Developers for Use With SEED PLATES.

The purity of Seed's Sodas and their value in giving uniform results are now so universally recognized by workmen of high class, that we take developers made up with them as standards.

Sodas in crystals may be substituted for Seed's Sodas in these formulas by using twice the weight given here.

Pure water should be used in making solutions and for diluting. Boil and filter river water.

Use same Hydrometer Test for either Seed's or Crystal Sodas.

The ounce avoirdupois 437½ grains, is the one used in these formulas.

Pyro.

By Weight

Pure Water	16oz.
A Pyro	1 oz.
Oxalic Acid.....	10 gr.
B Pure Water	16 oz.
Seed's C. P. Sulphite of Soda	2 oz.
C Pure Water	16 oz.
Seed's C, P. Carbonate of Soda	2 oz.

USE {

 B..... 1 oz.
 C..... 1 oz.
 Pure Water, 7 oz.

By Hydrometer Test

Pure Water	16oz.
A Pyro	1 oz.
Oxalic Acid.....	10gr.
B Seed's Sulphite of Soda	Solution Test 60°
C Seed's Carbonate of Soda	Solution Test 50°

USE {
 A..... 1 oz.
 B..... 1 oz.
 C..... 1 oz.
 Pure Water, 7 oz.

In very cold dark rooms use 5 oz. of water. In hot weather use 10 oz. of water. For double coated plates use 18 oz. of water.

If negatives are weak and thin, time longer and use less water.

¼ oz. of B will give a warmer tone to the negative. The best printers have a warm brownish black color. If negatives are too yellow or the shadows show the slightest stain, not due to discolored fixing bath, use 1¼ oz. of B.

Sulphite of Soda in solution does not keep well. Solutions over one month old should not be expected to be full strength if not made with pure water and kept in well stoppered bottles.

*Hydrometers are seldom accurate. For exact work each operator should ascertain the reading of his Hydrometer by making up the solutions by weight. If Crystal Sodas are used in making the test, select clear crystals free from powder.

Eikonogen-Hydrochinon.

By Weight

Pure wa er.....	48 oz.
A Seed's C. P. Sulphite of Soda	2 oz.
Eikonogen	240 gr.

By Hydrometer Test

Seed's C. P. Sulphite of Soda	Solution Test 20°	48 oz.

 B Seed's C. P. Carbonate of Soda 2 oz.

USE { A.....3 oz.
 { B.....1 oz.

hydrochinon.....60 gr.
 B Seed's Carbonate of Soda
 Solution Test 50°

USE { A.....3 oz.
 { B.....1 oz.

For double coated plates add 4 oz. of water. Use more water in hot weather.

*If more concentrated developer is desired in order to secure more contrast, the water in solution A may be reduced to 32 oz. Dissolve Elkonogen in boiling water. In cold weather a little glycerine could be added to prevent precipitation.

Metol-Hydrochinon.

By Weight

Pure Water.....64 oz.
 A Metol.....120 gr.
 A Hydrochinon.....120 gr.
 Seed's C. P. Sulphite of Soda 2 oz.

B Pure Water.....16 oz.
 B Seed's C. P. Carbonate of Soda 2 oz.

USE { A.....4 oz.
 { B.....1 oz.
 { Pure Water, 4 oz.

By Hydrometer Test

Pure Water.....48 oz.
 A Metol.....120 gr.
 A Hydrochinon.....120 gr.
 Seed's Sulphite of Soda Solution
 Test 60°.....16 oz.

B Seed's Carbonate of
 Soda Solution Test 50°

USE { A.....4 oz.
 { B.....1 oz.
 { Pure Water, 4 oz.

*Dissolve in the order given. Metol should always be dissolved in water before the Sulphite is added, or before it is mixed with Sulphite solution, otherwise it may precipitate. If crystal Sodas are used add 15 gr. Potassium Bromide to 16 oz. of B Solution.

Plain Fixing Bath.

Hypo.....4 oz. | HYDROMETER TEST 70°
 Pure Water.....16 oz.

Do not use a discolored bath. Plates should be left in fixing bath at least double the time it takes whiteness to disappear. This bath must be made fresh every day.

Acid Fixing Bath.

By Weight.

Pure Water.....96 oz.
 A Hypo.....2 lbs.
 Seed's C. P. Sulphite of Soda 2 oz.

B Pure Water.....32 oz.
 B Chrome Alum.....2 oz.
 B Sulphuric Acid C. P.....½ oz.

By Hydrometer Test.

Hypo Test 80°.....100 oz.
 A Seed's Sulphite of Soda Solu-
 tion Test 60°.....16 oz.

B Chrome Alum Test 20°.....32 oz.
 B Sulphuric Acid C. P.....½ oz.

Be sure that the ingredients are thoroughly dissolved, then pour B into A slowly while stirring A rapidly. This bath remains clear and fixes clean after long continued use, but should be replaced as soon as it becomes exhausted. Never attempt to restore a spent bath by adding more hypo. Plates should be left in Fixing Bath at least double the time it takes whiteness to disappear.

If negatives remain 20 to 30 minutes in this bath, the film will become much hardened. This is a great advantage in summer when washing often softens the film. In hot weather fresh fixing baths should be made up more frequently. By fixing longer, less washing will suffice; 15 minutes in running water is enough if plates have been 30 minutes in a fresh, quick working fixing bath.

OFFICE OF

SAN DIEGO WATER CO.

SAN DIEGO, CALIFORNIA, January 29, 1894.

To Water Consumers:

As no ordinance was passed by the Common Council of the City fixing rates to be charged for water for the present year, the Water Company will be obliged to fix its own water rates for the year ending June 30, 1894, and until an ordinance fixing rates is adopted and takes effect.

In fixing the rates to be charged the Company desires to charge no more than is reasonable and just. It will endeavor not to do as it has been done by and fix the rates so high as to recover some of the money it has been compelled to lose year after year by the fixing of rates, by the Common Council, so unreasonably low that it has not only been unable to realize any profit on its investment but has been unable to meet its annual expenses and charges.

The ordinance for the years 1890 and 1891 has been declared void by the Superior Court because the rates were unreasonably low and oppressive. All of the ordinances enacted since have fixed the rates still lower, although the plant of the Company has been extended at an expense to it of over a hundred thousand dollars.

It has, therefore, been thought fair to consumers to charge, for the balance of the present year, the rates fixed for the year 1889, which were as low as water can be furnished without actual loss to the Company. You are, therefore, notified that from this time on until the 30th day of June, 1894, you will be charged for water taken by you, according to the rates fixed by the ordinance adopted in February, 1889.

SAN DIEGO WATER CO.,

NEW YORK OFFICE AND DEPOT,

No. 263 BROADWAY.

The Aldine Company Print, 27 Liberty Street, N. Y.

THE GOODS MANUFACTURED BY THE
American Fusee Company

COME UNDER THREE VARIETIES:

1st. The American Safety Parlor Fusees are for general domestic use, and to take the place of the dangerous Parlor and Friction Matches.

The Safety Parlor Fusees are, by practical tests with so-called Safety Matches, acknowledged to be the only perfect Safety Match made in the world.

The Company furnishes Striking Tablets, to be hung in convenient places about the house or building, and also Pocket Tablets for outdoor use, and will soon be ready to furnish elegant Match Safes made expressly for the Safety Matches manufactured by them.

2d. The American Fusees (OR SMOKERS), are intended for general outdoor use. They give a slow brilliant flame inextinguishable in wind or rain.

3d. The Headlight Fusees are larger than the American Fusees and are indispensable for railroad service. They are adopted by several railroads, and never fail to give the utmost satisfaction.

When using the American or Headlight Fusees, light your cigar, lantern, or whatever you wish, while the black preparation is burning.

Only a very slight friction is required to ignite the Fusee.

WHAT THE FIRE MARSHAL OF NEW YORK SAYS OF FIRES AND SAFETY MATCHES:

N. Y. Fire Marshal's Report, April 4th, 1873.

The number of Fires caused by the careless use of Lights, MATCHES, Cigars, Pipes, &c., Children playing with Matches, Hats and Mice gnawing Matches . . . is deserving of attention. Many of these fires are caused by the careless manner in which Matches are used by workmen, who carry them loose in their pockets, oftentimes dropping them among shavings, paper or other materials easy to ignite; also upon stable floors amongst the straw. These stray Matches are ignited by being stepped upon, or by friction, when throwing shavings down a chute (as was the case at Serrall's Sash and Blind Factory, Fifty-third Street and Broadway). So also the general neglect on the part of housekeepers and servants to take proper care of Matches, is a fruitful source of fires. Parlor Matches are especially dangerous, being easily ignited from concussion, or by stepping upon them.

THE ONLY WAY OF PREVENTING FIRES OF THIS CHARACTER IS BY THE GENERAL ADOPTION OF A SAFETY MATCH, WHICH WILL IGNITE ONLY BY BEING RUBBED UPON THE CHEMICAL PREPARATION WHICH IS ATTACHED TO EACH BOX, OR UPON FRICTION PLATES ACCOMPANYING THEM, WHICH CAN BE PERMANENTLY FASTENED IN CONVENIENT PLACES ABOUT THE HOUSE.* Matches of this description are much used in England, and have lately been introduced into this city. THESE MATCHES APPEAR TO BE PERFECTLY SAFE.

N. Y. Fire Marshal's Report, April 4th, 1873.

The number of Fires which occurred from the careless use of Matches, Cigars, Pipes, &c., Children playing with Matches, Gas Lights setting fire to windows and curtains, Hot Stills from stoves, Spontaneous Combustion . . . Hats and Mice gnawing Matches, amount in number to 1,125 last year, or per cent. of the total number. These are causes which are subject to control; and an intelligent use and management of such things as are above alluded to, and the exercise of proper caution by each individual, would very materially lessen the number of fires from these causes.

FIRES CAUSED BY THE CARELESS USE OF COMMON MATCHES, &c., IN NEW YORK.

For year and five months, ended April 4th, 1873:

Total fires	1,200
Carelessness of occupants and employees; use of Matches, &c.; Children playing with Matches; accidental ignition of Matches	529

* This strong recommendation by the Fire Marshal of New York, is entirely met by using the American Fusee Company's Matches and Friction Tablets.

TESTIMONIALS.

New York Board of Fire Underwriters,

Rooms 156 and 158 Broadway,

NEW YORK, February 25th, 1875.

Report of the Committee on Patents, adopted by the Board,
January 24, 1875:

"That the Committee has examined the Match known as the American Fusee Match, and they report it as being, in their judgment, the safest Match yet produced."

Wm. W. HENSILAW, Secretary.

N. Y. F. & F. C.

HARTFORD, February 27th, 1875.

We, the undersigned, as officers of the several Insurance companies of Hartford, Connecticut, having made careful examination of the "American Safety Parlor Fusee," (a safety match) manufactured by the American Fusee Company, Erie, Pennsylvania, respectfully recommend their adoption and use, not only by families but by the manufactories, hotels, and business houses of the community, believing them to be much safer than the ordinary matches, and that any destructive fires may be prevented by their general adoption by the public.

H. GOODNOW, Secretary Ethna Insurance Company of Hartford, Conn.

D. BROWN, Secretary Hartford Fire Insurance Company, Conn.

W. C. SKILLION, Secretary Phoenix Insurance Company, Hartford, Conn.

M. BENNETT, Jr., President Connecticut Fire Insurance Company, Hartford, Conn.

J. A. NICHOLS, Secretary National Fire Insurance Company, Hartford, Conn.

GEO. W. LESTER, Secretary Orient Insurance Company, Hartford, Conn.

E. B. BRINTON, Secretary Atlas Insurance Company, Hartford, Conn.

C. C. HALL, General Agent Insurance Company North America, Philadelphia.

The goods manufactured by the American Fusee Company have also the unanimous endorsement of the Fire Underwriters of Boston, St. Louis, Chicago, Cincinnati, Louisville, Indianapolis, Buffalo, and other leading cities.

"DOMESTIC" PAPER FASHIONS.

Comprise a large and varied assortment of Patterns for Ladies', Misses', and Children's Garments, of foreign and domestic designs, by the most accomplished Modistes. They are the most perfect fitting, most elaborate, and yet the most simple patterns ever presented to the Public, and take the lead wherever introduced.

Each Fashion is encased in an envelope with printed directions for its use, (so simple as to be readily understood by the most inexperienced), accompanied with a large illustration showing the garment made up.

For the convenience of those residing at points where we have no Agent, Illustrated Catalogues will be sent free on receipt of stamp for return postage, and any Fashions selected forwarded by mail on receipt of the price.

Liberal terms to Agents.

The great number of frauds committed by raising the amounts of checks and other vouchers of value by removing the original writing and filling in larger sums, has suggested the necessity of some means of preventing such consequences.

The National Safety Paper has been thoroughly tested by eminent chemists and experts, and pronounced

A PERFECT SECURITY AGAINST FRAUDULENT ALTERATIONS.

For Checks, Drafts, Notes, Exchanges, Certificates of Deposit, Letters of Credit, Bonds, Legal Documents, and all written evidences of value, this invention affords a protection that cannot be overestimated.

This is *entirely a new and beautiful style* of paper, of which the *surface only* is colored, during the process of manufacture, with a combination of **WRITING INKS**, and is so sensitive that any attempt to remove the writing by *Erasure*, or by *Chemical Agents*, will destroy the tint, and at once expose the effort at fraud.

By a new process the ground-work is made highly ornamental, and greatly improves the appearance of any document printed upon it.

For a full description of this paper, see *The Banker's Magazine* for March, 1873.

NATIONAL SAFETY PAPER,

A SECURITY AGAINST ALTERATION.

Among the many endorsements which have been received, the following, from Professor Ehrhardt, who has experimented very extensively by direction of several of our most important Banking Institutions, is appended.

MANHATTAN CHEMICAL AND ASSAY WORKS.

No. 1-1 Pearl St. and 1 Cedar St., New York.

I Hereby Certify, That the following is the Analysis and Result of Experiments with Samples of the "National Safety Paper" for the purpose of finding whether writing can be obliterated without injury to the paper.

Delivered to me by Messrs. J. Q. Preble & Co.

No. 1342. ANALYSIS AND RESULT.

This Paper is tinted with a light shade of ink, and, by a peculiar process of rollers, dark lines or patterns are produced. It is absolutely impossible to take out the writing without at the same time also destroying the color of the paper, and the color once changed, I do not believe it possible to restore it; it could certainly not be done by tinting or painting with a brush or pencil, as the peculiarities of the tint, and especially the dark lines, are such that they cannot be imitated. I have experimented in every possible way, and with all known agents and means, and am satisfied that this paper is safe for all purposes where precaution is necessary.

Dear Sir:

You are an entire stranger to me, yet I take the liberty to address you on an important subject, which I trust will be kept confidential, should my proposition be accepted or not.

No doubt you have been the recipient of numerous letters in relation to the same matter, which on thorough investigation were found to be unreliable. The method employed by the writers of aforesaid letters has been a source of great annoyance and expense to me, as I have Agents in several States who find it utterly impossible to find trustworthy men to act as Sub-Agents for my line of goods, simply because they have been victims of Fraud and Deceit, practiced upon them by unscrupulous men, who claim to have for sale that which they have not. How they manage to induce men of common sense to invest their money on the representations that they can furnish them with an article fully equal to the Original at the ridiculously low figure of ten per cent. on the dollar, and sometimes as low as five per cent. is something I cannot understand.

If one would stop to think and calculate on the cost of Machinery, Engraving, Manufacture of paper and numerous other items for the making of a Duplicate, how easily it could be perceived that the representations made by this class of men were fraudulent on their face.

I have a duplicate which has withstood a test that thoroughly convinces me of its worth (see New York Sun, April 26, 1891), and to accomplish this end I have spent years of labor and spared no expense, and I can conscientiously say that it has never yet been refused when tendered in payment of debts, or as a deposit in banking houses. I have no newspaper clipping printed praising its qualities to convince you of its excellence, though to my personal knowledge it has never been rejected by experts, nor have I ever heard of one being detected, or looked upon suspiciously, since I first put them in circulation.

Now my dear sir, if you think you have sufficient nerve to handle the goods to advantage and have no conscientious scruples as to how you obtain Wealth, so long as it will not injure yourself, your family or neighbors, but will rather place you and your family in a position beyond want or the bitter privations of life in after years, I will, on receipt of a telegram from you, present documentary evidence that will convince you beyond any possible doubt that I am all that I claim and that my goods cannot be distinguished from the genuine until the secret is disclosed. I will also appoint a place of safety for our meeting where you can thoroughly examine the goods and subject them to any test whatever you may desire. Remember I am the sole manufacturer and you cannot get my goods elsewhere.

My terms are twenty per cent. on the dollar. The lowest amount you can invest is \$200, and the highest \$5,000.

Trusting you will not divulge the contents of this letter to anyone, I remain, in confidence and good faith,

Sincerely yours,

W. E. GRAHAM.

P. S.--I request as a favor that you never write me a letter to the address herein, as I shall positively refuse to receive it; a letter being damaging evidence in all cases for both parties and especially so in this. Simply send a prepaid telegram directed to W. E. Graham, 172 Hudson Street, New York, and say "Send Freight Rates," then sign your name and Post Office Address where a reply will be sure to reach you.

Remember your Address must accompany your Name, as the one I now have will be immediately destroyed to avoid any unforeseen accidents.

Of course no one but ourselves will know its meaning, so have no fear.

Dear Miss Whaley:

The San Diego City and County Centennial Commission would deem it a great honor to have you sit in the reserved box seat area at the Preview performance of the Pageant of The Golden Pueblo, Friday evening, September 1, at 8:00 p. m.

A special ceremony will be held before the Pageant and we would appreciate it if you would present this letter which will entitle you to two seats in the front center section in Centennial Bowl, Presidio Park.

Please let us hear from you as soon as possible if you are planning to attend this Preview. (M6106)

Very truly yours,

AMERICAN REVIEW: For a yearly subscription at \$5.00 the REVIEW will be sent you, postage prepaid, with a free copy of Mr. Allen Thorndike Rice's valuable "Reminiscences of Abraham Lincoln," a remarkable book by thirty-three remarkable men (see enclosed circular). The price of this highly successful book alone has never varied from \$4.00.

If you desire to follow the course of the Gladstone-Ingersoll controversy in the leading Review of the country, and avail yourself of this exceptional opportunity kindly send me your order on the accompanying card, and oblige,

Yours respectfully,

Alfred B. MacColl

A Unique
Passage-at-Arms.

GLADSTONE versus INGERSOLL

"To be or not to be," that is the question which to-day is agitating the minds alike of skeptic and believer. The belief in future rewards, punishment, or annihilation has for centuries met with countless champions and assailants. But it has been reserved for two of the greatest intellects of modern times - each in his own sphere the ripest product of the two most enlightened nations of Christendom - to discuss these vexed questions, and cross swords with the broad Atlantic between them.

For years the eloquence and skill of Colonel Ingersoll have challenged and chained the attention of the public and often unhorsed his opponent.

That he might finally meet in open combat a foe worthy of his steel-faithless and armed lips with the learning of centuries and the eloquence of a master - has long been the ardent wish of all good Christians.

This wish is now fulfilled in an article from the Right Hon. W. E. Gladstone, who will do battle for the faith as the critic of Colonel Ingersoll, in the May issue of the North American Review.

The entrance of this remarkable and most illustrious Statesman and Prince of Debaters into an international controversy of such intense importance and interest marks an Era in the History of Anglo-Saxon Literature and Religious Discussion.

NO MAN OR WOMAN WHO DOES NOT SPURN THE GREAT AND GRAVE PROBLEMS OF LIFE AND DEATH SHOULD FAIL TO FOLLOW THE COURSE OF THIS STIRRING AND MEMORABLE DEBATE.

COLONEL INGERSOLL WILL REPLY TO MR. GLADSTONE IN THE JUNE ISSUE.

Dear Sir:

Col. Robt. G. Ingersoll will shortly contribute to THE NORTH AMERICAN REVIEW a brilliant article in defense of his views of Christianity, which were powerfully assailed by the Rt. Hon. Wm. E. Gladstone, in the May number of the Review. The controversy between these two most gifted writers and orators of modern times is chaining the attention of all classes of thinkers, and is recognized as the most stirring and memorable debate of the century.

SAN DIEGO, CALIF. ... 189

IMPORTANT FACTS

About the City and County of San Diego, Cal.

San Diego City has a population of 25,000. It is located on San Diego Bay, the only perfectly land-locked harbor in the United States south of San Francisco, and is destined to become one of the great shipping points and commercial centers of the world.

Total area of Bay 12 square miles.

The city has 28 miles of graded and 17 miles of paved streets.

14 miles of street railways.

A fine water system and a \$125,000 sewer system.

A \$150,000 court house; \$100,000 opera house; 6 banks; 4 daily newspapers; 7 elegant hotels; 20 churches; spacious public school buildings; a most thorough public school system, including 5 kindergartens, 5 suburban, 7 graded, 1 commercial 1 manual training and an advanced high school; a fine public library of 12,000 volumes and the wealth and social refinement to make it the Naples of America.

The County embraces an area of 300 square miles.

It has 75 miles of sea coast; 50,000 acres of choice Citrus and Deciduous fruit land, 200,000 acres of which comprises the largest and finest Lemon belt in America and second to none in the world, having a single orchard of 100 acres.

Choice Orange and Lemon lands are valued with water at from \$20 to \$200 per acre, and without water \$5 to \$25 per acre. There is an average rainfall of about 14 inches along the coast and 15 to 25 inches in the interior.

There are three great irrigation systems completed and furnishing water to their respective districts. The Sweetwater, San Diego Flume Co., and the Escondido irrigation system. Three other extensive and costly water systems are contemplated.

The Mt. Tecate, now under construction and when completed will cover about 100,000 acres of San Diego's choicest fruit land. The Pine Valley and San Luis Rey systems, which will each cover large territory, but are yet in embryo, but when completed will cover all the available territory needing irrigation.

San Diego County, owing to its peculiar location between the Pacific Ocean and the Colorado desert, has the most healthful and charming all-year-round climate in the world.

During nineteen years, from 1885 to 1904, out of 365 days, there were 272 days in which the temperature did not rise above 80 degrees and only two days in which it fell to 32 degrees. Average temperature in the winter months 56 degrees and 54 degrees for the three summer months with soft sea breezes, free from fog, often varying less than 10 degrees in temperature during the entire month.

INFORMATION FOR TOURISTS.

THE Pacific Ocean was discovered by Balboa September 25, 1513.

San Diego Bay was discovered by Rodriguez Cabrillo September 28, 1542.

California was admitted to statehood September 29, 1850.

San Diego Bay has an area 22 square miles. Depth of water over bar at low tide 23 feet.

The City of San Diego is located 12 miles north of the Mexican boundary line.

A grant of New SAN DIEGO comprising 160 acres was made in February, 1850.

Father A. E. Horton arrived here in 1867, purchased about 900 acres of land at 25 cents per acre, and laid out the present town site of San Diego.

The present population is 17,000.

The climate of San Diego is more uniform than any other in the United States.

The average temperature for the last 11 years is 68° in summer and 55° in winter.

TOURISTS SHOULD VISIT

Point Loma and Light House overlooking Silver Gate.

La Jolla Caves and Park, said to be the most beautiful scenery on the Pacific Coast.

Old Mission and Indian School, established 1774.

Ruins of First Mission, established in 1729.

Old Fort Stockton, 1840.

Ocean and Pacific Beach.

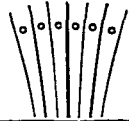

Sweetwater Dam, Tin Juana and Custom House in Old Mexico.

Mountain Home

SITUATED in a picturesque canyon of the beautiful Santa Cruz Mountains, is one of the most delightful and healthful retreats in the State. The elevation is 1300 feet above the sea level, the air is pure and dry and greatly beneficial to persons with weak lungs, while the surrounding landscape is wild and romantic. There is no more inviting place in California to spend the summer months than at this romantic spot in Santa Clara County, justly called "The Garden of the World." The rooms are all large and airy, and the FRENCH CUISINE is one of the features of the place.

VIEW FROM MOUNTAIN HOME RESORT

Munings and Fishings

NO better trout fishing is obtainable in Central California. The Lagras, the Uvas and the Almaden creeks abound with trout, and the proprietor is always ready to accompany his guests on excursions along these streams.

On July 15th next the deer season will open in Santa Clara County, and in this connection there will be rare sport for the guests of the MOUNTAIN HOME, for the country round about abounds with deer. During last season (1893), 23 deer were killed by guests of the place. A pack of hounds always at the disposal of the guests.

Quail season will open on September 1st. Good shooting can be had at a short distance from the place, and parties wishing to enjoy a few days of quail hunting on the hills cannot find a better location.

San Jose to Lagras

The Daily "MERCURY," leading paper of San Jose, publishes the following after a visit to the MOUNTAIN HOME by its city editor, John T. Wallace, Esq.

From the San Jose MERCURY, July 26, 1893.

"Let's go out to Pomereys," was the suggestion made by a friend to a member of the Mountain staff several days ago.

The suggestion was acted upon and after a drive of twenty miles over a good road, the pair arrived at the Mountain Home, on the Lagras, and I learned what it is to enjoy life," said he who had suggested the trip.

As I was there, I was not a little surprised to find it to be absolutely correct, and no one who has been a visitor at the Pomereys' beautiful resort, in one of the most romantic canyons in Santa Clara County, will say so elsewhere. The place is popular for many reasons, and the least—perhaps the most important—of which is the excellent French cuisine.

The cooking is all done by Madame Pomerey, and if any one doubts she is an artist in the culinary line he has but to listen to the praises sung in her honor by those who have had the good fortune to partake of the tempting dishes she invents and prepares to surprise and delight her guests.

Yre is a model host and is almost as popular as his wife. In this regard accommodation finds perfect satisfaction, for there is nothing he will not do to give pleasure to guests, be it to play a card game, conduct a fishing excursion along the delightful streams that pass through his park, take his pack of hounds and lead hunters to the haunts of the deer, get up a dancing party on half an hour's notice, or anything else that the imagination suggests and the resources permit. At its consequent popularity among the sportsmen who visit his place from various parts of the State, it is consequently a favorite resort, but he is as popular with the many ladies and children who go there during the summer for their rest and pure mountain air, because his capacity for providing means and methods for their entertainment is unlimited.

Besides the attraction of host and hostess, in the manner born, the natural beauties of the place are enough to draw out the admiration of all beholders, and cause them to rejoice that they are fishing. A glance at the surroundings is sufficient to show that game of all kinds is to be found in the mountains, while the streams are well supplied with trout.

Climate

THE atmosphere is dry and warm and free from fogs and chilly winds.

A correct appreciation of this climate is only to be gained after a short residence, and the longer one remains surrounded by the influence of such a climate, the stronger becomes his attachment to it. The broad sunshine is the feature of this climate; add to it fresh air and pure water and you have the greatest factors in the restoration of health. It is pencil and restful, and with the comfort of a home, what else can anyone desire.

Amusements

SWIMMING tank (enlarged since last season), free to the guests.

A fine croquet ground has been made, and on the road which winds along the banks of the Llagas creek which is shaded by the grand old forest tree; rustic seats have been placed so that the fullest enjoyment may be had of the delights of the grand scenery and health-giving air. A splendid shooting gallery has been added to the place.

For the children, a perfectly reliable donkey has been provided. Swings have also been placed about the premises.

Points of Interest

OF the many excursions to be taken from the MOUNTAIN HOME, a trip to Loma Prieta (Black Mountain), the highest peak in the Santa Cruz Mountains, will repay the visitors with one of the grandest views in the world.

A visit to the famous New Almaden Quicksilver Mines will also prove of interest to guests.

NOTE:—A stage will connect at New Almaden depot Wednesday and Saturday Mornings, with the train leaving the Townsend Street depot, San Francisco, at about 7 o'clock P. M.

The Revised New Testament Given Away with our Family Bibles.

WE insert, in beautiful and substantial form, the "Revised Version of the New Testament" in our Family Bibles, and thus furnish it free of charge to every subscriber. It is printed on the same beautiful paper as our Family Bibles, is in the same type, the same sized page and comprises almost or quite 200 of the large quarto pages. It thus stands side by side with what is known as the authorized or King James' version of the New Testament; and the two can thus be read and compared most conveniently.

People Unsupplied with Family Bibles.

Agents sometimes think people are supplied with Family Bibles. But that is not the case. Millions are without them. For eight years, on account of hard times, many families deferred purchasing until they could better afford it; and in the communities where they have been sold, on the average, fully half the families, we think, did *not* buy. Everywhere there are hundreds and thousands unsupplied. The times are so favorable now, and the interest created by this new revision can be made so easily to enlist the attention of people in the subject that an agent can do exceedingly well; but if he sold a Bible only to a family here and there he would still make more than if he sold Revised New Testaments at every house.

A Good Time to Sell Family Bibles.

There never was a better time to sell Bibles. For many years the interest in Bible study has been increasing rapidly in this country through the well organized Sunday school work of every denomination of Christians in every hamlet and village of every section. A generation of Bible readers has been coming forward. Where is there a child, or young man, or young woman who has not been, or who is not now, in Sunday-school? Then the International series of lessons has tended greatly to increase the interest. People

have more confidence in the Bible than ever; and now that we have the Revised Version of the New Testament the Old Testament Scriptures will be studied as never before.

The Wide-spread Interest in the Bible.

Christ and His Apostles in the New Testament quote from and endorse the Old Testament six hundred times. From Genesis to Revelations the Bible is a history of Redemption. Everything in the Old Testament points to Christ, and everything in the New Testament is a fulfillment of the Old Testament and of Christ's wonderful mission to the world. It has sometimes been said by incompetent persons that the interest in the Bible is declining, that it is fast becoming an obsolete book. But what are the facts? 2,500,000 copies of the Revised New Testament were sold in America and Great Britain in a single day—the day it was issued.

Of Milton or Shakespeare or Dante or Bunyan, even, if 20,000 were sold in a day it would be a tremendous sale. Of any book, however popular, even a campaign book, when the country is all fever heat over an election, if 100,000 are sold in a year it is regarded as a large sale; and of the little pleasant stories like "Helen's Babies" which were so welcome to all jaded people in a summer's season, and sold very cheaply in paper covers, 100,000 sale in a year or so was regarded unparalleled. Of any standard works, even standard religious books, which have almost always unequalled sale, if 100,000, 200,000 or 300,000 is reached in a few years it is regarded as a wonderful thing. Of the most popular novels, if a sale of 100,000 or 200,000 is reached in a few years it is regarded as astonishing. It is said that "Uncle Tom's Cabin" had the largest sale of any novel ever issued in America, and its sale, we believe, in about 20 years, reached 400,000. Of novels in general, a sale of 10,000 or 20,000 is regarded excellent; and of the most popular books sold through the trade a similar sale is exceedingly gratifying to both author and publisher. The *average* sale of books in general will not, probably, exceed 2,000 or 3,000 in a generation. Yet what are any or all of these figures compared with 2,500,000 New Testaments sold in a single day! and the sale is now going on so rapidly that we believe within one year from the date of issue, there will have been at least 10,000,000 or 15,000,000 copies sold. Now what does this signify?

When will the Revised Version of the Old Testament appear?—Present Version, Standard for next 25 Years.

Careless talkers have said the Revised Version of the Old Testament would be out in three or four years, but so they said of the New Testament, when it was ten and a half years before it was completed. The Old Testament is larger, the Hebrew and other languages are more difficult to understand than the Greek, and judicious, competent judges say that it cannot possibly appear under four, five or six years, and that it may not be ready for ten years. Such important work has to be done carefully. It is a work that has influence on the destiny of hundreds of millions of mankind for eternity, and the difficulties attending it are great. It is a momentous matter. The way to be prepared for the New Revision of the Old Testament is by studying the present version of it; and the present version, all may be well assured, will be more highly prized than ever before. The Family Bibles bought, read, studied, before the New Version of the Old Testament appears are going to be handed down to the next generation as a more valuable legacy than anything known before. They will become doubly sacred. Those of our children to whom the *present* version of the Family Bible is handed down, when we are gone, will be specially favored, and as the years roll by it will become more and more a treasure, hallowed by age, by former use, by memories, by tears, by sacred associations, and by the knowledge of the work it has done for time and eternity for the great English-speaking human family the world over for **two hundred and seventy years**, as well as for us and ours during our brief pilgrimage. The man who has no good Family Bible, and who will defer the purchase of one for an indefinite number of years on the ground that he is waiting for the New Revision of the Old Testament certainly cannot appreciate these facts. Once kindly convinced of them by a true christian agent, he will do all in his power to obtain one at the earliest possible day; and many will purchase several—one for each of their children. The present version of the Old and New Testaments must remain the **standard** for twenty-five years or longer, notwithstanding we have a Revision of the New Testament now, and hope to have a Revised Edition of the Old Testament in at least ten or fifteen years, because all Commentaries, Bible Dictionaries and Concordances refer to, and are based upon the "authorized" or King James' version, and these works are very numerous and important, and works to correspond with them or to take their place, cannot be produced in twenty-five or fifty years.

Prices Likely to Rise on All Books—Reasons for Unparalleled Demand.

There is another fact which it is proper to state here, and that is, that the prices of all materials that enter into the making of books, the prices of labor, &c., are quite likely to rise before a great while. During the seven years of unparalleled depression in this country, all wages and the cost of all materials were shrunken, and shrunken until they touched a point far below what was thought possible; and competition has been, and is, such that there could not be, quickly, any reaction from these extremely low prices. But with the great prosperity we are now having throughout all America, and with the greatest demand for books that the world has ever known, these low prices are not likely to continue. Books will be dearer before they are cheaper. The largest publishers find that it is quite impossible to devise facilities to manufacture and issue books sufficiently rapid to meet this hitherto known demand. There isn't a binding or printing establishment but what is more than full with work, and this is the case to such an extent that they often do not care whether they take in new work or not. This alone is a very strong indication of higher prices. It must be remembered that this country during the past twenty years has made wonderful progress in many things, but particularly in its schools and colleges, and there are tens of thousands, yes, hundreds of thousands, now scattered all over the land, who buy every year—possibly, every month—more books than many of the ablest scholars of a generation ago, were ever able to own; and the great mass of men throughout this nation comes the

read, studied, before the New Version of the Old Testament appears are going to be handed down to the next generation as a more valuable legacy than anything known before. They will become doubly sacred. Those of our children to whom the *present* version of the Family Bible is handed down, when we are gone, will be specially favored, and as the years roll by it will become more and more a treasure, hallowed by age, by former use, by memories, by tears, by sacred associations, and by the knowledge of the work it has done for time and eternity for the great English-speaking human family the world over for **two hundred and seventy years**, as well as for us and ours during our brief pilgrimage. The man who has no good Family Bible, and who will defer the purchase of one for an indefinite number of years on the ground that he is waiting for the New Revision of the Old Testament certainly cannot appreciate these facts. Once kindly convinced of them by a true christian agent, he will do all in his power to obtain one at the earliest possible day; and many will purchase several—one for each of their children. The present version of the Old and New Testaments must remain the **standard** for twenty-five years or longer, notwithstanding we have a Revision of the New Testament now, and hope to have a Revised Edition of the Old Testament in at least ten or fifteen years, because all Commentaries, Bible Dictionaries and Concordances refer to, and are based upon the "authorized" or King James' version, and these works are very numerous and important, and works to correspond with them or to take their place, cannot be produced in twenty-five or fifty years.

Prices Likely to Rise on All Books—Reasons for Unparalleled Demand.

There is another fact which it is proper to state here, and that is, that the prices of all materials that enter into the making of books, the prices of labor, &c., are quite likely to rise before a great while. During the seven years of unparalleled depression in this country, all wages and the cost of all materials were shrunken, and shrunken until they touched a point far below what was thought possible; and competition has been, and is, such that there could not be, quickly, any reaction from these extremely low prices. But with the great prosperity we are now having throughout all America, and with the greatest demand for books that the world has ever known, these low prices are not likely to continue. Books will be dearer before they are cheaper. The largest publishers find that it is quite impossible to devise facilities to manufacture and issue books sufficiently rapid to meet this hithert known demand. There isn't a binding or printing establishment but what is more than full with work, and this is the case to such an extent that they often do not care whether they take in new work or not. This alone is a very strong indication of higher prices. It must be remembered that this country during the past twenty years has made wonderful progress in many things, but particularly in its schools and colleges, and there are tens of thousands, yes, hundreds of thousands, now scattered all over the land, who buy every year—possibly, every month—more books than many of the ablest scholars of a generation ago, were *ever* able to own; and with the thrift of the great mass of men throughout this nation comes the means with which to buy. Where plain people have bought one book a year, or one in two years, they now can easily be induced to buy one, two, five, or even ten books a year, and they will thrive the better for it.

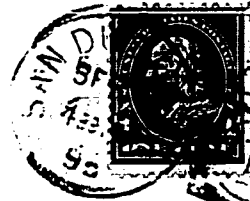

Our Edition of Family Bibles.

We have been known for a third of a century as publishers of Standard Religious Books, and we have taken special pride in trying to have a Family Bible that should be worthy the reputation the christian public have so generously accorded us for so many years, and which also should be worthy the Book of books—the book that has done more for mankind than all other books combined; and while doing this, we have always endeavored to have the retail price as low as it could possibly be made compatible with fairness to ourselves and agents, good workmanship and good materials.

We shall be glad if you will send to us *now* for our large descriptive circular, giving full particulars regarding it.

This is strictly a price list of a High Grade and Superior line of Groceries. We are known to sell nothing we cannot guarantee as the "first" goods in the market. We take this opportunity to call attention to our Woodenware Department. We are careful in our selection of this line, and are sure you can do no better any place on such goods than here.

Very respectfully,

MILLER & PHILLIPS.

Removal Announcement

After October 1st, we will be located in the

METHODIST BLOCK

ON D STREET.

Many ask the question: "Why are you going to move?"

We have three reasons:

- 1st. The rent is 60 per cent. less than we are now paying.
- 2d. Business radiates from Fifth and D Sts. (We are about 100 feet from this corner.)
- 3d. We will have almost 50 per cent. more floor space.

This question answered, we are asked: "Will you do as much business there?"

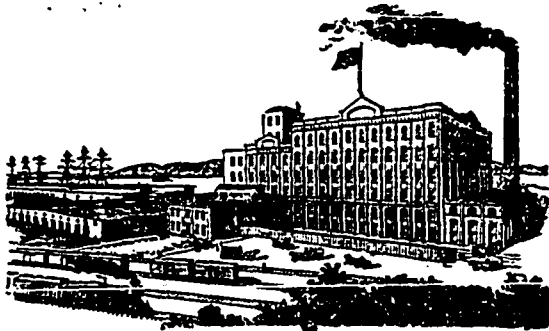

We expect more business. Our largely reduced expense account will enable us to sell you the finest goods produced at prices lower than you have bought them, and our larger floor space will afford increased facilities for handling greater business with the same number of hands.

We shall continue to be *the* High Grade Store of the city, keeping things to eat which are superior in quality to those offered elsewhere. "Absolute satisfaction to every customer" has been and will continue to be our principle, from which we will not depart. By this we mean that you are to get the best possible treatment from us in promptness, courtesy, low prices and superior quality.

We enclose a list of prices which we wish you to consider. Awaiting to be commanded by you, we remain,

Very respectfully,

MILLER & PHILLIPS.

THE SAN FRANCISCO
UNEMPLOYED

In Mass-Meeting Assembled

TO

WORKINGMEN

OF

EVERY TRADE and CALLING

Greeting, Brothers: Do not be deceived by false reports. The City of San Francisco is crowded with idle men. There are thousands of us tramping the streets hungry, hopeless and destitute. For God's sake keep away from this city. Advertisements for laborers, sailors or mechanics are false. Place no faith in them. There are ten men here for every job now.

By Order

EXECUTIVE COMMITTEE SAN FRANCISCO UNEMPLOYED

W. M. WILLEY, Chairman

L. C. FRY, Secretary

HETHERINGTON'S

TROPIC-FRUIT

REGULATES THE SYSTEM
AND IS THE GREAT SOVEREIGN CURATIVE FOR
CONSTIPATION
AND ALL KINDRED AILMENTS.

THE MOST EMINENT MEDICAL MEN PRESCRIBE IT.

PREPARED ONLY BY

J. E. HETHERINGTON

35 PARK PLACE NEW YORK.

laxative,

FIVE

ON

IES.

composed entirely of
in the form of a lozenge
lozenges.

in various disorders, it heads
off, whether it be
constipation, can produce the
desired effect. It contains no
opium and it is not in the
least the contrary, it acts
against inertia, languor, or any
other ailment attending the use of

the native habitats are
of the same preparation; and these
ingredients are typically incorporated
with the most choicest curatives,
and is perfectly harmless for RENO-
vating the system to public notice.
Other purgative medicines
not only prove unwhole-
some, but are the cause of much mischief.
When dissolved in the mouth,
they serve its purpose
and cause no pain. Medicines, which cause
nausea when once the patient
takes them, and always produces
an unpleasant physiological action it
is a great function to the usual
testinal sluggishness.

TROPIC-FRUIT LAXATIVE is equally agreeable to the taste as fruit or a confection, and it may be taken at any time without discomfort and with every assurance of success in its operation. The most obstinate cases of HABITUAL CONSTIPATION, and the many disorders that follow in its train, such as Biliousness, Headache, Cerebral Congestion, Disordered Stomach, Piles, Low Spirits, Melancholy, etc., are immediately relieved and effectually cured by its use.

CONSTIPATION or HABITUAL COSTIVENESS is the most prolific source of ill-health, and is usually the forerunner of many grave, complicated, and alarming diseases. The timely use of TROPIC-FRUIT LAXATIVE anticipates and corrects the exciting cause, and by its sole aid many dangerous and perplexing ailments are often nipped in the bud. It differs materially from any other remedy that has ever been offered or introduced to general notice, and the public have the assurances of practical and well-known chemists, and of physicians who stand eminent in their profession, as to its agreeable and harmless qualities and its efficacy for the purpose prescribed. The manufacturer has yet to hear of a single instance where dissatisfaction was manifested by its use, or where aught but benefit followed its administration; and no other known preparation has ever met with such universal approbation at the hands of the people. TROPIC-FRUIT LAXATIVE has the unanimous support of all who have given it a *single* trial, and highly commendatory reports are being constantly received from eminent physicians and chemists, medical and scientific journals, the clergy and press, and from other high standard sources.

From the "Science of Human Life," by Sylvester Graham.

The regular action of the bowels is of the utmost importance to health. The evils, both bodily and mental, resulting from habitual costiveness, are incalculable, and yet there is reason to believe that this habit of body is exceedingly common in civil life, and particularly with young females. Mothers, and all who have the care of children and youths of both sexes, ought to pay great attention to this matter; for they may be assured that it can not be neglected without much hazard to the health and life of the young. Habitual costiveness predisposes to dyspepsia, pulmonary consumption, nervous disorders, headache, insanity, and indeed almost every distressing form of disease that flesh is heir to; and when it does not actually develop disease in youth, it lays a deep and unmovable foundation for it in after life; every body should have a regular and free action of the bowels once in twenty-four hours.

A Medico-fruit Confection (in lozenge form), Warranted Pure, and Free from Mercury, Mineral, Drastic, or any Preparation thereof.

TROPIC-FRUIT LAXATIVE

UNLIKE PILLS AND NOXIOUS PURGATIVES, NEVER DEBILITATES AND IS PLEASANT TO TAKE. IT REGULATES THE SYSTEM EFFECTUALLY, AND REMOVES HEADACHE, CEREBRAL CONGESTION, HABITUAL COSTIVENESS, PILES, INTERNAL FEVER, BILE, AND ALL COMPLAINTS ARISING FROM AN OBSTRUCTED STATE OF THE SYSTEM.

TROPIC-FRUIT LAXATIVE is put up in tin boxes (with gold-bronze finished surface), and our registered label printed in red and black—as shown below—is wrapped around each box. The public are especially cautioned against counterfeits and spurious imitations which may be offered them.

GENERAL APPEARANCE OF THE BOX.

One Lozenge is the usual dose, to be taken at night when retiring. (Dissolve slowly in the mouth, or eat like fruit or a confection.) Full and explicit Directions for use accompany each box.

TROPIC-FRUIT LAXATIVE is the result of careful and prolonged chemical and scientific research, and is entirely distinct from the class of remedies known as "patent medicines." Its component parts are mainly of Oriental origin (native to the East Indies and the Tropics), and are specially selected and imported by us at enormous expense. The price of the preparation, considering its superior qualities and unrivaled efficiency, is unexceptionally very low.

TROPIC-FRUIT LAXATIVE

Is sold by Druggists and Chemists every-where at Sixty Cents a box. Each genuine box bears the private Government stamp, trade mark, and signature of the sole proprietor and manufacturer.

J. E. HETHERINGTON,
86 Park Place, New York.

A. B. STONE'S RUBBER GUM PAINT!

A perfect protection for all outside surfaces---Iron Fences, Lamp Posts, Shingle Roofs, Iron Bridges, Wood Stoops, Wood Awnings, in fact anything outside. Tin Roofs, Leaders, Stoops, Gutters, Engines and Smoke Stacks a Specialty.

Gentlemen of this City and vicinity, if you wish to get a paint applied on your roofs which will last for five years or more without cracking, rolling or blistering or rubbing off by heavy rains, you can leave your orders at

FIRST STREET, BET B AND C,

And they will be promptly attended to. I will refer you to some of the most reliable men in Wilkes-Barre, Pa., who have made a thorough trial of this paint:

A. B. Stone applied this Rubber Gum Paint on the Court yard fence, and the paint is as he recommended it to be.

SAMUEL LYONS, } Commissioners
A. DEAN, } of
PETER JENNINGS, } Luzerne County.

A. B. Stone painted the tin roof my house, which gave us much trouble by constant leakage, but since he applied his Rubber Gum Paint it has been water-tight. His paint is better than any I have ever used.

DR. OLIVER HARVEY,

A. B. Stone painted the tin roof on my house, which was eaten full of holes and leaked very badly, but with his cement and paint he has removed the evil and saved me the expense of taking it off.

H. HESTER.

A. B. Stone painted the tin roof on my house; also, my barn. It gives entire satisfaction. I do recommend Mr. Stone to one and all who may need his services.

HON. O. H. COLLINS.

I will remain with you, as I cannot live where it is cold. I will build boats, being a first-class ship carpenter. I ask for the work, and hope all that are willing to help an old wounded soldier will remember me.

A. B. STONE.

Plans and specifications furnished by my partner, Mr. Jenkins, of San Diego, he being a contractor and builder.

While we do not think it is equal to what we are in fact, and determines the real value of what we do.

People who are vain and selfish, shallow, petty or false, cannot have their employment, whatever it may be, and cannot attain any real success in it.

Whoever banishes the mind without corrupting it, has at least this use: that it receives the day from violence; and he that is never sick will not often be vicious.

MORSE'S

IMPROVED

▶ VAPORIZING † INHALER ◀

The most simple and comprehensive appliance ever invented, and is based upon such purely scientific principles that the most prominent physicians of Europe and America have no hesitation in recommending and using it in their practice. Why? Because any formula or medicine to be used, can be placed in the Inhaler, and the medicinal and healing properties of the said medicine can be inhaled direct to the parts affected; let the affection be in the most remote air-cell or passage there is in the head, throat, or lungs. It can therefore readily be perceived, in all pulmonary and catarrhal affections, how much more benefit can be derived by properly medicated inhalations than by turning the medicine into the stomach, which does not and cannot reach the seat of the disease.

If we live by breathing common air, then why not medicate the same air with ingredients, such as Oil of Tar, or Eucalyptus, or use any of the said teas, viz: Sassafras, Catnip, Hop, Fir or Spruce? Any of these makes a moist, soothing and healing vapor, and when inhaled softens and dissolves all secretions that have accumulated or collected, assists expectoration, allays all irritation and inflammation, neutralizes the acid, nicotine, or catarrhal poison, and thereby strengthens, heals and tones up all the mucous membranes and linings, and gives new invigorating life to the whole system.

WOULD YOU KNOW WHAT CATARRH IS?

1st. Snuffing, Sneezing, Watery Eyes, Disgusting Expectoration, with Intermittent pains by the sides of the nose, back of head, and over the eyes.

2d. Head seems to crackle and spin; hearing suddenly ceases upon blowing the nose; buzzing noises and spurts of thin mucus upon the tonsils, or from the nostrils.

3d. Taste, Smell, and Hearing impaired; stopping of one nostril; hawking greenish mucus; dry scales come from nostrils.

4th. Nostrils closed; breathing through lips; distressed snoring; discharges copious and offensive; much Swallowing of virulent poison while asleep.

5th. Fetid and Sickening breath; watery stars floating before the eyes; throat and lungs, sore and clogged mornings. Weakening discharge from genitals. Sometimes Hay-Fever and Polypus appear.

6th. Bones of nose and fore-skull become honeycombed and partitions rot away, disfiguring victim for life; Voice utterly destroyed; very Deaf; Stench unbearable; mucus more purulent, planting germs of Scrofula, Consumption, and death. This, reader, is what Snuffles, Influenza, and Catarrh become. Do not neglect these symptoms; otherwise, the victim is doomed to a miserable life and short existence.

CONSULTATION AND TRIAL FREE.

Call and be Convinced. Free Tests.

Always speak the truth. Make few promises. Live up to your engagements.

Good Company and good conversation are the very sinews of virtue.

Good character is above all things.

Your character cannot be essentially injured, except by your own acts.

If any one speaks evil of you, let your life be so that no one will believe him.

Ever live (misfortune excepted) within your income.

Take Care to be an economist in prosperity; there is no fear of your not being one in adversity.

Our Characters we make; our reputations are often made for us.

When you retire to bed, think over what you have been doing during the day.

Make no haste to be rich if you would prosper.

Small and Steady gains give competency with tranquility of mind.

Never play at any game of chance.

Avoid temptation, through fear you may not withstand it.

Never borrow if you can possibly avoid it.

The best way to accumulate property is to buy when others want to sell, and to sell when others want to buy.

"I expect to pass through this world but once; any good thing, therefore, that I can do, or any kindness that I can show to a human being, or any word that I can speak for the good of others—let me do it NOW. Let me not neglect nor defer it, for I shall not pass this way again."

The Beauty which is of the feature merely catches the careless, wandering eye. The beauty which is the index of character holds the eye and irresistibly wins the heart.

Let no one give evidence of his favor; you will find it as hard to make a man forget a slight as it is to make a man forget a favor.

Handed forks fire a backrest; impetus and hot little electrical pins Nature can do much to render a commonplace attractive, but character accomplishes far more.

Let a man learn that everything in nature, even notes and feathers, goes by law and not by "luck," and that what he sows he reaps.

Place before your children nothing but what is simple, lest you spoil their taste; and nothing that is not innocent, lest you spoil their hearts.

It is only by labor that thought can be made healthy, and only by thought that labor can be made happy. Keep your own secrets if you have any.

FATHERS AND MOTHERS, WILL YOU INVESTIGATE THE HOUSEHOLD TREASURE? THE WORLD'S POPULAR VAPORIZING INHALER

It is a Never-failing Remedy for all Diseases of the Head, Throat and Lungs, and for Diphtheria it has no equal. It cures as if by magic.

Stay at home and try the INHALER. The cost is no more than for a prescription; while the benefits derived will exceed anything that science has yet produced.

This discovery will, with a fair trial, prove its superior value as a remedy; combining with this, the low price at which it is offered will benefit all.

It has all the elements to assist Nature in restoring health to the afflicted. Hundreds of well known citizens have been cured of Catarrh, Bronchitis, Asthma, Deafness, Neuralgia, Nervous Headache, Colds, Coughs, Weak Eyes, and many other diseases that defied medical skill.

Prof. S. A. Morse, the inventor, carefully looks after the contents of the boxes and sees that the directions are plainly stated. Price of INHALER with medicine and prescriptions for duplicating the same, \$3.00.

Do not Suffer, or let your Friends Suffer, Use and Urge them to Use

MORSE'S IMPROVED VAPORIZING INHALER

(PATENTED JULY 10, 1883.)

TESTIMONIALS.

We are able to present but a part of the testimony received from various sources. In addition to those mentioned below, this method has been endorsed by the following physicians and surgeons:

- Ex-Surgeon General J. C. Palmer, U. S. A.
- Medical Director Chas. Martin, U. S. N.
- Medical Inspector P. S. Wales, U. S. N.
- Surgeon Basil Norris, U. S. N.
- Dr. A. W. Miller, Washington, D. C.
- Prof. Decosta, Chicago, Ill.
- Dr. Walker, Chicago, Illinois.
- Dr. John H. King, Cincinnati, Ohio.

DEAR SIR: We have used your Vaporizing Inhaler in prescribing for Nasal Catarrh and Bronchial affections, and regard it as well adapted for all the purposes for which it is designed, and superior to anything of the kind we have ever used.

All orders promptly filled, C. O. D., or otherwise.

Address, PROF. S. A. MORSE,
Care E. W. JOY, Druggist, 852 Market Street, San Francisco.

JUST PUBLISHED!

LIMITED EDITION OF

The Naval-Reserve-Man's Guide.

An Indispensable Book of Reference and Instruction For Officers, Petty Officers and Seamen of the Naval Reserve.

One Thousand Explanations of Modern Naval Subjects.
One Hundred Elaborate Technical Engravings.

IT WAS WRITTEN FOR YOU!
IT COMMANDS YOUR SUPPORT!
IT WILL GUIDE YOU!
IT WILL EDUCATE YOU!

IT DEALS WITH ALL NAVAL QUESTIONS!
IT IS PRACTICAL AND UP TO DATE!
IT IS PRINTED IN LARGE, CLEAR TYPE!
IT IS BEAUTIFULLY AND PROFUSELY ILLUSTRATED!

IT AFFORDS IMMEDIATE REFERENCE TO ITS SUBJECTS!

—IT CONTAINS—

Full Definitions of All Naval Terms and Phrases—Various Line and Staff Ranks and Grades and the Duties Assigned to Each—Naval Academy Details—Uniforms—Salutes—Quarter, Watch and Station Bills,

—AS WELL AS—

Exhaustive Explanations and Engravings Relating to Modern Ordnance Explosives, Projectiles, Armor, Torpedo Launches and Boats, Dynamite Cruisers, Despatch Vessels, Partially-Protected, Protected and Armored Cruisers, Battle Ships, Coast Defense Vessels, Monitors, Battery Plans, etc., etc.

AND ITS COST IS ONLY ONE DOLLAR!

POEMS SELECTED FOR THE SCRAP BOOK.

I AM GOING HOME TO-NIGHT.

BY JAMES G. CLARK.

Kiss me when my spirit dies;
Let the beauty of your eyes
Beam along the waves of death,
When I draw my parting breath
And am borne to yonder shore
Where the billows beat no more,
And the notes of endless spring
Through the groves immortal ring.
I am going home to-night—
Out of blindness into sight;
Out of weakness, war and pain
Into power, peace and gain;
Out of Winter's gale and gloom
Into Summer's breath and bloom;
From the wanderings of the past
I am going home at last.

Anger's frown and Envy's thrust;
Friendship chilled by cold Distrust;
Restless night and weary morn,
Toil in fruitless land and form;
Aching head and breaking heart;
Love destroyed by Slander's dart;
Drifting ship and darkened sea,
"Over there" will righted be.

Sing in numbers low and sweet,
Let the songs of two worlds meet.
We shall not be severed long.
Like the fragments of a song,
Like the branches of a rill
Parted by the rock or hill,
We shall blend in tune and time,
Singing on in perfect rhyme.

Kiss my lips and let me go,
Nearer swells the solemn flow
Of the wondrous stream that rolls
By the border land of souls.
I can catch sweet strains of song
Floating down from distant throng.
And can feel the touch of hands—
Reaching out from angel bands.

When the moon-tide of your day
Yields to twilight's silver haze
And the world recedes in space,
Heavenward lift your tender face,
Let your dear eyes homeward shine,
Let your spirit call for mine,
And mine own will answer you
From the deep and boundless blue.

Swifter than the sunbeam's flight
I will cleave the gloom of night,
And will guide you to the land
Where our loved ones waiting stand;
And the legions of the blest
There will welcome you to rest.
They will know you when your eyes
On the Isles of Glory rise.

When the parted streams of Life
Join beyond all jarring strife,
And the flowers that withered lay
Blossom in immortal May,
When the voices, hushed and clear,
Thrill once more the "raptured car,
We shall feel, and know, and see
You knew better far than we.

MOORE'S REVEALED REMEDY NEVER FAILS IN CURING DYSPEPSIA!

JIM BLUDSOE.

BY JOHN HAY.

President Lincoln's Private Secretary.

Waal, no, I can't say what he lives,
Because he don't live, you see—
Leastwise, he's got out o' the habit
O' living like you and me.
What've you been for the last three
year
That you hav'n't heard folks tell
How Jimmy Bludsoe passed in his
checks
The night of the "Prairie Belle?"

He warn't no saint—these engineers
All pretty much alike;
One wife in Satchel, under the hill,
And another one here in Pike.
A keefless man in his talk, w' Jim,
And an awkward hand to a row,
But he never lied, and a never
blundered—
I reckon he never knowed how.

And this was all the 'rigion he had:
To treat his engine well,
Never be passed on the river,
And to mind the pilot's bell.
And if ever the Prairie Belle took fire,
A thousand times he swore
He'd hold her nose up agin the bank
'Till the last soul got ashore.

Now all boats has their day on the Missisipp,
And her day come at last.
The Mowader war a better boat
But the Belle she wouldn't be passed,
And so she come tarrn' along that night,
The oldest craft on the line,
With a nigger squat on her safety valve,
And her furnace crammed rosin an' pine.

A fire bu' 't out as she c'ared the bar
And herst a hole in the night,
When the Mowader wink, she turrel land made
For a willow bank on the right.
There was runnin' and cussin', but Jim
yelled out
Over all the infernal roar:
'I'll hold her nose agin the bank
'Till the last galoot's ashore.'

Through the hot black breath of the burn-
ing boat
Jim Bludsoe's voice was heard,
And they all had trust in his cassidness,
And knowed he'd keep his word,
And sure's your born, they all got off
Before the smokestacks fell,
And Bludsoe's ghost went up alone
In the smoke of the Prairie Belle.

He warn't no saint, but at Judgment,
I'd run no chance with Jim
Alongside of some pious gent
That wouldn't shook hands with him.
He seed his duty—a dead, square thing—
And he went for it that night,
And Christ ain't a critter 'er too hard
On a man that died for men.

No Smoking! Asthma positively cured by Moore's Revealed Remedy. No Inhaling!

LEONA.

BY JAMES G. CLARK.

Leona, the hour draws nigh,
The hour I've waited so long,
For the sunlight open a door through the
sky,
That my spirit may break from its prison
and try
Its voice in an infinite song.

Just now, as the shadows of night
Came o'er me with peace-giving breath,
The curtain, half-lifted, revealed to my
sight
Those windows that look on the Kingdoms
of Light
That border the river of Death.

And a vision fell solemn and sweet,
Bringing dream of a morning lit land,
I saw the white shore which the pile waters
beat,
And I heard the low lull as they broke at
their feet
Who walk on that beautiful strand.

And I wondered why spirits should
sing
To their clay with a struggle and
sigh,
When Life's purple Autumn is better than
Spring
And they go their way, like a sparrow, to
die
In a climate where leaves never die.

Leona, come close to my bed,
And lay your dear hand on my brow,
The sun's touch that thrilled me in days
that are fled,
And raised the hot roses of youth from the
dead,
Can brighten the brief moments now.

I thank the dear Father for this
That our love is not lavished in
vanity,
Each germ in the future, will blossom to
this,
And the forms that we love and the lips
that we kiss
Never shrink at the shadow of pain.

By the light of this faith am I taught
That my journey has only begun,
In the strength of this truth have I strug-
gled and fought
With the factions of Wrong, till my armour
has caught
The gleam of Eternity's sun.

Leona, look forth and behold—
From headland, from hillside and
deep
The Day king surrenders his banners of
gold,
The twilight advances through woodland
and wild,
And the dews are beginning to weep.

The moon's silver hair lies uncurled
Down the broad-breasted mountain
away;
Ere sunset's red glories again shall be
filled
On the walls of the West, o'er the plains of
the world,
I shall rise in a limitless day.

Oh! come not in tears to my tomb,
Nor plant with frail flowers the sod.
There is rest among roses too sweet for its
gloom
And life, where the hills exult in the
bealm-breathing gale.

Vet deeply those memories burn
That bind me to you and to earth,
And I sometimes have thought that my
being would yearn
In the bosom of this beautiful home, to return
And visit the land of its birth.

'Twould even be pleasant to stay
And walk by your side to the last—
But the land breeze of Heaven's beginning to
breeze,
Life's shadows are meeting Eternity's day,
And its tumult is hushed in the past.

Leona, good-bye! Should the grief
That is gathering now ever be
Too dark for your faith, you will long for relief
And remember, the journey, though lone-
some, is brief
Over lowland and river to me.

Throw away your Crutches and CURE your RHEUMATISM by taking Moore's Revealed Remedy.

The following poem first appeared in our pattern
publication during the year 1870, when Sir John
Franklin sailed for his return from his explo-
rations to the north. The author, Miss Lizzie
Dixon, had written a letter from her room,
instead of composing, she sent this poem, very
which she claims was written under spirit control.

FATE OF SIR JOHN FRANKLIN.

"Away! Away!" cried the stout Sir John,
"While the blossoms are on the trees,
For the summer is short, and the time
speeds on
As we sail for the Northern Seas.
Noillant Crozier, and brave Fitz James!
We'll startle the world, I trow,
When we find a way through the Northern
Sea.
That never was found till now.
A good stout ship is the Erebus
As ever unfurled a sail,
And the Terror will match with as brave a
one
As ever outside the gate."

So they bade farewell to their pleasant
homes,
To the hills and the valleys green;
With three hearty cheers for their native isle
And three for the English Queen.
They sailed away beyond cape and bay,
Where the day and the night are one;
Where the hissing light in the heavens
is bright
And flamed like a midnight sun.
There was naught below save the ice and
snow.

That stretched to the dreary Pole,
And the Esquimaux, in his strange canoe,
Was the only living soul.

Along the coast, like a giant host,
The glittering icebergs frowned;
Or they met on the main, like a battle plain.
And crashed with a fearful sound.
The sea and bear, with a curious stare,
Looked down from the frozen heights,
And the stars in the skies, with their great
wild eyes,
Peered out from the Northern lights.

The gallant Crozier and brave Fitz James,
And even the stout Sir John,
Felt a doubt, like a chill, through their
warm hearts thrill,
As they urged the good ships on.

They sailed away beyond cape and bay,
Where even the teardrops freeze,
But no way was found, by strait or sound,
To sail through the Northern Seas.
They sailed away, beyond cape and bay,
And they searched, but they searched in
vain.
For no way was found, through the ice-
bergs' train.

To return to their homes again,
Then the wild winds rose and the waters
froze.
Till they closed like a prison wall,
And the icebergs stood in the sullen flood,
Like their jailors, grim and tall.

Oh God, Oh God! It was hard to die
In that prison house of ice,
For what was fame, or a mighty name,
When life was the fearful price!
The gallant Crozier and brave Fitz James,
And even the stout Sir John,
Felt a secret dread, and their hopes all
died.

As the days and months passed on,
Then the ice king came, with eyes of flame,
And he looked on that fated crew,
And his chilling breath was as cold as
death,
And it pierced their warm hearts through.

A heavy sleep, that was dark and deep,
Came over their weary eyes,
And they dreamed strange dreams of the
hills and the streams,
And the blue of their native skies,
The Christmas chimes of the good old
times

Were heard in each dying ear;
And the dancing feet, and the voices
sweet,
Of their wives and their children dear,
But it faded away, away, away,
Like a song on a distant shore,
And deeper and deeper grew the sleep,
Till they slept to wake no more.

Oh! the sailor's wife, and the sailor's
child,
Will weep and watch and pray,
And the Lady Jane will hope in vain,
As the long years pass away,
For the gallant Crozier and brave Fitz
James.

And the good Sir John have found
An open way through a quiet bay,
To a port where we all are bound,
Let the water roar on the ice-bound shore,
That circles the frozen pole,
Yet there is no sleep, nor no grave so deep
That can hold a human soul.

Why Shake with Chills or Burn with Fever?
Why Rob a Sea-Voyage of Its Pleasures by Allowing
Yourself to Suffer with Seasickness?

Moore's Revealed Remedy Cures Chills and Fever, and
surely prevents Seasickness.

Dear Sir
A. M. French

Dear Sir

By request of the Hon. Secy, I write
that I will do my best to man-
age the business of the office in
1891 to the best of my ability.

Very truly
yours
A. M. French

SCHOFIELD'S

AMERICAN

Vaporizing Inhaler

A NEW TRIUMPH OF SCIENCE,

For the Treatment of all Pains in the Head,
Catarrh, Bronchitis, Asthma, and all Diseases
of the Throat and Lungs, it has no equal.

Patented January 28 1873, Dec. 23, 1873. Re-Issued Jan. 26, 1875.

DIRECTIONS.

1st. Fill the Bulb in the Tube reaching to the bottom of the bottle one half full from Bottle No. 1; great care being taken not to spill any of it on the out side of the Tube or in the inside of the bottle, as it would entirely stop the chemical action.

2d. Fill the Bottle about one fourth full of Water, and in this put from two to six drops of Ammonia from Bottle No. 2, and it is ready for use. Great care must be taken not to blow through the Mouth Tube, or spill any of the Bottle No. 1 in the Alkali, (the mixture in the Bottle) as it would entirely stop the chemical action and not produce any vapor.

Anything can be used in the Inhaler that yourself or any Physician would prescribe, it being the best way of having the Medicine reach the diseased parts.

FORMULAS.

- No. 1. Compound Carbolic Acid, 1 dram, Water, 1 oz., Rose Water, 1 oz. Mix.
- No. 2. Solut. Chlor. Soda, 1 oz.; Tinct. Myrrh., $\frac{1}{2}$ oz.; Rose Water, $\frac{1}{2}$ oz. Mix.
- No. 3. Tinct. Bloodroot, $\frac{1}{2}$ oz.; Tinct. Tolu, $\frac{1}{2}$ oz.; Glycerine, $\frac{1}{2}$ oz. Rose Water, $\frac{1}{2}$ oz. Mix.
- No. 4. Wood Naphtha, $\frac{1}{2}$ oz.; Tinct. Tolu, $\frac{1}{2}$ oz.; Glycerine, $\frac{1}{2}$ oz. Rose Water, $\frac{1}{2}$ oz. Mix.
- No. 5. Aromatic Spirits of Ammonia, $\frac{1}{2}$ oz., Water, 1 oz., Glycerine, $\frac{1}{2}$ oz. Mix.
- No. 6. Tinct. Iodine, 2 drms., Glycerine, 1 oz., Carbolic Acid Crystallized, 2 drms., Tinct. Tolu, $\frac{1}{2}$ oz. Mix.
- No. 7. Tinct. Cubeb, Cinchona, Tolu, Iodine, Camphor, Carbolic Acid, Glycerine—Equal parts of each.

FOR CATARRH.—Formula No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7 will be found very useful.

FOR SORE MOUTH AND SORE THROAT.—

FOR OZENA.—Formula No. 1 or 2 is recommended.

FOR COUGHS.—Formula No. 3 or 4 is recommended.

FOR HEADACHE.—Formula No. 5 is recommended.

TESTIMONIALS.

We are able to present but a part of the testimony received from various sources. In addition to those mentioned below, this method has been indorsed by the following eminent physicians and surgeons:

- Ex-Surgeon General J. C. PALMER, U. S. N.
- Medical Director CHAS. MARTIN, U. S. N.
- Medical Inspector P. S. WALES, U. S. N.
- Surgeon BASIL NORRIS, U. S. N.
- Dr. A. W. MILLER, Washington, D. C.
- Prof. DACOSTA, Chicago, Ill.
- Dr. WALKER, Chicago, Ill.
- Dr. JNO. H. KING, Cincinnati, Ohio.

Dr. Edwin Schofield, Worcester, April 14, 1875.

Dear Sir:—I have used your Vaporizing Inhaler in prescription for Nasal Catarrh and Bronchitis affections, and regard it as well adapted for all the purposes for which it is designed, and superior to anything of the kind I have ever used.

M. P. Brown.

Dear Sir:—I have used the Schofield Inhaler myself and have prescribed it and seen it used by others for Catarrh and kindred diseases and am happy to say the effect was almost miraculous, and the relief instantaneous. It gives me pleasure to add my testimony both to the ingenuity of the Inhaler for conveying Medicated Vapor to the diseased parts and the scientific principles on which it is constructed. I heartily recommend to all who are suffering by Catarrh, Asthma, Bronchitis or any diseases of the Throat or Lungs, as a most valuable remedial Agent.

N. B.—Owing to difficulty of obtaining "H. C." acid "C. P." in small towns, or any of medicines or Inhaling Apparatus, persons will find it to their advantage to order from general agents.

SOLD BY AGENTS ONLY.

M. P. BROWN,

Manufacturer and Sole Agent for the United States,

TACHYGRAPHY.

A SYSTEM OF SHORT-HAND FOR GENERAL USE.

Short-hand has long been considered a "Mystic Art," quite out of the reach of most persons, and only to be learned and used by professional verbatim reporters; and there was good reason for this opinion when the only styles in use were the difficult and complicated ones employed by verbatim reporters, and devised especially for them. But now we have a new system, designed for general use, in regard to which those old opinions are no longer true. It should be distinctly understood that the Art in its present form, known as TACHYGRAPHY, differs in almost every respect both from the old Stenographies and the later Phonographies, and is free from the difficulties inherent in those modes of writing.

What is Tachygraphy?

It is a system of writing having a regular Alphabet, every letter of which is made by a single movement of the pen, hence it saves, to some extent, the time and labor of the pen in making each letter in a word.

for long-hand letters require three or four movements of the pen each to write them, and some even more than this.

No Silent Letters.

But this is not all: in TACHYGRAPHY there are no silent letters. This makes another great saving of time and labor, for in the common spelling about one-fifth of the letters are silent and entirely useless.

How to Learn Tachygraphy.

The process is very simple. You have only to learn the new letters, and how to join them together, and you have it. There is no trouble about learning to spell, and the letters are so simple, and made so easily, that it is much easier to learn to use them than the common script letters. There is no doubt that if TACHYGRAPHY were taught in our schools, children would learn to write legibly and well in a small fraction of the time they now spend in learning to write long-hand.

Easier than Long-Hand.

And now note this fact: after spending a year or two at our common writing, boys and girls manage to crawl through a page at a snail's pace, writing from ten to fifteen words per minute; at the best, and in a very imperfect manner; while a much less time devoted to TACHYGRAPHY would enable them to write sixty or seventy words per minute, and in a neat and plain style. Young persons, and

those already skilled in the use of the pen, will, of course, learn the art much sooner, and write more rapidly, than children.

Plainer to Read.

The fully written style of TACHYGRAPHY is plainer to read than our common writing. This may seem unaccountable to those who have not learned it, but it is nevertheless true.

Tachygraphy for Older Persons.

TACHYGRAPHY may be acquired by people at any age, even by those who can devote only a little time to the study. Clergymen, lawyers, physicians, editors, and literary and business men of all kinds can make it available. TACHYGRAPHY can be acquired by students in their leisure moments, and as the result of a pleasant pastime they become masters of a valuable art.

A Remarkable Instance.

TACHYGRAPHY may be put to a practical use as soon as the alphabet is mastered. One gentleman sent me a letter legibly written by him in TACHYGRAPHY after only two hours' instruction; and many others have learned the art with equal facility.

A knowledge of other systems is often an aid in learning TACHYGRAPHY, and large numbers of persons now use TACHYGRAPHY after having spent years in the cultivation of inferior systems.

Text Books.

"THE MANUAL OF TACHYGRAPHY" is a new work which explains the process of learning and teaching the Art in detail. It abounds in engraved illustrations, "Tables of Signs," "Drills for Practice," etc., and is indispensable to the rapid and easy acquisition of a rapid style of writing.

"THE NOTE-TAKER" is an elaborate work on the "NOTE-TAKER'S" style of TACHYGRAPHY. "For the use of Lawyers, Editors, Reporters, Students, and other persons desirous of taking full notes in Courts of Record, Professional Schools, Seminars, and Public Assemblies." The principles of contraction introduced are illustrated by examples and explained in detail.

The Note-Taker's Style

introduces some of the most simple and important contractions, and is best adapted to the use of students and newspaper reporters, who need a very legible style, and one easily retained in the memory.

The Easy-Reporting Style

is adapted to all the wants of a professional reporter, and can be written with all desirable speed. It should not be attempted except by those intending to make verbatim reporting a profession.

TESTIMONIALS.

CANTON, ILL., Aug. 25, 1875.

Mr. D. KIMBALL—Dear Sir:

I have practiced TACHYGRAPHY nearly three years, and I am convinced that it is in many respects greatly superior to any other system of short-hand. I practiced Phonography (Munson's) until I became satisfied that it was not adapted to my work (that of a clergyman), when I abandoned it for TACHYGRAPHY. I have found this system easy of acquisition, and at the same time exceedingly legible. I write TACHYGRAPHY in its simplest style, and find it all that could be desired.

Yours truly,

H. I. BROWN.

JONESVILLE, MICH., Aug. 26, 1875.

D. KIMBALL—Dear Sir:

Some years ago I began the study of Pitman's Phonography, but, after spending a good deal of time and hard labor upon it, I abandoned it as being impracticable for common uses. Three years ago Dr. Yingling called my attention to TACHYGRAPHY. I saw at once its great superiority over Phonography; but for want of time did not pay any attention to it until this Summer. My experience is that it is very easy to acquire. I now use it every day in my work, and find that it saves me time and labor.

What is best of all is, that it is legible when written. As little as I know about it, I am not afraid to trust it in the pulpit, and make free use of it there as occasion requires.

Truly yours,

J. M. ROBINSON,

Pastor M. E. Church.

ANN ARBOR, MICH., July 19, 1871.

D. KIMBALL—Dear Sir:

I write you this note as a sample of my progress in TACHYGRAPHY after two hours' instruction under one of your teachers. For all who seek relief from the drudgery of the pen, TACHYGRAPHY offers a haven of rest. No one need despair; its ease of acquirement and great simplicity place it within the reach of all.

Yours truly,

J. D. HARTLEY.

The above letter was legibly written in the simplest style of TACHYGRAPHY.

FORT WAYNE, IND., June 19, 1873.

Mr. D. KIMBALL—Dear Sir:

My Phonographic class is broken up already by the sight of your system. My Graham's books are laid aside after so many years of hard study, and I am trying to forget, or rather to merge my Phonography into the better way.

STREETCAR — This electric streetcar served a route in 1887 on Kettner Boulevard to Old Town. Persons in the picture are not identified.—Union Title Insurance & Trust Company photo.

'87 ELECTRIC RAILWAY HAILED AS COAST'S 1ST

EDITOR'S NOTE—Here is another in the series of Evening Tribune articles on historical "firsts" in San Diego.

San Diego's electric railway, established in November, 1887, was the first on the Pacific Coast.

It served a route which ran out Kettner Boulevard to Old Town.

The cars had electric lights which were operated with power picked up from overhead lines by a trolley towed along by a wire attached to the car's roof.

It wasn't unusual for the trolley to jump the wire and fall through the roof of the car onto the laps of the passengers.

The cars were operated by the Electric Rapid Transit Street Car Co. of San Diego.

Cable cars came to San Diego three years later and were operated by the Cable Railway Co.

The system was reported to have cost more than \$400,000. It failed in October, 1892, according to the historical files of the Union Title Insurance & Trust Co.

Old Mexico and Sweetwater Dam

Via National City
& Otay Railway

Personally Con-
ducted Excursions
leave Foot of 6th
St., San Diego, at
9:10 a. m. Daily

A trip to San Diego is not complete without visiting **OLD MEXICO** and the great **SWEETWATER DAM**.

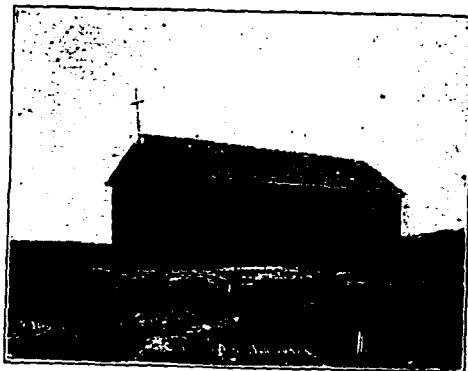

The **NATIONAL CITY & OTAY RAILWAY** runs personally conducted excursions to **TIA JUANA, MEXICO**, and **SWEETWATER DAM**, daily, leaving station foot of Sixth street, at 9:10 a. m., passing through National City, Olivewood, Chula Vista, Otay and Nestor, towns noted for their beautiful orange, lemon and olive groves.

From the cars one commands a grand view of Mountains, Bay, Ocean, famous Corpus Christi Islands of Mexico, with San Diego, Point Loma and Coronado, with its magnificent hotel, the Mecca of pleasure seekers, in the distance.

After traversing the shore line of San Diego Bay, and winding through beautiful suburbs the excursion arrives at Tia Juana, California, the terminus of the N. C. & O Railway.

Visitors are taken in comfortable stages across the border line to the old town of Tia Juana, Mexico. Here ample time is given to visit the Curio Stores, where one can purchase fine Indian Pottery, Blankets, Drawn Work, Mexican Cigars and Souvenir Postals.

Parties wishing a genuine Spanish dinner can procure same at the Spanish restaurants. The Excursion Agent conducts the party

Old Adobe Church

to the Mexican Custom House, where handkerchiefs can be stamped with the Mexican Coat of Arms, free of charge; then to the

Adobe Church, historic Jail, and Bull Arena, where the famous Spanish Bull Fights are held.

Bull Arena

Returning to the train, time is given to visit the Granite Monument which marks

the boundary between the United States and Mexico.

Standing at this point one can see for

Spanish Maguey Plant

many miles into Mexico—Table Mountain in the distance, the Tia Juana Hot Springs, Guard House of the Rurales, and the fertile valley of the Tia Juana River, which in the year 1895, rose to such a height that it swept the former town of Tia Juana away.

Boarding the train we return to National

City, the transferring point for Sweetwater Dam. Lunch may be procured at either Olivewood or National City.

Passengers wishing to visit the reservoir in the afternoon can do so without extra charge, returning to San Diego at 4:20.

Parties not wishing to take side trip to the Dam, arrive at San Diego at 1:25 p. m., connecting with special electric car for the northbound Santa Fe train.

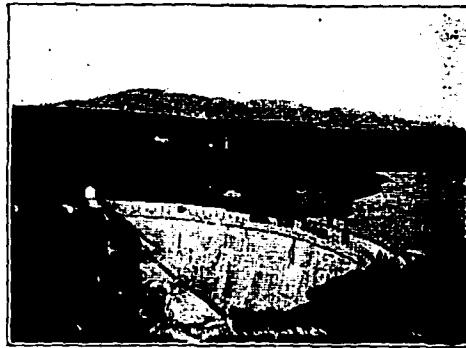

Remember this line offers tourists the only means of leaving San Diego at 9:10 a. m., seeing all the sights of Tia Juana, and returning at 1:25 p. m., leaving the afternoon to visit other places of interest.

Excursions are in charge of a courteous Tourist Conductor, who points out all the places of interest, his motto being "No trouble to answer questions."

Fare for the round trip, including stage to Old Mexico, and side trip to Sweetwater Dam, \$1.00.

To the Great Sweetwater Dam

This dam is considered one of the greatest.

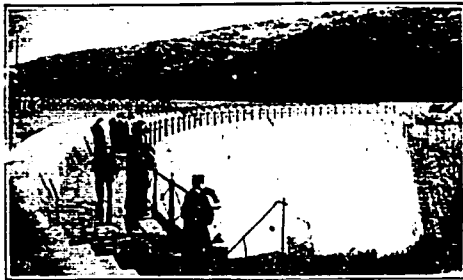

Sweetwater Dam

engineering feats of modern times.

The wall of masonry which retains this vast body of eight billion gallons of water is

100 feet high, 500 feet in length, 17 feet thick at the base and 12 feet thick at the top.

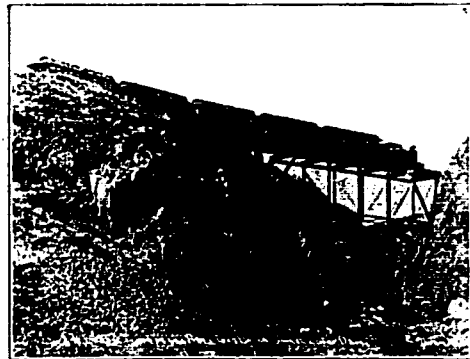

Built in 1887, it now has under irrigation four thousand acres, the lake itself covering eleven hundred acres.

Sweetwater Dam

On the trip to the reservoir one passes through Bonita, Sunnyside, Bonnie Brae, Avondale and Aloha, located in the Sweetwater Valley, where fruit growing is extensively carried on.

The large Quarry just below the dam has furnished thousands of tons of rock for the Government Jetty and Coronado Sea Wall.

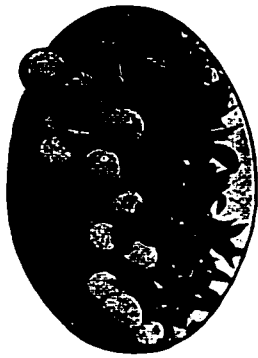

High Bridge, Sweetwater River

Passengers holding excursion tickets to Tia Juana are entitled to this trip without extra charge.

A Trip of a Few Hours For the Afternoon

Excursion leaves Depot foot of Sixth street
at 3:30 p. m. daily except Sunday.

Passing through the eastern portion of
San Diego, excursionists reach the City

Limits, then National City, Olivewood, and Terrace, arriving at Chula Vista, situated in what is known as the "Lemon Belt of America." An unusual number of beautiful residences are built here. The largest lemon orchard in the United States will be seen on this trip, and hundreds of car loads of citrus fruits are shipped yearly.

Passengers are given ample time to visit groves and large packing houses, returning to San Diego at 5:50 p. m.

Fare for round trip, 50 cents.

For further information inquire at Hotels, all Railway Ticket Offices in San Diego, Hotel del Coronado; Ferris & Ferris, 5th and H streets, Putters, 5th and D streets, N. C. & O. Station, foot of Sixth street, or

These cars pass through the business and

finest residential part of the City to the Heights, passing the State Normal School, then on to Mission Cliff Park.

Here one views picturesque scenery, the grand view of Mission Valley, with its historic

General
Logan

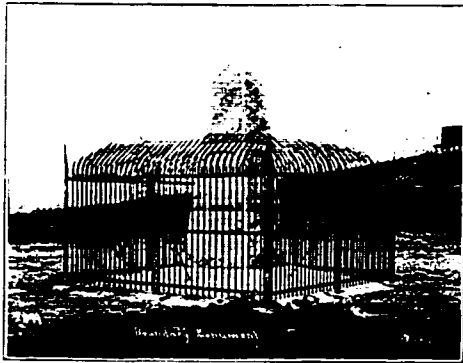

old Mission, built by Father Junipero Serra in 1769, high Mesas, False Bay, Ocean and Mountains.

While at the Park visit the Ostrich Farm, where 115 magnificent birds present an imposing sight.

This farm is one of the finest in Southern California, manufacturing all their own plumes, boas, tips, etc., and their exhibit rooms afford the sight seers much pleasure.

Among other sights, the Pavilion with its sunny verandas and easy rocking chairs, where one may rest and enjoy the surrounding beds of rare plants and flowers; swings to amuse the children; winding terraced paths which lead to observation points; botanical gardens; the enclosure where a number of fine California deer are on exhibition, and last, but not least, the Camera Obscura, which affords one a matchless panoramic view of the surrounding country for miles.

Persons wishing refreshments, can procure some at the Pavilion.

Boundary Monument
