New York, Aug 22nd 1849.

My Dear Wife,

I have just returned from
Johns, where I have been spending a
few days, trying to forget my disappoint-
ment in not having received my money,
as promised by Conant on the 10th of
this month, but I cannot say that
I am feeling much better in mind, not-
withstanding the diversion afforded me
by numerous sleigh rides &c. I am far
from being happy, as I must assure you,
expecting by this time to be far on my jour-
ney towards home. The weather has
been extremely cold and I have no con-
fidence in the place to write in without inter-
fering upon others, therefore extend my
writing in pencil whilst sitting in the
warroom of Richter & Co. in the old
post office building, where I generally
make my head quarters when I have

my abused, but promises that he will
do so as soon as he can. He has not
thought it advisable to have execution
issued, or even to threaten him, believing
that he will get the balance of the
money from him sooner than thought
he did. Thus you will see that I
am almost without means, when I should
have an abundance. I have some
little remains of the £30, which I made
one night on detection avoided, and of
which I sent you \$10. out of the 5th of the mo.
I have made nothing since and avoid
prospect of doing so at present. con-
sequently I can send you very little
at this time. I know how greatly you
are in need of money and the dis-
appointment you will feel when
you receive this containing only \$2.
but what can I do, my dear wife
in the face of destiny which ap-
pears so much against me at the

present time? I assure you it grieves
me as much as to call you. And we
must hope that something favorable
will transpire to relieve the distress
in which we both find ourselves in con-
sequence. I do not despair and neither
must you. Let us put our trust in
God, and hope for better times and
that they are not a far off.

I have an appointment with young,
through his lawyer, for tomorrow at
2 pm, and should he pay me \$50 -
as promised, I shall not lose a mo-
ment in making you a further and
more liberal remittance.

Couant went on to Washington
yesterday, to get an exhibition of the
lean of the old Post Office, and will
not return before Friday. I have
nothing to expect from that quarter
till after that time.

I paid your little bill out of the
\$30, so that I am almost without
funds and shall have to live very e-
conomically, more so than ever, till
I am again in funds -

I adhered before going to let me
you little exceeding the amount of

City and State before and - whether thought
 by me of input I am unable to say
 as well as of the property being ad-
 dressed and being in the amount
 will be mutually increased - but
 such address to be my care. I
 would prefer to have found at least
 all effects on the Royal, as there
 the only amount to be paid would
 have been but half as much.

I received today by our long letter
 of the 10th day last evening one
 from my old friend Anderson -
 I am glad that all inquiry
 and that you are so far by the
 you are so far so far that I am
 pleased to hear from you and
 very glad to hear from you and
 hope that you will be able
 to earn something, even over a
 little it will help me a little
 more and I am glad. I think with you
 that they should be as yet doing something
 though in our days they cannot be so
 by separated to do much, still they must do
 at any opportunity of getting something
 made for it. I think our business is that
 they will certainly improve and I am
 not from any from our days, they are

of which will be mutually increased. You
 shall feel my regards in regard to the
 friends, but I do not quite wish to be
 known that you are not, without amount
 will be a standard of the matter in a large
 City than a small town like New York.
 Besides we have some arrangements in
 our hands and some others in
 England, but we are determined to be
 nothing till we have them and of course
 all depending matters.

As the President has things in England
 both in preparation and that they will have
 for our better order and order, and
 there is a chance for the Royal (England)
 and then may be with a thing that
 there is a chance of the necessity of other things.
 I am glad to get all the things and
 you are I am sure might be in the
 enjoyment of your own things and
 but I think that of the President of the
 will be a good idea and to help you
 and the children to be in it. I am glad
 they are not the same as in any other
 matter to be better, might be away of my
 were again and had you to be in it
 to be of them things. I think that the
 of a little from England - but I think you
 have written about the things and I think
 the things in which you are and I think
 that things will be done in it. I am glad

writes again to her and upon general topics, which
may interest her moral ass & hope the
others will write to her. They must remember
that their grandmother is old and peculiar
in her ways. Should she not reply to their
letters that need not discourage them from
writing again to her, as I understand she
writes but seldom now a days to her most
intimate friends.

Mary Prosser has given two of her chil-
dren for adoption to parties who will prob-
ably do well by them, and she hopes to
dispose of her baby in the same way.
I tell her if she gets rid of all of her
children & shipping she will be in the way
yet for another husband. She says, then
it will be to a man who has money, and can
support her.

Mary Kent says her baby is making
them. Annie has a dear, but will not
get married before long. Dottie also
has a fellow, but as she is only 17, her moth-
er says it will be some years before she is
married.

John would, like to go to California, but the
trouble with the disposition of his money which
cost him about \$10,000 but he would gladly
sell for one half.

I must now close my dear wife, hoping
you will improve in health and with the assist-
ance that Dottie will write again soon and send
you some money if I can. With love to you
and the children from your affectionate
husband,
The Rev. Mr. [unclear]

added to what I said you would be
able us all to live more comfortably
than we do now - therefore my anxiety is
where you are and to take you all to
say "travelled", when I hope to get some
thing to do and give you the full
benefit of what you may earn -

I am sorry to inform you that B -
man has paid only \$6. more and is
wishing to you - making \$200 in all.

I had them to say "He said he would
pay \$20. more this afternoon and wishes
to be able to pay all before the 10th of
will do so if he gets with the money. I
trust he will be able to do so and of
course of getting out an execution and in-
quiring as to some perhaps two months
longer - God knows I have had a hard
time of it and had anxiety I am to return
home. It seems that there is no end to
my troubles. I will try to keep up a good heart
and look forward to some good news for
for all of us - I hope dear Mamma
that you will not despair should you
do so it would be better to give
my best love.

The country has passed through a
great trying time, but the times look
more prosperous than at any time during

New York, Aug 6th 1879.

My Dear Mrs. J.

I wrote you Monday last,
December 30th enclosing \$10. and to Miss
December 14th enclosing \$10. which amounts
I hope you have received.

I promised in my last to
send you more money to day, in case
I should go on detective work Saturday.
Fortunately, I was employed, and I
made \$30. for the night's work! Money
well earned, however as the night, though
cold was exceedingly pleasant. I was
in a closed carriage with a detective &
had only to get out at the wharves
to question the watchmen of the clear-
tors. We visited the pier of them, and
on the East River, five on the North
River, then at Atlantic Dock,oklyn
and four at Jersey City wharves -

Day however, when I hope to get some
thing to do and give you the full
benefit of the hospital money -
I am sorry to inform you that I
must have had only \$6 more in a day
making to you - making \$200 in all.
I had then to say, the said money
has \$25 more the afternoon quiet
to the able to pay all before the 10 days
and do as you wish to do with the money. I
must be well to send our letters and ex-
pense of getting out an excellent and a
quint and to some perhaps not much
London. See Russ I have had a long
time of it and too much of our to
know. It seems that there is no more
my letter, I think to keep up a good
and look forward to more good news
for all of us - I hope dear friend!
that you will not be in a hurry to
do as I would but let me signal to see
any help.
The country has become better and
more happy every day but the land
more profitable than ever any time during

the past five years and if I can only
get you all comfortably located in New
Haven, I shall not despair of being
able to take advantage of the various
opportunities which will naturally spring
into existence with the revival of trade.

I know of no more favorable time in
the history of our country than this at
present being foretold. and only wish
that I were a young man to take the full
advantage of it. There is certainly a bright
future for New York and may be for State
for Georgia when old enough and I hope that
they will by habits of industry and attention
to business be able to take advantage of the
favorable times, and if they do, before they
are thirty or thirty five years of age they
will find themselves in very comfortable circum-
stances. Business from New York first will improve
both trade and manufactures and there will
be no more idle men for the benefit. There will
be no more hard times and no longer will
be heard the desolate cry of "Nothing to do!"

Amalgamated cases necessary, though I did
go to New York to drink with them in commemo-
ration of the 10th anniversary of the departure from
N.Y. to England. I could not have the City,
Mary and Anna - New Year's day if I could

My dear Alice

Feb. 2nd 1858.

Dear Father;

Your letter to-Means
of the 22nd of January received
I am sorry that you have met
with so many disappointments,
were I in your place, I should have
long ago squeezed the last one of
them, have gotten my money and
been home long before this; but
you are doing the business, and I
trust you will be successful.

Our situation looks very
gloomy in all respects; but you write that
as far as you can see, matters are
all right for us respecting our rail-
road. I trust it is so.

Enclose please find slip con-
taining list of property belonging to

as advertising in "delinquent tax list" for sale. I think it better later it be sold, and in my opinion, at the time of sale, there will be no bids for any property at all, therefore it will remain as it is, without further expense, except advertising, or charge against the property which at any time, when through justifiable, can be recovered. The house has been paid on. Please find in this mail "The Union" containing said tax list.

I worked in the trial, and may probably get a permanent position in the office; I shall know tomorrow.

We have here an abundance of rain, every thing is green and healthy, our farmers will reach good crops, and enough potatoes will be raised this year to supply the whole State.

Feb 1879

Should a drought take place in the upper counties, which is now every body's concern. We have had no former rain in this county according to statistics than any other county in the State. We may therefore rejoice that the coming summer, will be one of our agricultural prospects and triumph.

The Hooper matter is settled as far by the sale of Bond and Ross property, subject to redemption within six months from time of sale.

Our little building is continually going on here. Two brick buildings and a couple frame are in course of erection in New Town. Dan Sligo is beginning to look very pretty from the numerous trees and shrubs which adorn

our sheets and gardens. An im-
provement in one aspect at least.

Mamma and all hands have
been laid up with the "spizotia"
which is our prevalent ailment. All are
doing well.

Remember me kindly to all
relations and friends, tell them
I am O.K.

Trusting you are well and the
next letter will be one of more
encouragement from you. I am

Very Sincerely

Yours Truly

ago in tabular form, did you
get it?

"Wearv of thinking, thinking -
O soul with thou never cease?
Worn out and tired and weary,
Shalt thou never more know peace?
Wearv and tired, so tired -
All earth takes up the refrain:
Wearv and tired, so tired,
Murmur the wind and rain."
- Claude de Haover.

New York February 2^d 1879.

My Dear Wife,

The above extract from Saturday's
"Evening Express", conveys exactly my feelings.
"I am worn out and tired, weary of thinking."
I try to find some consolation in the hope that
there will soon be an end of my troubles, and it
is this which sustains me.

I wrote you last on the 30th ult. enclosing \$200⁰⁰
which was all the money I could then spare. I
informed you of my lawyer's intention of taking

some debts against Bailey & Bonant. Later
day, on my application, an order was issued
for the payment of \$200 from collecting rents
of the lot that I own and the tenants farming
on the same. The order had been served upon
Bonant, and when I was serving my application
for the same, Bonant went to see my lawyer, and
funding me, they wished I would help them in
doing the balance and give a certificate with
them to see if some arrangement for the pay-
ment of my judgment could not be made.
(I had served mine of the motion order.)
We met in Bonant's office when we had a long
talk. The result of which was that the order
against Bonant should be withdrawn, but those debts
on the tenants should be withdrawn. That Bonant
might go on in collecting the rents as usual
and any debts above \$410. (The amount of the
monthly rent due the Government) he should
hand over to my lawyer until I was fully paid.
Bonant to be at the expense in getting over the
order. I also explained that I had no other

balance of the \$10, for services rendered since I
left his employ. and about which they had secured
much difficulty, should be immediately paid.
He assented to this, gave me the money, and I
received the same for it. I thought the arrange-
ment made was an equitable one and therefore
agreed to it. I had him in my lawyer and he
knew it. While I did not wish to take advantage
what I might. It would have had him off
completely, he would not have been able to pay
the Government and prevent him from
obtaining an extension of the term which
he is at present expecting to get. Besides
it would have been fifty days or more be-
fore I could have obtained my money.
I returned more of them perfectly paid.
He begged hard for me to consent that I
which I had promised is allowed to be
paid the money as he promised to do in
10th day, but this I would not consent to
owing to my situation and expense had
I had him he should pay over a half

\$50 per month for the time I was detained
here on his account.

Under all circumstances I have done
what is for the best and I hope it will re-
sult in my getting my money.

As the present proceeding will ~~not~~ ^{be} ~~be~~ ^{be} avoidable against Bailey, as was the
intention when the order was taken out,
some other steps will have to be taken to reach
him to obtain the \$110.00 and costs which he
owed. I told Couant when he had paid in full
I would give him a chance of making the \$50
discount by giving him an assignment of
the judgment against Bailey rather than
be detained here to collect it.

Couant can do this safely as Bailey
has a half interest in the lead with him,
as the control and collection of rents are
in his hands.

As regards settlement with Young yet,
nothing done. I was to have met him Satur-
day, but owing to the Couant matter, could

not do so, will now have to appoint another day. I do not despair of arranging with him.

I have given you an account of just how matters stand and are progressing. It may be interesting, but rather dry reading to you. I am sorry not to have more agreeable news to write about, but one is constrained to tell of that which most occupies the mind.

John was down last week to see mother, who is now at Harriet's. Pays \$14. per week board, besides \$5.00 per week for her nurse. To whom she pays \$8.00. So that her expenses exceed her income and she must draw on the principal from some fund. Mother is not satisfied and will not remain there long. Her health is better and she may yet live several years.

I was at Letty's the other evening with John. They are well excepting having lost some who had been very sick with pneumonia. She said she had seen

The letter written by you to George and Miss
of the girls to mother, and thought they were
very nice. As thought mother many and
have thought much of George's letter, yet
Bobby was pleased with it. I hope the
children will write to mother again soon.
I wish to hear one from you. They hardly
need effort answers to them. I wish all
mother is too old to write much more.
I'll write you about St. Sebastian
day, so I enclose a document for each
of the girls which they doubtless will not
pardon the coming of you.
I trust I'll take to be about
for home soon. and will wish you
if it is time to go with to church any
times here which may be additional
to the care of your mother.
I shall go home as soon as possible
as possible having no money to go
away. I did think of going by the
emigrant train, but as the weather

will be very cold I shall not wish
to be on the road longer than I can
help.

I am sorry not to have money
to pay taxes on the property, and
if you can arrange in any way to
help my country I shall be glad to
do everything for you. I wish you
time of advertising. I wish you
would do so, as the advertisements
will be considered. On the first
about it will make much.

I hope you are all well and
that you and George are earning
what they can for the household.
We have a hard road before us,
but with health and strength we
need not despair of doing well.
Peter's hands and necks hands are
being in their own country
I need your love of mother's
received from Constant and all

of course I have my business for the time being but I shall be
able to get on with it in a few days - but I shall be

John thinks very strongly of go-
ing to California and wishes me to
wait till Spring for him. I feel

that I would be pleased to have his
company, but as soon as I am ready
I shall start without the delay of a
single day.

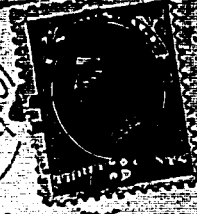

My health is good, though I have
not yet gotten rid of my headache, but
I have the money to do so, but I shall
before I leave, as well as have my
business settled, without delay as presented
as possible. Nothing like making a
good impression you know.

Dear Cousin Frank

I suppose you
have given up in despair of
ever hearing from me but it is
better late than never, it has not
been negligent on my part
for I have, I don't know how
many times commenced to write
you. I would get four or five
lines written but never seemed to
get any farther, would be satisfied
in some way or other Frank
you must not think because
you are out of sight that you

are out of money for that is what they want to thinking
and the case, we give talk of the of to let your income single,
great, all times we need to have how far have his degree here
when you work our best time person to be a few looking

Frank I am sorry to say
you miss our love are living
for it is delightful to have a
young gentleman leading you
around the ice and the band
playing the most delightful music
you ever heard, then again to
have a party of both you and a
private friend and take a slight
walk with you. Frank you would have
laughed had you seen Miss

John Osuna aged 35 years will marry in a few days Cornelia pond aged 18, horrible in its nature. We have had two good days this winter and it is cloudy now. Our cistern is full and a great comfort. The country around looks very green. I told Witherbee I would pay him when you send me the money \$10.00. I have not seen him since. Violet has just received another beautiful valentine which makes three to-day. I don't think

even like that the devil's work
look as if she did. I did
not tell them that Mr
Puffer lent them the \$5.00
but he needed it so much
and they would not have
been pleased if they knew
that I kept it. That is
the reason they have not
written the Mr Puffer sta-

enclosing a \$40.00 bill, and a
\$55.00 bill for which I am
very thankful. I also receiv-

ter of the 30th Jan. containing
\$2.00, but the last sheet
letters from you have reach-
ed me open one end, and
this last containing the \$6.00
the envelope was almost
entirely off, I think your
envelopes are not good
as my letters receive rough
usage, it is lucky that
the money arrives safely.

the Translators that being
as much as he will suit
me. I have a hard time
to get along, and it will
be a blessed relief if we
can have some such some
time. Thanks for job of

mostly for his board in New
York. George is willing to
work, but admits that
he cannot hold out to
work from 5 o'clock in
the morning to 10 at night

to make him feel easy
about staying at home as
he seems to be well con-
sidered depending on me now.

the house, it came to \$10.50
I had to supply the 50 ct.
I thought it better to have
the house clear, and let the
property the little left go
as it is absolutely worth
less than nothing. We have
no property now, but my
property and a few lots of
Frank's left after the
Dodson settlement, all of
which Frank wrote you
about. We have all been

New York, Feb 10, 79

My dear wife.

Yours of 29th Jan'y, post marked the 31st has just come to hand. I hasten to answer it, to relieve your mind from anxiety, as I know you will be expecting to hear from me - I wrote you last on the 3d of the month enclosing \$600 and previously on the 3d Jan'y enclosing \$200. At my last I informed you of some steps being taken to procure my money from Conant & Boney but must wait till tomorrow to know the result.

The committee of Ways and Means has agreed to a bill transferring the site of the old Post Office N. Y. to the Chamber of Commerce for \$250,000. Should this pass the present Session of Congress it will prevent Conant from getting a receipt of his lease which expires May 1st, but as the time is getting short, it is not probable that any thing will be done this Session. Conant is very much worried about

for money, but that is my excuse for dipping and
a settlement. I think I have had a very
hard time of it generally - treated, the way
I am by every body and my health that
become callous and seared against every
doing any one further favors of any kind,
though it is not my nature and I presume
if I had money now I should be as gen-
erally despised - believed.

I know nothing of the movements or where
abouts of John Young at the present time,
not being upon his father's terms with his
land. I presume I should be able to
know, not perhaps it would be of any use.
I am certain that the woman nor I approve of his
conduct towards me, and if in his power she
could reimburse me the money loaned, and
or insist upon his doing so.

I doubt if she ever returned to this Country
or again lived with her husband, unless she
changed for the better sake placed his affairs.

You say that you and Frank had
more than one debt your mother ad-
dress and the amount of taxes due upon
the property and in fact that my memory
was failing me - Certainly I have
trouble enough to impair not even my
memory but all my other faculties,
but in regard to this matter of your
mother's debts and the amount of taxes
due, I am positively certain that you have
written only once the address and Frank
but once in regard to the amount of
taxes. You attempted to convey the
letter but failed to do so - I hardly

think any of your letters have failed to reach
me, but do I have acknowledged all received
you will be best able to judge -

Open some the papers and not likely
to be paid without incurring the ad-
ditional cost of advertising & besides
every thing seems to go wrong with us, it
could be they are more to the great accu-
mulation of wrongs which oppress us.
Let us hope that there will be a change
of fortune soon - a long long down hill
we have been pursuing - But there would be
a turn to affairs when we reach the
bottom. I do not despair - I have seen
as hard times as any the present. All I ask
is to retain my health and to become
more at home - the much good fortune
which has attended me other things looking
most gloomy, certainly has not all gone
and though I am enough older yet there
still remains some of the old within in me
enough I hope to become as something
within the next five or ten years -
to dear man be of good cheer - regain
your health and strength that you may
enjoy the many days of happiness which
I believe is still left for both of us -

I am in a pit, just now - which if I can
get out, I hope to be able to make some money
yet - but there are other things worth living
for besides merely making money - The
true money that is really for accumulation -
I can find only as the means of enabling
us to live comfortably and doing as
the good we can with it.

I see by the papers that not only have
you had a grand day of rain, but that
the weather has been extremely good in the
southern part of the State, the thousands
being at least 23° at San Diego. You

^{right} ^{in my}
I suppose the reason I never did not come
to see you is, because I am unable to
pay him - but he should remember that
I have done all that was in my power
and therefore you and my family are
deserving of consideration and not to be
allowed to suffer or want if in your
power to do so - ~~the reason~~ I think
I never wrote to him - not to ask him for
anything but to explain a little of my present
situation. He may perhaps think
that I have means and abundance able
to pay him - I think he is hurt because I
have not written to him of him - well I have
not had the heart to write to any one -

I do not suppose you are to be influenced by
what "some folks" say regard to my prolonged
absence and having "other attractions" &c.

You have too much good sense and know
my regard and affection for you too well to
believe that is the least probability of truth
in any surmises of this kind.

You are right you to believe what I say and
you can believe I follow do believe that you were
you to enquire you would learn nothing to
the contrary.

I have loved you too long and too well
ever to exchange your affection for that of an
other woman's wish or when the enjoyment may
be found in poverty or wealth. The strength of
my love like that of wine, increases with the
age and I look forward to the time when again I may
clasp you in my arms and quaff the accumulated
nectar of three long years from your willing lips.

God bless our dear children. I wish their hearts with
love and devotion for all that is good and true and may
they be inspired by their love that they will become worthy
of their dear father. Believe me your ever devoted
husband who always thinks of you and ever will love
you
I do so truly,

the additional cost only on our part.
But the thing is done now, and we will
have to pay the taxes with the costs when
we are able. I think however as you are
taxed for free, it will be better to pay at
least the \$4.00 as the property assessed
in your name is liable for it. You will
do this if you think it is for the best. As
there is so much property advertised to be
liquidated, and as the times are so hard and
everybody have all the property they want
the probability is that there will be but little
of the property sold for taxes, unless there is
a certainty of better prospects for a rail
road than at present. Our property may
not be sold, but in case it is we shall have
considerable more to pay to redeem it.

All the property is not advertised - some
of the Playa lots or the tide lands - and may
be several other pieces besides the lot and a
half at New Town. I have no list of what

My dear Mr. Frank.

Yours of the 2nd inst came to hand yesterday only, owing to my not having been to the office for several days. I was pleased to hear from you that the forces are better from their exertions and that you have a prospect of getting employment in the Union office. I also received the paper containing the advertisement of tax sales of property on the 24th of the month. You say the tax on the house have been paid. It would have been better to have paid the tax on the other property and have saved the additional expense of advertising it, at the about 75¢ on each plot for city and the same for State and County, in the aggregate more than the whole amount of the taxes. In paying on the house you have saved

My dear Wife and Children.

Thank Heaven, the great danger is past and I am no longer suffering as I was!

Sunday, 23^d Feby, at 9 1/2 in the evening, whilst at the house of Mary Bissell I was suddenly and severely attacked with Erysipelas. My head commenced aching violently and then my nose and other parts of my face commenced swelling, and continued till I looked like a most frightful object - and both eyes were closed.

Mary would not hear of my going over to New York, said I must remain and that she would do all

He went to make me comfortable, and
 this she has done. I have regained
 as comfortable in every way as though I
 had been at home. Very fortunate in-
 deed. Good of you that I was taken direct
 for London. I had been spending the
 day at Leeds, and thought I was making
 very little, yet I was not complaining at all,
 I walked leisurely down from Leeds, but
 had no usual pains the horse than
 the usual pains and. It proceeded from
 a severe cold in the lungs, pain in the back
 from too much exposure to night air, and
 may be most of all to inequality of lungs
 a want of high nourishing food. The latter ex-
 tended for long some five or six the lungs
 was taken sick, and very tedious, and from
 this should depend some cough, but I have
 been there upon my back with the
 limbs affected with pain and distress and

frequently in my pockets. But a man may

 It was decided that a Doctor must
 be sent for - for an hour he came
 I was afraid of German influenza with a possibility
 that had just started me in his favor -
 He made a thorough investigation of my
 case - said that I was a very delicate and
 asked my age, habits &c - He had seen
 several ~~quintessence~~ were and as my pulse was
 high, dyspnoea was absent every 2 hours -
 and I had no other affections. I think I
 would be glad to a great extent, the
 to be well and constantly dependent upon
 faces - He said I might get acquainted with
 myself, and so, for inquiry, ask to send to
 the sea, and I had a high fever, and some-
 times a high fever, I had a high fever, and
 with the night
 I believe the doctor really thought I was
 a very delicate man, as he said I was
 cured in a few days - and I would like
 to have that very day used
 I have been separated in this dis-
 ease. The danger as in hospitals is
 the doctor's nurse, and I believe I am

 the doctor cannot say that, and I have

was a favorable change, and continued for
two days more, making 4 words when
I told him of my position and that I
could not afford to pay him a big bill. He
said you can pay up to the present
time and I will come in to see you
every other day, till I think you are well.
Now want this kind of strange doctor,
a man who has quite a large practice and
drives around in a coupe. He says those
who can pay must, but if a man can't,
he is willing to treat him for nothing. He also
told many of the had sicknesses and times not
to hesitate to send for him.

I have been three or four hours writing this
much. I am tired and must defer finish-
ing till tomorrow.

March 4th I got interested reading
the closing debates of congress, and by the time
I was through, did not feel like writing.

March 6, 79, I was not feeling very well yesterday, therefore unable to write. I will now make a finish of this letter, knowing the anxiety which the delay will cause you. It happened that John came down the Tuesday day after I was taken sick. He went to see my lawyer, got \$25, the only money that had been paid in since the 10th of Peby, this placed me above want. I handed the Dr \$50, he kindly returned me \$30 of it. Said he would have no other charge against me, and he would come as often as needed. I was well. Wasnt this kind of a strange doctor. Called Tom Hood, Mary Gibbs, Frank & Amilia Kandel, Simon Pye, Jennie Whaley and my friend Brown have been to see me, some oftener than once, so I have not been quite forgotten. Many of our friends have sent me things. Mother often enquires about me, and seems to be very much interested in my account. Says she is so sorry and hopes that I get good attention. I paid many for money advanced upto the time I got \$25.00 since then I have furnished him with the money to buy what was necessary for me, and I have not wanted for anything conducive to my comfort. With exception of first two days, I have been up from 5th Ave tree 10th pm - lying down once

when feeling tired so that I have set up to a
table partaking of my meals.

I wrote you, or rather Frank, Febry 19, enclosing
\$1000. nothing since. Yours of 14th Febry. came to
hand since I was taken sick. It was fortunate that the
money was not lost from the letter. will use more pre-
cautions here after. I enclose you \$500 which is all
I can possibly spare in view of my sickness. You will
take good care of it, money hard to get. Hope Frank
and George will make something to keep along. I know
nothing of my affairs, have written Mr Brown to see
Bishop and press the collection against Conant
Conant will get F.O. for another year - Tell man-
nie not to do any thing so rash as to take the first
man that offers - unless every way worthy and with
some prospects in life. I should think that you might
be some nice young man in N.Y. but if there are not
she can wait. It almost seems as though I will
never get my money and leave for home - I fear by the
time I get it there will be so little of it left - and not
enough to get home with. I may have to stop re-
sulting you anything in order to save enough
to get away - I hope to be fully recovered in a
week or two days from now - will write to you again
soon. With love to you and all from your devoted
friend, P. M. H. C.

Brooklyn, March 14, 79.

My dear wife,

I sent you a letter on the 6th inst, enclosing \$5⁰⁰, and informing you that I was attacked with Erysipelas on the 23rd February. At the time I wrote I was in a fair way of recovery and continued to mend till the 10th, when the doctor said there was no necessity of continuing his visit and that I might go out, take a little walk any fair day. The 11th was pleasant enough, but I hardly dared to venture out. The 12th was rather a cold and very windy day. I thought I might at least venture to go to the water closet which is located in the basement of the house. On opening the door the damp mouldy fungus smell seemed to strike right into every part of me. I thought of ascending up stairs at once but did not believing I might venture without

any serious consequence to me. I had
 not been up stairs more than ten minutes
 when I was seized with chills in the back
 and legs were paralytic. Before night
 my face was swollen almost as badly
 as when first attacked and it was first
 to return. I had considerable pain, sent
 for the same physicians and pursued the
 same course as prescribed by the doctors.
 On the morning of the 13th legs were, and
 sent for the doctors. He was not surprised
 at my relapse when later that I had been
 absent in the bedroom, and said I must
 never go down stairs again, and as several
 days after I was near the stairs. He
 said I had a very high fever, prescribed
 3 leeches to spare upon my knees, and that
 I must be very careful of the treatment of
 my legs. I had eaten nothing the night
 previous and neither did I all day previous
 day. I drink a half cup tea in the morning
 and one cup tea in the evening.

ability. I was feeling bad week to get
 up and so kept in bed all day yesterday.
 I passed the night rather quietly, and
 was feeling somewhat better this morning as
 to be able to get up and have eaten 2
 eggs, 2 slices of bread buttered, a cup of weak
 coffee, a handful of nuts and 2 small
 biscuits. I am feeling much better &
 believe I am in a fair way of recovering
 even a man was, but it will be some
 time before I can venture out.
 Enclosed the presents who have shown
 me kindness and attention, with the
 expressions of Mary Anne, now have shown
 more for me than any other friend I
 possess. He has sent me shavers and blades
 sets of various kinds, besides coming him-
 self to see me or sending his son, some
 one, sometimes twice a day.
 Mary and her children (Sarah & Martha) have
 been very kind to me, and thought for

house, I feel that I am infinitely better
off than I would be were I in a hospital.
I know of no friend at whose house I would
rather be than at hers.

You might write to her, and in your
expression of gratitude you cannot use
language so strong for her kindness and at-
tention to your husband in his affliction.

It is with considerable effort I have
succeeded in writing this letter, but as
I promised in my last, to write soon again
I thought I must do so -

You need have no concern as to my ul-
timate recovery, as I have learned from sad ex-
perience to be more careful of myself.

Mr William Puffer says he saw in the papers, that
at the Extra Session of Congress, the Texas &
Pacific R.R. Bill would be taken up and passed,
that every thing was cut & dried. I hope
this may be so. I am unable to send you any
money. With love to you and the children,
and as ever, your affectionate father, Thos Whaley

My Dear Wife, (32 Anniversary of my leaving home.)

I wrote you the 6th inst. giving a detailed account of an attack of Erysipelas from which I was recovering - then again on the 13th inst. that I had had a relapse of the disease and was once more in a fair way of getting well. I have since been mending slowly, all swelling having disappeared and with the exception of a fullness in the right side of my head, about the region of the ear, and my towards deafness, I have nothing in particular to matter with me, except being nervous and easily excited. My appetite is very fair and I indulge it in moderation, but my taste is not yet quite right. I have not yet been out of the house, the weather not being desirable enough. I am almost afraid to venture out, as, at this season of the year, they say I am liable to be attacked again, but shall do so the first favorable day. I have some few visitors constantly. Every day Puffer calls to see me or sends his son William to inquire how I am. He has been very

And, the last thing he said was a fair good by,
which I received very much. He wish me to go down
with him Sunday, his day being pleasant. His house
is about ten minutes walk from when I said.
Sunday night will be just four weeks since I was
taken sick in this house, and a long year weeks it
has been to me, time killed and I excused to you as
I am concerned. I have not suffered myself of attending
matters further than write to a friend by the name of
Browne requesting him to do my errands and to re-
port to me. Last time he was on his back my legs
had recovered from your consent and that the husband
was that all former he, I have signed place and that

The next I have seen is in having made the "Dum"

My sickness will not cost me much, having

pay for everything up to the present time, in-
cluding medicines. I shall have besides
to make Mary a present of something, but
think I can do that from things at my
room which I shall not wish to take home.
Cousins, Shuts 10—

It was my intention to have written
yesterday but was prevented from doing so.
It was fortunate, as this morning William
Duffer bought me your letter of the 9th, mailed
the 11th. I was very glad to hear from you
not having received a letter since the 25th Feb
about the time I was just taken sick.

March 22nd. I could not possibly finish my
letter yesterday, Mary being out and I having
no supervision of the house and children. I ex-
pected to have gone out today as far as Mrs
Gibbs, but it is cold and raining very hard,

3-21-77 5

and I am affected by it, my head feeling uncon-
fortably thick. I think the trouble is in my
ears, particularly the right one. I am not
deaf, but have a dullness in my head in the
region of the ears, which, if it went to clear away,
I should feel better, perhaps all right. I have
been busy fixing up my clothes a little so that
I may look presentable in case the
weather permits me to go to dinner with Prof-
fer tomorrow. I do not expect Kurova to go.
It is now nearly four o'clock, I must hurry
up and finish this letter, so I shall not get it
off to day. You will excuse my writing so
much about my sickness and my self, know-
ing at the present time very little else to write
about. I believe however that it will inter-
est you. You need have no fears concern-
ing me. I think I am in a fair way of
recovery and as soon as the weather im-
proves so that I can begin to get around a
little, I shall rapidly improve.

You appear to have your troubles,
more or less constantly, sick, if not one

thing, another to wonder good. You have
acquired a great deal during the past
year or six years, but having got as far
along, probably with your determination,
you will in the end come out all right
with a reasonable amount on your side and
perhaps some thousands more. I hope
the children are obedient and kind to you
relating you some hard work, or doing
anything more than you feel like doing
along with him when we are again to be
winded and I trust that under no circum-
stances will any necessity exist for an addi-
tional supply of any from home.

All our love to those of whom I most particularly
remember the circumstances of the quilt.
When you are falling upon the bed thought
that may be dying they are his to coming
from his judgment reformation already good
I do not believe he is in any way affected
ed with the quilt, as I hardly suppose he
is troubled with high fever enough, what
quinnely practices the good. You'll know

ever is young and will outgrow the office -
love. I hope he was successful enough
to get something in manner of the the money
office. I should think he might find
employment of some kind by George in
Providence, thereby he might be learning
and earning something. Our education
all depending upon the readiness of
our pockets. I repeat this exceed-
ingly and hope our way will be made
yet into something whereby we shall ac-
quire advantages, which do long have
been denied to us.

March 26, Since this letter remains unopen-
ed and unread, Sunday was too cold
and hard to go out, do was accordingly
in going to the streets to clean, though I had a
good chance to visit my mother and the children.
The Misses say they wish to see our mother
every, as well as Sunday, this week.

Monday was a pleasant day, rather warm
but a little too windy for me. I went
with - at 1 o'clock, weather is 5 to 10 and

remained thus till 3. They were glad to see
me. Yesterday was a cold raw day and
impossible for me to go out. I caught a little
cold in my face from going out Monday, but
this morning I am feeling all right again
with the exception of a tendency to swelling
under the eyes. The day, though cold, is
pleasant and the wind is blowing. I am feeling
this and will go out about 1 o'clock for a walk.
The only medicine I take is quinine & iron,
which the Doctor says I must continue for
some time to come. Given as the amount
of fever I had may have counteracted the fever
sent by the hand rub in the morning, but I
expect it will come again in the course
of time. I intended to have written to Man-
nion. I hope for the sake of many, the world
many any one beneath myself with any game
so low that she will be ashamed of her connec-
tion and who could not be introduced above
hours and tread upon terms of equality with
scarcely. The few young men of Old Town, here,
even attractive they may appear to be to the eyes.
The more you see of the number of affections, as
far from being compared to young gentlemen
to be found elsewhere, who have had opportunities
to learn, and belong to families who have stand-
ing and position, connected with whom, she may
be proud. I believe Mannion is deserving of
some good young man of position and perhaps
of means enough to permit her to live comfortably.
Do not think she is one who would take to
grovel a lifetime in misery and than the dreary
with of companions such as might be found
were she to marry with any of the old crowd, fam-
ilies of greater pretensions and I hope she has
more people than her mind of doing so. As
long as she desires she is well come to make

make it as comfortable as circumstances
will allow - My mind is very badly off - but what we
may wish, affection and determination
we may improve our condition, even though
the Park Road of World never come to make
a change for the better quite certain. My in-
tention is to return home as soon as I
can possibly leave, and when then, I shall
set to at once to discuss with you what
is best to be done to insure the comfort
and happiness of all the family. I
will try to be in view of some circumstances
and the course which I think you had
that she would be consistent in her action
and do nothing which will cause re-
gret to her or disappointment to ourselves.
Life means to "walk a mile" - to be in and being
she is young yet - and not to give any good
particular encouragement, but to bring
one comes along - she will certainly bring
some one of reputation and standing, with whom
she will ever be contented and happy.
I am sorry I have no money to send you,
though I understand that our friends in my
lawyer's hands - as soon as I can I will
go over to study and hope soon to straighten
you out matters to enable you to leave for
home soon - My intention was to have
sent this on the 20th so as to have reached
you on the anniversary of your birthday
March 31. As I had no money to enclose
I was not very particular about it, I hope
you will have a good sum of it and that your
health will improve. With love to the children &
trusting that the smiles of fortune will encircle
us with baneful wreaths and that our own
we shall be united, never more to part, we will
from you ever devoted and happy people to
who may God to protect you - Affly & warmly -

which you inform me of
your severe illness, we were
all very much alarmed
when reading the heading
of your letter, and very much
grieved and alarmed on
your account, I thank God
too that you are better and
expect to get all right soon.
My sincere thanks to Mary

shall never forget her kind-
ness to you so far away
from home, and that if it
is ever in my power to
show her my gratitude in
a substantial way I shall

to so. It was the return of
your old sickness, as from what
you write you were attacked
in the same way. I hope you
took advantage of that Doct^r

"Tape-worm" removed, I do not
think you will ever enjoy
good perfect health as long
as you harbor such a reptile
within you. you had better
let him remove its at once.
I hope that by the time you
receive this you will be per-
fectly well and about again.

Providence, March 31 - 1879.

My dear wife.

Today is somewhere between the 40th and 50th anniversary of your birth. (I am mindful of important events.) In honor of the occasion I am in receipt of your welcome letter, postmarked the 20th March, containing much that is agreeable to read, but that in reference to being very distressing to me, to which I will particularly refer before closing.

Yesterday, being an extremely pleasant I went out without fear. - dined with Peffer, and then walked to Linas when I took tea returning home at 8, feeling as usual. My intention was to have gone to N.Y. to day, but it blew a gale from 40 to 50 miles per hour. - John came down Saturday he has passed most of the day with me. He wants me to go up with him and I think I would do Wednesday.

April 2nd I went over to N.Y. yesterday.

that first that first time. But did not
my lawyer. I got down morning, what
excused me. No pay what I've on
of my expenses and to send you
a letter. I say more strong lawyer
writing this but you be with with
I may improve from, as I am going
with John and shall remain there.
I'll with Monday or Tuesday. I'll
I have quite nothing. I am ac-
night on my feet (both and) quite
night in the fact. My day, though
I'll remedy in presence, I think I
may and go to in change of quarters
when the order of the officers arrive
annoyed me a great deal. I consider
the necessity of the letter of your's
rights. But glad you got the money
of I wish you send on the 13th &
14th March, in the latter meeting, of
conclude night, B. 2. 2. This time I being
you B. 2. 2. which I will send you

William with the act is done you much, if
I am more of I am ever to get from

some of his debts at San Antonio.
I say I understand all the particulars
of the matter of the copy of the hearing
such a kind and I will be sure to
of the matter. I shall be sure you are
having something. I will let you

I am sure you will be sure to

to go to school, and had
the idea been carried out years
ago it would have been better for the fam-
ily, but better late than never.
I am glad the girls are well and happy.
That, in the circumstances, admit-
tively Violet should continue to go to
school can't be said, but
you can best judge whether it is
possible for her to require more
at school. She may however still
learn something at home, reading
such books as you may designate.
You must certainly have sacrificed
our place very much, selling out
so many trees, and in case we
should have Jan's logs it will be
a great loss, but what matters a
few trees if we can get something
as to earn bread and butter which
is the main thing. Conquest is
in session, but doubtful if any
is sent to school of San Diego.

Life is very busy with us and
my looking up to me for every
thing. Now Selie had to stay
at home, and she has no money
to go to school with, it is too
bad that I can not help it.
I do not wish to trouble you
now perhaps but I do not
see the way the case of us
many one may mind. I hope
well, having had some tension
and down at every one in
our (Sister's) seeing to be
good. I do not want you to
and like me to look to the
Mortis for anything any more
they do not come here any
more to see me, and when
they come to pass through
old town they take the lower
road down by the bridge -
I will, and around us at night
possible for years we must
not conclude. I do not like
and I do not want
the first George
is in, do do not like them, as
they are so spiteful against George
about the few things. George gets
him, do do not say anything to
I think of them as they would
I read it around. George is
the case of Dr. Mr. Smith
and certainly, taking care of
himself, he get, and every job
and I do not know enough to
say his medicine, he says it
looks sometimes to get cured, he
has no more to blame but him-

for his wife and two children
both boys, she was a Miss Schilly
of you remember, and niece of
Schiller's Manasse. So goes this
place nothing but trouble all
the time. Rose is postmaster
still and still looks for the
Rail Road. Our daughters grow
a great deal about not having
good company and nice young
men to go with, but I tell
them that it is time enough
yet if we can only manage
to live along, and that perhaps
some day we may strike in the
mine by a big bag of gold.
I hope you have entirely recovered

Does John still think
of moving to California? Also
most of him thinks of leaving
we don't disagree, let him look
first and send only a new
place around Los Angeles.

Dear Father.

Having just finished writing
to Grandma I thought I would write
a few lines to you although there
is not much to write about - every
thing is still quiet - here all pretty
well at present - I have had another
or heavy cold for three weeks and
have not yet got rid of it but
hope soon to. I am very sorry
indeed to hear of your illness
Dear Papa I have prayed for
your recovery and hope by this
time they have been ^{prayers} answered
I am glad you are so well taken
care of I do not think your coming
to S. D. will benefit your health
any don't think I write this because
I do not wish to see you for

indeed I do wish the next we speak
of you every day and long to see
you. I would much rather
stay in S. of. than to go to S. of.
where we would be nobody, both
mama and I want to go to Los
Angeles & think we could do well
there and, Mamma is well ac-
cinted there I do not dislike
S. of. but I do wish that we lived
in New Town we could then
have a good time and get along
better but it is our wish to
be in Old Town. Mamma's
garden is growing very well
trees full of fruit and have a
large lemon tree all in blossom
and little lemons on it -
we also have a large peach tree
full of peaches & have raised a
large crop of potatoes, corn
& other things and corn can
easily run all our
vegetables and fruit, & I
and I were invited by the
ministers to a picnic to S. of. for
a good time we had been to
into S. of. you all once in a
great while we have a good time
but not often. Father has
left by day for S. of. to see
to see his brother who has
not seem for some years
he has leave of absence for a year
I doubt if he ever returns again
every body are feeling very badly
about his going away. I hope
you will not find any fault
with this letter. I know it is
very factly written but I have
is in care. I hope you will be
able to make it - out next time
will do better I will write
your loving daughter - Ann

My Dear Wife.

I wrote you on the 22nd enclosing \$10.00. Herewith please find enclosed \$5.00. adhvva

Conant has paid up in full and I have had settlement with my lawyer. Balance coming to me \$140.00, an amount barely sufficient to carry me home. I shall go in the emigrant train in order to have something left on my arrival. There is a probability of my being able to get a free pass, through Puffer's influence, overland, and through Tom Trauser by steamer but I do not make any calculation upon this, but expect to have to purchase emigrant ticket overland. I shall not want

longer than the end of week week for a
the pass, as I had little money and
also our work to remain here of building
it on an uncertainty.

You need not write any more to me
then, I will fulfill letters to you of
your greeting, said phrases.

 shares it with George. So I
 have come to the conclusion now that
 it is best to let them visit one

Yours of May
10th & May 17th came to hand
safely, the former one containing
\$5.00, for which thank.

In connection
with the Light-house case at
this present time, I have only
to say that it is a case of
"Queen Sabé" now if Bob Lloyd
leaves at all, he would like
to buy, from what I can learn
it will be a long time before
he will make up his mind
to leave if he does at all,
I think he will stay for some
time yet, still I'd would not
hurry if you spoke to some
influential person, in case
Bob should suddenly make

up his mind to leave. I am
told that now more but there
having been at all connected
with rights - howe' keeping can op-
port, and that no one from here
need apologetically as it will only be
an appointment given to some
one connected with the right - howe' money you
may say, so much for the L. S.
The shares are poor -

I am glad to
hear that Conant is already settling
up so soon, but you are wrong
in not getting your money from
Bailey before returning if you
do not get it - from him before
leaving, if on account of money get it
and as he is inclined to pay, why
pounce him up and your money
get it before leaving, what in
the world you are going to do
here without any money I can-
not see, you had better hurry
around than stands before
examining down here and return
as all without any prospect at

around, this is a house at every one
of you could be any chance of
borrowing money from here, why
then it will be time enough to
leave with us all. All the while
you are pretty well at present, George
is getting better, I have to give him
money for medical expenses you
had me any which annoyed me,
but it would be done and as
he is improving I do not begrudge
it at all. I have a little time
with the Piles, and Constipation.

I am now looking on the chance
for the Piles of Denver, (Columbiana,
& Webster universities), and outwardly
I see I had a duty than which I
may enjoy, I have this in brother's
pocket and wrote what we have,
and I think it is helping me.
It costs very little and may help
me much. I am looking back and
hope very much. I hope you will
with young and like his note,
and little with Bailey then you
will not have any more news

in New York. A Bird in hand
is worth two in the bush, and
half a loaf is better than none.
I have learned that by experience.
So you have dislodged your
boarder I am glad of it, as I
think he had a great deal to
do with making you feel badly.
You will very likely enjoy good
health now. Frank had written
to you and his Grandmother in
Brooklyn who continues to send
him postal cards and says she
wishes to see him so much. Every-
thing going on about the same every
day indeed. Moke has not the
least influence in the Light-house
matter, he knows nothing about it
as he has not a bit of influence
in that quarter, he is a perfect
stranger in the matter, it is not
generally known that Bob Israel
thinks of leaving, nor do I think
he wishes it known, Harry only
made the remark to me at my
house, so it may only have been
talk, he told me it was through
Dr. Hoffman & Capron's influence
with Shannon of San Francisco
that he got it. I do not think
that Israel thinks that Harry
has said anything about it, I
am sure if there is a change it
will not take place for some
time to come yet. I hope you will
be able to unravel up your affairs
satisfactorily before leaving for home.
Does John intend coming to Calif
via soon? Why don't he come with
you, I would be pleased to see
you both. The children all send
love to you hoping to see you
soon. I will close hoping you

New York, May 25th 1797

My Dear Wife,

I wrote you on the 16th inst. enclosing \$50. Nothing from you since that of the 28th ult. Conant today paid me full the judgments against Bailey & Co. tomorrow I shall settle up with my lawyers & costs, as they will charge more than 10% for collecting, owing to the extra troubles they have had. I do not expect to have a balance of more than \$200. Coninghame I hope to effect compromise with Bailey for judgments due me, and in that case I shall have 500. I shall not wait long to do this. If it can't be done ^{immediately} that an execution issued and attach any funds in Conant's hands coming to Bailey. It will not pay me to wait as every day diminishes my funds in value.

I should not rather have chosen. I think
I shall go in the second class certainly,
unless I can get after, say.

I have arranged for my return to
London & finally, and I hope to get
the notes, in all the week's intervals,
which will be of course of some value
in hand.

John has not yet decided to take
the Hardee party and to go with
me to see him with me at
I have some other little matters to
attend to, and don't know what
my wife's interests in giving me any
money.

Of course will attend my affairs
on any convenience, as far as
possible by appointing agents,
and to get away before the
week.

I hope to get away shortly after
the first of June. I shall remain
a few days in Van Housen's
around No. 11, where you will doubt
less. I have done nearly what I
could to facilitate in my case, &
they have not given in different.
I think much in the London street
in case you may be able to do so.
I prefer to write to him by the

I was in the United States certainly
I was not a few years.

I was occupied with various things

myself.

When has not my mind been so taken
by the matter which and I regret
that I have been much mistaken
I have been often mistaken in
myself, with about the same

matters.

It will not delay my application
on any circumstances, as the
matter is of a private nature

I hope to get away from the

of your mother. If aqua de I intended to pass in a few days I am in San Francisco with miles matches provided so I need make no more do. I shall see Cameron, Hunt, morning, Taylor, McCreedy, Newton, McMillan and others with whom I am acquainted. Day, Taylor, Stuyvesant, I may find a few more & truly get into something that may be of assistance to me. No harm in trying all I should know.

I wish you would ascertain & provide the present whereabouts of Dodge and Bingham. Tell me his first name or initials. The last I heard of the Dodge was that May D. was in Oakland. The day I saw the name of a Mr. Dodge living in Oakland in connection with some Greek transactions. Could this have been our man? More would be likely to know about him.

I should like to see him as there might
be a chance to get some specimens for
over board and myself.

I think you may reasonably hope
to see him ~~in the middle of~~ ^{middle of} the month of June but as

I have been so long coming you
will hardly be able to beat it.

You will see your advertisement giving
my coming published. I suppose it
will be as well to say nothing.

It will be time enough when I am
nearly there. I will telegraph you

when I leave something but will
not write to my departure, the

Came to hand safely, containing
\$6.00 and two advertisement cards
for which I send thanks, all
pretty well at present, excepting
myself, I suffer terribly from con-
stipation and piles, together
with many other bad feelings, some-
times I can scarcely crawl around,
but I hope in time all will dis-
appear, for if I thought I should
feel this way and live to an
old age, I should be very much
discouraged. Time will tell.

I told you Mrs Morse called to
see me and apologized. We are
all glad to hear of your restora-

so I tell him that he carry his
living helping me around and keep
my garden going - he says just
as soon as he is well he is going a
way to learn Arabic and work.
he gets discouraged and says I
talk so long to get well - I tell
him look out me I have been

New York, June 5th 1849.

My Dear Wife.

I wrote you last on the 31st of May, enclosing \$5⁰⁰, and received on the same day your letter of May 21st. I informed you that I had a settlement with Young, receiving his notes for \$600 and \$350. the sum at hand from May 29th of the latter about 2 yrs from Febry 11th. I inclosing them now to you as you desire.

I have also placed the papers in Riker's hands, bearing date against W. L. Hazard for the amount of the drafts against Morgan the Ex of his father's estate, which he allowed to become outlawed in his hands, and also for \$1000 and interest money loaned on property which he sold. John and I give Riker carte blanche to do whatever he thinks proper and should any money be recovered he will pay us whatever is fair. We thought better to do this than have Hazard to get away with the money and under the circumstances it is probably

He but we could do, as no arrangement could
be made with Plaintiff and no objections will
the fact of Henry's do anything.

When he has the case at a matter of procedure
will pay the defendant's employing
whether to conduct the suit. The wife of
Cousin has to arrange with Stewart & and
Henry who will be more disposed to a return
they can with Alfred and me. The two suits
in order believe you are free to demand return
and answer. I at some future time get orders
that or more out of them of place to suit you.

When not yet arranged with Barclay, as the
the judgment against him, he cannot take
show a disposition to buy and probably will
do so. If nothing doing, I leave the
matter will remain in my lawyer's hands to
take such action as he may deem proper.

economical manner. My father says that the

will be considerable less than \$50 or \$60.

I enclose you \$10.00 and may be this will

depends on circumstances, as to whether I
get any more or not.

I wish you had written about the house tax
before. I think if it is only \$4.00 you had better
pay it out of the money sent, as in case of sale
it will cost us so much more. We must try to
keep the house clear at least. I hope it will
reach you in time.

My dear husband,

Yours of May 21st
Containing \$5.00 and the
news of your leaving for home on
the 10th inst. came to hand safely.
We are all pleased at the idea
of seeing you soon, but cannot
imagine what under heavens you
will get into here, more dull
than ever. We are all pretty
well except George and myself.
George has had a terribly swollen
face occasioned I think by a
bad tooth, but otherwise he
is getting along very well and
will be well soon of his other
malady, he still continues
to take medicines which I sup-
ply him the money for, I hope
it will not be long before
he will be entirely well, he
is bent upon learning the Bible,
and every one says that that
is all he will be fit for as he

says himself, "Well 'Pious Persons'"
when you believe I shall love
- but I'm sure to give and to
give you pocket. Along with
I'm for suitable. I believe not
been able to go to see the birds;
or any one else, and feeling
well enough of the piles and
expecting. Next week, to make
account, there is no stage and
no way of going to New Town
any more, except with difficulty
and he does not live here all
the time, so we are all paid
over in this town. So day is
clucky and of something else,
I'm glad to hear you got so
much out of London, but I am
dissatisfied that you have so
little coming to you from Co-
manby, I wish to be hoped that
you may get a few passages
home. As to coming here
with something I have not
with any one that you are
coming, not to the ship. I have
as I write you in my card

I think you may give that
up as I shall say's nothing
upside about going away, I
suppose he has thought
the thing over, and has come
to the conclusion that a
bird in hand is worth
two in the bush. Nothing
has been all so evening
dull, I'll add and Mr. De-
ad, what odd for old, but
also and humors, of other
in the same way. I think
that in time the town
will be the town again
of things go on this way
as the work being with
the entirely deserted. The
hot spots I mention, we
last time up on the bank
rain, since, but I, the
Rays - can, all up and down
up most of my money, so
that my garden does not
want and flourishing as it
will. I have not much to

write about, at present, except
to say that we are all
pleased to think that soon
we may see you again, but
you have been away so long
that we cannot realize that
you will be at home soon.
I suppose we will hear
from you when you are
in San Francisco, at any
rate I shall expect a
letter or something from you
from there. I may wait
a few days before sending
this so as to reach you in
time for your arrival in S. F.
Unless I think it is more
secretary in the water-works,
I think you will find but
hope and pray that you
may succeed in getting some
thing to do among your numerous
friends in Texas. So with
much love from Children
and myself I am as ever
your loving wife

Windsor - Canada. June 13 '1879

Dear Friend Sam. I received your
two letters to day - forwarded from London.
We left London some time ago with
with bronchitis as the climate was too trying for
us in winter & spring. We have been to Detroit &
around in hopes some thing would turn up. but
this for without success. We are living at a
small village opposite Detroit for the present - before
returning to London - as the living is cheap. Since
I left you in San Francisco I have had
my ups & downs - perhaps more downs than ups.
When I arrived in Solothurn as I had
lost everything & having failed in New
York in 1853 owing several thousands
of dollars. & my debts in San Francisco
I found it imperative for me to take
the benefit of the United States Bankrupt
Law 1867. I had plenty of company
as nearly everyone in Solothurn was hit through
through mining speculations - I then
commenced doing what I could on a
salary of \$1000 a year in currency -

in a year or more since I took my wife
and three weeks until I should make the
offer. It goes before I get back on good
of an otherwise ordinary income to
amount to an income of \$1000 in 1877
as it is my property - to the amount that
any thing else - I should have up the
stock & increase the money in other securities
I have & expect if at some future part
get from mine - to my daughter's estate &
that she should be able to do so
the stock I have in when I get to pay
for it - it had also \$3000 in stock for
share. The share paid for all was
paid - It may be the failure or much
in value I was obliged to resign my
position - the same time I got to
amount in 1877. Now I assume
notice that the income of my stock
share & I was able to make the
state - I am glad for me & for
whole of my stock I could not do by
with I am not able to pay some one
I get time to have made my money

to pay expenses for my family & to
of the money my wife is for
I pay much to the money to be by to obtain
a situation - I think that the money
was not the amount - It is not in the
month for as to come to the time to live
with I could not do anything to do -
the expenses would be very little - the
money in some time - I have something
I may think to my friends in when I get
that I think they do not as I have
not been money than once - I was
to spend to see it - I have had
some more money to go to the bank
Oregon & my wife is anxious to go
there as she has not a situation there - I
have many friends - I have had
with me a hundred dollars in my
property & it is not like to change
on my friends - I was with on property
if paying them in future - I am
less of my stock in the time than much my
money is not in the time than much my
I may not see you much - I am in

hope your father's estate had turned out for
your benefit & that you might offer some
some inducement to go to New York to live
You are fortunate in having a house - although
you have children to provide for. I am
fortunate in having our children in our company -
My brother in law has some money at
interest in London - I think of offering him
decently on silver. I had when in Spain
he will lend me some although not
in time for you before you leave unless
you can wait till next month - I think
you can rely on my sending you \$50⁰⁰
this fall & \$50⁰⁰ next year - Do not
write or that my wife can hear this
although she would be glad if I
had the money - but it will add
to her anxieties if she knows I have
to borrow it - If you can borrow \$50⁰⁰
from George Cuffe I think there will
be no doubt I can send it to Timm's
month - if I have to pass my silver
some where else - If I do not hear from you
I will send you a draft to Timm's
Yours truly

Friend Tom

Your kind letter came at
hand today and regret to hear of the
departure of our "C" but perhaps it
is all for the best. Allow for your
kind attention as to my Gold Sand
It is appreciated I assure you. But
it will be impossible for me to do any
-thing at present, as we Cannermen
have been exceedingly unfortunate as
to prices in U.S. and England and
two thirds of them have failed and
we anticipate thrown up the sponge
next Saturday. which will leave me
without a dollar to my name. Times
are exceedingly severe. Our old friend
Joseph L. Hepburn has failed for
\$30,000 he owned the "Horn Blad"
and has not at present enough money
to buy a Nigger a duffel

If provided I had the means to em-
ply to your request, I would do so
with pleasure, and provided I should
change by location it would be a
pleasure to come down among you
Now how I could not address you
in regard to coming up in this country
as everything is flat state & unprosperous
as I do not know money prospects nor any
thing ahead, as I do not know
what I will try by hand to this winter
Provided I had returned I also
took five years ago I might have
returned to that village with \$20,000
But all I depend on now is a good
ledge of Minerals Books which by the
way I think I can well prove, I wrote
to you for a loan of \$500 to you &
I was "flat" But that is now and
I think all will be well. Remember me

July

1879

San Francisco, July 5th 49.

My dear wife,

I arrived here the 28th and wrote the 30th enclosing \$20 by mail. I informed you of my desire to remain here unless I found anything to do there to proceed to San Diego by the steamer of the 30th of the month. I have been looking around and have seen many of my old friends and acquaintances, and though I get no encouragement except from any of them I do not despair of succeeding eventually. At any rate I shall remain here for some time, unless I hear of something encouraging from either you or Mr. Morse.

It seems to me I cannot help getting unemployed here, the city having grown almost beyond my conception, and yet I may not succeed. I have but a few dollars remaining. It would be folly to spend these to go to San Diego, unless there is a probability of my getting into some thing. Still I think for me to remain here and keep the money is good I may possibly find

He said it would be necessary for Frank to enter
an office and set type for a while and that if there
was any talent in him as a reporter it would do
wonder itself that if he were here now he might
give him a job having to employ several extra hands
where he might be here in the course of a few
days, but he could give no guarantee as to the
future and not knowing the working of the new con-
stitution. I think it best that Frank should come up
by return of the steamer of the 6th and that we write
at the present time that he may have time to prepare
himself and enclose him \$10 to defray his expenses.
He can come in the steamer but need not take any
~~board money~~ ~~it~~ though measurement to be taken
there is no assigned to be attached to it. I do
not say that Frank will get employment on the
Alert, indeed on any paper, but through Wetmore's
influence and other that may be brought to bear where
he gets he I think there is no doubt but what
he will get employment which will result in
his future prosperity - Amelia is acquainted
with some one who she thinks has influence with

the "Chronicle" folks. I need think the
Collection would be the best place for
Frank and no doubt but what it would
be. The main thing however is to get him
started somewhere and if he proceeds as
he has given evidence here before, I think
it is not being before the court will

As tell him to come without fail by Christmas
if he can be returned. We will manage to get
along somewhere. So as not to be under any
expense. My room costs only \$10 per week and
I think one for both of us can be had for that.
Let him come, bring his trunk, his things and
his clothes such as he has. If Frank and I get
started here it will not be long before

for George and the rest of you. I wish you
to write on receipt of this, or have Frank do
so. I may know of a party his coming
and arrange accordingly.

Sometimes I think I will make an
effort to raise \$500.00 from friends and
lend for you and at once. This amount
would enable me to do so, locate me

arrange in anything that you do from this time
on with the view of coming up here - have
all clothing in order so that you should
may look as respectable as possible -
You and they will be delighted to get
him - so much to be seen and to be heard.
If the day saw the procession, was at
Woodwards garden saw balloon ascend
and descend in a man and a woman, they es-
caped with their lives but were hurt in their
scout. It is a large and gay place to live
any preferable far to New York and excepting
the climate I prefer living here to living in San
Diego - Hope to God, fortune will smile
with us here and that we may see
some comfort and happiness - and though
some hard yet may pass before we experience
this, we must try to mend our hearts and
not be overcome by despair - Instead of my
writing again to more I wish I could see him
and should be know of nothing certain for you or your
able to give me even a glimpse. I shall aban-
don the idea of returning to San Diego till there is
some hope of it. God. I am more discouraged as I

Suppose he must be let him come up
being join me in business and we
will make more than to be made
in D. D. for some time to come. The longer
any one remains then without a railroad
the worse off he will become as I know from
sad experience.

Trust now else to with
love commending you to guardian
angels and wife that the time of our
again meeting is not far distant
and as ever your fond and loving
husband.

Friend Whaley

Frank says
you wanted to inquire of
me in regard to the chances
for business here.

The chances are very scarce,
the place is small and the
business overdone, and for
a person like you who
have so many friends and
acquaintances in San Francisco
a large city, the chances
are ten to one, so it seems
to me, in favor of San Francisco.

If Railroad works should
begin here in earnest, then

here would be the best place
but that may not happen in
our day. a few very
sanguine men however think
they can see some little hope
ahead within the next six
months or a year. God grant
they may be right.

Frank will explain to
you Coulter's meddling suit -
I think if you were here you
could arrange it with Sr Winder.
He claims \$75⁰⁰ for services no fair
lawyer would charge over \$20 or
\$25 for. Gatewood also acted the
d-d scoundrel in the business
just to make \$25⁰⁰ out of us.

Wishing you success I am

Dear Father,

I know that you will not think that I am getting careless, or just write to you for a purpose and no other cause, but I know that you will comprehend all, as you heretofore have done, and as the old saying is, it is better late than ever this Dear Father is what I do call the preface part of my letter. My letters are like my music for in comparison too it, for every time that I play the Violin I improve my music or more

② properly speaking I try to play better and write better every time that I write letters or play better time and therefore you cannot compare my letters too monotonous nor the monotonous life of San Diego. You may think that I try too be odd in my writings but it is not so, and as the saying is a little nonsense now and then is relished by the wisest men. But it is not nonsense of course not, but plain common sense that I have written so far. But enough of this, ^{then} we will now commence with the same mutual correspondence ^{we} heretofore have been accustomed to, and which you know very ^{well} is like a sticking plaster which will never drop off. Yesterday was the

③ day that my brother Frank & his bosom friends for their good and his own, I hope that Frank will succeed in all his undertakings hereafter. he is now a man and is getting along in years.

the same mutual correspon-
dence ^{we} heretofore have been accus-
tomed to; and which you

drop off. Yesterday was the

③ day that my brother Frank
left his bosom friends for their
good and his own. I hope
that Frank will succeed
in all his undertakings here-
after. He is now a man and
is getting along in years,
and ^{it} is a bout the time that
he ought to be thinking of
trying to be the possessor of
a few hard gold thousand
dollar pieces, am I not right?
My Dear Father I crave for
the day that I can sit
down by your side and talk
good common sense. Guess
what the people of sense
say in Old Town, they say
that I have more good com-
mon sense fore a boy, than
they ever heard speak of. one
the boys asked me why dont

4 you court the girls like the boys do. I told them that it was played out. I told them that my heart was as tender as theirs for the young ladies but that I did not wish to go on a foolish honey moon with out lots of money to back me they all laughed and said I was right. My common sense will be explained here. I have as you may say for the last two years went through the jaws of hell. I have learnt all and everything that is bad I have learnt what who they will do and I have for the last five ^{been} months on the road of reform and intend to be so as long as I live. do try and see if there is a living show for me too go too. I. I never will as long as I stay in

(5) San Diego amount to any
ting more than a com-
mon scrub, now my dear
Father would you be in
doubts of me in a big City
going through the same
performance that I have done
in San Diego. I now do say enough
of that sort of of play for me,
next on the programme is
this if my Father intends to
do any thing with his Son
George you bet you living
lights on it that he will
stay and act right with
his Father to the very last. So
that when I am an Old man
I can say and boast well
done right by my Father,
and so did he with me,
and I am proud of it. There
is one thing that is born in

© me and that is the
talent for the harmonious
sound music it has been
proved by the many mu-
sicians in S. D. that I
have a natural talent for
music, it must be learnt
or there will be no more
George in existence. The
family are all in good
health except Mother
She is not feeling very
well, any how they all send
their love and many kisses
and so do  So good

My dear Husband.

Your two letters
of July 5th & 9th are received
the former containing \$10.00 for
Frank's passage to S. F. He
left here yesterday by the
"Orizaba" and this letter will ar-
rive about the same time as
Frank's does. I have written so
frequently of late that I don't
know what to write about
now. I do not think Frank
could particularly care
here, as he has formed an
attachment for Mattie Winter
who is a very nice girl & not
very bright, but good I think

still she is a "Machado" and I would not wish to see him get into such a family they live mostly off Bob Israel now, and would certainly saddle themselves upon Frank if he were to marry Hattie, but I am in hopes he will get over it, and look to you to keep him in San Francisco and away from the association here which is any thing but advantageous to a young man. George was disappointed when he found Frank was to go, he said nothing but we all saw from his manner that he was, he merely said, every thing is for Frank, he is very anxious to get away, but I will keep him here till such time as you can send for him, if you can do so before sending for us do so as I know it will be the making of him.

George is well I believe but he still takes medicine under the doctor's direction, and I think he ought to be very thankful to think he escaped so well after so long a standing. As to our coming up to S. Francisco, I think we had better be very cautious if you can succeed in business or borrow enough money to get us up there till you get into

we all saw from his manner

George is well I believe but he
still takes medicine under the
doctors directions, and I think
he ought to be very thankful to
think he escapes so well after
so long a standing. As to our com-
ing up to S. Francisco, I think
we had better be very cautious
if you can succeed in business
or borrow enough money to get
us up there till you get into
something all right, but if you
cannot get money, why we
had better wait there under less
expense, till such time as you
get started in something. George
is bent upon learning the violin
and really plays well, but that
will not prevent him learning
a trade such as musical
instrument making or something
like that or indeed anything
else he can get to work at.
About our leaving this house,
if we leave the County creditors

can and will seize this place
when left by us. I shall make
more positive inquiries in case
we leave, the garden really
looks well, our Fig-trees full
of fruit, one Peach-tree full
and one Lemon tree with over
a dozen Lemons. I seem to look
upon all we have raised as
old friends, and when I think
of leaving it makes me feel
bad to think that all will
go to destruction which it is
bound to do, as there are no
people here even to live in
the house for nothing and my
nice Cistern of water but
for the children, I must for-
-go my feelings knowing that
it will be the making of
them. Lillie must go to
some good school, Mr De-
Bois says this school is no
fit for her she can advance

5 rapidly of at another higher school. She is full of music can play on any instrument and is now learning the violin, she can pick out tunes by note and has a nice voice for singing. She is very smart, and to hear her talk you would take her to be 18 or 20, instead of near her 15th birthday Sept 24th, they are all smart nice girls, but Lillie goes ahead of them all, they have a great deal of amusement among themselves, with their songs, guitar, dancing, and telling stories, and reading to one another, every one here looks up to them, and the priests - here say they are very exemplary young ladies, but the class of young men who visit here, are not such as they ought to be thrown in with, still they behave very well and

and treat the girls with the
greatest respects.

Frank borrow
ed some money from McCoy
to go up on, he say \$16.00,
but McCoy promised to lend
him \$25.00, so he left me the
\$10.00 you sent him, so I can
get a load of wood, flour,
and other groceries we need,
he did not like to go in the
steerage, he is his own mas-
ter, so let him manage, but I
think it is the best thing for
him to get away from this
place, and shall be glad
when the time comes for poor
George to leave, he needs, cloth,
poor fellow, he is quite a good
subject young fellow, and needs
to be dressed up, and looky
very well, and will look better
when he gets all the pimples
off his face. I took to ch-

and bought him that much
clothes to make him look better
so that he has two shirts
\$2.00 a piece, a couple of pairs of
white ground with a little
black flowers, and so I cut them
out and the girls made them
he don't like white shirts, but
wants like a present pair of
clothes, and a pair of boots.

Dear Cousin Frank,

I suppose you think I have entirely forgotten you. but I assure you I have not. I had no idea that so long a time had passed since the receipt of your last, until I looked at the date and found it to be, March 18th. The time passes so rapidly, I do not know why, unless it is because

I am happier than I ever was before
except my thanks for your sincere
congratulations, and I hope it will
not be long before, I may send
mine to you. You ask me, "if the
man to whom I have given my love
is worthy of it," and I can answer
you kindly, that he is, in every sense
of the word, he is so good to me,
so kind, so loving, and tender, and
sovereign all loves over, so deeply and
truly, that I sometimes wish my-
self, and I worthy of such love,
I tell you, again, I never knew what
real happiness was before, never re-
alized how much there is worth
living for, until I knew what it

was, at home and in the forest. I love
my promised husband, better than
any one else on earth, and I ask
God to bestow on me no greater
blessing than to be his wife,
knowing that he will always be
true and faithful to me, and
as we go through life together -
sharing both its joys and sorrows
his love will make my life one
long stream of happiness.

I wish your father had married
safely at home, why has he not
written? I would now be feeling
just I hardly think she will sur-
vive the winter - You are things

progressing in California, Father still
talks of going there some time.

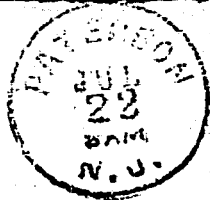

Do not be surprised to see me out
there. I may make it my wedding
trip - Frank, what do you think of
^{any one} going out there and starting the
poultry business. do you think it
would pay. will you write me all
the information you can on the
subject. Do eggs and chickens
command a high price there.
will you find out what you can
about it, and send me word,
where is the best locality for raising
them, the best market, general
price, &c. and will you please
answer immediately on receipt of this
as I am anxious to hear as soon
as possible. I have no particulars

Dear Papa,

I tried yesterday to write a letter to you, but it seemed as though everything I intended to say flew away from me when I began to write, and I put it off till another day. I have not written a letter to anyone for so long, that I suppose it will be a little difficult to word this one. I ought to have written to you more regularly than I have; but there is so little to say, and what there is to tell, has been repeated so often, that I suppose you get tired of hearing it.

We were all very much surprised when you sent for Frank.

to go up to San Francisco so quickly, and equally as delighted when you said you would try and take us all up there. I hope that happy time will not be far off, for I am heartily sick and tired of Old Town, and long for a change where I can see something of the world. I don't suppose I have any idea of a large city, or what it looks like. I have read descriptions of a great many, but seeing is the best evidence, no matter how accurate the description is. It seems like wasting a persons life living in this sleepy, lazy old place where there is no bustle, no stir, no activity of any kind except an occasional dance or picnic or show, and these are like angels visits - few, and far between. We may not if we go to S. F. have as much liberty, and long walks ^{&c.} as we have here, but we can see more in one day up there than we would ever dream of seeing here in a year. I do want to get out of this place and sometimes I think I never want to see it again.

We are having a long vacation from school now. Our teacher Mr Du Bois went away some time

I do want to get out of this place and sometimes I think I never want to see it again.

We are having a long vacation from school now. Our teacher Mrs Du Bois went away some time ago, and I expect he does not intend to come back. He was the best teacher we ever had in Old Town. Everything I know, as regards school and school books, I learned from him. I think the trustees intend to get Miss Carroll for the next teacher, and then I cannot go to school, because, with her, I go back rather than forward. I intend to study some at home every day, as a kind ^{of} review, so as not to forget what I have learned. I should like to go to a good school that is graded, and work my way up. My ambition ^{just} is to obtain a good _{now}

education.

Mama is not looking very well now, but I think she will get better soon. She is very thin and does not look at ^{all} like the mother I remember when I was a little girl. She sends her love to you and Frank and grandma and auncy and says she will write to you soon. She has been expecting a letter from you for two or three days past. Violet and I are both taller than Mama, and George is the tallest of us all. I do not think you would ^{know} us (S. W. and myself) if you were to meet us anywhere.

George plays splendidly on the violin and is improving every day. He is as eager to learn music as ever, and I think he will make an excellent player in time. I have spun out the length of my paper and must now bid you good-bye. Hoping to see you

Dear Mother:

On the day of my arrival
I forwarded a P. O. card to
you which I hope has reached its
destination in safety. I attached
nothing but a note of my arrival
and a few other little scraps.

Business before pleasure.
As far as Pa's getting anything
to do at present, it looks quite
discouraging. He has seen a great
many of his numerous friends
here, and from them he meets
with little encouragement, still
he has hopes and will not give

up until he gets into something.
As far as I am concerned, I think
I will be successful, as I have
already secured a position in
the office, which I will enter
into to-morrow - Monday - in
the "job-room" of the office, thus
giving me day work instead of
night-work as Inspector James
felt. I think now that I will
get into some business and
make money before father gets
started.

Pa is now talking of sending
for George, as he wants to put
him to something; either telling
him how to trade or continuing
on with his music. I'll tell him
not to send for anyone of your
until he gets into something and
can see him self out of the mess.
All.

Our Francis is now improved

saw her. Aunt Amelia is as lively as ever - always on the go. Last evening she and myself went to the "Fivoli Theatre" to see the all-expected ^{opera} play of "Pinafore", an English piece. It was indeed good, and I enjoyed it wonderfully. Joe is in this piece and takes the part as "Captain of the Pinafore". He sings well and carries out his part to the satisfaction of all. This theatre is the "highest class" ^{4th} man theatre, patronized by respectable persons and where you can get your lugee.

To-day I will probably go to "Woodman's Gardens" and see what can be seen in that locality.

I have seen Mr. and Mrs. Miles, Sophie and all the children (little devils) Mr. Miles

and his wife are taken up
with me; they want me to
make myself completely at
home with them, come and
go at my pleasure, and not
to be in any manner fushful
or backward with them. I like
them both very much. Miles is
full of the red neck. Daphie
is a nice looking woman, I've
enjoyed her as soon as I saw
her. They all wish to be remem-
bered to Dear George, as Miles
calls us. Miles wants to see
George.

There is some little update-

must here in regard to potatoes.
It is generally understood here
that Perkins will be the next
governor. I hope so, as he is a
good man. Exclamations in
any other manner is very dull,
times are terrible, every body was
complaining, but they cannot get
any work, and if any thing they
see on the up-wind side. Thus
are things in D. C.

I suppose you would all like
to come up here and live, but
if you have the same opinion
of the place that I have got,
as far as living is concerned, you
would stay away. Dan Sligo's
climate beats the world. I
should like much to see our-
selves situated again and all
be together, but Dan's affairs
this will be some time.

Pa wants to go to Dan Sligo.

As to our ideas he can get some-
thing to do there. I tell him -
there is no show; but let him
take his own course, all I want
is to get settled and he can
do as he pleases. Grandmum and
papa have had a big falling out
over some little "springueist"
matter. Two people of the same
disposition can never get along
together. He is foolish to notice
anything she says, I never see,
and I get along very well with
her. Let them go it.

Let me know how the case
of Vinces vs. Morse and Whaley

is turning out. I expected they
have taken my default and
entered judgment against me.

As I cannot find much
more to write about at pres-
ent, and my quarters are very
uncomfortable, ~~and~~ (although
I am now sitting in the Pioneer
Hall building,) I shall make
any attempt to write to any-
one until I am settled in new
and nice quarters, probably on
next Tuesday.

Give my love to all the folks.
Remember me kindly to all my
friends, and tell them they are
not forgotten, and to Henry. The
"lucky-haired" girl I'll take care of
myself. Hoping to hear from you
soon and more soon from me, I
am, Dear

Francis J. Whaley.

All sincere love to all from here.

get into something, I should think among his numerous friends, he might be able to find some one of them to start him in Commission business, or legal store or something to do in the Country somewhere, till him not to come down here for he will utterly fail here and lead a most miserable existence, and be sick again. I can understand how he wishes to see us all, and we him, but better, for a while, than to come down here, and I do not approve of all of us leaving here till he does get into something, I am now writing Common Sense and hope he will look upon it as such. We are getting along as usual, from hand to mouth. I am feeling a little stronger than heretofore, all the rest of the family are well. Will attend to the Case of Trinder vs Morse to-morrow and let you know in my next. I think it a good

idea if your father sends
for George, and lets him
learn a trade, he can also
learn his music in the even-

just as soon as he can
as George is very anxious to
leave here, so for us, (I mean
the girls and myself) we
must wait. I prefer for a
while to remain here in my
comfortable house, to going
to San Francisco and living
among the Irish in tenements.
Now for news. Mrs McCoy has

they all paid us last week,
not Mr McCoy, but his wife
Mrs Moreno, Mary Carroll and
Fred Donahoe, they had a
royal game of smuts, a little
rough, but they all seemed to
enjoy it. Fred Donahoe leaves
to-morrow for San Francisco,
and is very anxious that you

Harry sent me six quail and three rabbits - a few days ago, they say he had the situation as assistant at the Sights-house, till such time as Mrs Stone returns from a trip somewhere.

Parker Dear sent a note to Violet asking for your address in San Francisco I cannot say what for. Billy 'Couty and Christina will come in Sunday or Monday, and sent Max word to be ready to return home with them. Let me think if there is any more than what I have written. Dr Burrows is beaten as Assessor, they let Mrs Battelle out. Mrs McCay is coming.

My Dear Wife,

Your long and welcome letter of the 23rd inst. came duly to hand, also one from George of the same date, and another from Willie of the 28th of this month. I am glad to hear from you all, your letters cheering me for some little while at least after their receipt. I have delayed longer answering than I should have done, hoping to impart some favorable news. but as nothing has as yet turned up I will not defer longer the pleasant duty I owe of communicating with you least your anxiety concerning me should be unnecessarily aroused. But for Frank's writing to you some time since I should have done so sooner. I know he would impart to you all the news, or at least what was worth knowing.

I am almost disheartened if not quite discouraged not yet having received the least encouragement from any one of my friends to whom I have made known my situation. I have, so far, only asked them to aid me in obtaining a position of some kind, but owing to the fearful dullness of the times, a few

I should meet with such encouragement as would give me a moderate position at least enabling me to send for you and the children, but how my efforts have been rewarded I have always informed you.

For you & his dear wife and children I will still endeavor to keep up my spirits, and may be at the time when I least expect it some thing favorable, as you state in your letter received by Frank to day, will intersperse itself in the thought of all concerned.

I have determined upon a new course of tactics. If my friends have no position to help me to, perhaps they will find it ready to give me pecuniary aid, and intend to ask it of them.

Frank thinks that a Job Printing Office will pay so I shall solicit something for him, and if successful, and the business needs as well as it will likely ^{do} from the indications, it will give employment not only to me but to George.

Five hundred dollars is the least amount Frank thinks
will do to commence with on a small scale and I shall
cavort amongst my friends to raise this amount
if possible, and should I succeed in obtaining it, I
have no doubt of our being able to get along.

We go to see the Miles more frequently than any other
people and they receive us warmly. The weather
yesterday afternoon and evening. Miles was not
at home, as he rarely ever is, indeed. Mother has told
me some things and from what I can infer I should
not think they live very happily together, though having
everything comfortable to all appearances. They have
three boys and one daughter with the prospect of a
further increase. We have called over to see Sophie and
her two daughters the youngest of whom six years old, re-
minds me of Violet, and the eldest ten years, reminds
me of Lillian, when they were little girls about the same
age; the one being prettier and the other larger for their age.
Sophie says it is not her intention ever to marry again
preferring rather to being free and having a happy
time. I have also seen her divorced husband, who

With respect to his acquaintance with the Mills, I think
hard to be a very quiet mannerly person. I have something
of the count of his disposition. Further than the names
now obtained on the ground of his late acquaintance to
which he made no account,
Talking of various things to the Mills, I then by
inquisition to learn as I could get started, of meeting
for George and that I must like of I know what to do
with him, to have Willie to come up with him. His
immediacy to come that I never being he to be
hard and that she never go to school with her
two children that she never be treated as have had for
a companion for her as she former's stream of love.
Now, I think being deaden even as I know, she being
now obliged to keep company with her servants.
I thank her for her kind offer, but as I must
be some time yet before I can see her, I will
be never have any further opportunity to discuss the
matter. I asked her if she had been ever made
any objection to her having Willie with her. She re-
plied me that he never met. She said I might not
always be pleasant to Willie as she was her husband
sometimes had them spot together. That on that ac-
count she was very angry in her mind when

she was up but had nothing at her. I could not know
that she must have got very busy on that account.
I shall be that I had never heard anything about it.
I shall never be so good as to see you further
I know and that she never do see in her power to
make Willie happy if she were with her. I think
I shall give the matter from his eye from what I have
understood, though I am sorry I have no reason to
complain of his treatment to her and me. He never
quits my presence, having written to her from my
visiting her if possible to be a surprise to her
and. I think I hope, might as well as I can
I think that she tells me more of me and I know
I must admit that. She gave me a certain invitation
to come to his house whenever I please to do so,
every day of I think, and said her intention that
he had not and I hope that he might appear, a room
but I know of his reputation for his sake, I will
not say that I will not go to his house and I know

in comparably sweet and amiable in her manner, but as she grows older she will probably settle down a bit. She is brilliant in her ideas and conversation as much as an girl generally are at least two or three years older. I think it is a child that Lizzie would fancy and love.

I was thinking of speaking to Mrs Day in regard to taking charge of Lizzie as soon as the notice of the two, for some reasons, I might prefer Mrs Day, but for many others I would prefer Maria, but inasmuch as Maria has volunteered to take charge of her, I will leave to you to signify your preference and in case you think well of it you can open a correspondence with Maria upon the subject, which perhaps will be better than for me to suggest it further but just as you please in regard to this - I can however you should prefer having Lizzie with Mrs Day I will ascertain her willingness to do so. We have some claims upon the Mills for an act of friendship of this kind, but none whatever upon the Days. The view of our being able to serve for George and Violet soon, I think it would be advisable to prepare them for the journey as far as able without incurring any extra expense that -

place. You will therefore decide whether it is best for her to
continue going to school or to continue her studies at
home. The difficulty of the latter being that children are
so apt to grow inattentive of their books, than being so
much to draw their attention.

Talking to Mollie about Sellie, if true, she said she
might on account of the inefficiency of school motiva-
tion in country towns have to be placed in a lower ^{grade} than
she had been in New England - say the second grade, but
if she was found nearly proficient for entering the

highest teacher as seems his best to become. Now
Merrill said: or the might study, had a year in our
grade of the high school before entering the normal school.
but I did not understand his reference to this.

We are now before the board his maintenance
through the year of the month he is well educated and
convinced the necessity of a first class teacher, under-
standing the importance of necessary to gain his end
with the independence of necessary to gain his end
beneficial. This aim must be to do well by a first

one of our children however, steadily the maintenance of the
this has been neglected and if we can do anything
more for the school, as of high and trust we may, it
will be our greatest help. Our thing is to make
around the school about, and that is how very persistent
they are about criticisms. A student may be perfect
each in everything else, but makes them the emphasis
on examinations sufficient in this branch, or it might
be a fault and is not a cleavage to the next high grade
the the end of the year. Therefore I should particularly
by re-examination his his give very attention to the
criticisms, so that on examinations the
incidents be placed in a lower grade than he should
be to fancy students admitted.

Learn much please with the humanity, and the
general comprehension of his little to and. I believe
Mason's (Mark's) (his own) was it to the method

convenient for his grade. But there is much
more for improvement of the Merrill's class is to obtain
to his satisfaction. I require that of them will be a better
reply to his, but of high when she again writes, as if
just will be very soon, to have the time to do so.

Regarding my dear son George in substance
you of the the deepest interest. I do also have written
me quite a length, and as you may imagine, an
extraordinary letter, expressed in his own quaint
methodical style. We know of some of the trouble
he has passed through, and understood himself to have
been in the world, but now that he has seen the
philosophy he has acquired our most interests to
something had again. I hope for his own
sake and ours that he never more. He is very
kind to come to the classroom. My in health
is that he shall come just as soon as I can send
for him. I doubt not under any other George
will be a very good boy and that he will be

12,

soon learn many things that will be instructive and useful to him and become a credit to himself and that we shall be yet proud of him. But he has to ~~know his own mind~~ find out how little he knows and how much there is to know. On these words the great conceit in him has to be taken out of him, which will be done soon after his arrival when he finds boys several years his junior who know so much more than he does without the least pretension of knowing anything. When this shall have taken place then George will begin to learn something. I believe he has extraordinary good sense, but never having had the opportunity of developing it in San Diego, he will be the place for him to bring it out. I believe he is so very fond of music to the exclusion of everything else, as I have not the fortune requisite to develop musical genius. He must make up his mind to banish the idea from him of becoming exclusively a musician as it is rarely ever one succeeds and not likely that he is one of the exceptions. Unless a musician becomes thoroughly proficient, a grand ^{but remains} master, ^{indefinitely} a mediocre ^{of his kind}, he is very apt to be thrown

into such company as will lead him to
 ruin and George having some experience
 had some experience in this kind, would
 wish to avoid anything tending towards
 this.

I have been looking around to
 see if it is possible to place him with a music-
 cal instrument maker, but there are none
 here, unless it be Jacob Czech manufacturer
 of pianos on 9th Street, and to get him there
 at the present time would be rather a difficult matter,
 unless Jacob had tools so should he desire it. But
 there are many branches in the making of pianos, given
 to different people and rarely do any one be found
 who understands all the branches and can make a
 piano complete. The making of pianos is about
 the only instrument business of the kind that prospers
 in the United States. Violins, Guitars, Harps & arid in-
 struments, as they can be manufactured cheap else-
 where. I suppose George would prefer learning the man-
 ufacture of guitars and violins, but if he could do
 so, whenever the use of it when they may be bought
 cheaper than he could manufacture them. There is
 always sale for pianos and they can be manufac-

land as a subject in this country. However as we have
passed in this city when they appear in our view -
I think of various kinds. I have acquired of
they visited an apartment, but when we re-
quise, such efforts being conducted by Joseph.
we also in their nature seem to be very height-
to such some kind of instrument, or by their
having a general history and a mechanical
text that may, or may not be such as to be.
With one of these I conversed with a man named
They were making more than a living, and one
man who was the son of a man named from
a distance when I passed at the door, said he
needs not experience that, that he had lived in
A. H. fifteen years, that he had brought in
of his own up to the his business, judging rather
to purchase them as something else.
I don't know what George said to when he said
up his back we will try to find something to buy
him such of himself, and which he may as well
make coming and leaving something. He can
have pursued his studies in which, I fear he is steady
efficient, in the course of his evening, but I

going but must be very attentive, and if possible
he shall have the opportunity of seeing much by
some good professor. This I believe he will
that the drawing of some kind of business, when by his
may ~~be~~ gain a living, will be the matter of
first importance, and the acquisition of some
the way of secondary considerations in which
he can only hope to advance from his present
condition. Much is all well enough, for a man
much at the present time, but other things of greater
and more direct importance, as we are not to be de-
fined to be dependent on it. I think I would be
have the paper idea of his being, which he needs
as a sort of experiment, to abstract him in his
current instruments.

I don't know in our habitations of this country
up his own. He goes his mechanical apparatus
to the education of the artist, to teaching to
write and explain uses, as on his and
how it will be easier to find employment for
him. It is a number of people, I think, who
the ~~best~~ of the country that he had a great deal
for his own, and I think like to be one of

16.

what is in his head he can be produced at his fingers' ends. He writes a large loose hand, but not such an one as would be of particular recommendation to him for business. Mr Miles told me to write about George's penmanship, and figuring. He said in some one of the Stock Brokers offices he could readily find him easy employment at a very fair compensation which would give him the means to study much to his heart's content, and that possibly by the time he has learned to write well and to figure quickly and correctly he may himself be able to give him a position in his office. Do I hope George will be ambitious to learn these branches and set about doing so with earnestness, without a day's loss of time. There are old copy books enough about the house to get ideas from, or he can ask Mr Battelle to do him the favor to set him a few. If he knows little or nothing of figures he had better go to school to Mrs Candee to learn them. He is old enough now to have sense and not mind going to school though he may be the only big boy in it, when the object is

17

be gained thereby to of so much importance to him.

I hope that now that George is on the way to reformation, as he says, that I shall never hear other than good reports of him and that you will find him a most dutiful boy, ever willing, notwithstanding he is so big, and you comparatively so small, to obey you in everything. A boy wishful to become a great and good man must respect his parents, and more particularly to his mother.

The same excuse which I make to Lavinia for not answering her letter must apply to George for not answering his. I hope he will write to me again soon as well as the other children that have not done so for some time past. Let them write short letters enclosing in yours or bunching them together.

I will soon answer them when I have more leisure and more money to invest in stamps. I have lately been busy writing letters to my 10 or 15 different friends who made me promise

man who has no reliance upon his feelings. The matter was entirely a personal betwixt ourselves and had no reference to any one else. Do I hope you will ^{not} give yourself the least expensive commitment in reference to the matter and say nothing more about it. It was an inadvertence on the part of Frank to have written what he did to you.

I ought to have to inform you of one thing which worries me considerably, that is the reappearance of my obstinate boards. You will perhaps remember what I wrote to you about him at the time of the supposed complete extinction. What I then supposed might possibly be the case appears to have been really so. ~~It had died not well, far away from~~ remained within me to form a body, the existence of which appeared only within a few days past. I shall have to obtain more of the Specific from the man in Philadelphia, and follow it with other precautions which I omitted to do being almost confident that there was no real occasion to take them. I have confidence in the Specific and believe it to be it again and follow near closely the directions I shall obtain eventually. I must attend to it soon as I am subject for some days past to disquies in the head, but without money nothing can be done. We have not much

I have a dollar between us at the present
 time and I suppose it will be forthcoming from
 you by the time it is actually required.
 I want to see R. W. Lacker, real estate man, seemingly
 a friend, at least having a firm office for it.
 I know him from some years ago when he was
 in the hands of the law. I am to day ten dollars
 in debt to him. He did not refuse but
 I asked him if he would let me have it.
 He said yes if he had it. So I shall keep borrowing him
 until such time as he pays me, which I hope will
 be before my funds grow entirely. By the way if you
 can find a receipt for my papers, an "O.C.W. \$10.00"
 written in blue lead pencil I wish
 you would enclose it to me. It is of no particular use
 but I should like to see the man deny that I ever loaned him the
 money or that he paid it back to me. I would like to
 have the paper just for that purpose. Also you
 may find an agreement in relation to a lot 20x60
 on Main Street given me by a man named "Johnson".

I am sorry about McLeary and hope he will recover.
I read J. G. Estradillo the other day on his return
from a vacation in Los Angeles County. He thinks
he will not go back to San Diego again when his
time of office expires.

I have many friends about the suit against Frank
and Anne for \$25,000 damages. They are all from outside
of California and in the process of finding out
the names. I hope the names are friendly. I refer
to those about the person of attorney to. I refer to
personally to him, at the time not knowing that there was
any suit against one that I know and think
it was a very nice of mine. Gatzwood has done an
wrong in appearing from in the Dodson suit about
has been quite injured as a consequence. But I hope
to overlook it all. I do not believe I shall do anything

I can make a mistake I will do so.
In case I should succeed for you, what will become
of the house? It would be too bad to have it and the
garden go to destruction. Frank thinks Mrs. Kern
would take it, free of rent except a nominal one,
pay the taxes and keep the house in repair and
look after the garden. If you have the opportunity
you might speak to her about it, or to any one else
was equally as good. I suppose there is no chance
to see it for \$1000 or \$2000. With this some money
purchase a housestead here.

San Diego Aug 2nd, 1879.

Dear Papa,

You cannot imagine how surprised and pleased I was when I heard in your last letter of the excellent opportunity afforded me of going to San Francisco to resume my studies. I am deeply grateful to Mrs Miles for her kindness in asking me to stay with her, which I would like very much. It would not only be a pleasure to me to be there, but also a companion for little Sophy. I am afraid I am sadly deficient in some of my studies, but close attention and industry to them now will, I hope, enable me to pass a pretty fair examination when I start in with school. I know I cannot go into the first grade now

will not leave San Diego. Though what
attractions there are here for her, is
more than I can tell. She does not
like San Francisco and says she
would rather stay here above, than
go up there. I am at least half a
foot taller than her. She is the small-
est one in the family, and I (with the
exception of George) am the tallest.
Mama has written to you today, and
she will tell you her opinion about
my going up there better than I can.
Tell Frank for me ~~his best~~ ~~bottom~~ ~~stay~~
where he is. He will be very foolish
if he comes down here. Say to him
not to be afraid. She will keep. I shall
have to close now. Hoping to hear from
you I remain.

Your loving daughter
Lillie G. Whaley

I would have no children to look
after, and more time to study. I
^{could} be a companion for her too, if
she wanted one. I could still be
a companion to Poppy for I
could go to school with her and
have her for my companion there.
Of course you know what is
best and I will willingly and
gladly go just whenever you say
for I want to get away from
San Diego. This is for you and
please don't show it to any-
body, for if you do you abuse my
confidence.

Ever

Lillie.

Papa - This is private, only for
your eye. In your letter you
casually mentioned Mrs Day
as one I could remain with
while in S. F. Would it not be
better if I stayed with her?

As I said in my letter I must
give close attention to my books
and would I not have a better
opportunity there than at Mrs
Miles? At Mrs Miles I should
probably have to take care of
the children, while at Mrs Day's

San Diego Aug 3rd - 1879

Dear Frank,

Your welcome letter was received by me this morning with great pleasure. I am glad to hear that you are trying to start in business for yourself, and I sincerely hope you will succeed in whatever you undertake. In any case, do not come back to San Diego. You may not like San Francisco just yet, but the

longer you stay there, the more you
will like it: Besides there some
chance of your getting ahead in
the world up there, while there is
not the prospect of a show for you
abroad here. Decide to whatever you
undertake, and you will come out
all right in the end. You did not
tell me what you were negotiating
for - whether you intended to have
a printing office of your own, or
I do not know anything about
the suit - you have reference to
in your letter. Emma will write
and tell you all she knows about
it. She says you had better write

to Mr Stone and he will give you
full particulars concerning it.
He went to a programme
the other night. It comprised several
of the Gen^l Memorial Exhibition
Tramway Park in Philadelphia
Old Liberty Hall and a great
many other fine views of the
Gen^l Memorial grounds, buildings
and exhibits: all of which were
very nice indeed. It included
100 views, embracing drawings,
series in the Stat. Gallery, Man
Building, Machinery Hall and
Memorial Hall all of which
were beautiful. The pictures were

shown through a magic lantern, and appeared very clear and distinct. The statuary in particular was the most noticeable and pretty because they looked exactly like real statues. I felt as though I was at the Centennial myself, wandering from room to room and looking at all the exhibits, so vivid was the representation of it. So we can say we have been to the Centennial as well as you and I am sure we saw more than you.

Fred Donohoe stopped here to say good-bye to us before he went away. He said he would

and Erathie both received letters from
you.

Enclosed you will find a letter
which, I suppose, comes from Jennie
as it is post-marked Patterson. I
would not have answered your
letter so soon, but that I wanted
you to get that letter. I would
have waited until I could find
more news to write about. Give my
love to Papa and my friends, and
tell Grandma for me. I am sorry
she is sick and hope she will
be better soon. All send love to

very anxious about your having a
good time, and wanted to make
everything comfortable for you.

Nannie is paying a visit
to Christina at Los Pozos. I suppose
she will stay out there for a week
or two. I have not seen the "black
eyed signorita" since the picnic we

don't care to. We do ^{not} see much of
any of them now. Harry has not

My dear friend Whaley

I was very glad to receive such a nice long letter from you as yours of July 22nd but very sorry to learn of the hard time you are having. I do hope your gardening plot may rise again for one of your stamens should be countfully reward. I do hope some this reaches you - you will have found some kind of employment that may pay your bill. I may now say that I am fairly located here Mrs Prace and the children came on early in July leaving N.Y. the evening of the 17th arriving in Montreal the morning of the 5th. I went to Montreal to meet them and did meet them some 30 miles out on the railroad.

Having got on to Mountain City
I took our outdoor band team
got off at the station and immediately
took the other train which runs

The Robinson car and up to Park &
Children before they were covered by
my banner. We arrived in Mountain
at 9 O'clock then took a car and
drove all over the city and over the
Mountain trail, returned a team
of La Sore for the Championship
of the world and it was very exciting
then back to the outdoor Band just
before 7 O'clock in the evening - all
pretty well tired, but not as tired
but what we did not care at all for
some hours. Going up the Mountain
at noon and six bells later the
audience with strings - it was a
lovely car arrived in view of the
Mountain at 6th Sunday - Having
stayed at the house with guests

a grand fall night and a crowd -
so that before we got to the house
Frank had me all ready - and one
would hardly think that we were
taking the first meal in the house
as Olga promised as the furniture
and I felt at no moment as I never
before. I sent for her to come on
the house and they said that
her sister the last three days
which have been quite warm
I received a letter a few days ago
from your friend Thompson from Upper
Canada asking if I would give his
brother in law anything to do but I
could not as I have nothing to
do with Engaging. Employees -
The world here is very extensive and
is the largest fair of Conventions
world in all is on this continent on
any other - and I think the only
fair of all world in all
Although some names of cities

have been laid it has been done
by making large blocks of concrete
and then laying them the same as
stone. When complete we will have
here one solid block of concrete
4000 feet in length 48 feet high
and 30 feet at the base and 6 feet at
the top. We lay it in layers to bond
together or that is when a course
is finished off we have stone setting
up so that when the next course is put
in it has a fair strong bond. The
following diagram may show it to

you
and the
is fine concrete made of
1 part fine Portland Cement 2 parts clean
sharp sand and 2 parts fine gravel or
fine broken angular stone.

I am
held responsible for the entire work
although there is a government
engineer he has no responsibility
I lay out and direct the progress
of the work and then report to

the resident Engineer who handles my
work - He has one Derrick here
which has a carrying capacity of 3000
of earth. it takes it from a given place
and dumps it 210 feet distant and
moves daily from 1000 to 1600 Cub
yds. per 24 hours - One thing if
you should hear of any months out
you rich of the Continent and they
should want a Man of my Build
spoke of it - ~~For~~ concrete I will
be away up when one finishes here
Am making experiments all the
time have a nice laboratory and
2 men to work out any whims
I may get into my head. in relation
to mixing cement with different
parts and proportions. Today is
Ney warm yet there is a good
Breeze - I hear from Stone over
in a while and he is still with
Hague - and working a mine rock
machine - I shall send him

your letter as I have not met
Robert Lewis & do not know
what conference to make and what
to do about it - do as to
that our friends as far as you
quintessence as I think may see things
also if any Engineering Part
shows some signs that I can
open parties to those in charge
of their business matters and
they can by meeting to the parties
have found out my ability in previous

but I don't say with me either the
head of the firm had a very pleasant
time, He knows all the men in a
very old one, but in the last 10 years

to gather again before many months
pass - Remember me most kindly
to your wife and children in which
Miss Browne joins me. Although
never having seen them we feel
that knowing you so well that
we must know them. and
again I sincerely pray that a

Dear Papa:

As all the
others have written to you, I
shall follow their good example,
though I fear my letter will
not be very interesting as
Mamma & Lillie have told
you all the news that can
be scraped up in this for -

wherever please, yet I will write
to show I have not forgotten
dear old "Phyllis".

When we heard
of your arrival in Ft. Francisco

I was sure you the next moment
would be "get ready and come

up next steamer", and all
I was discussing what me

should mean up. Although me

were a little disappointed in
not going yet I felt happy

you were so much nearer to
us and now I think our time

has come, it you must not
come any nearer, but let

us go to you for of course you would
not think of coming here, after

all the discouraging letters you have

received concerning San Diego.

and I do not think it possible

for any one to decide G. D. in

its moral colors, it would dis-

courage them before they half

finished.

Frank is "Big Fish"

in this family as he has married

been "water" and Lord knows

"what-not" Tell him with a few

that I do not intend to write to

him until he writes to me, for

when he was in San Diego, I

wrote to him, first, and his reply
was an ungrateful lecture about
my writing first that it quite
humbled me for my "presumption."
so I will wait, which is very
likely I shall. Tell him last
Sunday Hattie, Louisa, Mrs Israel
D. & myself went to
Paradise Valley and Hattie could
hardly get home for eating about
a bushel of peaches, and since
then has formed a Grecian bend,
but is recovering. ^{(she was not afraid to} eat as Judge man ^{always}

1879-

My dear Husband.

Your long
looked for letter came to hand
this morning, but I am very
sorry that you write so dis-
couragingly, still you have
not been very long in San
Francisco as to expect to
get into anything right aw-
ay. I should think that
Primmer or Fargo might
start you in a small
way in this line of
business, in the country
or around San Francisco
somewhere, I think it
would be a good idea
if Frank could start a

job printing office, I just
read one of Frank's letters to
me, in which he tells me
that he has "secured a po-
sition on the Alta, which
he says he will enter into
tomorrow Monday in the
job room of the office thus
giving him work in the day-
time instead of at night"
now what does he mean
when you tell me in your
letter that he cannot pro-
cure anything to do? People
have inquired concerning Frank
and I have told them as
he wrote me that he had a
job on the Alta. I hope that
something will turn up so
both of you may get into
something rather than return
to this place where it is
almost impossible to get
anything to eat even with
money. I intend to retain
possession of my house till
such time as you both get
into something, as I think it
would be the height of folly
to leave this house for our
creditors to take as it seems
they can do, it is only for
three of the children that I
am concerned George, Violet,
and Lillie, I would like
them to have advantages

and I have told them as
he wrote me that, he had a
job on the delta. I hope that
something will turn up so

three of the children that I
am concerned George, Violet,
and Lillie, I would like
them to have advantages
elsewhere. George seems to
be greatly disappointed in
your letter, as I think he
fully expected you would
send him money enough to
go to you, but I tell him it
will all come right yet when
we least expect it. Man is
determined not to go to San-
Francisco to live, she seems
to be very much taken up
with George Pyon, and he
with her, he is a good crook

4th young man having a trade
but the association will be
different from what she has
been brought up to, but she
says she is of age, and will
choose for herself, I think
if there were any other nice
young man about she might
think differently. And Frank
his choice is even worse than
man's, as the Machados
are in my opinion lower
than the Lyons family. I
would not let him come
here if you can help it,
Keep him there, as this is
no place for young men
or business people. When
you get something to do as
I think you will after a
while by keeping up your
spirits - and not write so
foolishly about dying, some
thing may come in your way

when you are not looking
for it, at least I hope so.
I have not a cent in the
world, but still I do not des-
pond, as I am continually
hoping that I may get some,
and so, from day-to-day I
go on, Mrs Babbie give us
things to eat, once in awhile,
always making a poor mouth,
I say nothing but, ^{though,} take what
he gives and thankful for it.
I think it is nothing more
than what he should do when
he can, although we are many
and he alone. I think he
would like to go off in the
country, but is waiting to see
what will become of us -

Now as to Billie
I think it is a good idea
to send for her, and if Mollie
would like to try her for awhile
and it does not work to the
satisfaction of all hands, why

then you might ask Mrs Day,
I think a great deal of Mollie
or Sophie, but especially Mollie
as my sympathies are centered
in her, I think she is too
good for Miles altogether too
pure, and upright, and innoc-
cent for him, and if she
had any other resources, she
would be justified in leaving
him after she has transpired
on his part, give her my
best love and tell her that
there is no one whom I would
trust Lillie with so safe
keeping them with herself,
she can be useful to her with
the children and good com-
pany. I would do almost
anything to get Lillie to some
good school, she and Sophie
Miles will get along well
together as Lillie is very
lovely - good natured, and
sings and plays on the
guitar very nicely. Mollie
can make use of her, before
and after school hours, Lil,
is always willing, but is very
ambitious about learning. You

Occupying I mean with herself, she can be useful to her with the children and good company, I would do almost anything to get Lillie to some good school, she and Sophie Miles will get along well together as Lillie is very lovely - good natured, and sings and plays on the guitar very nicely. Mollie can make use of her, before and after school hours, Lil, is always willing, but is very ambitious about learning. You might see Mrs Day too, and tell her. Lillie is a fine looking young girl and will be a nice companion for her, if the thing does not go well, why Miles, it will be Ned's fault, if anything transpires to upset things there, do not say or repeat what I write here to Miles, but read this portion of the letter concerning Mollie to her, I feel friendly to them all, but my feelings are enlisted in Mollie's cause. My love to Sophie McCounchie and tell her that she too has a place in my love, and that I often think of her and

wonders if she will get married⁸
again, give her my love and
tell both Mollie & Sophie to
write to me. I think Lillie
resembles Sophie so much,
in looks and disposition they
is good natured, it must
have been the impression of
Major's death, ~~that~~ that
time that fixed the resem-
blance. One thing I am fearful
of Miles is, that he goes after
all the young girls he comes
across, now Lillie is quite
good looking and I would
not have Miles fool with
her, as she is innocent of all
such things and very modest,
I do not want her head filled
with nonsense about marrying
flirting, or because yet, you
will have to be on the
look out for him, but do
not for the world let Mollie

and the furniture must be¹⁰
left in it, so that it can only
be called abandoned. As much
as we all want to see you
we all think it is best
for some of us to stay here
and try to sell the place
if no other way. Give Mrs
Day my regards, and all who
inquire about me.

I suppose
that mother and Amelia
will be quite angry if Lillie
goes any where else but with
them, but we must do the
best we can for her, and
give her all the advantages
possible. I am sorry you
have fallen out with them,
but it has been such a usual
thing that it has scarcely
made any impression upon
me. Tell Frank to give
them my love, and to write

to me. I am glad to hear
you enjoyed his "Bans"
and that you had been
of great amusement
to the children. I am
to spend a few weeks with
you.

My dear Mrs. Letting - I cannot read
to send you this morning, but
I thought I would say a few
more words concerning Lillie
and Mrs. Miles, I wish you
to keep all I say concerning
this subject to yourself, as I
do not wish to hurt Mollie's
feelings or Miles if he has
any, so do not say a word
to them about what I write
upon this subject, except to
say I am willing, if Mollie
is, to try it for awhile.

As I said before
I hope Miles will not fool
around Lillie and put mean
notions in her head, and
then Mollie has so many
children, and another coming,
that I am afraid Lillie
will be more of a nurse
than a companion, that
is only an idea of mine, it

Might not be so, and Miles's
children are so unruly, that
I think perhaps Lillie would
scarcely have time to rest, of
course I would not expect
her to remain at either Miles
or Mrs Day's without helping
before and after school hours,
but she must have time to
study. I would like you
to see Mrs Day first, before
settling it with Mollie, and
let Mrs Day she may make
use of Lillie around if she
wishes, she will find her
very willing and good dis-
position, if Mrs Day objects
we then see can try Mollie,
but do not say this to Mollie
as it would offend her, be-
sides Mrs Day will keep
this to herself as this is be-
tween you and I. I would
~~not wish Lillie to~~
~~live with either~~ as then
it would unfit her for study
and yet she must make
herself useful in both places
if she goes to either. I will
send this off this evening so
as to leave here by morning
morning at 7 o'clock.

petition, I
who then the Country Mother,
but do not dare this to Mother
as it would offend her, be
sure dear people, would keep
this to yourself as this is be-
ween you and I. I would
with Lillian and to
with children as when
it would unfit her for study,
and yet she mustly create
herself useful in both places
if she goes to either. I will
send this off this evening so
as to leave here to-morrow
morning at 7 o'clock.

I will hunt
up the papers you ask for
to-day, and as soon as I
get them will send them
to you.

Tell Frank to stay
where he is and not to
think of returning here,
all the young men are now
talking of leaving here.

Afterwards of
your inmate, I don't think
you ever did get the head
away, even in early times,
for sometimes the head they

This is the 26th anniversary of our marriages!

San Francisco. August 14th 1879

My Dear Wife. Your welcome letter of the 1st of 3rd inst, containing Sunday papers, and a letter from Lib-
lio, came to hand several days ago. I have not an-
swered, for the reason that I had nothing favorable
to communicate, and I am sorry that such is still
the case. I reply only from duty and even fear-
ing that if I delay longer your wife becomes anxious.
Neither Frank or I have anything to do yet.
Thought justifying hard. It is needless to say
what we expect, but whenever anything assumes
a definite shape I shall be happy to inform you.
I wish to say that I had some good news to impart
to you, but I have none except that contained up-
on the enclosed slip of paper, and as to that being
favorable, in view of the many past disappoint-
ments, is rather doubtful. When I can see
the smoke and hear the screech of the engines
of the Texas Pacific, I shall believe in the reality
of it. I hope soon to get into something, but

ent writing. He thinks that I should go on
over to San Diego, and let George come
up here, as it will be easier for him to get
something to do than for me. indeed, he tells
me that he sees no chance for me whatever,
and needs to see a number of his acquain-
ances, formerly in good positions, who to stay, and
out of employment, or working at salaries
of fifty or sixty dollars per month.
Miss Smith, that if George was here he might, through
Mr Babcock get him a position as Conductor on one
of the San Diego Roads at \$75.00. But this is un-
certain. Whenever I hear or I get into something, so as to
justify sending for Miss & George or for all of you
I shall do so, and I have no doubt but in the course
of time we shall all find something to do. and until this
time comes I can only recommend patience and to
wait. I shall do all that is possible. Miss says
if I wish to go down to San Diego, he believes that he
can get a free pass from Goddard, on which George
or I may return. I do not think that it would be
right to send for George to come up here, leaving you
and the girls at home without any protector unless

It was in a position to send you means to make
 you every way comfortable. There are many things
 which George does for you which if he were away
 from home you would have to pay for. So that it
 is necessary to send you the money to pay for at
 least that much. I hope George does not
 think of leaving home at any time without your
 knowledge and consent. He is all in a box
 having pretty hard times but I believe as you
 do that something will turn up that will better
 our condition. So let us do nothing rashly
 that will cause sorrow or regret to ourselves or to
 our mother. Mamma must do nothing rashly
 or unadvisedly. If she could marry any one
 respectable (with respect to family) who was
 abundantly able to support her comfortably
 in a manner suitable to her rank, I should not
 withhold my consent and I am certain that you
 would not, but to marry a young man out of a
 family with whom the parents could never have
 any intercourse, who has no means to support
 her even comfortably, and matters hard respect-
 able he may be, would be a great piece

My dear Husband.
I don't know that I have anything in particular to write about except to say that I have not a cent more than I need for two weeks, we barely get enough to eat, and that little seems to be given against the will, I suppose Mr B. wants to keep what money I think he has, in case we go away so that he may "skedaddle" some-where himself, I hate to feel as I do every time he hands me a little Sugar or Coffee, he always says, he owes for this or that, which I know is not so, I think I shall have to bloody out pretty soon, and tell him to stop making such a poor mouth, and if he gives anything to give it with a good will. I owe the Baker \$5.00 and the butcher \$2.00, I can get nothing more from him. I thought to have heard from either you or Frank by

this time, even if you have nothing
to send, you might at least let us
know what you are driving at, we
delivered the two papers you sent, but
a letter might have come too. Furtz

I have lots of patience waiting on you.
Judge Fotherly thinks that you ought
not to have any trouble at all in getting
something to do, even, or at a low salary
he says its easy enough if you want
to. Batters tough talk that, isn't it? he
told Mrs Battelle so I suppose its worth
a bit at him too. I do not see the
Mosses any more. I have no way of going
to them and they do not want to go
where there is any fear of a demand
on their purse. No fear I shall not ask
them to be advised, so do not tell me
to go to Morse for I will not, I would
rather stand in my tracks, than do
that. I will pay them a visit if I ever
have a chance. I can't know how
slim the chances of getting down to New

Palace Hotel.

San Francisco, August 25th 1879.

My Dear Wife:- Your welcome letter of the 23rd came to hand this afternoon and yours of the 13th came to hand several days ago. I wrote you last on the 14th, the receipt of which you acknowledge in the one received by day. I have no encouraging news to give you on I should have written before. Frank's and my health are under the same and yet have no bed, able to get into any position. I saw Dr. C. E. Keary and requested him to ascertain if Gen. Byrne the Commandary Gen. had been ordered back. This he did. The best hope here that he had not yet received any orders but expected that he would. I then saw Dr. H. Hammond again. He told me that Gen. Byrne was corresponding with Washington officials and hoped to get transferred and if Gen. Byrne could do he would learn from the General just his successor was and get him to use his influence to have an appointed commissary at the post.

It may be some time, if such a thing takes place, and during the interim, I must get some temporary employment to keep the wolf from the door, I have been casually looking into the field. I get no encouragement whatever from any source and so far Frank is in the same fix. Any arrangement that may be made with Judge Hayes is postponed till after the 1st of the month, he having not yet been appointed. I think of going to Sacramento to take charge of an office there, but mainly in the hands of John Young and he has refused to engage me the matter. Besides, though various firms have made upon the books of several papers and the office, but as there are so many ahead of them, he must await his turn. I hope something will turn up soon as I am nearly discouraged. We have one room left paid till the 30th of next month and some little provisions on hand and less of money so that we shall not starve for the next week or two days. It costs us both about 15 cents per day. Some times we get a square meal from some of our friends. I am disgusted with this way of living. But see the way of extracting myself from it. There are many in the same fix. I would willingly accept of any position, no matter what, even though I received not more than 50¢ to \$1.00 per week. I could live on that and be able to do you enough so as not to be dependent upon any one but to I can get something you must do the best you can, and and don't hesitate to let your wants be known. It is a matter to be soon. Judge H. H. does not trust his paper for him, the old lady presiding on he would not think that your terms could be had so readily. - We will agree to write of them

in any way I am able, for the next six months at \$10.00 per week. I
if he can assist me I hope he will do so. It arrived in California
the first of June and doubtless I should be able to get something good
at a fair remuneration. I am very satisfied that our first day
unless it be a change over, is to be had. I am sure out of employ-
ment, and any better position, have more information and more com-
petent than I am, wandering the streets, being God knows how long.
I am an orphan, and a pauper, formerly in the Spring Valley
State Company, and so on. He has been out of employment in some ten
years, claiming which time he was temporary employment about
three months at a very low rate. He begged \$100.00 to go
them employment at \$10.00 per month. I never saw the best
piece of \$10.00 per month, and formerly had employment at \$10.00
per month. There is no chance of a man for a social posi-
tion, laboring man and doing better, though they find it hard
coming at they do in comparison with the Chinese.
I said this morning an old friend Alfred Threlk, a lawyer, and
is weak and inefficient. I refused to do any case fully for
him. He said he knew of nothing whatever. I never saw a lawyer
accept of any position, however menial, but might be, except
of accepting only of it, in fact anything, and could make
from \$10.00 to \$100.00 per week, to obtain bread and butter for
myself and family. He took my address and said in English
that if any thing he would inform me, and this morning
have to humiliate myself to everybody, my friends inclu-
ded, but if it were possible of it, I should not do it.
I shall remain in a white lounge, till the end of my
present month, and perhaps perhaps being that I
will I shall make tracks for San Diego. I may as well, better
as you, and if I am to change to another, I will not, but
shall at leasting a better place with them. I cannot be
unhappier perhaps than I am now, and during the remain-
ing portion of my life, though, that it may be, I shall find
some consolation with my family, from whom I have to be
very separated, only think of the many long and weary years
that I have passed away, from all where I hold no change.
Is it reasonable to suppose that nature can change this present
situation, the way I have been? I wonder how I have stood so
long. I began to experience a change in my own mind and
desires, and I apprehend I have about with in my present em-
ployment. I suffered in New York, but the hope of a return
into California sustained me. The reality
of this hope proved a delusion and I am now thoroughly
I must more gradually than ever I do, and if not, perhaps, I
cannot, a vast as in a moment of dispondency, I shall at
least become a fit subject of a cabinet council. I do not
like records of present a calamity of this kind, that
to return home, to save my reason and energy from

abandoning me entirely, though I thank God I may yet prolong the time
of my confinement - I hope and intend, though as long as this
in life there is hope. Do not despair of this and would that for re-
sult of possible all my faculties. I cannot express the
greatly distressing the prospect of seeing you and the children and
what I know and this pleasure, or rather dejected if for a time
longer, it was a great disappointment to me. I expected
freely to be able to send for you soon, two or three months
had since passed and I cannot say that I am in any
way likely to be in the position to do what I wish. I would
contribute myself to remain here two months or longer, if it was
possible, see the shadow of a hope, but to be compelled to re-
main here for any indefinite time, without the least ray
of encouragement is more than I can bear. I certainly
should wish of mind from my incessant, protracted, which
oppress me and hope to find at home with you and
the children of I have not overlooked you and then God.
In your wife and the hand being your contin-
ued to my declining home, feeling that I will
be without employment, be surprised, but
I would not be more suspicious and offer a relation
to all persons described.
Tuesday, August 26th 1879. The foregoing was written yesterday.
I have been reading over the history of my case, I think that
you will feel badly to pursue it. I would prefer not to communicate
with you at all this week, but as I may have some things to write
to impart, but you desire me to write and I must therefore impart
to you the thoughts I feel however dismal. The case, and I think
you would be more than you can help though I think they will cause
you some. I am glad that you are all feeling so well and that
you can all appear so cheerful as usual to me about things.
I would wish what my intentions are regarding Willie and George and
what I would do for you if I had the means. The last
time at Frank but I get something money my hands are tied. Only
a little is required, to improve them and the entrance of something
permanent, but this is absolutely necessary. One having that little
and the assurance of a continuance of it, I will be able to insure
matter and it will not be long before I may accomplish re-
main I presume. To be plainest, because the children to read
and improve all they can, particularly George and I fear the

most backward of all. Perhaps things will come out all right in due
time. I am glad that sometimes they take pleasure, even though they have to do
so far from home first. It is good to think that some of them
will be dependent on us, and even humiliated by
accepting of assistance from them. But we must all live, and so
long as we have a good name, it matters but little for the pres-
ent. It is not right to ask for assistance from any one abroad
willing to afford it. Think how generously we have acted towards others
when it was in our power to do so. They did not hesitate to ask
for our help to assist our countrymen in the country and indiffer-
ence of the world is peculiar and generous. Some of the things they
would be found. Still they are business men, and they are
said to be good to our friends, for some consideration. I have had several
good friends in our time who have assisted us for the kindness which they
have bestowed upon others. I do not wish to see others find mercy of them.
I have written several letters from George Foster in regard to his
business with Dr. Donnell respecting him. He says he would inform
when he had anything to communicate, although previously he
communicated with them. The last time I saw him he was annoyed
by my interfering with him so often, so he said he was doing all
he could for him and said he would let my kind wishes
anything to communicate. I proposed to leave the matter entirely
to his hands and not to answer him any more. It may be that he
is doing all in his power for me. Still if I could hear from him
it would give me encouragement.

I have told Raymond my situation and situation and he
asked him to prepare me a list of names of people for him to
He said that he had been such of business, but he had
known or ever said any of them with whom he was acquainted. He
had several long and friendly talks together about things, general
topics of conversation. I have never asked him for any list of people
at present. I left him to provide this best time in his power
that he can. I have a right to expect more from him than
from any one else having been his partner and an old friend. If
our situation were considered and he had told me as much as I
told him, I am sure I would have preferred him assistance
with him of a different manner and much more be asked. I
have been thinking of asking for some material assistance to the extent of \$500
or \$1000 to assist in establishing some kind of business, either
in my own country or in which he might receive assistance

at home and I feel no disappointment thereat. But I am
determined to see him yet, as soon as I can get my courage
up to it again. He can't but neglect me - I have also thought of
asking for aid from Ethel. But there is no one in this city whom
I know of I trust. So I bring a claim as your steward and I expect
that I look upon this as a hopeless one. If you were neglected
might be able to assist me in managing the matter with the
off with others, and on this way. If yours, your influence, and
with you are true, though there are many other reasons for writing to
I hope very well I could just the same tell you a great deal with
out it as you amiable and writing manner. Some have its in-
crease, even though it might not be increased by me.

I don't think that you return to San Diego would be productive
of some good results. But the pleasure of seeing you and the
children which would restore my desponding spirits and give me
renewed energy. I might be able to get my affairs in the hands
of Chapin with the view of leaving them dependent on him. It becomes an
easy one, and I believe that I could obtain from him some
assistance. He is certainly much more intelligent than, and
though he has done much already to repair and (for which I
feel very grateful to him, as it seldom happens that people
appreciate such favors.) I believe that more of good than man has
could be done, and I believe I shall be long as he has means far more
than enough for himself. I have no doubt but that he has had
a great deal and that he feels very good. But when it comes
to a man who has and lost more of his health, and if he has
spared anything he should think himself very fortunate.
Though I could not, I know of a very sign that he is doing well and
he will do a great deal for a stranger even, and what may
be said to do more when he understands my position fully.
But I shall have to talk to him, explain all and as my own
will will be done by letter, so that I am compelled to go
to San Diego. I do not believe it will be without some benefit
results. I wish you therefore to keep in touch with Mr. Moore,
and his wife particularly. I'll write as if I were
alone well and hope for any aid. You can go on
to say that you would rather have your back than
mind for anything. I don't believe in doing so, as it is
you would for anything if you were to ask him, though
he might let you know if you did not ask him.

But do as you please, all I ask of you is to keep in with these in-
creasing of their friendship, so that we can I should apply to
him for aid I shall find him more obliging.
Another reason for going to San Diego is to arrange things
for their departure up here, should we determine - I don't
think it will pay to ship our things, it will not do that these
workers have to be disposed of to the best advantage. I do not
think that anything in the way of furniture would pay to ship
up here unless you estimate the rate of freight could be obtained
Chamber and parlor suite, dining room, and kitchen can be sold very
cheap indeed, I don't believe than the freight would be on anything that
we have, therefore I don't think as to carrying shoes, kitchen
utensils, ^{ward robes} it would be better to sell for the best obtainable
price. Rob Caspary, bed & table linen, curtains, ornaments
kitchen furniture, & all other things, completely packed it
would pay to bring up here, also glass cases china porcelain
Crockery & Caspary packed up as much as you wish
The Scribner machine would have to be taken apart and
some special lower rate of freight would have to be arranged
for extra trucks or baggage, and on all the other things so
that something could be saved from their shipment. I should
like to see some thing to come, if you can the day after
now as regards leaving the household in case of illness becoming
sary to do so. You need be worried as often happens concerning
it. I have the right to see it, and the money is now beyond the power
and reach of creditors. But suppose we can't sell a satisfactory price
we have the right to see it, and the money is now beyond the power
can touch it. But suppose we can't sell a satisfactory price
had law would be enough to see it, or any number of our family
remain in charge of the premises in order to stand. We leave because
we are compelled, not being able to make a living in San Diego, I
would be hard ended for a family under these circumstances to be
their household. We leave but do not abandon our household
we may want to return to it some day, when we can, or we
may require to see it to satisfy our wants, something can be
may be able to see it, the income from the property, or
pay rent for a home somewhere else. We can take the property
in charge of some one on board up the windows and doors
it is our household we have the right to do what we wish
with it and no one can touch it as long as we are in charge of it
or our children, running in the stable, it is our household
it is then home the thing, because of legal age. One of us
or all of us for some reason might be compelled to leave
the share for a time, but I do not as if we were to be
return within a reasonable time the household would re-
main to us. These are my ideas in regard to the household and
in conversation with Albert Wheeler Esq. I should like to see
you in them, but that you may be easily find the matter

San Francisco - August 28th 1849
My Dear Wife,
I write you rather a discouraging letter in this
promising to write again whenever I had anything of interest
to communicate. I cannot say that I have anything of in-
terest to communicate at the present time, though I have
something to excite you, a little money, which I think would
be very acceptable, this for the sake of my country.
I borrowed it from the son of Mr. Jacobs, a Jew, who
is doing business at Tucson Arizona Territory,
and so well off that he intends making millions of this
world for pleasure. I asked his father for a loan,
and he referred me to him. I cannot say that I ex-
pected to get anything when I asked him, he being
always a stranger to me, but to my surprise
he loaned me what I asked for \$10.00 and said
he was happy to have it in his power to do me
that favor. So you see a Jew may befriend a
Christian, and that there are exceptions amongst

Mr. C. writing the other I have seen Capt. Baird, and debating
him my position, he said he kind of my opinion from a present and
kind of no better way to assist me than by buying me \$100. which
he did. I told him I would endorse it to you with his regards, do
that instead of \$50. and \$25. I send you \$100. and \$25. which will
materially assist you. So expend it in such a way as will give
you the most benefit. Yours loving husband,
Thos. Shaler

Aug 28 79. 3 1/2 pm I have been waiting for Mr. Baird to answer this
letter which he has written to you. If it does not come soon I shall
have to go to the Post Office as it will be registered this afternoon.

Inquire me if you received registered letter sent from

Friend Tom

Your long looked
for letter was received Tuesday
last, and I hasten to answer it,
as I will the sooner get another.
I am sorry you are not at the
old brick house in San Diego
with your wife and children,
whenever you have Frank with
you, and both looking out will
certainly bring in a job of some
kind. You certainly have had
a hard time of it the past five
or six years, but as your dear
wife tells you "the darkest
hour is just before day" keep
up your wonderful courage it
will be all right in the end.

My family are all well, except
Remond at Paleisado, but with
10th of September I intend to
take up my bags and return
to Bostkens. Mrs. Donaldson
asks if I have heard from
Mr. Whaley, and says 'I've
my love to him', 'Oh, and
Thomnie have said I was
over again 'in a place I am
that Mr. Whaley has gone to
his daughter's; they did not
think of the paper, she is the
one that my wife and I get
think of. My mother has
had the truck and the stais
in Montana, and I think
he will come home at once.
His father was full to him,
his coat dried up, and she
his legs for the Cuban crew
exercise off while he was away

attention from him from in New
York, that hope to settle him
down soon after he arrives, as
I will let some from here his

to Dr. Barnes, as he cured me last
time, he sent me some powder
to act on the digestive organs,
he says my digestion is not right
which causes the piles, custom-
arily riding out, eating fruits,
oat-meal, and laxative food,
not having the money for
such things, I could not get
them, now I shall get a little
fruit-eggs - and oat-meal, I am
right down then again, it seems
as if I never will pick up or
get well, now I suppose for
the balance of my life I will
be troubled with the piles, it
is a very distressing malady.

Recd Sept 16

San Diego, Cal. Sept 2nd 1879

My dear Husband.

I wrote you yesterday, and only send you these few lines, enclosing an advertisement I cut out of the "Chronicle" of August 24th. Some times, these advertisements - turn out good things - You ought to hook up Capt Wiley, and get him to lend you enough money to start in on something. I would not enter into all the particulars of my misfortune, but simply tell him you are low down and ask him to help you, speak to him in a good frank open way, tell him you are short of money, and for the sake of a few hundred dollars you cannot get into anything, that is the way to talk. Not tell him a whole gizzard of distresses, I do not think he would like to hear it, that is my idea, you can tell him you will pay him out of the

San Francisco, Sept 4th 1879.

My Dear Wife,

I sent you a registered letter Aug 28th, addressed, "Mrs Thomas Thaley, North Van Dyke, Cal", no 5534, containing a \$100 and a \$5 greenback. I hope the same amount has safely, though I have not yet received the P.O. receipt for the same.

This morning I got a letter from one Brown, dated Sept 31st in answer to mine sent the 27th of the month. He writes that the Conklin suit has not yet been settled. He says though C had offered to take off \$100, but Brown is not willing to settle for more than \$25, and should suit be continued not to have to pay even that much. It will be some time before the matter is settled owing to the absence of J. C. Cleveland, Brown's attorney, at present in S. F. I would see B. C. to learn more, but am unable to find him. May, probably catch him on the street.

I am anxiously awaiting news from you to know of the money same to hand, and how you are on.

I hope to get out this afternoon, otherwise I shall stay here. I have nothing in particular to write about, though I am writing with you and write about the same as they were.

I did not intend, and presume I never misheard
stand him. It is something of the sort,
which out of regard to my present need and
suffering he forbears to tell me, though it has long,
evidently, been preying upon his mind, still he can
not help referring to the terrible calamity which he
says I have brought upon him without being able to
tell me what it is and says he can't help it, but some
day, here or hereafter it will be clear.

Moses as an old friend, having Confided in me has
been unjust to me and to himself, without intend-
ing to be so. How much better would it have been,
(if by any act or word of mine, unintentionally com-
mitted) ~~and~~ ^{upon} he conceived that I had brought any
terrible calamity upon him, had he told me of it
then. Would he not then have known ~~that~~ whether
I was or not the unintentional author, and if the
~~best~~ former might not this terrible calamity
have been averted or repaired?

What he writes is wholly unimpeachable, and
I know not to what he refers, though I have gone
down into the deepest recesses of my memory
and cannot recall a single act of mine.

to have given occasion to what he alludes to.
I have questioned Grant, if ever he heard
the least intimation to anything in re-
ference to the matter, therefore I write to you
for the elucidation of it, or anything he sees
writting it may be in your estimation, which may
aid me in unravelling this strange enigma.

I thought I would do this before answering Morse's
letter which I am very anxious to do, therefore I
hope you will reply to this, if possible, by return of mail
giving me such information or suggestions as you
may think proper to aid me in doing so.

I have troubles enough God knows, but if I could
summarize them all as easily as I hope to be able
to do, exculpating myself from any and all blame,
and, probably receiving more from the perilous Commu-
nity, I should indeed be much happy.

But as Morse says, I may never know, perhaps
he will never impart more to me than he has done,
but this would not be right. Had he told me
as much as he has done, he is bound and
to tell me the balance, and I shall rest
upon knowing it. That I may exculpate my-

Self from any conceived injury on my part,
or refuse as you do in any former any injury
which inadequately and unreasonably I may
have caused myself.

This thing I shatter I may be much to be sure being
most terrible, such a blow, as to retire to my
the blood every could have been guilty of ^{it} ^{my}
I have been away from home a long time. ^{What}
kind which may not have been done by doing, to in-
jure me in the estimation of most, everybody knowing
how very painful we are. May our town one, of-
fered to both of you have said a true something, as
causing you and, what they believed would injure
mother, and, as coming from me, produced
replied before us? If any man may have been
forced to show little or discomfort, on a contrary
hope you had something, as coming from me, in
the subject considered. But had the property
any claim to my child or feeling, him anything in
captivity could have made him a terrible exam-
ple to the world for me to see. O my dear
mother, to a child of 17 for any amount of ^{it} ^{my}
by him might injure him, but not to shatter

supposed as he never was from any draft
for any large amount, as coming from me, and being
and without being admitted of the same. As that I
do not do that any thing would ever have been
caused in this way.

But would the money which I have had from
mother to the extent of probably \$10000, should
have restored him, and he would be contented that
the family becoming to which he refers, I am certain
he could not shatter it to be admitted to as a
third party, as I am confident, say that
they do not or word of mine have I know
they do anything to the detriment of our
well and faithful friends or guests had ever
been to me. I hope by any means to be
asked I have done anything. But in-
jury. I consider having for a me do
much as he has, I hope the right to them
the same. With love, Hoping - please
from your Son, John

Your affectionate husband
John W. to see.

Sept
August 4th 49. 4 pm. I am just in receipt of your long letter
of the 1st inst. I am glad you received the \$15.00, but no
P.O. receipt has come to hand. I am glad you and Theobald
do an well, and that sometimes, notwithstanding your
adolescence, that you enjoy yourself. I hope George and Belle will
continue to learn all they can, the former writing and figur-
ing and the latter, he studies generally, grammar and breast and
also to read to learn they must improve their minds by reading
good and useful books and studying others. I wish to see the
other day a says he has not forgotten me, will send some thing
when he comes to town, has been away some time. It says
if I hear of any thing, and he can send me to let him know.
I wish Dr. Hammon had said he had a letter from you and had
sent some files and would write to you. He had not
yet heard of a change of Commissary, but would be on the
look out. The rules have been made and sent a
large one means town, will move the 12th. They are friendly
to you another, but for how long it is uncertain. Sophie has
also to move, at present she is at Niagara at Cambridge.
Perhaps she will marry the Gent. exp. though a young
man. Mrs. Fisher has visited her frequently. I wish
to know that you get about the work to her. If you had
any doubts, I wish you would do as not to be disappreciated,
they are kind to "them" and are "read" them frequently.
I hope Maude will do better than marry George's son, I think a great
agony will, as the worst act of her life. If anything more
than an engagement was between them, she will change her mind
a dozen times yet before ever marrying him. There
are better young men, with good family connections,
more desirous to make her happy. Violet is too young
as to enter into ideas of marrying. Let her wait her chance
will be better when we are differently situated.
Maybe the reason Morris does not come to see you is because
of the terrible calamity which he credits me with and that
may be the cause of the indifference shown. If you see him, tell
him I have written to you about it, express your great
surprise and endeavor to ascertain what it was about as
there is certainly a rigger in the fence down here and we
must get him out. I heard from Tupper today, a kind
letter. He says "my love" (his wife's mother) often asks if I have
from Mr. Haley and says give my love to him. Alice and Minnie have
said over and over again, how glad I am that Mr. Haley has given
to his daughter. They did not think of the wife, she is the only
my wife and I think of it. They send love to you, your friends
there. With love dear wife, from your darling J. P. Haley.

My dear Mr. Whaley

Since received your letter two or three days ago, I have asked me to answer for him, as he's so busy, that by the time he reaches home, he's so tired, he takes his dinner, & soon drops asleep, if there is not something extra going on, to keep him awake.

We are both truly sorry to hear of your continued bad luck, & tho we are told there is justice in all things, I think a great many of us have to die, before we find it out, & it's a question, if we do then.

Mr (Tince) seems to satisfy his employers very much, if we can judge from the hospitality extended

To us both. Has come & have grown. have made a couple of visits to me & into the importance of all the matter of it, & the I know nothing of machinery of the firm, (there) so that they could be found if they understand it and take him aside, I should get the the proceedings. I have taken up the story of them since Thanksgiving, so that he has been busy lately, as it almost immediately of course one down in one place, & another. here, so many people speak nothing of another of it, in another place. They have all sort of run eye the, they have not made any columns traces in his work, not the least my progress yet, but are assured that if instead is going down under water in the course of a few months, we in a strong side & see that the shall be able to get along in ordinary course all their work properly, in association. Strange too, are all found they are obliged to wait blanks up with my fair expectations, I do really against the filing & keep the bank some unimproving than I imagine the from rushing in where the dredging not. It has all & speak in the under has been done. We have a few been several, but long ago there was a favor from our first minister, of the month of the people showed the of the St Charles river, when it flows of those of persons unacquainted attending, & we were into the St Lawrence, & just when united to the parties & meet them. the work is now progressing. I will perfectly that I go they all speak

My Dear Friend Tholey.

Your nice long letter of Aug 23rd was recd on Sunday last. And I was much interested with it. Would I could advance you a sufficient sum to be of some benefit to you, but I am not so can only do what I can for you which is indeed trifling to what I wish I could do for you. You know I was at considerable expense in entering here and it costs me something to live so I am still working out the "Dead Horse" which I hope will end by the first of January. My reference in any last to hoping to see you before long was that if anything should turn up in New Brunswick that would pay I would come out - I think my position here is good until the contract is finished which will be about Dec 1880 - Maybe a little longer

I had intended to have written you Monday last but
I could not find time and to day it is so stormy
that I am in the office - I asked Eliza to write
you but she felt a delicacy in so doing
as she felt you would rather hear from me
you will write me on receipt of this and
my dear old friend I will try to send you
something very small if only a dollar & know
it will be acceptable. I am the author
of my letter but believe me you are in

San Diego, Cal. Sept 9th 1879

My dear Husband.

Your letter
of Sept 5th (Lillie's birthday)
came safely. The \$15.00 you
sent came to hand safely, and
I suppose by this time you have
the P.O. receipt. All the family
are well but me, I am slowly
recovering from the severe fit
of Piles, which laid me up
for five days in bed, am
taking Homeopathic powder,
which have relieved me very
much. It is a very painful
and distressing disease. I ought
to eat more nourishing food, but I
cannot always get it. Milk

Oatmeal, Eggs, very ripe fruits,
is good for me, when I get
a little money. I have most of it,
and do not like to take it
for myself alone, as there are so
many common necessities of life
to get that it takes all for that,
I shall have to wait till we get
rich again, if I only can live
it out. Am so sorry you and
Frank find it so hard to get
any employment, but you have
many work in the firm, and I
think that some one of them
will strike it soon. Keeps us
going then, never say die, all
will turn out for the best.
George says there is good rail
road news, I do not know what
it is. Scott selling bonds, I be-
lieve. Now as to Morde.

I cannot say for a certain, what
is the matter, but sometime ago
some one told me that Morde
was acting very strange, he
had a fight with Jimmie Stone,
a thing he never does, to fight.
He was terribly disappointed
at the vote of passage of the
H. Road bill at the time he was
so sure it would pass. When
you made over your property to
Morde Mrs. Morde said she
was afraid people would think
Morde took it to cheat those
you owed, now that they
oppose upon it, as Councilman
did, it may reflect upon him
and that may be his terrible
calamity, as she calls it, from
not see it in that light, then
always makes such a do
about everything, I am pretty

It is money that troubles
him, and he wants to make
you feel the great disappoint-
ment he has undergone but
goodness he has plenty and
enough to spare, but he wants
to roll in wealth, and taking the
disappointment of the Rail Road
to heart more than anyone, I
would not if I were paid trouble
myself about it more than
necessary, I will see how
soon as I am able to get about,
I cannot walk well yet ~~but~~
to keep very quiet, so as to avoid
fever till next attack, then I will
write and let you know, I will
ask him the meaning of it all
so you will have to wait patiently
till such time as I see him.
If they call before I am able
to go out myself to see them all
right, so wait patiently till
I see them and do not worry
about it. I think it is the
property you made over to him
together with other money matters.
Nannie has just come
home from "Las Posas" where
she has been for over five weeks,
she has had four or five large
gatherings, which has been, which
she has made her quite sick,
although now she is looking
better. George is very anxious to
go to San Francisco, he talks of
borrowing the money from
the trustees, what do you think
of it? If I were you I would
write to Horace and let him
know he is not doing you justice
neither you in the club as to
what he has written concerning

San Francisco,
Sept. 12, 1879.

Dear Mother:

Yours of the 2^d instant
has been received, and I can assure
you that your letter was gladly
welcomed.

I am indeed sorry to learn
that you have been sick and
confined to your bed with that
horrible disease - the piles - but
I trust in this you have suf-
ficiently recovered and that you
are once more able to be on your
feet again. The pills sent you
by Dr. Hammond, I know nothing
about, but I trust they have done
you good and that they will in

 the end sure you understand. You
 can't see me, as I have no position
 is necessary, but I have not been
 how the office I left home, they
 officers to have left me entirely,
 but I will be careful and will
 act in accordance with your in-
 structions regarding them.

The money sent you, by post
 has received and kept for at
 least a short time, the rest from
 the store. "But the way things are
 looking now, I cannot, as yet, see
 much prospect ahead. Charles has
 nothing to do yet, and I am try-
 ing hard to obtain something that
 will do for me. I know if I hang
 out all day, for I know if I hang
 out long enough Charles will re-
 main. I have thought some times
 as a matter of fact Mr. White man-
 aged to get acquainted with
 quite a number of the merchants and

It's position gentlemen must see
 the position of the different states
 however, and also the power in
 of the power, and if have the co-
 operation through them, so far as
 to the parties interested in me, I
 getting the first position remaining,
 and my name has been placed
 first upon the list as my own
 given to the former with in other
 hands according to; thus most every
 day as speaking for me may mean
 do even so I can get work, I shall
 see if you see the money I can show
 and do all I can in my power
 to keep you see in a fair way
 in the things can change. Mr. White
 is doing as he can to get me
 placed, he has taken an interest
 in me and wants to see me
 succeed. If he has the ready cash
 he would start me on my own
 like White and should be

quite a number of the merchants and
 quite a number of the merchants and

is the only real friend I have in
San Francisco, there are others who
promise to do and do nothing, but
Bill is doing and is trying hard.
Both he and Mrs. Childs wish to be
reunited here kindly to all. I don't
know what Father intends to do, I
trust he may get something, but I
think his prospects, at present, are
pretty slim. I do not bother any
more with him in this respect.

My word I have gotten out of
and I trust I may never catch
another like it. This is a miserable
climate and a miserable place,
and I am sorry I ever set my foot
in it; had I known before I left
San Diego, "how things was", I should
never have come here. I have not
made one single cent since I have

been here. If I had stayed in D.
 D. I would have obtained steady
 work in "The Union" office during
 election time and would probably
 have made at least \$70. or \$80,
 but here I am and I shall try and
 stay, trusting to luck, but the
 time weighs heavily upon me. I
 am not given to dispair nor shall
 I allow such to dwell within me,
 so trusting that all will turn out for
 the best, I drop the subject. My
 former determination has fallen in.
 The gentleman has given up the
 idea and interest going in "biz"
 here - in merchandising.

I have written Parker twice
 and no answer yet. I think he
 is making a face move, and I
 hope he will be persuaded out of

the case. Rather over myself
under as well together. I saw some
meeting as answer to my letter
yours.

I am glad the girls have a
good time at Georgetown and
that you is enjoying yourself bet-
ter at Ohio times. When the girls
write to the "mountain folk," I wish
they would see me but me to them
all. In love & friendship, I believe
from the A. S. Regency, Aug 22, in
regard to Mrs. Baker, but the girls
and it is "Georgetown" for case.

Do you have a "Ohio" as the
woman, has I wish I had been there!
My pleasure here are good - with
an expectation - I believe fast work
a woman - coming in the winter
of Mrs. A. H. White, a shipmate of
D. in 189, they are now a good time!
I do not enjoy myself in around
at Mrs. R. many are now here. The year

if another 17 me young gentlemen
April 21, are few young ladies from
16 to 24. They are nice because
I am in girls - that English well-
and as all they can to make things
pleasant for us. James rather
attend one some also from party
them go to a degree here.

The election is over and every-
thing is quiet. Politics is between
and the Republic are notations. Now
therefore to have some in effort
when he arrives here. If he does the
people therefore to have their out-
right. The military will be their
one of the city and will look their
one. It is about time the Union comes
over working up, and especially to the
and a big place and to prosper. That
will receive a big welcome in the city
which will cost over \$10,000. The Union
parties making their a man here and
I shall see him as a reception to be

Figured him at the Business Hall
on Montgomery St.

8/ Do Nan is engaged to George Jones.
I think she will do better to love
him than trust to the "quints" she
might happen to get here. I like
George; he is a good boy and not a
lazy boy. The young gents here are
pretty fast and not to be trusted.
and the same may be said of the
girls. Pa is mad as a hornet over
it. But says very little.

Remember me kindly to Mr. and
Mrs. McCoy. Tell them I am well
and happy. I hope Mr. McCoy is
better and will be able to be out soon.

I got a P. O. card from Harry. He
says "for me to be at the dock when
the "Arcum" comes in on the 17th as
he will be on board." I shall at last
have some one to go around with,
and one I know.

I got a letter from Diver (asking
me to write to Parker,) yesterday. Tell
her I shall not forget writing to her

But as Postage Stamps are scarce,
I write this time to you, and can
glad to hear from Vi. Please do not
forget any more green pants. It
has had effects.

Remember me very kindly to
Frank May and George Lyons, tell
them, not to forget me, as I have
not and will not forget them, and
in case of time I will write, but
tell them to lay aside all business
and write to me any time.

~~Remember me~~ received your letter.
They were glad to hear from you,
and though we write this time
sent to you all. They will write
soon.

Pa is always very anxious to
see all letters I may get. Your last
he has not seen and does not know

I have to. I have to take them from
him. How far when you into the
country what you say or there may
be an explanation in court.

"Give my love to Stella's father
you see he."

Philo now again changes arriving
He was twice on "Post Hill" near
Arden, on a more than ever "Guten
Brama". For ever myself have been
for the last three days making them
comforts and helping to move. They
have got a nice large house, but
the unpleasant German camp are
not first class, but this is more
than all over there this property
will be very valuable. They are about
a half from Washington are about
150 feet from Key State University
I suggest the paper I left home,
to be a file of unpleasant cases against
Miss Revere, which I have made
him as present of the first last

It says no it is of no account and
that is no possibility of getting it
from him.

Oh the charms Paris is over since
they have again summed the Parisian
is to a ring for walking market
purpose. It is space to our the
times community.

Can you place the fig has decide
not all are those you got no
many fig of it. I expect the
garden looks nice.

For George not to see how
that all will come out right for
him soon. I shall be good to
get our office over there soon
but him is stream a house.
James rather to be in Paris the
his time in his rather than
reunion then a very large if I
over see.

Give my love to her to see the
peace of our to my Paris as reunion

See me kindly. Telling all that I have not forgotten them, and I hope they have not me, and in course of due time we may meet again.

Hoping all are well, as we are here and expecting an answer soon with much love to your dear Mamma
I remain

Very truly,
Your Son,

Francis H. Whaley.

I saw Mr. Hammond this morning in regard to directions for taking the pills. Same directions as before three times a day one before each meal. The doctor wishes to be remembered. He intended to drop a note but forgot to.

from S. D. News. Sept 13-19

The Weatherford (Texas) Times, Aug 16, has the following
"It is said that the S. P. have entered into an arrangement with Huntington's Southern Pacific line by which the former is to build its road to El Paso immediately, and the latter to that point, with the San Diego branch not to be settled. In this great combination, the St. Louis and Iron Mountain ^{and} ~~is~~ ^a ~~part~~ ^{of} ~~the~~ ^{the} ~~road~~ ^{road} is

thus apparently settles the management of this extensive line, and virtually places it in the hands of the Penn R. R. Co. We learn from a valued and reliable correspondent in Philadelphia that the S. P. Co. have been offered \$6,000,000 on the bonds proposed to be issued at the annual meeting of the Co. held in Philadelphia at 95 and an eighth.

The S. D. News Sept 14th.

Notes from Los Angeles Express. "A rumor has reached here that Scott has made loan of \$20,000,000 in London and that he will return and commence work on S. P. to S. D. If true, the chances of a complete

titles road over Southern route an encouraging,
with prospect of a more line the S.P. who hardly
could find them than Tucson, but then towards
Mexico looking with remembrance at Guaymas and
from these branches into interior of Mexican
republic, connecting the Capital with Texas
on Gulf of California. This was original design of
Stanford. When road was completed in San-
dago Valley 3 yrs ago Gov. S. in his speech intimated
that City of Mexico was the grand objective point.
With the mutation of the fortunes of Gov. S. the policy
designing Gov. Chango and a bold effort was made
to absorb the S.P. drive it from the field and wrest
from it all its advantages & franchises. It failed
in that, and now that Corti has probably reduced
Capital, the S.P. will return to original programme.

The completion of the S.P. to San Diego would bring a com-
petitor on the transportation field of California and good
to the people of this coast. A powerful organization
uplifting the harbor of San Diego would compel the S.P. to open
harbor of Wilmington. The people having some assets for
shipment with interior of Arizona, a rivalry of business
would raise rates of transportation. The hope remains
that Sedid may succeed. It will place giant
against giant, and help the people of the coast in a con-
flict which is almost beyond their reach of strength.

Paper I care,
write soon.

Old Town
Sept 24th 1879

My dear son Frank.

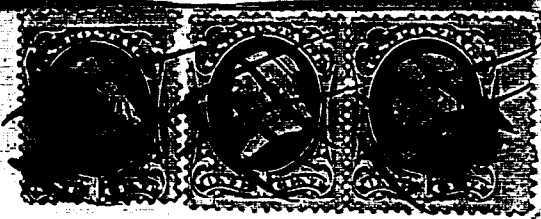

I really do not know if it was your letter or your father that I have answered. I think though it is your father, therefore I write to you. I cannot say that there is any particular news, we are all well at present, too well for the good appetite they all have all money gone. Last night Dan Clark died paralyzed. I went down the other day of New Town to have a back with drawn by Dr. Case he perfectly willing to wait for his money. I stayed a Mrs. Rankin's place. Last night we had an old fashioned talk she has heard some things you had about her when she stayed at the house. Mrs. Goff and Willie Goff told her I smoothed it over. The will is a very pretty place when it is finished. Town is in the lower County yet. I called to see Mrs. Noble the next day, but could not have a talk with her as the people of Broad folk, were at the school holding a meeting he had been having fallen sick. When he heard Gumball had arrived

who waits patiently and cheer-
fully, I hope you see in good
health and your father also
my love to his and ma Aunt
Clinty, and also to the Wiley
family, and Sophie. We have
had a great many figs off our
trees, but it would take 30
large trees to supply the dem-
and around. I hes. thought I
had to watch my Chamber get
it full so I am keep watch
over it, so that these female
hawks may not capture them
all. The boys in town here
succeeded and held forth in
the upper part of Lytewood,
it was a lot of wild horses
kicking against the barn, such
a racket, causing, saying, looks
at night, heard before I could
not get to sleep till this morn-
ing. In the morning Jim George help
was sent to go to bed early and
said he would have joined
them. Jim Conner and Violet
and George Roy and Lillie play
ed a match game of Casino
for two pounds of Candies, Jim
lost both times, Sunday he brought
two boxes of Candies, he says
that next time he will cheat
if he can't win any other way.
Oh my how I wish they were

where he can talk such time as he. Did that all
his crow and the fire part, for it is perfectly
dead here unless they jumped in bullets, they
can't - I had a word talked of. Then said and you
could give the lower part of the house
where the boys are out but I have no money
to get sent with. I thought by that time
of the boys this morning. The story called this
the boys - the boys. I say says you that
the boys are in a hole of the close
the boys are in a hole, and then

Good of you or your father had something to do
these slow grubby times affect me so I do
not care so much for myself, although if I could
get certain few things I know they would keep
me feeling better, but the crowd here now they
want shoes, and under hirt - winter coming on.
We are all without under hirt, well if we can
only get something to eat to write all the right.
I will not despair, something may turn up unexpected.
I will be patient like god keep up good
heart Frank and never say die. I hope your
batter will do the same, he had better stick

San Francisco, September 24th - 1849.

My Dear Wife,

Referring to my memorandum I perceive the last letter received from you was on the 12th of the month which I answered on the following day. I begin to think that it is about time that Morse is gone again and that you did the same. I have written to Morse concerning that "terrible calamity", expressing my surprise thereof and requesting, inasmuch as he has informed me of it, I shall expect him to tell me what it is, and hope soon to hear further of it. I received a letter from him to day, but as it was dated the 20th, and mine to him on the 22nd, of course he made no mention of the matter. He informs me of some Rail Road news, or rather that the people of San Diego are at present proposing to do in order to get some company to undertake building the road to China commencing work at San Diego; and should they succeed there is every probability of a speedy

We base it upon some information in the sale. I am
glad to hear of this on their account, besides it gives
me additional hope in regard to other informa-
tion attending the obtaining of the judgment a-
gainst me. That the conveyance I made to Morse
and Frank will hold, as I have believed it would.
I think things will come around all right with us
in the course of time as I do not feel quite so much
discouraged as I did, though we must expect to see
some hard times yet.

(Neither Frank nor I have succeeded in obtaining any-
thing to do: the prospect for myself is anything
but bright, though for Frank a little more encouraging.
Judge Hyde still holds out the hope that he may
be able to assist him and should I succeed in get-
ting him established in a job printing office so as to
relieve George when he will be learning and making some-
thing I shall be perfectly satisfied. There is no certainty
by the Judge doing anything, his promise being
based upon his ability to do so independent of

the necessary management of his own affairs which have become involved by the action of the Commission in connection with the French bank. But these are nearly straightened out and he hopes to have some money soon at his disposal. But say nothing of what I write to anyone in regard to the judges affairs. He thinks before the fight of such an issue may be able to help Frank, may be to the extent of one hundred and fifty dollars.

Recently I renewed the acquaintance of an old friend, Robert d'Estimaerville, with whom I was intimate in 1850. He has become celebrated as the compiler of law books having published many works for the guidance of lawyers in their practice. He is known now as Robert Estey and was elected at the last election State youth Senator for Van Buren and a portion of Van Buren. His election is contested upon the ground that he is not a citizen of the United States. His mother ^{grandmother} brought him from Canada to New York.

at the age of eight years, then he remained studying
law till he came to Cambridge in 1800 being by some
a little of instruction from a friend of mine (John Aikin).
He says he was naturally no student in 1800 and
has sent me these for a copy of the certificate of his
degree, and by me he will give that title of
and Robert Dobby on me and the same person. He at
last I have known a few learned and learned men
from the fact of his having received the law, may say of
the same and he would be well known to have
made his presence, He showed his studies in his

He is of a rather jovial disposition and in the manner of his conversation and some of his sayings reminds me something of Jeff Cokerwood when at his best. He can be equally as eloquent and ^{though} at times he may not express himself as elegantly yet he is not quite the blackguard as Cliff speaks generally in his conversation.

Mr. Cook was always considered a whole kind of a fellow in his way and I expect he remains so to this day. He is a regular book worm, stacks himself up in his den some times for days and weeks together, managing in the thousands of law books, which fill the two sides from the floor to the ceiling. Besides many others lying around loose on the floor, desks and tables covered with dust the accumulation of years. He is constantly at work, at present engaged in correcting proof of some recently completed work. Speaking to him about "Frank" who I have introduced to him and telling him that his name was on the list of Subs at more than a doz.

in different offices, he asked if it was at Bacon's. I
said yes at the foot of the list. "They said he,
"I am going down to Bacon's with some proof
just sit here, amuse yourself with the ladies, they
I am good, and you will see on my return that I have
changed all that and that 'haughty name will be at the
head of the list". And as he wished, as it was fixed,
the next day he received word from the foreman of Ma-
son's office that if he found some down there he would
give him half a day's work; but by the time he came out
by Frank's of it, it was too late. Frank said the fore-
man also told him he must not hide that to be around
that the first opportunity that presented itself he would push
him on as one of the regular hands.

Wesley says that when he gets in the senate he will use
all his influence to get Frank employed in the state
printing office; pay \$27.00 per week of \$10.00 and double
the pay for extra time. This would be a good position
for Frank and enable him soon to make enough money
to establish him in business independent of peddling
Gauz gum. I hope for his sake he will get the position,
as he is ambitious and will make money if he gets
fairly started. Possibly, Wesley will be able to

get down your law or certificate for our doing the
business of the legislation which I am confident
will do it in no time. I have not spoken to King-
let in kind doing us. Who knows but if the many
friends and acquaintances that I have, may not see
monthly found will do more for me than all the
last months. Our last appropriation will last
months for me and I am certain in getting into some
thing and about twenty to the end before you may
expect for all I have done for him.

Went upon water last in my last business last, with
Judge Boardman, when I was doing business in New-
York, and from the degree made a presentation of the
Federal Government, for me, and sent the same
to my that I may see the nature of the uncertainty,
which I have quite forgotten. Without the answer to you
about \$100, or \$200. As much for Henry as for
Dr. Williams I understand is about \$10 a year with
his wife and child to the degree of time in New York
and beyond, and also a large family of young
children after the death of Robert about five. It
surprised to know the taking care, that probably I
ought to be able to him in a business way. William

My dear me that in the event of this not being able to
go and sending to do it in some arrange to delay
the affairs. I am sorry to hear anything of this
in case I am unable to get in to any thing here
by the 15th or 16th of next month. I hope remaining
in this city for a while. I can get employment
at a very small salary, and my returning to New
York, when I have something to do very well demand
of such to get employment, will be only as a last re-
sort. I am without a dollar except what I have
found and I believe you will be otherwise have some
concomitancy as I do, to obtain what is wanted, the
which the qualification of me in asking and I have
found in being refused to my going to my father's
since I like to be some unless compelled for my own
necessities or to send you a little steadiness. The
rank of my own to \$100 for month, which seems
like money that is away, and expects what I shall
ask to have and arrange for your sake in business.
When I find you must return I want to see the
originals we can pay by cash. On the 25th of the
the month will be because also I did not have the
money as I like to have it. I can arrange

to sleep at his grandmother's to do so and that
 would furnish him with money to contribute
 towards his board equal in amount to our half
 what he had cost us together. He is now stopping
 with his grandmother. I paid one week's rent
 to my landlady and I hope before it is used to
 find some other place where I may lay my
 head without cost, and thus for the uncertain-
 ty of support for Frank and myself it will be
 quite so secure a base upon my friends and I
 may more easily be able to send you something.
 One of my fellow passengers overland, Mr. Jones,
 has given a 10¢ restaurant on Clay St. and is
 doing so well that he feels encouraged to enlarge
 it, besides taking the upper part and furnish-
 ing suits of rooms. He told me yesterday that he
 expected to complete his arrangements by next
 Monday and that I was welcome to occupy one
 of the rooms he had rented them all, and that if
 either of our passengers on the arrival of the train over-
 land in the morning, he would consider it in full
 equivalent for my board, and if he was able
 he would pay me something besides. Jones

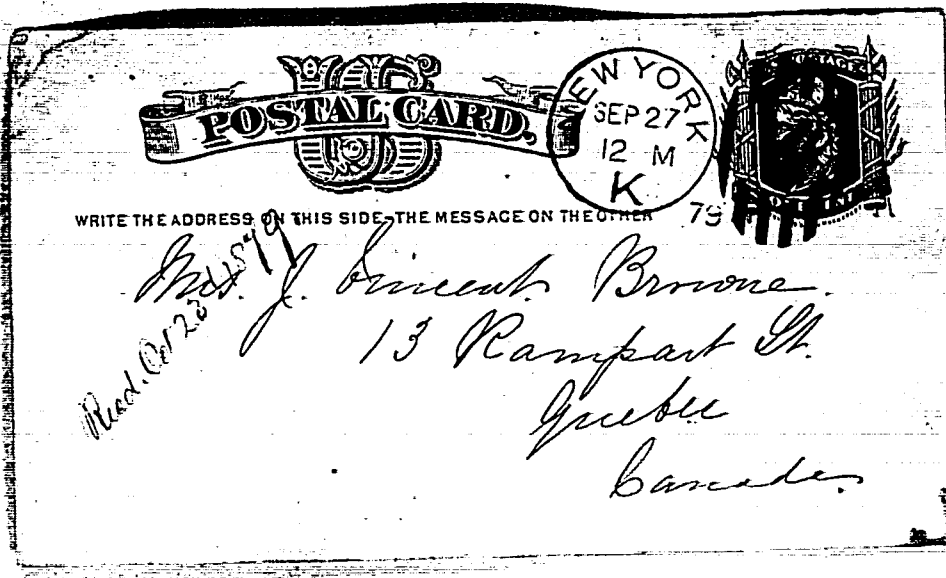

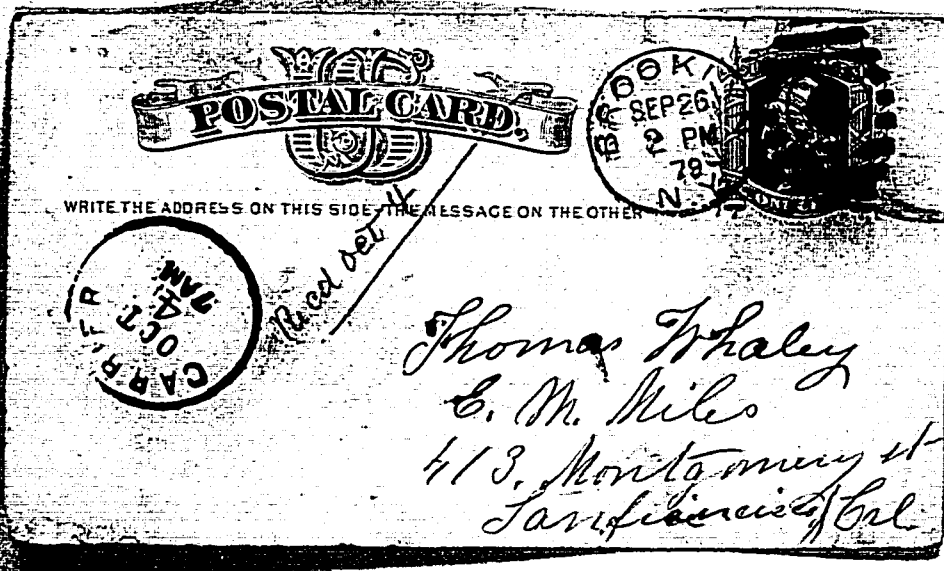

wife and family of four children are recently from Texas. Formerly resided in this State for eight years. Has considerable land in Texas the prospects and title of which I have seen. He is at present here for his health. They are tall people, that is Tom and wife, very game and independent with no personal regard for appearance, he goes in his shirt sleeves without collar or cravat, and she can not have on much more than a calico dress with sleeves rolled up to the elbows. They go around in this way. First in the restaurant and then in the kitchen in the rear of it attending to their guests. At least they did so when they first opened their establishment, but now that business has increased so much they employ three waiters - several cooks and scullions, and Tom sits in his shirt sleeves at his desk taking in the dues and half dues, which now comes, as better directed than formerly attends to more important duties than in the ordinary department. They have about \$1000 cash which they will shortly double, for the times are hard work. They are good hearted people and as I will be come some what intimate with the case and

Dear Old Friend

Your Letter of Sep. 21st, safe
hand, I thank you for it, It was very interesting.
I have just returned from the office of your old
friend Young, having called there by request
of Mr. Francioli, to whom I presented the note
due this day. Mr. Young talked very poor, but
said things were improving, and he hoped to
pay up all his debts very soon. He said he would
take up the note with twenty five dollars (\$25) if
he could spare. I offered to take forty for it, and
explained how I could do it, He then said if
Whaley would take thirty he would settle, and
given me time to write you to that effect. I will
take it, and I will remit the full thirty, as
when Tom Scott & Co get their road through you
can pay me the ten. All are well with me, but
the Old Lady, she is quite sick. With Love to all
your family, and asking you to excuse haste

Your letter of Sept-24th containing \$5.00 came safely, and we were very glad to get it, and hear from you. Also as we had not had a letter from either you or Frank for some time, I am really sorry to hear of your hard times, and inability to secure employment, but I am sure honest toil will turn up soon for both you and Frank if you were down here, after the novelty of seeing us all had worn off, I think you would feel miserable and disgusted, and then have no chance to get away if you wanted to, as much as we would all wish to see you after so long an absence from home, still we all say "what will he do down here, just get his life away, and

New Haven, October 2nd 1849.

My Dear Wife.

I have been anxiously expecting a letter from you, the last being of the 10th of September, which I answered on the 13th, and again, on the 25th. But for yours of the 24th to thank, which I read, I should be entirely without any news from you for nearly our month. I think you might write more frequently; as for the children, I suppose they have given up entirely.

I am sorry that I have nothing encouraging to communicate, and were I to say anything it would but be a repetition of the old story: "nothing to do and no chance of doing anything".

I am about sick and disgusted and long for the time to come, which I had not for a long time, the 11th of this month, unless something favorable unexpectedly turns up to put me into some good position, which is about as probable as being

direct by lightning. Eddie's funds applied to purchase
me a ticket by the steamer on a way back to
to purchase and out of the money I am left long for
ward to receive John Young in payment of the
note for \$50. See the 12th Sept. My funds
the collection in hand and will do the best I can
to make it. I have few readers after Young's
not pay me. The few notes and the money
I will be able to release them into Young's power
as which will do us in a time, and I hope his
will arrangements can be made for the future.
I was disappointed to give up the room at Portland
and I will be going. It has given this ground
nothing and I have taken up my quarters
in Chelsea, dear. I am pretty comfortable, but as
I pay nothing, have no water to compare, but con-
sider myself very fortunate as I have hardly a cent
pinning, my pocket capricious being but a third
and a half. I am trying to borrow \$10. and
should I succeed will succeed. Young's one long pit
I have not seen them for three days. I sup-
pose he is at work at home. He is much better
than I expect to see him. He looks much better

that he is not going to work. I was at Bristol
yesterday to receive for the Court and
learn definitely concerning him. I hope
has made a state at last and that it will be
moment. Judge Gray this morning and he
hope of being able to visit his home. He is bet-
ter. I was about the 5th of the month.

I have a no change in the same way as I
think will benefit me. The delays are pro-
mote to do much good, except in an uncer-
tain way. My old note, however, had been
paid to him. He will give a receipt for me
during the session of the next Legislature
perhaps for it is the state printing office of
the case.

I am tired of reading the mercantile paper
which I do now, doing nothing but work
and it is almost like reading papers,
being paid as best I can.
I long to see him home. When I thought I may
do the miracle. I shall have some con-
fide to compare with me, and I should
may be surprised for my way and reading

not profitable as by others - I know how
very dull it is there, yet do not despair
of making some little money, and very
little will suffice us these times. I had
nothing here you may say but the estates
which I stand in, which thus I stand
be in the midst of all I possess, and
though not much yet I may hope to
bring it some account. It seems as
though I must return home before I am
able again to do anything, to make
as it were, a fresh start from there. I am
willing to put my shoulder to the wheel,
and with the assistance of help, shall hope
to accomplish something for the benefit
of all of us. I do not despair of suc-
cess, and of regaining as much as ever I
had, before I die, and even of living some
time to enjoy it, but I must start
from home. The 5th is the 5th anniversary
of my being, and I have sufficient aid
and determination in me to accom-
plish what I most desire of I have.

October 3^d. I was unable to procure the loan of ten dollars yester-
day, therefore could not send you the money promised or
even mail the letter which I had written, having but fifteen cents
five of which I spent for my soap & wash night & six for my
breakfast this morning. But now I am in funds again having
borrowed ten dollars this morning from Mr. Munday, five dollars
of which I enclose to you. I think it is about time I get
out of this place, though I do not expect to do much or any
better in San Diego when I propose going soon.

Went to hand up yesterday - had one pair of work shoes
at \$2.00, that is however an extremely cheap pair and
he may hope to do better soon.

Should I have been on the 11th as I expect, you will but
have time to answer this for me to receive it. If I get
the money from N.Y. that I expect, I wish to buy some
few groceries with it such things most needed and which
can be purchased cheaper here with the freight added than
in San Diego. Therefore please furnish me with a list and
the prices you have to pay in San Diego - also send me
the sizes of shoes for yourself and the children that I may
buy at least one pair in case I have money enough as
shoes can be bought doubtless cheaper here than in S.D.
Yesterday I wrote a letter to Doan who I was informed

is being at Edward Doby's intending to wait & had I had the money for postage straight. I ask every body what he should do in such a case to get a share of the money he had left him during the voyage & being. He replied down to get it from behind the door and said a few words to Doby and then left me sitting on the opposite side of the room particularly interested by the answers given. The man did not seem much to do in his way, but I thought I was going to be the shape of his back and the colour of his coat that I saw the figure of Doby. I said to Doby that I should be glad to see you who had just left the room. Doby said that was Captain Doby. I enquired if you were Doby? He replied, yes, I was. I said to Doby my course was with him. He said Doby always talked very grand but did not know he was worth anything as he usually borrowed money from every body. But what he did not do but what he thought he was to do something for me. He has been seen about the house and I wish to see him. I have seen him several times and I have seen him several times. I have seen him several times and I have seen him several times.

and hope to find him to say. He is in the one boat and comes with the sails. When you would hope to be able to get something out of him. I would not give my dear wife. I hope to see you very soon. over much at least before coming to with love to your and the pleasure of being that you are well believe me as ever.
Yours very truly
Wm. Doby

my fortunes there, but the longer I remain and the more
I find, some demerits things get - finally I agree
to return ~~home~~ to California - thinking I might be able
to accomplish something there, but finally I have decided
that this even in N.Y. I am almost at a disadvantage having
been here now over 10 years without making a single dollar
and am entirely without funds, and unable to borrow money
there I have thought you have done. October 2nd 1850
I was very kind. I am anxious to go down to San Diego

over 10 years, but I am without the means to do so
George P. Poston has died I am completely straitened
I am in need of some help you telling you as much as
I have, believe that though I am in a bad way, yet I shall
be repaid for all that you owe me if I had a dollar as I have
I am still in debt. I have not a dollar to pay my
debts upon my feet, yet you may be in the position to
be able to send me some money perhaps. It is
do something for me, on one of the parts, and though it may
be even a little you will be quite satisfied with the
situation fully. If you are willing to assist
presently and I hope you will be able to do so
I shall be glad to receive immediate wants. I shall be glad
to see you and shall be glad to see you a great deal
I am to you for the favor, the kind and kind I am
from and to all my friends, but they will not always
remain so. Even now I hear from some of some of
knowing R. R. news for the benefit of the people, spreading
but I have in the past been decided to go to the
rather than to place any great reliance on it.
I hope you will find a doctor to hear from me
I do not doubt be afraid to write even though you are poor
and unable to advance me a single cent. I
am, you know being happy with a day or an
and I am in the way of things. At such a salary
I should, you and during the many years that
have elapsed I have often wondered why I have
not written, telling you of me and your wander-
ings and doings. I am about to go to Dodge
and the children. I hope to be by the sea in some

resides at ~~San Francisco~~ ^{San Francisco} ~~California~~ ^{California}
I hope you are you away as well, write and let me
hear from you.

San Francisco, Oct 2nd 1849.

Friend Dodge,

I addressed you a letter some time ago since more for the purpose of ascertaining if you were really at Salinas. You did not answer my communication. You need not have feared to have done so, it was more to ascertain your position and if I had learned that it was favorable my intention was still to have had you hold every thing that I had been and to ask you to repay me the same on a portion of what you owe me as your circumstances might permit.

I understand some time ago that you were at Salinas and therefore wrote you to ascertain definitely from you. I have since learned positively that you are at Salinas, and am therefore much surprised that you did not answer my communication. You need not have feared to write to me. I have been your friend in times past and have repaid every substantial obligation that may ever have been in your favor to repay an amount from what I can learn of you. It surprises it is not at the present time. I had in hopes to have heard from you and that you would gracefully acknowledge my pay and befriend me as I have befriended you. I have been very unfortunate since you said you had lost everything except the few dollars up San Diego and that is just what I was thinking of. My friends are all scattered for the past 4 or 5 yrs. I have been in the hope to return

San Francisco. Oct 8th 1849.

My Dear Bro. George.

I am in receipt of your dear letter of the 3^d inst. You write so strangely I am at a loss to understand all that you say. I wish you would endeavor to express yourself in simpler language than you do, and then perhaps your meaning would be more intelligible. I wish you an most anxious to come to San Francisco, that certainly is my wish, and I have promised that you should come as soon as I can arrange matters and until that time arrives, it is better for you to remain where you are to learn all you can and be of protection to your mother and sisters. So far neither Frank nor I have been able to get anything to do and it is as much as we can do to live. The prospects are more favorable for him than for me, and most likely he will get into something before I shall. I am almost discouraged and think of returning to San Diego. It would like to see Frank & talk into something before I leave, as then there would be a better chance for you. Frank may get work shortly or establish a job printing office here or at least a newspaper at Mon-

being, having all these projects in view at the pres-
 ent time. Your success depends upon this, unless
 it should be fortunate to get established in business be-
 fore this. One thing is certain you cannot leave
 home before I return home on any business to pro-
 vide for you, keeping here till you can get into a po-
 sition whereby you can earn enough for your own
 support. I wrote you some time ago that I wished you
 to improve yourself in arithmetic and writing. You
 say nothing of any progress you have made in the
 former and from your style of writing I can see
 that you have made no improvement in the latter.
 Now this will not do my son, though you may be
 sadly deficient in many things it is absolutely neces-
 sary that you should read write and cypher well -
 these are the simplest things to learn if you wish
 to do so. If I were at home I would assist
 you to learn this much, but as I am not there
 it will be easy enough for you to learn without me
 if you desire to do so. I will tell you one thing
 my son that unless you understand how to
 read write and cypher well it will be impossible

(Continuation of George's letter.)

for you ever to get into any very high position or make any great amount of money. You cannot hope to obtain a clerkship or even the position of a porter in any office or Store. You may do to labor in the streets, dig in the ground or drive a car or a coach, or something of this kind, but as to ever holding any position of honor or trust you never can hope to do so as they require persons who can at least read write and cipher well. You will therefore see the importance of giving these things your immediate attention without obliging me ever to mention the subject to you again.

As to your learning music, you know that I am not in the position to aid you, and if you ever become proficient as a professor, it will depend entirely upon your success in making money in some honorable employment, in order to defray the great cost of learning music thoroughly. Do you will see George the necessity of learning to read write and cipher well that you may get into some good position which will furnish you with the necessary means to gratify your musical

propensity. It would be better for you situated as
you are with parents who are unable to defray the
expense of a musical education, if you were not so
musically inclined. But if you are determined to
become a professor of the art you must go about
it in a sensible kind of a way, knowing to be able to ac-
complish your wish it will require determination and
be a long time before you can expect to succeed. You
cannot hope to achieve your object at once, indeed
for a time you must hold music in obedience that
you may attend to other things that will give you the
money requisite, which in the end will enable you to
devote your time more fully to it. Therefore let music
go for a while, if in you so strongly it will keep and
give you whole time and attention to the learning of read-
ing writing and cyphering whilst yet you remain
at home, so that when in my power to send for you
I can do so and place you in some honorable po-
sition where you will more readily make money than
through without knowledge you can expect to accept
of some subordinate position where your chance of ma-
king money would not be so good. I must bid
adieu my dear Son, I am a great lover of you and
would have had what I had written to you if I had
been from your affectionate father. Adieu.

San Diego Oct 12th 1879

Dear Papa,

I intended writing to you on your birth-day, but as Mama did not write, and as I intended sending my letter with hers, I put it off to some other day. Your birthday must have passed off very quietly. No very good time could be expected, the way we are situated at present, not permitting us to celebrate it with even the slightest festivities. I hope however, your next birthday will be, comparatively speaking, as gay as this one was dull, and that we shall all be together to enjoy it.

I have not yet given up the idea of some day being able to go to a

good school. Of course I cannot expect this for a long time. But in the interim, I can be studying hard and improving my mind, so that, should I have the good fortune of some day attending a real good school, I shall not appear too backward, in learning for my age. I was fifteen years of age last month. I have tried two or three times to study at home, but there always seems to be something to draw my attention from my books, and I have concluded that I had better go to school. Of course, I cannot expect to learn much, if anything, from Miss Carroll, but I can keep studying over and reviewing to myself the lessons that I have learned, and in this way, I cannot entirely forget what I have studied and learned. Besides, there I can give all my attention to my books, and in six months time, I shall have gone pretty far ahead; while at home, I can only get little snatches of time for study, and consequently cannot learn much.

George's last letter to you amused me all very much. He gave to

I cannot entirely forget what I have studied and learned. Besides, this I can give all my attention to my books, and in six months time, I shall have gone pretty far ahead; while at home, I can only get little snatches of time for study, and consequently cannot learn much.

George's last letter to you amused us all very much. He gave to Maria to read, and she read it to us all. It sounded so dull and foolish, that we could not help laughing at it. He advised him not to send it, but to write a nice, sensible letter, telling him you would appreciate it more than such a nonsensical one as that. He laughed over it, himself a great deal, but he would send it, for, as he said,

"A little nonsense now and then
—is relished by the wisest men."

Poor George! He seems to be wrapped up, heart and soul in music. I have seen him sit for an hour at a time, apparently in deep thought, thinking, no doubt, of what a splendid thing it would be to be a great musician. I hope, some

day, he will have the chance of learning how to play well, for I think he is very patient about it.

Living in Old Town, we do not hear much with regard to the railroad or what is being done towards having one. They are keeping very quiet about it, but it seems that the prospects for a rail-road now, are better than at any previous time. I hope with all my heart that it will not "end in smoke", for we will be ten times better off than we are now, if they succeed in getting one. I suppose, however, you read all about it in the newspapers, and so this is not news to you.

I read a description of the Grand Reception in one of the newspapers. It must have been a very brilliant and beautiful affair, and I wish I could have seen it. I longed to be up in N. Y. when I read of the grand preparations.

being made for the General's reception, and also to get a glimpse of the Ex-President. I suppose he does not look any different from other men, but then he is the President and it is pardonable to want to see him.

Wannie and George each received a card from you this morning. Both cards and sent love to you. I cannot say that I think much of Wannie's present admirer. I don't think she cares very much for him; and I think if there is anything between them, it will blow over.

Give my love to Frank. Tell him I hope he will soon be in business for himself; for then he will feel better and more independent. I hope he will succeed in whatever he undertakes. As for yourself, dear Papa, I hope you will also succeed in getting em-

employment, for I think you richly deserve
it. You have had trouble enough, but it
will all come out right in the end.

I have written a longer letter than
I intended when I began, and I was
afraid you will tire reading it.
However, it is so seldom that I write
to you, that you will pardon
letta if it's too long. Mama and
send love, in which they are sincerely
joined by

Your affectionate daughters,

Lillie G. Whaley

P.S. Tell Frank to write to us soon.

We have not heard from him for
some time. Also tell him not to stop
writing to Grandma Whaley. She has
sent him two papers called "The Help-
ing Hand" which we will forward
to him at the first opportunity.

Friend Whaley

Your letter of Oct. 8th to hand late yesterday, and early this morning I called upon Young, and stated your situation in as strong terms as possible, but all to no purpose, all I can get on the note is thirty dollars, and that I shall have to wait for until some time next week, but on receipt shall forward P.O. order. Mrs. Young has returned to New York in poor health. She and her husband start this afternoon for Philadelphia to visit their children, and will return next week, when he will borrow the money to send you from his lawyers. I think Mrs. Young came home without her husband's knowledge or consent, from the way he told the story. Now Thomas let me say in closing that letter that Mr. Young is no friend of yours, and if he offers you any price (within reason) on the other note you have of his, take it. He thought I held the note, and wanted to know if I would sell it. Excuse my haste for I am very busy to-day. Remember me to all your family when writing, and believe me ever your friend George D. Puffer

Palace Hotel.

San Francisco, October 15th 1849.

Darling Wife,

Yours of the 12th inst came to hand the same day I received one from our daughter Corinna. It gave me great pleasure to hear from you. The letter from Corinna was almost faultless, and certainly very commendable to her. I gave it to Mrs. Dyer, and her husband to peruse, and they were very much delighted with it, and said if they had a daughter as highly gifted as she appears to be, they would esteem it a very great blessing. I hope the example and determination of Corinna to learn three more will emulate our other children to make some efforts to learn and improve the little advantages they have of becoming acquiring knowledge, and if they hear your kind solicitations for their welfare I am certain that they will do so.

I have some little news to tell you which will I think inspire you with renewed hope. A few days ago I received a letter from Mr. Hooper stating that he had received a letter from

Mrs Coe Donahue to whom he had written in my behalf to the effect that she felt an interest in my case and had called the attention of her husband to it, and recommending me to see him.

Noopie enclosed me a card of introduction to the Coe and wishing me success, and in the event of getting anything to do from him, to do my best to merit his confidence.

I received this letter from Noopie Wednesday, went immediately to the office of Coe Dr. but have not yet seen him as he is out of town and will not return before Monday next. I hope of a favorable result from the interview since I am now in England.

Besides this I see by the Army & Navy Journal of the 4th of this month, received here last Sunday, that the change which I have been expecting would be made in the Commissary Department, has been ordered.

Sent Coe Clark at Baltimore will relieve Coe Simpson at New York, who will relieve Coe C. L. Kilburn at Chicago, who will relieve Coe W. W. Burns, as Chief Com: Sub. Pacific and Dep't of Pac. Nov 15. 49.

I have written Gen Simpson however who relieves Gen Kilburn Nov 1. to recommend me to Kilburn for the position of Commissary Shore Pacific, should he determine to make

San Francisco, October 20th 1879.

My Dear Wife,

I wrote you on the 18th enclosing a few
dollars greenbacks which I hope you will receive. It was not
my intention to have written quite so soon again. The
letter which I spoke of at Miller's for Strauch from Bacon has
marked "Important" has proved to be really so. I saw him
Saturday evening and told him about it, and recommen-
ded him to go to B. Lee's early this morning as probably he
would get some work. He went there but B. Lee was
not in. He learned however that there was a probable
chance for him to get the charge of an office out of the
city. Mr. B. Lee's name was given from Miller's and I
went to B. Lee's, saw these gentlemen who informed
him that a party at Mendocino wished some one to
take the charge of a newspaper office and for him to
inform him soon what he would ask and if he
wished to secure the position to be very moderate as
there were others who would bid for it. After seeing
me and consulting with Mr. B. Lee who is a friend of

ago I can see in the Monterey project the
blaming of something from Diego on seaboard
and placing Frank in the possession of an of-
fice more immediately than will be his own with
the exception of what Judge Hyde advances.
I shall therefore encourage the negotiation, leaving
to Frank to decide which he prefers, in case it is
successful, Mendocino or Monterey. The Monterey
paper pays a profit now of about \$100 per month
and with the addition of a post office, may perhaps
be made to pay \$200.

Mendocino is one of the principal towns in Mendocino
County situated near the ocean, it is not a
place as large as San Diego but in its activity
is about 122 miles from here by sea and may
be reached as well by railroad to Suisun
Mills, 80 miles, and stage 95 miles.

Frank will write me shortly after his arrival and
let me know how he likes it, and how he is situated.
The paper is a weekly, and the first issue under his
management. He will send me a copy of the same.

I am much pleased that Frank has at last got
into something and think there is no doubt of his
future success. I shall rejoice when my time
comes, then will there be a chance for George and we
may all hope for better times. I intended my
last that I was to go to see Coe Bonahed this
morning and I did so, but he was not in
and I had to wait when he would be. I waited
for him on the outside till one o'clock, and
then hearing of his whereabouts, I could do no
more but to wait till he came. I waited
till I had a good dinner and then I went
to see him at his house. I found him
at home and he was very kind to me.
I had a letter written by him and
sent it by the time of his arrival at Chicago.

Palace Hotel.

San Francisco, October 21st 1879.

My Dear Wife,

I wrote you yesterday informing you of Frank's going to Mendocino to take charge of the "West Coast Star", and of my intention to see Col. Conahue to day if possible. I enquired for him at his office at about 1 O'clock, was informed by a clerk that he was in the inner room engaged, but if I would take a seat he would be out presently. After waiting about fifteen minutes the clerk said the Colonel had just gone down the other stairs and that possibly I might see him before he got into his buggy. I moved out, but before I got down into the street he was seated in the buggy and was driving away. This is the nearest I have been to seeing the Colonel after a prolonged hunt of several days. Just man enough to miss him. I returned to the office to enquire of the clerk when he lived with the intention of visiting him this evening. He told me I would not see him on business that I had better not go to his house as he never transacted business there. I told him that I had an introductory card

from Mr Hood's table Council and that I was very anxious to see him on a personal matter. He said it would certainly be better for me to see him at the office and that if I could call in the morning at 10 1/2 and send in my card I might obtain an interview. He is certainly the haldest man to find that ever I undertook to hunt after. For some weeks past he has been quite unwell and has not given much of his time to business.

This evening I went to see Dr Hammond to ~~ask~~ tell him of the changes ordered to be made in the Commissary Department. He had heard of them but was not informed of the particulars and so I gave him the copy of the order which I had made from the "Army & Navy Journal." I told him that I had written to Gen. Simpson at New York, and intended to send him a duplicate of it to reach him at Chicago about the time of his relieving Gen. Kilburn requesting him to recommend me for the position of Commissary Extraordinary in case of making any change. The Doctor said I had played my cards well as Simpson's influence with Kilburn would have more weight than any other I could bring to bear and he did

not doubt but what I would get the position if
it could be had, and that he would do what he could
for my forward matters on the arrival of Gen. McBurnie.
The Doctor then told me that when Hooper was
last in the city he went with him to make a call upon
Mrs Col. Donahue expressly to see what could be
done in my behalf, but unfortunately she was not
at home. I told him that since Hooper had writ-
ten to her and she had answered that she had ap-
peared to the Col. in reference to me and advised
me to see him immediately - that I had Hooper's
card of introduction to him - that I had been at
the office many times without being able to obtain
an interview and I did not know that I could
should as he was a most difficult man to find,
The Doctor said he was aware of that - that to-
morrow he expected Hooper in town and he
would go with him to see Mrs Donahue again
as he expected to accomplish more through
her means than through he said the Col.

personally. Thus you have the history of how matters stand at the present time. Without doubt both Dr Hammond and Hooper are interesting themselves in my behalf and I think I may reasonably hope that they will succeed in accomplishing something soon. I will accept of whatever first offers, though I would much prefer the position of Commissary Storekeeper, the duties of which I am familiar with, than any which Col Bonahue can give me, fearing I may not be able to give him satisfaction. I understand that he is very gruff and cross with his employees. Not intending to mail this till tomorrow, I may have something more to add after having seen the Col. in the morning, that is in case I am so fortunate to find him at his office, so I will not bring this letter to a close quite yet.

Col. 22nd. I saw at Bonahue's residence, and then, waited on the outside of the door. I will see Dr Hammond in a day or two to ascertain the result of his and Hooper's interview with Mrs Bonahue. With love,

Yours sincerely,
T. D. Watkins

Am glad to see that you are
well and that Liza is too.

It is quite a cheering letter, and
I think that you will now
certainly get into something.

You must take the first thing
that offers, and then if you find
you can get into the Commissary
Dept. - when then you can eas-
ily do it, but do not take
an uncertainty for a certainty.

If Donahoe offers you a
position now, why accept
of it right away, and then
you will be on hand for
the Commissary arrangement, but
I would not say anything to
Col Donahoe about the Commis-
sary, as you might lose both.

 not yet returned to Valencia City being still detained
 attending to legal business in connection with the

 some remedy before leaving. But as he failed to do so
 in the first instance more than two weeks ago, I have
 not failed to keep tight hold of the case and
 I should not be surprised to hear of his departure
 from the country. He has not yet left the country
 that he will do anything towards securing the
 Dudley children. I believe him to be a
 just class man but what he might do at that
 time as I think he has considerable practice in
 Valencia City, but as he makes no effort to
 it has all gone. He has not yet been

him not to attend to anything. He makes great protestations of friendship, speaks of the obligations he is under, and what he would do if in his power.

I received a letter from my friend V. Vincent Brown this morning, but no acknowledgment. I cannot say that I expected more than a V. from him, which if I had received I would have enclosed to you. He explained his inability to do so (having to provide fuel for his family, a supply sufficient for three weeks) and requests it exceedingly, hoping that I will not think mean of him in not having sent something as he expects to be able to do so about the first of November. He has since the change of the government works for the improvement of the harbor of Cuba and expects to retain the same for at least two years longer.

He says, "Everything is picking up in the States. Cotton has advanced two or three per cent per 100 lbs - and other things in the same proportion. During the past week some 600 families have removed from Cuba to the States the heads having found employment there. This speaks well for the times." From all accounts things are

rapidly improving in the East, and there must certainly have been a great change for the better since I left thee last June. I am very glad to hear of this, as we may hope for more prosperous times in California as it cannot be long before we feel the effects of the war from the East though we need not look for it for several months to come yet.

Prison has enclosed to me a postal card sent by Mrs Nancy of New York, his wife's sister, to her, which will answer as an introduction to some friends of his here, and may possibly be of advantage to me. Through the Prisons I became acquainted with the Nancys which in New York. This postal card shows the interest which they all feel in me. One of the parties referred to, is connected in some way with the Oberman Silver Mining Co. 414 California St, and the other, Mr Ed. G. Sprable, with the Liverpool & London Globe Insurance Co. It also refers to a Mr Geo Childs connected with the latter institution. Mrs Nancy hopes that through one of these gentlemen's influence I may be able to get something to do. I shall certainly go to see them to learn if there is any chance for me! To day I send off my duplicate letter to Genl. Simpson which will reach him about the time of his relieving Genl. Kilburn at Chicago the 1st of November, and I shall await an answer from

to do except to go a fishing and that then those who
went with him had been a dollar. He says he
thinks they will soon be back in San Diego and then there
will be work if you had for everybody. He said R. E. Dore

San Francisco, October 23^d 1879.
Genl. W. C. Simpson, U. S. A.

Dear General,

Remembering with gratitude your past kindness and interest, and believing that you will continue to be the same, I am inclined to request a favor of you.

I see by Special Order No 227, Headquarters, A. G. C., that you will relieve Genl. C. S. Adams, as Chief Com. W. Missouri, and that this Office, in turn, will relieve Col. W. H. Barnes, the present Chief Com. W. Vir. Eastern and West. Louisiana.

Now I bespeak your possible recommendation to Genl. Miles for the position of Commissary Storekeeper, should he determine to make a change after his installation here?

Besides having served under you and your successors in charge of the Subsistence Department of the Division, as Storekeeper, you will please remember that I was Storekeeper of the Division Department under Col. George S. Weeks - then went to Wilkes as Quartermaster's Agent in charge of Government transports, and, on my arrival there, still under Col. W. performed the duties of Commissary Clerk and Storekeeper.

I have, I believe, given entire satisfaction to you and the other Officers under whom I have had the honor to serve. It would please Col. W. with me that he offered me the position of Quartermaster's Chief Clerk under him, but this I was obliged to decline, private business requiring me to go East.

You may perhaps think it strange I should solicit any position, believing me otherwise independent.

Without detailing to you the cause of my misfortunes, I will briefly state that I have lost nearly everything. My patrimony having gone for the payment of debts incurred by a rascally partner, and my property in San Diego, in depreciated times, for the satisfaction of a judgment against a man for whom, unfortunately, I was bondsmen.

We still retain our homestead, and my wife owns some little property, but this is of no great value at the present time, yet, should the Texas Pacific Railway become a reality, with a terminus at San Diego, as we still hope it will be some day in the near future, what we have remaining will provide for us very comfortably.

I have had a long and severe struggle, and but for the generosity of others, my family must have suffered. I am at the present time unemployed, awaiting, Macaulay like, for something to turn up. I have many kind friends interested in me, we fear, and though

Palace Hotel

impossible for them to get me into a position these dull times, they encourage me with the hope, that, eventually, they will be able to do so.

My family, consisting of wife, three daughters and two sons, reside at San Diego. I have not seen them for nearly four years! You may therefore imagine my anxiety, and solicitude for their welfare. Should I obtain a position here, ample for their support, my intention is to send for them. They would be most happy to leave that dull and god-forsaken place S.F.

I have some friends particularly interested in me - Genl. Kirkham, Dr. Keener, George P. Hooper Esq and Dr. Wm. Hammond. It was through the latter gentleman I first heard of the probable change in the Subsistence Department, and since then I have been watching the "Army & Navy Journal".

Dr. H. said he would see Col. Busut and have him to recommend me to his successor, on his arrival, to secure the position for me. Dr. K. said he would lend me his influence, and Genl. K. and Mr. Hooper say, in any way in their power to serve me, they will, if that point out. These gentlemen can only serve me on the arrival

if Gen. W. hit as you, fortunately for me, as to relief him,
it has occurred to me that you might do so more readily,
and with your powerful influence and recommendation,
more certainly.

You will please excuse the length of this communication,
(necessarily long that you may fully understand the po-
sitions of things,) and the ardor of it, arising from the
anxiety of my almost desperate circumstances.

With my regards to Mr Alden who I supposed
still in your employ, and hoping that you are in
the enjoyment of health, wealth and happiness, be-
lieve me,

Very Sincerely & Most Respectfully,
Your Friend & Obedt Servant,
H. S. Whaley.

Dear Father:

I intended writing long
in this; but I have been so busily
engaged settling things to ~~the right~~
here, that, in fact, I have had
very little spare time to myself.

Mr. Huser, the owner of
the Mendocino Beacon is a fine
gentleman, quite a smart fellow,
and a man of great prominence
~~here~~, and one who is very easy
to get along with.

The position I have assigned
to me, is an easy one, in fact,
I am my own "boss" in anything
I undertake in connection with
the paper. The work I have to do,

is not at all hard, but just about
enough to keep my three employees.
I have full charge of the office, both
mechanically and in an editorial point
of view, with the exception of the
"Leader" or "boss editorial", as ^{printers} ^{call} it, which he himself
writes. All other matter passes through
my hands for approval before it
is inserted in the paper.

I spend my evenings in the
editorial room, which is exclusively
occupied by myself, looking over
proofs, or getting up local mat-
ter for publication; occupying
my time and consequently on the
road to improvement. On Tuesdays,
I go into the banking house, which
is in the same building as the
Beacon, and spend an hour or
so conversing with Don. Heiser and
his brother. About ten or half-
past I commence to get tired and
sleepy. Then spending my weary
way to my humble couch, I "put
up" at Doctors' Hotel, a very respectable

able place, and also very cheap, Dr. Huser, at present, having no accommodation for me at his house.

Mexico is a quiet place, with the exception of the recent tragedy here, which you can learn all about by referring to the papers I send you, and the fact, I trust you have already received. For a month we go to Paris, and Saturday, I will transmit to you the Beacon containing further development of that horrible tragedy. But this is not Mexico. The town is situated on a gradual rise from the coast - Dr. Huser being the owner of the site presenting quite an appearance from the sea, but not quite so attractive, unless you are in it. Its streets are broad, but its buildings are not picturesque, being

South of Jansen, there are no "birds"
in the town. The Jarapas near as I can
find out contains about one thousand
people. There are three or four nice
churches, some fine stores, four good
hotels, large and, pretty well appointed
attending a community like this, a
good school house, Mason's and City
Halls Hall and plenty of "Whiskey
holes," these latter, I particularly steer
clear from. The country, here, for miles
and miles around, is nothing but
a big pine forest, here being being
the principal "big" carried on here,
and a look from the office down in that
region will reveal the smoke of many
acres of woods, cutting away at huge
pine tops, and now there, perhaps,
hard over their early life. The peo-
ple here are quiet and peaceable,
with, of course, some exceptions, there
being here some pretty bad "nuts."
The population, principally is a
working one; there are few young
men, and young ladies are a com-
modity. The young "gents" are of pretty

fair feeling and good in their habits. I
have formed the acquaintance with
a young man - Mr. Fessenden's bookkeeper
and clerk in the Bank, Mr. Charles
Reeves, an acquaintance of Mr. Lawton.
He has been in the tobacco business in
Dan St.; out side of this, my friends are
not numerous, excepting those whom
I am thrown in contact with through
my occupation. The Harbor of Providence
is nothing more than a small cove in
the east coast, protected by the North
west Point, and open to all
others, and hence somewhat a landing.
I like the place very well and am
satisfied.

The Bureau office is well ap-
pointed - worth probably \$1,500; all new
type, a good job office, but very little
work, comfortable, and if it is my

desire anything needed or any im-
provement made, I can have it done
at my will.

I have not written home yet, but
will write ^{to so} to-morrow evening. I suppose
you have received letters from them, and
I trust all are well. I have received no
coin yet, but can get it at any time, but
when I get a little ahead will send
some.

Remember me to Dundy and Mrs.
Orlins and his folks and all others enquir-
ing, and show them this letter; it will
be as good as my writing personally.

I hope ere this you have received
something permanent to employ yourself.
Have you heard from George? I will write
in a day or so.

The weather is getting cooler and
the indications are we shall have rain - 70
inches the average - "tubs full".

It is getting late; I must stop with
much love to you and remembrance to friends,
I remain as ever, Yours truly,

San Francisco, October 30th 1849.

My Dear Wife.

Yours of the 27th with enclosure of one from our daughter Anna Amelia and an old letter of Robert Desmanville, came to hand this afternoon. I am very glad to hear from you and that you and the children are so well, always expecting the pills and catarrh and as to these I hope you may soon get rid of. I think then an odd officers pay accounts, in the his boy, there may be buttons given by Lieut Shepherd, but it is so long ago, I may not be correct in my surmise concerning this. They are probably in some envelope with other papers, and if Shepherd's I would like it sent to me. The letter of Desmanville is of no use to me, though it may perhaps aid in establishing the fact that it was once the name of Robt Desty. He is having a great deal of trouble in proving that he is a citizen of the United States, though I believe he will eventually succeed in doing so, and be allowed to take his seat as joint Senator of the Counties of San Francisco & Mateo. If you will make a copy of his account from the old books (that were on the top shelf of the kitchen pantry) when I was engaged in business in early times in San Francisco, you will oblige

 I received from Frank yesterday the Municipal Receipt of the

 the envelope was written by the Local Officers, Man-

 say how many, but I am sure he is doing and likes the
 place. I think he will do well when he is through with the work
 of Dodge accomplishing anything, he will probably go to Monterey
 which place he preferred so much more. I received a letter
 from Mon yesterday appraising the Rail Road Collection in
 San Diego fully, but the account which you give as coming
 from him is so meagre that it loses form as though they were
 determined to keep everything so quiet from the collectors
 San Diego I hardly know if it would be right to communicate

 to let it be known. It is no doubt what I told you as com-

things and of everything of that nature, then, within a reasonable
time they will commence work and will complete & equip in running
order for the use of road from the Bay of San Diego, Eastward.
As more says there is nothing tangibles in all this, though
real estate has advanced from 10 to 25%. They will have done
nothing for the convenience of the Company that the land
given in the City is well located, yet their way for a while will
able to go better than what they now have. I think quite
likely the project will succeed. Within a few months past
a great impetus is given to the building of railroads by cash
and long being placed. The papers been with accounts of them
and particulars of them or how as bound to reach outlets on
the Pacific. If the A.C.P. does not avail itself of the offer
of the other will be glad to avail itself of the chance within
a very short time from now. The Comrades of the A.

I hope you expected shortly to arrive here, and perhaps
by the end of the month from now we shall have them decided as to
things and whether the condition is likely to be benefited or not.
I must say that I feel very hopeful and expect what I should
to discuss you with new law. Do do not betray any confidence
immediately find yourself pleasantly situated. I have not
an at present. Casper leaves by the Steamboat tomorrow
Dan Deigo and has given me the blanks relating to the matter
I have written to Moore for authority to extract do-
nations of lands and notes conditionally given upon
the completion of the 100 acres of wood within the time specified
I shall try to get Casper to call upon you
as far as return to Dan Deigo merely to tell you that he has returned
that I do well. Also to give or procure for George something
of useful performance, thereby he may earn something. I shall
tell him if my desire to return to D. D. provided he has any
thing for me to do, and indicate he knows of any opening either
entirely for clerical or please inform me, and I will accept of it
at a moderate compensation so far as that I may be with you
Do, should he come to see you, treat him very considerably
I shall be done good will result from it. He has certainly
improved very much since I last saw him, being more
humanely. He has given up drinking. I should judge

My dear Husband.

Your welcome letter of Oct-29th came to hand this morning, and as its containing something I must reply to immediately, I hasten to do so. Am sorry you are treated so by Young, he is indeed mean and if I were you I would write to his wife, and perhaps she would set him straight. You were wrong to give in about the ⁴⁰\$10.00, as that makes him think you will do the same with the ⁴⁰\$350.00 note, don't give in but let Puffer collect the ⁴⁰\$40.00 if possible, hang on to the ⁴⁰\$350.00 note till due and then you can collect it from him. He treats you very shabbily indeed

and is no gentleman. I received
a newspaper from Frank
from Mendocino I suppose
by this time he has entered
upon his duties and I do not
yet see his name in connec-
tion with the paper, other
than among the list of visi-
tals there. I hope he will
succeed. Now to business.

I have no objection
to rent the whole, or part
of the house or any room,
that the party may require,
will rent them any how, just
as the Ds wish, but as to the
whole of the house \$75.00 is
too much the way things
go on here, in new town all
rents are very cheap, and
I hear that a complete
furnished house there can
be had very low, so I think
that you may try and see
if the party is willing to give
\$75.00 if not tell them they
can have it or money at the work.

3. of the rooms, and everything
required for house keeping.
Let them come here and show
and I can surely promise
that from some how they
will certainly not regret
living in such a pleasant
house as this is. It is very
warm and a 'certain' of
good rain water. If you
find that he thinks ^{to} \$50.00
to much for the whole upper
part, like I see \$40.00, come
down any how so as to save
them some way, I would
rather not board them and
am not always 'well', and
if things did not exactly suit
them, like they would be dis-
satisfied and we could
live with us, than if they
boarded with us, and they
would want three meals a
day and a board table
all the board money to feed
them as the world expect

the best I can to get them to

them, I should have to get
me a new dress, and a

the reputation of mine and
the House, I will be compelled
to send to the House, and
another to stand as long
and a business, to give

to send to the House, and
then for the time and then
I am to manage to finish what
may be my way, they may want
to know you will be more than
time to go and it will make
and make you will be able, they
can see into the House if they

Cannot possibly get it. We
are having beautiful weather
now but think we will
soon have rain. Strange
that we here do not hear
anything of the broad matter,
not one saying to know any
thing about it, the only
thing that I have heard is that
the Lopez folk have accepted
it the County, some of the
H. Road folk deny that so
that I know nothing about
it at all. George still works
around the place for me,
he has chopped the wood
and piled it up under the
shed about a cord and
a half, he talks of cutting
more. We will have to
cut down four pepper trees
as the shed will the mostly
are from our fruit-trees
that is the reason that
our fig-trees are not lar-
ger, it will make a gap
but we can put in more
fruit trees, which in
time will pay us better.

Pepper-trees, care of no one, except for throwing their roots out, and clear across the garden and ~~the~~ trees, grow quite large ~~and~~ ~~the~~ ~~fruit~~-trees, remain small. Thus, to eat is what we mainly, now-a-days, "go for food". I am trying various remedies to a certain extent with regard to the Piles, but as to getting my fingers in and pulling it around I cannot unless I grease it, but the office being to be all "bushed up" with piles, but I sit in cold water and wash the piles, and then put on Russian salve which softens around so that I can have an operation. I am some better, but would give anything to get rid of the Piles entirely. Sometimes I eat cat-meal and fruit, my bowels always

be able to get a certain amount of
the things they need for the
house. They are going to be ahead
but even in the time they
are in the office. You know
it is a very busy time. They
are going to be out of the office
and then all the things
will be done. You will see
that they are doing the things
and then you can see
them to see what they will see
of the things. Whatever
you know will be the
best. Look out for the
things. You know they
are the things and
they could get a head of
the things. They would do
the things. Do not let
the things. They would do

the things and they would do
the things.

My Dear Wife,

I wrote you on the 20th, promising to send you some money as soon as I could make a raise. I borrowed \$15. from Judge Hyde to day. I send you \$10. get and if I was certain when to get more soon would send you all of it. I subsisted the whole of last week on less than a dollar. I will send more soon in case I get any from Brown or Puffer, though that is uncertain. I have secured friends, Brown recommended me to in the Liverpool & London & Globe Insurance Company and the Oceanic Steam Navigation Company. They are interested in me, invited me to their house and have promised that if they can get me a position they will do so nothing regard to Mrs Brown and her sister Mrs Hailey's both of whom they are nearly related. I am anxiously hoping to hear something favorable from Gen Simpson and would prefer the position of Commodity Storekeeper to anything else, if it is to be had.

I received a long and interesting letter from Frank to day. He is well and satisfied with

his father's. His letter is dated Oct 29th. He spoke
about writing to you the next day, but for that
would enclose you his letter for perusal. He says
He promises to send some money as soon as he gets
little ahead. I think it would be well for you to
request him to send you five dollars you would like
such him as I got started into something. This and
from him, with what I may be able to send you from
him to him will keep you going, and probably you
will be more comfortable than you have been.

The Commissioners of the Altinson to Jukka & Sauter
The road will arrive here this afternoon. They are
reported as having passed Carlin yesterday. So
things look favorable as though they intended busi-
ness, and we may. I think, soon look for more
favorable times.

This is the day for the return of Dr. Husd. I have
not seen him yet. If he does not call in a
day or two, by which time I hope to get an applica-
tion of your friend about arranging with him to rent
him our homestead. I shall go to see him where
he lives No 1024 Bush St. This is a large plain
house with a fine garden in a first class neighbor-
hood. If that is his house, furnished, and we could

get it in exchange for the use of one for six months or
a year I should be very glad to do so even without
a bonus of \$100, as I propose, provided I should have
sufficient money to defray the expense of the family coming up.
I don't propose writing a long letter this time so
I wish to write Frank and ascertain the whereabouts
of the Commissioners on their arrival here at 5. This morning
tending to case upon them with Judge Hyde, but
say nothing about this to any one, not even if
they arrived as the Committee may not wish it
known till they arrive in S. D. I don't wish it
said that I have "given them away". So mind,
Naw, mind to the word. I enclose an ar-
ticle from the morning's "Even" which looks as though
the secret was already out. After reading of
you can, conveniently, send it to Morse so as
otherwise you need not bother yourself about it.
I must now close my dear wife with love
to all and hoping for more prosperous days ahead.

business that suits you, and perhaps we can do some thing. As to the renting of our house, I do not expect any one to take it at that price, but it is no harm to try, just in case they may take a few rooms, but no board, as it does not pay to board more than 5 or 6 people than it pays for two or three, no. You will let me know all about it as soon as you can.

George and I have been busy to-day chopping the bark off of these large pepper trees almost in the center of the garden, they prevent our fruit trees from growing and bearing as they ought, they steal all the sweetest and that is why they grow so large and our fruit trees so small, so next year we may expect to have

San Francisco Nov. 7th 1879

Dear Frank!

Your welcome letter has been received and likewise the "Beacon". You cannot imagine how disappointed I was in learning that you had departed from the city.

A few days after I returned from Alameda, I wrote you a note informing you of my return and removal to my present home 926 Mission St. between 5 + 6th. As I was dressing to go out to mail the note, who should call at that moment but your aunt Amelia. She has been up to Mrs

Supper's over. Budd off, and she informed her of my removal, gave her the paper you gave kindly forwarded, which is now in my hands & decision. The first word I wrote to her was how do you do, and how do Franky. She then informed me that you had already been gone nearly a week and I told her that I was just going out to mail the note for Franky and she took it, read it, and handed it to one again, and she said it is too bad, we all miss him so much. I know she, especially on Thursday and Sunday evenings, I am under the impression that you must

make your appearance, when ~~the~~ bell rings or I hear footsteps outside, I imagine it is you coming. I don't eat as Franky that we (such good friends) must be separated by fate. Well I suppose it is to be as he it. I hope it will not be long before I share the pleasure of seeing you soon again. Franky, you state in your letter, that you love me. Obey me well, and be sure you will not regret your confession, I cannot have preferred the acknowledgment from your own lips. The great question it is not merely as transient fleeting sentiment, a momentary fantasy. Although

you are older than I am,
still I feel older than you,
even in experience of the
world's troubles, I would ad-
vise you to think well over
what you have already stated
in your letter, and be sure
you have made no mistake,
and then if we ever meet
again and you have not
changed your mind regard-
ing your tender feeling for
me, and express your-
self in the same manner as
you have written, I will
then answer you whether
your affection for me
is reciprocated. Untill then
I remain
Yours truly Lita.

Little, cherish me,
Parchly I wish to see,
Lonesome are the weary hours,
But I'll come back to thee.
The little birds are chirping,
So merrily in their glee,
It sets my ^{heart} to rapping,
But I'll come back to thee.

Little my darling,

Cairns and trouble for thee,
Why are we thus parted,
But I'll come back to thee.

Though terrible the tempest be,

And I'll come back to thee.

I'll Come Back to Thee!

Lita, my darling,
Liss one cool time,
Dine feet my loved one,
For I'll come back to thee.

I'm far away,
Though troubles thee may be,
~~And~~ feet Dine be dumbbeated,
For I'll come back to thee.

Lita gentle hearted,
Keep not in sound for me,
Time is quickly passing,
And I'll come back to thee.
The heavy surf is rolling,
The bark that sails the sea,
Will bear me in my darling,
For I'll come back to thee.

from Milwaukee.

San Francisco, November 13th 1879.

My Dear Wife,

Your of the 8th was received on the 8th and
as I wrote to you on that day, enclosing the broken bridge
for George, I have just found writing till the present time.
I thank you for the Vestimenta copy. You intended it for a
copy, but it is so mixed up it is impossible for me to under-
stand it, you will therefore please cut out the account
from the book and send it to me, then there can be no
mistake. I am almost positive that somewhere amongst
my papers there are two officers pay accounts, and one
of them I think was from Lieut. Shepherd. Most proba-
bly it is in the tin box, in an envelope with other pa-
pers. If you hunt thoroughly, opening the envelopes
and untieing the bundles, I believe that you will find
these pay accounts, and if one given by Shepherd
please send it to me. In the Log of Phalaris &
Brothwaite you will find an account against
C. C. Hunter, money loaned him. Please inform
me the time and amount. I think it was in
1869. \$20.00 I met this man the other day.

It may perhaps be able and willing to pay me.
I get no news yet from Brown, Thompson, Prof-
fer, Dodge or Bushe. It is about time, I think,
I heard from some one of them. I have received
but one letter from Mack, that on the 3^d day I
received the Mendocino Beacon of the 24th Nov.
Genl Kilburn, the Commissary, who is to relieve
Col Burns, will arrive here Saturday. I did
hope to hear from Genl Simpson, what my chances
are for the position of Storekeeper, but not a word from
him as yet. I saw Genl Kilburn this morning and
he promised to leave a letter of introduction to Genl
Kilburn, with Felix Blackwood this afternoon. Last
evening I saw Mr George A. Hodges who promised that
he would see Genl Burns, the present Commissary, and
ask him to recommend me to Genl Kilburn for the
position I desire in case any change of employees
should be made. I depend more however upon
Dr Hammond who promised some time ago
to see Burns, on the arrival of Kilburn, and
through him to get me the position if there was
a possibility of doing so. Dr Kenney also
promised me his influence, but he is so
very ill at the present time I do not expect

San Francisco,

him to be able to ~~wait~~ serve me. This evening I will go to see Dr Hammond to inform him of the expected arrival of Kilbuck and to remind him of his promise. I have my plans all well laid, and, if possible to secure this position, I shall do so. Still there is no certainty of my success. Should I fail, however, having nothing else in view, I shall make up my mind to return home, and in the event of work being specific. Commenced on the Railroad in San Diego, I will be there in the nick of time to avail myself of whatever may offer. I have been asking for the Business Men's Committee of San Diego. made me refer to Morse who is its Chairman. I have done what I could and have but little more to do to finish up.

I have received nothing definite as to any action taken or likely to be taken concerning the R. matter further than that published in the S.D. papers of the 9th reporting the arrival of the Commission. I hope by the end of the week or by

Monday night to hear from Morse or through the
papers something definite. I think quite
likely that some favorable arrangement will
be made with the Atchison, Topeka and Santa Fe
Company and that work on the line will soon
be commenced, and if so we may then see
our way to a bright future. There will be great
expectations in San Diego, properly we have
some value again and we may hope to reap
something from it.

Capt. Wiley was to have left here yesterday. I
saw him the day previous, had a long talk with
him about R.R. matters and things generally.
I did as you suggested, asked him for a loan,
he said he could not oblige me at the present
time and then went on to give his reasons, having
no money to support us. I was sorry that
I had asked him for a loan. I did not state
the amount. Everybody seemingly has lost
money, have more than they can attend to,
or make the hard times an excuse for not do-
ing anything for any other than their own.
I hope some day we may be ⁱⁿ dependent of
of them all. Judge Hyde, I think will go down

to J. D. in case the railroad be
made comes a success, and I think it
quite likely that he will engage in something
there. I have offered him my services, in case
he should require any one to attend to business
for him, and as he and I are very friendly, I
believe he will accept of them. We have long talks
as to future probabilities of things in case of a
Rail Road from S. D. to Yuma. He thinks
of taking his family down there and build-
ing him self a nice house.

I am sorry we could not have given George a nice
dinner at least on his birth day, but we will hope to
do better by him on his next. I hope he con-
tinues industrious, obedient and anxious
to learn all he can. I am glad that the
children are all well and that they get
along so amicably together. I was for-
gotten I sent you \$10. on the 3d which must
have reached you the day after you wrote last.

I expect to borrow \$10.00 from Mr. Milwain this afternoon, and if so will enclose it to you. I find it extremely hard to get money. I have to ask people for money, which I don't know I shall ever be able to pay.

I am still at Westley's. Slipping there is about all the benefit it is to me and having my washing done. If he were rich I would ask him for money, but he is not. He is having a hard fight for the senatorship which he is confident of winning notwithstanding the money influence against him. Choucah do so, he may be able to get me appointed notary public of San Diego County or to position for a time at Sacramento.

I will go to see Mr. Hoch Doctor soon about the route, though not expecting anything to result from it. You better have the clothes cleaned but oh dear, do not let water run into it. This is done. I know there must be many things to be told to us and around the house that much of our money has been used. I am getting better and George is getting better in a week.

Take good care of yourself people,
And keep up good hearts, when
one door shuts another
may open, we will meet
some day and then ^{Oct 13th 1879}
we haply though and forget
those hard times. adios.

to my dear Husband. Temperate.
George pleased with bridge and sends you letters
thanks.

of Nov 3rd containing 4/10.00,
and of Nov 5th both received
for which thanks. I would have
written before but have been
expecting a letter from Frank
as you told me he intended
to write me soon, but I have
not yet received any letter
from him, he has sent me
two newspapers. I am glad
he likes it there, and hope
we will remain as everyone
down this way says that
Montreal is as dull as this
place if not more so, I have
sent Frank a letter, begging
him to stay where he is, as
it is so dull, all the way

down this² coast. I suppose
when he gets ahead a
little he will send me some
-thing, I hope so, but I think
is "the horse and you will
get grass." Well I hope to hear
from him soon. Our George
has begun his old pranks
again, he has not come
home now for three nights -
till near day light, I am
sick and tired of him
and hope if you get into
the Commissary you will
find some employment to
keep him busy, my talking
to him does no good, he has
no boots now, and so he
takes the right-time for going
out, he needs clothes, bundle
and says if he had decent
clothes he would go to sch-
ool, he and Harry & Israel
still stick together, Harry
I think would like to go
where Frank is, but I
want Frank to keep him

5
Down here, and then we
will see if he can make
himself comfortable here
after I get all things ready,
they cannot certainly use
things as they are now,
there are two panes of glass
out, one large one and a
small one, both in the
parlor, but George does not
seem to have a turn that
way for fixing things inside
the house. Music, and gar-
dening, and his nocturnal
spurts are all he seems fit
for down here. So you may
tell the Dr. that he could
not have possession right away
as I would have to have
some money to make things
comfortable for them. If you
get into the Community then
we will be all right.

We have had
three days ago a very heavy
flow all up and by consid-
erable rain, everything wet

through, and I think it is
preparing for another rain.
The corners in Georges room
over the kitchen leak badly
and so it does in my room
from around the window.
I do not think that Dr. Flute
would like that if he knew
it. We have commenced clearing
out ~~the~~ cistern, it has
three feet and a half of water
yet in it, we will remove
all we can, and pump the
rest out into the garden,
I am sorry I did not use more
last summer on my flowers
instead of letting them die.
I shall know how much to
use this coming summer. The
well water agrees with the
trees, but not with flowers
or vines. The front and side
of the house needs fixing badly,
as the rain seems to be washing
the bricks off by degrees, next
year it will certainly have to be
done. Mr. Rankin says it ought
to be cemented all over, as he is
about to lay small new brick

House he is pulled up himself
and says to me he goes along
and then for going the road
along the creek bank and
the way of the house like a
road and seeing people and
which we have to put up
the house - but the house
did not seem not like a
house but a kind of a
kind of a house for a
house. We have been here
for a month or more of
time and we have not
seen any more of the
people who were with
us at first. I must
have got all the time
the will get into the

OFFICE OF

The Mendocino Beacon

WILLIAM HEESER, PROPRIETOR.

Mendocino, Cal., Nov. 17th 1879.

Dear Mother:

Your welcome letter of the 6th of Novem^r has received, and the contents of the same, interesting.

I have tried several times, writing to you, but something or other would take me from it, and also not wishing to communicate, constantly my disappointments in not obtaining employment, hence the excuse.

But dear, I am in a good position, that of "local executive and foreman" of the "above named paper in this place. I like my position well, it is a good berth of \$15.00 per week here and looking. My work is not at all laborious, and I have plenty of time to myself. Mr. Heeser, the proprietor,

is quite a prominent one in this place
a large land-owner, farmer, surveyor and
most any thing necessary to help this town
along.

Menominee has about 2000 inhabitants,
is not at all an imposing place and
is quite dull. There is no sociability here,
only few young gentlemen and no young ladies
to speak of. I would a great deal rather
be somewhere on the lower coast, but I
shall see and see until some thing turns
up in Our Vicinity, when "I'll come scotching
back." The town is built on the coast, a
little cove forming its harbor; and being the
place is land are high hills and moun-
tains thickly covered with a dense forest
of pine trees presenting quite a pretty
appearance. The people consist of a labor-
ing class, used to working in Canada miles
above the woods, they are good people, but
not the kind I care particularly to as-
sociate with, except in a business man-
ner or passing salute, consequently I am
all alone, by myself - but contented.

I must here state that a letter has
been from Our Francis co, when I shall

for ever there for life

you may think it strange in meeting the very person
in this letter, but when I have found to know or meet
some father here, I cannot excuse by ever having a
piece of mine abroad, unexpressedly you have
always thought a great deal of Mrs. M. looks like
for ever there for life

in Market Street - our old friend Mrs.
Montenegro - she told me that when you
were in the city she said you on the other
at least she thought it was you, and
would have spoken, but for fear that
you might slight her, on account of
false rumors afloat in regard to her
in New Jersey, since she had been in
the city, and previous to your coming up,
she felt very sorry afterwards that she did
not speak. Mrs. M. looks well and as
good as ever. She has a son in a very
respectable family, earning her living partly
from dress making and the balance

Mrs. M. is well known by the name of Mrs. Smith, so that Meneages or his friends who have threatened her life may not know where she is. She keeps to herself, and has very few acquaintances - all ladies principally, and the lady with whom she lives being of a religious persuasion, a member of St. Peter's church in San Francisco, upon opening the door for me when I called, at once, when I was introduced to her by Mr. M., that I was the first gentleman that had called to see her since she had been in the prison. Mrs. M. says she has had troubles enough and wants to keep to herself the whole of you, and of all times when you took her part. You are the only person in San Diego who she cares anything for, and would have written to you only for the fact, but that have been circulated about her in San Diego, which might have reached your ears, was quite getting you against her. Meneages and Clerk have seen her and they think everything of her. Mrs. M. is leading a good life in San F. and making an honest living with her

needle and thread. She has told me every-
 thing from begging ^{was} bread as she has told
 me many before. I know, personally, where
 the slanders are, and why all is done.
 I think mamma, you might like a let-
 ter of condolence to her, as a word of
 good cheer from you would do more to
 comfort her than from anyone else she
 knows. She gave me permission to tell
 everything, to me, to you, but to no one
 else. I'm ~~sure~~ sure I say a word to anyone
 about what I have written, she is will-
 ing that you should know but no one
 else. When you write answers your letter

Enclosed please find Money Order for
\$5.00 payable at New York P.O. on presen-
tation of this order or enclosed in the
back payable to any one else, as per
directions. Will send more as soon as I
get a letter "squeezed up."

I hope you'll get the R.R. soon.

Give my regards to all engineering friends.
I would like to write of them but the twist
of the clay prevents me doing so, as I wish
to get all the work done; but in the ab-
sence of letters the "Beacon" will appear.
There is nothing going on here to write about
that I can see, consequently my filling up
the space I have in regard to Mrs. M.

I hope you will grant me these favors
I ask, but say nothing to anyone about it.
I'll let you know more after a while.

I received a letter a few days ago from Pa, he
has nothing to do yet.

Hope all are well here as it is so
here remains

My Dear Whaley

Your nice long letter of Nov 3rd was received and was really glad to hear from you and to know there was some hope however faint they are, the here have had no mines ^{either} as yet and do not now expect any before the 1st of December something remarkable for Lebanon. I do hope that the Rail Road projects may result in your favor when I get through here. I hope I may be able to get out to California, and take hold of some road to build. We are getting on nicely here but notwithstanding I get 100 - per month I have not as yet been able to save anything as after buying my mines ^{and} and paying for it I come to the conclusion that I must burn coal

to leave the house in general so
had to spend some time at that
the pity of our own and so
I now can I hope by the 1st of June
to be able to commence to come
a little, I do feel sorry for you
Dear Mike & children so soon to you
and get so far - and I think I
know your feelings as I have had
some experience in the same kind
but all will come out right in
the end, and you will only laugh
at your first worry.

At the close of this season we
the President's Engineers will make
a report on the progress of the
works also how making some
and I shall forward one to you
It may be that some engineering
project may be started whereby
I might get a call to your estate
during the year before - you
and I think it is best to have

will be cut. I expect you two have
heard I know is a certain little
it may be of some use to you and
will not tell me. I have so often seen
this time I should have been thankful
of a little gift and had known you
By Dear I think are welcome to
About Sam I send you and I feel

Compliment you are aware of that just
now if you should not mind it making
the Dear Mike would be glad if you
they can make so much out of so
little, I am glad to know your
now has a situation and if you
should get the Commission etc. this
is true no way that we could
work together to make something
out of it, I do hope that some
of the things relating may be
able to do a part in your
may to get something that will
help you. And hope your
will soon be able to have

your family about you. Mr Brown
and the children send their love
to you as well as to your wife
Whome Eliza says she feels as though
she knew her. They often speak
of you, and so often say from
Mr Whaley I do much business
rich. She has got to be quite a
young lady - Berta grows and
looks finely - and we all enjoy
the best of Health. Hope you
will not leave so long a gap
next time in writing. I will not
deny the merits as I shall have
leisure to do but in the morning
I am I and they say
Hoping ever to hear favourable
reports in you must believe me
yours sincerely and your friend

San Francisco, November 19th 1879.

My Dear Wife,

Your welcome letter of the 18th came to hand day before yesterday. I wrote you last on the 13th, enclosing \$100. Your new address is No 1232 Pacific Street San Francisco. On 17th I received postal order for \$30. from Peffer which he got from Young in full settlement of the \$50. note. After promising to pay \$30 and delaying to do so, he wanted to pay only \$25. George told him he had just received a letter from me saying that in case it had not yet been paid, to withdraw my acceptance of \$30. U. then filled up his check for this amount. George thinks he is a great scamp. He asked U. what he would give for the \$50 note. U. said not one cent over \$25. He then began telling him that in talking with his wife, he found she had paid me \$250 for services and that he did not feel like paying me any more, even about her having called upon a McHall, and that she swore to his satisfaction some sharp work on my part. George told him that he was my friend, and did not want to hear of matters outside of the

business he called to arrange. - As regards my
paying me \$250. that is a lie of yours. I don't
believe she would have any such thing - certainly
if this had been the case he would have known of it
and have mentioned it before and have taken it into
consideration at the time when we had our settlement
and he gave me his notes. As regards any
share work on my part with Mr. Hall, I have
written fully about the transaction leaving to George
to judge of the matter. I have no doubt Spring would
like to evade the payment of the ^{note} ~~note~~ ^{of \$250} ~~note~~ ^{of \$250} ~~note~~ ^{of \$250} ~~note~~ ^{of \$250}
if he could do so. and I doubt if he could pay it
without giving the trouble. If he had chosen to take
it up now for \$250 I should gladly have taken the
money, but if I have to wait till it is paid, if I cannot
the probability is that the office would have the full
amount from him. I can hardly believe Mrs. H. has
turned against me though she may have done so
but I shall never believe it till I hear it from her
I would like to hear if she has her address or some
way to have a letter directed to her forwarded to
ascertain if she says what her husband told George
or if she approves of his proceedings, returning me
but I do not think it would be of any use
but I do not think it would be of any use

and which she offered to pay me before she went to France. The reason was that I had every faith at the time, that the note given me by Kettle's would certainly have been paid at maturity. He tried hard to lie me out of the whole amount, said Mrs Y told him that I purchased the note from Kettle's, which was not so and she could not have told him so.

I know enough of Young and his affairs to show him up in such a way as would prove injure him, I had never sought to injure him in any way, and do not intend to do so. He was kind to me at one time, but I have no reason to thank him for it as he would never have done anything for me except at the instance of his wife, and if I am restrained in any way, it is out of regard for her, but should I ever learn from her that she entertained not long the least friendly feeling for me, how long I might be restrained from retaliating upon Young for his confounded meanest towards me, it is quite impossible for me to say, as we are at most but human, and I am no exception.

I am surprised that Frank has not written to you. I have received but one letter from him (Nov 3^d) which I answered on the 5th, besides The Beacon of the 1st & 8th. You had better write to him, requesting him to send you at least \$5.00 per week. I think he might be able to spare you that much by this time. Of course at first he would naturally wish to buy himself some decent clothes and pay up the little amounts he owes to Mrs. McCoy & Miles - I think I shall now write to him to let him answer my letter to him. He wrote that he was very busy arranging the office, but by this time he must certainly have things in running order and have leisure to write a few lines home occasionally. I think I would suggest to him if too busy, he might address his letters to me, which after reading, I would forward to you.

I understand that Mrs Lodge called upon Mrs Dasty the other day for the first time. She had been to see Mrs. Mrs. McCay Johnson (whose husband always makes his home at Scott's,) and having spent the night with her, in the morning they came down town together and called to see Mrs Scott. She inquired concerning me - I should like to have seen her. She is keeping house for a widower with children.

in Oakland. I could learn few particulars concern-
ing her further than this.

Walking on Market St today I met Mrs But-
telle for the first time. She recognized me first
and I then immediately afterwards. She is quite
rather than looking, but well and seemingly so
gay as ever. She inquired about you. Sends her
love and says she would be much pleased to see
you. She lives at the Bellevue House, Oakland.
Desires me to come to see her, but I don't sup-
pose I shall be able to do so. I see her husband occasi-
onally. He is not particularly engaged in anything.
I suppose they have a hard struggle to get along.
Dr. Hunt with his wife went down to San Diego
by last steamer the 15th. As I was informed at the
Baldwin when I went to enquire for him the morning
of the 17th. I did not suppose he would leave
the 20th and went to see him to ascertain
definitely and to give him my cordial regards
and to find out more particularly concern

ing him. He appears to be and I believe him to be
a gentleman. He promises to call soon, you in case
he should go to San Diego, and as he has gone, probably
he will do so, and then you will have an opportunity
to judge of him for yourself and can, make such ar-
rangements with him as may be agreeable to you,
should he have any idea of visiting from you.
I fear however that he will locate at his residence, he
spoke something about Mesquite place. I should
judge that they were rather high toned people and
would probably not like our house if they could find
any better. The doctor's name is Fred. J. Hunt,
from Chicago, Ill. He will probably pick up at
the Hotel House. You might venture to send
him a note requesting him to call, before engaging
rooms elsewhere. This would be no impediment to
this, and it may in some way, result in good.
Genl Kilburn arrived Saturday the 15th. Genl Kilburn gave me
a recommending letter of introduction to him. I saw Dr Ham-
mond, who said that I had better present it Monday morning &
that on Sunday he would see Genl Burns and get him to in-
troduce him to Genl Kilburn when he would speak to him about
me. Monday I went to the Baldwin Hotel at 10 o'clock &
learned that Genl K. had gone early to the ^{the} President, when

he will make it his headquarters. Then I went to see Manning. He said he had seen Genl Burns, and learned from him that Kilburn had brought his clerks and messenger with him and that there would be no chance for me whatever, but I was not satisfied with this. So went out to the Presidio in the afternoon. Saw Kilburn, delivered Kirkham's letter to him. I found the General a very pleasant gentleman, who reminded me somewhat of our old friend Col. Ringgold. He said Genl. Simpson had spoken very highly of me to him. He remembered Kirkham very well, being a classmate of his at West Point. He said he was very sorry not to be able to give me a position, as I was so long and favorably known by so many U. S. Army officers, that he had brought his own force with him - that he was not the purchasing commissary - Capt Cushing was, and though under him, he would not like to interfere with the appointing of any of his employees - that he did not know that Cushing intended to make any change - and as I desired the position of stockpiper, he did not see how he could assist me. I told him I had been acting under a misappre-

mission in regard to the whole matter, supposing that he was coming out here as the Purchasing Commissioner, and that if I had known to the contrary, I should not have given the trouble which I had to Genl. Simpson and Kirkham. He said he was very sorry on my wife's account, and if he could serve me in any way he would like to do so for the sake of his friends Simpson & Kirkham who held me in such high regard. I left with him my address, that he might notify me in case he should know at some future time any position for me. After leaving the General in his comfortable quarters, I took a walk around the Presidio which is vastly improved from what it was when you and I were there many years ago. I went to see Mr. Brian, Commissioner, Clerk under Genl. Burns who has been in the Department here for 14 years. He will be displaced by a clerk brought by Kirkham and he feels badly about it. Genl. Simpson did all he could to have him retained by K., but all to no effect. Kirkham, however, will retain him about 3 months which will give him time to look around for another position. Eliza Baldwin (Mrs. Buddwell now) is at the Baldwin Hotel with her father. Alden's daughter, Edith, is with her. Alden is still with Simpson, now at Chicago. His wife was very sick, not expected to live. The news from

Brian, who corresponds with Adams. To day, I received a letter from Genl Simpson, dated Chicago Nov 12th. He says he mentioned me most favorably to Genl Kilburn - told him who I was & asked him to do for me whatever is possible. He also says, "If at any time I can be of service to you, please let me know, and if possible to do it, it would afford me pleasure." I may send this letter to Kilburn, or see him again personally, though I can't say I have any hope in that direction.

I will now see if anything can be done with the gentlemen in the Liverpool & London & Globe Insurance Company. It is all that I have in view. Should I not succeed in obtaining anything from these gentlemen, I think I had better direct my way homeward. Possibly I may be able to get into something in S. D. whereby I may be able to make a little, and should the R. Road prospects turn out as favorably as they indicate at the present time I will be anxious to avail myself of some ~~favorable~~ opportunity for doing business or getting into some kind of business, that will in consequence doubtless present itself. I have been here long enough,

tried hard through my finances to get into something comfortable and find it impossible. I am and have been for several months leading a most miserable and fastidious life, and I cannot possibly stand it much longer. I don't see how I can be any worse off in San Diego than I am here. Indeed I believe I shall be better off. Here I have, only the clothes I stand in and ~~no~~ ^{no} ~~more~~ ^{nothing} ~~to~~ ^{to} be of use to myself or to anyone else. In San Diego, if I can't be of use to others I can be to myself, as there are many things in and around the house which I can attend to, to occupy my time and attention. I have about got through attending to business for the Rail Road Committee. I made a report to Brown to day, and in a private letter to him told him of my disappointment in not obtaining the Stockholders' piece, and that before long I might return to San Diego, and wished him, if possible to secure some position for me without regard to salary.

So, dear wife, the present prospects are that I shall return home soon. I am anxious to do so on many accounts, but more particularly so on account of George. I am extremely sorry to hear what you tell me respecting him. If he will not heed you, it is not likely that he will send by writing to him, indeed, he has failed to do so. I don't think it is possible for me to say more, or in stronger

language than I have already used to express myself concerning him. Perhaps, if I were home, my presence alone would have more salutary effect than mere words can convey at this distance. It has been more for the welfare of my children, than I desired a change in my present ~~circumstances~~ circumstances, to enable me to do something for them - than for any good I hoped to derive from it for myself. I have striven hard to accomplish this for years past, sacrificing everything to that end, but seemingly the gates have been against me. The greater my efforts were - the more I found everything. My misfortunes have been great bearing me down, crushing me almost to the earth. My cup of misery is brimful almost to overflowing, it requires but little more, and that little I trust will not be a contribution by any one of my children. I can hold up a while longer and may perhaps be able, with their help to regain my strength and to get upon my feet once more, so I entreat of them their assistance, if it is possible for them to render me any, if not, I entreat of them not to do anything beyond which will cause me sorrow and

to mourn over their wickedness. I have troubles enough God
knows without having an increase of them by the bad actions
of my children, who if they will but remain good and
pious, seeking to do only what is right, will give me
strength and happiness, and may be in the end I shall
be able to surmount all my troubles, recover my lost
fortune and thus they will reap the benefit of it.
It is for them, for their good, I am willing still to strive,
I am getting to feel advanced in years now, to be benefited
much by anything I may hereafter acquire. Therefore in
being good children, helping me, they will reap for them-
selves the benefit, and have the satisfaction in their own hearts
of having done what is right. That I have written is ap-
plicable to all our children, but more especially intended
for our son George, as it was owing to what you wrote con-
cerning his present misdoings, that I have written anything.
I can't understand why he acts as he does. I can't disobey
my mother as he does his - I would not have dared to have been
guilty of the disobedience which he is guilty of. I
don't think George would have more love and respect for such a
unkind mother as you have always been to him than to disobey
you in anything that you tell him is wrong and that he must
not do - Suppose he is a big boy does that release him of any
responsibility to you or make him less accountable for
his actions? But I suppose he thinks that because

He is a big boy, quite his mother's quality - not much more
than one half her size, & he is quite so quiet to her wishes, it
might seem cowardly. He has to do so and he would like
to be the companion of his companions who are to do so
to find out what their true qualities in youth consists
in reverence and obedience towards their parents and
more particularly to get a word for man's words
his father told him the old more than to his
father. He is said before I any had seen him
he is determined to do so. He is old enough
to know what is good and what is bad and if
his nature is such as to lead him to do evil,
the consequence of his delinquent must be upon
himself. And he alone will be to blame for it.

 of which I purchased at Madras at a
 low price in the case of of Table spoons. They
 they go well add to our assortment and can

My Dear Wife,

Your welcome letter of the 21st came to hand the 24th inst. I am glad to hear that you are all well and that the \$10. sent the 13th has been received. I wrote you on the 23rd enclosing \$5. more. I have no further news from Frank. Strango he does not write. I sent him a P.C. yesterday requesting him to do so. Judge Hyde left by the steamer this morning for S.D. having been telegraphed for on business in connection with rail road affairs. I wished to have gone with him but some matters detain me here. I tried to arrange with him so as to go by the steamer of the 20th but could not do so, further than if he should require me in S.D. he would telegraph for me on the 29th. I do not expect that he will do this, therefore if I can possibly arrange in any other way to go I shall do so. As regards passage to S.D. I can arrange that I think through Miles who has promised to get me a free pass if possible, but should he not succeed I might borrow

My dear Mother & Sister
I have not been and have been
enough for this purpose or pay it out of the money
remaining received from Young - but I do not
wish to arrive in San Diego without a cent or
some provisions to keep us going for a while till
I may be able to get into something there so as
to earn some money. Do you see the fix I am
in, I think of applying to some of my friends
here for a loan and should I be able to raise say
\$100. it will be sufficient to pay my passage and
to purchase provisions enough to last us during
the winter. If I can not do this I shall return
home anyhow as I am leading a miserable life
here and can not be more so at home. I may
and be able to go by Steamer of the 30th and per-
haps not before the return of Judge Hyde who
said if I remained till then he would provide
for my going to San Diego. The Judge though
rich has many demands upon him which at
all times he cannot supply. I like him very much
I see considerable of him. He is favorably disposed
towards me and should the prospects of C. D. Bright
I think quite likely he will employ me or give me a
chance to make money with him in some way.
The Judge has promised to call to see you

and having a little package to send you he kindly offered to take charge of the same. It contains the silver plated ware I mentioned a previous letter. There are table spoons and other articles of use in the same line besides a garden trowel for you. The tupper gets buttons are for the girls, two dozen each. They are very handsome and will last them their life time. You will not make any display of the silver ware as people may think it very foolish in me to spend money in this way, but I bought it three years ago nearly when I had more money than now, and at low prices as you will see by the prices marked upon the paper wrapper, which please save. I think you will find the things to correspond with the list with the exception of two fruit knives one of which I gave Sophie Miles and the other to Maria McKee. As I thought likely Mr. Huse took Macomick's house. I am sorry you did not see him. C.

think they are nice people and as they have called to see you you might do the same some time when you are at New Bedford.

I hope you will be at home when Judge Hyde calls, treat him very friendly to the best in his power and invite him to come again. I like him very much as he reminds me somewhat of our old friend Col R., and I believe he will prove to be a good friend to us. I wish it were possible to have him interested enough in Violet or Lillid to take the charge of one of them for awhile. I think they would find a comfortable home at his house. If George is at home and probable let him play on the violin for the Judge. Do not let the Judge imagine that I propose anything, as he might think I had some motive for doing so. You will understand how to arrange things for the best. If I can possibly get a bow for George I will do so. I am not situated, so now as to promise anything. I would also like to get shoes, under shirts, saucepans and many things besides. I received a letter from Puffer this morning in which he expresses his profound disgust

for Young. He says: "I cannot say bad enough of your old friend Young to give you an idea of how I despise him. I never want to see him in my office again." He advises me to take the other note \$350 for which he (Young) offered \$25, alleging that his wife had paid me over \$200. George says: "I could not tell you in words his hatred for you. You must see his face and his style of bringing out his words. I told him I did not wish to listen to his abuse of you. I had known you for many years and you must have changed very much to act as he described. I asked him how it was that he gave you the two notes for services rendered if you did not perform those services. He said his lawyer advised him to give them to get clear of you. He also gave me to understand that Mrs Young had found you out and was no longer your friend. I told him that I should write you what he said. He told me by all means to do so. The next morning he came to the office and said he had thought it over and wished I would say nothing about what he had said the night before. I

Daddy

I don't know how long it will take to get to N.Y. I think it will be about 10 days after the 1st of Nov.

I told him I had written to you this night before
and then asked me what I had ^{repeated} said of the
conversation. I told him most of it. He then
left and I have not hope now to have any
more to do with him. George closes his letter
with: "I am glad to hear that the sun is beginning
to shine with you and yours. We will all be glad to
~~hear~~ that you and yours dear family are once more
united. Wife, children and self often talk of
you. Give our kind regards to your wife when
you write, and I will take the liberty of sending
the girls a kiss. Yours truly, George." From
this quotation you can judge of the estimation
I am held in by my friend "George" and how
likely I am to deserve the esteem of my dear
friend "Young".

I much love to see my dear wife ho-
ping to see you soon and that we shall
find in the near future some comfort to
compensate us for the long suffering of the
past. To the children our and a few

them good and well. Yours affectionately

My dear Husband.

Yours of the 20th
enclaving \$5.00 came safely, for which
thanks, I used a portion of it for
Thanksgiving, but as I had no other
money on hand I was rather shy
of spending any of it, still they
all wanted something extra, so I
got a few Apples, Grapes, and
a Roast of Beef with potatoes -
beans and Grape pie we made
out quite a good dinner, I
forgot a couple of Ducks that
Mr Battaille got I am glad
to hear that Rail-Road matters
are progressing and hope it will
not all end in smoke as usual.
I hear nothing of it, not seeing
Mr or Mrs Morse lately, I do not

think they come up this way and
more since B. Road is our head.
I shall be pleased to see judge
Hyde and shall make myself
as agreeable as possible, and
shall be glad to receive the
few presents you send by him.
I think that if he wants you
to remain till such time as he
lets you free from ~~you~~ you
ought to do so he may have a
purpose for doing so. So I think
if you can borrow some money
for provision, and wait till
the return of Judge Hyde, he
will perhaps lend you some
more money, and then you
can come home "Devoting" with
some provision and money
in your pocket, which will
keep us this winter and then
perhaps B. R. will be settled.
The Engineers are out again
in addition of Warner's Bank.
I think you had let wait the

return of Judge Hyde he may mean
you some good. Now as to Young

he is a low mean scamp, and
from what Mr Puffer says, he is
able to do anything in the way
of swindling. I do not think his
wife knows anything of his acting
towards you, and if it were pos-
sible for to receive a letter from
you by post, without he saw
seeing or knowing of it, it might
do some good, but should be
aware of it, it might make
trouble for her, hold on to your
note, and then get it all if
it costs you a little to get it,
you will certainly get more than
he offers you for it by far. Young
is a mean skunk, that is my
opinion of such a man as
that. Mrs Appleton always said
he was a very mean acting man.
Well we are all well at pres-
ent, I am not as well as I used
to be, although not well at
times, bad weak fainting spells.

Come over me, but I hope they
will in time pass off. I can't
work around now. Some, but
I prefer being out in the garden
such as it is. We have taken
down two large pepper-trees that
were in the middle of the gar-
den, preventing the fruit-trees from
growing, the roots on them were
as large as my leg, and seven or
eight of them to each tree. I then
went to the fig-trees, that is the
reason our fruit-trees are no
larger. We have one more to
take away, and George is digging
large ^{holes} with manure in them. We
shall put in peach trees or orange
trees when we can get them.
George is doing very well now. He stays
at home. I think I made too
much fuss about his staying
out, but once in awhile I sup-
pose, as Judge Witherbee says, boys
must have a run, and the judge
says he likes to see them go about
once in awhile, and they will tell
me that George is all right, no
I think you

My Dear Wife,

Your long and welcome letter of the 28th ult^o came to hand the 1st inst. I am glad to hear that you and the children are well and that you managed to have a tolerable good dinner on Thanksgiving day. I intended to have a little of something extra for myself. Not having received an invitation from any of my numerous friends, I went to a restaurant, ordered a dinner at double the price I usually pay, but everything was so meanly cooked that I was not as well satisfied as though I had partaken of an ordinary dinner. but I hope to be at home Christmas & that we may all partake of together a better repast, than we had separately on Thanksgiving day.

I am glad that you have heard from Frank and that he has sent you something and hope he will continue to do so from time to time as the remittances from him will assist very materially, until I can contribute more than I have been able to do for some time past.

OFFICE OF

The Mendocino Beacon

WILLIAM HEESER, PROPRIETOR.

Mendocino, Cal., Dec. 6th 1879.

Dear Mother:

Your letter received, but pardon me for not answering earlier. Of late, I have been pushed so hard with work, that I have had but little time to myself, but I have just stolen a few moments in which to drop a few lines home.

Every thing is quiet here, but of late we have had very wet weather, it has been raining constantly for the last week here. Fifty inches is a small rainfall in this part of the country. By referring to the "Beacon" I have just sent you can gain more information than I can communicate to you.

You will see in the paper an account of my fire-rocketing at

which I put ^{up} ⁱⁿ ^{the} ^{place} ⁱⁿ ^{which} ^I ^{was} ^{at} ^{the} ^{time} ^{of} ^{the} ^{fire}, narrowly escaping with
life from suffocation by smoke & fire & have
remained in the building one moment
longer I would have been burned to death.
I lost everything, except what I could
grab hold of in leaving the building; viz
I lost all jewelry except my watch,
which I saved, not knowing it at the
time; my moss agate cuff buttons were burnt,
and also new clothing, in fact everything.
consequently, at the present time, I have
nothing to wear except an old suit I
happened to grab hold of. - loss about \$75.00

Pretty rough, but never mind I'll make up.

I like my position here more and
more every day, and shall hang on to
it as long as I can; I am my own "boss."

I would please five money order
for five dollars.

I got a letter from father a few days ago
nothing was yet, he is going to San Diego soon.

I see good railroad prospects in the
papers, and I hope they are good.

Remember me to all friends, with
love to the family, I remain
Yours

O. P. Dec 12 - 1849.

My Dear Son Frank,

Yours of the 9th inst, enclosing letter from Coubless is to hand. I received the "Beacon" giving account of the fire. I regret your loss of clothing &c, but thank God that your life was spared to enable you to make it up again. I am glad you are so well satisfied with your position and hope you will do well. Live economically, save all you can, to give you a start in San Diego, say in a year from now when times may brisk enough then to warrant you to make a change. Our prospects are very encouraging for a rail road from some quarter, most likely by the way of San Bernardino, which will benefit San Louis more than through by the direct route. I shall leave by the steamer Monday having borrowed the money to do so.

I don't know what I shall do when I
get there, probably go into the real estate
business, though I expect to have rather
a hard time of it till I get fairly estab-
lished. Miles has promised to get me
a free pass and one to return on
if possible - which George may wish to
come up on, in case you think you
can employ him in the office and agree
that if subverted I cannot make use
of him in any office.

In regard to the Coulter matter,
and understanding it exactly I hardly
know what to advise. It would be too
bad to lose the \$30000 just at the
time when it may become of some value.
You might write to Coulter stating that
your father was going down to San Diego
soon and that he would consult with
Mr. Moore about it and whatever he ad-
vised you to do you would carry out
and that you assure him he ^{is} your ^{friend}

I leave him by steamer
Monday. Shall take down some
few provisions. Recd letter from
Frank. He lost all his clothing by
fire of the hotel and scarcely escaped
with his life. This is a hard rap
for him at starting. I enclose you
\$5. Let George arrange with some
one to be at steamer to take
and baggage to Oca Town, and
with some one to bring up provisions.
There will be no very large quantity -
from 1/2 ton to 1 ton. Don't ever going
down the day the steamer arrives, or
within a day or two after. But don't
go especially for it. Get it done
cheaply - Hoping to see you

San Francisco Dec. 14th 1874

Dear Frank!

You have stated in your letter nothing to offend me. I have not answered your letter before now, because I have been sick suffering from Rheumatism and have not quite recovered yet. Besides I had promised to call on your aunt Amelia before I would answer your letter, and of course being sick, I could not do so, and by writing to you I have broken my promise. Miss Amelia and I are great friends, and I think dear Frank it is really a shame you do not write to her. She says that instead of sending papers

She would prefer a letter
which would be more apprecia-
tive, as if you have not yet
written to her, you can just
put down this minute and
indit as long nice letter to
her, and by doing so you
will oblige your friend Rita.
I am glad to learn that I
shall have the pleasure of seeing
you soon, Christell. How

I remain as ever
Yours truly
Rita.

I would write a longer letter
but I am not feeling well to-
day.

When you write to your dear
mother send my best love
to her.
