My dear Mrs. Mary Smith -  
I am writing to you in the  
most anxious manner - that he  
has been very ill and is now  
in a very dangerous condition.

My dear Mrs.

I have not quit writing  
yet to you as you appear to have done.  
Regarding to my diary I find you last  
received now so was dated the 20th of  
the same month. And Mrs. Smith  
has been very thoughtful the children  
most recently through George whose  
letter of the 20th Dec was received  
yesterday and all he says is that  
"all the folks are well". And indeed  
has been from you in your account.  
Thank you received the 24th December.  
I have written to you repeatedly  
on the 4th 20th and 25th of Dec -  
in the last of which I sent you some  
very pretty cards. I think of them?

in writing for your affection benefit, and

much pleasure. Thank you to be  
proud of having a mother who thinks so  
highly of him and I am glad to hear  
ing that he is enjoying himself and  
highly of his education. He has a system  
he tells being able to meet with in  
New Jersey. I have been expecting to  
for a long while, though certainly, I  
to be able to see that day to go around  
me to make calls, and when I find  
did not come I was very much  
painted and made on by a few

consequences. The does not bring any

the last with it from the station. I think  
the letter can be sent by the 29th of Dec. at  
the time and I think I will see to it  
I have been very busy for  
time when he will be kept busy for  
a while at least answering them. Had  
then been telegraph communication  
between him and John's father. I  
think have sent him a message  
to have come down next year but  
I kept waiting not doubting but that  
he would come the Saturday or Sunday  
day before losing the chance of  
writing to him. It has been out of  
the way place and as they get the  
P.O. but twice a week then is not  
much chance of communication.

I did not set down here in the P.O.  
communication with the intention of writing  
any considerable letters and therefore, I  
not do so as it is now time I was moving  
along the line towards my more humble  
abode. I have been suffering from a  
sore eye for the past ten days and  
have kept my eyes closed as much as

found loving wife, - who now fails  
to enquire about you, and answers  
as much interest in you as though she  
had really known you for many years.  
They were not receiving calls, however  
on account of the death of George's mother.  
But they are very glad to see me and  
always give me welcome. - George has  
been very sick for some time past, but  
expected to live, but he has recovered  
sufficiently to be about the house and  
with extreme care and caution,  
able to attend to business again.  
I spent the evening there, and had  
Frank here with me he would have  
enjoyed himself very much.  
But for having promised to see with  
Idea, I certainly should not have  
done so, on account of Frank's  
absence, and not feeling at all  
well. On the late afternoon I  
commenced writing and

possible this being the first evening I have  
been out anywhere since New Years I  
had to take extreme good care of myself  
knowing that in case of being sick I  
shall not have your kind attention  
to restore me again. I made but  
one New Year call in N. Y. and that upon  
Mrs Macomber an old friend of Mrs Youngs.  
Mrs Y did not receive calls being too high  
toned to do so in a boarding house. She  
expected to have passed the day with her  
daughters in Phila, but for some reason  
son or other did not do so - I made  
the call in Broklyn upon Mr  
Cushman an old California friend, a  
49 yr, a widower with two grown  
up daughters and two old sons -  
upon The Gitts, Annie being the  
great attraction there, a young  
lady of eighteen with lots of beaux;

My dear Anna.

Since I received  
your letter dated Dec. 13<sup>th</sup> I have been  
sick & your sister also, & I should  
have answered, but not feeling able  
to write & expecting you every day  
I thought I would explain when  
you came. However, as it is now  
the 9<sup>th</sup> of Jan; & we have not seen  
nor heard from you since &  
I am feeling a little better  
today; I write to you to let us  
know why you did not make your  
appearance & why you did not  
write. You mentioned in your letter  
that W. was to be in S. F. at the  
end of the month or on the 1<sup>st</sup>  
now, let us know what has  
happened, for we really feel  
anxious to hear from you

Did he come & want right on?  
or is he still in New York? we don't  
know what to make of it.

Answer this as soon as you receive  
it, for the suspense is worse  
than reality.

How could Frank be in N. Y.  
& not come & see us! We both  
felt the needed enjoyment! but  
I must remember that I am not  
Frank & Ma & Phoebe. And we  
cannot! there will be no  
Lansuit about what I do or  
behind & I will be buried in  
the quietest & the quietest cemetery  
we know!

She

Phoebe is not at all well! & has

a cold on her chest that don't  
get any better; that (Phoebe & I)  
business is tomorrow for her.

She thought she wanted give it  
up, but she has had nothing

to us for this past month! So  
that not being able to replace  
the Secretary in the City, she still  
continues until better luck.

poor girl she is worn out & disem-  
-aged! she has had a time to get  
her money! No more! they are  
praying in all the Churches, but  
none will come only when it is  
ready, & God only knows but won't  
tell. We must trust to Providence  
& keep quiet.

Phoebe

Now, my dear Anna, I will close my  
letter by wishing you all a happy  
New Year & prosperity. a much love  
for you my dear child!

May 19<sup>th</sup> 1877.

My dear Husband.

Copies of the 6<sup>th</sup> Jay came to hand safely enclosing lines "I think of thee," which I think are very pretty. You mention having written repeatedly on the 4<sup>th</sup> 21<sup>st</sup> and 28<sup>th</sup> December, I received but the one of the 28<sup>th</sup> Dec containing the pretty lines. "I think of thee" I have not yet received Mrs. Jay's new song the "Three Kisses" which I suppose is lost. I have not been feeling very well, have been very nervous and not in the humor of writing and being very short of money, having as you told

me to do, given the children a  
good Christmas and New Year  
holiday, so that I am out of  
Cash with the exception of 50/-  
plus-some, there is that for good!  
The Graham Bursaki is getting  
quite frugal, - about your most  
coming home, but still let me  
have 50/- each, but every time  
I send he wants to know when  
you are coming home. Your  
layers are deliriously, I thought  
Mark had attended to them,  
but it seems not, he says you  
said nothing to him at work  
nothing about them, & so he  
Bastard 4-day to go down and  
be made and ask him to  
fix them up, so that the job  
city money not be left next-  
month. I suppose that is why,  
why do you not wish to people  
and let them know that you  
are still alive? he are learn  
only just to have any last word

and people are preparing to come  
here to go to St. Angelo's. The  
that place is very arid. The  
small boy is still saying "I  
Mary (Carmel) about up there  
to school in the Convent, and  
love the small boy and is  
dead the dead thing of four  
days ago. This is the healthiest  
place - but - a cleaned skull  
stuffed and no budding place  
make, the bottom has fall  
in and now I think all  
we do here is to eat what  
we can manage to get, drink  
and sleep. we had a splendid  
rain, but it came too late for  
fruitfulness of cattle here dead.  
provision really was covered with  
dead sheep and ewes, and is  
all over the country, the money  
lost heavily - dig away in soil  
back, she was enjoying  
the other day. I am sorry  
it was not with you to

pay New Year's Calls, it would  
have been to his advantage  
I think. I hope you will do  
all you can to let him remain  
in New York for awhile at  
least to work, for things are  
in such a state here that  
I do not think he will get  
anything to do, and even if  
he remains it will improve  
him so much in his business.  
I am glad to think he is having  
a good time at his Uncle John's.  
Remember me to John and let  
him I have not forgotten him.  
You are the only one I like of the  
whole family. Has Henry returned  
home yet? I am also sorry to  
hear that Mr Puffer has been  
so ill, and hope he is well  
now. Give my love to them  
both wife, husband and children.  
Corrine ought to feel very  
much obliged at the gift  
you sent me, or her

Opera, I hope she will realize  
enough to get them out of  
trouble, she is quite a genius  
in the musical line. I am  
so sorry that the song was  
lost, but as I had no piano,  
I could not know how to sing  
it, it would have done for  
me on the Guitar. I hope  
you will save every cent of your  
money, get a bag for that  
is absolutely necessary, the stage  
has stopped running now, so  
that we are prisoners. Do not  
buy any dry goods at all, no  
silk dresses, but get some gro-  
ceries in San Francisco. George  
says he thinks it would be  
a good plan for you to make  
me a present of all your  
money, so that you need  
not pay your debts now, but  
when times get better you can  
promise to pay them, I don't  
know but he may be right

for which will we have to live  
on if you pay all up. Other  
people have done the same  
here and are still thought a  
great deal of. We cut the water  
you believe wish to see  
very far ahead yet. You must  
take good care of yourself while  
you have that cold, as I find it  
hard to get rid of a cold when  
I have one. My health is not  
very good some times I have a  
terrible pain with the Pills and  
my bladder, I suffer very much  
for several days at a time,  
but by constant closting my-  
self, using Prævic salve, the Pills,  
and some Oil and Ointment  
boiled together to form a salve,  
for my sores and bladder I  
after a few applications get  
to feeling pretty well. I am leaning  
on this diet and eat Graham  
bread, Apples, Apples and such  
things which keep me all right

but I cannot get over one of these  
things at the Station, at the  
House, but now my money is gone  
and I must do without them  
till you send me some by express  
and I shall hold on to it this  
time for no more notices shall  
take it away from me. I shall  
have to get more wood and  
wood is very high just now,  
but we are obliged to have  
fire at night it is so cold. So  
if you can possibly send me  
some money I know you will  
when they perhaps do you think  
of returning to us, we speculate  
upon the time you will come,  
and since they you are on the  
way, but I'll tell them you will  
let me know when you are  
coming. I shall be very glad  
to see you when you do  
come, even if I am not in  
very good health. I hope you  
Angel is well, give

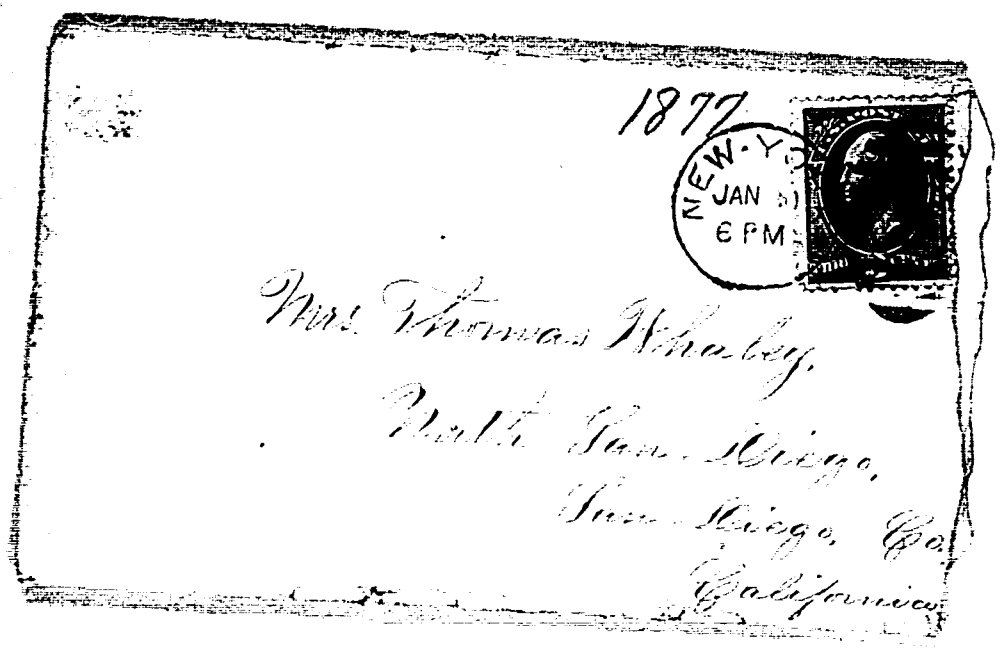

her my love and tell her I  
would like to see her very much.  
If you can dear poppets give  
her a kiss for me if you like,  
and the children too. Has  
Mrs Young returned yet from Europe  
? I do not receive any more  
tea, have lost several packages.  
The children are all well  
at present and send much  
love and kisses to you. It is  
clouding up and I think  
we will have some more rain.  
The grass is all springing up  
now, and if we have more  
rain the country will look  
green and nice. So with  
much love to you, and  
hoping to see you soon and  
relying upon your constancy  
and devotion I am as ever  
your loving wife

Small Pox over

the country

New York, Jan. 29<sup>th</sup> 1847.

Dear Mother:

I received your letter to us dated, January 19<sup>th</sup>, to-day, in connection with a postal card from Mr. Daley, to myself, announcing the death of my lady friend Mary Sumner, of which you also make mention in your letter. The announcement surprised me, for she is the last one I would ever think of dying of small pox. Make it known to Jim and Bill, and also the family that my sympathies are with them in their late bereavement, as they well know. Tom tells me that Christina has come back to San Diego; remember me to her. I hope she will not be made a victim of that terrible disease, coming from the convent at the time she died. Emma's paper in Los Angeles while I was there, but I thought by this time it had vanished. Small pox is at present raging in New Jersey City, opposite New York, with some fears of its spreading. I hope you will take the greatest precautions against it.

You say in your letter that all railroad projects have failed, on the contrary, to-day was appointed as the day for trying to bring the bill up from the foot of the eastender, which must be done by a two thirds vote, and if so, a day will be appointed for the consideration of the bill. There is a great deal of excitement in Washington to-day; all wait for

He treated me very kindly; - excused me down the stairs  
 asked me to come and see him and grandmother  
 whenever I felt in the humor. The boys find what  
 I can hear, do not care much about seeing  
 me. Never mind nothing, I do. I have met some  
 very nice young ladies connected with the family.  
 Some I have taken quite a fancy to.

I saw Mrs. Young yesterday, she wishes to be  
 remembered to you, but only wishes you were here.  
 Bee proved is going to be successful. They have  
 had a meeting of it, before the proprietors of a  
 theatre in Brussels, she says he will take it, pay  
 all expenses and will give her five per cent of the  
 profit; all that remains to be done is the signing  
 of the papers, which by this time is probably  
 done. Mr. Young is feeling very jubilant over it.  
 He is very curious you have not received the song,  
 as it is very pretty. I guess by this time you have  
 it. You must get Miss Lane to bring it for you.

Mr. Puffin is well and out again. I have seen  
 them all. They are very nice people. Mrs. Puffin says

send you. If the bill is taken up by construction  
it will pass, though you will know before you get  
this letter. I think the prospect is good, as the Congress  
body that has ever worked on a rail-road bill before  
Congress, is not present, and being in favor of the bill, so on  
the papers of last evening.

The President has signed the Electoral Bill, and  
now everything will be favorably settled, I hope in favor  
of Hayes. A great many people here think he will  
get it, though there is not one man living who can  
say who the next President will be.

You say your funds are low, but I think you will get  
some money in a few days by telegraph, as they will  
sign the checks yesterday, but still there is no date  
being when things will be settled.

I received the other day a letter from Mr. Busby-  
head containing a letter of recommendation which  
I wrote him for some time ago, which may be of some  
advantage to you. You say there is no possibility of  
my getting out there, and as I am not here, what  
am I going to do; though I think I may get something  
here. I am going to commence soon to look it up.

I have seen my grandmother, she was very glad  
to see me, and asked me to come and see her when  
I get back to the city. She was very kind when I came in and when I  
left. She is a very good lady, I do not think she will  
live long. I am sure not a word about the family  
misunderstanding. I am acquainted with all the  
children. I saw my "dearly beloved" aunt, Howard, also.

she almost knows you, for she heard so much about you. The little girls are almost crazy after Violet and Lillie. They all want to be members of the family. Mr. Wm. P. is a nice young gentleman whom I think a great deal of. His face seems more like home to me than any I have been yet.

Lately I have not gone around much on account of a lack of funds (you see) but hope to start again in a few days.

Remember me to Mrs. Soley and Tom kindly, Mr. Ballou, and my friend Mrs. Menzies, who thought so much of me when in San Diego. Remember me to all my other Aunts and gentle men friends tell Mr. S. I write to him this other day excusing myself for neglect.

All friends and acquaintances, relatives, etc., here wish to be remembered to you. Remember me to the Calcutt's family kindly. To the children, Annie, Violet, Lillie, and George, give them my love, I will write to them soon. Hoping an answer soon, I remain your true son, friend, and ever,  
T. H. Whaley  
Father and myself are well. He wants to get home.

The first thing I noticed when I stepped  
 out of the plane was the fresh air. It felt like  
 a warm blanket after a long winter. The  
 sun was shining brightly, and the birds were  
 chirping happily. I took a deep breath and  
 felt a sense of peace wash over me. I had  
 been so stressed lately, and this was exactly  
 what I needed. I looked around and saw  
 a beautiful landscape. The fields were green  
 and the trees were tall and leafy. I  
 felt like I had reached a new world. I  
 smiled and felt a sense of joy. I had  
 finally found a place where I could relax  
 and be myself. I took another deep  
 breath and felt a sense of calm. I was  
 home.

New York, Feb 16th, 1894

My Dear Wife.

Your letter I had came to hand the 14th of  
Valentine's day. I am glad to hear from you and the  
dear children - that you are all well and <sup>have</sup> received the  
\$100 which came in the nick of time. I thought when I  
telegraphed that amount to you that it would not be long  
before I should be able to leave, but nothing since has  
been done except in making efforts to make other useless.  
Henry is extremely disgusted and his life returning  
leading things unsettled. We hope to get things set-  
tled up ~~the~~ soon but I anticipate that there will  
be delay and expense, that will endow us with  
of the little coming to us in litigation. Today we  
met at Pitkin's office to make a distribution of some  
money in his hands from the collection of the \$200  
note & interest which is reduced to \$1304 for air wire  
You will remember at our last settlement John Hardy  
& I received \$200. less each than Harriet's we were  
they to be made good to us now from the \$1304 and  
then divide balance between you - Harriet  
her husband & Prigway was then objected  
to this upon the ground that we had received  
already in your past more than she had and  
with a the \$1304 divided equally. The object is  
to have an accounting. It would not accede to the  
proposition so Pitkin will place money in n.c.  
Trust Co at 3% per annum to abide court. The  
claim she has no right to go behind the agreement  
of Aug 30. 1892 which provides for the settlement  
of all differences between me & her

children, and the division of all property from  
him as tenant in common - He cannot make  
another app. neither can any other make the  
other app. This agreement was for the settlement  
of all differences. A quorum and provision for the  
issuance of any order by the Surrogate to enforce  
the settlement of the same. As Mr Piper will  
have the necessary order issued - which will  
meet with opposition and take time - the object  
of Ridgway is to retain as long as he possibly can  
make a dollar out of the estate. He is a custodian,  
the \$1000 of interest on mortgage amounting to  
about \$1300 - we fear is a total loss - Henry & Child  
sold out our off out for \$100 each, but the man  
backs out. No distribution of the money in the referees  
hands has yet been made owing to some of the purchases  
of Bridgman property not having paid to the extent  
of \$1000 and the property may have to be sold over  
should this be it will require two or three months longer  
to settle up. It will apply to Court to have a power  
to make distribution of the amount on hand  
leaving the unpaid portion for future division -  
We fear too some more on the part of Ridgway and  
the firm of an injunction ~~and~~ restraining a referee from  
making distribution owing to the accounting  
quit which Heiss wishes to bring - This can be  
no ground for such a suit, but it will make uneasy  
and expensive, further the estate away. Neither  
is occur in his annuity, \$1200 per annum and paying  
\$100 for Government. My husband when I was  
a child. Can tell better in about two days.

Dear Father

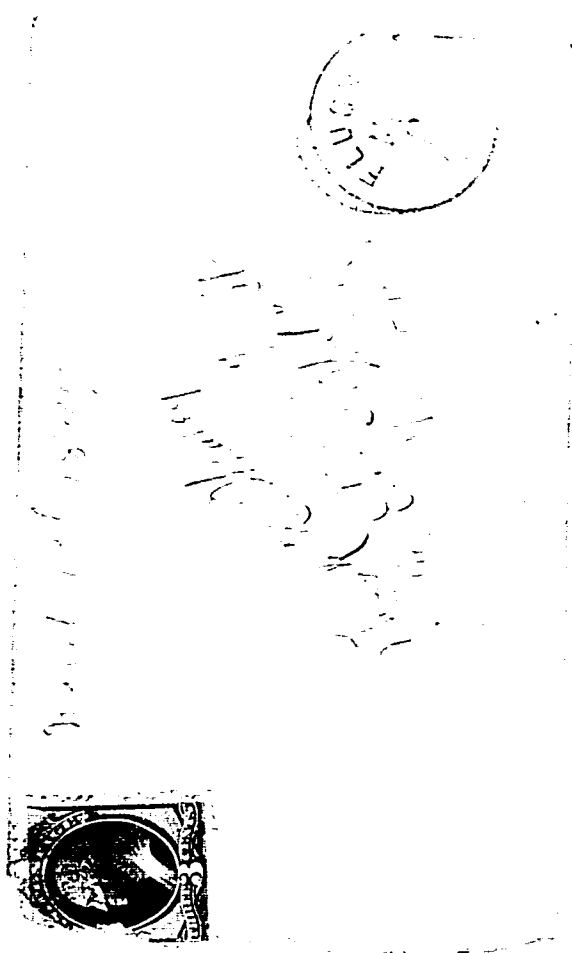

I arrived in San Diego on  
Sunday evening, the 24th inst, and after  
and search, having a very pleasant  
trip across the continent, and catch-  
ing the steamer for San Francisco in  
time for my home. I had in all hands

safe. I have not much to write as I  
do not think it necessary to write and  
I have not much news to write

New York, March 2<sup>nd</sup> 1877.

Friend Young,

I wrote you February 27<sup>th</sup> of the death of Judge John W. White who died the day previous at about 3/4 pm. Yesterday he was buried in Woodlawn Cemetery. The funeral services were had at the Dutch Reformed Church, the Corner of 29<sup>th</sup> St and 5<sup>th</sup> Ave. The funeral services were very impressive - many friends assembled, all of whom took a parting look of our good old friend the Judge. By the 3<sup>rd</sup> the funeral went, from the Grand Central Depot, proceeded to Woodlawn where his remains will probably rest in the family vault his last home. There he the father of a devoted husband father and friend. There at the house as well as at the Church. When there were many mourning friends, besides his family, amongst whom Andrew Heywood, Pettibone, Bush, & the Judge lay in an elegant new wood, silver mounted casket surrounded by a great profusion of flowers - Yours Young was at the Church

much affected in feeling, as much so as any  
person, I believe present. After considering the  
case of the Judge, I put one to the particu-  
larly men which you are aware. Should you  
oppose his revocation and proffer to be ac-  
cused, and they are more likely to win the other  
the opinion of an arbitrator, relative to the way  
it is with you away from them than though  
you were free - of course nothing material  
has the Judge has left to humanity. But since  
what he takes on one day in consideration  
with him about your affairs, I should judge  
that the man who is which he has much to  
say greatly remembered over the probability  
is that upon receiving of his affairs then we  
remain but little for his humanity. This was  
made of your way or may not be aware.  
After Young says he is now somewhat  
which the law had with the Judge the law  
and think he has left much of an estate.  
The amount which he owed began with the  
law. After remained unpaid. I should  
not know if he left a wife and two children

to give to you - How was in what man-  
ner you will be affected by the death of the  
Judge remains to be done - I know of no high  
day in his hands belonging to you, except the  
Mortgage assigned to him by that person the  
payment of \$1000.00 for the redemption of the  
Mortgage bond and joint mortgage between  
by him from those said the amount being  
upon which he carries \$100. to the Young Son  
finally I know all about that mortgage  
and about other things I wish to see right  
with you at the time. I wish to see of great  
value to you. After that this you had an amount  
ing, though not exactly a settlement with the  
Judge up to certain time - and what he has  
done for you seems to be comparatively trifling  
benefiting to him in respect to some things which  
he pursued and ought to be taken account of the  
administration of the deceased man's business  
which remains undisturbed to the day - The nature  
him of every mortgage till after many years  
might be in favor of some existing to you.  
The other subject of settlement with the other

and allowing note paper to be protested  
and the rest of 14<sup>th</sup> 16<sup>th</sup> & 18<sup>th</sup> remain-  
ing unpaid till the present time ~~the~~  
besides I do not think the interest due on  
Mortgages has been attended to as it should  
have been to ensure prompt payment. ~~Yes~~  
and there may still be other things which  
he might have done left undone. I do not  
tell you this for the purpose of censuring the  
Judge as I believe with the health and strength  
he had, (which generally has been very poor, in-  
deed this winter), the man did all he could &  
probably more than he ought to have done.

The settlement of Trade was to have been made  
on the same day on which the Judge died, the  
27<sup>th</sup> Feb'y. I made an engagement for the meet-  
ing some time previously. but whether he came  
to meet it is impossible for me to say -

Monday Mrs Young proposes to go with  
me to see Mr Spoke. to talk over matters, to  
get, perhaps, your papers in the possession  
of the late Judge. He did say something  
about putting your case & interests in the hands

of the said side. I know of no immediate  
party for this and shall advise her not  
to do so till she can hear from you as  
perhaps you may prefer, owing to the  
unsolved condition of your account with  
the said party to leave them with me  
Bosch or to put them into the hands of some  
one else wholly disinterested.

My intention is to give the execution of the  
rent from the premises, my immediate at-  
tention taking up the paper note and pay-  
ing balance to Heckerlin on a/c of rent.  
Also the collection of interest and mortg-  
age and arranging for a settlement  
with Spack - provided I can have the  
papers and am permitted to do so. Cer-  
tainly something should be done, in your ab-  
sence and things not permitted to go at  
times of years as they have been going for  
some time past.

Some time ago I gave the Sugga notice  
received in regard to a reduction on per-  
sonal property tax on \$5000. He said you

would not to pay purchase price by paper money, unless after discussion, a bill being made, and that he would attend to have the resolution made.

Nothing has arisen since I left the office last, but some not yesterday. I must write the parchment of paper, inasmuch as the latter has not attached it yet and the matter. Does the Commissioner, David Davis require your presence with James's consent to you and must attend before Congress. Doubtless as I cannot see return it before the 23<sup>rd</sup> day of April. Therefore these - no - you have accepted him to attend to the duty about the get it, do not return.

With some time of get together for next night. Just the property quality inasmuch and do not wonder the purchase of the stock as to purchasing in their instances where their paper paid as they require it for the mortgage of \$1000000 by them to being very interesting to be heard. I find that the paper requires

for 1843.  
for 1844.  
for 1845.  
for 1846.

for 1845.  
for 1846.

4499.80  
4796.00  
1846.80

Service without hope for 1846. I am often asked what were considered by them. And then as the law is in most cases, when time is paid, \$5000. The law is now becoming imperfect, and only for the but the paper, you having furnished over a year ago to have given the matter upon the law. I think that you have been able to pay \$5000 towards the purchase of the stock to be repaid the balance shortly. The even will not quite satisfy the law, as the law is not in the same way. They can not satisfy again, or not great paper at least. I have much to say to answer the stock share of the paper, and how you could possibly have neglected to improve a matter, it is quite sufficient to me when during the past three or four years you have at times had large sums of money in your hands. I believe have

though at you would have paid interest  
and taxes, and allowed, if need be,  
less important things remain unpaid.  
I deemed it my duty now that the Judge is  
dead and you are likely to remain a brood  
for sometime, to inform Mr. Y. The exact po-  
sition of affairs in speaking the house par-  
ticularly, and your business generally  
that is the way as far as in the power is  
the exigencies of the case. The dear little  
woman, God bless her, is willing to do any  
thing in the power. To sell Springfield  
The mortgages, the house even if necessary  
at a sacrifice to extract the rest of it but  
it is impossible to do anything worth speak-  
ing of mortgages at the present time  
except at a very great sacrifice and  
yet the question of doing something to  
~~obtain~~ obtain relief from the great press-  
ing of your obligation seems a matter  
into timely consideration, otherwise  
it may be too late and as will go to  
wreck and ruin and you will find

yourself in a week or two. If—  
Miss G. proposes going to see the  
Ludlow & Co. Company to see if  
they will not postpone the payment  
then demand for the payment of the paper  
for a year or even six months. They  
may agree to do so for six months the  
condition being the prompt payment  
of the same interest. But how she will  
be able to meet them, pay the Co. and  
the children's schooling and other demands  
I do not see how it is possible—particularly  
as the rent of 4 E. 29th St, the only source  
of income which she has is likely to be  
very materially reduced. It would  
well to get the extension from the Co.  
for 6 months at least and during  
that time make some extraordinary  
effort to sell Springfield for some price  
or other— to pay first the mortgage

Dear friend Frank.

Your  
kind and very welcome  
letter of Feb. 25. was receiv-

the contents read with  
pleasure. I should have  
answered your former  
letter, but in it you said  
perhaps you would be  
gone before an answer  
could reach you, but  
now, I'm really very  
sorry that I did not  
write anyway, especially

no you say them were we -  
I am not sure why you  
would like to have heard  
from me. Please explain  
them in your next letter,  
for you know the incidents  
of more than any show  
of civility from "Brother  
Joe". I am very glad you  
enjoyed your trip to St. St.  
I hope that you have found  
such a pleasant home  
so far from your native  
one. So you know in time  
to see something of the

Dear Brother,

I hope you are well and enjoying yourself. please excuse me for not having written to you sooner than I did. but I will hereafter promise you, that I will write to you once in two weeks I wish you would write to me once in a while. as I would be very glad to hear from you. as the letters that we receive from you describe to us in what kind of health you are in, and what fine times you are having. It is very hard for me to write you any news but I will do the best I can when I

aside to you. We are all well  
at home. The Smiths have ad-  
ed in my view towards Mother,  
especially Angelo Smith whom  
Mr. Babcock's day spent Mother  
few of the most beautiful children  
that he could buy and sent  
them to Mother. Angelo Smith  
was one of his family school ever  
stop in side of our house again.  
I have received a letter from you  
the other day stating that  
Miss Young had bought the  
Santas that she promised to  
you. and that she had mis-  
said it. and that when she  
finds it that it will be good  
I hope she has found it. It  
must be a very nice Santas  
because I don't think Mrs. Young

would make you a present of  
a Santas unless it was a good  
one. Little Polay in my letter  
I have expressed some anxiety  
that that when you hear  
me Polay you will not be surpris-  
ed. I have found to  
Polay by note very well. I have  
expressed a new Quadrille this  
name of it is the Victoria  
Quadrille it has three parts  
The music is very sweet both  
as say it is good enough to be  
wrote out in notes I would like  
to send you, the music you  
would like it very much. I have  
quite a nice garden. The trees  
are growing very fast. The fig  
trees are full of figs. I have  
quite a vegetable garden. This  
year a crop of corn a crop of

potatoes. and a patch of water  
mellons and musk mellons  
and a bed of pepper trees, raised  
from the seed I am a going  
to plant about 8 trees in front  
of the house next month I  
take very good care of the Bays  
every once in a while I clean  
it up I have also quite a grape  
vineyard planted. Please give  
my love to my Cousins and tell  
them that I would like to see  
them all. I hope that you will  
be well pleased with my letter  
so with much love to you and

Dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 17th inst. in relation to the above named matter. I am sorry to hear that you are not satisfied with the result of the investigation. I have been unable to find any further information regarding the same. I am sure that you will understand the reasons for this. I am, Sir, very respectfully,

My dear wife  
I have been waiting anxiously but patiently to hear from you not having received a line since Frank's departure before to day when you will tell of the 28th postmark the 30th morning one from Frank and a deed to correct error on one previously given him came to hand. I also received a telegram from Frank of the second inst, saying: "Advised with Moore we will remain properly conveyed Moore await important letters." Frank's telegram, which I could not understand at the time, gets receipt, I infer that "we will remain" and that you have conveyed property to Moore. I understood it at the time that "we will retain property conveyed Moore" - thought that the word "remain" must stand for "retain". Could not conceive why you should convey property to Moore when I telegraphed the 24th April "not to make any conveyance" - thought that the deed might have been made, and that you would retain them until they important letter, that is mine of the 24th, for instructions. I did not suppose that you would "remain". If you made conveyance to Moore previous to receiving my letter of the 24th April it may have been contrary to instructions contained therein, and you will have corrected any material error if any have been made which shall conflict with my wishes. Should you deem it necessary to do so - My telegram of the 24th was to prevent and to delay anything regarding the property being done till such time as you should receive my letter such the same day as the telegram - The words of the telegram from Frank, given above are an exact copy of the original and as no punctuation is given and I must hold that you could make any conveyance or that you would remain, I could not understand it.

The instructions which I had given Hunt, ordinary and by letter,  
I considered all sufficient, and that we could expect to hear  
about any arrangement of settlement which he might make, feeling  
assured, if the instructions were carried out, they would be correct,  
and, if impossible to do so, whatever he might do with ~~my~~  
mother's advice and your sanction, would be for the best, and  
so whatever you have done, even though there appears to be a mis-  
understanding somewhere, or whatever you may do, I shall be-  
lieve is all for the best, but I do not care to know, particularly  
at present, being so far away to advise, only I wish an ac-  
count of all that is done, kept that I may understand  
hereafter.

I have read and reread some letters, and can find no fault  
with it or with you, and am not in the least angry with you  
for the delay, because I am in serious or even though you should  
not come at all. In several things I could be wrong, my mat-  
ters and to bring you on my side, and I think I was for  
the best. I could not possibly ~~write~~ you, not having money  
enough to pay my debts, and in case of parting with  
what little I did have, I could see no prospect of making  
a living in New York, to live from all accounts, everything  
was so extremely dear; and in my last letter, the only  
provision for my departure, was to shake up my heartrending  
from the manner you had been treated, I determined  
that you should get in mediation out of the reasonable  
time when you are within your life, and in some other  
it has been thought to be in consequence without any  
advantages whatever for education. I did not think  
my chances so good in San Francisco, from which I  
have away so long, as they might be here in New York,  
when I have some friends and am somewhat known.

 but the landlord would not, so he has determined to do the  
 furniture for what he has it with notice, pocket the money,

 lord whistle at her for the rest. I am in charge  
 of the furniture, since she is going and expect to be here next  
 or the next time as the horse is rented. The auction will  
 off in a few days from now - for the time being I have things  
 very comfortable, the best room in the house, having vacated my  
 drawing quarters at the Erie House, I have the kitchen  
 with the cook to provide the victuals. Every day Mrs. G.  
 comes with her children and runs and runs  
 nearly all day superintending the arrangement of the  
 furniture - and I am at the horse all the time that

 pleasant enough, and am determined to enjoy them whilst  
 they last. She has been delighted with the idea of your  
 coming and anticipated great pleasure in seeing you.

She has promised me very many things and the  
Eau of all that did not see it satisfactory prices -  
So that with what she gave and loaned we should  
not have been required to spend much for her  
keeping articles - She had also determined to get down  
to the farm to welcome you and have brought you  
direct to the house 14 W 16 when comfortable rooms with  
The furniture given and loaned would have been provid-  
ed for your reception, and when you might have  
remained till the first of May, thus enabling you to  
recover from the fatigue of your journey, and at your  
leisure have seen the rooms either in New York or  
Brooklyn as we might have determined - She was  
too counting so much upon your society for consolida-  
tion and in a thousand different ways she was  
planning for your comfort and that of our children  
as far as in her power to do - All these things to  
advantages you will now miss by postponing or not  
coming at all, and I very much doubt if I shall  
at any future time be able to make you <sup>reception</sup> anything  
like as agreeable as I might make it now -

Your Cousin is a curious not a heated woman as

My dear Mrs. Norton  
I have just received your letter of the 24th inst. in relation to the Italian estate. I am sorry to hear that you are not satisfied with the arrangement made for the sale of the property. I will do all in my power to rectify the matter.

to want them, but I am apprehensive he shall not have them at quite his own price, therefore at the time of sale let Frank get someone to bid on them and buy them in, unless they can be sold at a price which shall be satisfactory to you. My price of £100 at least - though probably they can be bought in for less - Frank will furnish the money and on the scales which he can afterwards sell or private sale or arrange with some one to raise them put by Mr. W. Steward Esq. but the thing must be done very quietly & the Italian shall not be told of it or he will run them up upon Frank's head - I will get him what he can but the scales probably he will go for the real estate, and it has just occurred that is the reason the conveyance was made to Morse before writing to you my letter of the 24th inst. that I should have written to you as early as possible and before the time of redemption Frank can redeem it and take all the property & give to the Italian as I have no very exact idea of the value of property at the present time: I am surprised that any mistake was made regarding the list in book B, as I should have known perfectly the number - I have signed and acknowledged the deed and enclosed it herewith to Mr. Staley in Frank's instructions in case he is not in New England in business.

It is very late. I have written long letters. With you be write me offener in case you doubt come on - Remember me to Morse tell him not to be so afraid and sensibly he is things will come out all right with in future. With love to you all and many kisses from your dear husband I should be happy.

meeting all other expenses & then I signed her to do coming she was greatly distressed upon having you a true and steady foot for intimate, as I trust some delight to advance you for her to do I had a letter to which she listened so bad that you should the conclusion should be the being but they might en about it - It is a great possession an intricate & generally correction could did not approve of, even ly satisfied to a tide by almost invariably right and that I should not see. I know you would be a safe person to do so - to take your advice about such, and having pro by you in every thing as I should above the you, this my dear wife the conversation with of me feeling and you disappointed, yet a with you and a few letter over and over.

and than probably it will be better for you to remain where  
you are for a time - I have very little money, not quite  
one thousand dollars all told, which would be very  
little to provide comfortable quarters for so large a family  
as ours and to put bread into their mouths for all  
length of time - whereas by remaining where you are in  
the comfortable house, to which you seem to have be-  
come so much attached as not to wish to leave it the  
good destruction, the money which Frank took will  
provide you all with many comforts and with economy -  
last a considerable time - I wish that the great dis-  
appointment of not being my dear ones - and were there  
to get into some thing, through the chances are not very bright  
indeed there being so many in this great city - the money  
I have I will take good care of - live very economically in-  
deed - and it may be I shall find some opening for the  
employment of myself and the little capital which I  
have which will enable me to make money to provide  
for our support - whereas were you here I should  
be compelled to spend all immediately for going  
to New York - you will invest the money in some way  
safely upon the best of ample security so as to produce  
some interest to be paid to you in whole or in part  
whenever you shall require it - the money is yours  
and you shall have the right to employ it as you think  
best for any purpose whatever - and if I get employment  
and have no occasion for the money which I have I will  
send that to you too - so that you will have about  
\$2000 the interest on which will amount to \$20 or  
\$40 per month - I would write a letter on seeing a friend  
to a doctor or a friend of mine - get the money together

I could accomplish something for the benefit of all, but  
without you I know not what will be the result or that I shall  
have the power of doing anything. I have nothing definite

meanwhile assisting Mr and Mrs Lewis in straightening  
out their affairs. This has been my sole occupation  
for many months past, glad to have something to do to  
occupy my time and attention, even if it is to return  
home, even though I get nothing for my services except  
promises to pay for the hire of something in the future. They  
have been kind friends to me, doing me great trouble and  
it has been my pleasure to assist them as far as in  
my power; but their affairs are so complicated, and  
not at all so very clear, that even though they could select  
it would hardly release them from their present embar-  
rassment. Mr Lewis is in Europe doing nothing at  
present, though up to the present time he has been engaged  
in making arrangements in relation to his wife's affairs  
I should have said to return now, as in case he  
did that would be the signal to go to his door face. Not  
fearing his destruction, which is remaining abroad

New York, June 10 - 1847

Dear Wife,

Was up very late last night writing to you.  
Referring to my recent this morning I find that my letter  
and telegram to you was of the 20th March and not of  
the 24th as I have all along supposed and thought  
perfectly clear to me now - I understand Frank's telegram  
of the 2nd June about advising with you and concerning  
property to him, as before then you must have received my  
letter of the 20th and whatever was done, was in compli-  
ance to instructions therein, and the telegram was  
to give me no other thing - You were not fully deter-  
mined about coming at the time you wrote the 28  
recalling my letter of the 20th to decide what to  
do and as you get to within two or three days  
after writing and before Frank sent the telegram of  
the 2nd I now understand what he means by "we  
will remain" - You have decided not to come,  
have arranged my affairs or will do so in arranging  
them and will probably expect me to return  
after notifying me, unless in the meantime I  
get something permanent to do here in which  
case I take it for granted you will be willing  
to come. I have no particular desire to re-  
main here, would much rather prefer return-  
ing to California, and if the prospects improve  
to San Diego.

Mr Young writes me that he expects The Con-  
sul Generalship to <sup>be</sup> given, and in case he goes  
I had <sup>to</sup> name me the position as his Secretary,  
and Mr Young in the event of his going - being

Write down and give me your response  
immediately in an hour. I shall  
and other given the other parts of the order  
completely then, but from the office of

a success relative in taking charge of the business  
management of it and will pay if able sufficient  
to support us all very comfortably in Europe dur-  
ing his absence then in the large hospitals and af-  
fluences in England and America. He has very  
great hopes of success with reasonable prospects to  
follow. The G. writes me that a new opera lately brought  
out in Paris, which is far from being as good as this  
having but three real good acts in it, whilst his is a  
succession of ~~five~~ <sup>four</sup> ~~scenes~~ from beginning to end,  
gave us gross receipts in nine weeks of 5,000 francs.  
Theresa ~~she~~ has realized as much, she is composer  
and owning the libretto, would be entitled to receive  
about 9% upon the gross proceeds 33,750 francs equal  
to 36,750 fr nine weeks, but suppose she did only half  
as well, it would not be then even so inconsiderable  
sum. She will leave her in Italy to perform her  
opera to come out in Nov or Dec. The contract is  
made with one of the leading theatres of Brussels, and  
to see do they think of it they are certain to be successful  
at an expense of between six and eight thousand  
francs. As soon as she finishes things a success should  
send for me to come to take full charge of the business  
management of her affairs and she hopes to see you  
with her. Be this is uncertain. Theresa is depending  
on it, still it may be a waiting. We then I understand  
that you are not coming I can quietly resign myself to  
my fate and do what I can for the best, hoping to  
see you and the children again soon. Don't let  
Stacion or any one get the better of you. With love from  
your dear old father's prospects. The Whalley

Dear Mr. [Name]

Am in a happy  
state of mind from your kind  
letter of the 18<sup>th</sup> inst, and with  
instructions now to present on  
our journey to New York, and  
the other containing the Board  
news. As to our journey, you  
in New York, the same course  
proceeding towards us as yet, only  
nothing has been able to be done  
more as he had been in the  
country and attending to our  
and the Union of the  
I have to wish that the  
list of our projects with  
a view of attaching it to me  
on this day, I surely know  
what to do, for I am sure

They in fact by all this "fidelity" are, born by the changes  
we suggested, especially in "mankind" our attention by things of thought  
could not only be understood by us but than the hair they say  
If we trace the events, enter the city at a fair price, find  
the, the "mankind" of the city of persons but the ordinary person  
of them worth of some name persons but the ordinary person  
he died, and of all over the best they make and (know)  
I have heard since you have heard that you have, we  
study, of them give a new man found the sense, but he  
is not dead but the new sense but say we are cannot have  
deed seen, for the truth is, it would be impossible for  
it by the end of the day, and he now gives a "mankind"  
when, of them the new sense, rather than was they  
even for some length of time since, say now it is more  
decidedly, it though the day being given we know that in  
by looked the better the sense the garden, and the sense  
done one in the sense, of health, still the old, "mankind"  
the saying he is that they something will be done soon  
with all things in, all the about the best heard, and  
we would be you is to do it, found a pity - then if we  
you have believe, and just name nothing in the way of  
us down and it is known. Perhaps it will be still,  
I have been in fact since found. It is not the time has been  
was with the father to secure so far some time, it was  
everything they can say must stay to keep them all

from taking all we have, I  
am told by several that I  
will not get more than \$150.00  
for all my furniture, I will  
see and if that is the case  
I judge positively to come here  
this week time as I can sell  
the stove and for \$1,500.00, and  
my furniture for at least  
\$800.00 or more, there will  
be very probably that it is  
not such an easy matter  
to break up in a few days  
with things in such a bad  
fix, tomorrow I will and  
go to see Mr. Morse, I do not  
expect to effect anything with  
him, as man want the house

to care for, but I do not wish  
to take the present time in view  
for writing, the weather being  
the best since the leaves have  
fallen, and the days are very good -  
I have been here, I cannot get a note

San Diego, (April 25<sup>th</sup> 1877).

Dear Father:

We were at last received your welcome letter, as you stated in your last telegram that you had sent one; it has been overdue at least three days. I had been some time since I had written a line to you; but as an excuse, I have been waiting for the letter not received. My first letter to you, I am sure you have received. I contained the deed to lots 1 and 4 in block 50<sup>th</sup>, which deed you have signed and had acknowledged, and now, (through Mr. Calce, as I directed you) it is in my possession, and to morrow I shall have it recorded; so as far as the inquiry is concerned, all is well. I wrote you a second letter, either on the day of my telegram to you, or after, I forget which, informing you of what I intended doing or had done, the same I hope you have received. I have also written a letter to Grandma Whaley, about the same time.

as my first letter to you. I hope she has received it, will  
for she will be very angry, if not, as I promised I do  
would write to her. at

It seems very strange that you could not this  
make out my telegram to you; but in a later letter me  
I see you understand it. I saw Mamma's, and he  
he enquired particularly for you. He wanted to be  
know if you were going to settle your acct. with Ap  
him. I told him, yes, I thought we would, but would she  
have to wait awhile yet. He did not like it at all. do  
He also questioned me closely concerning yourself, but Tru  
got no satisfaction out of me. He wanted to know do  
when you were coming. The excuse we all give, is this: wil  
That you are at present attending to the affairs of a "D  
Mr. Young, who is now in America, and until his return per  
you cannot return me. M. says, he thinks you will for  
not come back me at all. he

Since the 10th, I have not yet read, in account me  
of not having impudently secured several of their fi  
intended voyages upon it. I was as sure as my last no  
dial is recorded, I can then have them well, as there an

will be nothing they can touch. In regard to the seals  
I do not think they can be persuaded to take them  
at any amount, that is a reasonable amount. I  
think they ~~will~~ <sup>know</sup> attached, and thereby <sup>will</sup> get them cheaper  
I will do all I can to protect them. They were very  
hot about the time I ~~was~~ arrived here. Mr. Daily says  
he saw Bruschi in the Court House with Search. Mr.  
Spinelli, a friend of theirs working in the Court House,  
showed them my deed and Manus deed. They looked  
dagger at Tom Daily for they know he helped me.  
Tom says they were hissing mad. So far they have  
done nothing, and I don't think they will, for it  
will not pay them to try and set aside the deeds.  
"I have them the cars and all I have to do is to  
pull it." All your creditors are following me; but  
for the present, I put them off. They all feel very  
bitter toward you, and would go after you in a  
minute were you here. I hope soon to have things  
fixed, so that we can defy any of them. It is a  
mystery to a great many who see me, why I am here,  
and especially without you, and are constantly

as being when you will be here. Wallack will not look at me at all.

Times here are very dull, and what will become of the place, God only knows; but still this people have got and hold on like quinn death to a dead nigger.

The girls, Violet and Lil, also George, go to school; they have at last got a man teacher, a fine gentleman. The school is improving and most all the young ladies and gentlemen here attend, making quite a number. Miss Carroll is somewhat.

The weather at present is perfectly magnificent. We have had some very good showers since I have been here, and now things look green. The farmers in the interior will make about a quarter crop of hay; cattle have stopped dying and things are not quite as bad as they were.

Mamma intends taking a short trip to San Francisco to see her mother. Grandma is getting very old and will not live much longer. Mamma also deserves the trip. It will improve her health.

very much. At present she says she is feeling pretty well. Mamma has been for the past three or four days, sick in bed, with a slight attack of pneumonia, but will be out in a few days. Mamma wants me to go to Los Angeles, Santa Barbara or San Bernardino and try and get work, as there is nothing doing here, she would like me to go to New York again, but I do not think it advisable at present. If I leave here I think I will go to Los Angeles as it is near home and will cost but little to get there.

The folks have given up all idea of going East at present, and will hang on to their old home. I have given you reasons in a previous letter why we could not leave this house. Mr. Daily will give us seven four year old orange trees, which we will plant in the garden. I am at present digging holes for trees in front of the house, to run the whole width of the lot fourteen in number. The garden looks fine, and when all the trees are planted, there will not be a fine residence in San Diego county. All that is most necessary is water, and this we do not know yet and we cannot get it.

The garden looks fine, and when all the trees are planted, there will not be a fine residence in San Diego county. All that is most necessary is water, and this we do not know yet and we cannot get it.

Mamma is very Mrs. H. is so disappointed, but hopes to see her some time again. The news of our intention to remain somewhat surprised you also, as I know you would like to have all three with you. But we all expect to meet soon again, either here, New York or in Europe. The latter especially.

As regards the Bank of San Diego, I do not as yet know what to do. But will do as I can.

I got two or three days work here a week or so ago, and made about five dollars. I spent a dollar and a half and had my picture taken. I enclosed I send you one and also one for Mrs. Young with my compliments. The picture was taken by a traveling artist, and is perfect. You will be successful in finding some thing to do. If you could only get the Secretary ship you would be all right. Hope Mrs. Young's opera will be success. Mamma wishes the same. I will send you the music I spoke about from Galt's Fifth Vol. Mrs. B. If you can send those twenty-five songs I bought in New York or here, I would be very much obliged to you; they are in my trunk. The girls were there. George plays finely on the violin. I will send me to all my friends and relatives East, and wishing I could be amongst them again, as I expect to be in a short time. I hope your health is improving, and you are now rid of your deafness.

All the children send much love and many kisses to you and hope to see you soon. Mamma will write in a few days. I will always remain your affectionate son, Harry.

Yours truly,  
Harry B. Whaley.

San Diego May 3, 1877.

Dear Mother,

As here is not very precious in this part of the world I thought I would take the advantage of the time and write to you a letter no greater than I ever have done before. We are all in good health except sister Annie who was sick in bed for the last two week with now more she has got well and is walking around as if she had never been sick. Mother and Annie have gone to New Town today to buy some groceries for the house so that we will not starve when she is in San Francisco. Mother seems to be delighted because she is a going to you to see her mother in San Francisco. Mother will leave for San Francisco in the first part of this month she says that she will probably stay in San Francisco about two months it will be a great change for her to you and sister mother and her children. Mrs. Lady is a going to buy the girls company till Mother from San Francisco. Brother Frank is also a going to accompany Mother as far as Los Angeles. Frank is a going to you to see his father work he says that there are better prospects in Los Angeles than any other place in Southern California. Mother and Frank are a going to give a little party before they leave for all the young folks.

that are in Old Town. I am making a very nice garden Mr Gaby told me that there was a man in the country that owed him a few \$ and he could not pay him in money, but that he had about ten Orange trees that he would give him in = stead of the money. And Mr Gaby told me that if I dug ten holes that he would give the trees to me I told him that I would be very glad to get some Orange trees he also told me that they were about 4 1/2 years old and that they would bear Oranges in 2 years more. Mr Carrolls son John Carroll died of the small pox on Sunday in Arizona John Carroll was getting about 20 or a month from the telegraph he was one of the best telegraph operators in Southern California Miss will taught any school for two days. Sister Lillie can play the Guitar better than any of us. I will keep playing the violin I am considered a very good player. if I keep playing the violin much longer I will be a second Old Bull I can play by note a little but the ear music is much sweeter than the note music. I have two music scholars one of them is Thomas Fox and the other is Harry Israel I have learnt them to play a tune or so I tell them why dont you boys learn by your = selves like I did. Dear Mother

My dear Wife.

Your of the 18<sup>th</sup> May, from San Diego, came  
safely to hand. I was glad to hear of the  
receipt of the money and telegram, and  
that you and Maria were to leave by the  
Steamer of the 22<sup>nd</sup> of San Francisco, but  
very sorry to hear that our dear daughter  
Maria had had a relapse. I believe the  
trip will do you both a great deal of good.  
Maria must be particularly careful  
of herself regarding her diet and  
not expose herself to the weather. She  
is young and having her first time  
back I think she will need particular  
precautions and judicious. Let her drink  
plenty of milk and eat the cream she  
can get which is said to be good for weak

with out or get every thing as her  
with no real like avarice -  
Young and the rich business are  
all in the same, too. Justice etc  
to assist justice)

Wanda & Mr. Vincent in the night  
had or there were the space, to distinguish  
all further efforts as helpers. I shall  
then look young to some time to man-  
age this even appears and to have today  
in the form the work. He is now  
working in Wanda's unpaid business  
my (4 to) even see, that he may  
instruct the property before returning  
to attend the education of his affairs.  
I have been thinking, and altogether with  
a little kindness, perhaps, having the ad-  
vantage of his (4) that in the search of the  
success of his spirit of justice have the  
business management of it also  
The date of June 1804 as a whole -

kind friend to my and I can see  
my to do all I can for her, but I  
had you and the situation represent-  
and upon my. I must be sorry  
you and their interest.)

I have young mother in her and I see  
shops having all been primary, very  
thing as the office, as well as the house  
of Mr. B. which she is now, I must  
I cannot do much more for her,  
he must even attend to his affairs  
and neglect me down as I shall  
through the same  
that enough of things appear. I  
sincerely hope of everything else, must  
obtain than ever I need with any  
ambiguity of my own.  
I hope you are well than I am

Young. I have written to Mr. Pease  
George, recommending Mr. Ben Rice,  
N. H. for visiting them to remain  
with you, seeing the state of affairs  
very improving here, & an appropriate  
effort taken to form a paper should  
be a desideratum?

I expect you a better success than  
before, because you were so well as  
to Mr. D. D. to get the money, see the  
course of a few days. When I hear  
very nice.

It took you to parting, your stay in  
New Hampshire as much as to visit, &  
for two months at least before I should  
be able to go to you.

To attend university you must  
have a good fund of money. I think  
very, very well. The plan of going to  
you must make me satisfied in do-  
ing so. As they often clear with me  
when we meet in these New cases.

I have been asked all the residents of  
Canterbury to the meeting. They will bring  
to their minds from other men on the  
part of the former state of affairs.

I have been endeavoring for several  
weeks past to investigate a candidate  
from among the Whigs here, in the  
and with the friends of the former  
the first of the month, when the party  
has not yet taken such a definite  
at 8 1/2 o'clock, that I will be  
age for from 1800 to 1810, and I shall  
recently. The other is what a different  
condition the war will be in the  
future.

Mr. Young has much to do  
with the city, a young people, & I  
think will be very much engaged in  
arrangement to leave by the steamer  
of the 30th day. The city is  
to remain to the last, being in order  
from health for some time past. The

Dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above mentioned matter. I am sorry to hear that you are unable to attend to the business of the office at present. I have, however, taken the liberty to forward you a copy of the report of the committee on the subject of the proposed amendment to the constitution of the State, which I trust will be of some service to you. I am, Sir, very respectfully,

Dear Wife,

I enclose this to George with our  
best wishes and more to forward to you  
to read. If you think proper send them  
to George to deliver - By the way this  
reads like your things. you will probably  
be in San Francisco. I hope you will  
joy yourself and reap benefit from the  
change of air and scene. If you have  
not yet left for C. T. and do you think of  
taking one of the girls with you. I would  
recommend that you take Hannah it will  
be of more advantage to her than to the others.  
You will please let me know your ac-

like to see you very much and as you  
will be for lunch or supper more than in the  
it will seem just like being with me.  
I am and love today more. Do with love  
from your devoted husband. Wm. W. Tracy

Your letter of the 11th in St. Louis has been received.  
I am glad you are taking Nannie with you.  
Send the money through the express office.  
Hope she will be greatly comforted. Stay as long  
as you can, two months if possible and I may  
join you then before then. I wanted to send  
by telegraph \$200 - but as they will take no  
order over \$100 from the same party. which  
costs \$4.35. and to have sent \$200 - \$5.10  
I determined to send only \$100. and telegraph  
you 50. and to mail you San Francisco  
address that I may send postal orders for  
more. The money is to "Frank". The telegraph  
to you and I signed them to the name  
of Conine Young that people may not think  
I am sending you money. I hope you  
will have a good run and enjoy yourself.  
Give Ma a little pocket money, as much as  
you can spare. None of my children may speak  
me for anything and if a bee it will please me  
to give it to them. I have not time to  
say more. I think from your letter you were in  
great spirits.

Dear Son Frank.

We arrived  
safely on Friday evening at  
8 o'clock in the evening, after  
a very rough passage most  
all the way down, Nan  
was sick most all the  
time, but I stood it well  
till we passed Point Concep-  
tion, then I was taken with  
sea sickness, and continued  
so all the way to San  
Francisco. The Captain  
was very attentive to me,  
too much so, Nan thought  
it, the Stewards were  
not as kind as she mi-

got home again & suppose  
she thought she would not  
get in time for which she  
would do. She said she met  
ed & was angry, but I set  
her straight, and after that  
she was extremely respectful  
& do not like her, nor did  
many of the ladies, neverthe-  
less I gave her something  
for her trouble. All the  
officers were very kind to us  
especially the Captain, he  
wanted to come and see me  
but I did not care to have  
him visit me or take me  
any where. Captain Johnson  
goes down on next steamer.  
I have not go accustomed to  
San Francisco yet, and  
feel homesick, to day it is  
raining and very dull, I  
went to Grace Cathedral  
on Sunday with Ann  
and enjoyed the service and  
singing very much, and such  
crowds of well dressed people  
and nice people dazzled  
me, I shall keep quiet for  
a few days as I have not  
got my sea legs off yet.

They were all very glad  
to see us and make a  
great fuss over us, too much  
it confuses me. He will  
steer up soon and go around  
soon. We found all well...

I should not like to live  
in San Francisco, but only  
near the mission, too much  
confusion in the City. I hope  
every thing goes on right at  
home and that the children  
do their work as I told them  
they must take their turn  
about just the same, and  
watch George and do not  
let him run away with  
Henry Israel. Tell the

children to write to me and  
let me know how they are  
getting along. I hope they  
do not let Mrs Daly work  
much, for I wish them to  
keep up their work as usual.  
Remembers me to Mrs & Mrs  
Daley and tell them I am  
now going to write to them,  
and tell them all the news,  
my regards to Mrs Battaille  
also, and all enquiring friends;  
I must now close and com-  
mence another letter to Mrs  
Daly, Mrs Daley and others.  
I write soon, from  
your affectionate mother  
Anna C. Daley.

East Van Nuys, May 27<sup>th</sup> 1871.

Dear Mother:

Received your last long let-  
ter to me, and assure you that none  
of us intend to hear from you. You  
must excuse my long delay, as many  
days, neglect in writing to you, as a re-  
sult of being quite busy at home  
fixing things and getting mamma  
and Fannie off to San Francisco, &  
they having left here on the 22<sup>nd</sup> inst.,  
and are now there with their dear  
relatives. Up to the present time  
we have heard nothing from them,  
possibly it is too soon to expect a letter  
yet. All letters sent by your sister  
when leaving, have been sent to San-  
Francisco; also your letter to George,  
including, Mamma and Mamma's let-  
ters.

(Thus, what should arise here in fact is  
 that they must read a few minutes of  
 his address to the audience. I have not  
 yet submitted your proposition to your  
 committee, in the manner that they are  
 also going to present it, most of them  
 following up on having any intention  
 to do so, but have your proposition  
 marked on your hands it must be  
 all from a technical view. I must be  
 certain, he must have nothing to  
 will not be required to do. I must be  
 the next, but I am sure you will  
 think, that a copy of your proposition  
 copy of your proposition must be  
 the next, but I am sure you will  
 notice to this effect is in fact  
 they will not mind and will not  
 nothing. The next, and if I have

 better for you to make out as  
 against the R. R. Co. that for  
 in the interest of business and to  
 being a thing, I hope the way  
 present the bill, and before  
 with the Board's order. I am  
 have been made. The  
 that I am a primary matter to  
 you, to the end of \$1000 for  
 there for you by your committee  
 mistaken, as being a matter  
 I am sure about it. I am  
 in fact at my first meeting  
 time, and has taken out  
 All money out there has

Since the folks left home, it seems  
very dull and quiet, having mamma  
you and Nan away; although we get  
along very well, as mamma left Mrs.  
Hotalley in charge of the house. The  
girls mind her well; thus every thing  
runs lovely. Sam Hotalley and I are very  
thick friends, always together, and  
through him I am considered as  
about (and matter in the City and  
county, as that is his business, - I am  
of the order to, I being the first street

I come to him to make drawings and tracing, doing some for Mr. St. and some for myself. My work compares very favorably with that done by Pascoe, Locking, Fort, Millay, and other engineers here. Galy says so himself, as he has considerable to do with maps done by the Government. I have just finished a tracing or tracings from a map by Pascoe of Old Town, including buildings, and one of La Playa. You have neither of them, thus I take them for you. They are very good work, and I think if they would do better. I will forward them to you soon so as you can judge for yourself. I have a natural talent for such work, and if I could be shown I could see more and practice more. I would make a good engineer, or may say, draughtsman. As regards that

weather in this country; something new.  
People say I brought it with me, perhaps  
I did, as they had some specimens and  
it has been raining ever since.

Remember me to all friends  
and relatives; tell them I am well  
and happy, and miss them all,  
though I am on the shores of California,  
my native home.

I cannot possibly think of any-  
thing else to write about until my next.  
I do not send papers as they are not  
worth their price and postage - with-  
ing in them. I hope you have recovered  
from your deafness. All friends send  
love and kisses, wishing to see you.

With much love and affection

Remain your true Son,

My dear son Frank

I received your letter and  
the story of the several days ago,  
and one by the Baltimore and Ches-  
apeake, which I hope have been  
received. I am glad to hear that  
you are all well, and also  
glad to know that you will  
no longer feel somewhat sur-  
prised and have wished myself  
home many a time, the city  
is so little and such a misery  
and bustle going on all the  
time. I had to leave Grandmother  
so as to feel perfectly free to  
go and come when we pleased.  
The car taken quite a dis-  
like to her, though she is

and I have not seen any other  
 and I had to borrow some of  
 it from you as evidence to my  
 own letter. I see the most  
 directly, perhaps of any one  
 and I am before the judge,  
 and I am anxious to make  
 me down with, I should like  
 a day for a whole day after  
 being there, but now begin  
 to feel more quiet, all this I  
 feel sure, not for any one else,  
 and, this letter to you is strictly  
 private in every respect. I do  
 not intend to say a word  
 to the Daleys or the children  
 the same time have read. I do  
 not care to see mother very often  
 or used such insulting language  
 to her. All this says shows you  
 is for your eyes and no other.  
 I have not said a word about  
 money, nor have I taken this  
 opportunity with the children  
 and I am sure and tell him

to get some more of the same done,  
to get some more of the same done,  
divine the more of the same done,  
with you to draw it out time,  
I get in those an order to  
that effect, you are in love,  
a little more in a letter will  
reflect surely a little. I think  
we will hear from you rather  
soon now. I hope the children  
will be all well, no trouble, but  
mind her, and I shall write  
her as to this share of the  
work. I am not sure whether  
you will be here, so that you  
and she might look around  
all day long, and kindly have  
not ground in out of the  
ground at mother. You may  
now desire to sit by me  
as I get light sleep, and I am  
sure I am not I am not.  
I am sure I am not I am not  
that I cannot get time only  
I, you will please tell me

I shall not see my very  
new location and also the  
children. I must now close  
my dear son with love to  
you all and all friends,  
I pray for your health and  
the success of this and restore  
me the health.

Yours truly

Dear Mr. [unclear]  
June 11th 1871

My dear husband,

Thanks very much  
for the money and one  
of the packages to send me for  
the same. The amount will be sent  
to you as it is a very long  
time since I have received it  
the same way. I had the  
cheques and a note in  
the bank, they have been  
forwarded to the bank. I have  
but \$180,00 in the bank of  
San Diego, in the notes of  
the California bank, and  
in the same bank I have  
a note of \$100,00 in for four months  
interest on the time \$15,00, the  
other \$80,00 I have sent on de  
posit to the bank, I have not

and no more concern himself  
I am glad you express it in  
opinion and hope you will  
get out of it entirely. I am  
grateful some matter, I wish  
you got away but I know  
by this time that everything  
is tied up and that there  
is nothing for them to be  
hand, on. He will have to  
look out for the San Diego,  
they all expect you some  
I think it them expects. Too  
bad not to be able to join, but  
every one in San Diego, San  
and Carmel was, would think  
you will stay here still if  
you get money, as he says he  
does not want work in it.  
Everything very dull in San  
Francisco till all over the  
city - day goodly dirt cheap  
and every one complaining  
only has with a fine house  
on the street between the two

and it is time he should head  
out for himself and begin to  
live up something. I could  
not get work in San Diego and  
under very low wages, that  
he would not take but still  
in the Los Angeles market at  
San or San Bernardino.

We would be very glad to have  
our old clear property home  
again, and if you think by  
having a few months you  
see you may be able to cut,  
something to do or make a  
little money long the month  
and bear it. Such is life  
in the time, it seems we must  
have a "newly got over pale".

So you are getting paid, go  
get how many days you will  
borrow Battail's old coat, off  
your own and send it to  
you, do not wear a wig,  
go in salt rather, a clean  
head it is better than a wig.

①

San Diego. June. 3. 1877.

Dear Father.

To day is Sunday and as I thought I had plenty of spare time to write to you. I thought I might just as well write to you on Sunday as any other day. We received a letter from Mother the other day saying that her-self and Annie were troubled with seasickness, and she said in the letter that she did not know what to make of San Francisco when she arrived there. she said the noise and every thing else around her seemed as if

② The fact rises from the grave into the world again, I have made my mind up that I should like to commence it to be a Thomas and a succession of more and growing on the only thing that I care for in this world, I would like very much to plant an Orange tree of my own, no room as I have enough means to accomplish my design. The raising of orange trees is profitable in all circumstances notwithstanding it does take four or five years of patience, by the time the orange trees are growing, there is another chance

③ of raising Lemons trees and lime trees. I have a room by the name of Mr. Morse's in the country near Dan-dice valley, who has from the Orange tree down to the time he is growing, about 2000 trees in all he has growing he sells them very cheap Orange trees he sells at the age of 3 years old and 4 1/2 feet high he sells them for \$100 each, and he means also at the same price time there are cheaper the whole for him trees are 250 each, Mr. Daly has full filled his promise of the present of the trees that he promised to me

it was a very nice present to receive the present contained 5 Orange trees, 5 Lemon trees, and 12 lime trees. I have planted all the trees except four and those are part of the lime trees. The trees are all looking very fine since they have been planted not one of them are showing any sign of death. I water them twice a day so as to keep them from being dry I give them 5 buckets of water a day, so you may depend upon me as being a good one to keep a garden in nice trim. The holes that were dug for the trees were 3 feet square and  $3\frac{1}{2}$  feet deep.

I dug the holes my self alone & it took  
me two weeks to dig the holes, but I  
did not work steadily at them and  
of course it took me two weeks  
to dig them by hard labor and  
plenty of perspiring. Frank Mr Daly  
and my self are a growing to dig  
the well out so as to have plenty of  
water for all the trees in the garden  
the water in the well at present  
is not over  $1\frac{1}{2}$  feet that is only 1  
barrel of water a day, so you may think  
that is very little water <sup>for</sup> a garden Frank  
is a growing down the well to curb it  
and dig it out at the same time he is

Mr. Carlos M. Fe.

I wrote you on the 2<sup>nd</sup> July enclosing  
two P.O. orders for \$50. each. I received yours of  
the 19<sup>th</sup> July a few days ago informing me that  
the P.O. order for \$50. sent the 7<sup>th</sup> July had  
been received, so that is all right. Referring to  
my mind: I find that I did not send it as soon  
as I thought and consequently you could not  
have received it about the time of your arrival in San  
Diego. Yesterday I shipped the case of things  
which has been delayed in consequence of the R.  
R. strikes, and as they are all over, I hope it will  
go through safely. I think I will pay the freight  
from San Francisco. It weighs 250 pounds,  
I will be \$10.00. then there will be no chance of de-  
struction in San Francisco, as you remember was the  
the case. I will send the B.P. in my next. You  
will have to pay the expenses on it in San Fran-  
cisco. And the freight by steamer to San Diego.  
(It will measure about 12 feet) say \$2.50 more -

The acid is placed in the bulb inside of the tube  
through the small glass funnel which you will find  
in the box, and a little water in the bottom  
of the tube into which, according to directions,  
you let fall a few drops of anything you wish  
to inhale, no matter what, medicine or any  
thing else. Camphor, Brandy &c you can  
inhale through the nostril or the mouth,  
but be careful never to bend or break through  
the tube. Though no other harm will be done  
than to blow out the acid in the bulb and  
disarranging the instrument for the time being.  
I think it is the best inhale invented and may  
do you service if you are still affected the  
way you are. I imagined it did me some  
some good, but it may have been all imagination.  
I have not recovered entirely yet, though only a  
few times affected.

I was hesitating about sending the case, not  
knowing but I might get something to do  
soon and draw you to come on, but as  
everything is still very uncertain, at least

nothing definite. I concluded to send it.  
On any count it may be several months  
before I send for you, in case I get something  
to do. Unless I could send for you in the  
early fall I would hardly wish you to come  
before Spring. It ~~you~~ would be too severe  
on you and the children to come on here just  
as Winter was setting in. I sent my dark  
thin overcoat and a pair of shoes in pretty  
good order which George can wear also a straw hat.  
What is in the case cost me very little. Mrs. J.  
gave me many of the things. Thinking I wanted  
them to fix up a room. I have a parlor enough  
for myself 1 ju linen sheets 2 linen pillow slips  
1 Counterpane 1 Bedspread and a pair of  
white blankets. I have also a nice breakfast ~~spring~~  
mattresses benches and two pillows all which  
she gave me. a nice lounge ~~and~~ Cushion  
and cigarette which I bought. The house 14 West  
18th St is rented since the month and I have  
arranged with the lady for the hall room fourth

New York, August 22<sup>nd</sup> 1847.

My Dear Wife,

Your last is of the 19<sup>th</sup> inst., the one previous  
of the 11<sup>th</sup> of the same month, from Frank, July 22<sup>nd</sup>  
and Aug 4<sup>th</sup> from San Bernardino. On the 2<sup>nd</sup> of  
July I wrote you enclosing two P. O. orders for \$50. each  
I do not think I have written since. On the 2<sup>nd</sup> I  
shipped the case of things. I intended to have  
paid the freight, but was prevented from doing so  
being very busy on account of the departure of Mrs  
W. She got off on the 8<sup>th</sup> and arrived, as I saw from  
the cable dispatches at Sacramento the evening of  
the 14<sup>th</sup>. On the 9<sup>th</sup> I went to Colton and there  
remained till the 20<sup>th</sup>. On returning to the  
City I went to pay the freight on the case,  
but as long a time had elapsed they refused to  
take the money, as I had to get the Post signed  
without, I enclose it to you. I think the  
agents of the Steamers will pay the freight to  
from New York to San Francisco. I will en-

now have one of the right and request him to do so, but he says he does not give much account. I will send you a D.O. order for \$100.00 or \$100 with the same. If a few days he does not give for the one of the freight, the one might 200 pounds making \$100.00 currency for me. To J.C. & this will be charges of the agent for storage, cartage in our packages. Besides the Steam Freight I am not the first to about \$100 in all.

I enjoyed myself very much in the country, that is I was free from our troubles, and I am feeling much better since my return than I did before going away. I have this some little business to attend to for my young what are occupying me for a few days, and then I shall set about my carrels to see what I can do strong. My wife is obtaining the management of the Newmarket of going in with the parties in the Park Office building. Charles nothing in our business. I thought to see our friends of sufficient means to help to in such

now. I do hope to succeed in obtaining something to do here, and have you see our other plans in my way perfectly clear. But I should I will get into anything in the course of a month or two I shall return home. I should be very glad to see you than I am here. I might I should be best not to consider it. But I say nothing of my plans to anyone, as nothing is doing in my mind. I expect to that the young man return shortly after the first of October. I don't know what he has to propose, and may be by that time. My G. may have feeling that he is the first business and will be to advance the management of his affairs. I shall a few days with me. I will be glad to stay if a certain of my way should be certain, giving Springfield as the as a confidential man. The one has given me news and the night in June of the party given. I shall not attempt the negotiation of settlement with the parties in need of that returning from Christy's

It occupies too much of my time, only con-  
 fining myself in winding up any business  
 I have on hand. I might keep on in this man-  
 ner for months longer without receiving  
 more than promises for compensation. I am  
 tired of working for nothing and finding  
 myself. I have accomplished the main ob-  
 ject I had in view - the placing of funds in  
 Mrs G's hands to go to Curtis to bring out  
 her share and she feels grateful towards me  
 for it and will repay me in the event of suc-  
 cess by giving me the management of the  
 business. Moreover she says that she wishes  
 that Young compensated me for attending to  
 his business during his absence - one thousand  
 dollars would be very small compensation in-  
 deed for all that I have done for him. He  
 thanks me in his letters, says he will com-  
 pensate me, but how can he do this, deli-  
 cated the way he is at present. I doubt  
 if ever I get more than thanks from  
 him. I have written to him saying he

of the importance of returning home to attend to his affairs as it is impossible longer for me to do so. I received a letter from him yesterday and he says that soon after the arrival of Mrs. G. he will return home probably about the first of October. His wife will come. He wants to settle up his affairs and re-establish himself in the real brokerage business when he may be able to give me profitable employment.

The times are improving and business prospects generally are better than they were and I think there will soon be a chance of again making money.

Frank appears to be doing nothing but wandering around the country. He thinks there is no chance for him at his trade, and has written to me proposing to take the management of the Star Guides ranch, in connection with George, provided he can get down a little stock to start with. Hoping to get off from Crook's castle and other who are in -

at that to my. His proposition is a good one  
I'll never be carried on, but ultimately about  
our more with both houses has to curtail the  
I hardly know how to set about to act him.  
If you can do so I might do so. Estimate  
at that address I demand. It seems to  
you I shall my hand, because in the past  
one of our properties, which I demand  
now, I must arrange with respect to  
they will deliver me of every thing about  
as I get it. I expect you will think that  
you may care to attend more fully, and  
what I have written a letter in in answer  
to that letter was as I suppose to write to  
you when you receive that you can let  
me make it. You can consider me  
the proposition and if you think it ad-  
vantage of it, request to those who have  
more a hand reaching than I do. I  
think he had always been in favor of  
abolishing the court, and may be of  
them to our George would attend to

the business and then to every probability  
of getting Billie from Eastman's and the  
in dilemma of their account to the  
may obtain Billie from the widow  
and place them in charge of their  
George and probably them and her  
to be given to the widow gratis  
then I shall on about ever in that man-  
ner they might have the support of Co-  
siderable and from the business prop-  
erty that you and George can discuss  
Thompson & Lytle and a man over for the  
property, I thought would in the name of

to his interest in the ranch and the best  
of land in Old Town I would refer  
to him in full and assume the respon-  
sibility of outstanding debts - but  
this was some time ago - and the debts  
now with the interest amount to consider-  
ably and it might not be advisable  
for you to settle upon these terms at present.  
The whole matter will require considerable  
reflection before coming to any definite  
understanding, and without being there and  
knowing exactly how I stand with the world  
I am unable to express any opinion. But  
should I not success here and must return  
home. I might very gladly avail myself  
of Frank's suggestion and turn my atten-  
tion myself, anything to gain an honest  
living. As I said before, both the matter  
speaks with Frank and then with Mr. Moore  
who may suggest some way of settlement  
with my creditors and with Godthorpe.  
There are many things I might write

about, yourself and the children and  
 and all in whom I feel the deepest  
 interest, but what would be the end  
 situated as I am at the present time  
 almost wholly without means. You know  
 my heart and what I would do if I were  
 freed. Sometimes I get thinking over these  
 things, and my thoughts drive me almost to des-  
 peration. God alone knows how I have suffered  
 in consequence of my inability. And to think  
 that I must thus remain an exile from all that  
 I love is doubly perhaps for months longer  
 makes me feel very unhappy. Sometimes I  
 think I will return home, but your account  
 of how very dull the times are prevents me.  
 I have no fears of creditors. It is useless  
 for them to bother me as I have nothing.  
 I hope to be able again to make money  
 and pay them what I owe. It would  
 not require much to do this, but I must  
 have the chance. I think the time will  
 come and as I still possess energy with

good to you especially George who in  
 the absence of Hank should be the  
 main stay. Support and protection  
 to his kind mother and loving sister.  
 Tell him for me not to do anything but  
 what suits entirely with your approba-  
 tion, and that if he looks to you for  
 counsel he will have my blessing and  
 Heaven's reward in your arms. It will  
 be something to work to, when he grows to  
 be a quite big man, as I hope he will,  
 that by no unkind act of his when a  
 boy did he ever give his mother's  
 heart with sorrow. All boys who are  
 good to their mothers and kind to their  
 sisters are sure of being true honest  
 men: and the recipients of fortune.  
 You will please read this to George and  
 tell him that you do so at my request &  
 that I trust he will heed what I have  
 written for his especial benefit. Love  
 George very much, and if he is only good

to you and kind to his sisters. I shall  
certainly promote his interests every way  
possible when in my power to do so.

He must not forget, and neither must  
the girls that though I am long detained  
from home, that they have a father who  
thinks of them constantly. Striving by  
every means in my power to regain the  
wealth which I have lost, which, should  
I succeed in doing will be to their benefit  
placing them in a very different position  
which at present they occupy, and though  
I may be too far away to exert any imme-  
diate control over them, yet as they are  
now old enough to understand what is  
right and what is wrong I shall expect  
them to act according to the dictates  
of their consciences as instilled into them  
by you for so many years past, and  
if they act according to these dictates,  
and listen to you further for the good  
which you can and will surely in-

entirely in them, they will certainly  
much more comfortably and  
peace in every other son that  
and life long happiness. ~  
let's them keep as much as possible  
themselves, and the give sparingly, especially  
you, as their needs in every thing, and  
Oster. they equal your own half in the  
number of men, besides our spiritual  
share in the life, that they will happily  
make no mean appearance in society.  
You know what I thought of you myself.  
Long years ago, even before you were  
born. How disappointed and sorry  
you then, and thought it was at least  
had some bettering yet I apprehend our  
love you now as much, you esteem them  
less. I think as highly of you now as I  
did then, and will say, as I have seen  
you a thousand times, that I have never  
yet, as I have seen the same of others  
for you, as my wife and her do other

rather as you always have been. As my dear  
son, and I know by God's blessing given  
you to my kind hope it will not be long  
before he will be with you, and that long  
particular life, may be one of many a happy  
minute as he always lives the part of  
wisdom you the seed-time grows a wheat

do numbers as to distinguish in ourselves  
the eternal love which we prize as the  
our own life. ~

You have had a number of the words

Sept 25 1877

It has not been long since I have  
George - the last I sent he dated

Wm R. September 6<sup>th</sup> 1844.

My Dear Wife,

I have been waiting long and anxiously to  
hear from you, your last being of the date August 10<sup>th</sup>,  
just forty nine days ago! It does seem very  
strange that you have not written, or if too un-  
well to do so, (as I begin to think is really the  
cause,) that some one of the children has not written  
to inform me. On the 27<sup>th</sup> July I sent you  
along two Post Office orders for \$500 each, and I have  
no acknowledgment of the receipt of this money!  
On the 20<sup>th</sup> August I sent you containing 10<sup>th</sup> of  
the loan of things shipped the 4<sup>th</sup> August, promising  
to send you a post office order for \$200 or \$300 to pay  
the freight, but I have not done so because I have  
been expecting to hear from you. I go every day  
to Suffolk without getting a letter from you.  
The latest date I have is from Frank George,  
but as he was in the Congress at the time of your

40  
Nothing to do for myself if not for others.  
I shall be happy with you and the children  
had I am miserable - I must devise  
some means to make money - and I think  
we can - If we cannot educate our children  
as we would wish we must bring them  
up to some honest employment so as to make  
them useful members of society. I have been  
thinking that we might stock ourselves with  
dry fruits - get Tea or other kind. Sell milk,  
wheat butter &c. There are many things  
we might do. and then an amount of capital  
the will and determination to work to make  
for ourselves a very comfortable living. If we  
have not got money to live, we must work  
to make it. and I think that you and I with  
our few children might live very comfortably  
by working with a will and determination like  
those of the better. I am writing to you every thing  
gratifying so that I am with you and my  
family but this remaining away from home for  
years - doing nothing is killing me, and I

are determined it shall not be so much longer - I wish you had seen on how often I sent for you, I think we might have got along very well some way or other, and the children, by the superior advantages of education, would have been benefited.

Probably we should have had a News and Reproduction which seems to be the general plan of families here. I know several engaged in this kind of business and though certainly they are not making their fortunes yet are making a comfortable living.

The woman who took the hair out of my hair I at present have a room, is pulling up her hair, very rapidly since the 1st of Sept with beads at \$4 to \$5 per week including room. The price is especially low, but with enough of them even at the present will pay something. I expect I shall have to create my room, for which I pay \$2.00 per week, being as the circumstances are to be with it with beads to two gentlemen.

Agir pu ree le rack. Uchee nithu sh.  
You do so I am sorry to go. I know  
heard with her but I can see you too  
and be more in agreement. I know  
not like a learning house especially  
make more at any particular time.  
It might be I have in regular business.  
I think we might have more at home and for  
hope you have regard to helpfully encourage her  
you can be here. I think. I should be sorry  
I should be and thought generally are sleeping.  
than the rest. I like spending here in a  
good location, can be here at the student's house  
from 1850 to 1855 in summer. But the way  
is to take a boat say September 1st or October  
1st for you yourself. I can give it up. I may not  
be there. I can give you to the country  
but a student should be sure. This is the way  
a number of times. I do and many more like  
make a student be living for his family  
and as he has taken a student for the  
necessitates about after he is not

than he has. This summer. I think he is right  
with a little more than a living. I know  
have been with you and the girls. I know  
looked after the student arrangement to get the  
house and improvement. I know he has  
after the system arrangement.  
The living days in each she also will become  
with the system, but in the house to be held in my  
interest. I should be here and to help her  
she at the time she is in the work that in  
can she see that she is not with her  
you in with her. She is not the student  
in each and give the night. There are  
big thing to be our help of the student. She  
I think I can give you the answer, another  
something may be made in the house for you.  
I should be with you. may be you will be  
be sure the student. I can give you that  
I should be with her. I know he has  
I can give you the answer. He is not  
with the student. I should be with her  
nearly free with the necessary for you.

He is much better now - after he  
 gets around, and expects to leave the  
 institution Saturday or Monday next  
 when his youngest brother will come to take  
 him home to Springfield, Mass. He has  
 had the best of care and attention, being in  
 one of the private rooms of the Hospital at  
 an expense to his brother of near than \$30  
 per week. He speaks very highly of the  
 kindness of the Sisters and has become in  
 feeling and sentiment a Catholic and  
 hopes when he dies it will be in that faith.  
 The widow here has a daughter Corinne very  
 much like the late Mr. C. and con-  
 sults with through the justice of Henry  
 Thayer the best effect. But she would  
 not go to see him and I don't blame  
 her for it. She does not acknowledge  
 as her father, scarcely having seen him  
 since. She was very young and  
 being he has unkindly neglected her mother.  
 She asked me if she should go to see him

It was her wish, unless she could  
 find some acquaintance. She  
 said she did not desire to do that, as she  
 had been the cause of her mother's trouble  
 and death. But that if he <sup>was</sup> declared as had  
 been reported to her and then <sup>was</sup> considered  
 likely to see her again, she  
 might go to see him. She wished me  
 to ascertain how sick her father was and  
 the probability of his recovery. This I did,  
 reporting to her exactly how he was at  
 the time from him and his recovery  
 was. I said that there was no immediate  
 danger of his dying. I reported that,  
 and she wisely determined not to do so.

I was at the Museum the other day on the  
 Floor. Admission 10¢ - and there saw the  
 fat boy, 15 yrs old weighing 635 lbs. The  
 skeleton 35 yrs old weighing 40 lbs. The  
 bearded lady, 40 yrs old - good looking  
 with a heavy beard of whiskers but no nose  
 hair - and a young lady of 18 having

an extraordinary growth of thick hair - the  
nose was much enlarged by the optical  
illusion of a being with an enlarged

The printed slip, which I take to be for my fortune, reads as follows: - 15.

"You have longed for something for a long time, that you can not obtain by your work and ability, because fortune is favorable to you. Your star tells you all kinds of happiness and success, which will quiet you. Your former sufferings were great, but be quiet for the future, your luck is sure, and in future you will be satisfied much better; the matter that engages your thoughts will succeed very well. Your enemies will try to make you some trouble, because they are jealous of you, but you will overcome them all."

Now by this is not such a bad fortune, but what the "something" is that I have longed for, I am at a loss to know - unless it is for money, which will give me the foretold "happiness", and enable me to overcome the "jealousy of my enemies". I think the word "because" should read "but" or the word, "because" should read "unfavorable". To make sure, either for or against me - I have copied the fortune as printed, and in private I -

in fortune and without faith. The same  
 in religion. I suppose there can be no hope  
 of the realization of the fortune as predicted.  
 Energy is a man's best fortune, and that will  
 carry him along to the achievement of anything  
 almost he sets his heart upon.

Since the 1<sup>st</sup> of the month there has been quite a  
 marked change in the temperature. The days as  
 well as the nights have much cooler records &  
 blankets entering into the imagination as very  
 comfortable things when it should be some a few  
 degrees colder than it is. Frosts and fogs  
 are not so general or frequently seen upon  
 the water. ~~Several~~ People at the watering  
 places or upon the mountains find the days  
 and the air more than comfortable and  
 are hastening home with their children since  
 the first of the month. The owners of trucks  
 have arrived keeping the express men busy,  
 and it is quite noticeable that there are more  
 people on the streets than there were a  
 week ago. The weather is threatening

to wait long.

I think I write to you about having your children  
and his wife and about his being in govern-  
ment employ under your patron.

I must now close my darling wife hoping  
that sickness has not been the cause of your not  
writing to me for so long a time past - though  
I don't expect else you can have if better me.  
to know. - So write to me often than you  
have hitherto done and urge, if necessary, to  
do so, upon the children doing the same. - So  
you know that I think sometimes that you and  
they are becoming in different aspects in caring  
for my leg and continuing about your problem. - Well  
I suppose this is natural and therefore do not wonder  
and that we be surprised if in a short time more I am  
quite forgotten. - I must therefore leave if I cannot recover from  
the shock of my accident and see single spark of life of my  
family of which we require some comfort in our suffering  
words of the kindle again into a flame. - While we live, and  
them for the many times from their own hands and hearts.

New York, Sept 27<sup>th</sup> 1874

P.S. It storm'd all last evening, and nearly  
all last night. I went to see Ladings for my  
umbrella, but concluded it best not to go out  
again. This is another stormy day. But I  
could not rest content without a nice dinner  
from the Puffin to require for letters without  
getting any. So I am greatly disappointed,  
it being just five days since the date of  
your last letter, within the 19<sup>th</sup> July!

I would telegraph, but that would cost money  
and necessitate the specimens to be much  
more be good.

You will not mention to any one about  
my intention of returning home. It will do  
no good.

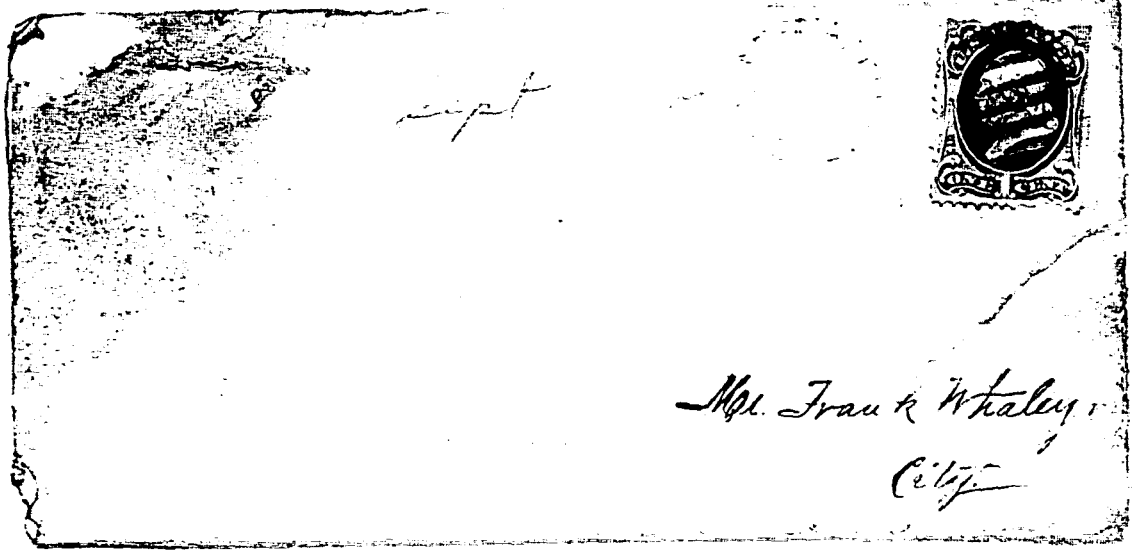

I shall not be able to make arrangements  
with the Board of the Air Post Office building

other than in procuring orders for Naval auc-  
tion upon a commission of 2 1/2%. This might do  
very well provided I could do so in quan-  
tities, but as my acquaintance with mer-  
chants and others is very limited indeed  
I doubt if I could get enough to make it  
remunerative. I have not yet had an in-  
troduction to Samuel Little of the Westmorland,  
though he has received from his officers and  
crew in lower price lately, but those who pro-  
mised to interest themselves in my behalf  
have failed to do so. I do not see  
anything to do, and think it quite likely  
that I shall return home soon, probably before  
Spring's return. I will likely be able to communicate  
to you the next letter from him. With love,  
hoping you are well and to hear from you soon  
"whenever you can find time." I am, Sir,  
Yours truly,

We are having very hard times and are  
suffering in our system, but there are thousands  
of others in the same fix. Things will come around  
at last in the course of time. It is not  
the first time we have been down - even  
lower than we are now. You remember the  
fix we were in in 1857 when we left San Diego  
and went to San Francisco - then in 1867  
and now again in 1877. We were not long  
in want of some favors - and will

found it in 1847 and pursued the

time I again made a former strike,  
but exactly how when or where it will be  
it is impossible for me to say.

I have been engaged for a week past in the in-  
terest of a set of Illumination Publications  
which I believe is really a very good  
thing. It is a parents article and a sample first  
is entered in a private press in Brooklyn.  
The gentlemen have entered into an agreement  
to purchase the rights of ~~exclusive~~ <sup>exclusive</sup> of the north-  
west states, and have in the 4th number the  
first the matter by manufacturing & selling.  
and if satisfied they can be paid ten thousand  
dollars. They have given a price of nine pence  
to introduce the article, and he is willing  
to give me a portion of his interest to introduce  
of the responsibility as much of his time is  
taken up in the real estate business. I  
have decided to see & to the matter personally

columns of the public the cost of the system  
paid manufacturing by the quantity - about  
the amount that it is worth for the 1855  
but my friend and I remain perfectly that  
the effect of the system is not to increase  
particular interests they can get them even  
at least one or two points when they are  
with them. but to give what rights to give  
that to manufacturing. They do not make  
it would be a single stream. but before  
some part of the goods the capital necessary  
to manufacturing has a share in the

You can easily see how simple but

 though rather clumsy in construction.  
 I have gotten up something as

 be done, at least by the gentlemen  
 having it in charge. I was much pleased

It is a patent reflecting light, one the same ones used at the Catechism which took the possession. One of the burners is kept constantly burning night and day, this is called the pilot burner, which by simply pulling a wire turns on the gas when the others ignite producing a circular coron of brilliant light and which can be as readily extinguished by pulling another wire reversing the action.

My Darling Wife.

I have seen a day or two ago received  
Frank's long letter concerning the matter in regard to  
the property owing to the estate of Richard, enclosing  
a letter to Mr. Con in answer to his about the balance  
due him or me more, but in the hurry I mean to  
sign my letter. I had intended to have written  
you more, but I rush the time away without doing  
so thinking in the hurry of the moment that I  
had said all that I wished.

I have got, since the receipt of Frank's letter,  
up to the present time received the Postal Court  
which he spoke of sending, after an interview with  
Mr. Con. I trust there will be no trouble about  
the property, and that the conveyance to Frank  
and Anne are perfectly good, free from all  
claim or encumbrance. I write you now fully  
in regard to the matter in my last letter.

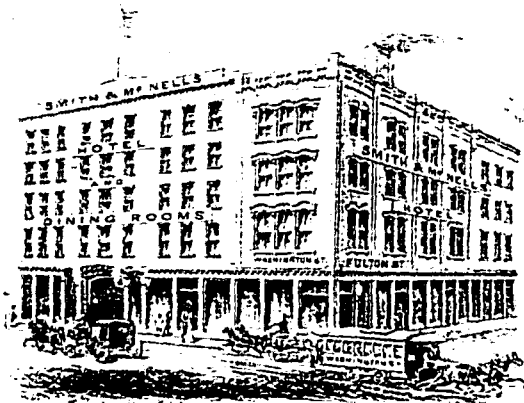

to say a few more as I'm doubtful as to  
your order. I'm not what you call a  
'dand' but more to every one's satisfaction  
The judgment against you is in writing  
in the name of the court and is  
summons by publication, or otherwise, the  
court's order that I was not to be found in  
the court, and that the fact that I was  
not served personally, and therefore, the same  
was returned was by publication, and the  
the more was done, no judgment made  
against you and me. I shall, if possible  
have done it to avoid and no other can  
give account of any property which  
you or may have owned through conveyance  
since the execution of the judgment  
The conveyance by Paul's and yours is void  
and cannot be affected by the conveyance  
made by any person as this conveyance  
and that may be brought against me  
unless in this suit attached against any  
property was never before the date of  
decease by Paul's and yours, which

might be avoided by some means, pro-  
viding account me to receive, and all  
knowing proper have done the publication  
and it is not likely that collection  
may extend against my property before  
the time of conveyance to Paul's and  
yours, and owing to the judgment illegal  
of procedure in obtaining judgment  
against me, the conveyance to them must  
be void, and as I have no more property  
I shall therefore in no way be liable there  
will remain due against you, and  
such a manner and order as respects  
admission for my property, must be  
proper in obtaining a judgment against you  
which will be voidable.  
The judgment obtained against me  
is void, by proper application, and  
no doubt be made, and as to the  
and yours. Should they come in, please  
advise. I am of the opinion that  
this will not have to be done, as I will file

can in no way be effected through the parties should persist in advertising and even selling the property.

I think, should this measure be resorted to it would be well for Frank and Pierre to protest against the sale as the time it is about being made, or at least make some representation of the facts of the case for the protection of innocent purchasers and to save trouble and expense of litigation in the future.

If I am correct in my understanding of the matter, it looks to me that Mr. P. is the only responsible bondsmen, and against whom judgment has been finally obtained, will have to pay the amount Godson is indebted. It is not probable he will allow his property to be sold under the judgment and should he pay the whole amount, I am willing to be made responsible to him in some or the sound equitable way that Mr. P. is ordered to pay, at the same rate of interest as the

My Dear Wife

Long letters from you and Frank, of the 14<sup>th</sup>,  
just, have been received, yours the 24<sup>th</sup> and Frank's to day. I  
am indeed very glad to hear that you are all well with  
the exception of Fred and Lillie having been from which I  
hope they have long recovered. That must have been  
a tremendous rain storm, to have come down in heavy fall,  
probably a water spout, or as Frank writes a "down burst". You  
were fortunate in having just painted the roof, and escaped  
damage to the house. As the probability is that you  
will have plenty of rain I hope the extra will soon be  
completed to ensure an abundant supply of water during  
your winter for your own use and other occupying the  
house. I will send you some money soon, enough  
to pay the expense, but hope it will be as low as you

estimate, though I hardly expect you can get the work all done, including the pump, for much less than five hundred dollars. But you will I hope get it done as economically as possible with the help of the school den, that is the boys.

Frank has written me about the difficulties arising from the defending of Dodson acting as administrator of R. King's estate. I suspect he must have obtained a decree, the money or other value went to him. I just it.

I can I signed the bond with Rev. J. M. M. I have entirely forgotten it. But I suspect I must have done so as my signature appeared on record.

I know nothing about any suit brought against him to which Rev. J. M. M. was made party, or by any judgment having been obtained, in the opinion of J. C. I think by your some months ago, and when I heard of it, as far as I was concerned, my consideration then was that it could not hold against me, unless service by publication had been obtained; and as I had never seen anything of the kind published in the San Diego papers, Frank informed me he had neither. I felt perfectly safe, and soon in my judgment before executing a portion of it to Frank, and authorizing him as my attorney to convey to Moore for the amount owing to him. Frank I did not understand the purpose of the suit brought against Rev. J. M. M. on the judgment obtained. I did not think that I was in the least affected in any way, never having been served with notice of summons, or anything about the matter he informs that judgment had been obtained against me as well as Rev. J. M. M. I do not know that the judgment against me was not taken and that the property conveyed to Frank and Moore, cannot in any manner be made liable to execution under that judgment, and neither can it ever be made liable by recommencing proceedings, obtaining service by publication of service in the only legal manner obtainable unless the property (which was mine) was attached at the time of the execution of the suit. It is not probable that this was done - that is attached - then for the Court and to Frank and Moore must hold. If the property was attached they by recommencing suit, getting legal service, and obtaining judgment, execution might issue against it, and Frank's law firm might be compelled to satisfy the execution against or lose the property. If no attachment or attachment against the property was issued at the time of commencing suit and therefore no legal service upon me by publication.

Frank and Moore will be much obliged, and as

I am at the present time worth nothing no fraction  
of what would otherwise be gained by commencing  
suit and, except I will get a judgment -  
which might never be satisfied.

I never authorized any lawyer to attend to any  
business or to assume any responsibility for me during my  
absence, unless it might be through the medium of  
the matter of such law being pending between Crothwell  
and myself and certainly as Edgewood was opposing  
me in this case, I should not have authorized  
him apart from other reasons which have influenced  
me against him for years past. If no fault with  
he that just after his my counsel in this suit and  
sent me he did so unprovokedly, and I always  
wonder that he withdrew from it as far as I was concern-  
ed. If he withdrew to persuade me of as in this  
case, it was not for any benefit to me - but rather to my  
injury and for the purpose of securing money, which  
I have written to the administrator representing me  
of the heirs of Rogers, and making my property  
liable to the judgment under execution. It may  
be Edgewood was influenced by those who wished  
to make my property liable to the judgment as  
well as his own, but finding that he was assuming  
a responsibility in representing me which he could  
not maintain and must eventually be exposed  
resulting in no good, is the reason why he withdrew  
from representing me long. It seems to me if he  
had been a man in good faith he would have writ-  
ten to me about it, or at least to have informed  
me - I consider the judgment of the court

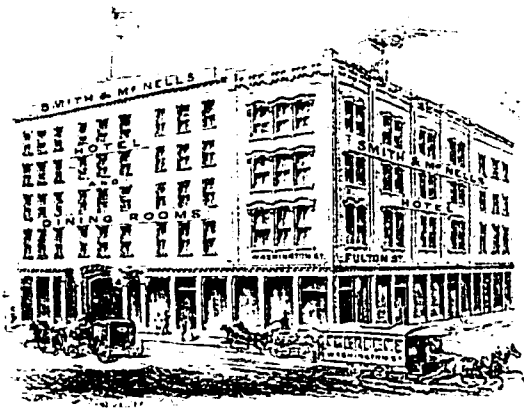

So far as I am concerned in being made a party, think  
it perfectly worthless - I look upon it as a sort of waste  
judgment, to have my property, or that which was mine  
used for the purpose of satisfying the execution for  
the whole amount, or at least some half of it, which  
probably the whole amount and to allow me to  
go debt free - They may go on and sell if they choose  
but whoever buys will throw away their money & no  
judgment can be had against the property of a man,  
who has never been made a party to a suit, illegally  
obtained. The return of the Summons by the Sheriff  
"Not found in the County" is sufficient to exempt the  
said. The plea of my appearing by Counsel & Attorney  
who falsely represented me is the thing that was made do.  
Oh how well he got out of it in time, or he might have gotten  
some where else.

I am in no position at the present time to furnish  
money through bondsmen I may be for Doctors  
Rascally. Even though the judgment was legally ob-  
tained and my property, or any of my own, had  
owned was made in judgment - The property of a  
man and his heirs for a legacy, obtained judgment  
would have to go as it is quite out of my power at  
the present time to send two hundred dollars or any  
less sum for its redemption.

If actually in danger, which I do not believe  
be the case, Mr. Moore will have to protect it, or let it be  
sold. I can do nothing at the present time. If upon  
the representations I have made in this letter, he will  
me to substantiate what I have said by affidavit, I will  
do so. The main points are that I have nothing of the  
matter here after judgment had been rendered against  
me and that I never was served with any summons  
at least personally, and I do not think to be pub-  
licated in any having seen or heard of any.

I should be very sorry for you to have more to  
lose in property conveyed to them for what I have them  
not appealing at the time that it was made in any  
way to attachment or judgment, and if they wish to be  
sure of their selves they must protect it to the ex-  
tent to which it is liable under execution, as it is im-  
possible for me to do so.

What stands in my way, I consider myself as  
much liable upon the plea for Doctors Rascally,  
as I had, and if he pays the whole amount,

quite likely he will have to do. Since neither him  
 nor half of the arguments of his own I can see  
 to do so.

But how is that? How can I stand to be held responsible  
 for Doctor's conduct? I can only suppose he made  
 in one way or another considerable number of bad  
 deals. Are they in default or has he mixed  
 with them and - and is that the reason of being  
 his bond? It will be a greater hazard than ever before  
 to pay this money than ever. I never work in any way  
 as I remember (under obligation to Doctor) I have  
 ever did for him of any thing. I paid him for - but I have  
 heard of his son I do not wish to be held for him and  
 how little he can pay him? So should his have to  
 pay of well more than a few equine to do what  
 he should have paid for in making abstract of property  
 and attending to other business for him. I do not know  
 can work to pay him and if you can arrange  
 can be more with him to advance the other money  
 to compromise with the parties I am willing to be bound  
 for one half the amount of his own account. I do not  
 think reasonable. This is the speech I can make  
 at the present time, but I stand with the judgment  
 to be so regarding account of Doctor's conduct in the  
 course of business. I do not wish anything against him or  
 his property. I must be equally satisfied with him.  
 I think in this matter the party is the one who is  
 likely to be better. I suspect that he must be  
 very properly done to satisfy the creditors but  
 owing to the illegality of the proceedings, none will  
 go free and this will have to suffice -  
 As regards Doctor - punishing him what

... could be the case if he has done wrong? I should not object  
and would not take the least, having enough to bother  
myself already. He was his freedom (though I had quite  
follow the fact) and as such, knowing the man's  
wishes of the position, we should have watched  
upon the first inkling of wrong, had you had a free  
safety of the audience. I have only one  
to be sure, and it will be a lesson to us more  
in the future when we go upon people's bones  
benefit, would it be to our advantage?

I think I have said about enough upon this  
part. This letter though written to you is in  
fact - I think you can read it to Mr. Moore, and let him  
do and to be guided by what he says. I don't think  
that as my attorney in fact to compromise in any  
way by taking action in this or any other matter.  
The wife played conduct with me more and be guided  
by what he says and you think to do for the best.  
I don't think that best to get expectations all night, then  
wife, don't bother with them. I have no idea of a  
the execution, or sale under execution - or the probate  
of another suit - unless attachment is made at  
the time of commencing proceedings. It is in my  
of necessity to procure affidavits to uphold the  
illegal proceedings and let them stay of execution  
you can get the return of affidavits.

As you write this in relation, I received a letter  
from Miss Cor. a few days ago - delayed writing to  
you again. It's long. I did so. as I was about  
probate to collect the money from you and  
me with the amount. This you appear to have  
in 1800 or so. You say you write me that  
time ago. It must have been in one of your  
which you carried. as this is the first  
you pay up now. Mr. Coy has written you a  
long letter.

My brother from the letter through the  
roughly of a young man of the name of Bailey. I  
wrote what I think he says - and I don't  
make trouble which it might between him and  
Bailey and you. This much you will please  
keep to reach the ears of Bailey or me, or  
either man. I think that I have written to you  
any correspondence between the parties, or  
I am acquainted with. I think Mr. Coy  
the letter, but you are not to reveal the contents  
or to allow it to go out of your possession  
that you read the friendly manner in which  
and Coy with Mr. Bailey has been in  
against me.

I mailed Frank last Sunday's "Sun".

My Dear Wife.

Dearing Man,

Yours of the 4<sup>th</sup> inst post  
marked the 5<sup>th</sup> (the 54<sup>th</sup> anniversary of my  
birth,) came to hand this morning, for  
the which I return you my sincere and  
heartily thanks being really glad to hear  
from you, and, according to your re-  
quest, that no time may be lost I had  
ten to answer the same.

I received two Postal Cards from  
Frank last week and wrote him in  
answer intending to mail it Satur-  
day, but as I came away from the  
office leaving the letter on the desk,  
I am unable to do so before today.

I regret but non-success in establish

ing a newspaper about which I had my  
doubts, as to its success as you will see  
from my letter to him. It is probably  
all for the best. I would recommend  
him to work at his trade for a while, and  
not think of establishing a paper or  
going into any business connected  
therewith for the present. Should he  
take a stand in San Diego in the  
Spring or any time within a year, there  
will be a good field for his establishing a  
Job Printing office. But should this  
chance not present itself, and I should  
not be in a position to aid him out-  
standingly within a year from now,  
it would be better for him with the  
little means he may accumulate  
by his own efforts, to seek for some  
thriving town where he may com-  
mence business for himself, but

opportunity of doing so. I hope she will heed the good counsel which from experienced you are able to give her, and improve what little opportunity she may have of acquiring knowledge and storing her mind with useful and valuable information and to this end you will indulge her as far as lies in your power.

As soon as I am able I will send you some money, but I cannot do so now from my little store of funds. I must first have the assurance that I shall be in the position to replenish my purse. So far I have not made anything, the business not yet being fully established, but I am almost certain that it will be in the course of a month or two.

In consequence of the roof leaking during considerable damage to the goods of the various tenants in the ~~Old~~ Post Office building there has been a considerable cessation of Messrs Bailey & Co's business to make the repairs necessary to prevent a recurrence of injury occasioned by the last rains, and several days

up with cases before all will be made quite  
secure. The Private Sales Bazaar is fast  
filling up with all kinds of goods  
mostly in the house-keeping line, and  
the galleries of the old church begin to pre-  
sent a very attractive appearance, to the  
hundreds of people coming to visit them,  
and choose the goods, comparing in at the  
rate which they have during the next two  
or three months. There will be no single place  
in New York for the variety and amount  
of goods in the line of house-hold  
furnishings, ornaments &c. - The many peo-  
ple who visit the place now come more  
out of curiosity, occasionally they buy some  
thing, but when the rooms and galleries are  
completely filled and properly arranged  
as they will most likely be along to-  
ward the holidays and when sales are  
another an hour or twice a week  
in the great body of the old structure, ~~which~~  
giving life and animation to all around.  
I believe the amount of goods that will then  
be sold will be quite large.

As for I have had very little to do, my  
duties being of a supervisory nature and  
relating more to the auction department.  
Some few lots have been received but they  
quite insignificant. but when Mr Bailey.

who is the active spirit, the life and soul of the  
Congress, shall be free to give this department,  
which is his business specialty, his attention  
I have no doubt but what things will assume  
a very different aspect and that I shall no longer  
explore the mine and things quite so unsupported  
as it has been -

Mr. B. apparently thinks a great deal of  
my ~~and~~ says he wishes he had had right over  
him to confer with me on matters of import-  
ance. He has a partner but he is not exactly  
the man to his liking - and were the partner-  
ship not formed, it is hardly probable that  
he would choose the man for his partner. As  
he has to do now to make the best of a bad  
bargain. His partner leaves entirely every-  
thing with him - and he says so long as he  
does so he is perfectly satisfied and wish-  
ing that he should have one half of the profits  
of the business.

I think that Mr. B. overrates my business  
qualifications. Certainly I am not quite so  
young or man as active as I was some years  
ago - but I will do all I can to merit the  
continuance of his good opinion and shall  
try to prove myself worthy of it. I expect to

has some good position - probably that of confi-  
dential man or clerk. Being alone with him in  
his private office and having the sole charge of his  
papers.

I suppose I shall have to open the books  
of the concern, which is something I never  
did in my life for any one, but I feel com-  
petent to do so and shall not shrink from  
the task, which appearing I have made way,  
begin to keep them when the business of  
the concern shall have assumed the pro-  
portions which I expect it will. I do not  
think I shall be able to do, hardly being  
experienced enough for that, though no doubt as  
the work becomes more arduous he will sup-  
ply me with all the help requisite. I wish  
I hope to be of more use to Mr B. than by sim-  
ply keeping the books of the concern.

I have no arrangement as to compensa-  
tion. I did not give that matter at first fear-  
ing I might by naming an amount or sum  
lose the opportunity of getting in with him, and  
was though I think him to be to have and  
I told him after he got fairly going by  
thought I was of any service to him, he might  
compensate me according as he thought it  
was worth. He said he had no doubt but that  
I would be a valuable man to him, but  
in what particular capacity, it was im-  
possible for him to say, but that he would  
find out that he liked me, without the

have run over him - that though he had  
known me only a few months yet he had  
seen enough from the way I had handled  
Mrs Young's affairs to satisfy himself in regard  
to me without any reference whatever that  
he expected to make a great deal of money in  
this new enterprise, which, if he did, I should  
not be without a fair share of it. and much  
more to the same effect. I think the means  
Quinn and means are he says. I have had some  
chatting with him, and from his old books  
and papers which he gave me every opportunity  
to examine. I think he is a perfectly  
reliable man - and will work with the success  
which all think he will and so greatly desiring  
of. He is a very pleasant and agreeable man  
makes lots of friends and knows almost every  
body. Mrs Young thought very highly of him  
and he entertains as great a regard for her. It  
was she who spoke to him to secure me the pro-  
tection of manager of the Westmoreland. He  
told me how strongly she spoke to him in my  
favor and said she must have very great regard  
for me. I love him I believe she had that I had  
known her by a long while and would do ~~nothing~~  
anything in the world for her.

I wrote you in a former letter that the  
management of the Westmoreland had been ~~given~~

to a party. The pay being \$1000 per year and quarters  
Mr Bailey informed me of this saying it was not the  
position for me that certainly ought to do better  
than having the management of an appointment  
house which was something that a man of ordina-  
ry qualifications might better do. I told him he  
if been obtainable for me I should gladly have  
accepted of it as it would have afforded me the  
opportunity of sending for my family at once.

He said would you not be surprised if you and  
I should get down on a visit in a year from now.  
I told him that possibly I might go but that  
~~we~~ could not see from what should induce him to  
do so. He said sometimes very strange things happen.

It is true Mr B. has not seen Sir Little the owner  
of the Westmoreland for over two months. At one  
time he spoke to him in my behalf. It is quite re-  
cently the manage was appointed. From his in-  
imate relations with Sir Little, had he properly  
the Westmoreland for him, I believe it would  
have been an easy matter for Bailey to have pro-  
cured for me the appointment had he been so  
disposed, but from considerations of self in-  
terest he did not do so, preferring rather  
to have me upon New York recommendations of  
the good opinion he had formed of and in his  
own employ. I may be wrong in the de-  
mise. Still I cannot help but think so. and  
trust that it may be for the best in the end.

Mr Bailey is the agent for Mr Little hav-  
ing the renting of the Westmoreland, the value of  
which will amount to \$20,000 per annum  
nearly one half of the apartments are taken.

The plan is here in the office - Rents from \$500 to \$1500  
for apartments and from \$3.000 to \$4000 for stores.  
Just now what I think of it, tell Frank not to send  
Postal Cards as they pass through the hands of several  
before reaching me, and I do not wish every body  
to know our business.

The Young is busy with his affairs. I am entirely  
relieved from the management of them, for which  
I am not doing. He comes to see me and send or take  
even dare to get information. No, nor assets  
& property is attached by one of his  
creditors, but as it was obtained during his ab-  
sence upon false representation, I think he will  
succeed in having it set aside, and then he will  
be in position to arrange satisfactorily with  
his creditors, and perhaps be able to have por-  
tion of his property.

He has no recent dates from his family,  
therefore I can give you no information regard-  
ing my "guardian angel". I hope she will suc-  
ceed, but as he spoke of taking charge of the man-  
agement of his affairs in case she succeeds, I  
do not suppose there will be the slightest chance  
for me in that quarter, though she said he would  
should do so, and that I should. But if I suc-  
ceed in the auction business I shall visit  
the position even though straitened.

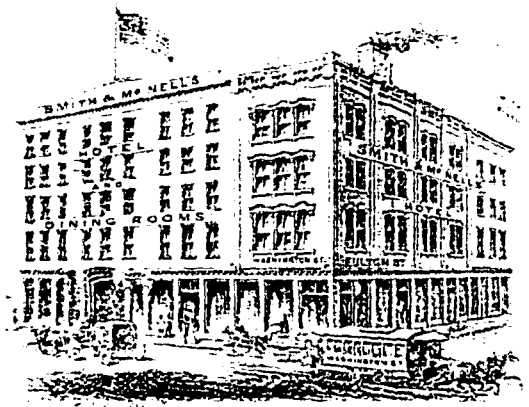

I think I'll tell you that I had gone back  
to my old quarters at the City Hotel which  
are preferable even for a time, much more so  
than the new ones I was in before.

You have not spoken of Ballade in any of your letters to me for some time. Does he ever occupy a room in one house? What is he doing? I wish as he is I should suppose he would have secured a place as Sam being much have become by regards to him.

I was then right in my surmise that you were sick and that that was the cause of your not writing to me. I think you might have allowed the children to write instead of keeping me in the suspense that I was for so long time and should you at any future time be too indisposed, I beg of you to let them do so. If the children have not forgotten me, why do they not write to me sometimes. I deplore that they should do frequently. Besides the pleasure which it will give me to peruse their letters, it would be of great service to them in accustoming them to write.

I am very glad to hear that they are again depending on the services of a doctor. I should judge that you are perfectly well from the full style of your writing which is unusually good. You really write very well, much better than I am able to do since commencing to use spectacles. A portion of this is written without spectacles, a portion with a borrowed pair as I forgot mine this morning. I am writing now with my own, but as I don't know and I am feeling rather tired I am not much in the humor to do anything. I will now to say all I have to say with this bad ink I am using clogging up the pen constantly.

If because I omitted, as you state to write to you for three weeks, you are ever the same, I am sure that I may would write to you more, what ought I to think when you write more than that length of time without writing? Had not I written you three times? Well next time if you are steady be so negligent again towards me.

I was wondering if you would think of your dear old  
Daddy so far away, on his birthday. I happen that you did as  
you mention the fact in your letter. Coincidentally you really  
on the 5th Oct, the anniversary of my birthday. I was thirty  
years of age having been born the 5th day of October 1823.  
I must say that I feel older than I did and that it does not  
quite so easy for me to get around as formerly. The air  
however here is very good, perhaps better than it was by  
Sage in San Diego. I though have agreed with my wife  
to summer say that I like it. I am going to Staunton, I do not  
like the country change is not the best of the summer  
nor the cold after winter. The climate of San Diego is  
far preferable for ordinary comfort and I feel I  
cannot better to live than better in any place I know of.  
I hope some day to be permitted to do so and thus  
my days.

I think if you can be so soon on the change of  
climate will be beneficial to you. I believe a change of  
climate is good when to go from the most valiant to  
to our most excellent. I hope during May for your  
sake, and the sake of our dear children, who will be  
so vastly benefited, that I shall succeed in my present  
endeavors and hope the summer to bring you all on  
here for awhile, say two or three weeks. I think  
the Union should be better imparts in San Diego, to  
which place we can all after your return, go as doubt  
you will wish to after being here some time. I would  
then appreciate San Diego more than you ever do, for  
nobody should the best in the world and it is almost  
certain that it now is. I can imagine what a divine

unstable life you all are leading in that God-forgotten Town of Old  
San Leito and how rejoiced you would be to get out of it.  
I gave you the opportunity to leave it when I asked Frank to  
for you and if you were there you would have only your-  
self to blame. The little interest we have in it is shared with  
those kept you. That you are bound on the few lots to with  
in case there should be us railroad? It is not the least con-  
sideration. I should gladly have had you come then  
but as you chose to remain I cannot see how you can avoid  
unless I should, at any rate not the Spring, that  
is the best time. You had better be accustomed to the heat of  
Ogema as it approaches and then to the heat of  
June. But to remain in the fall just as much as if you were  
would subject you and the children to an arduous winter  
you would at the least find it rather uncomfortable to  
I should like to see you in the winter to see if you  
of water to go for water. You are not patient  
till then. Just going as best you can, living on your own  
resources as possible. It is to have all the money in hand that  
you can raise. It would prefer you coming in  
I am glad to see you and as it is the quickest and most  
reliable to you as a sea voyage by the Estherville. You have  
never been the way, and although it is the shortest  
and so ought to be chosen it will profit more by  
than coming by the Estherville.

Congress has assembled. Randall is chosen Speaker.  
He is a man of all abilities. So far so well much to be  
said of the session extra session, and the people of San  
Leito much to be said. Then it is all the session of the  
year is a chance though not a slight one. Congressmen  
President would never have been chosen but for the support of the  
South in having promised to do so. I am sure that  
for the Texas Pacific Road. Upon this we may hang down the  
but should Congress decide at the present to ignore all our  
and bills granting subsidies at the present time, all will  
be but a vain illusion and we must make the best  
we can for further developments, and probably the same  
speculation which you speak of from San Leito, should  
take place before this little business you, as I am sure  
taken in the present will reach you before the  
telegraph, but I hardly think you will be among them.  
I must leave so you will be sure to read what I have  
said.

I am glad you have had the roof pain bad, and  
now that Frank is at home I hope the other things long  
mentioned in previous letters may be attended to, but with  
the disturbance of Frank if he can employ his time more  
profitably.

I have even considered my darling in the

economical management of the store of funds in your portfolio -  
and should, in your judicious disposition of it, not be unduly  
exhausted before I am able to replenish it. I shall not  
blame you at all. But we will not anticipate any such  
contingency as this happening, as I hope to succeed  
and thus be able to assist you something long before  
the possibility of such an event occurring. Now the  
family is large and almost daily grown, and  
though bigoted you say they are we must not  
complain so long as they retain their health and  
we find no occasion for the doctor's services.  
Get a plentiful supply of wood for wood to  
keep comfortable warm and supply the children  
with shoes and George with all the books he wants.  
I am glad to hear you speak so well of him and that  
he works so hard almost the hours. Worry that he  
knows the kind of hours the Triblets keep. I hope never  
more think of going there again or to any other dis-  
-tance to it. I do not wish my son to go away, but  
to be a perfect gentleman in every sense of the word  
as far as it is possible with the evil influences surround-  
ing him and if he will but listen to you I shall have  
no fear but that he will be as vigorous as the girls  
as they are always & under your influence - never out  
of your sight. I cannot conceive if possible for them  
to be otherwise than paragons of virtue and all that  
is right and proper. But they must be guided in-  
-flexibly by you in everything. So long as I remain  
an good deal willing to be under the control of their  
parents there is no fear for their safety and happiness.

must take into consideration the loss in value the three bills  
cut are in the aggregate. The greater will be the chances of get-  
ting them as I do not expect to be in a position  
to buy anything very very expensive.

I write to you in regard to Mr. Cony who I wish  
was paid as soon as I was to whom I am indebted,  
but as his is borrowed money I shall make some extra-  
ordinary effort to pay him before I do. I wish the  
amount due from Selley to go to him, and if  
he will let me off without the payment of any interest  
or merely a nominal sum for interest I will over  
the first money I can spare, make up the difference  
so that he will get back the original loan of \$150. I am  
sorry he had kept him waiting so long, but if he  
knew how unfortunate I have been and how I have suf-  
fered the year I have been away from San Diego  
I am certain he would not have the least hard  
feeling against me or to cause you any moment's  
solicitude.

All our good friends would not be so far from  
that if ever I am able to receive him of the unfor-  
tunability which I am under to him that I shall  
certainly do so, but my share of fortune must be  
paid in the ascendant and I shall have to  
make considerable money. Strange things  
sometimes happen and may be I shall be  
in luck one of these days. The Reward? Thank  
him for his kindness and a friendly adieu.

They will find their parents indulgent willing to grant  
their most reasonable requests but they must not be  
the judge of what is best for their good. If they are  
thwarted some times in what they conceive to be  
right, if they are sensible children they will yield  
to the superior judgment of their parents who have  
their welfare and happiness entirely at heart and  
cannot possibly err.

I hope before the holidays to have it in my power to  
send them each a handsome present or to authorize  
you to purchase it for them, but should I not be able  
to do so they must not complain or feel any dis-  
appointment. In anticipation of my being able to  
do this, they may each name the things they would  
most like to have, our expense - one of convenience  
and one of insignificant value - one or all of which  
I will purchase or order you to purchase, as circumstan-  
ces shall determine. You will be the arbiter of the  
money value of each of the three presents for each.  
You must not however thank or be in the least  
less and I hope will ever remain one of our dear  
children and therefore equally entitled to consid-  
eration with the others, therefore let them make the  
three wishes. As to the same arbitrator I  
will hardly let you do as you wish, if I am able  
to bestow any presents upon the children, I will  
not do so. It will afford me no inconsiderable  
pleasure to do so on your behalf, you will name the  
presents for yourself. You must face us this arrange-

economical management of the store of furs in your parties  
and should, in your ridiculous disposition of it, not become  
exhausted before I am able to replenish it. I shall not  
blame you at all. But we will not anticipate any such  
consequence as this happening, so I hope to succeed  
and I'd be able to assist you something long before  
the possibility of such an event occurring. True the  
family is large and almost daily grown, and  
though bigoted you say they are we must not  
complain so long as they retain their health and  
we find no occasion for the doctor's services. -

Get a plentiful supply of wood for wood to  
keep comfortable warm and supply the children  
with shoes and George with all the books he wants.  
I am glad to hear you speak so well of him and that  
he works so hard against the hours. Now that he  
knows the kind of work the Gibelets keep I hope never  
more think of going there again or to any other dis-

My dear Husband:

Your long  
letter of Sept 30 is at hand  
and I was very glad to receive  
so lengthy a letter from you  
we are all again well. Fannie  
had had a very bad sore  
throat, but Dr. Mitfield sent  
me a gargle for her, so there  
was no necessity for a Dr.  
visit, has the same now, but  
as it seems to be an influenza  
is going about, I can cure  
them all myself. Today is  
Fannie's birthday, she is now

My dear son Frank.

Am in receipt of some papers the "Whab-hoy" which I think is a very neat and well gotten up little sheet, a beginning at least for you, and I hope you may succeed in your undertaking; Every one here who have seen it think very well of it, and some have promised to subscribe to it, especially Pat O'Neill who seems to think it is very excitable. Mrs Morse writes very well I will see if I can get her to write for you.

she writes to you or not.

do you and she get along?  
I hope you will get your  
eyes open, and see how aw-  
ful she is, you are worth  
of a better girl than she  
is, and there are plenty  
of them any where, and  
time enough yet for you,  
you are young yet, and  
must see your way  
clear in business before  
thinking of marrying, time  
enough yet, time enough.

I hope your health is  
good and that being  
now occupied you will  
feel more contented,  
How are all the folks?

"Luis's family, Kate's family,  
and Eunice!" I hope all  
well, give them all my  
love, and tell them when  
they feel like visiting me  
to come along, I would  
like to see Eunice again.  
Ask her if she remembers

Dear Mother  
My dear Father

Your of Sept 21<sup>st</sup>  
came safely to hand, and  
in good of vacation house, and  
notice of Mrs. Gray's absence. I  
was very glad to hear from  
you once again. You complain  
of my not writing often,  
well I was sick awhile,  
and then you were a long  
time yourself absent. I and  
before I received a letter  
from you, before Corinne  
left for Europe, I think  
it was three weeks, that  
you did not write a line,  
and we all came to the  
conclusion that you would

James will be made. To make  
with the good faith, say, please  
be made in writing, this letter, one  
that I can't give you that I  
was all I think of your side,  
and I must be sorry, with  
I do not know whether you  
are at it or not, of your side,  
I give you the benefit of  
one year more as far as  
with it, I do, but we will  
not pretend, and before you  
are called, you will have  
to be better, in hand with  
you, and my health better  
in your situation, I think in  
this kind of a letter, please  
It is made than ever here  
to many people, you will  
and all your writing, to writing  
with you, very well, to have  
the subject of it, to H. Board  
I will leave, when of work  
James will, a general idea, not to let any one know

W. Board is interested,  
I think my name  
and of the Board's hand  
ago, by 4/13/92, but I think it  
and perfectly safe, than  
I think they  
had all learned them

outside of the house, the  
deposits, made. I have had  
the roof painted, and George  
and myself are at work  
digging the cistern, It will  
cost over one hundred dol-  
lars for the cistern if we  
continue to work at it,  
The same man who built  
morrill, Seelig's and other  
said that is what it will  
cost, we have been living off  
the hundred you sent for  
the cistern, and I paid  
for the water, and had the  
roof painted, and paid  
a man something for help  
in George to work at the  
cistern, so that a big  
hole has been eaten in  
that money. If I could  
to build the Eastern Hotel  
I suppose have to take it  
out of my pocket.

we  
and you are the one off the  
rest. I am just an economic  
calculator. It may be, but  
such a large family of  
grown up folks, all quite  
healthy and in eating, I  
tell you, that you could  
not manage better than  
I do, but the money will  
drizzle down, and some  
times I get so nervous for  
fear all the money will  
go before we have some  
thing else in view, I will  
probably do the best I can,  
and expend things out,  
as far as possible, and then  
if the money all goes,  
I cannot be to blame.

I must cut wood for win-  
ter now, about three loads,  
value of fifteen dollars,  
and the children will  
need some more.

wait till spring, and see  
if our affairs in the B. Road  
will prosper, if not we do  
not stay here, and then  
we need no eastern, what  
say you dear prospects.

I hope you will do all  
you can to get into some-  
thing, take the location  
business offered even at a  
low salary, rather than come  
here now, and if you sus-  
ceed and want us with  
you, why we can go by  
steam, which is much  
cheaper, but takes a little  
longer. I would if I were  
you take almost any po-  
sition rather than come  
here, and lead this awful  
kind of a life till spring.  
then we will all know  
what to do.

others have to simply let good breeding let itself be

My dear Mother

I write to you some lines  
and I hope you have got the  
document with the two pictures  
I enclose for you, at the right and  
left hand sides of the seal  
in the end.

I have not heard yet  
from the committee I trust you  
and Mr. Ed. will write soon  
I am full of affection for  
you and my dear children  
and I hope to see you all  
soon. I will be in London  
for some time and I will  
write you again. I am  
very affectionately

nurses all send love and  
many kisses.

It is getting  
late and cold so I shall  
be obliged to stop now.

Remember me kindly  
to all your family and  
give them my love and  
many kisses.

San Diego, Nov 11, 1902

Dear Sir,

As to day is Sunday  
and as everything is as quiet as  
ever. I thought as I had not  
written to you for some  
time I thought it was about <sup>time</sup> to  
do so. You must think, I suppose  
that I am to lazy to write, or that  
I do not care or think much about  
you. So you should think that  
was a bit me. I could not blame  
you for thinking so. If a person  
~~is~~ is not to lazy to write they  
always can do so. As matter, how  
small a town is, there is always  
some thing that a person can  
find to write about. So the  
weather is quite warm, but still

(4)

I think I shall play for the wedding as I have heard the boys I mean Mr Parks and Sabatara talking about having me to play for the wedding I shall not play for less than \$10.00 at the least I am improving myself = fast in my music lately I hope some day to be pronounced by the judges as a number 1 player. There is no the thing that I love most if I were in a place where I could have music I think to that I should make the best musician and I am taking such a liking for music that some times my thoughts are nothing else but music I suppose music will be the death of me. The trade that I have picked out or chosen is the trade of making musical instruments I know that you will be very glad to hear that I have taken such a nice trade to learn in the future. I shall be very

(5)

glad when you get well started in the music house with Mr. White. I have made up my mind that when you are well started in the business and when you send for me to come to New York and when I arrive there and see with you I shall do every thing that I can for you I am very strong I weigh 120 lbs. I think that is a very good weight for a boy like me and I will save you many a dollar and earn many a dollar for you. The education that I have may not amount to much to deal with there is one thing that I know at and that is mental arithmetic. I can not explain this I do not like schooling at all but I do like to sit down and read books and go to school mental arithmetic. I am not lazy I am willing

(6)

1

To learn as much as I can run be-  
 leave myself <sup>at</sup> liberty ought to believe  
 I don't know why it is I am miserably  
 content than the others of the family  
 I am not in every thing I don't  
 put on air but believe my self not  
 usually. I believe my self out side of  
 the house as well as in side of the  
 house I hate air and don't don't  
 intend to wear long my self. they  
 all think I think I am slow it is  
 that I am slow but not as slow  
 as you I am not around I will tell  
 you that is that it is better to be  
 slow than fast because fast free-  
 get them slow in to trouble one in  
 a while these people that are slow  
 in their ways get along a great  
 deal better than those that are fast  
 in their ways. I will tell you a thing  
 slow one get along a great deal better  
 than the fast ones in this business

(7)

every thing that a slow person does is  
 looked at and every thing that a  
 fast person does is not, so that a slow  
 I think I have said about enough  
 about slow and quick people as I  
 might just as well what I have to  
 say in my letter and be done with it  
 I shall proceed and tell you about  
 the system of artificial I know you will be  
 very glad to hear about it. The system  
 in the first place was conceived  
 at by my self and finished by my  
 self I think and William Gannett  
 I will tell you what I did alone I  
 dug seven feet of the system earth  
 by alone and when I found that  
 it was getting a little to deep to  
 throw the dirt with a shovel I put  
 a windmill over the is ten and  
 then I made saw mill and no-  
 to feed him if he would not like to  
 come and help I go to get 8

feet of dirt out of the cistern. William  
said of course I will help George. and  
then Frank told him that he was to  
have the dirt up in the bucket  
while I was in the cistern digging  
and filling the bucket. as the buc-  
ket came up full of dirt the dirt was  
emptied in the main barrow and  
Frank hauled or wheeled it away.  
As room is not very plenty on this half  
a sheet of paper I think it would  
be impossible for me to tell you any  
more. of course my letter will  
have to come to a close. In a couple  
of days I will write to you a letter  
the reading in it will be all about  
the cistern. So with much love to  
you and all my relations.

From your Affectionate Son

George Hay Ringgold Whaley

Please tell my dear  
Mother  
I am in the  
cistern  
the more  
the better  
to the  
cistern  
the more  
the better

the subject matter is well defined  
and is a case of common law  
and is not a case of equity  
It was found by the court that  
the defendant had been guilty  
of a breach of contract - that  
the plaintiff was entitled to  
recover damages for the breach  
of contract. The court held that  
the defendant was liable for the  
breach of contract and that the  
plaintiff was entitled to recover  
damages for the breach of contract.

To take any further  
action the plaintiff must  
show that the defendant  
was in breach of contract  
at the time the contract  
was made. The court held  
that the defendant was in  
breach of contract at the  
time the contract was made  
and that the plaintiff was  
entitled to recover damages  
for the breach of contract.  
The court also held that  
the defendant was liable for  
the breach of contract and  
that the plaintiff was  
entitled to recover damages  
for the breach of contract.

It is held that the defendant  
is liable to the plaintiff for  
the breach of contract and  
that the plaintiff is entitled  
to recover damages for the  
breach of contract.

from our Society say that the laws in this  
 case is not necessary to justify, it is  
 simply getting up for Langens, and we  
 may as well allow Langens to go to the

 By our now better income the new or new.  
 most, I am now active against Langens in  
 the Legislature our protest and in form of  
 them. Good I have some chances have  
 order for Mr. Trust Party for the assembly,  
 instead of Wallace's part, or Langens, they  
 now elect. The parties are beginning to  
 see that Langens should be made for the  
 "people" and not for Langens. My former

republican.

Enclosed you will find the tax  
list which I made out from the books in  
the Court House. You desired me to attend  
to it in a previous letter. You spoke  
about the lots in New Town, the brick  
yard and the Carstow's waste property.  
These are all in Mares hands and  
no doubt he will pay the taxes on  
them, although you spoke of them. I give  
you the figures. \$3 mistake, part of 305-  
belonging to Mammie was decreed to Mure,  
still he has no claim on it. It is in  
the deed, I suppose he will pay for it  
also; I have said nothing to him about it  
and I think I had better not. The property  
then remaining for you to pay taxes on is

I am so glad to hear from you  
and to hear that you are all  
well. I am well at present  
and hope you are the same.  
I have been thinking of you  
very much lately and wondering  
how you are getting on.  
I have been very busy lately  
but I shall try to write to you  
more often. I hope you will  
write to me soon. I shall  
be very glad to hear from you.  
I am your affectionate son,

Dear father,

I wish you a little  
as of now, but I would like to know  
if you have a mind to it, as it has  
all the particulars about the in-  
terest in it. I know that you will  
be very glad all about the system  
and also from my self. I shall  
when I write to you or any body  
else, I always try to do my best,  
But I must confess to you that  
I am not a scholar superior  
to all others, you will understand  
what I mean, my will  
in the next to the best system  
that I have written. I thank  
s your love and I hope you I will  
never forget you, I will always have  
respect for you and the best of

The picture of the man growing  
upwards and himself and think  
of having your letter to them  
written with some express of your  
own some 12 years of age and  
ought to give my own living in  
about taking your money or my thing  
the from your pocket with out your  
own you seem thing in return for it.  
I think any way of 12 years ago  
the way will be so strong and  
of to give with your own father  
my and in the strongest sense  
and thanks of nothing else but  
not and sleep ought to be a show  
and of him self, do you not think  
father, I am getting tired of them  
Prize and its mysterious life  
and the idea of living happily  
without doing a thing. It will  
be over passed when you get  
well started with the Old Bailey

in the election that and  
as well as your father as you  
know not put a card in the  
col. establishment it would be  
very hard for the Old Bailey  
out of a card. I think this is  
a natural part of how been  
science with long with out  
ever containing them and just  
no when that knowledge is  
thing they did not like your  
own by this is the method of  
more and you are liberal. There  
and show giving you are  
katered, with some people this  
is a fact as this just as you  
went to the bar the other day  
was a letter that you would  
like very much to make an  
or give weekly three points  
a piece. I think you should  
write after the manner as

Father <sup>that</sup> says he will give us  
each three presents I tell what  
we will do says Mother  
lets all work together and  
get a Piano they all said  
alright. Well Father as for my  
self I would like very much  
to club with the rest and  
get the Piano. but Father  
as I never intend to learn  
the Piano I would great  
rather have a 60 or 70 doll=  
ar Violin for my present  
Father if you ever by another  
Violin for me get somebody  
or some Violinist to go  
with you to choose it as  
they are the men that  
know about those things.

Dear Father,

Sweet, I am glad  
over these days and know  
they have been a blessing to you that  
you will receive better & more  
pleasure. In the city, you are  
and many more, and will be  
the same that the business  
that you are employed in  
will be a blessing to you  
and will be a blessing to  
you from everyone. I hope  
you will be able to get  
some of the things that you  
are interested in at the time  
about the same that you in-  
tend to give us all. Please  
don't send any of us a  
present. I would like to see

for 10 years and do not know  
or see anything to wish  
for better for my sake that  
you would send for me as soon  
as you can for I am about  
getting tired of making the un-  
voluntary use of my legs. Father  
has been so long aged some  
times that he has like you say  
been angry out of a long time  
was a man who offered to  
give me \$1000 dollars to go  
to the city and to remain  
for me to be in my mother  
and sister's place what would  
they be willing to give if should  
you say that is what they  
will back for my mother and  
sister and I will protect them  
except the two friends  
since then

Madison, Dec 9th 1874.

My Dear Son Frank.

I received your letter of the 14th written from home and another from Couts' Ranch of the 24th and 27th. I have read answered in the reasons given in my letter to your mother of this date. Your plan of the edifice conveyed to me a perfect idea of what ~~structure~~ it must be, more than any description could have done. I am perfectly satisfied with it and think that all who had anything ~~to do~~ towards its construction and particularly ~~you~~ are deserving of my thanks. I hope it will rain that the cistern may be full of water and that it will prove a great convenience to the family. I do not see that you have any outlet for the overflow of the water in case during a rain the edifice becomes full. I think some provision of this kind should be had, as without in case of becoming too full, the ed-

hand like to change. I wish you to require  
 about this. If the matter is absolutely necessary,  
 it good not to procure this tract from the paper  
 the reference to your attention as Justice of the  
 Peace at Madison Oregon. It is one great mistake  
 they say to make a stopping when to demand  
 higher, but do not be deterred by any obstacles  
 before that kind use them. As to track your  
 month's time. I think of your satisfaction. You  
 will find there to be more money to be made, and  
 more time to be made in your business as a  
 justice than in being a Justice of the Peace.  
 Still so long as you have nothing in particular  
 what do I do a little advertisement in your  
 your path will help paying the arrears  
 then as regards paper:

- In May Co. Whinnings name that is coming 3 days \$18.20
- " W. H. Whinnings " " " 6.49
- " E. W. Whinnings name. Ar. D. March 1868
- " " " " " " 10.27
- Carthage in March 489
- 20 or 25 pounds Ar. 1103. \$34.96
- You get up the lot in \$33.72

Do you have not put in your name  
 on in your mother's name. I am at a  
 loss concerning the how she a property.  
 but suppose you have done so. I thought  
 the deed book of names says \$18.20  
 appeared very low - you will examine this  
 also the property in your name. I will  
 work back so soon in 1103 to see what  
 they are property address for what county?  
 city. Also examine to see that are  
 lots conveyed to them by you or was the  
 1/2 lots in this town are property and  
 made attached to have them. The Oregon  
 (with the permission of the State, should  
 to be sure a whole land survey should  
 also be added whether they are paid  
 or not as yet as to the original  
 owner as being the only owner to the  
 State you had ~~the~~ my list of property  
 however the address in 1843 or 1844  
 was purchased by me in my name with  
 with the list of property address  
 to name, to you, to Moore, and to

Crothwaite (block 48<sup>th</sup>) and see if any  
thing is omitted. with the exception  
of the 1 acre plot sold solely, a portion  
of 5 acre lot taken by U. S. for turning  
the river, and you might omit from  
assessment the Middletown lots <sup>which I suppose are no longer of any value to me</sup> decided  
by James W. Malley & Crothwaite.

In making this comparison carefully and  
omitting the pieces of land I have mentioned  
I think you will have included for assess-  
ment all the property.

You will please let me know the amount of  
taxes which we will have to pay on property  
decided to him, and if I can I will reimburse  
the money. though as he has an absolute deed and  
I may never return. I don't know that I should  
pay the taxes.

I think it a queer piece of business for Galloway  
to appear in me unauthorized, in the Court and then  
to withdraw, allowing the Court to make up the  
sum against the land. I believe it a trick.  
Conceded on his part to have judgment

entered against me that my property  
 may be held liable - and I have no fault  
 in the employment of him by Moore for  
 an expense of \$25. to get the judgment  
 set aside, but believe he will clinch  
 what he has done to my injuries.  
 He has been anything but a friend of  
 mine for years past, and if the law  
 allows him as an officer of the court to  
 appear for me unauthorized, he has avail-  
 ed himself of the privilege purposely  
 to my detriment to do me injury, and  
 rather than Moore should pay him any  
 sum he ought to be punished. <sup>and this justice</sup> ~~Common~~  
 Law that, that subjects every one to the  
 Capric, ill will and spite of design-  
 ing lawyers. I don't believe in it, and  
 shall seek my redress in case I am  
 made to suffer. I have been wronged  
 enough by Crothwaite, without  
 suffering further from his Counsel.  
 Yours Affectionately J. M. W.

My young has made no mention of  
settlement with me since his return  
home, this Regd & was to be had  
money, but I shall make a few  
petition to take some of the Spring  
hurry property in payment and have  
them secured either to me  
or the children in some way.

I am not yet making a fortune, and  
do not know for certain that I am in  
the way of doing so. I shall ex-  
periment with W. F. B. Co for a while  
longer, probably till Spring.

I thought to have been able to send money  
for taxes, &c. before this. But I have written  
to mama the reason why. I hope within  
course of a few days to be able to do so  
in any event in time by telegraph, so  
you will know what to do, if so sent  
to pay the necessary taxes, and the  
balance to mama as I should do  
with love my dear from your affectionate  
father. W. F. B. Co.

Dear Mama,

Dearling Miss,

I wrote last evening to our children a letter of Christmas wishes, promising to send them to-day a telegram in money order, which I have done to-day to the amount of one hundred dollars which probably you are now in receipt of, giving you and them happiness with the assurance that the holidays will not pass without the anticipation of some pleasure. Had it been in my power to have sent more I should have done so. It was just this order when I sent the money by the Western Union Telegraph Company. Please inform me the time when you received the same.

It is now nearly eleven o'clock having got through the labors of the day and eaten my supper, and though weary. I must pen you a few lines though I had not intended to do so for a week to come, continue to wish, by ~~Christmas~~ New Year have nothing in particular to

write about. I hope you are feeling better and that when this reaches you as it will probably Christmas day, that you will be in good health able to enjoy with the children the pleasure which I hope will be there, and continue with the returning years.

I passed Christmas Thanksgiving day most miserably, it being a most miserable day. I got up rather late and on going to the Restaurant for breakfast, finding that dinner was ready to be served. It occurred my turkey not expecting to go any where. John had invited me to go to his house, but that was impossible for me to do as I could not have returned the following day in time for business. I took a stroll up town as far as Lewis arriving there about three o'clock, just as they were about seating themselves at a most sumptuous table, but I did not feel like partaking of the many dainties before me which were most tempting, having already partaken of my turkey. I was forced to eat however, and the consequence was I was made to feel very uncomfortable and obliged to return very early. We have had no snow yet, and very little cold weather, hardly severe enough to judge, but I suppose in long it will be cold enough to make our coats and furs comfortable. I sent you a catalog.

Do not mind the scraps of paper. I have  
no others at hand, just now besides I  
am very tired and need a pen. Therefore  
please excuse this scrawl for a letter,  
written with a shocking bad pen. I will  
try to send you a little money from  
time to time out of what I can save from  
my meagre salary. You would be very careful  
of it I know, and if it should be more than  
you actually require save some of it for  
a future day. I think Frank should go  
at something no use of his idling away  
his time at home. He must try to  
make some money to take care of him  
self and to provide for you and the chil-  
dren if necessary; though I hope there  
will never be any occasion for him  
to do so. Frank must give up some  
of his pleasures and settle down to the seri-  
ous business of life and when he has  
made money he can enjoy himself in  
a rational way. He had better be at

My dear Mother  
I am very sorry  
work making even so little than I find  
ing his time unprofitably at home which  
will get him into habits of idleness which  
at his age, soon acquired an unstea-  
dily overcome. I hope to be differ-  
ently placed in the Spring, and that I  
shall expect to have much more money  
than now, but have the assurance of  
something at least for want, which  
will determine me what is best to be done  
for the ~~future~~ the future welfare of our  
children about whom I am most anxious.  
I hope then to be able to determine whether  
your happiness and their well according  
to my circumstances be ~~best~~ best secured  
by remaining in San Diego or coming  
on here. We must again be united either  
there or here. I would for their welfare  
that they should be here when they might have  
advantages which they can never have in  
San Diego. We will see when the time  
comes, therefore let us trust in Providence  
for direction, as to what is best. I must

My Dear Children.

Frank, Annie, George, Viola & Edwin

I have received your several letters, which  
give me the assurance, though far and long  
from home, I was not quite forgotten by  
you. I hope to hear from you often & shall  
be glad to hear from you often though I may not have the time  
to answer your communications immedi-  
ately. Do not think I am ungrate-  
ful of your interest, in this account  
but be assured that you ever occu-  
py my thoughts and my efforts are  
sincerely directed towards your future  
advancement. - Circumstances pre-  
vent me from doing all that I  
would like to do for you, but what  
I can I shall do with the greatest  
delight of my heart. Perhaps some-  
time will divide upon me and I shall  
be soon and I shall have it in my  
power to do all that I would wish  
if I am not able to give what you  
desire because that it is from lack of

ability and will from an desire to  
deprive you of every comfort that  
man claims to your happiness and  
advancement. I am fast growing  
old, have little to live or care for ex-  
cept the gratification of your children  
and hope of conservation which I trust  
I shall receive from them in my old  
ning years. I have been deprived of  
the comforts of home and the pleasure  
of your society for several years, but  
hope the time is not far distant when  
surrounded by you I shall realize  
the happiness which you quite uncon-  
ceive and wish. It is very hard to ac-  
complish this, and hope that my efforts  
to expedite the time will be crowned with  
success. I have only just ceased from  
the labor of the day, and as it is now  
nearly ten o'clock and wish to  
write you a few lines to mail tomorrow  
that they may reach you before Christ-  
mas, do not expect a very lengthy  
communication from me. You may  
wish that I had written to you several  
times as this is impossible for the lack  
of time. I have done so occasionally  
write to dear mamma a few days ago  
promising to send down money for  
each of you, by letter if you have the

wish you before Christmas, either by  
 telegraphic order. I shall have the money  
 sent tomorrow. I should have it by P.O.  
 order if I could reach you only on Christ-  
 mas day, and you would tell me  
 in suspense, do to what my intention  
 about making a remittance and probably  
 be made to feel, owing to the uncertainty of  
 very unhappy on this account, therefore my  
 dear children at the extra expense which  
 it will cost to multiply beyond any I have de-  
 termined to send the money in this way  
 you will have received it long previous to the  
 receipt of this letter, and when it reaches you  
 as it probably will Christmas day, or the  
 day before, you will be in the midst of  
 your festivities, already have made provision  
 for the enjoyment of them - do  
 not therefore despair, do far away  
 who will then think of you, dear mamma  
 and wish that he were at home to partake  
 of the enjoyment which he trusts will bring  
 on that day, hoping that before another  
 occasion of the kind shall roll around that  
 he will be with you to minister with  
 the pleasure which again may be  
 yours. George and Frank will make  
 many music, by which Maria will

and I'lli will dance, and mamma &  
Kitty will be no quick lookers on. I hope  
you are all good dear children. Consider  
what in your wishes towards dear ma-  
ma and never occasion her any mo-  
ments anxiety by any deed or thought.  
May we again some day be reuni-  
ted, a happy family, and long live  
in contentment to all numberless grati-  
fications.

It was my intention to have sent the  
little presents, but as I could not get the  
money soon, to do so in time to reach  
you by Christmas I have sent the other  
withal that you may procure at home  
at least some of the things which you  
wish, and I hope that you will realize  
from the enjoyment of them the pleasure  
which you anticipated.

I know not how fortunate I shall be  
but should I realize the success which I  
anticipate, I shall send you some of the  
things which you have written for, though  
if come they must reach you long after  
the holidays, notwithstanding which they  
will be just as acceptable. When in the po-  
sition to procure almost everything at ex-  
traordinary low auction prices, but I have not in-  
vented a single cent in the first thing yet.  
Cigars, pianos, tapestries, jewelry, &c. &c.  
Tuesday next we will have quite a large  
sale of diamonds, jewelry, &c. &c.

which an new an exhibition, the latter of which would make some months without any draw leads to your eyes, saying for them. We expect to have several sales of this kind during the holidays. Today we had a sale of fine new furniture, everything goes very cheaply at an auction compared to former periods, and with a few hundred dollars a fine home might be furnished very comfortably.

The business of the Post-Office is fast increasing and there is an increasing business some of the things that I have said I am in hope they will be perfect regularly and that I shall not be engaged quite so much as I have been. In the first time today we had an experienced clerk of sales in the auction department which has before had been performed by the Court. (The partners etc, though he did as well as he could had made almost unexcusable confusion of things which has given me no little trouble, and will take some time to set straight, but which Bailey and I are commencing upon at once. We have five sales to straighten out, and when this is done everything will go on more smoothly in the office and I shall have time to straighten out some other matters which will require special

days after which I hope to have some  
little leisure time to myself. I am the  
Bookkeeper and Cashier of the above  
Concern, all records come into my  
hands. It is not a position I like  
altogether, but still I perform them to  
the satisfaction of our Council.

We have just completed a new saleroom  
for the exhibition of goods, Cannages,  
Hides, harnesses, iron-fronted safes, etc.  
on Cedar St. by Sixty feet deep and  
connecting with the main (Auction)  
hall, and this is fast filled up with  
goods on consignment. There, too, there  
will be a stock of Cigars, up to the year, to  
be put in here - and if so, then will be  
than our consignment this department  
aboard, with the Baggage and furniture  
loads of the former sales department above.

You that Mr. H. the firm has a stock of goods  
and Mr. Baker will have more merchandise,  
made nearly all his improvements, alterations  
to and so things become regulated. I expect  
he will organize the Real Estate office, a  
branch of business which he more particularly  
understands and out of which he will probably  
be make more money than from all the rest  
of the establishment put together. I  
hope to give up my present position  
in the office and under his supervision  
take charge of the real estate department,  
which I thought rather best than elsewhere.  
The whole business of H. O. W. is an

 experiment, and some think that the Com-  
 any will not last long - for the reason that  
 they have embarked in the enterprise with  
 scarcely a dollar of their own and most  
 of the people - It is astonishing what  
 W. B. the moving spirit of the enterprise has  
 done with the most limited means. But  
 the stockholders economy has been used, and  
 having weathered things so far, and if they  
 can for a couple of months longer than  
 they as I believe they can, then is no doubt  
 of their success, and that they will do an  
 immense business. On or two more months  
 rent from their shores and office will clear them  
 of the expenses they have been at, and  
 they will then have the rent clear to de-  
 fray the expenses of their business. I am  
 not getting much salary at present, indeed  
 none of their employees are, but should their  
 business prosper I hope to be paid well  
 for my services. I am taking the chance  
 a few months will tell what they are.  
 But enough of W. B. & Co. I have enough  
 to think of their affairs without writing  
 so much concerning them, though I should  
 like to see the account which I have given written

I shall not be able to write to mama at  
the present time but hope to do so that

I am too tired and sleepy or simply probably have drowsed  
than this a letter.

Dear Mr. [Name] [Address]

[Date]

Dear Mr. [Name],

I hope at this moment to  
be writing you the right  
thing. I have been very busy  
lately but I must find time  
to write you a few lines.  
I am writing you about the  
water in the [Name] [Name]  
and how it is getting  
worse and worse. I hope  
you will be able to do  
something about it. I am  
writing you about the  
water in the [Name] [Name]  
and how it is getting  
worse and worse. I hope  
you will be able to do  
something about it.

...and for some time, I may  
it is very simple, I may  
than some of them, which  
is considered to be quite  
purely, and has a very  
eyes, and is very light, and  
ivory, and is very  
light and is quite white,  
and is very smooth, and is  
of one kind, and is  
but he is very good, and  
that, I think they will  
accept of, that is, they  
may, and of course, they  
may have some other  
some other all-around things,  
you, but I think they will  
I think they are all nice  
children, and are very  
and are very nice, and  
George, he is not a bad  
in fact, and is very  
by the way.

in case I should send for the family in the Spring as I  
hope to be able to do this year I have sent them only  
money, \$200 by telegraphic transfer 14th of this month,  
which I hope came to hand safely to afford you and  
the rest a good time Christmas and to procure  
for all what is most absolutely necessary.  
I am glad to hear that you love, maintain and you like  
so much not to have been tempted to go away to  
Los Angeles, to leave them and I hope you will  
not be persuaded to do so by any one. Remain  
where you are at present, in the Spring I hope to  
be in a position to remove the family from San  
Diego, should there be no objection and the prospects  
for the future as dull as they are at the present time,  
but if you not able to do what I wish, I will  
do what I can - I think it would be a good thing to  
have you to come on to New York when you would certainly  
be able to learn something and probably get some  
thing to do. I will not say you positively that I  
will send for you alone in case of not being able to  
send for all of the family, though I would much like  
to do this. To have only one of the family with  
me in case I can not have all - the only trouble  
about the matter is that were you to come to mama and  
your sisters would be alone & unprotected. I would  
not like to place them in such a position as this, there-  
fore before deciding we must deliberate upon the matter  
which is best for all concerned and I wish you to  
consult with mama about it as she is much concerned  
and whatever she decides is for the best we must ac-  
cept. But I hope and trust that circumstances and  
events will so shape themselves in San Diego or New York  
that we may again all be united either here or there.  
I received two letters from you previous to the previous  
mentioned, giving full description of the well. You describe  
quite clearly in your sketch of the work, and I believe  
for you the well would never have been dug - I hope you  
are a good boy, respect mama and love your sisters  
and if you are you will ever mind the loss of your  
father, I give you with a welcome for the well you  
and hope for you to be successful.

My dear husband.

I am in receipt  
of your letter of Dec 14<sup>th</sup> including  
letters to the children, one to me  
and newspapers cutting many  
of Mrs. Stanton's great wealth  
and acres of parks, which are  
very good considering you do  
not set yourself up as a  
distinguished poet. I also,  
December 15<sup>th</sup> received notice  
from the telegraph office in  
the morning about 10 o'clock  
by mail stage, again only, to call  
at the office and receive for  
money, I'm afraid I must have  
not told so, but the following day,  
the 17<sup>th</sup> the money, \$100.00 was

at such time as you can send  
me more, I have many chores  
on them all, and intend to  
save all I can, and live  
economically as possible, it  
is a very large family, and  
it does take a great deal  
of time alone, please as I go  
along, as I do not intend to  
contract another bill, I shall  
be very careful of whatever money  
you send me and I do  
not need it with some of my  
savings from a salary which I  
have been receiving \$75.00  
a month taking in everything  
to keep things going as  
economical as I will, some money  
now. I am going in with  
the boys, Brown, Green, Frank  
to furnish the grain and feed  
for the horses, and Coult to  
furnish the corn, through rocky  
corn, and to do all the hard

all the time, well, well, and I  
up I saw you & did go on the hill  
with Lot and George for a walk  
Mrs Battelle said, she was going to get  
in some guests so we went ahead  
and we took our dinner, got  
a little walk, can stay with Nellie  
as the other party was afraid of sport  
my this camp but my name goes  
when the sun goes down, all good  
children, only very sweetly and  
not so, I don't forget to hope that  
you will not forget to say and  
that you will come in as much  
as I do, you, and I, and I, and I

you are so sweet, so sweet, and  
I will read when that beautiful  
country of mine comes back, that  
you will still think well of me  
and my joy, that I love you  
always, I am your very sweet  
love wife  
The children all send  
greetings to you and brother of  
your fish and honey for this  
Christmas presents and hope it  
will be a good one

Mr. Williams will not, but not alone  
Morse says so very much, and  
people are young that way, that  
he supposes they will make the  
work. You need not be troubled  
about it. Morse, meaning God, he is  
not from being distressed about  
the work. God is a great one of you  
making anything of it. He asks you as  
just tell him that you will be true to  
pay him for the work. He does not  
talk to you to say so. He is not  
to be very all satisfied to wait. Mrs.  
Morse and her mother were visiting  
them, and she, Mrs. Morse invited

San Diego, Dec <sup>30</sup> 1877

Dear Father,

Today is Sunday and is noted by the population, especially the civilized population of the World, as the Holy Sablath. I suppose that writing is considered the least of sins that could be executed on a Sunday. Mother received the \$100.00 sent by telegram from You Father, and did as You directed Her to do, the same as in one of your letters of the past. Mother on Christmas Eve gave each of us \$5 a piece, and the day before yesterday gave Frank \$20 to pay taxes I had a good

times with my money and as  
did the rest as I then might  
expect. The present that  
I gave to the family are B =  
P. I know might including  
Mr Battelle and William  
Powers was but a little  
dance that we had in the  
parlor with a fire burning  
in the hearth. Mr. I had  
commenced making fire  
again in the parlor as  
the weather is quite cool  
in the evening. I had B  
think my self that a fire  
one or two evening or any  
other time that it is cool  
feels quite comfortable to  
my knowledge. As you must  
think, as Father's the wealth  
on the winter Father's has  
been extremely cold for B.

with out any exaggeration,  
you will be surprised. Father  
at the following account that  
I will inform to you of the  
commencement of the winter  
by B. B. He said had since,  
the last 30 of November 5'  
inches of snow lay on all  
all 6' same. The first snow  
that rained, it rained for  
2-1/2 hours right straight  
along with out stopping a  
ribing out, and came down  
in buckets full. At that  
time the ice was not  
built and of course we had  
that much snow. The am-  
mount of water that we  
have in the system at pre-  
sent is 51 feet or 4000 500  
gallons. So now I think  
we will have some more

as the clouds keep hanging  
around and coming thick-  
er around, it is getting  
dark You may very easily  
discern by the way that I  
write so I will have to  
stop writing, so good bye

Remain Your Sincere

Son

Geo H. R. Whaley.
