" Rain, ! Rain! Nothing

Rain and floods

San Diego, Cal.,
January 25. 1862.

Mr. Geo. Whaley,
San Francisco,

My dear Sir — Your's of
the 18th inst ant was received by the Deutor,
which arrived quite late to day. I began
to think that we were to have no more
communication with the outer world, for
as you say at the commencement of your
letter, "Rain! Rain! Nothing but rain!" blocked
up the roads between this & Los Angeles so that
for the last three weeks we have been without
an over-land mail, therefore that "long
letter over-land" has not arrived. I also
wrote you a letter over-land, which I pre-
sume you did not receive, as you say nothing
about it, & continue to ship. But first, as
to the weather. So much rain was never known
here — at least by the Americans. In the small

gulches, which are nearly always dry, large trees have been washed out by the roots, and the river came down so that it covered the whole flat between here & the high land where the Wind Mill formerly stood. The bed of the stream shifted and cut away just one half of Lyon's garden. The banks, where the roads led out of town to the Playa, are about ten feet perpendicular. A large part of Smith's Garden washed off. Mrs Courroy's House is entirely destroyed, & the House of Andrew King was swept off entirely, in a body. Lyon's buildings are still standing, but the adobe building is rendered worthless. You could go about over the flat in a boat. The river has fallen now, so that it is confined in its bed, but it is so boggy, as well as the land adjacent, that as yet there has been no crossing. Frank Stone, who built quite a good house on the Cajon Ranch, had it swept away, together with his corral. The rain commenced falling

on the 24th, of last month, & continued nearly
increasingly until two or three days ago. The
Senator landed her goods at the Place on that
day, & in the rain that fell, altho' covered by
sacks, some of the flour (& many sacks,)
was damaged. The roads are in bad condition
Nearly all the little gulches between Pine and
Solidad are cut out & left with banks from
3 to four feet perpendicular. We have not
had two days of dry weather & warm sunshine,
which I have improved in drying & putting things
to rights for an other rain, as during the
whole day it has looked like a "weather-breed"
Some of the goods got wet in the house, al-
though looked after night & day, for it
was nearly impossible to remove them into
the other building in the face of the storm
The house leaked awfully! and the whole
wall, against which the south-east storm
beat, became so thoroughly saturated
and wetted that the water stood in large
drops on the inside of it, & trickled down

in little rilly. I would have never believed, had I not seen it, that it was possible to get wet through a lime & mortar wall. To day I am re-tarring the roof, (I wish I had feather, but instead will use sand.) Most of the goods were in the small building at the commencement. It has been death on the old adobe buildings about town. About 120 feet of your outer corral wall fell down - that which was nearest the well, & therefore, as I thought, the most secure. On yesterday I went to work, got some planks, & have made a tight board fence as high as the wall. Of course it fell down well & into the pen. Otherwise the wall is standing, but much worn away, by abrasion with the water. There is not a door in the whole house that will close, or come any where near it. I barri caded at night, & trust to a return of dry weather to play the carpenter with them. But this weather, while injuring some will help other. The branches are much pleased at the grass. The weeds

in the Plaza are two feet high, and any where
about in the neighborhood of your house, it
is good grazing.

Now as to business: You will
recollect that I told you that I should be
under the necessity of borrowing from Jack
Hinton's bag to pay the last freight bill to
San Antonio. I have repaid that money, & do
not believe that at this moment I have
\$20 on hand. So you see how fast I
am selling goods. No body has money down
here. On yesterday I gave witherly \$1000 of
Hinton's money & took a mortgage on his
Ranch. Coaty has been to me to get a \$1000
of the same money, on mortgage, but I did
not like the security. These have been supposed
to be the most moneyed men in the country.
I think some of starting a new currency
down here - Cowries, using Abalone shells
for the shells they use in the East for that
purpose. The fact is, if a man gets money

enough to buy a bag of flour he dare
not come to me for fear some of the Jews
will find it out & sue him. Many is the
time they have come after dark for it, for
fear of being seen by some man whom they
were owing. As I said to you in my letter
which you seem not to have rec^d, you
had better hold on to the goods a little
until we see what is what. If I don't
mistake, some of these Jews will burst
up after a little. Inclosed I send you two
receipts. I think you will find the lots
all right this year. I hope you will
make up your mind to roof this house
during the summer coming. It annoys me
to see so good a building as this decaying for
the want of a cover. If the weather should
dry off so that people can get in town, I hope
to sell some thing during the next two weeks.
They tell me that the Ex^{ch} prep is going & I am
time to read over what is written. Where is
Syons staying up there? He was only defaulter
for 600 & thousand. Great Country this -

Mr. Whaley,

When I finished my hurried
letter on yesterday, I cut it somewhat
short in consequence of a report that
the Express was closing, which proved
incorrect, as the Boat is still at the
Plaza taking in oil, & will not leave
until 2 o'clock to day. I have nearly
forgotten much of what I may have written
relative to our troubles down here with the
flood - for flood it was. It was not only
a flood of water falling from the Heavens,
but such a South - Easter I have never
known, the tide backing up the waters
of the bay which was running in from the
river to a height never before witnessed
by Americans. Luckily the settlements are

all so situated that the high water could do damage to but few - Mrs. Robinson's house, (which has been so long considered a weak structure,) stood it well, & is not injured in the least. Most of the walls of the corvles at the rear of the Pandini & Estancia houses fell in, as also the walls of the Gent Stone corvle. Mannes & Schiller Stone is missing a rear wall, but the goods received no injury. Some of the high corvle wall in the rear of the Franklin House fell. Crispien's Shop walls fell in, & the whole of the wall around Pandino's large garden, below the Pear Garden, is one mass of mud, the water being about two feet deep around it. In fact all the old walls around town, which were not well protected, have gone down to rise no more. In view of the present financial prospect before them, the probability is that the Californians will not go to the expense of re-building them. I think that no more

runs down on the doors, & is driven under

opened for the want of paint, deluging
the floor. In a heavy, driving storm, the
wet from these defective doors & windows

that I gave your bricks in to the Assessor,
for I was required to verify your Assessor's

succeeded in crossing the river with animals. I
am in hopes that in a few days, ~~although the~~

When I finished my hurried letter on yesterday, I cut it somewhat short in consequence of a report that the Express was closing, which proved incorrect, as the Boat is still at the Playa taking in oil, & will not leave until 2 o'clock today. I have nearly forgotten much of what I may have written relative to our troubles down here with the flood- for flood it was. It was not only a flood of waters falling from the Heavens, but such a South-Easter I have never known, the tide backing up the waters of the bay which was running in from the river to a hight never before witnessed by Americans. Luckily the settlements are all so situated that the high water could do damage to but few- Mrs. Robinson's house, (which has been so long considered a weak structure,) stood it well, & is not injured in the least. Most of the walls of the correls at the rear of the Bandini & Estudillo houses fell in , as also the walls of the Genl Store Correl . Mannasse & Schiller store is minus a rear wall, but the goods received no injury. Some of the high correl wall in the rear of the Franklin House fell. Crissmans shop walls fell in, & the whole of the wall around Bandini's large garden, below the Pear Garden, is one mass of mud, the water being about two feet deep around it. In fact all the old walls around town, which were not well protected, have gone down to rise no more, for in view of the present financial prospect before them, the probability is that the Californians will not go to the expense of re-building them. I think that no more of your walls will fall if we have nothing but our usual winter rains. Much of it is worn thin, & in several places large slices have slid down, there not having been sufficient straw or grass mixed

with the adobes. This is particularly the case with six or seven tiers of the adobies nearest the top...(torn) day, (notwithstanding it is Sunday, for I look upon it as a work of absolute necessity for self preservation), I am still at work on the roof. One great trouble about this house is, the unfinished front. The South-easter drives the rain against it, which runs down on the doors, & is driven under them & through all the cracks which have opened for the want of paint, deluging the floors. In a heavy, driving storm, the wet from these defective doors & windows is as great as through the roof. I would suggest to you the propriety, or rather, I should have said, policy, of selling your bricks ... (torn). I have sold a few at the prices fixed by you, & have frequently been applied to for more, but when the price was named the persons declined purchasing, making shift with rocks & adobes. In Los Angeles, more than two years ago, bricks could be hauled and laid up in the wall for \$ 11.50 & \$12 per M.-You will notice that I gave your bricks in to the Assessor, for I was required to verify your assessment list of property, & I suppose bricks to be "property", as well as all that timber in the rat-proof store house- As yet no person has succeeded in crossing the river with animals. I am in hopes that in a few days (although the weather is now cloudy & threatening rain,) it will clear off so people can come in from the country. Trusting that your house is above all flavor & your wife & family well,

Friend Wholey -

Your letter of the 20th of
January, which should have been rec^d by
Steamer, reached here by land on yesterday.
The one sent over land, & to which you refer,
is not yet arrived -

Since the departure
of the Steamer, the rain has fallen nearly
every day. Our three last days have been
pleasant. As yet there has been no such thing
as getting in or out of town with wagons.
You do not mention that you rec^d from
me a letter by over land. Please see
that Bancroft sends for Marshalls De-
cisions. Send me Capt. James Boy's
Adventures & Explorations in New & Old
Mexico. You will find it at Rowan &
Co's. I know the man. Just couple the name
of Bob. Kelley or Jim Kelley with the

authorship of a book, & you can imagine
with what curiosity I shall open Jim Boy's
adventures. I never supposed the man guilty
of writing his name. I want a pair of
elastic suspenders. I can't find any
in town long enough. Please send them,
they worth about \$1.50. And also 2 Nos
of the "Californian Pictorial Album", for
1862, the same work you sent me last
year.

I have no news. We are all in
the boy yet - no getting down to the Play
or out toward Ross' Ranch. Hunter
writes me that the flood damaged Hooper
about \$5000, not counting the loss of
buildings. W. W. Ware is lying at the

I know nothing about the property,
neither have I found out to this
writing (late in the day) who is his
agent. I will try & find out and
let you know, & in the mean time
keep meum! As to the Taxes of Keeney,
I have not been able to pay them to
day, for the reason that it is necessary
to get a certificate from the Recorder
to the Treasurer, who is now the receiver
of taxes, & to day they have no time to
attend to it. It shall be attended
to in a day or two. I have not yet

died a few days ago. Nothing else
new. My three days work on the
roof has thus far prevented any leaking,
although we are continually having
showers. When a man is going to do
a thing, there is nothing like getting
a man to do it who knows how,
if he don't know how himself. It
took time & attention, & is a good
job. Our roads are ~~not~~ bad - you
never saw or dreamed of the like,

Mr. Soboley,

My Dear —

Yours of Apt. 5th inst. is rec^d —

I suppose the things (Perry & Boy of Alvarado) given
the Boat, I have given you credit for \$23.67 on
private A/c., which makes that A/c about
square, within a dollar or two, according
to my figuring, but I see you have charged
me nothing for drydock — how is that? I think
these A/cs have run long enough between us
to have a comparison, some way, if there

she says all right - I've heard nothing
of the Pay Master - Any how there is only
one company here. As to money, I've only
about \$~~50~~⁵⁰ on March - A/c on hand, which
I send, & as you seem to be in a bad
way to pay that \$150 note, I put \$20 to
it, making \$~~70~~⁷⁰ - therefore give me credit

Mr. Whaley,

9 o'clock A.M.

Dear Sir - Quite unexpectedly the steamer
is now rounding Point Loma. As I may
have several letters to answer, & have some
other writing to do before she leaves, I will
say a word or two now -

In your last letter I found inclosed
to me what looks like an Invoice of
Com^d stores sent by St. Antonio to A. G. S. at
Camp Sutherland. Knowing nothing about
it, & not being able to understand what I
have to do with those stores, I herewith return
it to you for explanation, if one is
necessary.

I had ^{new} not much of any with the
exception, that on the 27th ult^o, at a
few moments past 12 o'clock, we had
two shocks of an earthquake within
two or three minutes of each other, the second
the most severe. Many houses in town

San Diego, Cal.,
June 17. 1862.

Mr. Whaley,

9 o'c. A.M.

Dear Sir - Quite unexpectedly the Steamer
is now rounding Point Loma. As I may
have several letters to answer, & have some
other writing to do before she leaves, I will
say a word or two now -

In your last letter I found inclosed
to me what looks like an Invoice of
Com^{ty} stores sent by St. Senator to A. C. S. at
Camp Sutherland. Knowing nothing about
it, & not being able to understand what I
have to do with those stores, I herewith return
it to you for explanation, if one is
necessary.

I have ^{new} not much of any with the
exception, that on the 27th ult^{mo}, at a
few moments past 12 o'c. M., we had
two shocks of an earth quake within
two or three minutes of each other, the second
the most severe. Many houses in town

became cracked, altho' no serious damage
was done. I enclose you a picture of your
house, showing the cracks, but it looks worse
than it is. In fact the cracks are only dis-
covered on inspection. But in order to
crack many solid brick, I think, in many
places where there are cracks, the walls must
have opened considerable for the movement.
I was in the yard at the time, & the ^{noise of the} vibration
of the windows & doors could have been
heard at the Grave Yard. It was awful!
Four days afterwards it could be seen in the bed
of the river where the earth had opened and
closed, leaving the marks of long tents. It
cracked the tower of the ~~Slight House~~ so as
to injure it considerably. — It rained
nearly all of the 12th & 13th inst., & the sun having
cracked the roof, it leaked considerable in
two, 3, or 4 places, but on yesterday I saw
it fixed again, using up the bal of the term,
and you had better send me an other small
board to fix it just before the fall rains

long 24 hours bring forth little young earthquakes

I slept in the coach. - Others visited me in town.
Jack Hinton wants to try a project, so please
send me 10 pounds, or such a matter, if not over
\$1 per pound, of Sand Wick Island Grass seed
called "Mariania".
1 pair brass dividers, about 6 inches long, with a
screw to set them, & a small ivory or bone
scale, say a foot or so long. I've felt the want
of them a long time.
~~of Col. Reports, which I see is printed~~
1 Ivory or bone paper folder - Indians have
stolen the one I had -
6 of them small boxes of water closet paper.
That paper is a great institution. It
is not all imagination, as you suppose -
The weighing this year is not as lively as formerly,
still I have done some little at ^{it} but chose

only 75 cts, yet as I give you credit this year,
the same as last, for the whole amt. recd., I hope
you will be satisfied. As I live here, it is not
much trouble, & if it was it would be not
much matter, as I am not pushed with business,
& when I am out, Tom Hoop is always at home.

Your letter per Morse, of June 4th, is just
recd. containing invoice. Mr. got on the steamer at
San Pedro, & says the schooner will be here in a day or
two - Relative to the \$14 worth of goods sold Mrs. Robinson,
it stands in this way: I let her have goods to the amt. of
\$14, which she did not pay for, but was to settle with
you for them, but I entered in my Book of "Cash rec-"
\$14, the same as tho' I had recd. it, & as you will charge
Mrs. R. that amt., I suppose you should give me
credit for \$14, the same as tho' I had sent you the money.
The \$14 formed no part of the \$530 - Is this a correct way
of doing it? - I have said I recd. your letter by Morse,
but I now learn that I got it through Capt. Beagut - I was
also recd. W. B. some Bulletins, for which I am obliged
nearly to death - As to the merchandise shipped on the
Perry, I suppose it is all right - Any how, I will do my
best to make sales, but as yet the excitement relative to the
Colorado gold mines has not affected us in the least. But
you had not better send vinegar - they manufacture
it here. Hold up on the Syrup, Pickles & Pilot Brand,
& Champagne wine - I now have a large stock
of these articles on hand - Never mind about "Loach
river" [this the way it is spelled - not "Loachan"] History
of Texas. I have seen it, as also Kendall's travels in
Texas - As to picketing in the lot, the whole expense shall

quite a smart shock of an Earthquake took place
Frank Stone, writing at the other table, jumps up, &
says: "My stars alive! - there is an other!" I've been
selling Champagne at \$13. - It is dull sale. Meier
goes up on this Boat - also Peniston & wife, I hear - also
a greaser to Sen Guentier, for acting bad. I am
obliged for the 19th Reports - not much use, but
must have them so long as I pretend to attend
to this miserable little law business. Don't forget
the Statutes, so soon as bound - With respects
to your family, I remain

he kept account of, & equally divided between
Mr. Auci's Estate, you & myself. - I have on hand
on merchandise A/c about \$265, which I intended
to send you this steamer, as well as about \$50
to keep up my private A/c., but from the
heavy Invoice I have rec^d, to arrive on the
Perry, I shall hold on, and as the Mail, with
Express, leaves here weekly for Los Angeles, if
I should have money to remit before next steamer
I can do so wth Express - I've been at this business
now some time, & as money never comes out
even when I handle it, I would like to
have the thing fixed up, some way, & see how
it stands - While I have been writing this letter,

Dejers -

Since the steamer day,
(day before yesterday,) I have
been watching for that
~~steamer~~ schooner and
that big Invoice of goods,
but up to this time she is
not in sight, unless she has
come in since dark, which
is not probable. Morse says
that when he left San Pedro
on the steamer she was ready

To sail with the Land breeze
of the evening. My own mail
leaves bright and early in
the morning for Los Angeles,
I am obliged to say you a
line or two later.

You will notice that in
my last letter I said nothing
about the receipt of your letter
of the 13th inst. The reason is
that it did not reach my hand
until about 9 o'clock P.M. The day
the steamer left. -
I would be much obliged if you
would let me know if the steamer
get me to either home of the
other side for Los Angeles & give me
some news.

To Mr. Vestal at Capt. Wright's
office. Please let me know if
you can get me a letter from
Los Angeles, and please let me
know if you can get me a letter
from Los Angeles. He said
I would let you know in funds,
but I don't know what the money is,
the bank knows when I will be
in funds. The note that is over
\$1500. Now I understand more to
say that by sending them to Los Angeles,
the \$1500 will pay them in drafts on
the East - & that these drafts can be
negotiated. Please inform me, if
you, let me know at Los Angeles. Please
= write on account, & if it suits, I will
send them to you. You have been up
there long enough to know the report
the quality of the land here of me.
I must have the other side, &

if you can purchase me some
thing that will not cost me more
than 2 1/2 lbs powder delivered
here; please send me say 500
pounds =

In closed you will find
a little Bill for some lumber
to fence in Frank Steady's grove,
meas out by Kurty. I wish like
to trouble you about these things,
but you must, I think is proper, that
you should make your bill large
enough to cover trouble, carting
&c. It is a shame for a grove to

I wish to make an enquiry. Nearly six months ago the Warnocks got me to collect some Qr Mr's certificates for hay & grain sold to Lt. Vestal at Camp Wright. I inclosed them to a form in Los Angeles, who presented them to the Qr Mr at that place. He said he would pay them when in funds, but Warnocks want the money, & the Lord know when he will be in funds. The whole amt is over \$1500. Now I understand Morse to say that by sending them to San Frco, the Qr Mr will pay them in drafts on the East, & that these drafts can be negotiated. Please inform me, & if so, let me know how much premium or discount, & if it suits, I will send them to you. You have been up there long enough to know the ropes & be pretty sharp in such kind of work. I want some chicken feed, And if you can purchase me some thing that will not cost me more than 2 $\frac{1}{2}$ per pound delivered here, please send me -say 500 pounds-

Inclosed you will find a little Bill for some lumber to fence in Frank Steels grave, made out by Kurtz. I dislike to

My Darling — By Wells, Fargo
& Co's Express I send you \$220 — of
this amt., \$170 is on Merchandise
A/c, & the bal., \$50, is on private
Account. The Express charge is paid
on the whole amount —

The Schooner
left on yesterday. Her freight - Bill on
Merchandise was \$105.60 — on lumber
to inclose gave \$6.60. As the lumber
cost \$10.21, please sign & inclose to me
the within receipt for \$3.30, the amt. to
be paid by the Estate of ^{cont. of the} Mrs. Ames, as I have
given you credit for the whole lumber. I want
it for a voucher — Your 1/2 & 1/2 of freight - I will charge to you.

On looking at the back
side of the rat-proof store house, I find
that the earthquake cracked it near the
center from the top to within a foot of the

bottom. This I had not noticed at the time I
last wrote. Most of the way the creck
runs with the joints of the bricks, but in
several places the road was too crooked,
& it cut across the bricks. I tell you, that
earthquake was some! They are nearly
done. Now & then we have a young one
come straggling along, but no more full
grown.

I hope your Family is
back, & that you no longer dwell
in single blessedness.

Mr. Thos Whaley,

San Fr co

My Dr Sir - By Wells, Fargo & Co's Express I send you \$220 - & of this amt, \$170 is on merchandize A/C., & the bal, \$50, is on private account. The Express charge is paid on the whole amount.

The Schooner left on yesterday. Her freight Bill on merchandise was \$105.60- on lumber to inclose grave \$6.60. As the lumber cost \$10. 21, please sign & inclose to me the within receipt for \$3.30, the amt to be paid by the Estate of Mr. Ames, as I have given you credit for the cost of the whole lumber. I want it for a voucher- Your 1/3 & 1/3 of freight I will charge to you.

On looking at the back side of the rat proof store house, I find that the earthquake cracked it near the center from top to within a foot of the bottom. This I had not noticed at the time I last wrote. Most of the way the crack runs with the joints of the brick, but in several places the road was too crooked & it cut across the bricks. I tell you, that earthquake was some! They are nearly done. Now & then we have a young one come stragling along, but no more full grown.

I hope your family is back, & that you no longer dwell in single blessedness.

Most Truly &c

Mr. Thos. Whaley,

St. Senator of this morning, is rec^d - Hope
you will have a time in the County on the
4th - or rather hope you did - Also
presume the Franks Adams will be a
long in due time with the few tricks
on private life - Am much obliged
for the receipt - I neglected to include you
\$3.20, for Estate of Mr. Lewis share of

the neglect after mailing my letter.

We also had a time generally
on the 4th in the Plaza - ball &c
and more than that, a wedding and
ball on the 3^d, Josi M^{rs} Estarried
having made Luce Marrow an
honest woman, so far as the King
could do it. I suppose now they
will have a general Rodeo to
collect in from the mountains the

young ones, which by this time
must be pretty well grown & tolerable
branco.

Treat 400 lbs of China Sugar, which
was half leaves, old sacks - the sweeping of
some sugar house, I have sold at last
for \$5 per cent. Now you must try if you
can get the money lost on it back again. Acc-
~~identally I got sight of a ^{of cur} wood, ^{free}~~
by the lost schooner (Lewis Perry,) and
it was 1/4 below your invoice sent me by
same schooner - I speak of China - & the
sacks looked bright & fresh - yours looked
old. I visited the brick yard the other
day, & the rain played hole with the bricks -
the whole skin is washed from the out-
side, which I had been cautious not to
disturb, many of the bricks down &
the pile split open through the middle.

I shall not send you the A/es mentioned
in your letter (the one before this last,) as they
involve considerable copying, & as yet I have
not been able to accomplish it - hope to
send them by next steamer.

subject to future instructions. I have
no order, at present, to otherwise dispose

I send you two pictures through the
express - one of my father, (who died on the
20th of last May,) & one of a deceased
sister & her husband. I wish 4 copies made
of my father's picture, & the original re-set.
You will notice that the picture is in
a case which is too large. When I rec^d
it from the East, several years ago, I put
it in the case which now incloses it, myself.
You will notice some dust between the
glass & the picture, which should be
removed, if it can be done without
injury. I wish two copies made of the other
picture (my sister & husband,) & the original

re-set also, in a new case, as you
will notice that the case is injured.
I don't know anything about pictures,
but I suppose that the impression is so
slight, that when the glass is removed,
they should be handled with the utmost
care, or they will become defaced. In fact,
I don't know if the dust & lint can be
removed ^{without injury}. I am particular about these
as they are the only memorials of the kind
in existence of near & dear deceased
relatives. The express charge is paid on

Mrs Robinsons attitude

Recd Aug 11. 62

San Diego, Cal.,
July 24. 1862.

Mr. Thomas Whaley,
San Francisco.

Dying - In your letter
of June 25th, 1862, (rec^d July 2^d) you
say: "You can send me an account
"current of cash remitted on Store
"A/c. and private A/c., & goods received
"on Store A/c. and private A/c., by next
"steamer, and I will examine them and
"see how they compare with my accounts
"when I am more at leisure".

This task I have only been
able to accomplish to day, (& in a manner
too, peculiarly my own,) not on account
of the labor, or from having been occupied
with business of any kind, but for the
simple reason that most of the time I have
been "out of sorts," & did not "feel good" -
a humming & buzzing in my head, (an
old complaint increasing with my years.)

Troubling me so that I could confine
my mind to nothing.

In closed herewith you
will find the original entries of cash recei-
-ved & cash paid out on Merchandise
Ac/c, which I have cut from the Ac/c. Book.
Of these I have placed copies, the items in
which are numbered in pencil the same
as the originals which I send you, for the
purpose of facilitating response to any enquiry
you may make - I also inclose herewith a
Schedule of the Invoices, showing the different
amount of each, including cartage, &c which
is taken from my Invoice Book -

Inclosed to you with my letter
of the 27th of September, 1860, together with
the receipt for that year, was my Account
current down to that date, showing a bal^e
in my favor of \$41.50. Inclosed herewith
you will find my Ac/c. current on private
Ac/c., taking up that bal^e, & commencing
Sept. 28th, 1860, and ending July 22^d, 1862.
It is simply a copy of my Account Book,

addition, as I am a poor adder,
and there may be mistakes - in fact,
nothing more probable. An other thing.
More than a year ago I made the
astounding discovery that it was not
right for me to charge you expenses
- being on my own money sent you to purchase
things for myself. But as I had neglected,
when sending money, to discriminate for so
long a time between your money & my own,
I done as we generously do when we have
committed an error - continued on in
the same old way. Now this should be
attended to, and, if possible, the thing made
right between us. You will please look

Made a credit, and vice versa, for I do
awful things some times. When you get
it fixed up correct, you will advise me
of the alteration in the result, either of
debit or credit, so that I can make the
proper charge or credit on my book.
And, relative to the A/c generally, if you
see any thing which is not as it should
be - or if I have paid out money down
here which does not meet your approbation,
or otherwise, you will "speak your mind
right out in meeting", & the error shall
be corrected in a satisfactory manner
to both of us.

As to future shipments of
goods - I think you had better hold up a
little. I am satisfied that the stock I now
have on hand will last a long time at
cash sales. I am fearful I shall never
get shut of all this whiskey, bread, candles,
soap, beans &c. - And speaking of beans - they

receive beans at this place from San Ber-
=nardino and peddle them by the pound
for 7 cents. So hold up. The "Pounds" tobac-
=co is awful - old and dry and strong. The
"Golden Gate" is now selling here by Doxshoe
at 25 cents a plug, the same price you
paid for the article in San Francisco - but
he may have purchased some time since.
There is no trade here now, & no money. All
the money taken by Morse, Hollister, Doxshoe,
&c. is by the bit & two bits.

You did not send me the amt of
the freight bill you paid on goods sent to
me on private acc., & for Mrs. Robinson, by
the Franklin Adams. Please send it, so that
I can enter the proper credit.

Mrs. Robinson paid me
for the oil and lead, \$18.25 - I added, (which
is included in this amt) 75 cts. for freight, at
a guess. She also paid me \$12 for the \$14 bill,
saying that I overcharged her. If she had said
\$6 was sufficient, I should have taken it
without a word. I don't want her batteries.

everlastingly whining & complaining that
every body cheats her - like all widows, is
never satisfied, & it is not possible for any
body to satisfy her. - Confound widows! - I
do not like widows, old or young.

Last Saturday, in the evening, we
had quite a rain. The roof leaked in
several places, & the water would have
run down in the Store Room, but I
mustered all the vesely about the
premises, and caught it. I find, by
experience, that tar, no matter how
well put on, altho' it will keep out
the first rain that falls after it is
applied, yet so soon as the sun strikes
the roof after the rain, the tar will

and from what I have been told, I think,

Mr. Thomas Whaley,

San Francisco,

Dr. Sir- In your letter of June 25th, 1862, (recd- July 2d) you say: "You can send me an account "current of cash remitted on store "A/C and private A/c. & goods received "on store a/c and private a/c., by next "Steamer, and I will examine them and "see how they compare with my accounts "when I am more at leisure".

This task I have only been able to accomplish today, (& in a manner too, peculiarly my own,) not on account of the labor, or from having been occupied with business of any kind, but for the simple reason that most of the time I have been "out of sorts", & didn't "feel good"- a humming & buzzing in my head, (an old complaint increasing with my years,)troubling me so that I could confine my mind to nothing.

Inclosed herewith you will find the original entries of cash received & cash paid out on merchandise a/c., which I have cut from the a/c. Book. Of these I have saved copies, the items in which are numberes in pencil the same as the originals which I send you, for the purpose of facilitating responses to any enquiry you may make- I also inclose horewith a Schedule of the Invoices, showing the different amount of each, including cartage, &c which is taken from my Invoice Book-

Inclosed to you with my letter of the 27th of September, 1860, together with tax receipts for that year, was my account current down to that date, showing a bal in my hands of \$41.50. Inclosed herewith you will find my a/c current on private a/c, taking up that bal, & commencing Sept. 28th, 1860 and ending July 22d, 1862/ It is simply a copy of my account Book, with the crasures, interlineations, and marginal memorandums for

for explanations. The footings in pencil to the left of the columns, as well as the sum total of debit & credit, is the addition, from time to time in the book, and not from any addition of the account after it was drawn off. I mention this to call your attention to the addition, as I am a poor adder, and there may be mistakes- in fact, nothing more probable. An other thing. more than a year ago I made the astounding discovery that it was not right for me to charge you express commissions on my own money sent you to purchase things for myself. But as I had neglected, when sending money, to discriminate for so long a time between your money and my own, I done as we generally do when we have committed an error- continued on in the same old way. Now this should be attended to, and if possible, the thing made right between us. You will please look carefully through the a/c., & see that I have not charged where I should have made a credit, and vice versa, for I do awful things sometimes. When you get it fixed up correct, you will advise me of the alteration in the result, either of debit or credit, so that I can make the proper charge or credit on my book. And, relative to the A/c generally, if you see anything which is not as it should be- or if I have paid out money down here which does not meet your approbation, or otherwise, you will "speak your mind right out in meeting," & the error shall be corrected in a satisfactory manner to both of us.

As to future shipments of goods- I think you had better hold up a little. I am satisfied that the stock I now have on hand will last a long time at cash sales. I am fearful I shall never get shut of all this whiskey, bread, candles, soap, beans &c- And speaking of beans- they receive beans at this place from San Bernardino and peddle them by the pound for 7 cents. So hold up. The "Roanoke" tobacco is awful- old and dry and strong. The "Golden Gate" is now selling here by Donohue at 25 cent

the same price you paid for the article in San Francisco- but he may have purchased some time since. There is no trade here now, & no money. All the money taken by Morse, Hollister, Donchoe &c. is by the bit & two bits.

You did not send me the amt of the freight bill you paid on goods sent to me on private a/c., & for Mrs. Robinson, by the Franklin Adams. Please send it, so that I can enter the proper credit.

Mrs. Robinson paid me for the oil and lead, \$18.25- I added, (which is included in this am't) 75 cts. for freight, at a guess. She also paid me \$12 for the \$14 bill saying that I over-charged her. If she had said \$6 was sufficient, I should have taken it without a word. I don't want her batterics, opened on me, for when she talks she is neither choice in her language or particular what she says. Like all widows, she is everlastingly whining & complaining that everybody cheats her- like all widows, is never satisfied & it is not possible for anybody to satisfy her.- Confound Widows! - I don't like widows, old or young.

Last Saturday, in the evening, we had quite a rain. The roof leaked in several places & the water would have ran down in the Store Room, but I mustered all the vessels about the premises, and caught it. I find, by experience, that tar, no matter how well put on, altho' it will keep out the first rain that falls after it is applied, yet so soon as the sun strikes the roof after the rain, the tar will crack. From what I have seen myself, and from what I have been told, I think, in the situation the roof is in now, the cheapest and best plan to repair it, will be to get from San Pedro a Ball of aspalum, or Bray, (I don't know how either word is spelled) and apply it to the cracks. It is easily used, and by having it on hand, it could be used, a little at a time, as wanted. What

do you say to it?

With respects to your family, I Remain Yours

Truly &c-

Mr. T. Whaley,

My Dear Sir — For the last two
mails, (the last mail arrived last
evening,) I've been looking sporadically
for a letter from you under the expecta-
-tion that I should hear that the St. M's
-paper in your hands has been paid,
-as I heard that they pay all that is pre-
-sented which was issued previous to April.
-But you get the small bill of
two.

The letter & paper accompanying
this failed to get off last mail, for
the reason that accidentally it got covered
up on Mr. Morse's desk, & was not noticed
until after the departure of the mail.
I now open it for the purpose of enclosing
this. I also send you through W. F. L. Co.
an other \$100 (exp. charge paid,) which
you will give me credit for on
March and give A/E —

Upon second thought, if you should
be so fortunate as to finger that money
on the 5th W^m paper in your hands,
you will retain it subject to further
advice, & in the mean time give me
a little statement, not of the gross amt.,
but of the sum in your hands due
to each individual upon each claim,
after making a fair deduction of
commissions in collecting, annuity &c
&c. &c., which I am willing should
be liberal, & by that I do not mean
that you are to pocket half the
amt. collected -

Why don't you
write occasionally?

Yours Truly

St. Louis, Mo.,
Sept. 11. 1862.

Mr. Geo. Whaley,
St. Louis, Mo.

My Dear Sir -

Through 20.75.

I Co's Express I send you two hundred
and thirty (\$230.) to be applied
on my merchandise A/c. The Express
charge is paid.

I sell nothing but
sugar (China No 1.) whiskey & flour.
The balance of the groceries, of every
description, I have on hand
where they are likely to remain for
some time.

Last winter I got some
China sugar (not in a storm at
the place). This I've had to dispose
of below cost & charges.

As yet I have plenty
of whiskey, flour & sugar for a

long time. As you suggest, relative
to the steamer, I rather like your
discontinuation, if any thing, of
her trips. As yet they are all
pretty well supplied with staple
articles, but if the sail vessels
will hold off for a month
or so longer I think I may make
some sales.

Most Truly Yours &c

Mr. Whaley,

Yours of 5th ^{inst} is rec^d - yesterday.
The pay life you
speak of, belonging to Wetherly, you
had better let Maj. Wood send to
see the officer, as W. rec^d only one
life. He (W.) rec^d them ^{life} from Gager.
What could you expect of a Pa. Dutch-
man but blunders, - & W. is not
much better.

You are safe enough with
Stone, as a matter of course. He is now
pounding with Morse, wanting his draft
back, (most probably by this time
in N. Y.,) as he is not willing to stand
the 15 per cent. discount. M. says S. told
him to sell at market prices - S. says
he did 'nt. - So they have it - a question of veracity.

The money in your hands
(McLean and Dist.,) in your hands, belonging
to the Advisors, please inclose to me
with a statement showing the amt. collected

belonging to each of the brothers, & then
but deduct for Commissions for collecting
which remain. The other papers I will send
you as soon as I can get Aff'd as you
directed. me -

You speak of sending
more Flour, sugar, Whiskey &c. Every
body will go to the Mines, have
more & me, & I have as much
on hand as I can sell -

Mr. Tho^s Wholey,
San Fran^{co} -

Dear Sir - On the evening
of the 16th instant I received some safe
as a nut, & found before me five letters from
you (including the one rec^d - this day before
I left,) and I will refer to them, as far as is
necessary, in the order of their dates.

Sept. 13. The Bill of L. enclosed was rec^d,
& the goods by the Perry were found correct,
with the exception of one case of Lard, which
was not to be found - a large case - therefore
you will see about it when you settle Freight
bill - The articles sent on private A/c are rec^d -
& I have given you credit in private A/c of \$15.50
therefor - I have put on the Aspathum, & think it
will do.

Sept. 16. Invoice rec^d - Don't ship any
more Syrup, hard bread, Whiskey, soap or
Candles or Glower - I have enough to last,
from present prospects, until next Fall.
If I could only sell one half of these articles

now on hand, even at a small profit, I should make a Smart fortune for both of us. Of tobacco I have 3 or 4 cwt pounds. HAcus on hand, before last receipt, about 100 cwt - You done right in not sending Belknaps practice Act. You say: "You charge me with the Out-freight paid on the first invoice received which should have been charged to Merch^{ts} - A/c." Be a little more explicit - about this, I say what figures will correct the error - also as to Steel's tomb stone. "These are oversights." Very well. Say explicitly what is to be done to correct the errors. By next mail I will send you the "quantity of packages of the various articles on hand", as you desire, & the number will astonish you - Glad you did not send any more whiskey by the Perry - it would, indeed, have "looked like pushing the thing". Newspaper rec^d -

Sept. 20. I don't know about thing improving with me. The town is dull. All are trying to sell goods, & some sell lower than formerly. Those Colorado Mines have girdled - amount to nothing. I did not

respects, as desired -

Sept. 26. The \$1,210, belonging to
the Warnock & C. S. W. was rec^d by the
mail on yesterday, & was just as well
as the sent for our land - I've paid
a portion of it to them & they have commenced
scattering it - Before this you have rec^d
the J. W.'s A/c with Aff^s attached.
As you collect, please remit, with a
statement. C. S. W. tells me he has sent you
the duplicate of his other A/c. - If you

Have given Maj. Wood, the Counterpart,
why I suppose he is yet in "Frisco". As
to Stone's \$140, if you refuse, then we will
make Stone come out - I will make
enquiry after your Par. & Family. Rec^d.
Bulletins, for which I am obliged -

Oct. 4. As I have stated, I received
the demand notes - Glad to hear you
are nearly recovered

Inclosed herewith you will find an
other batch of vouchers belonging to Withby - collect

I send you through W. F. & Co., (Express
charge paid,) One Hundred & Forty dollars, &
inclose you herewith forty dollars in demand
notes, making in the aggregate One Hundred
& Eighty dollars, for which give me credit
on Merchandise A/c. I had to take these
notes at the face, or fall out, for debtly due.
Most people down here are glad to take
them for debts now due -

Sept. 26. The \$1. 210 , belonging to the Warnocks & O.S. W. was recd - b the mail on yesterday, & was just as well as the sent pr overland - I've paid a portion of it to them & they have commenced scattering it - Before this you have rec_d the Qr Mr's A/Cs with Ass_ts attached - As you collect, please remit, with a statement. O.S. W. (Oliver Witherby) tells me he has sent you the duplicate of his other A/C. If you have given Maj. Woods the counterpart, why I suppose he is yet in 'Frisco. As to Stone's \$140, if you refund, then we will make Stone come out - I will make enquiry after your Bro & family - Rec_d Bulletins, for which I am obliged.

Oct. 4. As I have stated, I received the demand notes - Glad to hear you are nearly recovered

Inclosed herewith you will find an other batch of vouchers belonging to Witherby - collect & remit -

I send you through W.F. & Co., (Express charge paid), One hundred & forty dollars, & inclose you herewith forty dollars in demand notes, making in the aggregate One hundred &

& eighty Dollars. for which give me credit on merchandise A/C. I had to take these notes at the face, or fall out, for debts due. Most people down here are glad to take them for debts now due.-

With respects to Mrs. W. & love to the young ones, & kind wishes for your improving health I remain

Yours &c A.S. Ensworth

not have enumerated them with precise accuracy. Of course the foregoing list does not embrace a single article rec- by the Lewis Perry - I mean not a single article of the last shipment by her, all of which is on hand. Merchandising appears to have dried up considerably, for with the exception of a Bill of about \$238 sold to Duffator on a credit on yesterday, I have not sold a dollar, to my recollection now, for the last ten days - What do you think of this?

For Heaven's sake don't ship me any more Beans. I have never been able to sell for cost in Florida. They are selling here now for 6 cts. They come from San Juan & San Bernardino, where they can now be purchased for 2 cts!

I have fixed the roof, & I think it will stand. Last Sunday we had the first rain of the season & it leaked none. I moved all the goods which

San Juan

would become damaged by being
wetted, into the rat-proof house - this
some time before the Aspathum reached
here, (in anticipation of rain.) I had
to buy a bucket of lime to make mortar
in order to plaster under the roof
of the rat-proof house to keep the
rats out. I think I have succeeded
in getting rid of them. I have 9 cats
to stand guard around the house

Hoping you have

best wishes for the health of

My Dearest,

Yours in pencil, of the 4th inst., is rec^d. I trust that by this time you are well & sound, & nearly ready to carry out your intention of visiting us. Why not come down & look around? Come down - come down. I left home rather unexpectedly, as we did not surmise that the Senator would be in - left on Saturday evening last arrived here last evening. (By the by, when I arrived I was the best pleased man in San Diego, when I found that she bro^t me no shipment of either candles, soap, sugar or hard bread.) I am on my way up to Santa Barbara on business for Lorenzo Soto, and expect to return on the return trip of Senator - had to get off here to meet Soto whom I expect in the stage from S. What you say about J. M. C. appears to be all right. You say "send all the cash you can" - the cash this time is not Capt. Morton has returned the missing cash of land. By train I send you a dictionary, & a book

in a candle box, for re-binding. The instructions
you will find in the box. I also send by Morton
a pipe, packed in a cigar box, for you to
get a stem for it - not a long one, but one,
say 13, 14 or 15 inches long, with a good sized
Amber mouth piece. The pipe was sent to

I am sorry to say that I have no money to remit, either on merchandise A/c or otherwise. Having paid your taxes, I will remit receipts in next letter.

When in Los Angeles, I saw Henry Suvercroop, formerly residing in San Diego, & he informed me that Henry was doing quite well- had a shop & house paid for- had quite a nice house & grounds- was doing a moderate business in the saddlery line --had five children one of which is only about 2 months old now.

Am glad to hear that you will soon be around, as well as that the little Whaleys are increasing- My regards to Mrs. W.

That Sandwich Island business is no good- too hot for pleasure- I've tried it. Come down here & you will be well as soon as you get a snuff of the air from Point Lomo.

Yours Truly &c.

Mr. Thos. Whaley,
Dr. Sirs-

I arrived home today on the Steamer, safe and sound, & find 82 pks of merchandise (as the clerk of St. informs me) now landing. I have rec'd no letter or invoice. By this mail, (Express pr Steamer,) I am also in receipt of your letter of the 14th instant, advising me of the remittance of \$250 in demand notes for Witherby, which are also received. I am sorry to say that I have no money to remit, either on merchandise A/c or otherwise. Having paid your taxes, I will remit receipts in next letter.

Sunday Morning

Mr. Whaley,

My Dear Sir —

I do not generally write letters on Sunday, but as the mail arrived late on yesterday I must do so now.

I am sorry to hear of your continued sickness, but pleased to hear that you are improving, & are much better than represented by Capt. Du Plois, who arrived here a few days since in the Carib on his way below for salt, he having derived his information of your health from Mr. Ravnock. Try & get well enough to embark on the Senator & come down, & enjoy yourself & recuperate.

I was mistaken in saying that I rec^d the \$1200 tender notes by mail — I rec^d them by express. The Price of the sea is in the offing & will be in to day, I presume. I have credited you on private a/c \$1.50 for Thermometers. Pay yourself, as you propose,

out of Warnock's money when collected,
for the things purchased for him. I under-
stand that after the 1st proximo it
will be necessary to place U.S. Stamps
on all original writs issuing out of our
State Courts, therefore do me the favor
to send me some stamps for that purpose.
I enclose herewith please find to/

receipts for 1862, (on your real estate
& Mrs. Whaley's,) amounting to \$32.67,
which I paid out of Merchandise money
& charged the same to you as so much
money sent you on Merch^{an} - C/P.

I can send you no money on Mer-
chandise C/P or otherwise. I am not
quite a \$100 & therefore do not send.
I tell you, that so far as money
is concerned in this County, the
thing is about dried up.

Mrs. Clayton died the
other day in Los Angeles, of small
pox, where she had gone to attend
to some business - My regards to Mrs. Whaley -
Truly Yours

Mr. Thomas Whaley,
San Francisco,

Dr. Sir — Yours of the 24th —
inst., together with paper & dictionary, reached
me this morning, & on a/c of which I have given
you credit in our private a/c of \$15.50.

Upon the arrival of the Senator I was
somewhat disappointed in not finding
you on board, but am pleased to hear
that you are so far recovered as to be
about, & will probably visit us soon.

You ask for money, & I wish it was in
my power to comply with your wishes, but it
is not. There is owing for merchandise some four
or five hundred dollars from Bouty, Lospen,
Mannose & Co., but as yet I am unable to
get it in. Of late I have sold nothing, altho'
I offer flour at \$2 a bag (others selling on a
credit — at a risk, for \$2.50,) & sugar
at \$13 cent — others credit at \$14. I had
rather see the goods here than credit they

county that has a dollar unless he brings a
hick in town & sells it. How then can we
expect to realize for what they sell I can't
see. I send you \$100 on Merchants A/c
& \$60 on private A/c, (if pers charge paid, through
W. F. & Co. I also inclose you herewith \$30 in green

A/c for the amt realized, advising me of
the same. I think this committee will rather
over-pay my private A/c; even including the
\$25 for steel's grain stones which I have not
even yet credited you with, altho' I should
have done so before. I can't see yet how
that error of mine occurred.

Please send me

two Christian Almanacs for 1863; & by the bye, when
you come down, bring all the papers appertaining to

may answer for reference in solution of doubt. I still
