## WASHINGTON NEWS.

Arthur will Work Through the Holliday State Cabinet Task. New York, December 13.—The Daily Washington special this evening says: It was stated at the White House this morning that the report that the President would spend the holidays in New York is incorrect. The President is now crowded with business, and will gladly avail himself of any temporary absence of Congressmen and other seekers to bring up his affairs of work. There are many subjects to which he wishes especially to devote his attention, which he has not yet been able generally going to the demands upon him. Senator Jones, who has been nominated, will be made on the recommendation of General Grant, and he thought the selection would be safe or chaffee.

Postmaster-General James retires on the 1st of January, and becomes President of the New York Bank.

## SENATOR JONES INTERVIEWED.

CHESTER, Wyo., December 12.—Samuel Jones of Nevada passed east to-day on the way to Washington with his family.

The editor of the Leader in an interview asked the Senator if he would accept a Cabinet appointment. Jones replied that he would not, and stated that he had advised President Arthur not to make the mistake of Garfield and take his Cabinet from the Senate. He thought it wrong to appoint Senators, because of the obligation to retain them throughout the Cabinet term. Senator Jones expressed the belief that the President would adhere to the true Republican idea of accepting the testimony of Senators and Representatives re-

which Willets will offer to-morrow. Willets also introduced three other bills, which were offered by him in the Forty-sixth Congress, and referred to the Judiciary Committee, which never made a report upon either. The first relates to the crime of bigamy, and proof thereof. The second is to provide for challenges and oaths to juries in trials for bigamy and polygamy in the territories of the United States. The purpose of the third bill may be inferred from its title, which is, "A bill to further regulate suffrage in the territories of the United States, and to fix certain qualifications for . . . and to provide further for the reservation of votes in the territory of U.S."

*Evening Journal*, dated Dec. 13.—Washington, December 13.—In the Senate to-day Senator Jones spoke at length on his Civil Service bill. In the course of his speech he reviewed the motives prompting Garfield in killing President Garfield. The cause for such a crew of wicked devils, he said, are embodied in our present system of civil service. He depicted in strong terms the dangers of expectation and love of office, and its corruption and degradation of public sentiment, and declared that we must eradicate this system. He invited discussion and criticism of his bill. He closed with an appeal to the Republican Senators who have the power and influence of the Democrats, who would sooner or later have to decide that merit alone should win place.

## SENATE FINANCE COMMITTEE.

WASHINGTON, December 13.—The Senate Finance Committee approves Sherman's bill for the issue of three per cent bonds. Secretary Folger will appear before the Committee on Thursday and give his views.

## Railroad Charges.

Senators Mayey, Vest, Groome and Ferry presented resolutions for the prohibition of unjust discriminations in railroad charges.

## Woman Suffrage.

A meeting will be held at the Chapter House in Westminster Abbey to-day in memory of the late Dean Stanley. The Prince of Wales will move resolutions, which will be seconded by Lord Granville, and supported by Mr. Lowell, the American Minister.

## SHOOTING EXTRADITION.

BOSTON, December 13.—At the pigeon shooting match to-day between Carter and Gordon 100 pigeons each for 100 pounds a side. Dr. Carter standing at 34 yards and Gordon at 24 yards, the latter using one hand. Gordon killed 67 birds and Carter 61.

## RELIGIOUS FUNERAL SOLEMNITY AT VIENNA.

VIENNA, December 13.—An immense concourse of people was present this morning at St. Stephen's Cathedral, where a solemn mass of requiem was celebrated for the repose of the souls of the victims of the fire. The Cathedral was entirely draped in black, and a catafalque erected which was covered with black plants and candles. The clergy entered the Cathedral in procession, followed by the Crown Prince, Arch Duke, Members of the Imperial Household, Court dignitaries, Ministers, Members of the Reichsrath, representatives of the Army, Civil service, municipality, etc. Bishop Angerer officiated. The Court organ choir assisted, and their voices were occasionally drowned by the agonized sobs of the mourners. The large square in front of the Cathedral, and the adjoining streets were filled by many thousand people.

## ARIZONA MATTERS.

Failure of Shaffer & Lord at Tombstone. TOMBSTONE, December 13.—Shaffer & Lord, general merchants, closed their doors yesterday. Safford Hudson's bank has commenced suit for \$1,300; Captain W. C. Foreback for about \$3,000, and others for smaller sums. Their bookkeeper told a reporter to-day that he thought they would resume at to-day day. This, however, is doubtful. The firm have done a large credit business, which is no doubt the primary cause of their failure.

## MISCELLANEOUS TOMBSTONE ITEMS.

The cars will be running to Benson in one week. A contract has been let to build a large depot there.

The tide of travel to this place is constantly increasing.

The Epiphany's ballad report estimates the total bullion yield from the date of the discovery of the district to January 1st at \$7,321,992.

## THE SITE OF NEW YORK.

Official return of the census of New York City as regards population and dwellings have been received. The population (1,266,577) was known before. The most instructive item, next to this, is the number of persons to a dwelling (16.37) which is not so large as might have been supposed when we consider the multiplication of tenement houses and large apartment buildings that has taken effect during the last decade. The average number of persons to a family (4.05) remained about stationary, being a trifle greater than in 1870 and less in 1875. The increase in the number of dwellings in ten years is a little under 10,000, but the increase in population a little more than 250,000. It appears, therefore, that whereas the dwellings of ten years ago contained on the average less than fifteen persons each, those that have since been added contain nearly twenty-five persons each (supposing the old ones to be no longer crowded than then), raising the average for all the dwellings, old and new, to the figure given above. It is undoubtedly true that the arrangements for comfort and cleanliness, and consequently for health, in the new dwellings are greatly superior, even for the increased number of occupants, than those of older date. The population of New York, regarded as a commercial center, can not be properly estimated without including Brooklyn, Jersey City, Hoboken and Staten Island. The aggregate population here collected, while its focus is on Manhattan Island, is considerably above 2,000,000, and half again as much again as the point of numbers with the city.

editions in the Senate. Actions Bill  
Introduced and Referred.

SACRAMENTO, Dec. 12.—In the  
e-day Edmunds introduced a bill  
to abolish polygamy; the same bill which  
was introduced in the 45th Con-

gress by California introduced a bill

calling for the appointment of three

commissioners by the Secretary of the In-

terior to proceed to Arizona and examine

claims presented for the value of prop-

erty stolen, destroyed, or captured by

one Indians. The Commissioners are

quite full particulars, supported by

witnesses of the claimants, and witnesses,

upon whom sworn testimony may be taken,

claim shall be considered, adjusted

allowed or rejected, according as the

value of the contributions may deter-

mine. Claims for damages are to be ad-

judged, and the allowances are confined to

actual value of the property lost. The

Commissioners are to submit their report

to the Secretary of the Interior, who in

is required to transmit it to Con-

gress, as a basis for an appropriate bill.

#### A Significant Document.

WASHINGTON, Dec. 12.—There was laid

on the desk of each Congressman this

morning hand-tooled bound engraved

leather on one fold the President's

message on Polygamy, printed in letters of

gold, and on the other fold, in crimson

ink, a resolution made by George Q. Cannon,

his position on the Mormon question,

which is inscribed: "Respectfully dedi-

cated to the Forty-second Congress by the

ers for the Speakership.

It is reported that some time before his

ascension, General Garfield held a long

consultation with Willets in regard to a

new of government for Utah. At first the

President was strongly in favor of rendi-

ng the government of that territory to

the governor and judges of the Supreme

court thereof, but after a thorough discus-

sion of the subject, he averted to the

views which are embodied in the bill

calling for copies of the correspondence  
between the State Department and Minis-  
ters to Peru and Chile, in relation to the  
affairs of those Governments. It is said  
to be a strike at Blaine, from the stately  
quarter. It is claimed that Blaine has only  
given such of his correspondence as tends to  
relieve the State Department of responsi-  
bility for any misunderstanding, but that  
the entire correspondence will show that  
the best advice to the United States were  
against the course adopted by Blaine, and  
that the State Department is to blame for  
the trouble.

Morrison, of Illinois, has introduced a  
bill to reduce all tariff duties one per

Eads' Tehumantepe Ship Railroad.  
Yesterday introduced Eads' bill for  
the construction of a ship railway across  
the Isthmus of Tehumantepe. The bill  
provides that Eads shall first demonstrate  
the practicability of the scheme by the ex-  
penditure of \$75,000,000 in preliminary  
work, and that when the plan is proved  
practicable, Congress shall guarantee bonds  
to the amount of a hundred million dollars.

#### THE GUITTE TRIAL.

Evidence of Dr. Forde Barker on the  
question of insanity.

WASHINGTON, Dec. 13.—In convening  
the Criminal Court this morning, Dr. Forde  
Barker, a distinguished physician, testi-  
fied defining insanity in several phases.  
His comprehensive, positive conclusions all  
accorded with the theory of the prosecution.

Judge Cox asked what the witness meant  
by "incredible impulse." The answer was,  
"An accession of emotion to such  
a degree as to produce conduct entirely at  
variance with the individual's former life,  
and to such a degree as to completely con-  
troul the will power, would constitute irre-  
sistible impulse."

Burton asked, "Where a man is induced  
to commit a crime by an impulse he  
can't resist, is he sane or insane?" "When  
that case can be proven, sir, it is insanity."

Movement Against the Sunday Law.  
SACRAMENTO, December 12.—The Li-  
censed Dealers' Association, formed to re-  
sist the enforcement of the Sunday law,  
now numbers over 1,000 members. The  
yesterday the places usually kept open  
were in full blast, and the Sunday law  
movement is dead. The Association to-  
night decided to receive into membership  
persons from all portions of the State.  
Many applications were received from  
distant sections.

A Mystery Patient.  
(Boston Journal.)

As one passes along the street or sits  
and a public assembly he sometimes sees a  
face which strongly affects him with a  
sense of having encountered it at some  
previous time. He easily tries to recall its  
relations to himself, and finally is obliged  
reluctantly to leave it without having  
discovered the mystery. This experience hap-  
pened to a lecturer in a neighboring town  
a short time ago. As he delivered himself  
of his flowing period he became conscious  
of a weird, strange fascinating face which  
looked out at him from the crowd with a  
sense of acquaintance. It was a woman's  
face, no longer young, but still with that  
beautifying quality in it which comes from  
strength of soul and devotion to a conse-  
crated purpose; and all the evening its  
great, appealing, earnest eyes looked into  
those of the speaker. When the lecture  
ended and the orator was about to leave  
the building, he saw the woman waiting for  
him. As he came near her she said: "Did you not live in Boston in 1873?" "I did," replied the orator. "I thought so," said his questioner, "and being in town and  
hearing that you were going to lecture, I  
thought I would see you and find out if  
you were ever going to settle that little  
board bill of \$20 which you slipped out  
of my house without paying." The mystery  
of the haunting face was revealed at  
once, and the elusive debtor was obliged to  
shell out. But next time he sees a face in  
the audience which seems familiar, he will  
climb out of the back window of the lecture  
room.

A National Marriage Law.  
(Sacramento Bee-Union.)

A national marriage law is at least as  
much needed as a national bankruptcy  
law, and it is time it was enacted. Owing  
to the difference in the marriage laws of  
the several States, a serious deteriora-  
tion of public morals has been engen-  
dered. The scandals of our divorce pro-  
ceedings in various States are not inferior  
in evil to that Mormon polygamy, which  
we are so quick to see the wrong of. The  
absence of an uniform marriage law has  
encouraged a kind of collaboration which  
is practical cohabitation. It has also  
been the cause of unnumbered outrages  
upon helpless women. The State marriage  
laws, by their recklessness, have tempted  
scoundrels to all manner of crimes. They  
have facilitated the most cruel and brutal  
deserts. They have made marriage lightly  
regarded. They have broken the  
national respect for the family relation in  
many places, where they have led to extra-  
gance, immorality, wrongdoing of every  
sort. While we are all the puritans of  
Utah, therefore, it is in order for us to  
regulate our own domestic affairs better,  
and experience has shown that the only  
way to do this is by a national marriage  
law which will be the country one uniform  
rule. All women ought certainly to join in  
the fight for this legislation, for their interests  
are affected most by the malpractices of  
the present confused and unsatisfactory  
state of affairs in this connection.

ESTABLISHED 1868.

Union, one year..... 3.00  
UESDAY, DECEMBER 14, 1881.

THE BEE-LINE RAILWAY.

In September last we pointed out  
several at some length the import  
of constructing a railroad, which we  
named the "Bee-Line," from San  
Diego to a central point in Santa  
Barbara, Southern Arizona, known as  
Tucson. This point is less than twenty  
miles north of the Sonora line, and about  
thirty miles south of the city of Tucson,  
enroute to town, destined to be of con-  
siderable importance in the near future, is  
in a large fertile valley, surrounded  
by rolling hills, and in the course  
of two years will become a railroad center.  
Line of the Atchison, Topeka and  
Santa Fe, which leaves Tucson and passes  
in eight miles of Tombstone, is now  
graduated, and in a few months will  
be running as far as Calabasas,  
Arizona Southern, over an easy grade  
Tucson, a distance as we have said,  
is sixty miles, is a project of easy ac-  
complishment. The Sonora road, begin-  
ning at Guaymas, is already completed as  
far as Hermosillo, a distance of ninety  
miles, and there remains a gap of only one  
and forty miles to reach Cala-  
basas. And it is not impossible that the  
may be running through from Boston  
to the Pacific, either to Guaymas, by  
the end of the year 1882. By the end of  
year it is also probable that the six  
miles road between Tucson and Cala-  
basas will be constructed.

The Texas Pacific, as our readers are  
made, has a connection with the South  
Pacific last month, which establishes a  
line from New Orleans and Gal-  
veston to San Francisco. In a few months  
California Southern will reach the  
San Pacific road at or near Colton,  
placing San Diego in through rail connec-  
tion with San Francisco, and by two  
with the great network of railways  
the Atlantic coast. But the connection  
will be indirect, leaving San Diego  
"side track," as it were. Within  
next year it is expected that the Atlan-  
tic and Pacific and California Southern will  
meet; then San Diego will be the Pacific  
end of the shortest line, under one  
management, to the Northern and Central  
United States.

If there remains a connecting link, of  
nearly four hundred miles, to complete the  
test line of railway that will ever be  
traced, from tide-water to tide-water,  
it terminates in the United States,  
adjoining what we have appropriately  
called the "Bee Line." It starts from  
Diego, and extends to a southerly  
point, ending in a junction with the  
Southern Pacific, the Atlantic and  
Texas & Santa Fe from the East, the  
one from Guaymas, and the Arizona  
from Tucson. The balance of the  
line is already constructed. The route  
from Colatas is over the Atchis-  
on, Topeka and Santa Fe.

The St. Petersburg Novo Vremya vig-  
orously abhors the President's Message,  
merely because it is suggested therein that  
American citizens of the Jewish faith who  
visit Russia must not be interested in  
the Russian Government. It is a  
newspaper that is very pro-American  
and anti-Russian.

The editor of a religious newspaper com-  
plains of correspondent, a clergyman,  
for sending him letters which have first to  
be translated for the printer, or run the  
risk of being mistaken for a broker's cipher  
dispatch. One of them the much enduring  
editor prints, to show how much of a vex-  
ation to the spirit and a disturber of the  
religious calm the clergy can be when they  
"take their pen in hand" to furnish their  
favorite weekly with "items."

"Dear Bro. Please make room for the fol-  
lowing item: The Pres. Ch. of Kylograph  
has its meeting Nov. 4. New ch building  
will open. The X of St in this ch unusually  
hopeful—21 at last count, 10 let it on prof.  
I enclose \$2 on sub. Ch. of Wm. Jones  
to Pangataki. Our Sab Sch is flouring—10  
conv. from little class.

"Yours in Xt,  
"Yours in Xt,  
"The \$2 on sub," of course made it  
more tolerable than it would have been  
otherwise.

Dr. MacLean of Norwalk, Ct., recom-  
mends the following as a preventive of  
diphtheria, remarking: "During the four  
years past I have used it, and in forty well  
marked cases of diphtheria, where one  
hundred and forty persons were exposed to  
the contagion, not a single case has been  
reported to me. I use one drachm of Mon-  
selle salt, or the sub-salt of iron, in  
eight ounces cold water, adding plenty of  
sugar, simply to overcome the taste of the  
iron. Of this solution I give from two to  
eight teaspoonfuls each day, according to  
the prolixity of the disease."

The Tribune's London correspondent tele-  
graphed December 10th: The drift of  
English comment on the President's mes-  
sage is unfavorable, as you may expect,  
when the Monroe doctrine comes in. The  
news that the British Government has  
been asked to modify the Clayton-Bulwer  
Treaty is likely to lead to a strong pres-  
sure against the request when Parliament  
meets. American intervention in Chile  
and Peru is sharply criticized by the Eng-  
lish people, who are notorious for their  
aversion of the affairs of other nations.

Sir Garnet Wolseley says that 90 per  
cent of the crime in the British army is  
due directly to intemperance; that when  
the men are removed from the temptation  
of strong drink crime is practically un-  
known among them; and that when he  
was in South Africa his escort had very  
hard work to do, but did it without grum-  
bling and behaved better than any other  
set of men he ever was assisted by, for the  
reason, he believes, that every man in the  
company was a total abstainer.

General Sickles went to Europe for nearly  
six months this year, but didn't take his  
gas meter with him. His house was closed  
and the gas was turned off, but the faithful  
meter put in its work just as industri-  
ously as ever. At any rate, the gas com-  
pany sent in a bill for consumption of 1000  
feet a month, which Sickles refused to pay,  
saying he had not used 1000 feet.

The St. Petersburg Novo Vremya vig-  
orously abhors the President's Message,  
merely because it is suggested therein that  
American citizens of the Jewish faith who  
visit Russia must not be interested in  
the Russian Government. It is a  
newspaper that is very pro-American  
and anti-Russian.

been made by the Mexican Government

building of this road. This we

way clear and if we are not greatly

misled, it will not be long before the

stage of this short route will attract

attention of the capitalist and the rail-

builder.

On the line of this road there are a

series of valleys scattered at intervals

and in a considerable population

rich Colorado bottoms well suited

to growing of cotton, sugar, and other

etc a vast mineral belt that is said

very rich, both in quartz and placer

gold bodies of timber. These will all

be ore or tributary. But the short-

of the line can not be over estimated.

Attention will multiply rapidly from this

onward in Texas, New Mexico, Ari-

Northern Mexico and California.

Teeming industries will invite the

growth of many roads. Competition will

be sharp, and as we have said, distance

is a most important figure in the way

using one line an advantage over

the other. Hence, we are justified in the

conclusion that the "Be-Line," in the near

future, will become one of the leading

roads across the American continent.

Union survivors of the War of the

Union are estimated at 1,100,000 to 1,

000. There are about 200,000 per-

son on the roll July 1st, and there are

60 applications on file, of which two

will probably be granted.

At yesterday about noon that a destructive fire was raging in Oakland. As far as ever the wife to that man, which is the only means of information, it is to say that the rumor is false.

—At Quin, the Chinese merchant on th street, reached home yesterday with Chinese bride and a new stock of oils. This celestial pair have become "civilized" enough to be Presbyterians; they still retain the garb worn by the very Kingdom.

The gross receipts of the late Unitarian, we understand, will amount to about \$10, the expenses being a little over \$3. This is a substantial recognition of really deserving entertainment, to say the good purpose for which the meeting is to be used.

Measures, Hume R. Steele and John W. Young, reached San Diego yesterday, from Pulaski, Tennessee. Mr. Steele became the law partner of John R. Egan, of this city, and Mr. Young remains awhile to test the qualities of semi-tropical region.

#### Personal.

—T. L. Rogers and children left yesterday for Santa Barbara, where they will remain for a time, prior to their return. In anticipation of her departure, Rogers was complimented with a well party Monday evening by the friends and acquaintances she had during her stay in this city. Mrs. Rogers will remain here at his post in the road office until next spring, but will do the holidays with his family at a Barbara.

#### City Band.

At night while the staff of The Union busily engaged dishing up the daily in sudden dash of harmonious music easily disturbed us. It was the City Band who thus honored us. After a couple of pieces had been rendered in a bare way, button-holed and several exchanged. The band has been somewhat depleted lately, owing to removals, he withdrawal of some of the members.

Last night a business meeting was held and the band placed upon a better than ever before. As now constituted, it is officered as follows: Leader, Mr. Burgess; President, Julius Holm Steere; Charles Trainer; Treasurer, Henry Liberman; Fred Huben. Other members are, J. A. Cohen, George Spangler, H. Wilson, Charles Campbell, and Wham. These are all gentlemen of great talent, and energy, and we have reason to the future high standing of the City Band. Certainly if such music can be rendered by them on every third night of their re-organization, I believe to last night, their musical talents are certainly. They have our thanks for the compliment paid their office.

A. White, City; Isaac Rich, Temecula; Eugene Hanson, C. S. R. R.

#### Riverside and the Railroad.

Now that the anxiety has subsided and the people of Riverside have accepted the situation, it appears that they are not so much disappointed after all in the location of the line of the California Southern. The Press says that the road will pass within a mile and three-quarters of the center of the Town, and that real estate has branched up and materially advanced in price on reception of the news of the location.

doubt of that," said I. "I do not suppose you will allow a single pound to pass, of which this value tariff has not been paid." This is an equality against which I protest. It is equal privileges, not equal disabilities, which we ask."

#### How to Shake Hands.

(By J. B. Boosman.)

There are only two or three people now living who can successfully shake hands. There is a good deal of hand shaking done throughout the country, especially at this season of the year, but only a small per cent of the shakers and shakers know how to do it so as to get the full amount of exhilaration out of it. Some grab the hand of an adversary in a quick, nervous manner that scares the victim nearly to death, while others shake the cold hand, naming at you that you feel the same as when you drop a cold, raw oyster, with vinegar on it, down your back. If you are shaking hands with a lady inclose your hand forward with a soft, and graceful yet half-clumsy movement, like a boy climbing a barbed-wire fence with a fifty-pound watermelon. Look gently into her eyes with a kind of pleasing smile, beam on her features a bright and winsome smile, say something that you have heard some one else say on similar occasions, and, in the mean time shake her hand in a subdued yet vigorous way, not as though you were trying to make a smash by pulverizing her fingers, nor yet in too conservative a manner, allowing her hand to fall with a sickening thud when you let go. Care should be taken also not to hang on to the hand more than half an hour in public, as bystanders might make remarks. This is now considered quite out of and mandatory.
