My letter Jan 1st 1845

Dear Son I cannot refrain from thinking that you are now in deep thought for us here we are ready to receive Calver, We thought at first as you was away and I did not intend to remain in the City it would be best not to receive company but when I said would not go to, Wm. sister said it would be most pleasant to conform to the custom we have provided, much the same as usual each one that comes inquire cordially after your health. Young Mr Pulmon has just called thinks he will sail for Dublin in a short time, hope he may see you there as I mentioned you ^{thought} of going there tis a most beautiful day over head there was snow a few days back which makes the crossing bad, all appear to enjoy themselves very much. I do not know if Hen will make any call, when I spoke to him he said he would go this afternoon I am sorry that he would not make himself that agreeable as you know I quite advocate the cause Harris has not been yet I may learn the reason one of these days do not mention it to him. I got some confectinary of sweets he says he will pay the balance in a week I shall

exclaim, and, one in a strange land I
can assure you did I not think of you?
You must be forgotten! what a pity that

We had a letter from John yesterday - he wrote 30 days
But well with a coarse towel and the back
of your neck wash your feet at night
once in a while in warm water before
going to bed; at all times keep them dry
and warm on it drives the blood to your
head which is weak and you must try
to strength it, you write of your dictionary, I
am obliged to write on as fast as I can but
my age must excuse me! As you say you
must keep up appearances, if you wrote about
traveling with a pack I thought it all in fun
Yes I say all I ask is good behaviour you
say I am clear of you Why you are more
trouble to me than ever a strange kid^dance!
poor child. I did not send word that H.
had got your likeness I have worried
myself to about it and begged Her to
learn where Mr P. was. As I send Codman
in Broadway but the man said Mr W.
had said it could not tell his place of
Business only that he was in Lawyers
office Her asked John Pyle he told him in
the City Hall to be seen only in the Evening I
am continually reminding he puts me off
I am affraid I may lose it, I would not for
any Money I have frequently wished I had
given my last cash for it when you was
here, I did ^{not} know that Mr P. ^{was} to move,

that it is safe; I will try to get Hen to go,
I tell him it is quite unkind in him, me
excepted. ~~Hope~~ all will be right, Thomas you
must be very industrious more than usual
at home, from 7 till midnight. You write
that your funds are low, so I suppose, one
~~remark~~ in your last comforted me was that
you could borrow a little cash, in a case of
emergency. Henry did not get this bell of
the same house as you will see. The
Broker told Hen that you would receive \$160
the same as he paid him. He said he
wrote to you in the letter 1 of Jan containing
the first bill send particular word as we are
to inform the Broker. I will send your next
bill soon. I imagine it was only a idle
humor about breaking Uncle Will. Sister
must have a silk dress soon, as she
is much in want of one. I can buy it and
send for a nother, I can not see how you
can be christened and take your Godmothers
name I am happy to hear Mr D has such
fine Sisters tell them from me they know
some of my feelings by absence of their
Brother Leopold and that when they come
to America I will receive them cordial^{ly} for
his sake, as a gentleman; how is his Uncle
Daughters, I have just informed myself

manner. I wish I knew of Mrs Smiths place of
abode, I ^{to} ~~then~~ what you said about Capt

Paris or you leave. you write of Sister working
as a pair of shoes, it might not be agreeable
to him, they may agree upon it I always
estimated C very much and am very much
surprised that he did not come on Rogers
day unless it is disagreeable to him, I am
certain Sister expected him. you see our house
has not any number on it, so I wrote it
in my wrapper on your letter to Charles I can
not do more I think your letter to him was
very kind and interesting it gave me pleasure
to read it I would not think of buying horse
dog or animal of any kind but train in a
gentle manner, or not at all I shall begin to
make calculation for you to return home after
a time no I did not keep your birthday I

you say we had better be apart than to

no more, of it as it is to be passed away
and new performance to be exhibited in all
exercises; and you are to become the kind
affectionate child you was wont to be,

should like if I could get some one else as it would very troublesome affair I told him
I was sorry to hear him wish to decline as I did not know anyone else that considered
it as well as he I have written you all this before I do you suppose I would pay them
and then as Whiting says get my pay how I can. I have paid a man of 40 years Mr W
told me the other day that he could not see how the Chancellor could decree the sale
of the lot as by law he has no business to take the mortgage so you see the difference between
Mr and Van you know we have been told so before how the matter is thus they have pited
to sell the lot and are still advertising for you and will until March as law directs
them. W says we must answer why it shall not be sold then the C decides upon it the
Clerk says it will look up the minutes of the H. I think you disapprove of it I would
wish you to give up and let them have their own way, I shall go again soon, the Clerk
says we must bring down the business Book and let him see what back he had on
other things let the Clerk see what it may I cannot give up and not too. The Clerk said no
wonder we could not get many of Langer Holden. I think it will not be settled by you
I do not laugh to W. he says mortgage is the answer. Why Van seems said they had a right to own
Receipt Book and. He said by did not speak. Then said what do you think of it. He said he
could not see how it was, then said no more. did not seem interested about it all
I felt quite unpleasant to see him so in diffidence. you say let it do as he pleased then
do I hinder him when he does not speak on any. I shall tell what I have done and
ask his advice upon it at the time I tell. I think he was not in town. I was fearful
they might sell the lot so I went to W. and in the Van told Mr H. he had no grounds
to work upon, how is business. I do. but did suspect of him, and apply to those who were
disposed the case and I know by how you would have been glad to hear Van said it
he did. When I spoke to Mr H. about him he said you were both excited. I spoke about
he spoke in their favour if he was excited and called me Uncle Agost. He said I told
you think of this. I paid him 100 and wish not to call upon him again. my opinion is that
I have no great things. He told me he knew but little of him, other than he had conducted some
little suits for him. I did not appear to like his manner. I did not know that Mr. Burton
and the Union. you might have been mistaken I would have sent you some cash if you could not
have received your own we do not mind this letter as difficult the head as found of the staff. Van do
not write so fine it will make your head ache. I do not know of any great trouble between
only I is dilatory and delays in on H. now as I has lost his wife he will not take her name from
the business. you can claim of your pen I must send the girl to buy me one. I believe I have not
seen the advertisement of us three. I am happy to hear that you are so comfort of your health. I
think Mr. B. is about to follow my good vice. I hope he will do well. I would not write to Eliza
was good you must try to do the best. I am now at a point of a book. a Centime. I do not say the best
kind is and the other is quite well. you speak of buying. He told I do not know what the money is
to come from. you think I have much more than I have on hand. of my first cents. I hope have
to Van. Mr. Van is I suppose sufficient left to defray my expenses. I have been 100
and and lived and find my debts. I have but about 100 included a daily. and then for
I hope if you do not think I have lost my money and paid no one, I have spent wisely
dollar and so you will say I sent you a little. I am now in my last battle. you may see
that I am trying to be comfortable. I have not seen anything of Mr. Burton. you might be con-
vinced of your own heart. I hope you will continue to act as you wish. A. H. Baker

a first affectionate good-bye to more than gold & a than line told "You have been too
indefatigable" is to me as a life and death. It is now a question to me the events of life
in all its various positions, it gave me pain and pleasure, and does bear down in my
head what I might have to suffer in consequence of some confusion with your request & I might
have to endure had you been in need of money as he is not certain. With the best of wishes
care of you, there should be the remorse of mind and how what reason? I expect it will both you
and should be satisfied with myself. I am sure will not remain so long in a place as it will be
the expense to much at one time & I spoke of being home to stay. I think you must
be with rather rather than you start in your last. I do not see the use of living so long in a
place I wish you to travel more freely and go to all the places you speak of as I am certain
the income will be more than you intend to be able to be able to pay, you may think
you know and be mistaken I would rather go a shorter distance and be contented than
do so far the time is fast approaching for you to depart. I hope you will well make
the most of the money I look at it as certain you would return safe Paris or England. I have an
kind opinion of the Italians and you so unimpaired. I will try to assist all that business
Power I can do no more I have sent you ^{see you} cash for the bill of exchange but the broker
said you would receive the full amount of that bill I was wrong at sight I will see
the other. I have then goes I cannot put any to it as I have not to spare & you see
you make wrong ^{stagnant} action. I wish you to stay at home not to travel on the top of stages to mind I must
warn I in the morning they say the climate Italy is so hot I told them so in my dear rooms can
the little death to them do tell I did not see it so much. I wish you to stay in a strong land near
to a good House for nights, so I wish you to go with you, I should say you had not got to
exchange on Paris to Italy, I must see if I get my bill, I have little on hand I will
let you know but I have so mistaken to think I have much cash on hand at present do not
widen me I have sent you 100 of your which will make 170 I will put 10 to it which will
make 180 or more if I can I do not think you have made a good division of your
money do you suppose it is? I believe you to be a very much in your habit
I do not think it will I hope you will not be calling for any more on what I shall send
I want to know if you intend the 9 days has had already in to make up a reasonable
allowance you say all I can do is to pay. I have again said I am willing to
gratify if it remains in your I think you have better leave some of your money with the banker
as you say it is good as I think you run a great risk to travel so much with you
fear of being robbed and perhaps murdered. I think of this, how would it be for you to send
some bills here change on to Italy then they will be there by the time you are. I feel in
easy on my accounts for your safety if I cannot send you all you must
do that I can send it to Richard if he is safe. I will write again by the first ship
that sails attended and all your instructions, I shall have to be very careful to let you
know as much as you want and can afford it but you say it will be impossible for
you business I must it would not affect me so much if I could let you have 150
dollars at a time as my last was as how is it I am in debt I wish you could come
with me I as he has shown to do then you would not have been alone do not keep
your money at night put it in the bank and draw as you
need it

Dear Son Your packet of letters of Nov 6th and Nov 19 has been duly received, I am happy to hear that you are well, I wonder, that you are, as the weather is so, unfavourable to your Constitution I pray that you will remain tolerable healthy, as we are at present. John writes that he is quite well then says he shall return home in a week, I wrote to J and asked him to make you present towards repaying your expenses, he says he wishes you to be gratified, and that he is willing to assist, I wish to know what you intend to do when you return home as I cannot stay so for much longer, I wish I could see that you are to be benefited by your journey only your seeing and you are so forgetfull, I hope you are strict to your journal, as your head is weak do not write so fine any more as it is very hard for me to read it and I am certain I ^{not} would write so to your friends, as some of are very careless in answering you, I would like you to write like me then I would read it all myself and answer you, more correctly. Sister ^{reads} them for and some words where the red ink is mixed with black we cannot make out, as your paper is so fine I hope you have had some intelligence of your money by this time] Jan 13th

Why Van namee, said they had a Right to our Reciept Book, and H sat by did not speak, I then said I what do you think Mr. H. he said he could not see how it was, then said no more did not seem interested about at all I you say let H do as he pleases how do I hinder him when he wont speak or act, I shall tell him what I have done and ask his advice upon it. ed and call me Uncle Agent. No he, said what do you think of this
I paid him \$25 and wish not to call upon him again, my opinion
is that he is no great things, H told me he knew but little of
him, other than he had conducted some little suits for him. H did
not appear to like his manner. I did not know that Mrs Cochrane

I expect we both you and I should feel unhappy. I hope you will not remain so long in a place as it will make the expence too much at one time you spoke of being home by 4 of july I think you must travel rather quicker than you state in your last as I do not see the living so long in a place I wish you to travel more speedy and not go to all the places you speak of as I am certain the expence will be more than you calculate or I able to help to defray, you may think you know and be mistaken I would rather go a shorter distance and live genteel than drag so far; the time is fast approaching for you to depart I hope you will well consider tis not the money I look at if was certain you would return safe to Paris or England, I have an unkind opinion of the Italians and you so uninformed- I will try to assist all that lays in Power I can do no more I would have sent you all your Cash on the bill of exchange but the broker said you would receive the amount of the 160 bill if was drawn at sight I will send one other before then goes I cannot put any to it as I have not it to spare you see you make wrong statement. Dear Son,

Your packet of letters of Nov 64 and Nov 19 has been duly recieved, I am happy to hear that you are well, I wonder, that you are, as the weather is so, unfavourable to your Constitution I pray that you will remain toberable healthy, as we are at preasent. John writes that he is quite well Ben says he shall return home in a week, I wrote to J and asked him to make you a present towards defraying your expenses, he says he wishes you to be gratefryed, and that he is willing to assist, I wish to know what you intend to do when you return hom as I cannot stand for much longer, I wish I could see that you are to be benifited by your journey only your Seeing and you are so forgetfull, I hope you are strict to your jornal, as your head is weak do not write so fine anymore as it is very heara for me to read it and I am cirtain I would not write so to your Friends, as some of are very Careless in answering you, I would like you to write like me then I would read it all myself, and answer you more correctly Sister reads them for me and some words where the red ink is mixed with black we cannot make out, as your paper is so fine I hope you have had some intelegence of your Money by this time) Jan 13# I have just come home from making inquiries among our for letters to introduce you. I find sister has recieved yours of the 7th of Dec in which you continue to importune me to consent to your traveling, I did call at Mr. Porters with your letter, he spoke rather favourable to your intentions, I am to call again) Mr Montgomery

came up to see me last evening he said he knew some Italian
gents who he would speak to and he said he would write a line
to Mr Forest the lecturer as he is in Paris at this time it may
be of service to you, I saw Mrs. Megay today quite pleasant in
her manner said she would tell him to call up, if not I call
again, I am pleased to hear that your friends are kind to you,
why does not Mons answer your letter, I hope you will write
particular word to the Miss D. about Mons they was very much
pleased with your letter, and say they may get you some letters,
I am happy to hear that you are quite well. Hen will not help me
to get your letters, he says tis useless I know better, I hope
you will not write so very fine, I would write a genteel note to
Mr Montgomery, and to Mr Mc Gay. I asked Mr Porter if Lornole had
written to you he said he did not know, I have not seen him, I
told Miss D to give my respects to him and tell him we should be
happy to see him, as he visits there often, tis as you say There
is always something to prevent me from living as I might I hope
my loss will be my childrens gain. Jan 15th Harris has just called
to inquire of you, he will finish his letter for me to inclose in
mine and says he will write to his Father who will give you a letter
he thinks his partner will likewise, he looks much the same he
says he will call again soon, Mr Mc Gays wife is native London, I
wish you comprehend what I write, as it is not very good composition
as the subjects are so varying, yes Nat says I may well say that
Mrs. Mc Gay said she wished me to have the front of the house
painted if they remain, she says the stoness is kept very quiet.
You see I have to write as I think of circumstances my mind is
harrassed as I have evrything to think of, I paid Grandfather board
my storage and board came to £1.50 per week for us two. I think
you do not read my letters attentively) I only saw Van twice

then sent for by Mr. H. He then said he saw no ground to fill a bill, but that we had better pay the mortgage and that he looked on me as Mr. Pyes agent, I then asked Mr. H what he thought of what Mr. V said he smiled and said he could not say so he departed I to) when I saw him in Aug 3 he Marsel said should like if I could get someone else as it would very troublesome affair I told him I was sorry to hear him wish to decline as I did not know anyone else that understood it as well as he. I have written You all this before Do you suppose I would pay them and then as Whiteing says get my pay how I can. Mr Gay a man of .0 (?) years Mr W clerk told me the other day that he could not see how the chancellor could decree the Sale of the lot as by law he had no business to take the Mortgage so you see the difference between W and Van you know we have been told so before Now the matter is thus They have fited a to sell the lot and are still advertising for you andnd will untill March as law directs Then W says we heirs must answer why it shale not be sold then the C decides upon it the clerk says W will look up the min tes of the 4 S " Suit You disaprove of W. would wish me to give up, and let them have their own way, I shall go again soon, the clerk says we must bring down the business, Book and let him see, what cash he had on hand at the time, let the result be what it may I cannot give up and not try. The Clerk said no wonder we could not get money of Lawyer Holden). I think it will not be settled Ere you return I do not talk to Mr W. he says Mr. Gay is the same. Why Van names, said they had a Right to our Reciept Book, and H sat by did not speak, I then said I what do you think Mr. H. he said he could not see how it was, then said no more did not seem interested about at all I you say let H do as he pleases how do I hinder him when he wont speak or act, I shall tell him what I have done and ask his advice upon it. (at the time I left Van he was not in town

and I was fearful they might sell the Lot, so I went to W mind!
As Van Meld. N.E. he had no grounds to work upon, Now! What! Must!
I do but rid myself of him, and apply to those who understood the
case and I know W does. You would have been Mad to hear Van talk
as he did. When I spoke to Mr H. about him he said you were both
excited. I replied should he speak in their favour. if he was excit-
ed and call me Uncle Agent. No he, said what do you think of this
I paid him \$25 and wish not to call upon him again, my opinion
is that he is no great thing, H told me he knew but little of
him, other than he had conducted some little suits for him. H did
not appear to like his manner. I did not know that Mrs Cochrane
was gone to Ruion (Rouen), you might have been Certain I would
have sent you some cash if you could not have received your own
We do not find this letter difficult to read as Yours of the 19"
of Nov do not write so fine it will make your head ache, I do not
know of any great trouble between John & Hen only J is dilatory
and depends all on H now as J has lost his wife he will not take

Bruce Whaley - Letter

Jan 26, 1845

Dear Son, 'tis the sabbath and Jan. 26-1845, letter 10th
as usual I am seated, to my
writing, finding it a incumbent duty, as
well as a pleasure, and hope you will do
justice to your superior ideas of filial
affection, by truly appreciating my
many indulgences, I make this
remark to inform you that I consider
capable of all. I request of you as you
have arrived to that age, we may
expect you to estimate your opportunities
with honour and gratitude towards ^{me}
your maternal protection, who will soon
begin to count the time for your return. How
shall I rejoice to receive you and improve
to as child disposed to heed the counsel
of his mother, but if on the contrary, how
shall I appease my disappointments, what
will give me relief, my heart chinks within
me at the thought, as then I know of no,
redress but bitter anguish, which time and
death must erase as it will, all our earthly
joys and sorrow, you know I always said
I wished for one wise child. Even in a
small degree, I may not repent my
favouring you. All I ask is in your
own limits, I have ^{been} disappointed with my
children, and you know what I say to

Winter a kind of nothingness when I feel he was thinking as much as I did of his own
not desirable of feeling, and has endured many trials, though in the most of deep sorrow his mind is
said those feelings, the most sensible of to sensible persons, you may know to this
time to judge, that school of experience, how hard to be taught but here I did everything
what will be the most pleasant in you to hear. I am to buy some deep new (washed) coat
it appears to be. But when you return much certainly go at some kind of business, as I am not willing to
live in this condition and I have seen the world is considerable about it and it is to be
another road is not to be wished to set me as I thought, here as the best of the things you may find
this as your best trial, and if you do not improve greatly, then I shall be obliged to give
you to be consoling, as they have spoken in your favour so much by other friends
a letter to me with a little report of your progress, and good conduct I will feel pleased
should it be given to me, as I have not seen you for some time. I am delighted, only I am
it is considered, do not be offended at this, I agreed with, I want to do so. I hope you have been to
Oxford & Malvern as I wrote in my last, all our friends are well. I shall
know when you return to B. then if I wish you to make my functions for me I will send word, you
must bring them to me for I am, do not forget your journal whilst traveling, I have been the
last and my mail cannot make the same without more expense than you say, if so select
the wind is strong, do listen to good counsel and do not be disturbed if I have agreed
to you for good, his under circumstances I shall be, he is in, with my friends
to go to the sister to purchase a house, and take the deed in her name this must be
done if I live, I hope I will as I do not like to live in other people's houses I often think
of it, I should be situated, if you can, I had lived one of his last requests to me to
do so, do not deprive yourself to save for the children, I have not heard of it.
I have been from you, some times at my own deprecation, then I feel it is better
to be in the city, and I have been some times the best of me, when I
think of it, what changes I have been through, may I not forget to feel boundly thankful on all
occasions? I have been some time without feeling your love, he thought so much that I
should have found it, I would wait until I know. I sent him away immediately to
get it, for I have been so long to look for your letter I shall be very much
disappointed if I do not get it this week, I shall be so sorry to see Charles so much too
late, do not say your love, send me soon what it is, your brother's name and how much
for the packet I expect Charles will send his letter to you this time. I am all dismayed
then should not go. He is in trouble, I am in trouble, I gave him
note and told him to call on the last day, I got it all right, I thought I should
well and as high as our last position, will let us be, as you know, I have just sent
the girl down to call on her letter to you and Maria, I expect it will be quite in-
teresting to you, I am sure, so all kind of to all our friends and all your kind
friends, I should not take any drink cold as you know, and I am sure, as you
know, I should like to warm, I am sure, you must take some, I am
sure, I should like to see him, the other day he was out, I am sure, I am sure, I am sure,
therefore my dear child, I must leave you to the will of the Lord
who preserves the way, walk ye therein, and grant that you may return
safe to your absent Mother

I write a kind Brotherly letter to John he may think heard as he has lost his wife you know he is not destitute of feeling, and has endured many trials, though he must reflect upon himself some say those feeling, are the most sensitive, to a sensible person, You may know by this time so how to judge, that school of experience, how heard to be taught by. Here I sit reumanateing what will be the most pleasant for you, to hear. I am to buy Sisters dress next month as she wants it. Thos when you return you must cirtainly go at some kind of business as I am not willing to live in this contracted way I have been thinking considerable ^{about} it, and was Father living he would not be willing to let me do so, though he was the best of Fathers, so you may take this as your last trial, and if you do not improve greatly how I shall be blamed by all not one to console me, as they have spoken in your

favour so freely let, Mr M Send a letter to me with a little report of your propriety and good conduct I will feel pleased should it be favourable, as Yet I have only Your own word not that I am doubtful, only want it corroborated. do not be offended at this, I agreed with, Mons to do so. I hope you have been to Made (Alle.) Montardieu as I wrote in my last. all our Newark Friend are well. I shall know when you return to F. then if I wish you to make any purchases for me I will send word, you must bring something for Sister, do not forget your journal whilst traveling, I have traced the Map and say you cannot make the Tour without more expence than you say, if so select the most interesting, do listen to good consile and do not be obstinate, if I have agreed to your proposalls tis under circumstances I shall be, behind hand, with hundreds to add to purchase a house, and take the deed in her name this must be done if I live, I hope I will as I do not like to live in other peoples houses I often think how nicely I should be situated if your Dear F had lived) One of his last request, to me was Rather do not deprive yourself to save for the Children; I have not hoarded it up tis true, but spent upon them, sometimes at my deprivation, think if it is not time for me to live easy, and, Father has been gone 15 years the 14th of next month I say when I think of it what changes I have been through, may I not forget to feel humbly Thankful on all occasions Thomas H. has just come home without getting your bill he thought as Mr M had not returned from Washing he would wait untill tomorrow.
