From J. B. Bell, M. D., Lowell, Ma., June 23,  
1872:

I am at present engaged in practicing  
my profession as physician and surgeon.  
I take pleasure in recommending your  
valuable Bitters, and have used them in  
my own family in cases of indigestion  
and debility, with marked benefit.

From George W. Brooks, New York, October  
1, 1875:

Your Bitters sold very well here last  
year, as there was a great deal of inter-  
mittent fever.

### Spiced Apples.

8 lbs apples pared, 4 lbs sugar, 1 qu-  
art vinegar, 1 ounce stick cinnamon,  
1/2 ounce cloves. Boil the sugar, vine-  
gar, and spices together; put in  
the apples when boiling, and let  
them remain until tender; take  
them out and put in a jar, and  
boil down the syrup until thick,  
and pour it over, have your  
jars air tight.

#### Medicine in Vegetables

Spinach has a direct effect upon the  
kidneys. A common dandelion used as  
greens is excellent for the same trouble.  
Asparagus purges the blood. Celery acts  
admirably upon the nervous system and  
is a cure for rheumatism and neuralgia.  
Tomatoes act upon the liver. Beets and  
turnips are excellent appetizers. Lettuce  
and cucumbers are cooling in their ef-  
fects upon the system. Onions, garlic,  
leeks, olives and shallots, all of which  
are similar, possesses medicinal virtue  
of a marked character, stimulating the  
circulatory system, and the consequent  
increase in the saliva and the gastric  
juice promoting digestion. Red onions  
are an excellent diuretic, and the white  
ones are recommended to be eaten raw  
as a remedy for insomnia. A soup made  
from onions is regarded by the French  
as an excellent restorative in debility of  
the digestive organs.

TO MAKE GRAHAM BREAD.—Set the sponge to rise over night, using milk instead of water, and adding, for every three quarts of flour, a cup of molasses. In the morning add a little salt, and enough flour to make a dough just thick enough not to be moulded. Put in baking tins to rise, and when light bake in a moderate oven. Do not mould it at all. Rye bread and Graham bread should be made soft; moulding spoils the bread, making it hard, dry and chippy.

Chocolateicing for Cakes

1 Egg, 1 Tablespoon chocolate, 1/2 white sugar.

Beat the egg - put in chocolate and sugar, mix all together.

Spread on the cake when baked, and not, and let it cool dry.

### Best Receipt for Cooks.

To make a match. First catch a young gentleman and lady - let the young gentleman be rather raw and the young lady be quite tender. Place them side by side at the dinner-table pour into the young gentleman a good quantity of wine, when you think he is well soaked and perceive he is getting red in the gills, remove them to the drawing-room and seat him close by the lady that they may rusticate at least four or five hours upon which drench them well with green tea, then place him at the piano and blow the flame till the lady sings. Upon hearing the gentleman sigh: take them off, they are warm enough. Put them by themselves in a corner of the room, or on a sofa allowing them to snuggle together for the rest of the evening. Repeat the above three or four times, always taking care to place them side by side at the dinner-table, when they will be ready, at any time for marriage. After marriage great care must be taken as they are apt to turn sour.

too good a soldier to refuse to obey a lawful order, although they admitted that he might have, as he did today, through Inspector General Hughes, a member of his staff, suggest the propriety of an increase in the number and a betterment of the quality of the soldiers to be assigned to his command.

#### THE UNLUCKY WINSLOW.

Reports received here from Key West show that the condition of the little torpedo boat Winslow is much worse than was supposed, and that it will be necessary, in all probability, to have her come to Norfolk for repairs. One shell smashed her low-pressure starboard cylinder, and another traversed one of her boilers. It would be possible to get along under one boiler and reduce the starboard engine from a quadruple to a triple expansion, but the efficiency of the boat would be very much lowered thereby.

The volunteer army is rapidly nearing completion. Reports received by Adjt.-Gen. Corbin show that 92,580 men have been mustered in. Eighteen states have completed their quota.

Gen. Miles, commanding the army, said today that it was not the intention of the president to call for an additional number of volunteers at this time. He said that such a call would be premature, in that little over 80,000 of those troops already called for, have been mustered into service.

in Sept. 74

The following is a recipe given me  
by Mary Gibb who has passed  
through the ordeal —

Procure two large nutmegs, roast them  
well in the oven - but not so much  
as to destroy their flavor - grate them  
put them in a pint of Port Wine -  
Take a wineglass full once or twice a  
day - morning and evening - when  
free from fever -

Mrs. Oke says you will find strength  
coming, and prevent flowing -  
She also recommends you to drink  
plenty of beef Tea -

I believe the beef tea you will find  
very beneficial - and probably the  
nutmeg & port wine will be good for  
you too - but not so much as a  
wineglass full at a time - You might  
take a less quantity and more frequently.  
Consult your Doctor in regard to this.
