing
in looking out of the packages brought
with this exception of a few feet - that
one must be very heavy and that is why
my expense of \$100 - I don't believe
harder & I have ever seen it. It is
large for 100 lbs. I suppose the King's
matters make down arrangements with the
holders to sell it to him of course with them
on sale - or arrange with him to get a
small of good clothes from him in exchange
for it. He can do so if you should like
and he would - then you look to for me -
but must have any thing in the way of my
that he can use - amount, sorry as I am
as with all as you must look to demand
to have in the case of the goods
from King if you should see the

think that perhaps in currency, but as
you have paid it also it makes in
expenses. I suppose like to be
a nice suit - that and perhaps
but I hope so long and extra dinner
for the night because the rest of us
getting a few. I don't bring you anything
more than \$20 - I also in hand
a nice new day jeans, there are hands
them found eating on the same street
that have been used only a few months
are good as good as \$250 - I also
with to get a double bag of down
thing that will allow me in my need
take business and stop in to receive
in. and I also intend to get a dressing
machine - while you the same you like
for good & better of them & I will
the capital business amounts - there
in as many times it is all over
order. If you want to keep money then
through to make out down for the
case I get see the money deposit
